ANCHORAGE LIGHT.

AN anchorage light has been placed on the Look-out House at Low Head Pilot Station for the purpose of guiding vessels at night time into safe anchorage in Lagoon Bay.

From dark to daylight a bright light will open to vessels entering the port when abreast of the Sheer Reef Buoy and Barrel Rock Beacon, and continue until the two fathom bank is passed, when it will turn to a red light. The helm should then be put a starboard, and the leading lights opened about half a point to the eastward, when the anchorage ground will be reached with a depth of about seven fathoms at low tide. Vessels should not go far enough to lose the red light at the Leading Tower.

By order of the Launceston Marine Board,
A. EVERSLED,
Secretary.

ADDITIONAL CUTTINGS AND MARKS.—GREAT SANDY ISLAND STRAIT.

NOTICE is hereby given that three cuttings between the Lower White Cliffs and the White Leading Marks south-east of Round Bush are now completed, giving at low water an available depth of 10 feet.

The first cutting is through the Flats, just below the Lower White Cliffs, and is in the same line as the second cutting, which is made through a bank at the south-west end of the same reach. The centre of the cutting is marked at the upper end by triangular leading beacons placed above the White Cliffs, and at the lower end by similar beacons on the bank above the Round Bush, bearing, when in line, N. 55° 30' E.

The limits of the second cutting are marked by one red and two black buoys, the second of which points out the south-west end of the cutting; before reaching it, a vessel bound south must have hauled up to the southward into the next reach of the channel, passing the red buoy on the port hand. Vessels going northwards must enter this cutting between the red and lower black buoys.

The third cutting passes the site of the old green buoy, which has been removed; the centre line being shown by the two white leading beacons, marked on the chart, on Great Sandy Island, and two beacons on the bank above Round Bush; the shoal ground on its north-east side being marked by a red buoy.

CAIRNS HARBOR.—PILES DRIVEN NEAR THE EDGE OF PROPOSED CUTTING THROUGH THE BAR.

Notice is hereby given that three piles, marking the south-east side of the cutting through the bar, have been driven $\frac{1}{2}$ mile apart and 200 feet to the south-eastward of, and parallel to, the line of leading lights into Cairns Harbor.

The piles carry black, beacon tops, and the outer pile is $\frac{3}{4}$ mile inside the Fairway Buoy.

Portmaster.

[No. 26 of 1887.]

CORAL SEA.—OUTLYING REEF OFF OSPREY REEF.

Notice is hereby given that Captain Musgrave, of H.M.S. *Rapid*, reports an extensive coral reef, having heavy breakers, with a lagoon of green-tinted water on its south-east side, as lying N.W. and S.E. for a distance of 12 miles to the south-east of Osprey Reef, of which when approached from the southward it appears to be an extension.

The approximate position of the southern extreme of this reef, on which the sea breaks heavily, is—

Latitude	14° 3' south.
Longitude	146° 41' east.

G. P. HEATH, Commander R.N.,
Portmaster.

Department of Ports and Harbors,

[No. 27 of 1887.]

INNER ROUTE TO TORRES STRAIT.—BEACONS IN LARK PASSAGE.

Notice is hereby given that three beacons have been erected in the following positions on reefs on the north side of Lark Passage:

1st Beacon—N. 74° E., 11 miles;
2nd Beacon—N. 67° E., 17 $\frac{1}{2}$ miles; and the
3rd Beacon—N. 60° E., 22 $\frac{1}{2}$ miles from the S.E. high land of Cape Bedford.

The reefs are shown on the sheet chart "Cape Tribulation to Cape Flattery," corrected to November 1886.

The 1st Beacon, being common to the Main Channel and Lark Passage, has its western half rectangular and painted black, and its eastern half red and triangular.

Beacons 2 and 3 are red and triangular.

Vessels leaving Cooktown, intending to use Lark Passage, should steer N.E. 20 miles for No. 1 Beacon. When approaching it, a look out should be kept for the sunken edge of the reef on the south side of the passage, and a vessel should haul up to pass about half-a-mile to windward of the reef on which the beacon stands. When the beacon is on, with Cape Flattery, steer N.E. $\frac{3}{4}$ E. for 6 $\frac{1}{2}$ miles, until abreast of No. 2 Beacon, being careful to avoid the two small rocky patches on the starboard hand. Then N.E. $\frac{1}{2}$ N. 5 $\frac{1}{2}$ miles to the 3rd Beacon, and through the Barrier 1 $\frac{1}{2}$ miles beyond. The opening is nearly 1 $\frac{1}{2}$ miles wide, and the centre bears N.E. by E. $\frac{1}{2}$ E. from the 3rd or outer beacon.

At a distance of $\frac{1}{2}$ mile to the S.E. of the 3rd Beacon is a 15-feet coral patch, with deep water on either side, which must be avoided by vessels of deep draft.

Portmaster.

THE following despatch from the Right Honorable the Secretary of State for the Colonies to His Excellency the Governor, and its enclosure, are published for general information.

By His Excellency's command,
D. GILLIES,
Premier.
Premier's Office,
Melbourne, 3rd December 1887.

Downing street, 14th September 1887.

SIR,—With reference to my circular despatch of the 1st of June last, I have the honor to transmit to you, for information in the Colony under your government, copies of revised regulations respecting Naval Cadets.

I have, &c.,
H. T. HOLLAND.

The Officer administering
the Government of Victoria.

In operation for the Examinations in November 1887 and June 1888.

For alterations to be made in November 1888, see Memorandum attached.

1. Appointments to naval cadetships will be made by limited competition, with the undermentioned exceptions :—

Four cadetships given annually to sons of gentlemen in the Colonies, on the recommendation of the Secretary of State for the Colonies.

Service cadetships, the total number of which is not to exceed

five in any one year. Service cadets will be selected by the Board of Admiralty from (a) sons of officers of the army, navy, or marines who have been killed in action, or who have been lost at sea on active service, or killed on duty, or who have died of wounds received in action or injuries received on duty within six months from the date of such action or injury, (b) sons of officers of the navy who have performed long or distinguished service, and who hold or have held rank or relative rank on the active list not lower than that of commander. Not more than two such latter service cadets will be nominated annually.

Applications for service cadotships should be addressed to the Military Secretary, Horse Guards, if the candidate is the son of an officer of the army; to the secretary of the Admiralty, if the candidate is the son of an officer of the navy or marines; and to the Military Secretary, India Office, if the candidate is the son of an officer of the Indian Army.

Colonial and service cadets will be entered on passing the test examination as specified in paragraphs 9 and 10, and will in all other respects be subject to these regulations.

The educational examination of all candidates will be conducted by the Civil Service Commissioners (address Cannon Row, Westminster), who will deal with all questions connected with such examination and will announce the results. A fee of ten shillings will be required from each candidate.

2. Except in special circumstances, not more than one-third of the number of candidates actually presenting themselves before the Civil Service Commissioners will be entered.

3. The nomination of candidates for naval cadetships will be made by the First Lord, by individual members of the Board, and by the Secretaries to the Board of Admiralty.

A flag officer or a commodore 1st class appointed to the chief command of a station, or to a separate command, and a captain, on first appointment as such to the command of a ship, will be allowed to nominate one candidate, provided the privilege is exercised within six months of appointment.

No captain will be entitled to nominate more than one candidate during the time he holds the rank of captain, but a flag officer or a commodore 1st class may claim the privilege each time he is appointed to a command as above.

In the event of a candidate's nomination being cancelled before he has commenced the examination, the officer who nominated him will be allowed to select another candidate for the same or following examination.

