NOTICE TO MARINERS.—TASMANIA.

THE following Notice, which has been received from the Marine Board, Hobart, is published for general information.

JAMES H. GRAVES,
Commissioner of Trade and Customs.
Department of Trade and Customs,
Melbourne, 7th October 1882.

LEADING-LIGHTS, RIVER TAMAR.

NOTICE is hereby given, that on and after the 1st day of December 1882 two leading-lights will be exhibited at She-oak Point, entrance to River Tamar. The lights are 1,197 feet apart, and elevated 55 and 38 feet respectively above the level of high water. They will be visible nine miles from a ship's deck; the high light being visible between the bearings of S.E. ½ E. round easterly to N.N.W., and the low from S.E. ½ E. round easterly to N. ½ W.

The following Sailing Directions by Staff Commander H. J. Stanley, R.N., are published for general information.

E. M. FISHER,
Acting Master Warden.

Marine Board,
Hobart, 25th September 1882.

SAILING DIRECTIONS FOR ENTERING TAMAR HEADS BY NIGHT.

From the Eastward and Northward.—When within 3 miles of the Low Head, the same bearing about south, steer south-westerly, and when the leading-lights become visible, which will be on a S.E. ½ E. bearing, a southerly course may be shaped, care being taken not to bring the Low Head Light to bear to the eastward of E. by S. until the leading-lights are in line S.E. by E. ½ E., when steer boldly in, passing the buoy on the Shear Rock close to.

From the Westward.—After sighting the Low Head Light, do not bring it to bear east of E. by S. until the leading lights have been sighted and brought to bear S.E. by E. ½ E., when they will be in line, and may be run for as directed above.

Proceeding up the river.—If proceeding up the river, after passing the Shear Buoy, bring the leading-lights 1½ points on the port bow, and look out for the white buoys and Simmons' Mistake beacon. The course from Simmons' Mistake to the Bombay Rock is S. by E., and so long as the low leading-light is in sight the vessel is outside of the buoy on this shoal. Having passed the Bombay Rock haul to the S.E., when the low leading light will be lost sight of, and round Garden Island close to. Do not lose sight of the high leading-light, its loss being a sign that you are nearing the Garrow Rock off George Town.

Proceeding outwards.—Round Garden Island close to, and without losing sight of the high leading-light haul to the north-westward. When the low leading-light becomes visible on a N. ½ W. bearing steer for it, keeping a good look-out for the Bombay Rock Buoy and Simmons' Mistake beacon; having passed the latter steer for the Low Head Light, and when the leading-lights are in line S.E. by E. ½ E. keep them so until the entrance is passed; and shape course as required. If neither the black buoy on the Middle Bank nor the white buoy on the Yellow Rock is visible the entrance may be known to be passed when the Low Head Light bears E. by N. ½ N., or is 4 points abaft the beam.

Vessels bringing up in Port Dalrymple must have both leading-lights in sight; the loss of the low leading-light on a S.E. ½ E. bearing will indicate proximity to the bank off Cordell Point. The anchorage ground is about one cable inside the line of the leading lights in about 8 fathoms of water, the high light being open to eastward of the low one.

The best guide to the anchorage is the lead.
The leading line leads vessels close to the buoy off the Shear Reef in 24 feet at low-water, and in the same depth at the tail of the reef off the Barrel Rock.

The old towers in Lagoon Bay have been blackened; the leading-light towers now answer the purpose of day marks.

H. J. STANLEY, Staff Commander R.N.

THE ECHUCA AND WARANGA WATERWORKS TRUST.—LOAN.

At an Executive Council held at Government House, Melbourne, the eleventh day of October 1882.

PRESENT :

His Excellency the Governor.

Mr. Young

Mr. Burrowes.

WHEREAS by *The Victorian Water Conservation Act 1881* it was amongst other things enacted that, at the expiration of two months after the notice of any application should have been first advertised in the *Government Gazette*, the Minister, if satisfied that the provisions of the now in part recited Act have been substantially complied with, should submit such application, and the general plan and description therein referred to, and all petitions which have been received in respect of such application, to the Governor in Council, together with any recommendations as to the granting of the application, or as to any alterations or additions he might think desirable in the proposed waterworks; and the Governor in Council might thereupon approve of the construction of such proposed waterworks, with or without any alterations or additions in the general plan and description thereof, or might disapprove of the construction of such waterworks, and should make an Order in Council accordingly: And it was further enacted that, if the Governor in Council should approve of the construction of such waterworks, with or without alterations, or additions, or restrictions of any such general plan and description, a Waterworks Trust should be constituted to construct, maintain, and continue the whole or any part of the waterworks therein described, in accordance with the provisions of such Order and of the now in part recited Act: and every Order approving the construction of any proposed waterworks, and of the constituting of a Waterworks Trust for the purpose, should state—

(a.) The amount of money which the Governor in Council would grant as a loan for the purpose of carrying out the same, and paying the cost and expense of the plans and application for the same; and also the rate of interest which would be charged for such loan, such rate being at least One-half per centum more than the rate payable by the Government on the Public Loan out of which such loan might be granted.

(b.) Should proclaim the limits of the lands, whether within or without the municipal districts of the council or councils applying for the proposed waterworks within which such trust should have authority, to be called a Waterworks District:

(c.) Should state what are the principal works proposed to be constructed: and

(d.) Should contain such provisions (not inconsistent with the now in part recited Act) as according to the nature of the application and the facts and circumstances of each case the Governor in Council should think fit.

And it was further enacted by the said Act that each Waterworks Trust should consist of commissioners to be elected from time to time by the council of each of the municipal districts which will, in the opinion of the Governor in Council, be directly benefited by the proposed waterworks, and which should be specified in the Order in Council approving the construction of such waterworks or in any subsequent Order, and of one other commissioner who should be appointed by the Governor in Council, and the number of commissioners to be elected by each council, not exceeding two, should be determined by the Governor in Council: Now therefore His Excellency the Governor, with the advice of the Executive Council, and in pursuance of the provisions of the said Act, has approved of a general plan and description as set forth in a certain application of the Municipal Councils of Echuca and Waranga for a Loan of One hundred and sixteen thousand pounds sterling, to carry out certain waterworks for the supply of a Waterworks District under the said Act, embracing portions of the Shires of Echuca and Waranga as shown on the general plan and description accompanying the said application deposited in the Department of Mines and Water Supply, Melbourne, and doth hereby order as follows:—

(1.) The construction of the said waterworks:

(2.) The Waterworks Trust for such Waterworks District hereby constituted shall consist of two members from each of the councils of the municipal districts interested and one other commissioner:

(3.) That the amount of the loan hereby granted shall be One hundred and sixteen thousand pounds sterling, for the purpose of carrying out the proposed works and paying the cost and expense of the plans and application for the same; and that the interest to be charged for such loan shall be at the rate of Four pounds ten shillings per centum per annum, payable half-yearly.

(4.)
