18. *Ballot-paper to be numbered.*—Before delivering any ballot-paper to a voter the returning officer, or his deputy or other person so appointed, shall write upon the back of each such ballot-paper, as near as practicable to the lower edge thereof, the number corresponding to the number set opposite to the voter's name in the rolls of owners of ships or merchants and traders as the case may be, and, if necessary, some mark to designate such roll; and shall thereupon, upon a copy of such roll, check off such voter's name as having voted, and shall number such name and the ballot-paper with a corresponding number.

19. *Certain indefinite votes to be void.*—If any voter shall suffer to remain upon any of his said ballot-papers a greater number of names not struck out than the number of members to be elected, the vote given on and by such paper shall be void and of no effect.

## NOTICE TO MARINERS.

THE following Hydrographic Memorandum, which has been received from the Commodore commanding the Australian Station, is published for general information.

PETER LALOR,

Commissioner of Trade and Customs.

Department of Trade and Customs,  
Melbourne, 18th December 1878.

INDISPENSABLE REEF, RENNELL ISLAND, NEPTUNE AND WELLS REEF, SANTA MARIA (BANKS GROUP), KILLERTON ISLANDS, SHOAL MARKED P.D. ON CHART.

Wolverine at Sydney,  
2nd December 1878.

[Hydrographic Memo., No. 26.]

THE accompanying Hydrographic information relative to parts of the Australian Station is promulgated for general information and guidance.

A. H. HOSKINS,  
Commodore.

To the respective Captains and Officers  
commanding Her Majesty's ships  
on the Australian Station.

Information received from Lieut. G. E. Richards, Her Majesty's schooner *Renard*.

## INDISPENSABLE REEFS.

These dangers consist of three separate reefs, running in a north-westerly and south-easterly direction, the middle reef being the largest, the north and south reefs being lagoon reefs with apparently very deep water inside.

The middle reef is of irregular form, having a wide opening in the west side.

The north point of the north reef lies in latitude  $12^{\circ} 15' 05''$  south, longitude  $159^{\circ} 59' 45''$  east, and has two conspicuous rocks on it.

From this point it runs in an east-south-easterly direction for ten miles, terminating in a sharp point. From thence west-south-westerly seven miles; then north-west to the Two Rock point. There are two breaks in the reef, one on the west side, one mile southward of the two rocks, and the other on the north side, five miles from the least point; both appear to be very narrow, and consequently difficult of entrance, especially the northern one, as the current runs strongly to the westward along the north side of the reef. The interior of this reef is very deep water.

Separated from this last described reef by a passage from one and a half to two miles wide is the middle reef, running south-easterly for twenty-two miles to a bluff point (off which is a very heavy tide rip, which might easily be mistaken for a continuation of the breakers). From thence it curves away gradually to the westward and round to the southward, thus forming a deep high fifteen miles round. The south point is in latitude  $12^{\circ} 49' S.$ , longitude  $160^{\circ} 25' E.$ . From the south end the reef trends away gradually to the westward and northward for fifteen miles, where the reef terminates. No soundings with 150 fathoms line could be obtained between the ends of this reef, and the interior appeared very deep. No anchorage of any sort could be observed, the reef being steep to all round. The passage between middle and south reef is one mile and a half across, and no bottom was obtained with 25 fathoms line.

The north point of south reef is in latitude  $12^{\circ} 50' 15'' S.$ , and longitude  $160^{\circ} 26' E.$

The reef is fifteen miles long and eight miles across, and of an oblong form, having an horseshoe curve in the south side. The extreme south point of the south reef is in latitude  $13^{\circ} 02' 45'' S.$ , longitude  $160^{\circ} 36' 15'' E.$

**Winds and Weather.**—In the vicinity of the reefs, the wind prevailed from S.E. to east with fine weather; force of wind 3. Occasionally it veered to the northward as far as N.E., accompanied on these occasions with thick weather and rain and sometimes much lightning, the barometer generally rising, and the force of the wind decreasing. This weather was usually experienced at night, and was generally succeeded by the south-easterly and easterly winds with clear weather in the day-time.

**Currents.**—To the eastward of the reef the current sets to the westward, and on striking the reef appears to divide, part running along the reef to the N.W., and the remainder taking a south-westerly direction. It varies greatly in strength and

is probably much influenced by the wind. Between Rennell Island and the reef the current sets strong to the westward. To the northward of the assigned position of the Neptune Reef, the drift was due north. In the vicinity of the chart position of Wells Reef, the current sets strongly to the westward and N.W., and is probably much influenced by the winds.

