ADDITIONAL AND AMENDED PORT AND HARBOR REGULATIONS.

PROCLAMATION

By His Excellency the Honorable Sir WILLIAM FOSTER STAWELL, Knight, the Chief Justice of the Colony of Victoria, and the Administrator of the Government of the said colony, &c., &c., &c.

WHEREAS by the *Passengers, Harbors, and Navigation Statute 1865* it is among other things enacted, that the Governor in Council, by proclamation published in the *Government Gazette*, may from time to time define the limits and boundaries of ports in Victoria, and frame rules and regulations for the governance and preservation of the said ports respectively, and for the regulation of shipping in the same; and also for the due protection and preservation and the good government and management of all public wharfs; and may appoint officers to carry out and enforce such rules and regulations; and any such limits, boundaries, rules, and regulations may from time to time be in like manner altered, amended, or repealed, and others substituted in their stead. Now therefore I, the Administrator of the Government of Victoria, with the advice of the Executive Council, do hereby frame the clauses hereinafter numbered 43A, 44A, 54A as *additional* Port and Harbor Regulations, and do hereby also frame the clauses hereinafter numbered 64, 66, and 67 as *amended* Port and Harbor Regulations, and to be observed accordingly, in lieu of clauses numbered 64, 66, 67, 69, and 70, published in the issue of the *Government Gazette* numbered 54, and bearing date the 21st day of May 1867, which are hereby repealed.

NEW PORT AND HARBOR REGULATIONS.

43A. *Yards to be peaked or braced, and booms, &c., to be rigged in.*—Every vessel in tow of a steamer proceeding up or down the River Yarra shall have the yards apeak or braced fore and aft, and the jibboom and flying jibboom rigged in to within three feet from the cap, and all running bowsprits run in close to the stems; the studding-sail booms and irons taken from the yards; the quarter and stern davits, the main and mizen booms and bumpkins, rigged in; and while lying in the river shall peak the yards as directed by the Harbor Master.

44A. *Vessels about to be docked to be reported to Harbor Master.*—No vessel shall be taken up the River Yarra for the purpose of being admitted into dock, nor shall any vessel be docked, undocked, or removed to or from any wharf, quay, pier, or anchorage, to or from any dock or dock-wharf without due notice thereof being given to the Harbor Master.

54A. *Space round cranes to be kept clear.*—No goods will be allowed to remain after being landed upon any wharf or wharf road within the radius of any of the public cranes, nor shall any goods or other articles be deposited for shipment or otherwise upon any wharf or wharf road within the above-named radius and an approach of twenty-five (25) feet wide of the wharf roads in front of, and in line with, the public cranes, which must at all times be kept clear, and upon which no goods, carts, carriages, or other articles shall be placed or deposited so as to prevent the free use and working of the cranes.

AMENDED PORT AND HARBOR REGULATIONS.

64. *Ballast.*—No sand ballast or other material shall be raised from below high-water mark for ballasting vessels, except under conditions approved and at places appointed by Chief Harbor Master.

66. *Ballast vessels and persons in charge to be licensed.*—The master or any other person in charge of any vessel within the meaning of the *Passengers, Harbors, and Navigation Statute 1865* shall not receive ballast into any ship under his command unless the owner of the lighter supplying it shall be in possession of an uncanceled certificate from the Chief Harbor Master that such lighter has been duly measured and marked, and is in good order, and that the person in charge of such lighter is duly licensed; and such master or other person shall, while such lighter is employed supplying ballast to the ship under his command, keep possession of such certificate, and shall produce it on demand to the Chief Harbor Master, or any other officer deputed by him; and no ballast shall be supplied by a ballast lighter except she, as well as the master, is duly licensed by the Chief Harbor Master.

67. *Conditions upon which certificates will be granted.*—Certificates shall be issued by the Chief Harbor Master subject to the following conditions:—

(i.) All ballast lighters and persons in charge thereof shall be examined by an officer acting under the orders of the Chief Harbor Master and passed by him.

(ii.) All ballast lighters shall be surveyed once in every twelve months or within such shorter period as may be found necessary by the Chief Harbor Master.

(iii.) Every lighter shall have the number of her certificate painted on both bows in figures (white on black ground) of not less than twelve (12) inches deep and two (2) inches wide.

(iv.) An iron batten three (3) inches wide shall be secured to the sides of the stem and stern posts, or other convenient place to be decided by the Chief Harbor Master or other officer acting under his orders, and so marked as to show the draught of water for every five (5) tons weight of ballast carried or discharged, such marks to be in white figures where practicable of not less than one and a half (1½) inches deep, or of such dimensions as shall be approved by the Chief Harbor Master.

(v.) Two (2) grooves shall be cut into the planking from stem to stern post of not less than two (2) inches in width, and painted white, to denote the loaded and light draught lines; the lower edge of these grooves to be on a level with the water's edge to mark these measurements; such marks and corresponding draught of water shall be endorsed upon the certificates.

