INDUSTRIAL SCHOOLS.—REGULATIONS.

PREAMBLE.

WHEREAS by "The Neglected and Criminal Children's Act 1864," it is, amongst other things, enacted that it shall be lawful for the Governor, with the advice of the Executive Council, to make Regulations for the conduct, management, and supervision of Industrial Schools (established for the purposes of the said Act), and for the education and correction of the children detained therein: Now, therefore, His Excellency the Governor, with the advice aforesaid, doth by this present order cancel the former Regulations, and make the following Regulations, that is to say:—

INSPECTION.

Industrial Schools.

1. All inmates and all children placed out therefrom, other than those finally discharged, shall be under the general supervision of the Inspector of Industrial and Reformatory Schools (hereinafter called the Inspector), subject to the direction of the Chief Secretary, who shall take such steps as may be necessary for giving effect to the provisions of the Acts relating to Neglected and Criminal Children, and any regulations made in accordance with the provisions thereof.

2. The Inspector shall inspect every Industrial School established in accordance with the provisions of the above-mentioned Acts at least once in every three months. He shall visit, either personally or by deputy, the home of every boarded-out child once in every twelve months, and arrange for the supervision of children adopted or placed at service by means of district visiting committees, or such other agencies as may be approved by the Ministerial head of the department.

3. The Inspector shall annually report to the Ministerial head of the department, for the information of Parliament, the transactions of the department, and shall also report from time to time as may be necessary any circumstances connected with the Schools or their management, or affecting the welfare or training of the children placed out, requiring Ministerial direction.

COMMITTEES.

4. Committees, to be called the school committees, shall be appointed for the Industrial Schools established under the provisions of any of the before-mentioned Acts. The committee so appointed to any school shall advise with the officer immediately in charge thereof on any point concerning which it considers the management of the school may be improved; and assist such officer in placing children eligible for service in suitable situations. Committees shall have free access to the schools to which they are appointed at all reasonable hours, and shall have power to inquire into all matters relating to the welfare and training of the children. In the event of the committee of any school observing anything in the management of such school which requires correction, and such correction is not made on their representation by the officer in charge, it shall communicate with the Inspector on the subject, or, if necessary, with the Ministerial head of the department.

MANAGEMENT.

Officers responsible.

5. Subject to the directions of the Inspector, the superintendent (or where there is no superintendent, the matron) of every Industrial School is entrusted with the control of the school under his charge. He is required to see that the officers and attendants properly perform their duty, and he is responsible for the safety and safe custody of the children, the management of the school, and the enforcement of the regulations of the department within such school.

Diary to be kept.

6. The officer in charge of each school is required to keep a diary, in which must be shown all unusual events of the day connected with the school, all changes in the number of children, officers, or attendants, and all visits to the school. A record of the number of children in the school, and the names of officers and attendants absent at 10 p.m., will conclude each day's entries. All officers and servants who are not absent on leave must be in by 10 p.m. When an officer in charge is absent, an entry of such absence must be made in the diary. This diary shall be open to the inspection of the Inspector or the committee.

Officers not to be absent.

7. Officers in charge may not be absent from their schools for more than twenty-four hours, nor grant leave to any officer, instructor, or attendant for more than that period, such leave to be exclusive of Sundays and public holidays, for which days officers in charge may make such arrangements as the requirements of the schools under their control may permit. Three days' leave may be granted by the Inspector on the written recommendation of the officer in charge, but leave beyond that time must be applied for in the manner indicated by the Civil Service Regulations. Leave will not be granted to instructors or attendants for more than three days, except in special cases.

Officer in charge present at parades.

8. The officer in charge must inspect the children who are inmates of the school under his charge daily, so that disease or inattention to their clothing or persons may be detected, and the necessary steps taken to deal with the matter.

Dismissal and suspension.

9. The dismissal of officers or servants does not rest with the officer in charge. In extreme cases he may suspend an officer or servant, but the case must be at once reported to the Inspector for such action as may be necessary.

Lawful orders to be obeyed.

10. Servants, when required, are to appear in uniform when on duty, and officers and servants are promptly to obey all lawful orders given them by their superior officers. If they feel aggrieved thereby, they can make complaint through the officer in charge to the Inspector. Complaints must be made by letter within one week of the occurrence forming the ground thereof. All communications with the Inspector's office must be made in writing, and forwarded through the officer in charge.

Hospital nurses.

11. Hospital nurses must obey the directions of the medical officer, and when the removal of any hospital nurse or attendant is necessary the officer in charge must not effect such removal until arrangements for supplying the vacancy have been made with the medical officer. Leave of absence must not be granted to hospital nurses by the officer in charge without the consent of the medical officer.

Responsibility of attendants in charge of wards.

12. Every officer, instructor, or attendant in charge of a ward or other part of a school must keep an account of the stock therein. The value of any articles unaccounted for, destroyed or damaged by carelessness, may be deducted from their pay.

Good-conduct money.

13. Good-conduct money, at the rate of 3d. per day, will be allowed upon the recommendation of the officer in charge to attendants who have served twelve months in the department continuously, with uninterrupted good conduct. When necessary the Inspector will stop this good-conduct money by way of punishment, and officers in charge may recommend accordingly, taking care to indicate in the recommendation a period for the stoppage. Fresh recommendation, as in the first instance, will be necessary before good-conduct money will again be allowed.

Who allowed medical attendance.

14. Resident officers and attendants are allowed personal medical attendance but not medical comforts when sick; but should the attendance of the medical officer be refused, or that of any other medical practitioner obtained, no further claim can be made upon the services of the medical officer of the school. Recommendations for leave of absence, or exemption from duty on account of sickness, must be obtained from the medical officer of the school from which the application is made.

Pay-certificates.

15. A pay-certificate for the full amount due must be given to every officer or servant leaving the department by the officer in charge of the school; and if the name has been placed on a pay-sheet steps must be at once taken for its erasure. Any deductions or charges to be paid by the party leaving must be shown on the pay-certificate.

ADMISSION, TRANSFER, LICENSING, AND
DISCHARGING OF CHILDREN.

Admission by mandate.

16. Children presented for admission with mandates must not be refused admission to the school to which such mandates are directed, subject, however, to any special direction in any Act relating to Neglected and Criminal Children being complied with in such mandate; provided that children under sentence to a Reformatory shall not be received into an Industrial School, nor children of one sex into a school directed to be set apart for children of an opposite sex, unless by the written direction of the Inspector.

Children returned to the schools.

17. Subject to the restrictions in the foregoing clause, children who have been out on license, and whose terms of detention have not expired, must be received whenever it may become necessary for them to leave their situations; and children whose terms have expired while out on license may be received, provided they are not of known bad character, or suffering from any infectious disease.

Admission return.

18. A return giving full particulars of all children admitted or discharged shall be sent with the mandates to the Inspector's office weekly. The fact of a child having been previously an inmate should be specially recorded, and children on admission should be questioned on this point. Where the date or month of a child's birth is not given in the mandate, its birth will, for convenience, be assumed to have taken place in the month of July, and all calculations as to age must start therefrom until correct information on the point is obtained.

Attendants' children may be admitted.

19. The children of instructors or attendants may not be admitted into any school until the permission of the Inspector has been obtained; and when admitted and rationed they shall be paid for in accordance with Schedule 1.

Admissions to be examined by medical officer.

20. As soon after admission as possible, children

must be examined by the medical officer, and be passed by him before they are allowed to mix with the other children.

Educational state of admissions to be ascertained.

21. The teachers must ascertain the educational state of children as early as practicable after their admission, and see that a record thereof is made in the proper books and returns.

Transfers when made.

22. Transfers of children from one school to another must be made so that the children arrive at their destination by daylight, unless the hour at which they are to be sent is specially stated in the order to transfer them. Care must be taken that children transferred are acquainted with their registered numbers.

Transfer ticket.

23. A transfer ticket must be sent with all transfers, and each ticket will be noted in the Inspector's office before being filed in the station receiving the children.

When nominated for license.

24. Children who have served not less than eight months in an Industrial School, and who are thirteen years of age, may, subject to any regulation or order making good conduct a condition of nomination, be nominated for service, provided they have obtained a certificate of education as required by the Education Act 1872, or in the event of not having obtained such certificate when they have reached the age of fifteen years. Boys must be nominated, as far as possible, to the trades they have been learning, but must not be kept back from service in other capacities, if there is no demand for them for their trades. Children who from physical causes or bad conduct cannot be recommended should not be nominated for service, but may be selected by applicants, care being taken in all cases to let the party selecting be made acquainted with the faults or defects of the child selected.

Applicants for children to see those eligible.

25. Persons desiring to see children with the view of selecting one for service must be permitted to see those eligible. Applicants should be informed that no child will be considered to be nominated until the formal application has been received; and that such applications will only be entertained subject to there being no prior suitable applicants.

Children to know the terms of licensing.

26. Children on leaving for service should be made acquainted with the terms upon which they are going out, and be given to understand that in the event of their being returned to the school for misconduct they will be liable to be punished and kept to hard work; they should also be made to understand that only one outfit will be provided for them, unless from sickness or any other special cause the Inspector authorizes a further issue, and that any deficiency in their kit will, on their again going out, be made good from any money earned or to be earned by them as wages while under the control of the department.

Signed list of kit.

27. Duplicate lists of the kits supplied to children on first going out to service are to be prepared; one list will be signed by the child and sent to the Inspector's office, the other will be given to the child to take with him or her.

Clothing requisite for child going again to service to be reported.

28. On the return to any school of a child from service the officer in charge must report the clothing that he or she will require on again going to a situation, and the probable cost thereof, when the money to the child's credit will, so far as is necessary, be made available for the purchase of such clothing, unless the Inspector authorizes an issue from store

under clause 26. An account of the money so expended must be shown to the child, and then forwarded to the Inspector's office.

Address of children not to be given.

29. The address of children at service must not be given to inquirers by the officer of any Industrial School. Persons desiring such information must be referred to the Inspector's office.

Children likely to go out not to be transferred.

30. Children whose discharge has been applied for, or who have been nominated for service, are not to be transferred from one school to another, unless special instructions for their transfer are received from the Inspector's office.

Children may be discharged upon production of order.

31. Children shall not be discharged except upon order from the Inspector's office. Persons producing such order, duly signed, may be allowed to receive the child indicated therein; but the officer discharging must in every case take proper care to ascertain that the person producing the order is the one referred to therein, and must take his or her receipt for the child discharged. Children discharged to parents or friends are not to take the school clothing with them, unless permission is given in writing from the Inspector's office.

Children to be in good health before removal.

32. Orders in Council for the discharge, removal, and licensing of children will be made conditional upon the children being free from disease; and care must be taken that no child is discharged, removed, or sent out on license under any such Order in Council until the medical officer has certified to the child being free from disease. When a child applied for is reported to the office to be either fit or unfit for discharge, a further report must be sent whenever any change either preventing or permitting its discharge takes place.

Children leaving to be rationed.

33. Children discharged, transferred from one school to another, or sent to the office for discharge, are in all cases to be rationed for the day of their leaving, and to take with them so much of their day's rations as can be given them ready for consumption, unless special instructions to the contrary are received.

MANDATES AND RECORDS.

Mandates.

34. Mandates are to be sent with the admission return to the Inspector's office, and when returned therefrom are to be filed in proper order in a place of security. Mandates of absconders, children placed out or discharged, or who have died, are to be sent to the Inspector's office.

35. It shall be the duty of every officer in charge of an Industrial School to carry out a scheme for the classification of the inmates of the school under his charge, with regard, so far as circumstances will permit, to the physical and moral characteristics of such inmates, and take steps to ascertain the views of his Committee respecting such classification.

GENERAL MANAGEMENT.

Daily musters.

36. There must be at least two daily musters in every school, at which every child on the roll must be duly accounted for. A special muster will be held during January, April, July, and October; for the purpose of ascertaining that the children are being dealt with in accordance with mandate entries, especially with reference to religion and age.

Time-table.

37. The officer in charge of every school shall prepare a time-table for the working of the school

under his charge, and shall submit such time-table and any alteration he may subsequently consider necessary therein, for the approval of his Committee.

Attendants and teachers present at parades and meal times.

38. Instructors and attendants must be present with the children of their dormitories at parades, to keep order, and a sufficient number of teachers, instructors, and attendants must be kept on duty at meal times to take care of the children and see that they properly conduct themselves.

Stock to be taken in wards.

39. All officers, instructors, or attendants in charge of stores, the storekeeper excepted, shall take stock thereof quarterly, and report to the officer in charge as to the condition of such stores, and the accuracy of the account thereof.

Children under supervision.—Absconders.