## RENNELL ISLAND.

Marked P.D. on the chart. The S.E. end of this island is in latitude  $11^{\circ} 52' 15'' S.$ , longitude  $160^{\circ} 40' E.$ . The west end is in latitude  $11^{\circ} 33' 45'' S.$ , longitude  $159^{\circ} 55' E.$ . The island is about 45 miles long and not more than 6 or 7 miles across at the widest part; is of uniform height, about 400 feet. There appears to be no anchorage of any sort, and from the appearance of the cliffs has probably deep water close to. There is a slight fringe reef off the S.E. end.

Island appears densely wooded and no signs of cultivation. The natives appear more to resemble the Tanna islanders than the inhabitants of San Christoval Island, Solomon Islands.

## NEPTUNE REEF.

The ground in the vicinity of this reported danger was carefully searched, five days being devoted to it, but no indications of shoal water were observed. No soundings at 150 fathoms close to the chart position. Several masters of merchant ships inform me that they have never seen it, although they have been close to the assigned position.

## WELLS REEF.

H.M.S. *Renard* passed over the assigned position of this danger, without finding any shoal water. Eight days' search in the vicinity gave no results, no bottom being on any occasion obtained with 150 fathoms line.

(Signed) GEORGE EDWARD RICHARDS,  
Assistant-Surveyor and Lieutenant commanding  
H.M.S. *Renard*.

Information received from Lieutenant Musters, H.M. schooner *Conflict*.

## SANTA MARIA—BANKS GROUP.

My anchorage here was on the west coast, at present has no name on the chart. It is a place worth knowing, being a safe anchorage in all winds from south through east to north, with good sandy bottom and soundings from 18 fathoms decreasing gradually. After rounding the S.W. point of the island a large bay opens out. The anchorage is unmistakable, being immediately to the westward of a black sandy beach, and the S.W. point of the island bearing about S. by W., distant about  $2\frac{1}{2}$  miles.

## KILLERTON ISLANDS.

These islands are difficult to make out. The anchorage, which is in 13 fathoms mud, is unsafe except in fine weather in the S.E. monsoon. A bright-green conical hill is a good mark for the approach.

Information furnished by H.M.S. *Nymphe*.

The *Nymphe* passed over the assigned position upon the chart to a shoal marked as having only 2 fathoms upon it, in latitude  $31^{\circ} 9' S.$ , longitude  $178^{\circ} 10' W.$ , without observing any indication of shoal water, nor could bottom be obtained at 55 fathoms.

## COMMON ADDED TO.

By His Excellency Sir GEORGE FERGUSON BOWEN, Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Colony of Victoria and its Dependencies, and Vice-Admiral of the same, &c., &c., &c.

Given under my Hand and the Seal of the Colony, at Melbourne, this seventeenth day of December, in the year of our Lord One thousand eight hundred and seventy-eight, and in the forty-second year of Her Majesty's reign.

## REGULATIONS FOR COMMONS.

THE Governor in Council has approved of the subjoined Regulations for the undermentioned Commons.

F. LONGMORE,  
Commissioner of Crown Lands and Survey.

Lands and Survey Office,  
Melbourne, 17th December 1878.

### SHIRE OF LEIGH.

REGULATIONS FOR MANAGEMENT OF THE UNDERMENTIONED COMMONS IN THE SHIRE OF LEIGH:—THE CRESSY COMMON, THE ROKEWOOD UNITED TOWN AND FARMERS' COMMON, THE NIELFORD UNITED TOWN AND FARMERS' COMMON, THE TRESDALE AND INVERLEIGH UNITED TOWN AND FARMERS' COMMON.

The Council of the Shire of Leigh, in pursuance of the Regulations relating to Commons, made by the Governor in Council on the 26th May 1873, having drafted the following regulations for management of the above-named Commons, submit the same for revision by the Board of Land and Works, in lieu of the Regulations made by the Governor in Council on the 14th day of July 1870.

### REGULATIONS.

1. *Managers.*—The managers of all commons within the Shire of Leigh (not being a goldfields common) shall be the members of the shire council for the time being.

2. *Officers.*—It shall be lawful for such managers to appoint officers, who shall be responsible for carrying out the regulations for management, and for carrying out any special instructions issued to them for the prevention of trespass or any other matter relating to the commons. Such officers shall be paid out of the fund derived from the commonage fees.

