7. Before any person shall affix any service-pipe to any pipe of the board, or alter, repair, or in any manner interfere with any pipe of the board, or any service-pipe, cock, or fitting connected with the pipes of the board, he shall obtain from the board a license in that behalf to execute such works; and any unlicensed person affixing, altering, repairing, or in any manner interfering with any such pipe, service-pipe, cock, or fitting as aforesaid, shall be liable to a penalty not exceeding Ten pounds.

8. Before any such license shall be granted by the board, the person applying for same shall satisfy the board that he is a competent plumber.

9. Any person, whether licensed as aforesaid or not, who shall offend by opening any ground so as to uncover any pipe or pipes, the property of the board, without giving two days' notice to the board of his intention so to do, or who shall in any way tamper with or alter any pipe, the property of the board, without the permission in writing of the board being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe, work, or engine, the property of the board, shall be

liable for each such offence to a penalty not exceeding Twenty pounds.

10. Any person, whether licensed as aforesaid or not, who shall lay any pipe, to communicate with the pipes of the board, without giving two days' notice of the day and hour when such pipe is intended to be made to communicate with the pipes of the board, or who shall make such communication except under the superintendence and according to the directions of some officer of the board, or who shall lay any leaden or other pipe to communicate with the pipe of the board of a strength and material not sanctioned by the board, shall be liable for each such offence to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the board. Wrought-iron piping, of approved quality, and lead piping of the following weights only, will be allowed to be fixed for either internal or external services:—

Diameter of pipe.	Weight of pipe per yard.
1/2 inch ...	5 lbs.
" ...	6 "
" ...	7 1/2 "
" ...	9 "
1 " ...	12 "
1 1/4 " ...	16 "
1 1/2 " ...	20 "

No service of a larger bore than 1 1/2-inch will be permitted, unless by special consent of the board.

11. If any person shall neglect to repair any service-pipe conveying water from the pipes of the board into the premises of such person, after having received notice from any officer of the board that such service-pipe requires repairing, the board may stop the water from flowing into such premises, either by cutting off the service-pipe or otherwise as to the said board may seem fit, until the necessary repairs shall have been effected. The service-pipes from the main being the property of the owners or occupiers of the tenements supplied by such service-pipes, the occupier (if any), and if none, the owner, shall in every instance in which any damage shall be caused by reason of such service-pipe being leaky, or otherwise out of repair or broken, be liable to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the board.

12. Any person supplied with water by the board who shall wilfully or negligently allow the same to run to waste, shall be liable for each offence to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the board.

13. If any meter should cease registering, and, during the time it is undergoing repairs, the board shall estimate and charge for the water consumed by taking an average of the quantity used during the previous quarter, or during the corresponding period of the preceding year.

14. Any person, whether licensed as aforesaid or not, connecting any service-pipe or branch service-pipe with any steam-boiler for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, shall be liable to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the board.

15. No meter shall be affixed unless the dial of the same is capable of registering one million (1,000,000) gallons.

16. Overflow-pipes to private baths will not be permitted.

17. Water-closets will not be allowed to be supplied direct from the main, but from a cistern only, so constructed that the water cannot flow continuously, and that not more than two gallons can escape at each flush.

18. If any person supplied with water by the Board does or causes to be done anything in contravention of any of these regulations, or fails to pay his rates when due, or fails to do anything which under any of these regulations ought not to be done, or wilfully or negligently allows water to run to waste, the board may cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of injury remains or is not remedied.

19. The streets shall not be watered from hydrants or fireplugs by means of a hose, but the water is to be applied to the streets by carts or by manual labor, or by special stand-pipes of approved size and form.

20. The water supplied in the above-named district shall be received and consumed under and in accordance with these regulations, and not otherwise, through pipes and meters laid, placed, and being under and in accordance with the same regulations and not otherwise.

21. In the construction of these rules and regulations the word "person" shall be deemed to extend to and include a corporation whether aggregate or sole; and the word "board" shall mean the Board of Land and Works.

22. The Rules, Regulations, and Orders affecting the Castle-maine and Sandhurst District Water Supply, made on the 7th January 1878, the 4th February 1878, the 4th March 1878, the 12th August 1878, the 28th October 1878, the 4th March 1879, the 28th February 1881, and the 26th September 1882, respectively, are hereby repealed.