(vi.) Such licenses may be cancelled or suspended when it shall be found to the satisfaction of the Chief Harbor Master that the owner or master has defrauded or attempted to defraud the master, owner, or charterer of any ship, by altering the marks or figures on any ballast lighter, or by delivering or attempting to deliver short weight of ballast to any vessel, or from any other cause whatever, or has been guilty of such misconduct as in the opinion of the Chief Harbor Master constitutes a sufficient cause for the cancellation or suspension of any such license or certificate. Masters of vessels shall have power to inspect any lighter bringing ballast alongside such vessel for ballasting purposes, and to test the accuracy of the measurement of the ballast lighter, and the weight of the ballast she supplies; and no master or owner of any lighter shall refuse to allow such master or owner of a ship to examine such lighter, or test the weight of the ballast during her discharge, or to pump out water from the said lighter, when requested so to do.

Given under my Hand and the Seal of the Colony, at Melbourne, this nineteenth day of April, in the year of our Lord One thousand eight hundred and seventy-five, and in the thirty-eighth year of Her Majesty's reign.

WILLIAM F. STAWELL.

By His Excellency's Command,

NOTICE TO MARINERS.—QUEENSLAND.

THE accompanying Notice to Mariners, which has been extracted from the Queensland Government Gazette, is published for general information.

EDWARD COHEN,
Commissioner of Trade and Customs.

Department of Trade and Customs,
Melbourne, 21st April 1875.

WEST CHANNEL, BRISBANE RIVER BAR.

In consequence of the removal of the dredge for repairs, masters of vessels are hereby cautioned that the north-west corner of the Inner Cutting will, on Saturday the 10th instant, and until further notice, be marked by a dredge punt, moored twenty feet from the edge of the bank.

A White Light will be exhibited from it by night, and a Red Flag by day.

G. P. HEATH, Commander R.N.,
Portmaster.

Department of Ports and Harbors,
Brisbane, 8th April 1875.

NOTICE TO MARINERS.

THE accompanying hydrographical information which has been received from the Commodore commanding Australian station, is published for general information.

Hydrographical Memo. No. 13.

THE accompanying hydrographical information, which I have received from Lieutenant Rendell, commanding Her Majesty's schooner *Beagle* is promulgated for general information and guidance.

(Signed) JAMES G. GOODENOUGH,
Captain and Commodore 2nd class,
Commanding Australian station.

To the respective Captains and Officers
commanding Her Majesty's ships.

SOLOMON ISLANDS, ETC.

Guadalcanar Island.—There is a good clear channel along the N. shore, keeping about 1' distant from it. All the reefs show, so that they can be easily avoided.

Savo Island.—The natives here are very warlike, and continually at war with their neighbours. They seem, however, well disposed towards Europeans, but should not be trusted too implicitly. The island is steep to all round, and there are no outlying dangers. There is anchorage close to the beach on the N.W. side.

Guadalcanar, N.W. Point.—The reefs are said to extend 12' to the westward of this point, only breaking in heavy weather. Mr. Brodie, master of the schooner *Lavinia*, reports a shoal, with highest peak of C. Marsh Id. bearing N.E., distant about 4', which only breaks in heavy weather.

The Duke of York Cluster consists of a group of seven or eight small islands, Duke of York and Mukkedah being the principal ones. There is good anchorage in six or seven fathoms between the two latter islands, and water may be obtained on Mukkedah. There is no water in Port Hunter, although it is reported so in the sailing directions.

Cape St. George may be distinguished from the S.E. by a white patch on it, looking, at a distance, very like a sail.

The positions given in Findlay's Directory about here are very doubtful.

Port Praslin is given by Duperrey as being in lat. 4° 49' 45" S., long. 152° 54' 40" E. This position agrees with that of a harbor which I have called *Lavinia Harbor*, from the natives there having taken the *Lavinia* schooner. It is on the S.E. coast of New Ireland, about 3' S. of C. Bougainville. The native name is *Melik*. It is well protected from westerly winds, though open to the S.E. Good anchorage in five to seven fathoms, with a level sandy bottom just inside the bluff at the entrance to the bay. There is a large river emptying itself into the bay, but the hostility of the natives should deter vessels from visiting it unless well armed.

Belcher's Port Praslin is 2' N. of C. St. George, in lat. 4° 49' S., long. 152° 48' E.

Carteret Harbor.—The position of Carteret Harbor in the Directory, viz., 4° 22' S., long. 152° 50' E. differs considerably from that in Chart No. 1105 (C. St. George to Carteret Ist.), viz., 4° 41' 30" S. lat., 152° 42' 25" E. long. The latter is the correct one.

