REGULATIONS FOR THE PREVENTION OF THE
SPREAD OF CONTAGIOUS OR INFECTIOUS
DISEASES.

WHEREAS the contagious or infectious diseases known as diphtheria, measles, scarlet fever, typhoid fever, and whooping-cough are at present prevalent in several towns and places in the Colony of Victoria, and whereas the provisions contained in section 74 of the *Public Health Amendment Statute 1883* have by Order in Council been directed to be put in force in the said colony, the Central Board of Health doth, by virtue of the powers conferred by the said section, and of every other power enabling the said Central Board in this behalf, make the following Regulations for preventing or mitigating the said diseases, that is to say:—

1. All Regulations hereinbefore made by the said Board for the prevention of the spread of any of the said diseases are hereby revoked, and the present Regulations are substituted in lieu thereof.

2. These Regulations shall apply to every city, town, borough, shire, or place only in which any of the said diseases shall have occurred within the month immediately preceding the date hereof, or in which any such disease shall occur while these Regulations remain in force.

3. *Cleansing of Streets, Ways, and Places.*—The Local Board of Health in each district is hereby required to take effectual measures for the frequent and regular removal of all refuse matter from all streets, lanes, rights of way, and other places; for the regular cleansing of all drains and street channels, and for keeping in an inoffensive condition all manure depôts and places for deposit of night-soil or refuse matter, and shall cause whatever may be deposited thereon or therein to be immediately covered with not less than three inches of dry earth. Every householder shall cause his yard to be at all times kept in a cleanly and inoffensive condition and shall cause all rubbish and refuse matter produced on his premises either to be consumed or destroyed in some manner not being a nuisance or injurious to health, or to be placed in a box or other portable receptacle, and afterwards removed to the manure depôt or other proper place. No person shall cause or suffer to be placed or thrown upon any street, lane, or right of way any rubbish, ashes, dust or animal or other offensive or dead or decayed matter or substance. No person shall dig at a less depth than two feet or spread into or upon any land, whether in his own occupation or otherwise, any night-soil, or the contents of any earth-closet or night-pan, or other offensive matter without the previous permission in writing of the Local Board of Health.

4. *Removal of Nuisances.*—The occupier of any premises shall not permit any nuisances or matter causing offensive smell to exist or be thereon, and shall cause all stables, outbuildings, and yards to be efficiently paved and drained, and shall cause all drains on or belonging to such premises to be properly cleansed at least once in every twenty-four hours.

5. *Medical Attendances, &c.*—The Local Board of Health in each district is hereby required to provide the necessary medical attendance and medicines for any person in such district who may be suffering from any of the said diseases, and who is unable to pay for medical attendance and medicine. And it shall be the duty of the officer of health, or secretary or clerk of each Local Board to give the needful authority and directions for and on behalf of the said Local Board for giving effect to this Regulation immediately on being informed of such case of disease by any member of the family of the person so attacked, or by any medical practitioner or any member of the police force.

6. *Interment of the Dead.*—The occupier of any house or place, or the person in charge thereof for the time being, in which any person shall die of either of the said diseases, shall cause the body to be buried with the least possible delay, and, if ordered by the health officer within twenty-four hours. In the event of death from typhoid fever, chloride of lime or other disinfectant powder shall be abundantly dredged into the coffin, and, if possible, the body surrounded with dry pine sawdust. The trustees of any public cemetery are hereby required (notwithstanding the existence of any regulation of such cemetery to the contrary) to afford every possible facility for such speedy interment, and shall provide that there be ready at all times a sufficient number of public graves.