ANNEX TO CONTRACT NO. 1372.
Rates as per Annex.

Wm. Wright, 99 and 101 Little Bourke street west, Melbourne.

FITTINGS AND CONNEXIONS FOR THE DIAMOND DRILLS.

1. The contractor must provide all necessary tools and labor, and also all material where so specified in the Schedule, for fully completing all work which may be ordered, and he shall deliver such work at the nearest railway station, or at any other place not exceeding a distance of one mile from his workshop, which may be indicated by the officer in charge. Each delivery must be accompanied by an invoice or delivery note in duplicate. Delivery will not be deemed to have been made until the goods shall have been approved of by the officer in charge.

2. The contractor will be required to furnish any accounts he may have against the Mining Department in the prescribed form, monthly, accompanied by the orders for the goods, and receipts from the persons for whose use the same have been supplied.

3. The contract will be for such articles or repairs as may be ordered until the 30th June 1884, whether such articles or repairs are set forth in this Schedule or not. All material and workmanship in connexion with this contract are to be of the very best description, and to be to the entire satisfaction of any officer who may be authorized by the Minister of Mines or Secretary for Mines and Water Supply to act on behalf of the Department of Mines in connexion with this contract, and such officer (herein designated the officer in charge) shall have full power to reject any article; he may deem to be not satisfactory or not in every way suitable.

4. When any order shall have been given to the contractor, he must use every despatch in getting the work done; if he do not, or if the work or material be not to the entire satisfaction of the officer in charge, it shall be optional with such officer in charge to cancel such order and get the work required done wherever he shall think fit at the contractor's risk and expense; and any extra expense so incurred over the contract price will be deducted from any moneys due to the contractor. The officer in charge shall be the sole judge as to whether the contractor is using all necessary despatch in getting the work done, and as to whether the work or material is of the very best description. On the contractor receiving any machinery or tool for repairs or otherwise from any of the drills, or from any other source, he must, in every case, send a receipt for the same to the officer in charge.

5. When any work is ordered that is not enumerated in the Schedule, the contractor must give his price in writing for the same before commencing it, and if the price shall appear to be excessive to the officer in charge, such officer shall be at liberty to get prices from other persons and get the work done by whomsoever he may think fit, without in any way infringing this contract.

6. The screw-threads exceeding one inch in diameter (except bolts and nuts) are most of them flat (not V) threads. The Department will lend the gauge-taps and nuts to the contractor for fourteen days, when the contractor must return them to the Department, having first made gauge-taps and dies for his own use. The Department will require the contractor to make standard gauges for all necessary work. These gauges must be properly stamped, and will be the property of the Government. They will be paid for at prices to be agreed on. The contractor must also make duplicate gauges for his own use and at his own expense.

7. When goods shall be ordered of a size not exceeding one-eighth of an inch over the sizes mentioned in the Schedule, the price for such goods shall not be more than that quoted in the Schedule. In cases, however, where the size required shall be more than one-eighth of an inch over the sizes mentioned in the Schedule, the price specified in the Schedule for the next larger size will be paid to the contractor.

8. It will be competent for the Secretary to the Tender Board on behalf of the Government, or the contractor on his own behalf, to terminate the contract, by giving, in writing, a notice of two months.

9. It will also be competent for any company or companies renting, using, or employing any of the drills belonging to the Department of Mines, to exercise, on behalf of the Department of Mines, or on their own behalf, all the rights, powers, and privileges conferred by the foregoing clauses, save and except that (clause 8) referring to giving notice, which will only vest in the parties named therein.

10. The Secretary for Mines shall from time to time communicate, in writing, to the contractor the name of the company or companies authorized to exercise such rights, powers, and privileges, and the contractor will not be required to acknowledge any other company or companies than those so named by the Secretary for Mines.

11. For the purposes of this contract, all the rights, power, and authority conferred upon the person indicated as the "officer in charge," shall also be taken to mean such officer or officers as the aforesaid company or companies shall nominate or appoint for the purpose.

