The births of 1,041 children, viz., 541 boys and 500 girls, were registered in Melbourne and suburbs during the month of February. In the month of January 1,209 births were registered, or 168 more than in the month under review. The births were 338 above the average of the month during the previous ten years, but 161 above that average, if allowance be made for the increase of population.

The deaths registered in February numbered 388, viz., 434 of males and 388 of females; the births thus exceeded the deaths by 219, or 27 per cent. The deaths were fewer than those in January by 134, and exceeded the average of February during the previous ten years by 307. If, however, allowance be made for the increase of population, they will be found to have exceeded that average by 178.

To every 1,000 of the population of the district the proportion of births registered was 2.80, and of deaths registered 2.21.

The highest temperature in the shade recorded at Melbourne Observatory during the month was 99.6° on the 9th, and the lowest was 46.7° on the 20th. The mean temperature of the month (67.9°) was nearly 2 degrees above the average. The greatest range of the thermometer in any one day (38.6°) took place on two occasions, viz., the 7th and 11th; in the first instance from a maximum of 88.2° to a minimum of 49.6°; and in the second instance from a maximum of 98.7° to a minimum of 60.1°. The least range (7.0°) was on the 23rd, viz., from a maximum of 68.0° to a minimum of 61.0°. The mean daily range was 19.5°. The highest atmospheric pressure recorded was 30.126" on the 20th, and the lowest was 29.456" on the 28th. The mean atmospheric pressure (29.856 inches) was slightly below the average.

Rain fell on 8 days, the amount of rainfall being 2.67 inch. The average rainfall in February for the previous ten years was 1.41 inch, or rather more than 1 1/2 inch below that of the month under notice.

Males contributed 53 per cent., and females 47 per cent., to the mortality of the month. Children under 5 years of age contributed 52 per cent. to that mortality, as against 48 per cent. in February 1886, 49 per cent. in February 1885, 40 per cent. in February 1884, 42 per cent. in February 1883, 46 per cent. in February 1882, 45 per cent. in February 1881, 52 per cent. in February 1880, 45 per cent. in February 1879, 52 per cent. in February 1878, and 51 per cent. in February 1877.

As compared with the experience of the previous month, under the head of specific febrile or zymotic diseases, deaths from measles fell from 3 to nil, and those from diarrhœal diseases from 149 to 113. To counterbalance this decrease, the mortality from typhoid fever was the highest ever yet recorded in any one month, the deaths rising from 40 to 70. In 1886, there were 234 such deaths, and in the present year 110 deaths have already taken place. Under the head of constitutional diseases, deaths from cancer fell from 25 to 12, and those from phthisis from 82 to 62. Fourteen deaths occurred among child-bearing women during the month as against 8 in January. If these numbers are compared with the births registered in the same periods, it follows that 1 death of a mother took place to every 74 children born alive, as against 1 to every 151 such children in the previous month.

AGRICULTURAL STATISTICS OF THE COLONY OF VICTORIA FOR THE YEAR ENDED 1ST MARCH 1887.

MEMORANDUM.—Complete returns having been received from all the Districts, the figures embodied in the following Tables may be looked upon as final. No attempt, however, has been made to obtain a statement of the produce of Hops, Tobacco, or Vines, as these crops arrive at maturity too late to admit of a reliable estimate being made of their yield at the period at which the Agricultural Statistics are now collected. Steps will be taken to obtain correct returns of the yield of these crops, but it is probable the information will not be available for publication for several months.

* The word "apparent" is applied to the population, instead of "estimated," as the figures relate to the numbers of the population as they appear to be according to the results of the last census, with the addition of the excess of registered births over registered deaths, and of recorded arrivals over recorded departures (by sea), which occurred between the date of the census and the end of 1886. Whilst most of the deaths and arrivals are noted, it is known that some of the births and departures are left unrecorded in all the colonies. The omission of births would obviously cause the apparent population to be less than the actual population, but as the departures omitted generally largely exceed the omitted births, the reverse is almost always the case—the apparent figures over-stating the truth. As Queensland and New Zealand took censuses in 1886, the figures given for those two colonies are not likely to be much out, but the figures for almost all the other colonies are, no doubt, higher than they would prove to be if a census were taken. It may be remarked that the recent censuses of the two colonies just referred to showed the apparent population to exceed the actual by 11,427 in the case of Queensland, and by 7,194 in that of New Zealand.

† Except the few aborigines enumerated in Victoria and New South Wales, Maoris and other aborigines are excluded.
‡ The minus (—) sign indicates decrease.

CONDITIONS OF SALE OF THE RIGHT TO LEASE FOR PASTORAL ALLOTMENTS.

1. The occupation of the pastoral allotments will be offered for sale at the annual rents respectively stated and annexed to the description thereof, and the bidder of the highest sum by way of premium will be declared the purchaser, provided he shall immediately pay down such sum and sign the description hereunto annexed, of the pastoral allotment of the occupation of which he shall have become the purchaser, thereby binding himself to the observance of the above and following conditions; and in default of such payment being immediately made, the pastoral allotment shall again be forthwith put up to auction.

2. The annual rents determined by the Board of Land and Works to be paid in respect of these pastoral allotments will be due and payable by the purchasers, in advance, in two half-yearly instalments, on the 1st January and 1st July in every year, till the termination of the period of occupation so purchased.

The value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., to be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c. The net weight or quantity only will be paid for.

Contractors must provide, without extra charge, whatever labor may be required in the packing of stores.

The prices must be expressed in words as well as in figures, and total amount of tender stated.

Tenders having alterations or erasures therein will not be entertained.