40. The officer in charge must see that children are always under the care and control of some officer, instructor, or attendant, who will be responsible for their safe custody and safety. In the event of a child absconding, intimation thereof, with all available information, must be at once given to the local police.

Unusual occurrences to be reported.

41. Any unusual occurrence that may take place in connection with any school or any inmates thereof, any irregularity, neglect of duty, or absence without leave by any officer or servant of such school, must be reported to the Inspector without delay by the officer in charge.

RELIGIOUS INSTRUCTION, EDUCATION, AND INDUSTRIAL TRAINING.

Officers to attend to moral and religious instruction of the children.

42. The officers in charge and the teachers of the schools are required specially to direct their attention to the moral and religious instruction of the children, carefully checking at all times impropriety of speech or manner, leading the children to know and serve their Creator, and to act rightly from right motives. No effort should be spared to impress upon the children the necessity of being truthful, and the sin and disgrace of the habit of lying should be constantly placed before them. The strictest propriety of expression and manner is required to be shown by all officers and servants in their intercourse with the children and each other, so that by example as well as precept the religious and moral education of the children may be advanced.

Religious instruction how afforded.

43. Religious instruction must be imparted to children in accordance with the entry of religion in their mandates, or such correction thereof as may have been notified to the officer in charge. When practicable they should be taken on Sundays to their respective places of worship, and when that is not practicable suitable religious instruction for Protestants, and Roman Catholics separately should be provided within the institutions. Officers in charge should arrange for Sunday school being conducted by voluntary workers as far as possible.

Record of religion not to be altered.

44. To prevent any child suffering injustice in the matter of religious training, the officer in charge will, directly a child complains that it belongs to a different religious persuasion to that recorded, report the matter to the Inspector in writing, and give all possible information on the subject, for the purpose of having the correct state of the case ascertained. No change, however, may be made in the nature of the religious instruction imparted to a child until notification of the inaccuracy of the mandate in that respect has been received.

Religious instruction when afforded.

45. Religious instruction must be imparted to the children half an hour in the morning and half an hour in the afternoon daily, including the time for prayers, which must commence and end school operations each school day. The teachers are required generally, both in school, on the play ground, and at all times practicable, to promote the religious and moral education of the children; and when sent in charge of them to a place of worship they are required to remain with them there, and to be with them going to and fro.

Books not to be used until approved of by the officer in charge.

46. No books may be made use of by or for the children until approved by the officer in charge; and when religious books, tracts, &c., are issued for the children, officers in charge will be careful to see that those intended for Protestant children are not given to Catholic children, and *vice versa*. Visitors (ministers of religion issuing to children of their own denomination excepted) desiring to give books or tracts to the children must leave them with the officer in charge.

Teachers expected to have children fit for service as far as education is concerned.

47. Teachers are required, if possible, to have the children fit for service, so far as their education is concerned, by the time they are otherwise eligible, and in the event of a child not being fit, to give a satisfactory reason for his backwardness. Teachers will forward with their quarterly education return (Clause 50) a list of all children who have reached the age of thirteen years and six months, and have not attained the 4th class, together with a sample of their writing from dictation.

Children to attend school.—Employment of children.

48. Children under ten years of age are to attend school constantly during the ordinary day-school hours, and to be allowed to play at other times, or if employed in any way, to be employed only at such occupations as will afford them easy healthful exercise. Children over ten years of age must attend school at least to the extent required by the Education Act till they receive their certificate, or attain the age of fifteen years. Children under thirteen years of age must, if their health permit, receive daily tuition, even although they may have obtained the certificate of education. Children are not to be employed at other than Government work, except with the Inspector's authority.

Educational returns.

49. Educational returns, showing the classification of the children, are to be prepared by the teachers quarterly, and furnished through the officer in charge to the Inspector. The record of attendance to be in accordance with the rules of the Education Department.

Educational record on transfer tickets.

50. When children are transferred from one school to another, the state of their education must be indicated by the insertion of their class number opposite their names on the transfer ticket.

Children may be employed as monitors.

51. Children who display an undoubted capacity for teaching may, if they so desire, be employed as monitors, and while thus acting be exempted from work, except so far as may be necessary (in the case of girls especially) to make them acquainted with household and other necessary duties. The Inspector will, as circumstances render it advisable, exempt children employed as monitors from nomination for service, upon the recommendation of the officer in charge. Such exemption, however, will only remain in force so long as the child exempted continues to act as monitor, and must, if the child is still required, and desires to remain in that capacity, be renewed every twelve months.

Boys may select trades.

52. Boys who have attained the age of eleven years will be allowed to select any one of the trades taught in the school where they are located as the trade they are to learn, provided they are not physically or mentally incapacitated for learning the trade they select, and that the requirements of the school will allow of their being so employed. Boys able to work, who are not learning trades, are to be taught the duties of farm or household servants.

Girls to be taught general duties.

53. Girls are to be taught all the duties of domestic servants and of sempstresses, and, as far as practicable, the use of the sewing machine. No girl, however, is to be kept exclusively to any one of the occupations.

Books to be kept by instructors.

54. Instructors (male and female) are required to keep a book showing the number of children they have at work under them daily, the number of hours they are employed, the quantity of material (if any) they receive from the store, its expenditure, and the number of articles manufactured. These books will be submitted weekly to the officer in charge, who will have them checked, and ascertain by personal examination that the entries correctly represent the work done.

RECREATION, REWARDS, AND PUNISHMENT.

Children to be allowed to play.—Good-conduct badges.

55. Officers in charge are to make provision for the inmates of the schools under their charge having suitable relaxation and play hours, and they are required, as far as consistent with the working of the institution and the education of the children, to meet the wishes of their Committees in this matter. Recognition of good conduct should be manifested by means of good-conduct badges or stripes worn by the children, and nomination for service should ordinarily be a reward for good behaviour.

Corporal punishment.

56. Corporal punishment is to be administered as seldom as possible consistently with discipline, and not for first offences, unless in cases of a grave nature. Punishment shall be by stripes with a leathern strap on hand or breech, but in the case of boys over eight years of age a cane may be used. No punishment may exceed twelve stripes. Children may not be stripped for punishment, and girls may be punished only by a female, in the presence of the matron or acting matron. Corporal punishment may not be inflicted personally by the superintendent, matron, or person making the complaint for which such punishment is awarded.

Punishment by diminution of rations.

57. Diminution of rations to the extent of two days' food may be ordered as a punishment to children, provided that the bread to which they are entitled by the dietary scale, exclusive of the allowance for working, shall not be so diminished. Confinement may also be ordered as a punishment in the case of children above eight years of age, provided that care is taken to ascertain from the state of health, mentally and physically, of the child to be punished that such punishment will have a salutary effect; and whenever the slightest doubt exists on that point, the medical officer must be referred to before such a punishment is awarded. Children undergoing such punishment during the night must be provided with the proper allowance of bedding, and should in all cases be visited at least once every four hours. The officer in charge only is empowered to order separate confinement, and that punishment should not be awarded for a first offence unless the offence be of a grave nature.

Health of child under punishment.

58. In ordering punishment care must be taken that the health of the child to be punished will not suffer by its infliction, and no punishment of more than six stripes, or privation of more than one day's food, may be ordered without ascertaining from the medical officer that the infliction of such punishment will not be prejudicial to the health of such child.

Children absconding liable to forfeiture of money.

59. Children absconding from any of the schools, or from service, will be liable, in addition to the above punishments, to have any money that may be in the possession or under the control of the department, in respect of wages earned by them while under such control, forfeited; and in all cases absconders will be debited with the value of the clothing they lose or destroy during their absence. All forfeitures recommended by an officer in charge must be referred to the Inspector for Ministerial approval to be obtained. Money thus forfeited will be paid into the general revenue.

Time after investigation before punishment.

60. When heavier punishment appears to be required than that allowed by the foregoing regulations, the concurrence of the Committee of the school must be obtained by the officer in charge of the punishment he proposes to inflict, and a report of the offence and the punishment decided on must be at once sent to the Inspector. All punishments must be entered in a book to be kept for that purpose, and such book shall be presented for the examination of the Inspector and the Committee at each visit.

VISITORS, VISITING; CHILDREN'S LETTERS, MONEY, ETC.*Visitors to schools.*

61. Visitors are permitted to visit any Industrial School at reasonable hours, daily, excepting Saturdays and Sundays.

Friends may visit children.

62. Relatives and friends of children may, if of good character, visit their children in Industrial Schools once a month, on the regular visiting days, without orders. Persons who have travelled a distance to see their children may, however, if of good character, be allowed to see them at the discretion of the officer in charge.

Attention to visitors.

63. Upon the arrival at a school of any of the visitors referred to in clause 62, the officer then in charge must accompany them, or cause another officer to accompany them, through the establishment, and afford them any information they require with reference to the arrangements and management of the school. A book must be kept in which such visitors can enter their names and addresses, and any observations they may desire to make relative to the school.

Relatives and friends to give names and addresses.

64. Visitors to children must be required to give their names and addresses, and state their relationship to the children they desire to see, before being allowed to see them. No persons in an intoxicated or indecent condition may be allowed to see children, and officers in charge may, at their discretion, refuse to allow relatives or friends to see children who are under punishment.

Returns of visitors.

65. Returns of the visitors referred to in clause 62, together with a copy of the entries they make in the visitors' books, and a list of the visitors specified in clause 65, with their addresses, are to be sent to the Inspector monthly.

Letters to children may be withheld.

66. Children are to be permitted to write once a month to their friends. Letters received for children shall be opened and perused, and may be kept from the children when their contents appear to the officer in charge unsuitable for them to read.

Addresses of parents to be reported when known.

67. When the address of a parent or a step-parent becomes known, or any information is received likely to lead to the recovery of maintenance, or relating to the progress and conduct of children at service, the same should be communicated in writing to the Inspector with as little delay as possible.

Children's money to be sent to Inspector's office.

68. Money belonging to children must be sent to the Inspector's office monthly, in order that it may be placed in a savings bank for them; but no sum less than one shilling, or that is not the multiple of one shilling, should be sent, the children being allowed to spend fractional amounts for any purpose approved by the officer in charge. Postage stamps and other valuables must be sent to the Inspector's office. Valuables belonging to children returned from service can be retained, parcelled, and labelled with the child's name until he or she again goes out, when they will be returned.

SICKNESS, ACCIDENTS, AND DEATHS.*Sickness to be treated and reports sent.*

69. The attention of the medical officer must be called to every case of apparent sickness without delay, to ensure proper treatment. When a child is so ill as, in the opinion of the medical officer, to render death probable, intimation must be sent, by the speediest method available, to the father, mother, or other near relative if the address is known, but if not, then to the Inspector's office. A return of the number of children sick, and the complaints for which they have been treated, signed by the medical officer, is to be sent to the Inspector's office monthly.

Book to be provided for medical officer.

70. A book must be provided in each school in which the medical officer can enter his recommendations for the treatment and disposal of the sick, and the officer in charge must take care to see these recommendations, in order to provide for their being duly complied with.

Medical officer's recommendations to be attended to.

71. Recommendations of the medical officer for the treatment and disposal of sick children are to be complied with by officers and attendants so far as practicable; and should any difficulty arise in giving effect to their suggestions, the nature of the difficulty must be at once reported in writing to the Inspector, and arrangements made in the meantime to meet as far as possible the medical officer's requirements.

Bedding of sick children removed.

72. In removing children from one bed to another on account of disease, the bedding that has been in use by such children must not again be used until it has been well washed and thoroughly disinfected. Children upon whom disease of a contagious nature has displayed itself must not be allowed to mix with the others.

Clothing of sick children.

73. Children removed to an hospital or sick ward are to be at once provided with suitable hospital clothing, and the clothing they had been wearing must be carefully washed and put away in readiness for them when they are discharged therefrom. No articles of food may be given by visitors to children under medical treatment without the special sanction of the medical officer.

Accidents and deaths to be reported.

74. Serious accidents and deaths from other than natural causes are to be reported in writing to the Inspector immediately after they take place, the full particulars of the accident, and the cause and period of death, being always stated in the report.

CLOTHING.*Annual issue of clothing and contents of kit.*

75. The clothing annually issued to a child must not exceed in quantity that specified in Schedule 2, and the kit of every child is to be at all times supplied with the articles shown in one of the divisions of Schedule 3. The clothing of every child must be made to fit, be kept clean and in good repair.

Copies of allowance in wards.

76. Copies of the annual allowance and the kit are to be hung up in every ward for the information of the ward attendants, whose duty it is to see that the children of their respective wards are constantly provided with the articles composing the kit, and to report any deficiency therein to the officer in charge.

Clothing for children on license.