4. The nominations will be made half-yearly, as soon as convenient after the report of the last examination has been received from the Civil Service Commissioners.

5. The examinations will be held in London and at Portsmouth, and will commence on the second Wednesday in June and the last Wednesday in November in each year, and the appointments will date from the 15th July and 15th January following respectively.

6. No candidate will be eligible for examination whose age will not be within the following limits on the 15th January following the November examination, and on the 15th July following the June examination, viz., for the examinations in November 1887 to June 1888, not less than 12½ nor more than 14 years of age.

7. Every candidate must be in good health, and free from any physical defect of body, impediment of speech, defect of sight or hearing, and also from any predisposition to constitutional or hereditary disease or weakness of any kind, and in all respects well developed and active in proportion to his age. Before being

examined by the Civil Service Commissioners he will be required to pass the medical examination according to the prescribed regulations, and must have been found physically fit for the navy; rejection at such examination will finally exclude him from the navy.

8. The candidate will be required to produce (1) a certificate of the date of his birth,* or a declaration thereof made before a magistrate; (2) a certificate of good conduct from the masters of the school or schools at which he may have been educated during the two previous years, or, if educated at home, from his tutor or the clergyman of the parish in which he resides; and (3) proofs of good health.

(3.) Geometry : definitions, postulates, axioms, and subjects, of the first twenty-six propositions of Euclid's Elements	175

The final order of merit will be determined by the sum of the marks obtained in the test as well as in the further examination.

In arithmetic the candidate will be required to obtain five-tenths, and in each of the other subjects of the test examination four-tenths of the marks allotted thereto. In English the candidate must obtain four-tenths of the marks allotted for each of the two subdivisions of the subject.

10. Colonial and service cadets will be appointed on passing the test examination; they must, however, obtain 660 marks in the aggregate, as well as the proportion of marks in arithmetic and other subjects required from the candidates who compete.

11. A candidate who passes the test examination, but does not succeed in the competition, will be entitled to compete at the next examination, provided he is within the limits of age at that time. No candidate will be allowed to compete more than twice. A candidate who fails to pass the test will not be entitled to another trial, but he will be allowed to compete at the next examination if he receives a fresh nomination and is still within the limits of age.

12. A candidate who, owing to illness, fails to appear at the examination for which he has obtained his nomination may receive a second nomination, provided he is still within the limits of age.

13. For all cadets entered under these regulations the payment will be at the rate of £70 per annum for the period in the *Britannia*, to be paid half-yearly in advance to the accountant-general of the navy. But the Lords Commissioners of the Admiralty reserve the power of selecting, from among the cadets entered at each half-yearly examination, a number, not to exceed 10, being sons of officers of the navy, army, or marines, or of civil officers under the Board of Admiralty, with respect to whom the payment will be £40 only. In this selection their lordships will have regard solely to the pecuniary circumstances of the cadet.

14. The period of training on board the *Britannia* will be four terms; there will be two terms in each year. The first term of each year will be from February to July, the second from September to December.

The vacations will be five weeks at Christmas, two weeks at Easter, and six weeks at Midsummer.

15. (a.) Examinations in seamanship and study will be held at the end of each term.

(b.) Cadets who fail at the end of their second term to obtain 40 per cent. of marks in mathematical subjects will be discharged.

(c.) Cadets who fail at the final examination to obtain 40 per cent. in theoretical and 50 per cent. in technical subjects will be discharged.

(d.) Cadets reported to the Admiralty for unsatisfactory conduct will be "warned;" should they be again reported they will be discharged. Any cadet, however, who is reported for unsatisfactory conduct during his final term will be discharged without being allowed to present himself at the examination for passing out of the *Britannia*.

(c.) Any cadet who shall at any time appear to their lordships to be unfit for the naval service, for any reason whatever, will be removed from the *Britannia*, and it must be understood that this rule will apply to those who are considered unfit from insufficient physical development or weakness of constitution, although no actual organic disease may have been developed.

* A certificate of baptism will not be accepted.

16. It is to be distinctly understood that the period of training on board the *Britannia* is a time of probation, and the parent or guardian of every cadet will be required to sign a declaration (on the admission of the cadet to the *Britannia*), to the effect that he shall be immediately withdrawn on the receipt of an official intimation of his being considered unfit for the navy.

17. Cadets will, on passing out of the *Britannia*, rank according to the amount of sea time they obtain at their final examination, and those who obtain equal amounts of sea time will rank in the order of merit in which they pass out of the *Britannia*.

18. The parent or guardian of every cadet will be required to provide outfit under the regulations in force.

19. No pay or pocket money will be allowed by Government to cadets in the *Britannia*.

By Command of their Lordships,

EVAN MACGREGOR.

POPULATION OF VICTORIA.

ESTIMATED Population of Victoria on the 30th September 1887:—

Third Quarter of 1887.	Males.	Females.	Males.	Females.	Total.
Births ...	4,648	4,397			
Arrivals by sea ...	13,225	5,528			
Deaths ...	2,122	1,452			
Departures by sea	10,236	4,056			
Unrecorded departures (estimated)	1,026	243			
			13,404	5,751	19,155
Increase during the quarter			4,469	4,174	8,643
Estimated Population on the 30th June 1887			540,954	478,152	1,019,106
Estimated Population on the 30th September 1887			545,423	482,326	1,027,749

NOTE.—The apparent increase of population—or that obtained by adding the excess of registered births over registered deaths to the excess of recorded arrivals over recorded departures—in the third quarter of 1887 was 9,912, as against 8,186 in the previous quarter, 10,749 in the corresponding quarter of 1886, and 8,062 in that quarter of 1885. If, however, allowance be made for the estimated number of unrecorded departures, the net increase of population during the quarter will be reduced to 8,643, viz., 4,469 males and 4,174 females as shown above.

The allowance made for supposed unrecorded departures during the whole period since the census of 1881 was taken has been 34,722, viz., 27,749 of males and 6,973 of females, and the apparent population has been reduced by these numbers. Had no reduction been made in the estimate, the population would apparently have amounted at the end of September to 1,062,471, viz., 573,172 males and 489,299 females.

RESIDENCE AREAS.

44. No person shall be entitled to occupy any land as a "residence area" unless such area shall for the time being be registered by the mining registrar or other proper officer, and unless such person shall be registered as the holder of such area, and the number of the miner's right or business license by virtue of which he is entitled to occupy such area is also registered. The extent of a residence or business area shall not exceed one (1) acre, and any such area shall not have a frontage to any road or street, or the continuation of any road or street exceeding one hundred and thirty-two feet by a depth of three hundred and thirty feet (132 feet by 330 feet).

A separate miner's right or business license shall be held for each residence area of which any person may be the holder.

46. If at any time after four months from the registration of a residence area it shall be proved to the satisfaction of any warden that there is no habitable dwelling thereon erected,

and that there has not been a habitable dwelling thereon erected for a period of at least three consecutive months, such warden shall make an order that the registration of such residence area be cancelled, and such registration shall thereupon be cancelled by the mining registrar or other proper officer, and the land so registered shall on such cancellation cease to be a residence area, and no second registration shall be effected by the same person of the whole or any part of a residence area within a period of six months.

47. The holder of a residence area may at any time after he has resided thereon for a period of at least twelve months let his interest in the occupation of the surface thereof to any person at a monthly or weekly rental, and between such holder and such person there shall exist the same rights as between any landlord and his tenant.

themselves, or their agents, shall *bond fide* proceed to work regularly upon such claim or claims, according to the usual course and practice of efficient mining, by so many miners as shall be required, until the claim is opened out sufficiently to admit of the full number of miners for which the claim is registered being employed therein.