The current in *St. George's Channel* follows the monsoon. It generally turns before the N.W. monsoon sets in. The rains are very heavy and continue nearly all the year round. Winds light and variable with strong sea breezes on clear days.

St. George's Channel is very free from dangers. The New Ireland shore may be approached quite close, but there are reefs running out about a mile or thereabouts from the New Britain coast.

New Georgia Group.—*Keso* or *Shark Island* is situated on the N.W. end of a long coral reef, running out from the N.W. point of New Georgia. It is about 21' N.E. by E. from Eddystone Island. There is a very good anchorage at the E. end of the island inside the coral reefs. The entrance is about 1/2' across and is easily distinguishable from the masthead coming from the southward. There is a coral patch with two fathoms on it in the middle of the harbor, but this can easily be seen

and avoided. The best anchorage is in fourteen to fifteen fathoms off the village. The natives here are a colony from Rubiana.

No water can be obtained here, but must be got from Koulambangra, 12' distant.

To go to Koulambangra there are two routes—one through an opening in the northern reef of about half a cable's width with ten fathoms in it, at about 1 1/2' to windward of Keso Island; the other route is to go out through the southern opening or entrance of Keso Harbor, and work to windward along the reefs till the peak of Koulambangra bears N.E., when there is a clear passage of a mile in width through both reefs. The islands on the N. reef are generally sandy, while on the southern reef the trees grow down to the water's edge.

Koulambangra is a very conspicuous island, apparently volcanic. It rises quite abruptly from the water's edge all round to a peak about 3000 feet in height. The natives assert that at the summit of this peak is a saltwater lake, full of fish. The island is steep to all round. Water is to be obtained from a river on the S.W. side, with Simbo or Eddystone Island just open to the eastward of the first large island east of Keso.

Bird Island.—Passed between Bird Island and Wreck Reef. There appears to be a snug anchorage for small vessels inside the lagoon to the leeward of Bird Island.

TORRES STRAITS—INNER ROUTE.

Zebra Shoal.—The *Beagle* passed over the position of Zebra Shoal, and the shoal marked E.D. N. of the Palm Islands, but the lead gave no intimation of shoal water, 1-10th was carried over the spot. We passed frequent large patches of spawn which have very much the appearance of discolored water, and may have given rise to the reports of these shoals.

Mourilyan Harbor.—Captain Chapman, of the schooner *Johns Lane*, reports that he had visited this harbor, and he considered it dangerous for any vessel to enter it, as his vessel grounded just inside and he could not find deep water to lie in there, while the natives are numerous and hostile.

Megara Rock.—We passed close to the position of this rock but saw nothing of it.

Port Darwin.—A good leading mark into Port Darwin is King's Table, open twice its width of Tale Head, until Point Emery bears E., when haul in for the anchorage off Fort Hill. The best anchorage is in eight fathoms with Fort Hill bearing N.W. by W. Off the settlement the holding ground is bad.

There is a mud flat drying at L.W. Springs running out in a W.S.W. direction, about half a mile from the settlement. It is very convenient for beaching vessels, as the rise and fall is so great.

Clarence Straits.—The islands and shoals in these straits appear to be laid down very roughly, as most of the shoals are sandbanks; they probably shift frequently. Great care should be taken in navigating these straits, especially if the channel to the northward of N. Vernon Island be taken. There is a shoal running off from Cape Gambier in a S.W. direction. We got three fathoms, with Cape Gambier N. by E. 5', and the shoal water appeared to extend for some distance (see chart No. 1044, N. coast of Aust., sheet IV., corrs. 10/71).

Holothuria Banks.—*Beagle* passed close to the position of Holothuria Banks and the one marked to the N.W. of them but without seeing them.

AUSTRALIA—NORTH-WEST COAST.

Port Walcott or *Tien-tsin Harbor* (see chart No. 1055, Aust. W. coast, sheet 7, corrs. June 72).—There is no shelter in Tien-tsin Bay with easterly winds, and there is occasionally a heavy sea rolling in. There is a beacon on Jarman Island, which is a good mark for Tien-tsin Bay. Port Walcott is liable to be visited by hurricanes.

The passage between C. Lambert and Bezout Island is reported as being unsafe for any but the smallest boats.

Delambre Island.—The reefs run out further from this island than laid down in the charts.

Haing Island and the next island to the westward are connected with Legendre Island by a coral reef, drying at L.W.

Flying Foam Passage is formed by Legendre Island on the N., Dolphin Island on the S.E., and Angel and Gidley Islands on the W., the latter being the northernmost island. There is a good deep channel of five to six fathoms, and about four cables wide, with steep coral reefs on each side, the water shoaling very rapidly as the reefs are approached. There are several rocks on each side of the channel which show at half-tide. The tide-streams run very strong through the passage at springs. The streams meet abreast of the boat passage between Angel and Gidley Islands. There is also a boat passage between Dolphin Island and the main land, but it is not recommended as it is full of rocks. The deepest water in this part of the channel is about three fathoms close to Pelican Rock. There is a dangerous reef running about a mile off the S.W. point of Angel Island, which only breaks at intervals.