7. *Cleansing and Purifying of Houses.*—The occupier of every house in which there may be any diphtheria or scarlet fever shall cause every room therein (except that in which the patient may be) to be fumigated whenever required by the health officer or medical attendant by effectually closing the doors, windows, chimneys, and other apertures, and burning therein sulphur on an iron dish in the proportion of at least sixteen ounces to a room ten feet each way, or as much more as the atmosphere in the room will consume; or by keeping exposed in the room a sufficient quantity of fresh chloride of lime in an open dish, or by any other effective means or manner as may be prescribed by the health officer. The room occupied by the patient shall be similarly treated as soon as it is vacated; and in all cases, whenever possible, all hangings, clothes, and fabrics, shall be removed, together with books, prints, and furniture, so far as may be possible, and sunshine and fresh air in current allowed full play. In cases of typhoid fever, and in all other cases when directed by the officer of health, the occupier or person in charge shall further make provision for the disinfection of the stools and body and bed linen of the patient, and of all drains, closets and privies attached to such house. A tea cup full of solution of sulphate of iron, chloride of lime (one pound to the gallon), or other effective disinfectant shall be placed in the bed pan or other similar vessel before it is used, and the stools shall be at once transferred to a special pan with well fitting lid, freely mixed with effective disinfectant solution and quickly buried at least two feet below the surface of

the ground, or otherwise disposed of with the approval of the health officer. All soiled linen and bedding shall be removed without delay and thoroughly boiled. No person shall be allowed to eat or drink food, milk or water, which has been in the sick room. All utensils there shall be thoroughly disinfected before being again used. The health officer shall see that all drains connected with any such premises are flushed daily with solution of chloride of lime, sulphate of iron or carbolic acid.

8. *Disinfection of Clothing, &c.*—The occupier of any house in which there may be any person suffering from either of the said diseases shall cause every article of bedding or clothing used in the sick room, and every textile fabric or other article likely to retain infection, immediately on its removal from the room, to be destroyed if the officer of health shall so order, or disinfected by being placed in water and boiled, or subjected, for at least one hour, to a dry heat of not less than 250 degrees, and shall also cause all such articles of clothing or otherwise used by the nurse or any member of the family to be disinfected in a like manner.

9. *Privies and Closets.*—All earth-closets, water-closets, and privies shall be kept in an inoffensive and cleanly condition, and emptied at least once a week, and a sufficient quantity of dry earth or wood or other ashes shall be always kept ready for use in such closet. All closets attached to any school, railway station, factory, hospital, or place of assembly or entertainment or any licensed house shall during the prevalence or on the occurrence of any case of typhoid fever in the vicinity be disinfected daily, by the addition of a sufficient quantity of sulphate of iron, chloride of lime, or other reliable antiseptic powder, to the closet pans or receptacles, whatever they may be. And for the purposes of this regulation the station-master, resident surgeon, master of a school, manager or overseer of a factory or other person in immediate local charge or having control of the establishment shall be the person responsible for the due execution of this regulation. Every building in which any one shall work, have to be taught, or to live or remain shall have attached to it forthwith (if not already provided) one or more properly constructed earth-closets, and all underground cesspits shall be, as soon as possible, emptied and filled up with dry earth and quicklime.

10. *House to House Visitation.*—The Local Board of any district in which any one of the said diseases shall have occurred, or be reported to have occurred, shall, whenever necessary, cause a house to house visitation to be made in order to ascertain whether any case of the said diseases exists, and in such event the said local board shall cause a copy of these, and any other regulations on the same subject which may hereafter be made, to be left with the occupier or person in charge of the house or premises in which such case has occurred.

11. *Local Board to enforce Regulations.*—The Local Board of each district is hereby required to superintend and see to the carrying out and execution of these Regulations, and is hereby required to enforce them, and the secretary or clerk of such Local Board shall forthwith prosecute every person offending. Such Board is further required to cause a copy of these Regulations to be posted and kept posted up in some conspicuous place in the town hall or council chamber, State school, railway station, and police station, in the neighborhood of which any case of such diseases may occur, and shall further cause these Regulations to be printed and published in such districts.

12. In the event of typhoid fever occurring, it shall be the duty of the Local Board and the Local Board is hereby required to make all necessary bye-laws respecting milk, dairy cows, and dairies, under section 24 of the said Statute.

13. *Officer of Health.*—The officer of health in each district is hereby required to afford the inhabitants thereof every assistance and advice in his power with respect to the precautions to be observed against the spread of infectious or contagious disease, and shall see that all necessary destruction, disinfection or otherwise, is duly and effectually performed. On receiving information that any member of the family of any child attending school is ill he is to personally ascertain from what disease such member is suffering, and, if it be one of the said diseases, he is at once to report the fact to the head or principal teacher of such school.

