AUSTRALIA—SOUTH-WEST COAST—HAMELIN BAY.

THE following information has been received from Staff Commander J. E. Coghlan, R.N., in charge of the Admiralty Survey of Western Australia, the result of a recent examination of Hamelin Bay on the south-west coast of Australia:—

[All bearing are magnetic. Variation 5° 50' westerly in 1887.]

SOUTH ROCK.—A depth of only 13 feet (instead of 18 feet) has recently been found on this danger, which lies in the fairway of Hamelin Bay.

A black buoy with red staff and ball has been moored over South Rock, with the following marks:—Knobby Head (north extreme of Cape Hamelin) in line with east extreme of Peak Island, south; Mushroom Rock in line with cranes on inner end of jetty, S. by E. ¼ E.; and Edith Ledge summit W. by N.

White Cliff Point in line with east end of Peak Island S.S.E., leads westward of South Rock, and is a good leading mark into Hamelin Bay from the northward.

Moorings.—Heavy moorings (2½-ton anchors and 2½-inch chains) have been laid down by Messrs. Davies and Co. for the convenience and safety of vessels calling at the bay. The outer moorings, in 6 fathoms, are distant 2½ cables northward from Peak Island, with the east extreme of Hamelin Island in line with the west extreme of Peak Island, S.S.W. ¼ W. Similar moorings have been laid down in the Inner Harbor (southward of Peak Island).

Jetty has been lengthened to 1,800 feet, enabling vessels using the inner moorings to haul alongside.

Beacons have been erected on Hamelin Island to guide vessels into the Inner Harbor. The front beacon is painted white and the back one red, with triangular heads 16 feet above the ground, and when in line bear S. 51° W. and N. 51° E.

Inner Harbor.—Owing to the heavy moorings and other improvements Inner Harbor may be considered a secure haven for vessels of less than 15 feet draught. In addition to the beacons on Hamelin Island the channel into the harbor from the northward is also marked by black buoys. Sailing vessels from the southward making use of the Inner Harbor are recommended to pass through Lisle Channel (between Old Man Rock and Edith Ledge) and to anchor in 5 fathoms abreast of the outer moorings, with the beacons on Hamelin Island in line (S. 51° W.), when the pilot attached to Messrs. Davies and Co.'s Timber Station will board them.

**The Victorian Water Conservation Acts 1881-85.
 WIMMERA UNITED WATERWORKS TRUST.**

THE Commissioners of the Wimmera United Waterworks Trust, in pursuance of the powers conferred by section 20 of *The Victorian Water Conservation Act 1884*, do make the following Regulation:—

No. 9.—REGULATION FOR DETERMINING RATES

To be paid for Supply of Water for other than domestic use, for preventing Waste of Water, and for other purposes in connection with water supply in urban districts situated within the Wimmera United Waterworks District.

1. A supply of water for domestic purposes shall not include a supply of water to any livery or carriers' stables or troughs, or a supply for steam boilers or for any manufacturing purpose, or for irrigation (which shall mean any mechanical or artificial contrivance for conveying water to the roots of plants without labor), or for water power, or for fountains, or for any ornamental purpose. No hose or pipe is to be applied to any pipes or taps for the purpose of watering the ground, or trees, or plants, or washing the house walls or carriage, or for any similar purpose, unless the water is charged by meter. Syphon pumps will not be allowed unless the water is supplied by measure.

2. The charges for water supplied by measure, except in cases of special agreement with the Trust, shall be at the rate of Two shillings per thousand gallons; and the minimum quantity of water to be charged for to all owners or occupiers of gardens.

and lawns or other lands where water is supplied by the Trust for the purpose of irrigation or for ornamental purposes shall be as follows:—