3. *Persons entitled to depasture.*—Ratepayers in the shire, holders of miners' rights, business licenses, or carriers' licenses, and farmers, may respectively depasture on any of the above-named commons, within a distance of five miles from their places of residence, four head of large cattle, or the equivalent of the whole or a portion thereof in small cattle, on the basis that one head of large cattle be deemed equivalent to three head of small cattle. A farmer having under cultivation not less than one-tenth portion of the land occupied by him may depasture on any such common one additional head of large cattle, or the equivalent in small cattle, for every ten acres of such land cultivated by him.

4. *Herdsmen's duties.*—The herdsman, assisted by the owners, shall, during the last week of each quarter, muster all stock then found on the common, and on such stock being paid for, and their description and brands entered into a book as hereinafter provided, they shall be plainly pitch-branded with the commons' brand; but if the owner of any cattle or horses object to have it or them so pitch-branded, and such cattle or horses so unbranded shall go astray or be impounded, the managers and herdsman shall be free of all responsibility in respect thereof. Notwithstanding anything herein contained, the herdsman shall be required to use due diligence for preventing all stock legally depasturing on the commons under his charge from going astray. If after the foregoing conditions have been complied with, any such branded cattle or horses be impounded, the herdsman shall give notice thereof to the owners, and shall be responsible for one-half of the pound fees and other charges, and shall release such impounded cattle or horses on the other half being paid by such owners.

5. *Quarters commence.*—The quarters shall commence on the first day of January, the first day of April, the first day of July, and the first day of October in each year.

6. *Fees to be paid in advance.*—The secretary of any common within the shire to which these regulations apply shall, on receiving fees for depasturing of cattle (which shall in all cases be paid in advance), give a receipt for such fees, and shall enter on receipt and on the block thereof the firebrands or other description of such cattle, in the form prescribed by the general regulations under *The Land Act 1869* relating to commons.

7. *Scale of fees.*—The fees for depasturing on any of the above-named commons shall be as follows, viz.:—  
For every head of large cattle ... 1s. 6d.  $\frac{1}{4}$  quarter  
For every horse or mare ... 2s. 0d.  $\frac{1}{4}$  quarter  
For every sheep or goat ... 0s. 6d.  $\frac{1}{4}$  quarter or  $\frac{1}{4}$  d.  $\frac{1}{4}$  week.

8. *Goats, &c.*—No person shall be permitted to depasture more than four goats, which shall be depastured at the owner's risk; calves or foals under nine months old will not be charged for if running with their mothers.

9. *Butchers.*—The managers shall have power to make special arrangements for the convenience of butchers requiring pasturage for cattle or sheep intended for slaughter, or may refuse to depasture any such cattle or sheep if they shall think fit.

10. *Entire horses, bulls, or dangerous animals. Diseased cattle.*—No bull or entire horse over the age of nine months shall be depastured on any of the above-named commons without the sanction, in writing, of the managers, who may refuse to allow thereon any beast which, in their opinion, would be dangerous to other stock. The herdsman shall report immediately to the managers or to the shire secretary any indication of disease in cattle on such commons, and shall give notice to the owners of such cattle; and the herdsman shall at once take steps to remove such cattle, but he shall not be responsible for any loss owners thereof may suffer.

11. *Prevention of trespass.*—The herdsman shall not permit cattle, horses, sheep, or other animals to trespass on any common under his charge.

11. *Herdsmen's responsibilities.*—The herdsman shall, on any cattle straying or being otherwise removed without the owner's consent, acquaint him thereof within three days, by written notice, or verbally in presence of a witness; and in the event of no such notice being given within that time, and cattle being lost, the herdsman shall be responsible for such loss, not exceeding Three pounds per head for cattle, and Five pounds per head for horses, to be deducted from his salary, or otherwise recovered. Provided that if the owner or any person on his behalf remove any cattle from the common without having first informed the herdsman of his intention to do so, and such cattle should subsequently be lost or impounded, neither the managers nor the herdsman shall be responsible for such loss or impounding; nor shall they be responsible for the loss or impounding of cattle not delivered into the care of the herdsman, and in respect of which a receipt for fees has not been given.

12. *Herdsmen's duties.*—The herdsman shall assist the owners of cattle depasturing on the common under his charge to separate any that they may require to remove, and shall use all vigilance and care to prevent or extinguish bush fires. In the event of cows calving on the common, or of any beast being found thereon dead or injured, he shall give notice thereof to the owner (if known) as soon as practicable.