12. Any company or companies having authority to order and receive supplies under this contract shall pay to the contractor the cost of such supplies before obtaining delivery thereof, and the accounts, in such cases, are not to be rendered to the Department of Mines, but to the company or companies direct.

5th. All persons desirous of depasturing stock on the commons shall be in attendance therewith at the Broadford yards on the first Monday in January and July in every year for the purpose of giving a full and correct description of such stock, and assisting to brand the same, and shall pay the prescribed fees for such stock.

For every horse or mare, Six shillings per annum. For every head of horned cattle, Four shillings per annum. For every sheep or goat, Two shillings per annum. The fees for stock depasturing on the commons shall be paid by the owners of such stock half-yearly in advance, and the half-years shall commence respectively on the first Monday in January and July in every year, and the fee for the half-year then next ensuing shall be deemed to be due on the first Monday aforesaid.

7th. All cattle, horses, pigs, and goats found on the commons without the commons brand shall be deemed to be trespassing thereon, and may be forthwith impounded by the herdsman.

8th. No person shall be permitted to remove any stock from the commons without having given notice to, and obtained permission from, the managers, or herdsman in charge of the commons.

† Including the Melbourne Hospital, which is in Gipps Ward; the Homoeopathic Hospital, which is in La Trobe Ward; the Alfred Hospital, which is in Albert Ward; the Immigrants' Home, which is partly in Albert Ward, partly in Smith Ward, and partly in Emerald Hill Town; the Lying-in Hospital, and the Children's Hospital, which are in Smith Ward; the Metropolitan Lunatic Asylum, which is in Kew Borough; the Yarra Bend Lunatic Asylum and the Austin Hospital, which are in "Remainder of District;" and the Benevolent Asylum, which is on the boundary between Hotham Town and Melbourne City.

The deaths, the mean temperature in the shade, and the mean atmospheric pressure, during the month of July, of the ten years 1873-1882, also the births during the same month of the nine years 1874-82, in Melbourne and suburbs, were as follows:—

Mean	738	420	47.2°	30.075 "

The births of 881 children, viz., 467 boys and 414 girls, were registered in Melbourne and suburbs during the month of July. In the month of June 843 births were registered, or 38 fewer than in the month under review. The births were 143 above the average of the previous nine years, but only 60 above that average, if allowance be made for the increase of population.

The deaths registered in July numbered 422, viz., 237 of males, and 185 of females; the births thus exceeded the deaths by 459. The deaths were fewer than those in June by 15, but exceeded the average of July during the previous ten years by 2. If, however, allowance be made for the increase of population, they will be found to have been lower than the average of those ten years by 50.

To every 1,000 of the population of the district the proportion of births registered was 3.02, and of deaths registered 1.45.

The highest temperature in the shade recorded at Melbourne Observatory during the month was 62.0° on the 1st, and the lowest was 31.7° on the 23rd. The mean temperature of the month (47.8°) was six-tenths of a degree above the average. The greatest range of the thermometer in any one day (24.2°) took place on the 24th, viz., from a maximum of 57.2° to a minimum of 33.0°. The least range (3.1°) was on the 13th, viz., from a maximum of 53.1° to a minimum of 50.0°. The mean daily range was 13.6°. The mean atmospheric pressure (30.021 inches) was slightly below the average.

Males contributed 56 per cent., and females 44 per cent. to the total mortality of the month. Children under 5 years of age contributed 32 per cent. to that mortality as against 34 per cent. in July 1882; 33 per cent. in July 1881; 36 per cent. in July 1880; 29 per cent. in July 1879 and July 1878; 33 per cent. in July 1877; 30 per cent. in July 1876; 29 per cent. in July 1875; 38 per cent. in July 1874; and 36 per cent. in July 1873.

The deaths of 26 persons who had attained the age of 75 years or upwards were recorded during the month. Of these, a gentleman and a female, each aged 75, died of pneumonia; a female, aged 75, of inflammation of the bowels; a female, aged 75, of stomach disease; a bootmaker, aged 76, a laborer, aged 78, and a female, aged 79, of apoplexy; a carpenter and a cabinet maker, each aged 79, of heart disease; a female, aged 79, of burns; 3 females, aged 77, 80, and 81 respectively, and a blacksmith, aged 83, of bronchitis; a woolclasser, aged 78, a gardener, aged 84, and a gentleman, aged 87, of paralysis; a laborer, aged 82, of nephritis; a gentleman and a female, each aged 82, of diarrhoea; a bootmaker, aged 84, of gout; a settler, and a male patient in the Lunatic Asylum, Kew, each aged 84, of brain disease; a farmer, aged 78, a wood-cutter, aged 80, and a hawker, aged 84, of old age.