55. *Penalties, &c.*—The owner or owners of any registered extended claim neglecting to commence work on their claim, as required by the preceding section, or at any time during the working thereof, neglecting to work or cause to be worked, or bale their due proportion of water from such claim, for a period of twenty-eight consecutive days, shall be liable on conviction thereof to a penalty not exceeding £10, and for a second offence on conviction thereof to a penalty not less than £10 and not exceeding £25. Such penalty may be enforced by any duly qualified miner or miners, or mining registrar, and be recoverable in a summary way before any justice being also a warden; provided that no second information shall be laid until fourteen days after the date of the first conviction; and if after the lapse of twenty-eight days from the infliction of any second penalty the owner or owners shall neglect to work, or cause to be worked, such claim, the same may be declared forfeited: Provided always, that if it shall appear to the court that work has not been *bond fide* commenced and continued in such claim within one (1) month after the lapse of the two (2) months allowed for registration, the said court may at once declare the right of such persons to the claim forfeited, and the persons enforcing such forfeiture shall be deemed to have a prior right to be put in possession of such claim.

QUARTZ REEFS.

56. *Description of claims.*—For the purpose of this bye-law, claims may be taken up on quartz reefs or on the line of quartz reefs under four classes respectively, viz.:—

1. Prospecting claims.
2. Co-operative prospecting claims.
3. Ordinary claims.
4. Extended claims.

All quartz reefs claims shall in length be measured horizontally along the line or supposed line of reef, and in width one half of the width on each side of the line or supposed line of reef.

57. *Description of ground upon which claims under the aforesaid classes may be taken up and held.*—Under classes 1, 2, 3, either on previously unworked reefs, or on reefs, or on the line of such reefs which have been previously worked and abandoned, but no claim shall be taken up under class no. 1 at a less distance than twelve hundred (1,200) feet from any other claim under any of these classes, then in the possession of any miner or miners, on the same line or supposed line of reef. Under class 4, on reefs or on the line of reefs which have been previously worked and abandoned, but in every such claim there shall be at the time of taking possession thereof at least one shaft thereon, sunk to the depth of fifty (50) feet, or to water level, and there shall also be erected thereon at the time of its being taken possession of, or there shall be erected thereon after possession has been taken, and in either case be actually and *bond fide* at work within six (6) months after possession thereof has been taken, steam machinery for the purpose of winding or pumping on such claim.

58. *Marking of claims.*—All claims under any of the aforesaid classes shall be marked out at the time of taking possession thereof, by substantial posts erected at each angle of the claim, and within forty-eight (48) hours after such claim has been taken possession of, the boundaries of it shall be evidenced by a post of at least two (2) inches square, or two (2) inches in diameter, and standing at least two (2) feet out of the ground, erected at each angle of the claim and at each end of the claim on the line or supposed line of reef; and such last aforesaid posts shall be kept erected during the whole time that possession is retained of such claim; but where two or more claims are amalgamated it shall only be necessary to keep such posts erected to evidence the boundaries of such amalgamated claim.

59. *Area of claims.*—The area of ground which may be taken possession of and held under the aforesaid classes, respectively, shall not exceed as follows:—

Class 1.—Four hundred (400) feet on the line or supposed line of reef, by a width of six hundred (600) feet. Any such claim may be taken possession of and held by one miner or by two or more miners in conjunction.

Class 2.—One hundred and fifty (150) feet on the line or supposed line of reef, by a width of six hundred (600) feet for each miner taking possession of or holding such claim; provided, however, that no claim under this class shall exceed eighteen hundred (1,800) feet in length.

gold has been obtained in such claim a majority of the number of miners holding such claim shall be employed thereon: Provided, however, that in any claim under class 3 which shall not exceed one hundred (100) feet in length by six hundred (600) feet in width it shall only be necessary that one miner be employed thereon.

Under class no. 4, by at least one-half the number of miners holding such claim within fourteen (14) days after such claim has been taken possession of.

61. *Amalgamation of claims.*—Whereas it is enacted by *The Mining Statute 1865*, sec. 7, that it shall be lawful for the owners of any number of adjoining claims to amalgamate the same, whether the same be registered at the time of such amalgamation or not, in order to give full effect to such enactment any two or more claims held under any of the aforesaid classes may be amalgamated subject to the following conditions:—Notice of such amalgamation shall be given in the form in the Schedule hereunto annexed marked VI. to the mining registrar for the division in which such amalgamated claim is situated within seven (7) days after such amalgamation has taken place, and such mining registrar shall thereupon issue to the persons giving such notice a certificate of registration of such amalgamation, in the form in the Schedule hereunto annexed marked VII., and such amalgamated claim shall be *bonâ fide* worked by such number of miners as would have been required to work such claims prior to their being amalgamated.

62. *Survey of claims.*—Any claim taken up under class no. 1 must be surveyed by the mining surveyor for the division in which such claim is situate, within fourteen (14) days after payable gold has been obtained therefrom. Any claim taken up under classes nos. 2 and 4 must be surveyed by the mining surveyor for the division in which such claim is situate, within twenty-one (21) days after such claim has been taken possession of. Any amalgamated claim must be surveyed by the mining surveyor for the division in which such claim is situated within seven (7) days after amalgamation.

63. *Registration of claims.*—All claims taken up under classes nos. 1, 2, and 4, and class no. 3, where the claim exceeds in length 400 feet, shall be registered with the mining registrar for the division in which such claims are situated within fourteen (14) days after such claims have been taken possession of, and an amalgamated claim seven (7) days after amalgamation. A certificate of the registration of any claim or of any share in a claim shall be furnished by the mining registrar in the form of the Schedule hereunto annexed marked I. to the persons registering the same.

All applications for registration of a claim, or of a share in a claim, must be made to the mining registrar in writing; and in case of a claim, the name under which such claim is proposed to be registered; and in case of a share in a claim, the name under which such claim has been registered must be inserted in the application; and applications for registration must be in the form or to the effect contained in the Schedule hereunto annexed marked VIII.

64. *Events in which claims shall be forfeitable.*—Any claim under any of the aforesaid classes, or any amalgamated quartz claim, in which work shall not have been commenced as prescribed by this bye-law, and any claim as aforesaid in which work having been commenced as prescribed shall, except as provided for in sections 68 and 76 of this bye-law, be suspended, and any claim under class no. 4 on which steam machinery shall not have been erected and be *bonâ fide* at work, or, if erected previous to the claim being taken possession of, shall not be *bonâ fide* at work within the time prescribed within this bye-law; and any claim in which it shall appear to a court of competent jurisdiction that the reasons assigned in the declaration under which protection registration shall have been obtained under section 63 of this bye-law, were insufficient, or that the declaration was untrue, shall in any such cases aforesaid be forfeitable, and may, by a court of competent jurisdiction, be declared forfeited; and the person or persons first seeking to enforce forfeiture of any such claim by proceedings before such court shall, on such claim being declared forfeited by such court, be put in possession thereof: Provided, however, that if forfeiture of any such claim shall have been sought to be enforced within one month after such forfeiture has been incurred, the person or persons in whose favor such forfeiture is adjudged shall pay the person or persons against whom such forfeiture has been decreed for any timber, mining plant, or materials on such claim absolutely beneficial to the persons in whose favor forfeiture is decreed; and in such event, if the persons themselves cannot agree as to the value of such timber, mining plant, or materials, the value thereof shall be ascertained by arbitration, as provided in section 92 of this bye-law; and the amount of such valuation, together with the cost of such arbitration, shall be paid to the person or persons against whom such forfeiture has been decreed within seven (7) days after such valuation has been agreed upon or made; and such payment shall be a condition precedent to the person or persons in whose favor such forfeiture has been declared being put in possession of such claim.