A spit of sand which only dries at L.W. runs in-shore from the small sandy island at the S.W. entrance of the Flying Foam Passage, but there is a deep channel between the end of it and the main land.

It is H.W. F.&C. in Flying Foam Passage about 11.30. Springs rise 16 to 17 feet.

Hampton Harbor is formed by the Eastern large island of the Intercourse Islands (see plan 1053 Dampler's Archipel, corrs. April 1866, and chart No. 1055, Australia W. coast, sheet 7, corrs. June 1872).—There is a good sheltered anchorage in three fathoms mud and sand with the centre of the island north about half a mile or less. The water shoals on approaching the main land. There is a ridge of rocks running out from the eastern point of the island about E.N.E.; and there is a rock, which dries only at L.W. springs, nearly mid-channel between the small island at the entrance and the large island. There is also a sandbank and reef running about S.S.W. half to three-quarters of a mile from this small island. The passage to the westward of large Intercourse Island is shoal and should only be attempted in a boat.

There is a chain of islands to the westward separated from the main land by shallow creeks where "Low rocky shore" is marked on the chart, the entrance being between Rocky-headed Hill and the point to the N. of it.

The two parts of Lewis Island are separated by a shallow boat channel.

The mouth of the Fortescue River is to the westward of C. Preston, with the small mangrove island on, with C. Preston bearing about N.E. Fresh water may be obtained 3' up the river, but vessels of any draught can only go up about a mile.

There is a very extensive coral reef running off on all sides from the small island W. 7' from Cape Preston. All these islands marked "rocky" are principally sand but fringed with rocks; they have the appearance of rocks at a distance, from the white sand showing between the low bushes and spinifex grass, which are the only vegetation on them. The large island W.S.W. from C. Preston 15' I have called *Sholl Island*.

Barrow Island (see chart No. 1055 Australia W. coast, sheet 7, corrns. June 1872) is placed 5' too far to the eastward. It is fringed on the E. side by a coral reef from 2' to 3½' in width, and from abreast the S.E. point of the island it runs away S.S.E. 14'. It is of dark coral and not easily distinguished at any distance except on the W. side with a strong sea breeze, when it breaks in two fathoms. There are two islets off the S.W. point of Barrow Island, and very good fresh water may be obtained in a creek on Barrow Island, with sheltered anchorage between the northern of the two islets and the S.W. point, but the anchorage is difficult of access on account of the reefs which extend across the entrance and which can only be crossed at high water.

The alteration of 5' in the position of Barrow Island will probably extend also to the Monte Bello Islands and Richie's Reef, as the relative positions of these appear to be correct.

Great Sandy Island, which I have called *Beagle Island*, is composed of three islands connected by a reef. The N.E. island is rocky, from which the reef runs nearly due S. to a sandy cay, and then trends away S.W. to the principal island. There is a reef running off from the S.W. point about ¼', and there is a good anchorage in four to five fathoms sandy bottom with the S.W. point bearing W.S.W., and shelter from the prevailing winds.

There is a coral reef with less than a fathom on it S.E. 5½' from the S.W. pt. of Great Sandy Island.

Mary Anne Group consists of eight small islands, the majority of which are little more than sandbanks. They are all more or less fringed with reefs and the passages between are very dangerous, on account of sandbanks and shoals. There is a very dangerous reef running to the northward from the north-western island of the group, which breaks heavily at times, and the uneven bottom in its vicinity causes heavy overfalls with the sea-breeze and an ebb-tide, as the tides run three knots at springs between this reef and the Barrow Island Reef. Great caution must be used, and every attention paid to the lead in navigating amongst the islands of this group. A mast-head look-out is indispensable, but should not be too implicitly relied on.

Port Weld is a small indentation in the coast line 15' S.S.W. from Great Sandy Island. It is formed by Kate Kearney Island, a small mangrove island, which I place in lat. 21° 23' S., long. 115° 27' E. It affords shelter for small vessels from all winds, except northerly, and the holding ground is good (sand and mud) two fathoms, is the deepest water at L.W. springs.

It is H.W. F.&C. about noon.

Springs rise 10 to 12 feet. Brackish water may be obtained from a creek about 2' to the eastward of Port Weld.

Theneard Island is an extensive island, being 7' or 8' in length, E. and W.