- (a.) One-sixteenth of an acre and less, per annum, 8,000 gallons.
- (b.) Exceeding one-sixteenth of an acre but not exceeding one-eighth of an acre, per annum, 12,000 gallons.
- (c.) Exceeding one-eighth of an acre but not exceeding one quarter of an acre, per annum, 16,000 gallons.
- (d.) Exceeding one quarter of an acre but not exceeding half an acre, per annum, 23,000 gallons.
- (e.) Exceeding half an acre but not exceeding one acre, per annum, 40,000 gallons.
- (f.) And at the rate of 40,000 gallons per acre for every additional acre, and proportionately according to the foregoing scale for every fractional part of an acre.
- (g.) In livery and carriers' stables supplied by the Trust with water by measurement, the minimum quantity to be charged for shall be 2,000 gallons per stall used for stabling horses. In open sheds used for the above purposes, each space of 5 feet shall be charged for as a stall.
3. The minimum quantity of water to be charged for in each case, except in the cases of special agreement with the Trust where water is supplied by measure, shall be the quantity for which the charge at Two shillings per thousand gallons would be equal to the amount of the assessed water-rate if water was supplied otherwise than by measure.
4. The charges for water supplied under special agreement or by meter or measure shall be paid monthly, or as may be agreed upon.
5. Any person receiving water from the Trust who shall take and carry away such water from his premises, or who shall allow any person to take or carry away such water, or shall sell the same to any other person, shall be liable to a penalty not exceeding Five pounds.
6. Any person not having agreed to be supplied by the Trust, and who shall not be rated or liable to be rated for water in respect of property situated in any urban district, who shall take or carry away water from any private or public service-pipe shall be liable to a penalty not exceeding Five pounds.
7. The commissioners may, if they see fit, allow persons not residing within any urban district to have water from any public service-pipe in such urban district at the rate of One shilling and sixpence for each tank of four hundred gallons or for any less quantity.
8. The Trust may cause a meter or meters to be affixed in any case where they may consider it necessary; such meter or meters to be provided and fixed at the expense of the consumer, and the water supplied to be charged for by measurement at the aforesaid rate. No meter shall be affixed unless the dial on the same is capable of registering One million gallons.
9. No person shall lay any pipe to communicate with the pipes of the Trust without giving two days' notice of the day and hour when such pipe is intended to be made to communicate with the pipes of the Trust, nor shall make any such communication except under the superintendence and according to the directions of a duly authorized officer of the Trust appointed for the purpose; and any person committing a breach of this regulation shall be liable to a penalty not exceeding Five pounds for every such breach.
10. The Trust may contract with any owner or occupier of any lands or tenements, who is entitled to be supplied with water from its works, or who is desirous of being supplied, for the provision and laying of a service-pipe from the pipes of the Trust to the boundary of such land or tenement abutting upon the street or road in which are pipes of the Trust.
11. No person supplied with water by the Trust shall wilfully or negligently allow the same to run to waste, and any person committing a breach of this regulation shall be liable to a penalty not exceeding Five pounds for such breach.
12. No person shall connect any service-pipe or branch service-pipe with any steam boiler for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, under a penalty of Five pounds, and, in the event of continuing the offence, to a penalty of Two pounds for each day after notice from the Trust.
13. Overflow-pipes to private baths will not be permitted.
14. No person shall affix any service-pipe to any pipe of the Trust, or alter, or repair, or in any manner interfere with any pipe of the Trust, or any service-pipe, cock, or fitting connected with the pipes of the Trust, until he shall have obtained from the Trust a license in that behalf to execute such works. And any unlicensed person affixing, altering, or repairing, or in any manner interfering with any such pipe, service-pipe, cock, or fitting aforesaid, shall be liable to a penalty not exceeding Ten pounds.
15. Before any such license shall be granted by the Trust, the person applying for the same shall satisfy the Trust that he is a competent plumber. The Trust shall have the power of cancelling such license at any time.
16. Any person, whether licensed or not, who shall offend by opening any ground, so as to uncover any pipe or pipes the property of the Trust, without giving two days' notice to the Trust of his intention so to do, or who shall in any way tamper with or alter any pipe the property of the Trust, without the permission of the Trust, in writing, being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe, work, or engine, the property of the Trust, shall be liable for each such offence to a penalty not exceeding Twenty pounds.
17. If any person shall neglect to repair any service-pipe conveying water from the pipes of the Trust into the premises of such person, after having received notice from any officer of the Trust that such service-pipe requires repairing, the Trust may stop the