77. Children on first going out to service are to be provided with an outfit of new clothing in accordance with Schedule 4. After the first outfit, no clothing may be issued from store to children going to service, except as specified by clause 26.

Clothes to be marked.—Clothing with children transferred.

78. The clothes belonging to every child, with the exception of those issued to children going out to board or to service, are to be marked with the number of the ward to which they belong, immediately upon being given out from the store, and a correct record of all clothing issues to each ward is to be kept. Children transferred from one school to another must be supplied with clean and sound clothing in accordance with Schedule 5.

MANUFACTURES.*Schools to manufacture.*

79. All schools are required to manufacture, as far as possible, the articles required for use therein, and where they cannot do so, the officers in charge shall make their demands in sufficient time to enable the required articles to be manufactured within the department or at the Penal Department, as may be found desirable. Lists of the articles that can be made should be kept at every school.

Manufactures for home use.

80. Manufactures of duly authorized articles required for home use will be carried on by officers in charge, according to the requirements of the schools, such manufactures being charged for in the labor returns at the rates approved by the Inspector. A supply of not less than one month's nor more than six months' clothing must be kept in store, and a stock of clothing, or the material for its manufacture, sufficient to meet three months' requirements, should always be on hand.

STORES, STOCK, AND PRODUCE.*Officer responsible.*

81. The officer in charge of every school is responsible for the safety and safe custody of all stores, stock, and produce in the school under his or her charge; for the correctness as to quantity and contract quality of all receipts; that no waste or loss accrues from carelessness or neglect; that issues are economically made, in accordance with regulations,

and under his or her authority; and that all receipts and issues are duly recorded and acknowledged. The storekeeper of each school is responsible to the officer in charge for seeing this regulation complied with, and will make no issues except upon the written order of the officer in charge.

Expendible stores.—Unexpendible stores.

82. Expendible stores, in accordance with Schedule 6, may be written off the store books when issued. Unexpendible goods are not to be issued until branded, and are to remain on charge in the unexpendible stores book until written off by the Inspector's authority or that of a duly appointed Board of Survey. An account must be kept in the unexpendible stores book with the officers to whom issues of unexpendible stores are made.

Stores to be duly provided for.

83. Stores or stock can only be supplied after having been duly provided for on requisition. To prevent inconvenience resulting from delay in supply by contractors, officers in charge should take care to have one month's supply always on hand in advance of their requirements; and should any unreasonable delay in supply take place after the approval of requisitions, intimation thereof should be sent to the Inspector.

All stock and produce to be in charge.

84. Stock of every description, and farm produce, whether supplied or produced, are to be taken on the store books without delay, and accounted for in the stock and produce returns. Every increase or decrease of stock must be thus brought to account, and stock is not to be used for other than Government purposes. Articles the produce of the school are to be issued only for duly authorized purposes in the manner and to the extent provided by the regulations, and all such issues must be accounted for in the prescribed manner.

Schools having surplus stock to take steps for its disposal.

85. When an officer in charge anticipates having surplus stock or produce of any kind (including stores condemned by a Board of Survey), he must notify the same to the Inspector in sufficient time to enable the necessary authority to be obtained for the disposal of such surplus. Proper attention must be paid to the preservation of all produce, whether at the school or in the transit, and any loss suffered by the Government in this respect, through carelessness or neglect, will be charged to the officer through whose carelessness or neglect such loss occurred.

**PROVISIONS, MEDICAL COMFORTS, AND FUEL,
LIGHT, AND WATER.***Issue of provisions.*

86. Provisions must be issued in accordance with the dietary scale (Schedule 7) to children and to such officers or servants as are allowed rations. Should the officer of a school find that the allowance of any article is more than requisite, he may, with the approval of his committee, discontinue the issue.

*Officer in charge to see to the quality of supplies,
and that proper quantities are issued.*

87. The officer in charge of every school is required to ascertain by personal inspection that the articles received from the contractor (or person supplying) are of good quality, and, where there is a contract, in accordance with the conditions of contract. They are required to see that the issues from the store to the cook are of the full quantity in bulk that the

children and attendants to be rationed for the day are entitled to, and that the issues from the kitchen to both children and servants are correct in quantity, and are properly cooked. They are also required to see that both receipts and issues are duly and correctly recorded by the storekeeper in the proper books and returns.

Issues to cook.—Officer in charge to issue order to storekeeper and list to cook.—Cook responsible for ascertaining that he receives proper quantities and gives receipt.

88. Issues of rations will be made by the storekeeper to the cook daily, in accordance with a list to be prepared by the officer in charge, a copy of which he will supply to the cook. The cook is required to ascertain that he receives the quantities specified on the list (or if there is a deficiency report it to the officer in charge), and receipt and return the list to the officer in charge after dinner each day.

Separate issues to be made to hospital and servants.

89. Rations will be issued for children in hospital until the medical officer directs them to be discontinued. They will be issued and cooked separately and in the manner specified in the medical officer's order. Rations for servants must also be issued and cooked separately.

Issue of equivalents.

90. Equivalents in accordance with Schedule 8 may be issued at the discretion of the officer in charge. When equivalents are issued, the quantity of the issue and the quantity of the articles in lieu of which the issue is made must be shown on the face of the account or return in which it is charged.

Ration certificate and account current.

91. A return of provisions received must be sent to the Inspector monthly, for the Audit Commissioners, and an issued account current in the prescribed form must be supplied monthly to the contractor.

Issue of medical comforts.

92. Medical comforts in accordance with Schedule 9 will be issued upon the recommendation of the medical officer only. This recommendation should be received in writing before an issue is made; but to save delay in urgent cases the verbal request of the medical officer may be complied with. The written recommendation must, however, be obtained as soon after as practicable.

Other issues in urgent cases to be made.

93. Should a case arise in which the medical officer requires the immediate issue of an article not authorized, and represents the requirements as urgent, the officer in charge must make the issue, and apply at once to the Inspector for authority to cover it. A monthly return (signed by the medical officer) of the station produce used as medical comforts must be sent to the Inspector. The medical officer will certify to all accounts for medical comforts.

Economy in issue of fuel, &c.—Returns—fuel and light.

94. Fuel and light (gas excepted) will be provided for in the same manner as stores, and officers in charge are required to see that due economy in the issue and use thereof is exercised, and that supply is made to those officers and servants only authorized to receive it. The allowance will be in accordance with Schedule 10, but where a less quantity will suffice, the issue must be limited thereto. Firewood must not be issued until after it has been stacked and measured,

and officers in charge will see that before being measured it is closely and properly stacked. Half-yearly returns of the issues of fuel and light (gas excepted) are to be furnished to the Inspector.

ESTIMATES, REQUISITIONS, ORDERS, ACCOUNTS, RETURNS, BOOKS, AND CORRESPONDENCE.

Estimates and requisitions to be forwarded.

95. Requisitions for Ministerial approval are to be sent on the 1st of June and 1st of December. They are to be prepared in accordance with the votes in the Appropriation Act, or Estimates for the year, and with strict regard to economy. Special requisitions are only to be sent in urgent cases, and must always be accompanied by an explanation of the cause rendering a special requisition necessary.

Orders on contractors to be sent to Inspector.

96. Orders may be issued to contractors only for articles covered by requisition, but in any urgent case the Inspector may authorize purchase to be made either under clause 75 of Store and Transport Regulations or in anticipation of Ministerial approval. Orders must be dated, bear a consecutive number, and the name of the school issuing, and a copy thereof must be taken in a press copy-book.

Accounts.

97. Accounts are to be completed and forwarded to the Inspector's office with as little delay as possible after being received, and monthly accounts are due by the 5th of the month following that for which the charges are made. The signatures of payees must in all respects agree with their signatures as claimants, and wives are not to be allowed to sign accounts for their husbands nor husbands for wives where it is practicable to obtain the wives' signatures. Fractions are not to appear in the total of accounts. Accounts for supplies upon orders (Clause 99) must be marked off in the order copy-book. Duplicate accounts may not be passed on, unless, in addition to the requirements of the Regulations relating to Public Accounts being complied with, an explanation of the circumstances rendering a duplicate account necessary is sent to the Inspector's office with the account. A loss occasioned by negligence or carelessness in the preparation or payment of accounts, or by a breach of this regulation, or the General Regulations relating to Public Accounts, will require to be made good by the officer causing such loss.

Returns.

98. Daily or special returns are due at the head office by noon of each day; weekly returns on Tuesdays; monthly returns on the 5th of each month; quarterly returns on the 10th January, April, July, and October; half-yearly returns on 15th January and July; and annual returns as specially directed. When either of the days named fall on Sunday or a public holiday, the returns will be due on the following day.

Correspondence to be registered.

99. Correspondence upon departmental business is to be registered, bear a registered number, and be signed by officers in charge. Papers received from the Inspector's office should be returned, and all communications be dealt with, within three days of the day of receipt. Documents (departmental memos. excepted) forwarded for the information or attention of officers in charge are not to be marked or written on, nor should the writing on official documents be crossed. Due economy in the use of stationery is to be observed, half sheets of paper only being (as far as practicable) used. When a previous paper is referred to, the registered number given to it in the Inspector's office should be quoted.

MISCELLANEOUS.

Forage.—Other articles.

100. Forage, not produced at the school requiring it, is to be provided for in the same manner as stores, and in all cases issued in accordance with the authorized scale. Other articles for the issue of which no scale is provided are to be made use of with due regard to economy, and, where practicable, a scale should be fixed by the officer in charge.

Purchases at contractor's risk.

101. Purchases at contractor's risk may be made only in strict accordance with the Store Regulations. Before making purchases, officers in charge will take care that they comply with the conditions of contract, and they should, if possible, send written notice to the contractor of their intention to purchase at his risk.

Transport.

102. Proper economy is to be exercised in incurring expenditure for transport. Officers are allowed cost of travelling only when employed on Government business. Officers paid an annual salary are allowed first class railway tickets; all others, second class. Officers travelling in charge of children are to have second class tickets issued to them, and are required to ride in the same compartment with the children they are in charge of.

Expenditure for repairs.—Verbal authority.

103. Expenditure for necessary repairs not exceeding £2 in amount may be incurred by officers in charge of schools. Anything required beyond that amount must be referred to the Inspector in writing, for approval, before the liability is incurred. The account for any such expenditure must be rendered directly the work is executed, and where authority has been obtained, the number of the correspondence covering such authority must be quoted. Where the verbal authority of the Inspector for any expenditure has been obtained, officers in charge are required to apply for a written authority with as little delay as possible.

Precautions to be adopted in remitting money.

104. In forwarding money to the Inspector's office proper precautions should be taken for security. As far as practicable, post-office orders or bank drafts should be obtained, but in no case should cash be sent by post. When sending money or valuables by a messenger, a form of receipt to be signed and returned to the sender should also be sent. Packages to be sent from one school to another can be forwarded direct to their destination where it is practicable to do so; way-bills and receipted orders can be similarly dealt with.

Officers may be permitted to participate in holidays.

105. Officers in charge may allow officers and servants of the schools under their charge to participate in Government holidays, as far as may be consistent with the proper working of the institutions. None of the officers or other employés of the department are to be engaged upon any other than Government business during the hours they are required to be on duty.

Government regulations, Acts, &c.

106. The Regulations respecting Public Accounts, the Civil Service, and the Store and Transport Regulations, and the clauses of the Audit Act relating to stores, accounts, &c., are to be carefully studied and complied with by the officers of the department; and the provisions of the Civil Service Act, and the Neglected and Criminal Children's Acts, are to be made known to all those who are required to comply with or give effect to any portions thereof.

All employés to be acquainted with regulations.—Interpretation.—Special case.

107. All officers and servants on joining a school are to be afforded an opportunity of becoming acquainted with these regulations, and they are required to make themselves acquainted and comply with them. Should doubt arise as to the interpretation of any clause, reference should be made to the Inspector, that the correct meaning may be given; and should any occurrences not provided for by these regulations take place, officers in charge will deal with them as circumstances may render advisable, but they should be guided by the spirit of these regulations, and refer for instructions to the Inspector as early as possible.

MARYBOROUGH MINING DISTRICT.—BYE-LAW.

At a meeting of the Mining Board of the Maryborough Mining District, begun and holden at Maryborough, in the said district, on the thirteenth day of January, One thousand eight hundred and eighty, it is ordained by the said Board as follows, that is to say:—

1. *Repealing clause.*—All bye-laws regulating mining operations now in force in the Mining District of Maryborough, shall be and are hereby repealed and rescinded, always saving the rights of all persons obtained previous to and held at the time of this bye-law coming into operation; and any miner or miners occupying any claim under any mining regulations in force previous to its passing shall be at liberty to take advantage of all the benefits accruing from this bye-law, and shall be protected in his or their existing rights, pending any application for extension he or they may make under this bye-law.