Remarks on the Winds and Weather.—During the summer season on the N.W. coast. In the months of January and February the sea-breeze generally sets in about 10 a.m., and blows strong all day and sometimes half the night. It varies from S.W. to W.N.W., blowing stronger when it backs to the northward. About 4 or 5 p.m. the clouds generally gather up heavy over the land, with much lightning, and occasionally break over the coast-line with a sharp squall about 7 or 8 p.m. During this season hurricanes have been experienced, but they do not appear to extend over any great area. In 1871, about Christmas, a very severe one was felt at Roebourne, which blew all the houses down, whilst at the DeGrey River to the eastward and the Fortescue River to the westward it was hardly felt at all. In 1872 one was experienced on the DeGrey which was barely felt at Roebourne. They do not appear to be of any great duration. The heat is very great. Our thermometer constantly stood at 92° by day and 88° by night, but the air is so dry that the heat is not a trying one.

The climate is very healthy, its only drawbacks being the scarcity of water, and consequently the impossibility of obtaining any green food.

Tides and Currents.—It is impossible to give any guide to the set of the currents on this coast. The numerous small islands all appear to affect them, and in some places the stream turns at half-tide, which renders it impossible to distinguish the flood-stream from the ebb. It is therefore necessary to pay great attention to bearings at all times, to avoid being set on sandbanks or reefs.

The range of tide gradually decreases as you get to the westward from 18 feet at Port Walcott to five or six feet at the N.W. cape.

Supplies.—Capital fresh beef and mutton may be obtained at Port Walcott, and the islands all abound in turtle. At Barrow Island kangaroo may easily be obtained. All stores are very expensive at Port Walcott, on account of the high freights. The only good watering-places at present known are Beadon and Barrow Islands (S.W. pt.), and both these are only suited to vessels of light draught.

(Signed) FREDK. J. RENDELL,
Lieutenant Commanding H.M. schooner *Beagle*.

The death rate still continues rather high for this time of the year. Of the 111 deaths 59 or 53 per cent. were children not exceeding the age of 3 years, of whom 25 or 22½ per cent. were under 1 year, and the remaining 14 or about 12½ per cent. were of the ages of 1 to 3 years, the causes of mortality among them being distributed pretty equally among the diseases peculiar to children. Dysentery and diarrhoea are reported as prevalent at Flemington and North Melbourne. The other districts, with the exception of colds and a few remaining cases of measles, do not show any prevailing epidemic. The following are the deaths in charitable institutions:—Kew, 1 in the asylum; South Melbourne, 13 in hospital, and 1 in the gaol; Prahran, 3 in the hospital.

QUARTERLY REPORTS OF INSPECTORS OF SHEEP.

IN pursuance of the provisions of the 12th section of *The Scab Act 1870*, the subjoined reports, which have been transmitted to me by the Inspectors of Sheep, on the state of the districts in which they are respectively acting, as respects the subject-matter of the said Act, and the execution of the same therein, are published.

JAMES FENTON SHAW,
Acting Chief Inspector of Sheep.

53a Flinders street west,
Melbourne, 14th April 1875.

BALLARAT DISTRICT.

IN compliance with clause 12 of *The Scab Act 1870*, I have the honor to report on the state of the flocks in my district.

The Ballarat Nos. 1 and 2 Clean Districts have been amalgamated since my last report, and the whole is now one proclaimed clean district; no known scab exists therein.

I have granted permits during the quarter to one hundred and sixty-one (161) applicants for the admission of two hundred and eighty-nine thousand seven hundred and eighty-five (289,785) sheep into the Ballarat Clean District.

EDMUND ELLIGET.

Ballarat, 31st March 1875.

CASTLEMAINE DISTRICT.

I HAVE the honor, in accordance with section 12 of the *Scab Act*, to forward to you my report of this district for the quarter ending 31st March. The Tullaroop quarantine was released during the quarter, and the Castlemaine district gazetted a No. 2 Clean District, both of which alterations were recommended by the Board of Advice. So far as I have gone with the inspection of the district I have found the sheep in a healthy condition.

M. McEACHERN.

Castlemaine, 31st March 1875.

GEELONG DISTRICT.

I HAVE the honor, in accordance with section 12 of the *Scab Act*, to hand this my report of the district for the first quarter of the year.

I am glad to be able to state that we have been entirely free from scab for a considerable time, as the last license expired in December 1873. And at the meeting of the Board of Advice, held on the 25th ultimo, at Inverleigh, a resolution was passed to apply to the Minister to proclaim the whole of the district, with the exception of the road to Melbourne and a strip round the town of Geelong, clean. This is to enable sheep to be brought from Melbourne to the Geelong Yards without a permit, but I fear will cause a great deal of trouble, as no stock can leave the yards in any direction except the Melbourne road, without a permit.

JAMES RILEY.

St. Helen's, Geelong West, 1st April 1875.

GIPPSLAND DISTRICT.

IN compliance with the 12th section of *Prevention of Scab in Sheep Act 1870*, I have the honor herewith to forward you my quarterly report. All sheep in this, my district, are in good healthy condition and free from scab.

JNO. M. ALLAN.