water from flowing into such premises, either by cutting off the service-pipe or otherwise as to the Trust may seem fit, unless the necessary repair shall have been effected. The service-pipes from the main being the property of the owners or occupiers of the tenements supplied by such service-pipes, the occupier, if any, and if none, the owner, shall, in every instance in which any damage shall be caused by reason of such service-pipe being leaky, or otherwise out of repair or broken, be liable to a penalty not exceeding Five pounds, and in the event of continuing the offence to a further penalty of Two pounds for each day after notice of the offence from the Trust.

18. Before any licensed person shall break up any footpath for the purpose of laying on water from the main to any house or premises, he shall deposit with the Trust the sum of Two pounds, and in case he shall not, immediately after laying on the water as aforesaid, make good and restore the said footpath to the satisfaction of the Trust, then the said sum of Two pounds shall be absolutely forfeited to the Trust, which shall be at liberty to expend the same in making good and restoring the said footpath or otherwise as to the Trust may seem best.

19. Any person watering any street or footpath by means of a hose, except under the direction of the officers of the Trust, shall be liable to a penalty of Two pounds for each offence.

20. If any person supplied with water by the Trust does, or causes or permits to be done, anything in contravention of these regulations, or fails to pay his rates or any lawful charge imposed by the Trust when due, or fails to do anything which under any of these regulations ought to be done, or wilfully or negligently allows water to run to waste, the Trust may cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied, or otherwise, and may cease to supply him with water so long as the cause of complaint remains, or is not remedied.

21. The water supplied in the waterworks district of the Trust shall be received and consumed under and in accordance with these regulations, and not otherwise, through pipes and meter, laid, placed, and being in accordance with the said regulations, and not otherwise.

22. In the construction of these regulations the word "Trust" shall mean "The Wimmera United Waterworks Trust."

Security will be required either in Government debentures, bank deposit-receipt in favor of the Deputy Postmaster-General, or cash deposit, as the tenderer may elect.

Tenders must be accompanied by bank notes, or a bank draft in favor of the Deputy Postmaster-General, for the amount of the deposit required (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security will be calculated at ten per cent. on the total amount of contract.

The security must be completed within ten days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

In the event of the contractor failing to carry out the contract, the contract security money will in that case be absolutely forfeited.

The Government will not necessarily accept the lowest or any tender.

Persons failing to take up their contracts will be disqualified from tendering for Government supplies for a period of twelve months.

Tenders to be endorsed "Tender for _____" (as the case may be), and deposited in the Tender Box, General Post Office; or, if sent by post, to be addressed (prepaid) to the Honorable the Postmaster-General, Melbourne.

CONDITIONS OF CONTRACT.

1. The Postmaster-General will not be bound to issue orders upon the contractors for all the articles enumerated in the schedules, but only for such articles, and such quantities of those articles, as the Postmaster-General may order from time to time; neither will the Postmaster-General be bound to take from the contractors any larger supply of any of the articles than may be shown upon the orders which have been issued during the year, nor will he be bound to take any of the articles enumerated in the schedules for which orders have not been issued. Should the Postmaster-General require a larger supply of any article than the quantity stated in the schedules, the contractor will be bound to supply the same at the contract rate.

2. The supplies are to be according to sample, and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. In other cases, the supplies are to be the best quality of their several kinds of manufacture. A preference will, however, be given to goods of Victorian manufacture, provided the quality be equal to the particular manufacture indicated in the schedule.

3. All orders must accompany the goods on delivery, otherwise the goods will not be received. Delivery, as a rule, is to be of the full quantity ordered.

4. Supplies ordered for delivery in Melbourne and Williamstown districts are to be delivered free of all charges (whether cartage, freight, &c.), and for the purposes of these contracts, Melbourne district will include a radius of six miles from the General Post Office; and Williamstown district will include the town of Williamstown, Hobson's Bay, and the River Yarra.