2. *Interpretation clause.*—In the construction and for the purpose of this bye-law, the following terms, if not inconsistent with the context or subject-matter, shall have the respective meanings hereby assigned to them, that is to say:—The words "mining registrar" shall mean and be interpreted to mean the mining registrar of the division for which he shall have been appointed. The words "mining tenement" shall mean and include any parcel or parcels of Crown land held or occupied for the purpose of mining for gold, or any share or interest therein, or any race, dam, or reservoir held or occupied for conveying or storing of water, or any share or interest therein, or any Crown land held or occupied as the site for machinery, or for a road, tramway, channel, drain, or other easement or share or interest therein; and words importing the singular number shall include the plural number, and words importing the plural number shall include the singular. The words "miner," "person," "holder," "owner," shall mean and include his or her agent respectively. Words importing the masculine gender shall include females. The words "payable gold" shall mean any quantity of quartz, stone, earth, or other auriferous substance, obtained by any miner or miners which shall pay the expenses of crushing or washing the same as the case may be, and which shall also pay the miner or miners while actually employed in raising such substance the current rate of wages in that particular district. The term "worked and abandoned ground" shall mean alluvial, the greater portion of which has been worked out. The term "wet sinking" shall mean alluvial ground where water is struck below the surface drift, and where slabbing and water baling may be necessary for the working thereof.

ALLUVIAL WORKINGS.

3. *Claims, how to be marked.*—Any miner, or miners, marking out a claim in alluvial sinking shall evidence his or their boundary by firmly driving in a substantial peg at each corner of the claim, such pegs to be kept visible during the working of the claim.

4. *Prospecting for new goldfields.*—Prospectors previous to discovering payable gold shall be protected in holding an area of two hundred (200) yards square, provided they are searching for gold at a greater distance than one quarter of a mile from any other gold workings; and at a greater distance than one mile they shall be protected in holding an area of four hundred (400) yards square, so long as they continue to work their prospecting claims in a *bona fide* manner; and on obtaining payable gold they shall mark off their claims in accordance with the following section:

5. *Extent of claim.*—The first miner or party of miners so prospecting, discovering payable gold, shall be entitled to an extent of prospecting claim as specified in the following table of distances from any other alluvial gold workings:—

	In dry ground.	In wet ground.
Not less than $\frac{1}{4}$ mile,	200 feet square	300 feet square.
Not less than $\frac{1}{2}$ mile,	250 "	350 "
Not less than 1 mile,	300 "	400 "
Not less than 2 miles,	350 "	450 "
Not less than 3 miles,	500 "	600 "
Not less than 5 miles,	700 "	1000 "

6. *Prospecting for new or lost leads.*—The first miner or party of miners commencing and continuing to sink or prospect for a new or lost lead of gold less than a quarter of mile distant from any alluvial gold workings, and discovering a payable deposit of gold therein, shall be entitled to an area of ground of one hundred (100) feet square in dry sinking, and two hundred (200) feet square in wet sinking, provided that all prospecting claims under this section shall be at least three hundred (300) yards apart.

7. *Discovering payable gold.*—Any prospector discovering payable alluvial gold neglecting to report the same to the mining registrar, or to have his prospecting claim registered, or to obtain a certificate of registration in the form of Schedule i. hereunto annexed, within seven days after such discovery shall not be entitled to more than an ordinary sized claim. A copy of the certificate of registration shall be kept posted on the claim until the same be worked out, abandoned, or forfeited.

8. *Information to adjoining claimholders.*—The owner or owners of alluvial prospecting claims shall, on the application of adjoining claimholders, give every information in his or their power as to the course of the gold and the quantity he or they are obtaining from his or their prospecting claim.

DRY SINKING AND SURFACING.—ORDINARY CLAIMS.

9. *Extent of claim in new ground.*—The extent of an ordinary claim in new dry alluvial ground shall be for one miner, forty-two (42) feet square; two miners, sixty (60) feet square; three miners, seventy-two (72) feet square; four miners, eighty-four (84) feet square.

10. *Worked and abandoned ground.*—The extent of claim in dry alluvial sinking in ground, the greater part of which has been previously worked and abandoned, shall be for one miner one hundred (100) feet square; two miners, one hundred and forty-two (142) feet square; three miners, one hundred and seventy-four (174) feet square; four miners, two hundred (200) feet square.

11. *Shepherding.*—All claimholders, or their agents, must be present on his or their claim every day, one hour, between eleven o'clock a.m. and twelve at noon, until the shaft thereon has been bottomed. Any miner or miners not complying herewith shall be deemed to have abandoned his or their claim or share, unless in case of dispute he or they can justify such non-compliance under section 86 of this bye-law: Provided always that in the case of any claimholder under 14 years of age, such claimholder must be represented by a competent miner.

12. *Amalgamation.*—The holders of adjoining dry alluvial claims may amalgamate them by posting on some conspicuous place near the centre of such claims, a notice in writing containing the number of claims amalgamated, and the name of each shareholder, and such notice shall be kept posted until the claim is abandoned; and such amalgamated claim shall be worked every working day by at least two of the shareholders, and all shareholders or their agents shall be present on their claim during *shepherding hours*, until the shaft thereon has been bottomed, except those shareholders who may be employed on the night shift, and *bona fide* working on such claim, but in no case shall there be more than three shareholders recognized as being employed on the night shift; and when the shaft thereon has been bottomed the full number of shareholders shall be employed therein or otherwise be upon such claim.

WET SINKING.—ORDINARY CLAIMS.

13. *Extent of claim in new ground.*—The extent of claim in wet alluvial sinking, new ground, shall be as follows, viz:—

Two miners	...	100 feet square.
Three "	...	120 "
Four "	...	140 "
Six "	...	175 "
Eight "	...	200 "

And where the depth of sinking exceeds eighty (80) feet the extent of claim shall be—

Two miners	...	140 feet square.
Three "	...	175 "
Four "	...	200 "
Six "	...	250 "
Eight "	...	300 "

14. *Worked and abandoned ground.*—Extent of claim in worked and abandoned alluvial ground shall be as follows, viz:—

Two miners	...	200 feet square.
Three "	...	250 "
Four "	...	300 "
Six "	...	350 "
Eight "	...	400 "

15. *Amalgamation.*—The holders of any number of adjoining wet alluvial claims may amalgamate them by posting a notice of such amalgamation on some conspicuous part near the centre of the claims proposed to be amalgamated, with the names of all the shareholders; and such notice shall be kept posted during the working of the claim.

16. *Mode of working.*—All claimholders or their agents, within six (6) claims in every direction from any shaft which has struck water, and in amalgamated wet alluvial claims, one half the shareholders shall sink their shafts every lawful day until the well is completed, and shall bale their due proportion of water daily until it be exhausted, or the water prove too heavy, and the work and baling be stopped with the consent of adjoining claimholders, and in amalgamated claims the full number of shareholders shall be employed as soon as the shaft is bottomed; and beyond six (6) claims in every direction from any shaft which has struck water the claimholders shall be allowed to hold their claims unworked, provided they or their agents are all present on such claims every day from eleven o'clock a.m. until twelve o'clock noon.

17. *Neglecting to work, &c.*—During the sinking of any wet alluvial shaft or shafts any miner or miners neglecting to work them, or cause them to be worked in accordance with the preceding section, will be deemed to have committed a breach of this bye-law; and persons shepherding neglecting to be present every lawful day, between the hours of eleven o'clock a.m. and twelve o'clock noon, such claim, share, or shares therein shall be deemed abandoned.

18. *Forfeiture.*—If any miner or miners in prospecting or ordinary alluvial claims, shall neglect to work, or cause to be worked his or their claim after the shaft thereon has been bottomed, for a longer period than 43 consecutive hours, the same shall be liable to forfeiture, unless, in case of dispute, he or they can justify such neglect under any of the provisions of this bye-law.

RESERVOIRS, RACES, AND WATER-COURSES.

19. *Reservoirs, races, and water-courses.*—Any miner or miners or company wishing to cut or construct a reservoir for the storing of water for mining or domestic purposes, or to cut any race or water-course for the conveyance of water from or to any reservoir, river, creek, or any tail-race, may do so subject to the following conditions:—

Conditions.—The persons intending to cut or construct such reservoir, race, or tail-race shall, in case of a reservoir, erect a post not less than two inches square, and standing at least two feet out of the ground at each angle of the ground they wish to take up, and in case of a race or tail-race, shall erect a post as aforesaid at distances of not less than twelve hundred (1200) feet apart on the line of such proposed race or tail-race, and shall make application to the mining sur-

veyor for the division in which such reservoir, race, or tail-race is situated to survey the same; and within seven days after such survey the persons shall apply to the mining registrar for the division as aforesaid for registration of such reservoir, race, or tail-race, and such mining registrar shall thereupon give to such applicant or applicants a certificate of registration of such reservoir, race, or tail-race, in the form in the Schedule hereunto annexed, marked ii, but in no case shall the extent of ground for a reservoir exceed fifty thousand (50,000) square yards, inclusive of water-shed.

20. *Priority of water-rights.*—Water-rights shall take precedence according to the date of registration, and if at any time the supply of water shall become insufficient, the person or company being last registered shall cease to enjoy such right during such deficiency of water, as against any party or company antecedently registered.

21. *Water-gauge.*—All races or water-courses shall have placed at the head of the race, at the place from where the water is diverted, a box for the purpose of gauging or measuring the quantity of water flowing into the race or water-course, such gauge-box to be at least twelve (12) feet long, with a fall of half an inch to the foot, and the gauge or measurement which shall be considered a sluice-head shall be such a quantity of water as will pass through an aperture at the top end of the above-named gauge-box of twenty (20) inches wide and three (3) inches deep, or sixty (60) square inches.

22. *Quantity of water allowed to each race.*—The quantity of water or number of sluice-heads for any water-course shall be in proportion to the number of miners forming the party or company constructing or being in possession of any race, at the following scale, that is to say—One or two miners, one sluice-head of water; four miners, two sluice-heads of water; seven miners, three sluice-heads of water. And so on at the rate of one sluice-head to every additional three miners.

23. *Width allowed on each side of race.*—Any person or persons occupying a race or tail-race for the conveyance of water for mining purposes, shall be entitled to a width of ten feet on each side of such race, measuring from the centre thereof: Provided always that where the depth of a cutting exceeds twelve feet, or where a tunnel is required, the width shall be twenty feet on each side of such race, measuring from the centre thereof.

24. *Races may be constructed through claims.*—Any miner or miners shall be entitled to cut and construct any race, tail-race, or drain for mining purposes through any claim or claims held by any other miner or miners, or under, over, or across any other race, tail-race, or drain: Provided always that such first-mentioned race, or tail-race, or drain be cut, constructed, timbered, framed, and formed in such a manner as not to injure the claim, race, tail-race, or drain through or across which it may be cut or constructed.

25. *Water-races may be extended or altered.*—Any miner or miners may extend his or their race or water-course, or tail-race beyond the point for which he or they were originally registered, or make any alteration or deviation therein, provided that no such extension or alteration shall interfere with any registered right obtained by any other miner or miners subsequent to the application for said alteration or extension.

26. *Water to be left running in creeks, &c.*—In all river beds and main creeks from which water is diverted for mining purposes, there shall at all times be left running at least one sluice-head of water for general use; and in all tributary creeks from which water is diverted for mining purposes, there shall be left remaining in its natural channel a quantity of water not less than half a sluice-head.

27. *Commencing and continuing the formation of races.*—Any miner or party of miners shall, within one calendar month from the registration with the mining registrar, begin to form such race, and having begun shall not stop work for a longer period than six consecutive working days during the formation thereof.

28. *Protection to water-rights during drought.*—The race or claim, or right to the water, may be held unworked or unused when the supply of water is insufficient, provided the same be registered.

29. *Extent of sluicing claim.*—The extent of mining claims for sluicing purposes in new surfacing or ground previously worked and unoccupied, shall not exceed forty (40) yards in length by a width of sixty (60) yards for each miner forming the party.

30. *Beds of creeks or rivers.*—The extent of claim in the beds of creeks or rivers shall be for each miner twenty (20) yards along the course of said creek or river, by a breadth not exceeding twenty-two (22) yards.

PUDDLING-MACHINES, PUDDLING-CLAIMS, WATER-DAMS, &c.

31. *Puddling-machines, water-dams, &c.*—Any miner or miners may erect a puddling-machine, or form water-dams, or take up any unoccupied or abandoned site of any puddling-machine or water-dam, on registering the site with the mining registrar, subject to conditions as hereinafter provided.