As many as 30 deaths were ascribed to external causes during the month, of which 24 were set down to accident, 1 to homicide, and 5 to suicide. Of the suicidal deaths, a laborer, aged 53, cut his throat; a male, of occupation unknown, shot himself; a female, aged 27, poisoned herself with spirits of salts; a female, aged 57, drowned herself, and a cabman, aged 50, hanged himself.

Eighty-eight deaths, or 21 per cent. of the whole, took place in public institutions, viz.:—41 in the Melbourne Hospital, 11 in the Alfred Hospital, 1 in the Homoeopathic Hospital, 4 in the Childrens' Hospital, 3 in the Lying-in Hospital, 5 in the Immigrants' Home, 11 in the Benevolent Asylum, 6 in the Yarra Bend Lunatic Asylum, 3 in the Metropolitan Lunatic Asylum, 1 in the Austin Hospital, 1 in the Melbourne Gaol, and 1 in the Industrial Schools.

The deaths of children under five years of age numbered 137, of which 76, or 55 per cent., were of males, and 61, or 45 per cent., were of females. Of those who died, 87 were under one year of age, 27 were between one and two, 3 were between two and three, 14 were between three and four, and 6 were between four and five.

The persons who died at a more advanced age than five years numbered 285. Of these, 161, or 56 per cent., were males, and 124, or 44 per cent., were females; 10 were between five and ten, 7 were between ten and fifteen, 12 were between fifteen and twenty, 20 were between twenty and twenty-five, 21 were between twenty-five and thirty, 18 were between thirty and thirty-five, 19 were between thirty-five and forty, 23 were between forty and forty-five, 35 were between forty-five and fifty, 24 were between fifty and fifty-five, 23 were between fifty-five and sixty, 23 were between sixty and sixty-five, 15 were between sixty-five and seventy, 9 were between seventy and seventy-five, 13 were between seventy-five and eighty, and 13 were upwards of eighty.

A book shall be kept at the hospital, in which shall be entered the name, age, date of admission, nature of malady, previous occupation, residence, and religion of each inmate, also the name and abode of their nearest relative or friend, and a column in which to show cause of discharge or date of death.

Friends of inmates will be allowed to visit them between the hours of Two p.m. and Six p.m. on Tuesdays, Thursdays, Saturdays, and Sundays.

All inmates must obey the instructions of the medical officers and matron.

Inmates are expected when able and when so desired to help the matron and nurses in any needful duties of the hospital—such as mending the linen, &c., and especially in attending upon the other inmates whose weakness and wants may be greater than their own.

Gambling, improper language, and smoking in the wards are strictly prohibited.

All lights to be out and inmates to be in bed by Nine o'clock p.m. in winter, and Ten in summer.

Any inmates disobeying any of the rules of the hospital will be liable to expulsion by the committee.

Inmates will be required to sign a "form of will" provided by the committee, on admission.

Secretary.

He shall conduct the correspondence and clerical business of the hospital; and prepare, sign, and issue all summonses, notices, and advertisements.

He shall keep an interleaved book, containing the bye-laws, inserting therein any new bye-law. He shall furnish a copy of the bye-laws to every officer appointed, and to any other person whom the committee may direct.

He shall attend all general meetings, committee meetings, and sub-committee meetings, giving all the information and assistance in his power to the members of these bodies, and keep a book of the minutes.

He shall keep all books and accounts of the hospital.

He shall order all supplies of stores required by the matron, and see that all supplies are of the quality and description contracted for.

He shall carefully examine all accounts for articles supplied, and make the accounts ready for the committee meeting.

He shall take stock at the end of every quarter of the stores remaining in the hospital, and shall report the same to the committee.

Matron.

The matron is to superintend and have charge of the hospital.

She shall have charge of all the furniture, bedding, and stores of every kind in the institution.