5. Arrangements as to time of delivery and inspection of goods will be made by the Supervisor of Maintenance, General Post Office.

6. Orders must receive prompt execution; and in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent

for the officer named in condition 5, or the head of the department, on giving the contractor twenty-four hours' notice, to purchase the supplies at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account.

7. The contractor will be required to furnish his account in the prescribed form simultaneously with delivery of the full quantities of goods ordered, the account being rendered with order to which it relates. The prices quoted in the orders cannot be increased.

8. The acceptance of the supplies shall be subject to the approval of the officer named in condition 5. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof in writing to the officer rejecting the goods.

9. Delivery will not be deemed to have been made until the goods have been approved of. All articles rejected must be immediately replaced by the contractor, otherwise purchases will be effected at the contractor's risk, and the extra expense deducted as in condition 6.

10. The members of boards of survey will be appointed by the Government, and the decision of the board is to be considered as final. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in condition 6.

11. A repetition of irregularity in the quantity or quality of the supplies, or of a delay in delivering or replacing them when required, will subject the contractor, upon report, to such mulct, not exceeding Fifty pounds, as the Postmaster-General may direct, and the amount may be deducted as in condition 6, or from the contractor's security. It will also be in the power of the Postmaster-General, upon such repetition, to terminate the contract forthwith.

12. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise, and no such transfer will be recognised.

13. It will be competent either for the contractor on his own behalf, or for the Postmaster-General, to terminate the contract, by giving notice, in writing, of three full calendar months to the opposite party, it being understood that such notice can only be given from the first day of a month, and within the period for which the contract is made.

14. In the event of any alteration in the tariff affecting any of the items included in these contracts, the Postmaster-General, or the contractor, as the case may be, will make a proportionate allowance by way of deduction from, or increase to, the price of the item so affected.

15. The contracts entered into under this notice are not to be considered as being broken, infringed, or violated by the importation of stores for the Electric Telegraph Service, or by any contracts made by the Imperial Commissariat or the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of Public Works, or the Tender Board, or on account of other Governments; or by any article being made at, and supplied for the use of, any Government establishment; or by the consumption of the surplus stock of any Government establishment.

CONVEYANCE OF MAILS, 1887-88-89-90.

FOURTH DIVISION.—176 SERVICES, INCLUDING SOME SERVICES RE-ADVERTISED.

TENDERS are hereby invited, and will be received until Noon on Tuesday the 17th day of May 1887, for the Conveyance of Post Office Mails, viz., Letters, Packets, Parcels, and Newspapers, as undermentioned, FOR THREE YEARS, from the 1st July 1887 to 30th June 1890.

1. Tenders are required to be written on a form, printed copies of which may be had gratuitously on application at any post office in the colony, and are to be forwarded (if by post, PREPAID AND REGISTERED) for receipt at the General Post Office by the hour and date first above mentioned, addressed to the Honorable the Postmaster-General, with the words "Tender for Mail Service No. " endorsed on the cover, or placed in the tender-box at the General Post Office.

2. Tenderers are requested to describe by their numbers, as below, the mail services for which they tender.

3. The amount of the tender must be stated AT RATE PER ANNUM in words as well as figures.

4. Every tender must bear the *bona fide* signature and address of the tenderer, and bear the names of two responsible persons willing to become bound for the fulfilment of the contract in such sum as the Government may direct, not exceeding the gross amount of the contract.

5. Every tender must be accompanied by cash, marked cheque, bank draft, or a bank deposit-receipt to the credit of the Deputy Postmaster-General for a sum equal to TEN PER CENT. of the annual amount named in the tender; this deposit to be absolutely forfeited to the Government in case the per-

son whose tender may be accepted shall fail to complete the usual bond and contract to the satisfaction of the Government within ten days of being notified that the documents are ready for execution. The notice of acceptance, if delivered at the address named in the tender, shall be deemed sufficient.