Conditions.—A notice of the intention to register any such site of a puddling-machine, water-dam, or any other site of a machine, engine, or water-dam, not otherwise specially provided for, shall be kept posted on a conspicuous part of the claim for a period of not less than seven (7) days, where it is intended to erect or construct any of the above-named machines or water-dams; and also a copy at the mining registrar's office for the same period previous to the registration thereof; and any objections to such registration shall be made to the mining registrar in writing, stating the nature of the objections, with the name of the person or of

each of the persons objecting; and any such objections must be made within the above-named seven days.

32. *Certificate.*—A certificate of registration, in the form of Schedule iii., hereunto annexed, shall be given by the mining registrar in case of registration.

33. *Area of site for puddling-machine, water-dam, and storage of sludge.*—The area for the site of any horse puddling-machine, water-dam, or sludge-dam, shall be two hundred (200) yards in length by a width of one hundred (100) yards.

34. *Extent of claim for puddling.*—The extent of mining claim for the holders of puddling-machines shall be, in old ground, one hundred and fifty (150) feet square for every miner employed thereon.

35. *Catch-drains.*—The owner or owners of any catch-drain cut and constructed for collecting and conveyance of water to any water-dam, shall be protected in the possession thereof for a distance not exceeding three hundred and fifty (350) yards from any such water-dam: Provided such catch-drains are on the higher side of the water-dam bank.

36. *Claims may be held unworked.*—All mining claims for puddling may be held unworked for any time that there may be an insufficiency of water for the working thereof, provided a notice to that effect be kept posted thereon.

37. *Forfeiture of sites for puddling-machines, water-dams, and sludge-dams.*—When any miner or miners in possession of a site for a puddling-machine, water dam, or sludge dam shall not erect a puddling-machine on such site for a period of two months after registration, or having erected a puddling-machine shall leave the same unworked for a period of two months, or shall not use such water-dam or sludge-dam for a period of two months after registration, except as provided in section 36, then such site for a puddling-machine or such water-dam or sludge-dam shall be forfeitable, and may by a court of competent jurisdiction be declared forfeited, and the miner or miners who shall first make application to have such forfeiture enforced shall have priority of right to be put in possession of such forfeited site for a puddling-machine, water-dam, or sludge-dam.

38. *Abandoned site.*—When any puddling-machine erected on any site under this bye-law shall be left unworked, or any water-dam or sludge-dam shall be left unused for a period of three months, except as provided in section 36 hereof, then such site for a puddling-machine, water- and sludge-dam shall be deemed to be and shall be treated as ground abandoned.

39. *Space to be left between puddling-machines and water-dams.*—Any miner or miners taking possession of a site for a puddling-machine or water-dam shall leave a space of two hundred (200) yards between the boundary of such site and the boundary of the site of the puddling-machine or water-dam nearest thereto.

40. *Protection for water-dams.*—Any miner or miners having lawful possession of a water-dam, in compliance with this bye-law, shall be protected against any other miner or miners, person or persons using any water therefrom, domestic purposes excepted; and no person or persons shall be allowed to take water from such dam for any other purpose without the authority in writing of the owner thereof, nor shall any person or persons drive or allow his or their cattle into any reservoir or water-dam held under this bye-law, or in any way defile, destroy, or damage the same.

41. *Water for domestic use.*—Any water-hole, water-dam, or other depository of water necessary for domestic purposes shall be protected for such purposes: Provided that a notice in writing is affixed on a post, at least six feet high, close to such water-hole or water-dam, and signed by at least four miners or holders of business licenses, stating that it is reserved for domestic purposes only. And no person or persons shall use the water for any other than domestic purposes.

42. *Disposing of sludge.*—No person or persons shall cause or permit sludge, tailings, or water, to flow from his or their claim or dam, or to accumulate so as to cause injury to any public road or thoroughfare, or to any claim, drive, water-race, water-dam, water-hole for domestic purposes, old or new workings, puddling-machine, or to any other machinery, or to any garden or place of residence held under miner's right or business license, belonging to any other person or persons.

43. *Machines, tailings, &c., obstructing creeks.*—It shall not be lawful for any person or persons to hold, place, construct, or erect any machine, water-dam, bank of earth, or building of any sort, on, upon, or over any creek, so as to impede the passage of water or sludge in any channel or creek.

BUSINESS AREAS, RESIDENCE AREAS, AND MACHINERY SITES.

44. *Area of ground under business license.*—The holder of a business license shall be entitled to an allotment of ground having a frontage of forty-five (45) feet by a depth of one hundred and twenty (120) feet. The owner or occupier of any such business site shall erect or cause to be erected, suitable premises, and occupy the same within six (6) weeks from the date of taking possession thereof.

45. *Streets.*—Whenever a large rush may be anticipated, the mining surveyor shall mark off, or cause to be marked off, a site for a street or streets, in a convenient situation, but not likely to be unprofitable, such street or streets to be one chain wide; and shall mark the allotments for business places along such street or streets; and after such site has been marked off it shall be reserved for holders of business licenses only; and no holder of a miner's right shall be allowed to occupy any of such allotments for the purpose of residence, except such as had erected their abodes previous to the marking off of same as aforesaid; and to entitle any holder of a business license to occupy any of such allotments, for business purposes, he shall first cause same to be registered by the mining registrar, who shall

give a certificate of such registration in the form of Schedule iv. hereunto annexed. The party applying shall produce to the mining registrar his business license for the time being, whereupon the mining registrar shall register the owner thereof for only one allotment under such business license. When any mining surveyor shall commence to lay off a line of street, no miner or holder of a business license shall take possession of or occupy any allotment on such street until the same is properly surveyed and marked off by the mining surveyor. When such street or streets shall be duly surveyed, all sites that have not previously been taken possession of by the holders of miners' rights or business licenses shall be balloted for by the holders of business licenses only.

46. *Space to be left between allotments.*—A space of twenty (20) feet, available for mining purposes and public thoroughfares shall be left between all allotments held under business licenses; and the stores and premises erected on any business area may be undermined. Provided that such undermining does not injure or endanger such stores or premises. And in case such space of twenty (20) feet has not been left as aforesaid, or that the same having been left shall be afterwards occupied or built upon, such buildings may be removed if the ground be required for mining purposes or public thoroughfares, without compensation to the owner or owners thereof; and any miner or miners requiring the same for mining purposes shall first apply to the warden to be put in possession thereof.

47. *Nuisance.*—Every holder of a business or residence site fronting a new street or thoroughfare shall be required to keep the same in such a state of cleanliness so as not to become a nuisance to his neighbours or the public.

48. *Land to be occupied for residence.*—Every holder of a miner's right shall be entitled to hold an area not exceeding one quarter of an acre of land for the purpose of residence. Should the owner of any residence site held under a miner's right, upon which he has erected a residence and resided thereon for four consecutive weeks, leave such residence unoccupied for a longer period than three (3) months, such site shall be deemed abandoned, unless registered for a further period of six (6) months, under Schedule xiii. hereunto annexed.

49. *Machinery sites.*—Any miner or miners, or any company' may take possession of and occupy as a site for the erection of or as a site on which is already erected machinery for the crushing and extraction of gold or silver from quartz or other auriferous or argentiferous substances, any extent of Crown lands not exceeding six acres; such sites shall be registered with the mining registrar, and surveyed by the mining surveyor for the division in which such sites are situate, and the mining registrar shall give to the party or parties registering such site a certificate of such registration in the form in the Schedule annexed marked iii.: Provided that the owner or owners of any such machinery as aforesaid, erected on such aforesaid site, shall once in every three months give to the mining registrar or mining surveyor for the division in which such site is situate a full, true, and complete return, as far as shall be in their power, of the quantity of quartz or other auriferous or other argentiferous substances which may have been reduced or crushed by them, together with the locality from which such substances were obtained, and the yield of gold or silver therefrom.

REGISTERED EXTENDED CLAIMS.

50. *Interpretation.*—Vet alluvial ground, new or previously worked, where horse-power or steam machinery is required for the working and baling of water therefrom, may be taken up and occupied as a registered extended claim or claims, subject to the following conditions:—

1. *Claims must be registered.*—Every claim taken up under this section must be registered with the mining registrar, who shall give to the applicants a certificate of registration in the form of Schedule i. hereunto annexed; and such certificate shall contain the name or names of the owner or owners, together with the name or title under which the claim is to be worked.
2. *Marking claims.*—Seven days previous to the registration of any such claim, the applicant or applicants shall mark off the land to be applied for by firmly affixing in the ground a post, standing not less than three (3) feet above the surface, at each angle of the land; and an application, in the form of Schedule v. hereunto annexed, shall be posted near the centre of such land, such notice to be kept posted until the application is disposed of.
3. Within four days after the expiration of the aforesaid seven days the applicant or applicants shall, in writing, request the mining surveyor for the division in which such claim is situate to survey the same, and shall pay the fees for such survey.

51. *Objections.*—Any person or persons objecting to the registration of such claim may lodge with the mining registrar their objection, in writing, within the aforesaid seven days, and on the receipt of such objections he shall not register the applicant or applicants until the objections are disposed of; and any person or persons objecting failing to prosecute the objections within fourteen days from the date of lodging the same, the mining registrar shall proceed to register the applicant or applicants for such claim or claims as if no objections had been lodged.

52. *Classification of claims.*—For the purposes of this bye-law registered extended claims shall be classified and known by the following names or titles, that is to say:—

A single claim.—The area held by one miner by virtue of a miner's right.

A united claim.—Any number of single claims not exceeding thirty (30) where the owners have agreed to work as a company.

An amalgamated claim.—Two or more united claims forming one company.

53. *Extent and form of claims.*—The extent of registered extended claims shall be according to the following scale:—In ground where the depth of sinking does not exceed one hundred feet, one acre per man; one hundred feet and not exceeding two hundred feet, two acres per man; two hundred feet and upwards, three acres per man; but no claim, whether single, united, or amalgamated, shall exceed in length three times its width.

54. *Time of commencing and mode of working.*—Within two months after the registration of any claim the owner or owners themselves, or their agents, shall *bonâ fide* proceed to work regularly upon such claim or claims, according to the usual course and practice of efficient mining, by so many miners as shall be required, until the claim is opened out sufficiently to admit of the full number of miners for which the claim is registered being employed therein.

55. *Penalties, &c.*—The owner or owners of any registered extended claim neglecting to commence work on their claim, as required by the preceding section, or at any time during the working thereof, neglecting to work or cause to be worked, or bale their due proportion of water from such claim, for a period of twenty-eight consecutive days, shall be liable on conviction thereof to a penalty not exceeding £10, and for a second offence on conviction thereof to a penalty not less than £10 and not exceeding £25. Such penalty may be enforced by any duly qualified miner or miners, or mining registrar, and be recoverable in a summary way before any justice being also a warden; provided that no second information shall be laid until fourteen days after the date of the first conviction; and if after the lapse of twenty-eight days from the infliction of any second penalty the owner or owners shall neglect to work, or cause to be worked, such claim, the same may be declared forfeited: Provided always, that if it shall appear to the court that work has not been *bonâ fide* commenced and continued in such claim within one (1) month after the lapse of the two (2) months allowed for registration, the said court may at once declare the right of such persons to the claim forfeited, and the persons enforcing such forfeiture shall be deemed to have a prior right to be put in possession of such claim.

QUARTZ REEFS.

56. *Description of claims.*—For the purpose of this bye-law, claims may be taken up on quartz reefs or on the line of quartz reefs under four classes respectively, viz.:—

1. Prospecting claims.
2. Co-operative prospecting claims.
3. Ordinary claims.
4. Extended claims.

All quartz reefs claims shall in length be measured horizontally along the line or supposed line of reef, and in width one half of the width on each side of the line or supposed line of reef.

57. *Description of ground upon which claims under the aforesaid classes may be taken up and held.*—Under classes 1, 2, 3, either on previously unworked reefs, or on reefs, or on the line of such reefs which have been previously worked and abandoned, but no claim shall be taken up under class no. 1 at a less distance than twelve hundred (1200) feet from any other claim under any of these classes, then in the possession of any miner or miners, on the same line or supposed line of reef. Under class 4, on reefs or on the line of reefs which have been previously worked and abandoned, but in every such claim there shall be at the time of taking possession thereof at least one shaft thereon, sunk to the depth of fifty (50) feet, or to water level, and there shall also be erected thereon at the time of its being taken possession of, or there shall be erected thereon after possession has been taken, and in either case be actually and *bonâ fide* at work within six (6) months after possession thereof has been taken, steam machinery for the purpose of winding or pumping on such claim.