Tenders must be accompanied by the preliminary deposit as shown above in bank notes, or a bank draft in favor of the Secretary of the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

Security will be required either in Government debentures, bank deposit-receipt in favor of the Secretary of the Tender Board, or cash deposit, as the tenderer may elect.

The security is calculated at Ten per cent. upon contracts not exceeding £1,000, and at Five per cent. over that sum; but no deviation will be allowed from the amounts above stated.

The security must be completed and contract signed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

Persons failing to take up their contracts will be disqualified from tendering for Government supplies for a period of twelve months.

Tenders, enclosed in a separate envelope, and having the words "Tender for" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. The Government will not be bound to order from the contractor all the articles enumerated in the schedules, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the quantity stated in the schedules, the contractor will nevertheless be bound to supply the same at contract rates.

2. The supplies are to be according to sample and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. In other cases the supplies are to be the best quality of their several kinds or manufacture. A preference

will, however, be given to goods of Victorian manufacture, provided the quality is equal to the particular manufacture indicated in the schedule.

3. All orders for supplies will emanate from the departments requiring the goods, and be transmitted through the Stores and Transport Department, except in the case of supplies for the Local Military Department, the Naval Forces, the Harbor Department, and for Works and Buildings. From these departments the order will be sent direct to the contractor. All orders must accompany the goods on delivery, otherwise the goods will not be received. Delivery, as a rule, is to be of the full quantity ordered.

4. Supplies ordered for delivery in Melbourne and Williamstown districts are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of these contracts, Melbourne district will include a radius of six miles from the General Post Office; and Williamstown district will include the town of Williamstown, Hobson's Bay, and the River Yarra.

5. Arrangements as to time of delivery and inspection of goods will be made by the officers ordering the goods.

6. Orders must receive prompt execution; and, in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officers named in condition 5, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account.

7. The contractor will be required to furnish his account in the prescribed form simultaneously with delivery of the full quantities of goods ordered, the account being rendered with the order to which it relates. The prices quoted in the orders cannot be increased.

8. The acceptance of the supplies shall be subject to the approval of the officers issuing the orders. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof in writing to the officer rejecting the goods.

9. Delivery will not be deemed to have been made until the goods have been approved of. All articles rejected must be immediately replaced by the contractor, otherwise purchases will be effected at the contractor's risk, and the extra expense deducted as in condition 6.

10. The members of boards of survey will be appointed by the Treasurer of the colony for the time being, and the decision of the board is to be considered as final. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in condition 6.

11. A repetition of irregularity in the quantity or quality of the supplies, or of delay in delivering or replacing them when required, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds, as the said Treasurer may direct, and the amount may be deducted as in condition 6, or from the contractor's security. It will also be in the power of the said Treasurer, upon such repetition, to terminate the contract forthwith.

12. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

13. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognised by the Government.

14. It will be competent either for the contractor on his own behalf, or for the Secretary of the Tender Board on behalf of the Government, to terminate the contract, by giving notice, in writing, of three full calendar months to the opposite party, it being understood that such notice can only be given from the first day of the month, and within the period for which the contract is made, and under no other circumstances will a contractor be permitted to abandon his contract.

15. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts or purchases made by the Imperial Commissariat or the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Departments of Public Works and Defence, or on account of other Governments, or for the Telegraph or Railway Departments, or for Rabbit Extirpation, or for supplies to the Aborigines; or by any article being made at and supplied for the use of any Government establishment; or by the consumption of the surplus stock of any Government establishment.

16. In the event of any alteration in the tariff affecting any of the items included in these contracts, the Government, or the contractor, as may be the case, will make a proportionate allowance by way of deduction from or increase of the price of the item so affected.

D. GILLIES,
Treasurer.

9. In the event of it being found necessary, from any cause, to absolutely cancel a contract, the Postmaster-General shall have full power to do so, provided that, unless the contract be cancelled on account of any fault on the part of the contractor, or on account of the opening of a railway line or a new railway station, payment shall be made to the contractor as compensation of a sum equal to ten per cent. of the moneys which would have become due on the unexpired period of the contract if the latter had been continued for the full term of three years.

10. Tenderers are requested to state the mode by which they propose to convey mails, whether by vehicle, on horseback, or by man on foot. If by vehicle, the description of vehicle and number of horses by which it is to be drawn to be given.

Packets up to 3 lbs. in weight will be conveyed by horseback services as at present.

15. The contractor shall not be entitled to claim any extra payment on account of the removal of any post office during the term of his contract, unless such removal shall increase the distance to be travelled by such contractor on any one day to the extent of one mile.

16. The general conditions referred to in the printed form of tender, and upon which the tender is to be made, can be inspected by persons proposing to tender, either at the General Post Office or at any post office in the colony.

Every license granted under section 119 of *The Land Act 1884* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under sections 3 and 4 of *The Rabbit Suppression Act Amendment Act 1884*, all licensees under the section for which these licenses will issue are liable for the destruction of rabbits within the boundaries of their licenses.

Conditions:

1. The issue of this license shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of *The Land Act 1884*, except under the 119th section thereof, under which the license is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of *The Land Act 1884*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his license fee paid by him as the responsible Minister of the Crown for the time being administering Part XI. of *The Land Act 1884* may think fit. This license is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

2A. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the license has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and, immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same without the permission or sanction of the licensee, or any one claiming under her, him, or them.

3. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this license shall be deemed within its operation.

4. This license entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

5. If the licensee desire a renewal of this license, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

6. The interest in this license may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

7. No claim whatever shall be made or entertained by reason of the license not being renewed or transferred.

8. This license is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

9. This license may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

10. The publication of a notice in the *Government Gazette* purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this license shall be conclusive evidence that the license is forfeited.
