PETITION UNDER THE "LOCAL GOVERNMENT ACT 1874."

ALEXANDRA SHIRE.

IN pursuance of the provisions of *The Local Government Act 1874* (No. 506, § 46), the substance and prayer of a petition, in accordance with the 19th, 39th, and 44th sections of the said Act, which has been presented to His Excellency the Administrator of the Government in Council, are published, viz.:—

The petitioners state that they are ratepayers of the Shire of Alexandra, and express a desire that the Shire may be proclaimed an undivided municipality, and they further state that the representation of the ratepayers in the council, as at present constituted, is manifestly unequal and unfair, and that the inequality of property in the several ridings, by having unfair representative power in the Shire council, leads to an inequitable expenditure of the Shire revenues, and consequent dissatisfaction amongst the ratepayers, and they pray as follows:—

"Your petitioners therefore respectfully submit that, by virtue of the 28th clause of *The Local Government Act 1874*, Your Excellency will be pleased to take the foregoing into your favorable consideration and create the Alexandra Shire into an undivided Shire."

The wood is, to be split out of large forest timber (of suitable quality for lighting engine fires) into billets of convenient sizes for the use of the engines, and is to be cut into billets of 2 feet in length, and no small branches will be received.

The whole of the firewood, when delivered (whether for the Loco. or Pumping Engines), is to be stacked where pointed out, at the contractor's expense, in stacks of such sizes as will be directed, ready for measurement. The stacks are to be 2 feet wide by 5 feet high, with space between each stack for measuring, and the billets are all to lie the same way, viz., crossways of the stacks, in the form of a cord, and are to be laid as closely and solidly as possible in the stacks.

A separate price is to be stated for delivery at each station, and tenderers must specify the description of wood, and, if mixed, in what proportion of kind. Delivery to commence on the acceptance of the tender.

Tenderers are to state the price at per ton of 50 cubic feet. No wood will be measured until it shall have been stacked fourteen days, so as to have settled down, and must then stand 5 feet high by 2 feet wide.

Tenders must be upon the printed forms, and no tender by telegram will be received.

Security will be required to the amount of ten per cent. on the total amount of the contract, either in Government debentures, bank deposit-receipt, or cash deposit, as the tenderer may elect. The security must be completed within ten days of the acceptance of tender, failing which the contract may be again advertised, or another tender accepted.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Secretary of the Tender Board, for Ten per cent. of the amount of the security required, which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited.

The contractor will be paid for the wood only on the measurements made by the officers of the Government, after it has been delivered and properly stacked by the contractor, and left as aforesaid. Payments will be made monthly, at the rate of Ninety per cent. on the quantity then measured. The remaining Ten per cent. together with the cash security, will be paid over to the contractor on the certificate of the General Overseer of Locomotives that the whole of the contract has been completed to his satisfaction.

The firewood is to be delivered at each place mentioned herein, and at the rate of at least 150 tons per week for the first three items above-mentioned, and 50 tons per week for the others.

For each and every week's delay in the delivery beyond the times specified in this contract the Government shall be entitled to deduct, as and for liquidated damages, the sum of Five pounds sterling.

The Railway Storekeeper shall have full power to reject any wood which he may consider not in accordance with the specification, notice of which will be given to the contractor in writing, stating the reason.

In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality or kind of timber, the same is to be decided by the General Overseer of Locomotives, whose decision shall be final.

Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

Irregularity in quantity or quality of the supplies, or delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding Twenty-five pounds for each case, as the Government may direct. It will also be in the power of the Government to terminate the contract forthwith.

Conditions of contract and forms of tender may be had at the railway stations above named, from the Railway Storekeeper, Williamstown, and from the Secretary to the Tender Board, Treasury, Melbourne.