65. *Events in which shares shall be forfeitable.*—Any share in any claim under any of the aforesaid classes, or in an amalgamated quartz claim, shall be forfeitable for the following reasons:—For the non-payment by any shareholder of all lawful calls or contributions made or due upon his share or shares, and in respect of such forfeiture, the company, co-partner or co-partners, holding such claim, or some person duly authorized by them, may enforce such forfeiture; and such company, co-partner or co-partners, shall respectively have priority of right, for a period not exceeding fourteen (14) days after such forfeiture has been incurred, to be put in possession of such share; and in either of such cases as aforesaid forfeiture may be declared by a court of competent jurisdiction; but such court may, in its discretion, in lieu of forfeiture of any such share as aforesaid, for the first offence, inflict, by way of penalty, a fine

not exceeding Five pounds; and such fine shall be the property of the company or co-partners seeking to enforce such forfeiture: Provided, however, that no claim in any share as aforesaid shall be forfeitable by reason of the non-payment of any call or contribution by the holder thereof, unless the company, co-partner or co-partners, seeking to enforce such forfeiture shall, seven (7) days at least before commencing proceedings to enforce such forfeiture, have served him with a notice in writing, signed by such company, co-partner or co-partners, or by some person duly authorized by them, demanding payment of such call or contribution; and it shall be sufficient service of such aforesaid notice if it be served on such shareholder personally, or if it be left, addressed to him, at his place of residence, if known, or, if his place of residence be not known, by advertising such notice in two (2) consecutive publications of the newspaper published nearest to the place at which such claim in which such aforesaid share is held is situate.

66. *Exemptions from forfeiture.*—Whenever the holder or holders of any claim under any of the aforesaid classes, or of an amalgamated quartz claim, shall have incurred forfeiture of such claim by reason of suspending work in such claim without availing himself or themselves of the privileges of sections 68 and 76 of this bye-law, and shall have, within seven (7) days after incurring such forfeiture, again proceeded to work and have *bonâ fide* continued to work such claim as provided by section 60 of this bye-law, no other person or persons having within such seven (7) days as aforesaid sought to enforce such forfeiture, then in such case on any person or persons afterwards proceeding to have forfeiture of such claim declared by a court of competent jurisdiction, such court may in its discretion, in lieu of declaring such claim forfeited, impose a fine by way of penalty on the holders of such claim, such fine not to exceed the sum of Ten pounds (£10) sterling, and to be paid to the person or persons seeking to have such forfeiture declared.

67. *Possession of forfeited claims or shares.*—When, under the sections hereof, numbered 64 and 65 respectively, any claim or share shall be forfeitable, any person or persons, being the holder or holders of sufficient miners' rights, may, subject to any right of priority in any other person or persons as provided in the next preceding clause, make application to the warden or to the Court of Mines of the district to be put into possession of the claim or share; and the person or persons who shall so first make application shall, subject as aforesaid, have a prior claim to be put in possession.

68. *Quartz claims may be held in reserve.*—When any person or persons, or any company holding a claim under any of the before-mentioned classes, or an amalgamated claim, requires to suspend operations thereon for the purpose of erecting or repairing machinery, or through scarcity of water to crush quartz taken therefrom, or when by reason of any influx of water which will prevent any claim under classes nos. 1, 2, and 3, or an amalgamated claim, from being efficiently worked until the holders of one adjoining claim are down to the same depth as such claim, the works thereon are unavoidably suspended, such person or persons, or such company, or some person duly authorized on their behalf, may make a statutory declaration in the form in the Schedule hereunto annexed marked IX., setting forth fully the reason for desiring to suspend the work upon the claim, and shall deliver such declaration, or duly certified copy thereof, to the mining registrar, and the said registrar shall upon the receipt of such declaration register such claim, to be held in reserve and unworked, as follows:—In case of erecting machinery, any period not exceeding six (6) months. In case of repairing machinery, any period not exceeding three (3) months. Scarcity of water or influx of water as aforesaid, in claims under classes nos. 1, 2, and 3, and amalgamated claims only, any period not exceeding three (3) months. And such registrar shall deliver to the person or persons, or company, as aforesaid, a notice in the form in the Schedule hereunto annexed marked X., stating that said claim is protected from forfeiture for a certain period to be named therein; and it shall be the duty of such person, persons, or company to post and keep posted such notice, or a true copy thereof, on some conspicuous part of the claim to which it relates; and in cases where such suspension shall have been by reason of an influx of water, and the holder or holders of one adjoining claim are not down to the same depth as such suspended claim on the expiration of the term of such suspension, then such suspension may be renewed for a further term not exceeding three (3) months, the proceedings to be had in case of a renewal to be in every respect similar to the proceedings to be had, as aforesaid, in the first instance, and provided the causes or reasons in such declaration as aforesaid shall be true and sufficient, any claim or claims which shall have been so registered as aforesaid shall, during the time of such protection, be exempted from fine or forfeiture for non-performance of work; and such suspension may from time to time be renewed, and such claim be protected from forfeiture for a period not exceeding three (3) months at each time, until one adjoining claim is down to the same depth as such suspended claim; the proceedings to be had in each case of renewal to be in every respect similar to the proceedings to be had in the first instance as aforesaid: Provided, however, that if no claim shall have been taken up adjoining the claim so held in reserve, then such suspension shall not be renewed after the first term of suspension from work, or if any claim adjoining the one so held in reserve shall be actually and absolutely abandoned by the holders thereof during the suspension of the claim so held in reserve, then in such case such period of suspension shall not be renewed, but the holders of such claim shall, on the termination of the period for which their claim is registered to be held in reserve, proceed to work as provided in section 60 of this bye-law.

When any person or persons, or company holding a claim under classes nos. 1 and 2, shall have *bonâ fide* worked such claim for a period of six (6) months, or under class no. 3, or an amalgamated claim, shall have *bonâ fide* worked such claim for

a period of three (3) months, without any payable gold having been obtained in such claim during such aforesaid periods respectively, and are desirous of suspending work therein, then such parties shall make a statutory declaration and obtain registration of such claim to be held in reserve and unworked for any period not exceeding three (3) months, in the manner herein provided, and shall also post a notice on such claim as so provided, and provided the causes and reasons in such declaration be true and sufficient, any claim or claims which shall have been registered as aforesaid, shall during the time of such protection be exempt from fine or forfeiture for non-performance of work: Provided that no claim shall be held in reserve as aforesaid unless a majority of the shareholders, or in cases where there are only two shareholders in a claim, then unless both of such shareholders shall be willing to hold such claim in reserve, and the consent of such majority or of such shareholders to such claim being held in reserve, shall be given in writing to the mining registrar, and shall be by him filed in his office.

69. *Re-marking and extension of claims.*—Whenever any miner or miners shall have been prevented from marking out the full width of their claim under any of the aforesaid classes, or an amalgamated claim, by reason of the adjoining ground being in the occupation of some other miner or miners, they may, on such ground being abandoned, or on having forfeiture of such adjoining ground declared in their favor, re-mark their claim and extend it to an area not exceeding that prescribed in section 59; provided that if such claim shall have been surveyed or registered as prescribed in sections 62 and 63, they shall, within ten (10) days after such re-marking and extension, have the same re-surveyed, and re-register the same in the form prescribed in sections 62 and 63 hereof.