6. The money or other security deposited by successful tenderers will be returned to them upon application, on the bond and contract being duly signed.

7. The money or other security deposited by unsuccessful tenderers will be returned to them upon application, and on their signing receipts for the respective amounts.

8. In the event of a new line of railway, or a new railway station on an existing line being opened for traffic, and it being decided that the mails shall be conveyed by rail, the Postmaster-General shall have the power of cancelling the contract for any mail service running in the vicinity of the railway without compensation to the contractor, or shall have power to alter the points of arrival and departure of the mails; and in the event of the travelling distance on any mail line being in such manner increased or diminished, all payments for the service subsequent to the alteration shall be computed on the basis of the average mileage-rate of the contract.

9. In the event of it being found necessary, from any cause, to absolutely cancel a contract, the Postmaster-General shall have full power to do so, provided that, unless the contract be cancelled on account of any fault on the part of the contractor, or on account of the opening of a railway line or a new railway station, payment shall be made to the contractor as compensation of a sum equal to ten per cent. of the moneys which would have become due on the unexpired period of the contract if the latter had been continued for the full term of three years.

10. Tenderers are requested to state the mode by which they propose to convey mails, whether by vehicle, on horseback, or by man on foot. If by vehicle, the description of vehicle and number of horses by which it is to be drawn to be given.

11. Tenderers are informed that from the 1st of July this year the Department will, in addition to the carriage of English and Indian parcels as at present, institute a Victorian parcel post system, and undertake to carry parcels up to 7 lbs. in weight by all services for which tenders may be accepted for conveyance of mails by vehicle.

Packets up to 3 lbs. in weight will be conveyed by horseback services as at present.

12. Tenderers for services to and from Post Offices and Railway Stations are required to name a lump sum per annum for the number of trips specified in the call for tenders, and also state a rate per trip as a basis of payment for additional trips, or for reduction in the payment, should the number of trips be increased or lessened during the currency of the contract.

A "trip" to mean a journey from the Post Office to the Railway Station, and from the Railway Station to the Post Office, carrying mails each way.

The carriage of mails one way, viz., either from a Post Office to a Railway Station or from a Railway Station to a Post Office, shall be regarded as half a trip, and payment made accordingly. Where tenders are invited for a service to and from a Post Office and Railway Station "as often as required," tenderers are required to name a lump sum per annum for the work, and such sum shall not be liable to alteration either through increase or diminution in the number of trips. Contracts for services to and from Post Offices and Railway Stations are liable to be discontinued at one month's notice from the department.

13. A separate *bona fide* tender must be sent in for each service.

14. The attention of tenderers is drawn to the condition which requires that in cases where vehicles are used, Members of Parliament shall be conveyed free of charge between the districts they represent and the districts in which they reside and Melbourne.

15. The contractor shall not be entitled to claim any extra payment on account of the removal of any post office during the term of his contract, unless such removal shall increase the distance to be travelled by such contractor on any one day to the extent of one mile.

16. The general conditions referred to in the printed form of tender, and upon which the tender is to be made, can be inspected by persons proposing to tender, either at the General Post Office or at any post office in the colony.

17. The Government will not necessarily accept the lowest or any tender.

CONVEYANCE OF MAILS, 1887-88-89-90.

FIFTH DIVISION.—37 SERVICES.

TENDERS are hereby invited, and will be received until Noon on Tuesday the 31st day of May 1887, for the Conveyance of Post Office Mails, *viz.*, Letters, Packets, Parcels, and Newspapers, as undermentioned, for THREE YEARS, from the 1st July 1887 to 30th June 1890.

1. Tenders are required to be written on a form, printed copies of which may be had gratuitously on application at any post office in the colony, and are to be forwarded (if by post, PREPAID AND REGISTERED) for receipt at the General Post Office by the hour and date first above mentioned, addressed to the Honorable the Postmaster-General, with the words "Tender for Mail Service No. " endorsed on the cover, or placed in the tender-box at the General Post Office.