Salce, 31st March 1875.

HAMILTON DISTRICT.

I HAVE the honor to report upon the state of this district for the quarter ending 31st March 1875:—

The sheep in this district still continue clean.

ROBT. KERR.

Hamilton, 2nd April 1875.

KILMORE DISTRICT.

IN accordance with the 12th section of the *Scab Act*, I have the honor to report as follows for the quarter ending 31st March:—

There has been no outbreak of scab in the Kilmore District since September last, and I have now every reason to believe that the district is thoroughly clean.

W. H. STEPHEN.

Kilmore, 7th April 1875.

MANSFIELD DISTRICT.

IN compliance with clause 12 of *The Scab Act 1870*, I have the honor to forward you my report of the state of the Mansfield District for the quarter ending 31st March.

The sheep kept on the Acheron run, and referred to in my last quarterly report as being the only doubtful sheep in this district, I am pleased to say, from careful inspections made during the quarter, look well, and to all appearance are now clean. This station has recently changed ownership, and is now under better and more careful management, the fences are however still in a bad state; and from there being a large extent of rough, scrubby, unoccupied country adjoining, a considerable time must elapse before the run can be with safety pronounced clean.

The Board of Advice has recommended that the following runs—Eglinton, Mount Pleasant, and Eildon—should be released from quarantine, and included in the Mansfield Clean District.

The number of sheep in the quarantine district is 34,000. If the above recommendation of the Board of Advice is carried into effect this number will be reduced to 14,000 in quarantine.

The sheep kept within the clean district continue in a very satisfactory state, free from scab and looking healthy.

WM. H. McWILLIAM.

Mansfield, 8rd April 1875.

MELBOURNE DISTRICT.

I HAVE the honor to report that the Melbourne District has continued free from scab during the quarter ending 31st March 1875.

JAMES FENTON SHAW.

Office of Inspector of Sheep,
Melbourne, 1st April 1875.

NORTH-EASTERN DISTRICT.

IN compliance with the 12th section of the *Scab Act*, I have the honor to report that the North-eastern District still continues free from scab.

RICHARD PERRY.

Beechworth, 1st April 1875.

SANDHURST DISTRICT.

I HAVE the honor to state, as required by clause 12 of *The Scab Act 1870*, that the Sandhurst District is free from scab, the quarantine runs of the Messrs. Coutts excepted; I have a favorable opinion of these quarantine sheep, no scab being seen among them for a lengthened period, and think that in a few weeks after next rain the question will be decided whether scab exists on these runs or not.

M. DUGAN.

Sandhurst, 1st April 1875.

SEYMOUR DISTRICT.

As required by *The Scab Act 1870*, I have the honor to furnish the following report for the quarter ending 31st March:—
I have seen no appearance of scab in any of the sheep inspected by me during the quarter.

ROBERT STIRLING.

Seymour, 1st April 1875.

WIMMERA DISTRICT.

I HAVE the honor to forward quarterly report under Scab Act, to 31st March, for the Wimmera District. Nothing of importance has occurred during that time. My Board of Advice has met once during the quarter. I have been absent from the district on other duties since the 12th March.

WILLIAM SPURLING.

Euston, 5th April 1875.

THE COMPANIES STATUTE 1864.

I HEREBY certify that "The Bollna-bollna South Australian Mining and Smelting Company Limited" has been this day registered by me, and notify that the said company is incorporated, and is limited by shares.

2. That such residence and offices must be of stone or brick, and be built in compliance with the provisions of the Melbourne Building Act and of Bye-law No. 47 of the Corporation of Melbourne.
3. That the allotment shall not be used for any other purpose than the site of one such residence with its offices, and shall not at any time be sold or otherwise alienated in any smaller parcel.
4. Provided that, notwithstanding the condition as to the land being only the site of one villa residence, the site may be used for the erection on it of a terrace of houses, of not less than two stories in height; provided that no other buildings or residences, save the offices requisite for the houses in such terrace, be erected in rear of them, and that such terrace be according to a design to be previously submitted to and approved by the Board of Land and Works.
5. That the four preceding conditions be embodied in the Crown Grant as conditions thereof, and that it shall be a condition of the Grant that the land shall be absolutely forfeited to the Crown in case of the failure in or breach of any of the aforesaid conditions.

Lots 5, 7, 8, 9, 10, and 11 will be sold subject to the following special condition:—

The Crown reserves the right and power for the Board of Land and Works, or any of its officers, agents, or contractors, to enter upon the land contained in any of the allotments 5, 7, 8, 9, 10, and 11 of section N, for the purpose of cutting, excavating, tunnelling, or removing the earthwork around the line of pipes which passes through these allotments, and so removing, altering, or repairing the said pipes.

The Responsible Minister of the Crown administering
The Land Act 1869.

Department of Lands and Agriculture,
Melbourne, 21st April 1875.