70. *Parties entitled to all deposits, &c., of gold.*—The owner or owners of any quartz claim under any of the aforesaid classes, or of an amalgamated claim, shall be entitled to all reefs, veins, leaders, and alluvial deposits of gold within their claim: Provided that persons in possession of any such claim neglecting to work the reef in accordance with the provisions of this bye-law while working the alluvial ground shall be liable to have the area reduced to an ordinary alluvial claim.

71. *Inspection by and information to mining officers.*—The owner or owners of any claim under any of the aforesaid classes, and of any amalgamated claim, shall permit the mining surveyor, mining registrar, or other duly authorized officer, to inspect the workings and operations of such claim, and to take measurements thereof once in every three (3) months, if required, and shall render all the assistance in their power to such officer when making such inspection and measurements; and shall also furnish to such officer as aforesaid, if required, once in every three (3) months, a full, true, and correct statement as to the working operations which may have been carried on in such claim, the quantity of quartz and other substances which has been reduced or otherwise treated from such claim, the yield of gold therefrom, the number of miners and other persons employed in such claim, and such other general information not inconsistent with this clause, for the previous three (3) months, ending at such date as such officer shall determine.

GENERAL REGULATIONS.

72. *How to take possession of any claim.*—Any miner or miners considering himself or themselves justified in taking possession of any claim, water-right, or any other easement or share therein respectively, may do so provided that no other person or persons is or are then in possession or occupation thereof respectively; but in the event of any other miner or miners so in possession disputing the right of possession, the first-named person or persons shall apply to a court of competent jurisdiction to inquire into the subject-matter in dispute; but in no case shall any person take forcible possession of, or commence to work in, any claim after his right to take possession thereof has been disputed, without forfeiting all right or title he may have acquired therein.

73. *Wall.*—A wall of two (2) feet in width shall be left between all claims, except in quartz reef claims, marked out under this bye-law, by the miner or miners last marking out; and any party neglecting to leave such wall, the necessary ground may be deducted from the claim of the party so neglecting, and shall be assigned as a wall; and any such wall may be worked by either of the adjoining claimholders, provided that they secure the ground properly with sufficient timber.

74. *Presence of parties marking claims.*—It shall not be necessary for all shareholders to be present at the marking out of claims.

75. *Marking ground in excess.*—Where any miner or miners have marked out more ground than he or they are entitled to under this bye-law, any other miner or miners may mark off such excess on any side of the claim, and the miner or miners having marked too much ground shall not be entitled to a wall taken from him or them.

76. *Measurement of disputed ground.*—In all cases where the right to certain ground forms matter of dispute between miners, each claim shall be measured from the boundary pegs opposite to the side of the claims in dispute, and no party shall be protected from encroachment unless the boundary pegs shall have been kept visible during the working of the claim.

77. *Destroying or removing pegs, notices, &c.*—No person shall remove, destroy, or cover over any pegs marking the boundary of any claim, or shall efface, remove, or destroy any notice posted on any claim; or shall willfully cut a channel so as to cause the escape of water from any water-dam, water-race, or tail-race that is being used by any miner or miners; nor shall it be lawful for any shareholder or shareholders in any claim to remove the pegs or to alter the boundaries of such claim without the consent of a majority of the shareholders of such claim.

78. *Tunnelling.*—Where in alluvial ground hills can be worked more efficiently by tunnelling, registered claimholders may hold, in addition to their claim or claims, sufficient ground for such tunnel, with twelve (12) feet on each side from the centre of their tunnel, as a protection to the same, for any distance along its course not exceeding one thousand (1,000) yards, and with a space of three hundred (300) feet square at the mouth of tunnel, for the erection of such machinery or other purposes.

79. *Owners of alluvial claims entitled to all reefs and other deposits.*—The owner or owners of any alluvial claim shall be entitled to work all quartz reefs, veins, leaders, and other deposits of gold within the area of such claim.

80. *Prevention of accidents.*—No persons shall be allowed to remove logs or any other substance from the top of any shaft to a lower level than four (4) feet above the surface, nor to cut any drain into any shaft whereby any claim, shaft, or workings may be damaged.

81. *Protection to parties applying for ground.*—Any miner or miners posting any authorized notice, or marking off any ground to be applied for under this bye-law, shall be protected in holding the same from the time of marking or posting such notice till the application is disposed of.

82. *Alluvial claims may be held in reserve.*—When by reason of any influx of storm or other water, or scarcity of water, the works upon a claim cannot be prosecuted, or when the owner or owners of a claim require to suspend mining operations upon such claim for the purpose of procuring and erecting, or repairing machinery thereon, may do so, on obtaining registration from the mining registrar, setting forth the cause of such stoppage, and posting a copy thereof on the claim. The periods for which claims may be held in reserve and unworked are as follows:—Influx or scarcity of water, not exceeding three months; procuring and erecting machinery, not exceeding four months; repairing machinery, one month.

83. *Roads to be bridged.*—Any miner or miners constructing or using a race, tail-race, water-drain, catch-drain, or sludge-drain across any road or thoroughfare, shall construct substantial bridges (with approaches where necessary) not less than fourteen (14) feet wide over such race, tail-race, water-drain, catch-drain, or sludge-drain; the same to be kept in repair by the owner or owners thereof.

84. *Protection to sites, water-dams, residence areas, &c.*—Persons in legal possession under this bye-law of any site for crushing machinery, water-dam, race, reservoir, tramway, or site for stacking quartz, earth, or other materials, or for any residence area, shall be protected in possession of such holding against any other parties, except in the event of such site or area being required for mining purposes; and in such cases the persons requiring such site shall make application to a court of competent jurisdiction, and shall before entering thereon deposit with the warden, or give sufficient security for, a sum equal to the estimated injuries that will accrue from such occupation or working, the amount of such compensation to be determined by arbitration as provided by this bye-law; and such amount as shall appear to the arbitrators to be sufficient for the actual damage done shall be paid to the holder of the site as soon as the actual damage can be ascertained.

85. *Quartz, earth, timber, and other substances may be stacked and registered.*—Any miner or miners shall be at liberty to hold possession of any quartz, earth, timber, or other substance, that may have been raised, stacked, or stored by him or them, or of which he or they may be the owner or owners, provided that the same shall not have been stored on any ground legally occupied by any other person, and may register such substance with the mining registrar in accordance with Schedule XI. hereunto annexed, and shall keep a copy of such registration posted on the stack or store, and such registration shall not hold good for a longer period than six months, unless renewed at the end of that period.

86. *Special protection registration.*—In the event of any company or persons holding a claim being unable to collect from the holders of the shares or interests in such claim the calls necessary for prosecuting the works upon such claim, and in the event of the market value of a share or interest in such claim being less than the amount of capital called up in respect of such share or interest, and provided that work shall have been *bona fide* commenced on such claim, and a sum of not less than four hundred pounds (£400) expended in carrying out such works (that is to say, upon the conjunction of the events aforesaid) on production of a statutory declaration made by the manager of a company, or by any other person duly authorized in that behalf, to the effect that such company or persons are unable to collect calls necessary for carrying on the operations upon such claim, and that the shares or interests respectively in such claim cannot be sold for so much money as has been called up in respect of each such share or interest, and that the work as aforesaid has been done, and the amount expended as aforesaid, the mining registrar shall register the claim of such company or persons to be held in reserve and unworked for any period not exceeding six (6) months, and every such registration shall be deemed a special protection to such company or persons as aforesaid, and provided the statements contained in the declaration be true, the claim shall be exempt from fine or forfeiture for non-performance of work during the continuance of such special protection: Provided always that all claims held at the date on which this bye-law becomes law shall, in the events aforesaid, be entitled to such special protection notwithstanding the title to such claim shall hereafter be or have been assigned, transferred, or otherwise dealt with: And further, provided always that if it shall appear to a court of competent jurisdiction that the reasons assigned in the declaration under which such protection registration was obtained were insufficient, or that the declaration was untrue, then such claim which was held, or was applied to be held, under such protection

registration shall be forfeitable, and may, by a competent court, be declared forfeited: Provided that such court may in such case inflict by way of penalty, in lieu of forfeiture, a fine not exceeding One hundred pounds (£100), nor less than Twenty-five pounds (£25): Provided also that no claim shall be registered a second time under this bye-law.