14. *Penalties.*—Any person who fails to comply with any of the foregoing Regulations, or is guilty of any neglect or disobedience thereof, is by section 168 of the said Statute thereby guilty of an offence against the provisions of Part IV. of that Statute, and is liable to a penalty not exceeding Twenty pounds and to a penalty not exceeding Five pounds nor less than Twenty shillings for each day during which such offence is continued besides any expenses which may be incurred in remedying his default.

WHEREAS by *The Public Service Act 1883*, section 86, it is enacted that the responsible Minister of every department may, at such times as may be convenient, grant to every officer leave of absence for recreation for any period or periods not exceeding in the whole three weeks in each year, and in cases of illness or other pressing necessity grant such extended leave, not exceeding twelve months, and on such terms as may be fixed by regulations to be made by the Board and approved by the Governor in Council, and such regulations may, subject to such approval, be from time to time repealed, altered, or amended:—Now we, the undersigned, being the members constituting the Public Service Board, in pursuance of the said powers, do make and declare the Regulations following, and declare that the same shall commence and come into operation as soon as approved by the Governor in Council as aforesaid.

Nevertheless the responsible Minister may, if he think fit, but not otherwise, and subject to the Regulations following, make an order directing that the absent officer shall receive pay.

2. If the responsible Minister shall make an order, in writing, directing that an officer shall receive pay during his absence, such order shall state specifically the period during which payment is to be made, and whether it shall be full pay, half-pay, or one-third pay; and on the expiry of the period specified in such order the Minister may, if he think fit, but not otherwise, make a new order for any further period or periods; provided always that no such period or periods shall in the aggregate extend beyond twelve months from the date of the first order, and that full pay shall be granted only for a period or periods in the aggregate not exceeding four months, and that half-pay shall not be granted beyond the end of the eighth month of absence; and provided further that no officer shall receive pay during absence from duty for a longer aggregate period than one month for every year of his service previous to such absence.

Tenders having alterations or erasures therein will not be entertained.

Security will be required either in Government debentures, bank deposit-receipt in favor of the Deputy Postmaster-General, or cash deposit, as the tenderer may elect.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Deputy Postmaster-General, for the amount of the deposit required (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security will be calculated at ten per cent. on the total amount of contract.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

In the event of the contractor failing to carry out the contract, the contract security money will in that case be absolutely forfeited.

The Government will not necessarily accept the lowest or any tender.

Persons failing to take up their contracts will be disqualified from tendering for Government supplies for a period of twelve months.

Tenders to be endorsed "Tender for _____" (as the case may be), and deposited in the Tender Box, General Post Office; or, if sent by post, to be addressed (prepaid) to the Honorable the Postmaster-General, Melbourne.

CONDITIONS OF CONTRACT.

1. The Postmaster-General will not be bound to issue orders upon the contractors for all the articles enumerated in the schedules, but only for such articles, and such quantities of those articles, as the Postmaster-General may order from time to time; neither will the Postmaster-General be bound to take from the contractors any larger supply of any of the articles than may be shown upon the orders which have been issued during the year, nor will he be bound to take any of the articles enumerated in the schedules for which orders have not been issued. Should the Postmaster-General require a larger supply of any article than the quantity stated in the schedules, the contractor will be bound to supply the same at the contract rate.

2. The supplies are to be according to sample, and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. In other cases the supplies are to be the best quality of their several kinds or manufacture. A preference will, however, be given to goods of Victorian manufacture, provided the quality be equal to the particular manufacture indicated in the schedule.

3. All orders must accompany the goods on delivery, otherwise the goods will not be received. Delivery as a rule is to be of the full quantity ordered.

4. Supplies ordered for delivery in Melbourne and Williamstown districts are to be delivered free of all charges (whether cartage, freight, &c.), and for the purposes of these contracts, Melbourne district will include a radius of six miles from the General Post Office; and Williamstown district will include the town of Williamstown, Hobson's Bay, and the River Yarra.