SCHEDULE.

Inglewood district: William Hockley Hardy; parish of Calivil; extent, 67a. 3r. 20p.—(Corr. 824/19 section.)

PETITION UNDER THE "LOCAL GOVERNMENT ACT 1874."

SHIRE OF SOUTH BARWON.

IN pursuance of the provisions of the *Local Government Act 1874* (No. 506, § 46), the substance and prayer of a petition, in accordance with the 39th and 44th sections of the said Act, which has been presented to His Excellency the Administrator of the Government in Council, are published, viz.:—

The petitioners state that they are more than one-fourth of the inhabitant householders of the Shire of South Barwon, and that they are desirous that the said shire be divided into three ridings, viz.:—

The Kardinia Riding,
The Barwon Riding,
The Connemarré Riding,

and they pray as follows:—

"Your petitioners therefore humbly pray that Your Excellency, by and with the advice of the Executive Council, will be pleased to subdivide the Shire of South Barwon into three ridings, in accordance with the names and boundaries hereinbefore stated and described."

D. GILLIES,
Commissioner of Railways and Roads.

Office of Railways and Roads,
Melbourne, 22nd April 1875.

PROPOSED TRANSFER OF AREA UNDER THE "LOCAL GOVERNMENT ACT 1874."

IN pursuance of the provisions of the *Local Government Act 1874* (No. 506, § 46), the substance and prayer of a petition, in accordance with the 44th section of the said Act, which has been presented to His Excellency the Administrator of the Government, are published, viz.:—

The petitioners purport to constitute a majority of the ratepayers in the portion of the shire of Maldon, which is described in their petition, and they are desirous that the area so described may be severed from the Shire of Maldon and attached to the Shire of Tullaroop.

Area described in the petition:—
Commencing at the north-east angle of allotment 2b, section 3, parish of Eddington, thence south to the south-east angle of allotment 8b, section 3, same parish; thence west to the Tullaroop Creek, being a point at the south-west angle of allotment 12b, section 2, same parish; thence northerly by the said creek to its junction with the Loddon River; thence south-easterly by the said Loddon River to the commencing point.

The petitioners pray that the portion of land described in the petition, now forming portion of the Shire of Maldon, may be severed therefrom and annexed to the Shire of Tullaroop.

D. GILLIES,
Commissioner of Railways and Roads.

Office of Railways and Roads,
Melbourne, 21st April 1875.

PETITION UNDER THE "LOCAL GOVERNMENT ACT 1874."

SHIRE OF WHITTLESEA.

IN pursuance of the provisions of the *Local Government Act* 1874 (No. 506, § 46), the substance and prayer of a petition, in accordance with the 39th and 44th sections of the said Act, which has been presented to His Excellency the Administrator of the Government in Council, are published, viz.:—

The petitioners purport to be one-fourth of the inhabitant householders of the Shire of Whittlesea, and they are desirous that the said shire may be divided into three ridings, and they pray as follows:—

"Your petitioners therefore humbly pray that your Excellency will be pleased to exercise the powers vested by subsection 7 of section 19 of the *Local Government Act* of 1874, and divide the Shire of Whittlesea into three ridings, to be named the Riding of Whittlesea, the Riding of Yan Yean, and the Riding of Morang, the boundaries of which are described [in the petition.]"

D. GILLIES,

Commissioner of Railways and Roads.

Office of Railways and Roads,

Tenders must be enclosed in a separate envelope, marked "Tender for —" (as the case may be), and be deposited in the Stores Tender-box at the Pay Office, Treasury, Melbourne; or (if sent by post) they must be addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne.

JAMES SERVICE,
Treasurer.

Treasury,
Melbourne, 16th April 1875.

WITHDRAWAL OF NOTICES RESPECTING CERTAIN MAIL SERVICES, 1875-76.

REFERRING to the fourth call for Tenders for Mail Conveyance, 1875-76, dated 3rd March 1875, it is hereby notified that the notices respecting services No. 363, to and from Taradale and Greenhill, and No. 384, to and from the Post Office and the Railway Station, Trawalla, are withdrawn.

ROBERT RAMSAY,
Postmaster-General.

Post Office and Telegraph Department,
General Post Office,
Melbourne, 21st April 1875.

CONVEYANCE OF MAILS 1875-76.

FOURTH CALL.

EIGHTY-THREE SERVICES.

TENDERS are hereby invited, and will be received until Noon of Thursday the twenty-ninth day of April 1875, for the Conveyance of Post Office Mails as undermentioned, from the 1st July 1875 to 30th June 1876.

The covers of Tenders for these services must be endorsed "Tenders for Fourth Call."

Tenders are required to be written on a form, printed copies of which may be had gratuitously on application at any post office in the colony, and may be forwarded (if by post, prepaid) addressed to the Honorable the Postmaster-General, with the words "Tender for the Conveyance of Mails" endorsed on the cover, or placed in the tender-box at the General Post Office.