87. *Absence from claims.*—Any miner or miners may leave his or their claim or share in any claim held under any section of this bye-law, unworked, and may absent himself or themselves from such claim without incurring forfeiture of such claim or share, as follows:—Whilst incapacitated by accident or sickness from ability to work in such claim, or whilst in attendance on a sick person; whilst in attendance on a court of justice or a mining board; from Good Friday until Easter Tuesday inclusive; from the 23rd December until the 4th January inclusive; from the day before until the day after the polling-day at all elections of members of Parliament and the mining board, and on all public holidays: Provided that any miner leaving his share in any claim unworked, under the provisions of the first part of this clause shall, as a condition precedent thereto, obtain the consent of a majority of the co-partners in such claim, or if there shall be only two co-partners in such claim, then the consent of his co-partner to his leaving his share in such claim unworked as aforesaid, or in lieu thereof shall employ a skilful and efficient miner to work such share during his absence.

88. *Objections.*—Where objections to any application are made under this bye-law, or any person or persons objecting, shall lodge such objection in writing, with the mining registrar within seven (7) days from the date of such application; if the person or persons objecting shall fail to prosecute his or their objections within a further period of seven (7) days, such objection shall be null and void.

89. *Abandonment of shares.*—Any miner desirous of abandoning his interest or share in any claim held under this bye-law, may do so by serving a notice of his intention to do so on the other shareholders, and inserting a copy of the same in the newspaper nearest to the locality of the claim for two (2) consecutive insertions, and also a copy to be posted at the mining registrar's office for seven (7) days; at the expiration of which time the said shareholder shall be released from all further liability connected with the said share: Provided always that nothing herein contained shall be deemed to cancel or set aside, or to interfere with, any debt, agreement, or contract, which at the date of such abandonment may exist between such shareholder and his co-partners.

90. *Registration.*—Any shareholder or any person holding a claim or interest therein, or the owner of any dam, reservoir, or other easement, may register the same on application to the mining registrar, unless otherwise provided for in this bye-law, who shall give a certificate of registration in the form of Schedule XIII. hereunto annexed.

91. *Providing for the non-appointment or neglect of mining registrar.*—In any division for which there is no mining registrar appointed, or where any registrar shall refuse or neglect to register any application for registration required by this bye-law, such non-fulfilment shall not invalidate the title to any mining interest or privilege held or claimed by the applicant.

92. *Shares may be transferred.*—Any share or interest in any claim that has been registered may be transferred on application to the mining registrar, who shall give to the miner to whom the said share or interest shall be transferred, a certificate in the form of Schedule XII. hereunto annexed.

94. *Forfeiture of shares.*—The owner or owners, shareholder, or any person holding an interest in any claim, except as provided in section 65, neglecting to work, or cause to be worked, such share or interest, or neglecting or refusing to contribute his or their share or proportion of capital required for the erection of machinery or other works, or pay any call lawfully made by the party or company, for four consecutive weeks after any such call is due and payable, shall forfeit all title and interest in such share or interest; and such forfeiture may be enforced by any duly qualified miner or miners before any warden, or warden and assessors; and in the event of such forfeiture being decreed, the miner or miners enforcing such forfeiture may take, and will have preference to take possession of any such forfeited share or interest: Provided that all such contributions or calls shall be made by a majority of the company, or by directors duly appointed by such company; provided also that a notice containing the amount of monies due, and the date when payable, shall have been served on the defaulting shareholder or shareholders, or his or their agent, or at his or their last known place of residence; or if such defaulting shareholder or shareholders cannot be found, then it shall be considered good and sufficient service of such notice by having posted it, addressed to his or their last known place of residence, and advertising it in the nearest local newspaper.

95. *Forfeited shares.*—Any person who shall have obtained an award of any forfeited share or interest in any claim shall, as a condition precedent to his obtaining possession thereof, become responsible for the liabilities of such share.

96. *Information of proceedings.*—All miners holding claims under the bye-laws of the Maryborough Mining District shall furnish, if required, to the mining registrar of the division in which such claims are situate, a quarterly return of the quantities of quartz, earth, or other auriferous substances raised and crushed, or washed by them, and the quantity of gold obtained therefrom; and any miner or miners refusing to furnish such information will be deemed to have committed a breach of the bye-law.

97. *Relating to mortgages.*—All mortgages or liens on claims or mining tenements, including any share or interest therein, or residence areas, shall be registered with the mining registrar of the division wherein such claims, or mining tenements, or shares, or interests therein, or residence areas, are situated; and such mining registrar shall keep in his office for this purpose a book called the "Register of Mortgages," wherein it shall be the duty of the mining registrar to enter the following particulars of all mortgages left in his office, the number, name or names of the mortgagor or mortgagors, and of the mortgagee or mortgagees; the share or shares, or part of a share or shares, the name and situation of the reef, workings, or other easements, the amount of the consideration money, and the time of repayment; and shall give a certificate of registration in the form of Schedule XIV. hereunto annexed: Provided that the registrar shall cancel any mortgage on any claim, share, or interest, or residence area, upon the mortgagor delivering to the said registrar a certificate from the mortgagee to the effect that such debt or liability for which such mortgage was granted has been discharged.

Printed forms of tenders and conditions of contract may be obtained from the Secretary, Tender Board, Treasury, Melbourne, or from the officer in charge at any station, by whom also information or explanation will be afforded to persons tendering.

As much forage as can be stored at any station where the storage is small will, for the convenience of the contractor, be ordered at one time.

The price, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per cental of 100 lbs. (net weight), including delivery at the stations, and all charges except the bags, which will remain the property of the contractor. At stations where the bags can be at once emptied the contractor will be required to remove them when delivery is taken. At other stations, notice will be sent to the contractor when the bags are empty. Bags to be removed at contractor's expense.

Tenders, which should be upon the printed form, will be received for either oats, bran, hay, or straw (the particular kind of hay or straw offered to be stated); but if all be included in one tender it may be accepted for one article only, if advisable. Oaten hay will be preferred. Telegrams will not be entertained.

Tenders not complying with the terms of advertisement will not be entertained.

The successful tenderer will be required to enter into a bond for one-third of the estimated amount of the contract within ten days after the acceptance is notified. Two approved sureties are required for contracts amounting to £150 and upwards, and one surety for contracts under £150.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Forage," and deposited in the Tender-Box, Pay Office, Treasury, Melbourne; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Treasury, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice, and by letter to accepted tenderers.

CONDITIONS OF CONTRACT.

1. The hay to be good, sound, and sweet, and properly trussed, except when otherwise directed by the police; the straw to be wheaten or oaten, and both to be in all respects of the best quality; oats (Victorian grown) and bran to be sound and sweet, and of the best description; chaff to be made from oaten hay of the best quality; the maize to be of the best quality. The hay tenders must specify whether they are for wheaten or wheaten hay.