2. Tenderers are requested to describe by their numbers, as below, the mail services for which they tender.

3. The amount of the tender must be stated AT RATE PER ANNUM in words as well as figures.

4. Every tender must bear the *bonâ fide* signature and address of the tenderer, and bear the names of two responsible persons willing to become bound for the fulfilment of the contract in such sum as the Government may direct, not exceeding the gross amount of the contract.

5. Every tender must be accompanied by cash, marked cheque, bank draft, or a bank deposit-receipt to the credit of the Deputy Postmaster-General for a sum equal to TEN PER CENT. of the annual amount named in the tender; this deposit to be absolutely forfeited to the Government in case the person whose tender may be accepted shall fail to complete the usual bond and contract to the satisfaction of the Government within ten days of being notified that the documents are ready for execution. The notice of acceptance, if delivered at the address named in the tender, shall be deemed sufficient.

6. The money or other security deposited by successful tenderers will be returned to them upon application, on the bond and contract being duly signed.

7. The money or other security deposited by unsuccessful tenderers will be returned to them upon application, and on their signing receipts for the respective amounts.

8. In the event of a new line of railway, or a new railway station on an existing line being opened for traffic, and it being decided that the mails shall be conveyed by rail, the Postmaster-General shall have the power of cancelling the contract for any mail service running in the vicinity of the railway without compensation to the contractor, or shall have power to alter the points of arrival and departure of the mails; and in the event of the travelling distance on any mail line being in such manner increased or diminished, all payments for the service subsequent to the alteration shall be computed on the basis of the average mileage-rate of the contract.

9. In the event of it being found necessary, from any cause, to absolutely cancel a contract, the Postmaster-General shall have full power to do so, provided that, unless the contract be cancelled on account of any fault on the part of the contractor, or on account of the opening of a railway line or a new railway station, payment shall be made to the contractor as compensation of a sum equal to ten per cent. of the moneys which would have become due on the unexpired period of the contract if the latter had been continued for the full term of three years.

10. Tenderers are requested to state the mode by which they propose to convey mails, whether by vehicle, on horseback, or by man on foot. If by vehicle, the description of vehicle and number of horses by which it is to be drawn to be given.

11. Tenderers are informed that from the 1st of July this year the Department will, in addition to the carriage of English and Indian parcels as at present, institute a Victorian parcel post system, and undertake to carry parcels up to 7 lbs. in weight by all services for which tenders may be accepted for conveyance of mails by vehicle.

Packets up to 3 lbs. in weight will be conveyed by horseback services as at present.

12. Tenderers for services to and from Post Offices and Railway Stations are required to name a lump sum per annum for the number of trips specified in the call for tenders, and also state a rate per trip as a basis of payment for additional trips, or for reduction in the payment, should the number of trips be increased or lessened during the currency of the contract.

A "trip" to mean a journey from the Post Office to the Railway Station, and from the Railway Station to the Post Office, *carrying mails each way.*

The carriage of mails one way, *viz.*, either from a Post Office to a Railway Station, or from a Railway Station to a Post Office, shall be regarded as half a trip, and payment made accordingly. Where tenders are invited for a service to and from a Post Office and Railway Station "as often as required," tenderers are required to name a lump sum per annum for the work, and such sum shall not be liable to alteration either through increase or diminution in the number of trips. Contracts for services to and from Post Offices and Railway Stations are liable to be discontinued at one month's notice from the department.

13. A separate *bonâ fide* tender must be sent in for each service.

14. The attention of tenderers is drawn to the condition which requires that, in cases where vehicles are used, Members of Parliament shall be conveyed free of charge between the districts they represent and the districts in which they reside and Melbourne.

15. The contractor shall not be entitled to claim any extra payment on account of the removal of any post office during the term of his contract, unless such removal shall increase the distance to be travelled by such contractor on any one day to the extent of one mile.

16. The general conditions referred to in the printed form of tender, and upon which the tender is to be made, can be inspected by persons proposing to tender, either at the General Post Office or at any post office in the colony.