13. *Mustering.*—The managers may order special mustering, and any expense incurred for extra assistance at such mustering shall be paid out of the commons' fund. All unregistered cattle found on the commons, the owner or owners of which are unknown, shall be at once impounded.

14. *Complaints.*—All complaints against the herdsman or the management in any way must be submitted in writing to the managers at an ordinary monthly meeting.

15. *Regulating stock to be depastured.*—No person residing more than five miles from any of the above-mentioned commons shall be allowed to depasture cattle thereon, and the managers may require any person to make a statement in writing that the cattle he desires to depasture on a common are his *bona fide* property.

16. *Accounts.*—The accounts of each common shall be audited at least once in every year by a person or persons appointed by the managers for that purpose. The annual accounts shall close on the 30th day of September in each year, and shall be audited and delivered to the shire secretary not later than the 31st day of October; in addition to which a quarterly statement of the accounts of each common shall be submitted to the shire council on its next meeting after the expiration of each quarter.

17. *Managers not responsible.*—Notwithstanding anything hereinbefore contained, the managers of commons in the Shire of Leigh shall not be responsible for any loss of or injury to any cattle or stock depasturing on such commons.

18. *Penalties.*—Any person who shall offend against any of these regulations shall, on conviction thereof before any Court of Petty Sessions, forfeit and pay a penalty not exceeding Twenty pounds, and every such penalty may be recoverable in a summary way.

\* No storage; straw to be perfectly dry.

Printed forms of tender and conditions of contract may be obtained from the Secretary, Tender Board, Treasury, Melbourne, or from the officer in charge of police at any station, by whom also information or explanation will be afforded to persons tendering.

As much forage as can be stored at any station where the storage is small, will, for the convenience of the contractor, be ordered at one time.

The price, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per cental of 100 lbs. (net weight), including delivery at the stations and all charges except the bags, which will remain the property of the contractor. At stations where the bags can be at once emptied, the contractor will be required to remove them when delivery is taken. At other stations notice will be sent to the contractor when the bags are empty. Bags to be removed at contractors' expense.

Tenders, which should be upon the printed form, will be received for either oats, bran, hay, or straw (the particular kind of hay or straw offered to be stated); but if all be included in one tender, it may be accepted for one article only, if advisable. Telegrams will not be entertained.

Tenders not complying with the terms of advertisement will not be entertained.

The successful tenderer will be required to enter into a bond for one-third of the estimated amount of the contract within ten days after the acceptance is notified. Two approved sureties are required for contracts amounting to £150 and upwards, and one surety for contracts under £150.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Forage," and deposited in the Tender-box, Pay Office, Treasury, Melbourne; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Treasury, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice, and by letter to accepted tenderers.

## CONDITIONS OF CONTRACT.

1. The hay to be good, sound, and sweet, and properly trussed; the straw to be wheaten, and both to be in all respects of the best quality; oats (Victorian grown) and bran to be sound and sweet and of the best description; chaff to be made from oatens hay of the best quality.

2. The supplies are for police, telegraph, and other horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximate, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed, or additional horses be required to be stationed at any of the stations, the contractor will be required to supply the additional forage. Should the additional number of horses, however, exceed two, the contractor may, if he desire it, terminate the contract by supplying at once the whole quantity due at the station under the contract according to the foregoing schedule.

3. The forage, when delivered, must be accompanied by the particulars of quantity, showing the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

4. Each contractor will be required to prepare his own account in the prescribed form, and on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the district, as may be indicated by the contractor on the account.

5. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

6. In the event of a difference of opinion between the contractor and the officer receiving the forage as to the quality of the same, it is to be decided by a board of survey, composed of persons named by the head of the department ordering the supply, and the decision of the board is to be considered final.

7. If the board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 3.

8. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 5.

9. A repetition of irregularity in the quantity or quality of the forage, or of the delay in delivering or replacing it when required, or refusal to execute orders, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding £20, as the Government may direct. It will also be in the power of the Government, upon such repetition, to terminate the contract forthwith.

10. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

11. It will be competent for the Secretary to the Tender Board, on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving, in writing, a notice of three full calendar months to that effect, it being understood that such notice can only be given from the 1st day of a month, and provided that no such notice can be given before the 30th September 1879; and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.

Treasurer.