58. *Marking of claims.*—All claims under any of the aforesaid classes shall be marked out at the time of taking possession thereof, by substantial posts erected at each angle of the claim, and within forty-eight (48) hours after such claim has been taken possession of, the boundaries of it shall be evidenced by a post of at least two (2) inches square, or two (2) inches in diameter, and standing at least two (2) feet out of the ground, erected at each angle of the claim and at each end of the claim on the line or supposed line of reef; and such last aforesaid posts shall be kept erected during the whole time that possession is retained of such claim; but where two or more claims are amalgamated it shall only be necessary to keep such posts erected to evidence the boundaries of such amalgamated claim.

59. *Area of claims.*—The area of ground which may be taken possession of and held under the aforesaid classes, respectively, shall not exceed as follows:—

Class 1.—Four hundred (400) feet on the line or supposed line of reef, by a width of six hundred (600) feet. Any such claim may be taken possession of and held by one miner or by two or more miners in conjunction.

Class 2.—One hundred and fifty (150) feet on the line or supposed line of reef, by a width of six hundred (600) feet for each miner taking possession of or holding such claim; provided, however, that no claim under this class shall exceed eighteen hundred (1800) feet in length.

Class 3.—One hundred (100) feet on the line or supposed line of reef, by a width of six hundred (600) feet for each miner taking possession of or holding such claim; provided, however, that no claim under this class shall exceed twelve hundred (1200) feet in length.

Class 4.—Two hundred (200) feet on the line or supposed line of reef, by a width of six hundred (600) feet for each miner taking possession of or holding such claim; provided, however, that no claim under this class shall exceed two thousand (2000) feet in length.

60. Time of commencing to work and mode of working claims.—In all claims taken under the aforesaid classes work shall be commenced by the number of miners and *bonâ fide* carried on as follows:—

Under class no. 1, by one or more miners, within forty-eight (48) hours after such claim has been taken possession of.

Under classes nos. 2 and 3, by two or more miners, within forty-eight (48) hours after such claim has been taken possession of, and within seven (7) days after payable gold has been obtained in such claim a majority of the number of miners holding such claim shall be employed thereon: Provided, however, that in any claim under class 3 which shall not exceed one hundred (100) feet in length by six hundred (600) feet in width it shall only be necessary that one miner be employed thereon.

Under class no. 4, by at least one-half the number of miners holding such claim within fourteen (14) days after such claim has been taken possession of.

61. Amalgamation of claims.—Whereas it is enacted by *The Mining Statute 1865*, sec. 7, that it shall be lawful for the owners of any number of adjoining claims to amalgamate the same, whether the same be registered at the time of such amalgamation or not, in order to give full effect to such enactment any two or more claims held under any of the aforesaid classes may be amalgamated subject to the following conditions:—Notice of such amalgamation shall be given in the form in the Schedule hereunto annexed marked vi. to the mining registrar for the division in which such amalgamated claim is situated within seven (7) days after such amalgamation has taken place, and such mining registrar shall thereupon issue to the persons giving such notice a certificate of registration of such amalgamation, in the form in the Schedule hereunto annexed marked vi., and such amalgamated claim shall be *bonâ fide* worked by such number of miners as would have been required to work such claims prior to their being amalgamated.

62. Survey of claims.—Any claim taken up under class no. 1 must be surveyed by the mining surveyor for the division in which such claim is situate, within fourteen (14) days after payable gold has been obtained therefrom. Any claim taken up under classes nos. 2 and 4 must be surveyed by the mining surveyor for the division in which such claim is situate, within twenty-one (21) days after such claim has been taken possession of. Any amalgamated claim must be surveyed by the mining surveyor for the division in which such claim is situated within seven (7) days after amalgamation.

63. Registration of claims.—All claims taken up under the aforesaid classes shall be registered with the mining registrar for the division in which such claims are situated within fourteen (14) days after such claims have been taken possession of, and an amalgamated claim seven (7) days after amalgamation. A certificate of the registration of any claim or of any share in a claim shall be furnished by the mining registrar in the form of the Schedule hereunto annexed marked i. to the persons registering the same.

All applications for registration of a claim, or of a share in a claim, must be made to the mining registrar in writing; and in case of a claim, the name under which such claim is proposed to be registered; and in case of a share in a claim, the name under which such claim has been registered must be inserted in the application; and applications for registration must be in the form or to the effect contained in the Schedule hereunto annexed marked viii.

64. Events in which claims shall be forfeitable.—Any claim under any of the aforesaid classes, or any amalgamated quartz claim, in which work shall not have been commenced as prescribed by this bye-law, and any claim as aforesaid in which work having been commenced as prescribed shall, except as provided for in sections 63 and 76 of this bye-law, be suspended, and any claim under class no. 4 on which steam machinery shall not have been erected and be *bonâ fide* at work, or, if erected previous to the claim being taken possession of, shall not be *bonâ fide* at work within the time prescribed within this bye-law; and any claim in which it shall appear to a court of competent jurisdiction that the reasons assigned in the declaration under which protection registration shall have been obtained under section 63 of this bye-law, were insufficient, or that the declaration was untrue, shall in any such cases aforesaid be forfeitable, and may, by a court of competent jurisdiction, be declared forfeited; and the person or persons first seeking to enforce forfeiture of any such claim by proceedings before such court shall, on such claim being declared forfeited by such court, be put in possession thereof: Provided, however, that if forfeiture of any such claim shall have been sought to be enforced within one month after such forfeiture has been incurred, the person or persons in whose favor such forfeiture is adjudged shall pay the person or persons against whom such forfeiture has been decreed for any timber, mining plant, or materials on such claim absolutely beneficial to the persons in whose favor forfeiture is decreed; and in such event, if the persons themselves cannot agree as to the value of such timber, mining plant, or materials, the value thereof shall be ascertained by arbitration, as provided in section 92 of this bye-law; and the amount of such valuation, together with the cost of such arbitration, shall be paid to the person or persons against whom such forfeiture has been decreed within seven (7) days after such valuation has been agreed upon or made; and such payment shall be a condition precedent to the person or persons in

whose favor such forfeiture has been declared being put in possession of such claim.

65. Events in which shares shall be forfeitable.—Any share in any claim under any of the aforesaid classes, or in an amalgamated quartz claim, shall be forfeitable for the following reasons:—For the non-payment by any shareholder of all lawful calls or contributions made or due upon his share or shares, and in respect of such forfeiture, the company, co-partner or co-partners, holding such claim, or some person duly authorized by them, may enforce such forfeiture; and such company, co-partner or co-partners, shall respectively have priority of right, for a period not exceeding fourteen (14) days after such forfeiture has been incurred, to be put in possession of such share; and in either of such cases as aforesaid forfeiture may be declared by a court of competent jurisdiction; but such court may, in its discretion, in lieu of forfeiture of any such share as aforesaid, for the first offence inflict, by way of penalty, a fine not exceeding Five pounds; and such fine shall be the property of the company or co-partners seeking to enforce such forfeiture: Provided, however, that no claim in any share as aforesaid shall be forfeitable by reason of the non-payment of any call or contribution by the holder thereof, unless the company, co-partner or co-partners, seeking to enforce such forfeiture shall, seven (7) days at least before commencing proceedings to enforce such forfeiture, have served him with a notice in writing, signed by such company, co-partner or co-partners, or by some person duly authorized by them, demanding payment of such call or contribution; and it shall be sufficient service of such aforesaid notice if it be served on such shareholder personally, or if it be left, addressed to him, at his place of residence, if known, or, if his place of residence be not known, by advertising such notice in two (2) consecutive publications of the newspaper published nearest to the place at which such claim in which such aforesaid share is held is situate.

66. Exemptions from forfeiture.—Whenever the holder or holders of any claim under any of the aforesaid classes, or of an amalgamated quartz claim, shall have incurred forfeiture of such claim by reason of suspending work in such claim without availing himself or themselves of the privileges of sections 68 and 76 of this bye-law, and shall have, within seven (7) days after incurring such forfeiture, again proceeded to work and have *bonâ fide* continued to work such claim as provided by section 60 of this bye-law, no other person or persons having within such seven (7) days aforesaid sought to enforce such forfeiture, then in such case on any person or persons afterwards proceeding to have forfeiture of such claim declared by a court of competent jurisdiction, such court may in its discretion, in lieu of declaring such claim forfeited, impose a fine by way of penalty on the holders of such claim, such fine not to exceed the sum of Ten pounds (£10) sterling, and to be paid to the person or persons seeking to have such forfeiture declared.

67. Possession of forfeited claims or shares.—When, under the sections hereof, numbered 64 and 65 respectively, any claim or share shall be forfeitable, any person or persons, being the holder or holders of sufficient miners' rights, may, subject to any right of priority in any other person or persons as provided in the next preceding clause, make application to the warden or to the Court of Mines of the district to be put into possession of the claim or share; and the person or persons who shall so first make application shall, subject as aforesaid, have a prior claim to be put in possession.

68. Quartz claims may be held in reserve.—When any person or persons, or any company holding a claim under any of the before-mentioned classes, or an amalgamated claim, requires to suspend operations thereon for the purpose of erecting or repairing machinery, or through scarcity of water to crush quartz taken thereon, or when by reason of any influx of water which will prevent any claim under classes nos. 1, 2, and 3, or an amalgamated claim, from being efficiently worked until the holders of one adjoining claim are down to the same depth as such claim, the works thereon are unavoidably suspended, such person or persons, or such company, or some person duly authorized on their behalf, may make a statutory declaration in the form in the Schedule hereunto annexed marked ix., setting forth fully the reason for desiring to suspend the work upon the claim, and shall deliver such declaration, or duly certified copy thereof, to the mining registrar, and the said registrar shall upon the receipt of such declaration register such claim, to be held in reserve and unworked, as follows:—In case of erecting machinery, any period not exceeding six (6) months. In case of repairing machinery, any period not exceeding three (3) months. Scarcity of water or influx of water, as aforesaid, in claims under classes nos. 1, 2, and 3, and amalgamated claims only, any period not exceeding three (3) months. And such registrar shall deliver to the person or persons, or company, as aforesaid, a notice in the form in the Schedule hereunto annexed marked x., stating that said claim is protected from forfeiture for a certain period to be named therein; and it shall be the duty of such person, persons, or company to post and keep posted such notice, or a true copy thereof, on some conspicuous part of the claim to which it relates; and in cases where such suspension shall have been by reason of an influx of water, and the holder or holders of one adjoining claim are not down to the same depth as such suspended claim on the expiration of the term of such suspension, then such suspension may be renewed for a further term not exceeding three (3) months, the proceedings to be had in case of a renewal to be in every respect similar to the proceedings to be had, as aforesaid, in the first instance, and provided the causes or reasons in such declaration as aforesaid shall be true and sufficient, any claim or claims which shall have been so registered as aforesaid shall, during the time of such protection, be exempted from fine or forfeiture for non-performance of work; and such suspension may from time to time be renewed, and such claim be protected from forfeiture for a period not exceeding three (3) months at each time, until one adjoining claim is down to the same depth

as such suspended claim: the proceedings to be had in each case of renewal to be in every respect similar to the proceedings to be had in the first instance as aforesaid: Provided, however, that if no claim shall have been taken up adjoining the claim so held in reserve, then such suspension shall not be renewed after the first term of suspension from work, or if any claim adjoining the one so held in reserve shall be actually and absolutely abandoned by the holders thereof during the period of suspension of the claim so held in reserve, then in such case such suspension shall not be renewed, but the holders of such claim shall, on the termination of the period for which their claim is registered to be held in reserve, proceed to work as provided in section 60 of this bye-law.

When any person or persons, or company holding a claim under classes nos. 1 and 2, shall have *bona fide* worked such claim for a period of six (6) months, or under class no. 3, or an amalgamated claim, shall have *bona fide* worked such claim for a period of three (3) months, without any payable gold having been obtained in such claim during such aforesaid periods respectively, and are desirous of suspending work therein, then such parties shall make a statutory declaration and obtain registration of such claim to be held in reserve and unworked for any period not exceeding three (3) months, in the manner herein provided, and shall also post a notice on such claim as so provided, and provided the causes and reasons in such declaration be true and sufficient, any claim, or claims which shall have been registered as aforesaid, shall during the time of such protection be exempt from fine or forfeiture for non-performance of work: Provided that no claim shall be held in reserve as aforesaid unless a majority of the shareholders, or in cases where there are only two shareholders in a claim, then unless both of such shareholders shall be willing to hold such claim in reserve, and the consent of such majority or of such shareholders to such claim being held in reserve, shall be given in writing to the mining registrar, and shall be by him filed in his office.

