[No. 16 of 1884.]

WAIROA BRANCH, KAIPARA HARBOR.

THE Harbormaster at Kaipara reports that a bank is forming at the junction of Five-fathom and Inshore Channels, a little below Tauhara Creek, with only 9 feet on its shallowest part at low-water springs, on the lower eastern corner of which a black buoy has been placed in three fathoms.

Masters of vessels are therefore requested to pay attention to the lead when in this vicinity, and not approach the buoy from a north-west or westerly direction below Tauhara Creek, as the shallowest water is to the westward of the buoy and extends a considerable distance up stream. Vessels of over 9-feet draught, when proceeding up or down by the Inshore Channel, should keep the land well aboard when between the buoy and Tauhara Creek, and if bound up Five-fathom Channel the black buoys should be kept on the port hand.

NOTICE TO STOCKOWNERS AND OTHERS.

IT is notified, for the information of stockowners and others, that all reports of the existence of pleuro which reach this office are investigated by an inspector of stock with the least delay possible; also, that letters or notices on this subject which come to hand in the newspapers are dealt with in like manner. As, however, a considerable loss of time is incurred when information only reaches this office through the medium of the newspapers, it is suggested that notices of the kind should be made direct to this office. It is also pointed out that reports of the sort frequently reach this office which, on investigation, prove to be groundless.