Tenderers are requested to describe by their numbers, as below, the mail services for which they tender, and every tender will be taken to include the entire service as called for. The amount of the tender must be stated in words as well as figures.

Every tender must bear the *bona fide* signatures and addresses of the tenderer, and of two responsible persons willing to become bound for the fulfilment of the same in such sum as the Government may direct, not exceeding the gross amount of the contract.

Every tender must be accompanied by a bank deposit-receipt for a sum equal to TEN PER CENT. of the amount for which the tenderer is willing to undertake the service; the money to be lodged to the credit of the Deputy Postmaster-General, and to be absolutely forfeited to the Government in case the person whose tender may be accepted shall fail to complete, within ten days of the date of notice being given of the acceptance of his tender, the usual bond and contract to the satisfaction of the Government. The notice of acceptance, if delivered at the address named in the tender, shall be deemed sufficient.

The money deposited by successful tenderers will be returned to them upon application, on the bond and contract being completed.

The money deposited by unsuccessful tenderers will be returned to them upon application, and on their signing receipts for the respective amounts, but not otherwise.

In the event of a portion of railway affecting any particular service being opened for traffic during period of contract, and it being decided that the mails shall be conveyed by rail, the place of departure for the mail coaches shall be altered in such way as the Postmaster-General may from time to time direct; a rateable reduction shall be made in the amount paid for the service as then rendered by the contractors, such reduction to be computed on the basis of the average mileage rate of the lump tender or the average mileage rate of the single tender, in whichever form the tender may be accepted.

Persons tendering are requested to state the description of the vehicle they intend to use, and the number of horses by which it is to be drawn.

A separate tender must be sent in for each service; but notwithstanding this condition, any offer will be entertained for the performance of any number of services for a lump sum. The number of the service or services tendered for must be plainly endorsed on the outside of the cover, and on the tender itself.

The tender of any person failing to comply with the foregoing conditions will not be entertained.

The general conditions referred to in the printed form of tender, and upon which the tender is to be made, can be inspected by persons proposing to tender, either at the General Post Office or at any post office in the colony.

The attention of tenderers is drawn to the condition which requires that in cases where vehicles are used, Members of Parliament shall be conveyed free of charge between the districts they represent and the districts in which they reside and Melbourne.

The contractor shall not be entitled to claim any extra payment on account of the removal of any Post Office during the term of his contract, unless such removal shall increase the distance to be travelled by such contractor on any one day to the extent of one mile.

The Government will not necessarily accept the lowest or any tender.

APPLICATION FOR LEAVE TO DISPOSE OF LAND.

Victoria: Act 391, First Schedule.

I, THE Most Reverend James Alipius Goold, D.D., head or authorized representative of the denomination known as the Roman Catholic Church, with the consent of the Honorable Sir John O'Shanassy and John Cosgrave, trustees of the land described in the subjoined statement of trusts, hereby apply to the Governor of the colony of Victoria for leave to dispose of the said land by the means and for the purposes mentioned in the said statement of trusts. And I hereby certify that the said land was reserved by notification in the *Government Gazette* on the seventh day of October, One thousand eight hundred and sixty-two, for the purpose of Roman Catholic church, school, and minister's dwelling that the only trustees of the said land resident in the colony of Victoria are the Most Reverend James Alipius Goold, D.D., the Honorable Sir John O'Shanassy, and John Cosgrave. That the only buildings upon the said land are St. Mary's Church and School, and a clergyman's dwelling, and that the only persons entitled to minister in or occupy the same are any clergyman and school teachers appointed from time to time by the Roman Catholic Archbishop of Melbourne for that purpose.

Signature of head or authorized representative—

J. A. GOOLD,
Archbishop of Melbourne.

We consent to this application—

JOHN O'SHANASSY.
JOHN COSGRAVE.

STATEMENT OF TRUSTS.

Description of Land.—Two acres, county of Bourke, parish of North Melbourne, part of section 1, Melbourne north: Commencing at the north-east angle of said section; thence bounded on the east by Howard street, bearing south four chains; on the south by allotments eight and seven, bearing west five chains; on the west by Chetwynd street, bearing north four chains; and on the north by Victoria street, bearing east five chains to the point of commencement.

Names of Trustees.—The Most Reverend James Alipius Goold, D.D., the Honorable Sir John O'Shanassy, and John Cosgrave.

Purposes of Disposition.—Power to sell, exchange, mortgage, or lease, with the approval of the Roman Catholic Archbishop of Melbourne.

Purposes to which Proceeds of Disposition are to be applied.—To such purposes of the Roman Catholic Church as may be agreed upon from time to time by the Roman Catholic Archbishop of Melbourne and a majority of the trustees.