69. *Re-marking and extension of claims.*—Whenever any miner or miners shall have been prevented from marking out the full width of their claim under any of the aforesaid classes, or of an amalgamated claim, by reason of the adjoining ground being in the occupation of some other miner or miners, they may, on such ground being abandoned, or on having forfeiture of such adjoining ground declared in their favor, re-mark their claim and extend it to an area not exceeding that prescribed in section 59; provided that if such claim shall have been surveyed or registered as prescribed in sections 62 and 63, they shall, within ten (10) days after such re-marking and extension, have the same re-surveyed, and re-register the same in the form prescribed in sections 62 and 63 hereof.

70. *Parties entitled to all deposits, &c., of gold.*—The owner or owners of any quartz claim under any of the aforesaid classes, or of an amalgamated claim, shall be entitled to all reefs, veins, leaders, and alluvial deposits of gold within their claim: Provided that persons in possession of any such claim neglecting to work the reef in accordance with the provisions of this bye-law while working the alluvial ground shall be liable to have the area reduced to an ordinary alluvial claim.

71. *Inspection by and information to mining officers.*—The owner or owners of any claim under any of the aforesaid classes, and of any amalgamated claim, shall permit the mining surveyor, mining registrar, or other duly authorized officer, to inspect the workings and operations of such claim, and to take measurements thereof once in every three (3) months, if required, and shall render all the assistance in their power to such officer when making such inspection and measurements; and shall also furnish to such officer as aforesaid, if required, once in every three (3) months, a full, true, and correct statement as to the working operations which may have been carried on in such claim, the quantity of quartz and other substances which has been reduced or otherwise treated from such claim, the yield of gold therefrom, the number of miners and other persons employed in such claim, and such other general information not inconsistent with this clause, for the previous three (3) months, ending at such date as such officer shall determine.

GENERAL REGULATIONS.

72. *How to take possession of any claim.*—Any miner or miners considering himself or themselves justified in taking possession of any claim, water-right, or any other easement or share therein respectively, may do so provided that no other person or persons is or are then in possession or occupation thereof respectively; but in the event of any other miner or miners so in possession disputing the right of possession, the first-named person or persons shall apply to a court of competent jurisdiction to enquire into the subject-matter in dispute; but in no case shall any person take forcible possession of, or commence to work in, any claim after his right to take possession thereof has been disputed, without forfeiting all right or title he may have acquired therein.

73. *Wall.*—A wall of two (2) feet in width shall be left between all claims, except in quartz reef claims, marked out under this bye-law, by the miner or miners last marking out; and any party neglecting to leave such wall, the necessary ground may be deducted from the claim of the party so neglecting, and shall be assigned as a wall; and any such wall may be worked by either of the adjoining claimholders, provided that they secure the ground properly with sufficient timber.

74. *Presence of parties marking claims.*—It shall not be necessary for all shareholders to be present at the marking out of claims.

75. *Marking ground in excess.*—Where any miner or miners have marked out more ground than he or they are entitled to under this bye-law, any other miner or miners may mark off such excess on any side of the claim, and the miner or miners

having marked too much ground shall not be entitled to a wall taken from him or them.

76. *Measurement of disputed ground.*—In all cases where the right to certain ground forms matter of dispute between miners, each claim shall be measured from the boundary pegs opposite to the side of the claims in dispute, and no party shall be protected from encroachment unless the boundary pegs shall have been kept visible during the working of the claim.

77. *Destroying or removing pegs, notices, &c.*—No person shall remove, destroy, or cover over any pegs marking the boundary of any claim, or shall efface, remove, or destroy any notice posted on any claim; or shall wilfully cut a channel so as to cause the escape of water from any water-dam, water-race, or tail-race that is being used by any miner or miners; nor shall it be lawful for any shareholder or shareholders in any claim to remove the pegs or to alter the boundaries of such claim without the consent of a majority of the shareholders of such claim.

78. *Tunnelling.*—Where in alluvial ground hills can be worked more efficiently by tunnelling, registered claimholders may hold, in addition to their claim or claims, sufficient ground for such tunnel, with twelve (12) feet on each side from the centre of their tunnel, as a protection to the same, for any distance along its course not exceeding one thousand (1000) yards, and with a space of three hundred (300) feet square at the mouth of tunnel, for the erection of such machinery or other purposes.

79. *Owners of alluvial claims entitled to all reefs and other deposits.*—The owner or owners of any alluvial claim shall be entitled to work all quartz reefs, veins, leaders, and other deposits of gold within the area of such claim.

80. *Prevention of accidents.*—No persons shall be allowed to remove logs or any other substance from the top of any shaft to a lower level than four (4) feet above the surface, nor to cut any drain into any shaft whereby any claim, shaft, or workings may be damaged.

81. *Protection to parties applying for ground.*—Any miner or miners posting any authorized notice, or marking off any ground to be applied for under this bye-law, shall be protected in holding the same from the time of marking or posting such notice till the application is disposed of.

82. *Alluvial claims may be held in reserve.*—When by reason of any influx of storm or other water, or scarcity of water, the works upon a claim cannot be prosecuted, or when the owner or owners of a claim require to suspend mining operations upon such claim for the purpose of procuring and erecting, or repairing machinery thereon, may do so, on obtaining registration from the mining registrar, setting forth the cause of such stoppage, and posting a copy thereof on the claim. The periods for which claims may be held in reserve and unworked are as follows:—influx or scarcity of water, not exceeding three months; procuring and erecting machinery, not exceeding four months; repairing machinery, one month.

83. *Roads to be bridged.*—Any miner or miners constructing or using a race, tail-race, water-dam, catch-drain, or sludge-drain across any road or thoroughfare, shall construct substantial bridges (with approaches where necessary) not less than fourteen (14) feet wide over such race, tail-race, water-dam, catch-drain, or sludge-drain; the same to be kept in repair by the owner or owners thereof.

84. *Protection to sites, water-dams, residence areas, &c.*—Persons in legal possession under this bye-law of any site for crushing machinery, water-dam, race, reservoir, tramway, or site for stacking quartz, earth, or other materials, or for any residence area, shall be protected in possession of such holding against any other parties, except in the event of such site or area being required for mining purposes; and in such cases the persons requiring such site shall make application to a court of competent jurisdiction, and shall before entering thereon deposit with the warden, or give sufficient security for, a sum equal to the estimated injuries that will accrue from such occupation or working, the amount of such compensation to be determined by arbitration as provided by this bye-law; and such amount as shall appear to the arbitrators to be sufficient for the actual damage done shall be paid to the holder of the site as soon as the actual damage can be ascertained.

85. *Quartz, earth, timber, and other substances, may be stacked and registered.*—Any miner or miners shall be at liberty to hold possession of any quartz, earth, timber, or other substance, that may have been raised, stacked, or stored by him or them, or of which he or they may be the owner or owners, provided that the same shall not have been stored on any ground legally occupied by any other person, and may register such substance with the mining registrar in accordance with Schedule xi, hereunto annexed, and shall keep a copy of such registration posted on the stack or store.

86. *Special protection registration.*—In the event of any company or persons holding a claim being unable to collect from the holders of the shares or interests in such claim the calls necessary for prosecuting the works upon such claim, and in the event of the market value of a share or interest in such claim being less than the amount of capital called up in respect of such share or interest, and provided that work shall have been *bona fide* commenced on such claim, and a sum of not less than four hundred pounds (£400) expended in carrying out such works (that is to say, upon the conjunction of the events aforesaid) on production of a statutory declaration made by the manager of a company, or by any other person duly authorized in that behalf, to the effect that such company or persons are unable to collect calls necessary for carrying on the operations upon such claim, and that the shares or interests respectively in such claim cannot be sold for so much money as has been called up in respect of each such share or interest, and that the work as aforesaid has been done, and the amount ex-

pendent as aforesaid, the mining registrar shall register the claim of such company or persons to be held in reserve and unworked for any period not exceeding six (6) months, and every such registration shall be deemed a special protection to such company or persons as aforesaid, and provided the statements contained in the declaration be true, the claim shall be exempt from fine or forfeiture for non-performance of work during the continuance of such special protection: Provided always that all claims held at the date on which this bye-law becomes law shall, in the events aforesaid, be entitled to such special protection notwithstanding the title to such claim shall hereafter be or have been assigned, transferred, or otherwise dealt with: And further, provided always that if it shall appear to a court of competent jurisdiction that the reasons assigned in the declaration under which such protection registration was obtained were insufficient, or that the declaration was untrue, then such claim which was held, or was applied to be held, under such protection registration shall be forfeitable, and may, by a competent court, be declared forfeited: Provided that such court may in such case inflict by way of penalty, in lieu of forfeiture, a fine not exceeding One hundred pounds (£100), nor less than Twenty-five pounds (£25): Provided also that no claim shall be registered a second time under this bye-law.

87. *Absence from claims.*—Any miner or miners may leave his or their claim or share in any claim held under any section of this bye-law, unworked, and may absent himself or themselves from such claim without incurring forfeiture of such claim or share, as follows:—Whilst incapacitated by accident or sickness from ability to work in such claim, or whilst in attendance on a sick person; whilst in attendance on a court of justice or a mining board; from Good Friday until Easter Tuesday inclusive; from the 23rd December until the 4th January inclusive; from the day before until the day after the polling-day at all elections of members of Parliament and the mining board, and on all public holidays: Provided that any miner leaving his share in any claim unworked, under the provisions of the first part of this clause shall, as a condition precedent thereto, obtain the consent of a majority of the co-partners in such claim, or if there shall be only two co-partners in such claim, then the consent of his co-partner to his leaving his share in such claim unworked as aforesaid, or in lieu thereof shall employ a skilful and efficient miner to work such share during his absence.

88. *Objections.*—Where objections to any application are made under this bye-law, or any person or persons objecting, shall lodge such objection in writing, with the mining registrar within seven (7) days from the date of such application; if the person or persons objecting shall fail to prosecute his or their objections within a further period of seven (7) days, such objection shall be null and void.

89. *Abandonment of shares.*—Any miner desirous of abandoning his interest or share in any claim held under this bye-law, may do so by serving a notice of his intention to do so on the other shareholders, and inserting a copy of the same in the newspaper nearest to the locality of the claim for two (2) consecutive insertions, and also a copy to be posted at the mining registrar's office for seven (7) days; at the expiration of which time the said shareholder shall be released from all further liability connected with the said share: Provided always that nothing herein contained shall be deemed to cancel or set aside, or to interfere with, any debt, agreement, or contract, which at the date of such abandonment may exist between such shareholder and his co-partners.

90. *Registration.*—Any shareholder or any person holding a claim or interest therein, or the owner of any dam, reservoir, residence area, or business site, or other easement, may register the same on application to the mining registrar, unless otherwise provided for in this bye-law, who shall give a certificate of registration in the form of Schedule xiii. hereunto annexed.

91. *Providing for the non-appointment or neglect of mining registrar.*—In any division for which there is no mining registrar appointed, or where any registrar shall refuse or neglect to register any application for registration required by this bye-law, such non-fulfilment shall not invalidate the title to any mining interest or privilege held or claimed by the applicant.

92. *Shares may be transferred.*—Any share or interest in any claim that has been registered may be transferred on application to the mining registrar, who shall give to the miner to whom the said share or interest shall be transferred, a certificate in the form of Schedule xii. hereunto annexed.

93. *Arbitration.*—In all cases under this bye-law where arbitration shall be found necessary, the subject of such arbitration may be decided by two arbitrators, chosen, one by each of the parties interested; and in the event of such arbitrators failing to arrive at a decision, the arbitrators shall by lot appoint a third person, and the decision arrived at by the majority shall be final; such decision to be registered with the mining registrar by the party in whose favor the award of the arbitrators shall be given, and such award may be enforced in any court of competent jurisdiction: Provided that the neglect of either party, as aforesaid, to appoint an arbitrator on seven (7) days' notice being given so to do by the other party, shall be deemed a breach of this bye-law.

94. *Forfeiture of shares.*—The owner or owners, shareholder, or any person holding an interest in any claim, except as provided in section 65, neglecting to work, or cause to be worked, such share or interest, or neglecting or refusing to contribute his or their share or proportion of capital required for the erection of machinery or other works, or pay any call lawfully made by the party or company, for four consecutive weeks after any such call is due and payable, shall forfeit all title and interest in such share or interest; and such forfeiture may be enforced by any duly qualified miner or miners before any warden, or warden and assessors; and in the event of such for-

feiture being decreed, the miner or miners enforcing such forfeiture may take, and will have preference to take possession of any such forfeited share or interest: Provided that all such contributions or calls shall be made by a majority of the company, or by directors duly appointed by such company; provided also that a notice containing the amount of monies due, and the date when payable, shall have been served on the defaulting shareholder or shareholders, or his or their agent, or at his or their last known place of residence; or if such defaulting shareholder or shareholders cannot be found, then it shall be considered good and sufficient service of such notice by having posted it, addressed to his or their last known place of residence, and advertising it in the nearest local newspaper.