2. The supplies are for police, telegraph, and other horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximate, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed, or additional horses required to be stationed at any of the stations, the contractor will be required to supply the additional forage. Should the additional number of horses, however, exceed two, the contractor may, if he desires it, terminate the contract by supplying at once the whole quantity due at the station under the contract according to the foregoing schedule.

3. Notwithstanding anything contained in the preceding condition, the contractors for the supply to the Botanic and Domain Gardens may be called upon to supply any other Government Departments within a radius of six miles from Melbourne, and for which no contracts have been taken, at the same rates.

4. The forage, when delivered, must be accompanied by the particulars of quantity, showing the net weight, to be endorsed on the back of the order, which, when signed by the officer in charge of the station, for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and, on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the district, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to the quality of the same, it is to be decided by a board of survey, composed of persons named by the head of the department ordering the supply, and the decision of the Board is to be considered final.

8. If the Board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of the delay in delivering or replacing it when required, or refusal to execute orders, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding £20, as the Treasurer of the colony for the time being may direct. It will also be in the power of the said Treasurer, upon such repetition, to terminate the contract forthwith.

11. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government.

12. It will be competent for the Secretary of the Tender Board, on behalf of the Government, or for the contractor on his own behalf, to terminate the contract, by giving, in writing, a notice of three full calendar months to that effect, it being understood that such notice can only be given from the 1st day of a month, and provided that no such notice can be given before the 30th September 1888, and in the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon of Friday, 30th December 1887.

NOTE.—The fee for the period from 1st January 1888 to 31st December 1888, and fee of Five shillings for license, must accompany each tender.

TENDERS will be received by the Board of Land and Works, up to Noon of Friday, 30th December 1887, for the occupation for Grazing purposes only of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every license granted under section 119 of *The Land Act 1884* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under sections 3 and 4 of *The Rabbit Suppression Act Amendment Act 1884*, all licensees under the section for which these licenses will issue are liable for the destruction of rabbits within the boundaries of their licenses.

Conditions:

1. The issue of this license shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of *The Land Act 1884*, except under the 119th section thereof, under which the license is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of *The Land Act 1884*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his license fee paid by him as the responsible Minister of the Crown for the time being administering Part XI. of *The Land Act 1884* may think fit. This license is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

2A. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the license has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and, immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same, without the permission or sanction of the licensee, or any one claiming under her, him, or them.

3. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this license shall be deemed within its operation.

4. This license entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

5. If the licensee desire a renewal of this license, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

6. The interest in this license may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

7. No claim whatever shall be made or entertained by reason of the license not being renewed or transferred.

8. This license is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

9. This license may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

10. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this license, shall be conclusive evidence that the license is forfeited.

Special Conditions:

1. The period of occupation will be from 1st January 1888 to 31st December 1888.

2. The license fee must be paid in advance. The fee for the period from 1st January 1888 to 31st December 1888—for which the license will be issued—must accompany the tender, or be paid by the successful tenderer or his agent immediately on the declaration of the acceptance of the tender, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be endorsed "Tender for Lot 1, Block 481," or "Lot 2, Block 598," or "Lot 3, Block 876," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.

Plans can be seen and information may be obtained in this office.

13. The committee may call a special general meeting of the contributors on giving seven days' notice thereof by advertisement in two of the daily newspapers published in Melbourne, specifying the object in the form of a resolution, to which object alone the discussion shall be confined; they shall also call a special general meeting on the written requisition of twelve contributors (not being of the committee), under restrictions similar to the preceding, upon any matter connected with the corporation.

14. At all meetings of contributors twelve shall constitute a quorum. If no quorum is present within half an hour of the time appointed, the meeting shall stand adjourned for the following week, at the same day and hour.

15. All questions at any meeting shall be determined by a majority of the votes of those present, and, in case of an equal division of votes, the chairman shall have a casting vote in addition to any previous vote.

COMMITTEE OF MANAGEMENT.

16. The general business of the corporation shall be managed by the committee, who shall have the appointment of the bankers, superintendent, and all officers and servants of the corporation, and allow such salary, allowance, or recompense to them respectively, during their service or employment, as the committee shall from time to time see fit. All engagements between the committee and the salaried officers or servants shall be terminable on one month's notice, given by either side; and any salaried officer or servant shall be liable to immediate dismissal in the event of inefficiency, irregularity of conduct, or disobedience to the orders of the committee. The committee shall also have power to enter into contracts for the supply of provisions and other articles for the use of the corporation, to make such regulations as may be necessary for the internal management of the same, and to direct payment of accounts. All disbursements of the funds of the corporation shall be made by cheque, to be signed by the president, honorary treasurer, and superintendent, or in their absence by such deputies as the committee may appoint, but no such disbursement shall be made unless by direction of the committee of management.

17. The committee of management shall meet at the hospital at least once in every week, on a stated day, to transact current business. Four members to form a quorum, but a less number may admit and discharge patients. Minutes of the proceedings shall be recorded, to be read and confirmed at the next meeting. If a member of committee is absent from four consecutive meetings, the seat may be declared vacant; any vacancy from this or any other cause shall be filled by the committee temporarily appointing thereto some contributor to the hospital, until the next annual meeting.

18. No alteration shall be made in the salaries without a special notice to the full committee for that purpose.

19. The president, or, in his or her absence, one of the vice-presidents, shall preside at all meetings of the committee or corporation, and in their absence a deputy shall be chosen by the meeting.

20. No member of the committee shall supply the corporation with any article of trade, or be concerned or interested in any contract with the corporation.

21. The committee may, from time to time, make regulations under these bye-laws for the transaction of the business of the corporation. No proposition to make or amend any regulations shall be entertained unless one month's previous notice shall have been given; and no motion to rescind or alter a resolution shall be submitted unless one month's previous notice of the same be given.

HONORARY MEDICAL OFFICERS.

22. There shall be eight honorary medical officers, four of whom shall have charge of the infirmary and out-door departments, the remaining four shall have charge of the midwifery department. The present staff shall have the choice of departments.

23. No person shall be an honorary medical officer in this corporation, unless, in addition to the requirements of the Medical Practitioners Statute 1865, he possess a degree in medicine of an Australian university, or a degree in medicine of one of the recognised universities of the United Kingdom, or of some foreign university recognised by the University of Melbourne, or be a member or licentiate of the Royal College of Physicians of London, Edinburgh, or Ireland; and, in addition to the above, he shall possess a degree in surgery of some university in the

Australian colonies or in the United Kingdom, or be a member, fellow, licentiate, or some college of surgeons in the United Kingdom, and shall have been engaged in the actual practice of his profession not less than five years; one year of actual practice in a hospital for the treatment of diseases peculiar to women is to be considered and counted as equal to two years of ordinary practice, but not more than one year is to be thus counted in favor of any one candidate. The appointment shall be made at a general meeting of contributors.

24. The committee shall cause an election to be held for the appointment of four additional medical officers during the month of March 1888, in accordance with the bye-laws hereinafter contained, relating to the election of honorary medical officers.

25. All the present honorary medical officers, and the four honorary medical officers so to be elected during March 1888, shall continue in office until September 30th, 1891, and shall thereupon retire. All subsequent appointments shall be for a term of four years. Any interim appointment shall be only for the unexpired term of the vacancy. All retiring officers to be eligible for re-election.

26. In addition to the eight honorary medical officers appointed under Rule 22, the committee may, in their discretion, appoint the Lecturer on Obstetrics at the Melbourne University to be *ex-officio* a member of the honorary medical staff of this hospital, provided he be qualified under Rule 23; any such lecturer so appointed shall be attached to the midwifery department only, and his appointment shall be for such time as the committee think fit, and the committee may define his duties in connection with the aforesaid department.