5. Arrangements as to time of delivery and inspection of goods will be made by the Supervisor of Maintenance, General Post Office.

6. Orders must receive prompt execution; and in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officer named in condition 5, or the head of the department, on giving the contractor twenty-four hours' notice, to purchase the supplies at the contractor's risk, and the extra expenses incurred over and above the contract price (if any) will be deducted from the contractor's account.

7. The contractor will be required to furnish his account in the prescribed form simultaneously with delivery of the full quantities of goods ordered, the account being rendered with order to which it relates. The prices quoted in the orders cannot be increased.

8. The acceptance of the supplies shall be subject to the approval of the officer named in condition 5. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof in writing to the officer rejecting the goods.

9. Delivery will not be deemed to have been made until the goods have been approved of. All articles rejected must be immediately replaced by the contractor, otherwise purchases will be effected at the contractor's risk, and the extra expense deducted as in condition 6.

10. The members of boards of survey will be appointed by the Government, and the decision of the board is to be considered as final. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing

which it will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in condition 6.

11. A repetition of irregularity in the quantity or quality of the supplies, or of a delay in delivering or replacing them when required, will subject the contractor, upon report, to such mulct, not exceeding Fifty pounds, as the Postmaster-General may direct, and the amount may be deducted as in condition 6, or from the contractor's security. It will also be in the power of the Postmaster-General, upon such repetition, to terminate the contract forthwith.

12. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognized.

13. It will be competent either for the contractor on his own behalf, or for the Postmaster-General, to terminate the contract, by giving notice, in writing, of three full calendar months to the opposite party, it being understood that such notice can only be given from the first day of a month, and within the period for which the contract is made.

14. In the event of any alteration in the tariff affecting any of the items included in these contracts, the Postmaster-General, or the contractor, as the case may be, will make a proportionate allowance by way of deduction from, or increase to, the price of the item so affected.

15. The contracts entered into under this notice are not to be considered as being broken, infringed, or violated by the importation of stores for the Electric Telegraph Service, or by any contracts made by the Imperial Commissariat or the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department or Public Works, or the Tender Board, or on account of other Governments; or by any article being made at, and supplied for the use of, any Government establishment; or by the consumption of the surplus stock of any Government establishment.

NOTE.—The fee for the period from 1st May 1885 to 31st December 1885 must accompany each tender.

TENDERS will be received by the Board of Land and Works up to Noon of Monday, 4th May 1885, for the occupation for Grazing purposes only of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every license granted under section 119 of *The Land Act 1884* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under sections 3 and 4 of *The Rabbit Suppression Act Amendment Act 1884* all licenses under the section for which these licenses will issue are liable for the destruction of rabbits within the boundaries of their licenses.

Conditions.

1. The issue of this license shall not prevent the land comprised therein or any part or parts thereof being sold, leased, licensed, alienated, or dealt with under any of the provisions of *The Land Act 1884*, except under the 119th section thereof, under which the license is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of *The Land Act 1884*, or for mining purposes.

2. No licensee shall, in case of any resumption, be entitled to any compensation other than the return of such portion of the fee paid by him as the responsible Minister of the Crown for the time being administering Part XI. of *The Land Act 1884* may think fit. This license is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this license shall be deemed within its operation.

4. This license entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for

depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

5. If the licensee desire a renewal of this license, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

6. The interest in this license may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

7. No claim whatever shall be made or entertained by reason of the license not being renewed or transferred.

8. This license is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

9. This license may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

10. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this license shall be conclusive evidence that the license is forfeited.

Special Conditions.

1. The period of occupation will be from 1st May 1885 to 31st December 1885.

2. The license fee must be paid in advance. The fee for the period from 1st May 1885 to 31st December 1885—for which the license will be issued—must accompany the tender, or be paid by the successful tenderer or his agent immediately on the declaration of the acceptance of the tender, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition may be accepted.

3. Tenders to be for so much per block per annum.

4. Tenders to be endorsed "Tender for Block" "15," or "512" or "541," as the case may be.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name and ordinary postal address.