She shall keep a strict account of every article, not only in the store, but in the wards; let nothing be issued from the store but by her direction; see that nothing is lost, wasted, or destroyed; hold the nurses and servants of the hospital responsible for whatever is entrusted to their care, and take an account weekly of everything in use.

When articles require washing, she shall see that accurate lists are made in duplicate, one of which is to be delivered to the laundress, who is to be responsible for them whilst being washed, and return them in accordance with the lists.

She shall daily ascertain what is necessary for the food of the inmates; give the requisite orders to the contractors, and see that the food is supplied in compliance with the orders.

She shall direct the food to be cooked and served to the inmates in as palatable form as possible, and with such economy as to ensure a minimum amount of waste; also keep a daily list of the diets.

She is to hire, suspend, or discharge the nurses and servants; to instruct them in the performance of their duties, and to see that they perform their duties with diligence, attention, gentleness, and humanity.

She shall be responsible to the committee for the discharge of her duties; not leave the hospital without their permission, and when absent provide that her duties are efficiently discharged by some responsible subordinate.

She shall enforce the strictest cleanliness throughout the establishment, and see that the nurses and servants keep the wards, bedding, and clothing of the patients scrupulously clean.

She shall keep a strict watch over the ventilation, and see that the air of the wards is pure and sweet, especially at night.

She shall not allow the nurses to be idle, but employ them in making, marking, and mending clothes, and in other useful work, when they are not engaged in the actual work of nursing.

She shall give due attention to the medical officer when he visits the hospital; see that his instructions are duly carried out, and that the medicines and medical comforts prescribed by him are duly administered.

She shall take care that none of the inmates receive liquors or improper provisions, and that fruit or delicacies of any kind, brought by visitors or friends of the patients, be distributed entirely by her direction.

She is to afford the patients every facility for obtaining religious instruction and consolation, and the attendance of their respective ministers when they desire it.

The medical officer will visit the hospital ordinarily once a week; but should any urgent case require it, the matron will send for him in the meantime, taking care in such cases not to put off sending till too late, so as to avoid, if possible, night visits.

She shall make a weekly report to the committee—noting the general condition of the establishment, the admissions and discharges, the health and comfort of the patients; the conduct of the nurses and servants—with particulars of all hirings, suspensions, and discharges; the supply of food and articles required; the daily list of diets; lists of presents to the hospital or the patients; list of new articles required.

She shall make requisitions for any articles of stores that may be required, and submit them to the committee for approval. When the stores are supplied she shall take charge of them.

She shall report to the committee any repairs of the building and furniture that may be necessary; see that they are properly performed, and that they are efficient.

In the event of the death of any inmate, she is to communicate immediately with the friends of the deceased; or, if these are not to be found, or they have no means wherewith to pay the funeral expenses, she shall see that the funeral is properly conducted.

She shall have apartments and board in the hospital; will receive such salary as the committee may appoint, and will be liable to be discharged at a month's notice, or on receiving a month's salary, or in case of misconduct at once, without salary, by the committee.

Nurses.

The nurses shall diligently obey the orders of the matron; carry out the directions of the medical officer; keep themselves neat and clean, and conduct themselves with civility to all persons they come in contact with.

They shall keep the wards, furniture, bedding, and clothes of the patients scrupulously clean, and the wards well ventilated and properly warmed.

They shall attend to the wants and comforts of the patients, and treat them with the greatest gentleness and humanity.

They shall pay particular attention to patients suffering from malignant or offensive diseases; promptly remove all offensive discharges, and adopt all suggestions for rendering their position comfortable and free from unnecessary offence.

They shall watch carefully all patients suffering from dangerous diseases or symptoms, and report to the matron any change in their state, or anything requiring immediate attention.

They shall not permit the patients to get liquors or food, except their proper diet, or whatever the matron may direct to be given them.

They shall not permit any unnecessary noise or disturbance in the wards, nor allow strangers or visitors in the wards, except during the proper visiting hours, and they shall report any breach of discipline to the matron without delay.

They shall not receive any money, gratuity, or reward from any one.

They shall be paid such weekly wages as the committee may determine, and shall be liable to discharge at the end of any week, or in case of misconduct at once, by the matron.