27. Before the 15th of February 1888, the committee shall insert an advertisement in some daily newspaper, published in Melbourne, notifying that four additional honorary medical officers are to be elected in accordance with these bye-laws; and thereafter at any time when any office of honorary medical officer becomes vacant by effluxion of time, or from any other cause, the committee shall give public notice by advertisement as aforesaid that such vacancy has occurred, and in all the aforesaid cases shall fix by such advertisement a time, not less than 14 days from the date of such notice, within which candidates shall send to the committee their notice of candidature and the evidence of their qualifications.

28. Where, at the expiration of the time so fixed, there is only a sufficient number of duly qualified candidates for the position or positions vacant, the committee may declare him or them to be duly elected; or, in their discretion, may from time to time postpone the election and advertise anew as hereinbefore directed; provided that no vacancy shall remain unfilled for more than six weeks.

29. Where, at the expiration of the time so fixed, there are more than a sufficient number of duly qualified candidates for the positions vacant, the committee shall convene a general meeting of members for the election by such meeting by ballot of some one or more of such candidates to fill the vacant office or offices, as the case may be; and shall give not less than seven days' notice in some daily newspaper, published in Melbourne, of such meeting, and of the names of such candidates.

30. The first election of the four additional honorary medical officers shall be an election to the position of honorary medical officer to the institution; but all subsequent elections of these officers shall be in respect to either the midwifery department or the infirmary and out-door department, and all elections shall be held and conducted accordingly, subject to Rule 22. If any difference arise in respect to which department any of the honorary medical officers, to be elected in March 1888, shall be attached, the same shall be decided by a majority of the honorary medical officers.

31. No honorary medical officer shall be absent from the hospital for more than fourteen consecutive days, without permission from the committee. If absent for more than seven days, one of the other honorary medical officers or consulting officers shall be appointed to take charge of his patients; and, in case of absence on leave for more than a month, the committee may appoint a qualified *locum tenens* during absence, who shall be subject to the same rules as the honorary medical officers.

32. The committee may by an absolute majority of their body suspend any honorary medical officer, and in that event shall, within seven days thereafter, convene a general meeting of the contributors to consider such suspension. If the meeting confirm the same, the office of the person so suspended shall thereupon become vacant, and a fresh election shall take place. But should the meeting refuse to confirm the suspension, the same shall forthwith cease.

33. Each honorary medical officer shall at least twice in every week attend at the hospital to see those patients under his charge, and shall record in the book kept for that purpose the day and hour of each of his visits to the hospital.

34. When any honorary medical officer has served for ten years, the committee may, upon his request, declare him to be an honorary consulting medical officer of the corporation.

HONORARY PATHOLOGIST.

35. There shall be an honorary pathologist who shall be appointed by the committee, and conform to the rules for the honorary medical staff of the hospital. He shall make post-mortem examinations when necessary, and keep such records of the pathological appearances of the cases, as the committee of management may direct.

36. Each honorary officer shall, when practicable, give clinical instructions to the students attending the hospital, and shall permit students to witness his practice.

RESIDENT MEDICAL OFFICER.

37. The resident medical officer shall undertake the general supervision of the hospital professional work performed by the paid staff or students, subject to the regulations of the committee defining the duties. He shall be responsible for the medical and surgical stores, and see that the medicines are of proper quality and appropriately administered, and that the orders of the honorary staff are carried into effect.

MEDICAL STUDENTS.

38. Medical students may attend the practice of the hospital, subject to such regulations as the committee and the honorary medical staff may direct.

39. Students while attending midwifery work in the hospital shall not engage in other hospital work, either in wards or out-patients' departments, neither are they to dissect or attend pathology, or visit any patient suffering from any infectious or contagious disease.

SUPERINTENDENT.

40. The superintendent must give to the committee a fidelity guarantee to the extent of £250. He must devote the whole of his time to the service of the hospital. He shall have the supervision and control of the hospital and grounds, and be responsible to the committee for the due and efficient performance of the duties of all salaried officers and servants, except such duties as relate to matters of a professional character; and shall be the recognised channel of communication between the committee and the officials or servants. He shall attend all committee meetings and act as secretary thereto, keep all books and accounts, and conduct the general clerical business of the hospital as directed by the committee. He shall receive all monies paid at the hospital and pay the same into the hospital bank account.

THE COLLECTOR.

41. The collector shall give a fidelity guarantee for £100 or more, as the committee may determine. He shall keep a correct record of all money received by him on behalf of the corporation, and pay the same into the hospital bank account, and make such returns as required by the committee, and at such times as they may deem most convenient.

MATRON.

42. The matron shall be mistress of the household, and have control of the nurses and servants, and shall hire and discharge the same, subject to the approval of the committee. She shall daily visit the wards of the hospital, and conduct the household affairs generally in accordance with the regulations of the committee, and shall report any irregularity or negligence she may observe, or any suspension of the nurses or servants, to the superintendent at once, and to the committee at their next meeting.

NURSES AND PUPIL NURSES.

43. The nurses and pupil nurses shall reside in the hospital, and, subject to the directions of the committee and the resident medical officers, be under the control and supervision of the matron, and obey all her orders and directions.

44. No paid official connected with this institution shall accept of any gratuity from any patient, either in the form of a testimonial or otherwise.

ADMISSION OF IN-PATIENTS.

45. In-patients shall be admitted on the ticket of a contributor, subject to the approval of the committee or of the resident medical officer. Contributors, before recommending a patient to the committee, are expected, from personal inquiry, to satisfy themselves that the case is one needing charitable relief. Any case of emergency which the resident medical officer may admit on his own discretion shall be reported to the committee, and all particulars respecting it shall be recorded; the committee shall have the power of admitting patients unable to procure subscribers' tickets, provided they bring satisfactory references.

46. Each patient shall keep her person scrupulously clean, and as far as she is able assist the nurses in maintaining the wards in proper condition, and make herself generally useful according to the directions of the matron. No patient shall bring into the hospital any spirituous liquors. Any patient guilty of misconduct shall be liable to instant dismissal by the resident medical officer, who shall report the same to the committee at their next meeting.

OUT-PATIENTS.

47. Out-patients, on the ticket of a subscriber, and subject to the approval of the committee or resident medical officer, shall receive such medicines and medical advice as the case may require, on days fixed for that purpose. The committee shall have the power of admitting patients unable to procure subscribers' tickets, provided they bring satisfactory references.

SPIRITUAL CONSOLATION.

48. Any in-patient desiring spiritual consolation shall at all times be accessible to the minister of her religion, who shall perform the duties of his office at the bedside of the patient in such a way as not to disturb other patients.

VISITORS AND FRIENDS.

49. Subscribers may visit the hospital on Tuesdays and Fridays, between the hours of two and four o'clock p.m.; and the public and friends of patients may visit the hospital on Mondays, Wednesdays, and Fridays, between the hours of two and three o'clock p.m.; but no visitor shall be allowed to enter the wards without the permission of the resident surgeons or matron.

50. No infant shall be taken from the hospital unaccompanied by its mother, for the purpose of being adopted, unless with the consent of the mother and of the committee, given in writing, and countersigned by the secretary.

51. All rules and bye-laws heretofore made shall, one month after the confirmation of the bye-laws hereinafter set forth, by a general meeting of contributors specially convened for that purpose, and their publication in the *Government Gazette*, be and the same are hereby rescinded; but such rescinding shall not affect any rights or privileges acquired thereunder.