95. *Forfeited shares.*—Any person who shall have obtained an award of any forfeited share or interest in any claim shall, as a condition precedent to his obtaining possession thereof, become responsible for the liabilities of such share.

96. *Information of proceedings.*—All miners holding claims under the bye-laws of the Maryborough Mining District shall furnish, if required, to the mining registrar of the division in which such claims are situate, a quarterly return of the quantities of quartz, earth, or other auriferous substance raised and crushed, or washed by them, and the quantity of gold obtained therefrom; and any miner or miners refusing to furnish such information will be deemed to have committed a breach of the bye-law.

The following extracts from "The Mining Statute 1865" and "Amended Mining Statute 1872" are herewith published for public information:—

Note A.—*Recovery of calls.*—Calls legally made by any company or party for carrying on mining operations, may be recovered before any warden, or warden and assessors, in accordance with section 198 of *The Mining Statute 1865*.

Note B.—By the provisions of section 7 of *The Mining Statute 1865*, any miner by virtue of his miner's right may hold more than one share in a claim or claims, provided such claim or claims are registered and worked in accordance with the bye-laws.

Note C.—*Abandonment of claims.*—Section 27 of *The Amended Mining Statute 1872*, No. 416, provides that any claim which shall be apparently unoccupied, and upon which there is no plant or machinery, and has been unworked for a longer period than is allowed by the bye-laws for the district or for any division or part thereof in which such claim is situated, shall be deemed to be actually abandoned ground, and may, without any adjudication of forfeiture, or abandonment, be taken up and registered as a claim in accordance with the bye-laws by any holder of a miner's right, but subject, nevertheless, to the rights (if any still subsisting) of any previous occupant of such ground.

Note D.—*Penalty for breach of bye-law.*—Under the provisions of *The Mining Statute 1865*, clause 237, it is provided that any person who shall infringe any lawful bye-law of any mining board, shall, on conviction thereof before a competent court, forfeit and pay for every such offence a penalty not exceeding Ten pounds, and every such penalty shall be recovered in a summary way before a justice being also a warden.

Note E.—The attention of miners is directed to the regulations which may from time to time be made by the Governor in Council, under the 47th section of *The Mining Statute 1865*, for the survey of mining tenements, wherein the duties to be performed and the fees to be charged by mining surveyors are laid down, the fees at present in force being as follows:—

SALES (Nos. 5391, 5392, AND 5393) OF CROWN LANDS IN FEE-SIMPLE.

HIS EXCELLENCY THE GOVERNOR, with the advice of the Executive Council, has been pleased to direct that sales by auction of the undermentioned Crown Lands will be holden at the times and places stated hereunder, and that such lands be offered for sale in the lots hereinafter specified, and at the upset price fixed to each lot respectively.

The lands will be sold in fee-simple, and subject to the covenants, conditions, exceptions, and regulations directed by the Governor in Council by an Order in Council dated the 26th day of May 1873, and published in the *Government Gazette* of the 30th May 1873, page 941.

A deposit of one-half the price at which each lot is sold must be paid by the purchaser at the time of sale, and all such payments shall be made only in gold, silver, or bank notes, or cheques approved of by the officer conducting the sale, and the residue of such price must be paid within one month from that time.

KYNETON RACING, ETC., RESERVE REGULATIONS.

WE, William Swanwick, Samuel Windridge, George Walker Johnson, and Salathiel Booth, a majority of the duly appointed trustees of the land in the parish of Lauriston, at Kyneton, reserved for racing and recreation purposes, and for drilling and reviewing volunteers, having framed the following regulations for the care, protection, and management of the above-mentioned reserve and for the preservation of good order and decency therein, submit the said regulations to the Board of Land and Works to be made by such Board in pursuance of the powers conferred by section one hundred and eight of *The Land Act 1869*.

REGULATIONS.

The reserve is parcelled out into the following divisions:—

(1.) The grand stand, the saddling paddock, and the paddock for carriages and horses, the weighing yard and the passage thereto, the stewards' stand, and the judge's box; these being within the enclosure which is fenced in and surrounded by a close fence.

(2.) All the residue of the reserve (excepting such parts, if any, as may be hereafter fenced in and set apart for plantations).

All persons shall be admitted at all race meetings to the second of the said divisions free of charge.

No person shall enter at any race or other meeting into the first of the said divisions, nor be permitted to bring any horses, carriages, or other vehicles into the first or second of the said divisions, or to train or exercise any horses therein, excepting on production of a ticket issued by the trustees duly authorising him or her in that behalf, and then only in such part or parts of the same divisions as shall be indicated on the ticket, and only on the days for which the ticket is issued; but the ticket holder shall not remain in the said first or second of the said divisions or any part thereof for a longer period than half an hour after the last race of the day shall have been run, unless with the consent of the trustees.

No person except the judge, or any person he may call to his assistance, shall enter the judge's box at the time the horses are prepared to start or are running in any race.

No person shall enter the weighing stand or the weighing yard, or the approaches thereto, except the jockeys requiring to be weighed and the owners and trainers of horses desirous of seeing their jockeys weighed.

The following persons shall not be admitted in the reserve:—

(1.) Any person proved to the satisfaction of the trustees to have been at any time guilty of any malpractice or dishonorable conduct in connection with racing.

(2.) Any person proved, to the satisfaction of the trustees, to be a defaulter.

All persons paying for admission to the first or second of the said divisions or any part thereof shall be supplied with a ticket of admission which he or she shall upon demand produce, or if required surrender, to any gatekeeper or other person having authority from the trustees to demand the production or surrender of the same.

Persons renting or hiring for any race meeting the grand stand or any portion thereof, or any booth in the reserve, and persons allowed to train or exercise horses in the reserve, shall abide by any order given by the trustees in reference to the reserve and the buildings and other erections for the time being thereon.

No person shall take any dog into the first or second of the said divisions, or into any building thereon.

No person shall enter or remain in the reserve who may offend against decency as regards dress, language, or conduct.

No person shall damage in any way any trees, shrubs, or flowers at any time planted or growing in the reserve, nor shall fires be lighted in the reserve.

No person shall climb or jump over the fences or gates, stick bills thereon, or cut names on the fences, trees, or seats, or roll or throw stones in the reserve.

No person shall put into the reserve any cattle, sheep, goats, or pigs, without the authority in writing of the trustees.

No person shall erect any dwelling in the reserve, nor any booth or other structure, for the purpose of offering for sale any article, without the consent in writing of the trustees first obtained.

No person, except laborers and workmen employed in the reserve, shall enter any plots which may be enclosed within the reserve for plantations of young trees or shrubs.

Any person committing in the said reserve, or in any of the buildings or erections for the time being thereon, any of the following offences, shall, together with any horses, carriages, or other vehicles in his or her possession or care, be removed from

the reserve, notwithstanding such person may have purchased, and is or may be in possession of, a ticket of admission to the first or second of the said divisions or any part thereof.

- (1.) Assaulting any other person.
- (2.) Being drunk.
- (3.) Riding, crossing, or trespassing upon the course or any part of it during a race meeting, or when the horses are preparing to start or are running in any race.
- (4.) Using profane, indecent, or obscene language.
- (5.) Using any threatening, abusive, or insulting words.
- (6.) Behaving improperly or riotously.
- (7.) Being found in any part of the first or second of the said divisions, and not producing upon demand, or, if required, not surrendering to any gatekeeper or other person having authority from the trustees to demand production of the same, a ticket duly authorising admission to that part of the first and second of the said divisions where such person shall be so found, unless such person shall forthwith satisfy the trustees, or the stewards deputed by them, that the proper charge for admission has been paid by such person, and that such person's ticket has been lost.
- (8.) Obtaining admission to any part of the first or second of the said divisions when disentitled to such admission under these regulations.

The following is the scale of charges or fees which shall be levied and taken for admission to the first and second of the said divisions and the buildings thereon respectively:—

	s.	d.
For the admission of every person to the first of the said divisions	10	0
For admission to the second of the said divisions of every person with truck or barrow, cart or other vehicle, engaged in trade	20	0
For admission to the second of the said divisions of every horse not being a horse entered for any race	1	0
For admission to the second of the said divisions of every vehicle drawn by one horse	2	6
For admission to the second of the said divisions of every vehicle drawn by more than one horse, for each horse	2	6
For admission to the training ground for training or exercise of each horse for every three months	50	0

Provided that the trustees may exempt any member of a racing club wholly or partially from the payment of all or any such charges or fees. And the money so received shall, after deducting necessary expenses, be applied in the permanent improvement of the reserve for racing purposes, or in the erection and maintenance or repairs of buildings and fences, or in the planting of trees or shrubs in the reserve, and in prizes for any race, or for the owner of any horse engaged in any race, or in such other manner in or upon the reserve as shall be necessary or expedient for the purposes of rendering the same more convenient and useful for racing purposes.

Every person offending against these regulations shall, in accordance with section one hundred and eight of *The Land Act 1869*, on conviction before any justice, forfeit and pay a penalty not exceeding Five pounds for each offence; and every person who shall knowingly and wilfully offend against any such regulations, and who shall not, after he shall have been warned by a bailiff of Crown lands or any constable, desist from so offending, may be forthwith apprehended by such bailiff or constable, and be taken before some justice of the peace, and shall, on conviction, forfeit and pay a penalty not exceeding Ten pounds.

Notwithstanding anything hereinbefore contained, any of the military forces of Her Majesty's Government in Victoria shall be allowed to use the reserve for drilling and reviewing purposes at any time, except on days specially set apart for racing.

Dated at Kyneton this sixteenth day of July 1880.

W. SWANWICK,
SALATHIEL BOOTH,
S. WINDRIDGE,
G. W. JOHNSON.

The Board of Land and Works, in pursuance of the powers conferred by *The Land Act 1869*, section 108, doth hereby make the foregoing Regulations in respect of the land in the parish of Lauriston, at Kyneton, reserved for racing and recreation purposes, and for drilling and reviewing Volunteers; and doth also, in pursuance of clause 9 of chapter 20 of the Regulations made under the provisions of the said Act by His Excellency the Governor in Council on the 1st day of April 1879, determine by the foregoing regulations the fees to be charged and collected by or on behalf of the Committee of Management for the time being of the said reserve for admission thereto.

REGULATIONS RELATING TO LICENSES TO CUT, CONSTRUCT, AND USE RACES, DRAINS, DAMS, AND RESERVOIRS.

At the Executive Council Chamber, Melbourne, the twenty-seventh day of July 1880.

PRESENT:

His Excellency the Governor
Mr. Duffy | Mr. Bent.

WHEREAS by The Mining Statute 1865, it is amongst other things enacted that it shall be lawful for the Governor in Council, from time to time, to make regulations, not being contrary to the provisions of the said Act, for the purposes mentioned in the forty-third section thereof, and such regulations from time to time to alter, add to, or rescind: And whereas by an Order in Council bearing date the fifteenth day of July 1867, certain Regulations were made relating to licenses to cut, construct, and use races, drains, dams, and reservoirs: And whereas it is expedient to rescind the said Regulations, so far as relates to the 4th condition of the same, and to substitute the following in lieu thereof: Now therefore His Excellency the Governor, with the advice of the Executive Council, doth by this present Order rescind the 4th condition of the said Regulations under which water-rights are issued, and with the advice aforesaid, doth substitute the following condition in lieu thereof, that is to say:—

That where the water to be used by virtue of any such license is to be diverted from any source of supply the licensee shall divert the same at the points for that purpose to be marked on the plan to be endorsed on the said license, and at no other points save with the consent in writing of the Minister of Mines, and in such quantities from each of such points as shall be specified in such license. If any licensee shall desire that the course of his race or any of the said points of diversion or conveyance should be altered he may apply to the Warden to consider the matter, and if the Warden shall, on consideration, be of opinion that such alteration would, having regard to the rights and interests of all other persons, be proper, the Warden shall transmit to the Minister of Mines a statement of such his opinion and of the alterations desired, and the said Minister may allow the same either as stated or modified as he may think fit, or disallow the same, or the licensee may if he shall so desire and the said Minister shall express his consent thereto in writing, surrender his license and obtain a new license with such alterations either as stated or modified as aforesaid.

And the Honorable Robert Clark, Her Majesty's Minister of Mines, shall give the necessary directions herein accordingly.

ROB. WADSWORTH,
Clerk of the Executive Council.
