BEACONS TO CLEAR TORY SHOAL, KAIPARA HARBOUR.

REFERRING to Notice to Mariners No. 18 of 1889, notice is hereby given that two beacons have been erected on the low sandhills seaward of the lighthouse at the north side of the entrance to Kaipara Harbour.

These beacons are 25 feet high, painted white, and are 390 yards apart, and distant from the lighthouse about $1\frac{1}{2}$ miles, the lower one being on the following bearings:—From the lighthouse, S.W. by W.; from Puketū, N.W. $\frac{1}{2}$ W. These two beacons, kept in one, lead clear of Tory Shoal on a N.E. $\frac{1}{2}$ N. and S.W. $\frac{1}{2}$ S. course, and also over the bar; but, on account of the distance of the bar from the beacons, their being seen from thence cannot always be depended on, and therefore the beacons erected on the high land at the back of the lighthouse must be depended on, as before, for crossing the bar.

Vessels bound in, after passing Tory Shoal, should haul more to the eastward, to avoid getting too near the northern shore, as both flood and ebb have a tendency to set vessels on to it.

A look-out should be kept for any signal shown from the Semaphore Station on the hill.

All bearings are magnetic.

materials for wire-netting, or other rabbit-proof, or vermin-proof fencing, to be supplied to owners of land in special areas constituted under the said Act: "And whereas the Council of the Shire of Dimboola has received petitions signed by a majority in number of the owners of land in the special area (the petitioners owning more than one-half of the land in such area), describing the special area for which the petitioners desire a loan to be obtained by the shire, which petitions contain statements of the acreage of the whole of such special area, and of the acreage owned by each and every owner of every part thereof, with a short description of the land owned by each petitioner, and of the acreage thereof, and gives an estimate of the probable cost of the whole of the materials for wire-netting or other rabbit-proof or vermin-proof fencing required for the land in such area, and asks that the said shire council will apply to the Governor in Council for a loan of the amount of such estimate; and gives an estimate of the materials required for each petitioner's land, and the probable cost of such material, and an estimate of the extent of fencing to be erected by each owner, and states that in such special area adjoining properties could advantageously be enclosed by one continuous wire-netting fence; "and states in each case the estimated cost of such continuous fence, and the proportions thereof to be borne by every owner of property to be enclosed by such fence"; and states that each petitioner signing the petitions undertakes to pay to the council in each and every year one-tenth part of his proportion of the value of all materials for wire-netting fencing which the council may obtain by means of the loan proposed to be obtained from the Governor in Council, and that such undertaking as between each petitioner, or the owner for the time being of the land of such petitioner, or any part thereof, and the said shire council is to be deemed to be and may be enforced as a specialty contract, and states that each petitioner undertakes to erect on his land, with the materials with which he may be furnished, wire-netting fencing to the satisfaction of the said council, or that he will join with other owners in erecting all necessary fencing: And whereas every signature to such petition is verified by the solemn declaration of a person signing such petitions, which declaration is in the form or to the effect in the Eighth Schedule to the said Act.

And whereas the said shire council has considered the prayer of such petitions, and has determined to apply for a loan from the Governor in Council in accordance therewith, and has transmitted to the Minister the said petitions, accompanied by an application under seal on behalf of the said shire for a loan of Four thousand one hundred and ninety-one pounds five shillings in the terms therein stated, which said application contains an undertaking by the said shire to repay such loan, in accordance with the provisions of the said recited Act, and of any Order in Council granting such loan: Now therefore His Excellency the Governor, with the advice of the Executive Council, doth hereby order that the sum of Four thousand one hundred and ninety-one pounds five shillings, being a part of the amount applied for by the said shire council in the application hereinbefore referred to, be granted out of the moneys provided by Parliament as a loan to the said Shire of Dimboola for the purposes of Part II. of the said *The Vermin Destruction Act 1887*.

That the said sum of Four thousand one hundred and ninety-one pounds five shillings be paid to the council in one instalment of Four thousand one hundred and ninety-one pounds five shillings.

That the proportion of the said sum of Four thousand one hundred and ninety-one pounds five shillings to be paid by each and every owner of land within the special area to the said shire council is that set out in the schedule hereunder.

That the said sum of Four thousand one hundred and ninety-one pounds five shillings be repaid by the council of the said shire to the Secretary for Lands for the time being, within ten years, by annual instalments of not less than Four hundred and nineteen pounds two shillings and sixpence each, the first of such payments to be made on or before the thirty-first day of May, 1891, and a further instalment of not less than Four hundred and nineteen pounds two shillings and sixpence on or before the thirty-first day of May in each and every succeeding year until the whole sum of Four thousand one hundred and ninety-one pounds five shillings is repaid.

Security will be required in cash, Government debentures, or bank deposit-receipt in favour of the Secretary, Tender Board.

The security is calculated at Ten per cent. upon contracts not exceeding £1,000, and at Five per cent. over that sum, but no deviation will be allowed from the amounts above stated.

Tenders must be accompanied by the preliminary deposit above mentioned in bank notes or a bank draft payable to the order of the Secretary of the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed and contract signed within ten days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

Tenders must express the prices in words as well as in figures, and without alterations or erasures.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in a separate envelope, and having the words "Tender for House and Smiths' Coal and Coke at —" written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. The house coal must be the best of its kind, free from shale, small coal, dust, or other impurities. The smiths' coal must be free from dust, ashes, shale, or other impurities.

2. The orders will be issued by the departments requiring the supplies; and the requirements shall be delivered as may be directed by the officer issuing the order. At the time of delivering the supplies, the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the supplies accepted and shall return the order to the contractor. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery, or such other officer as shall be named in the conditions. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such supplies may be returned to the contractor. In case of the rejection or return of any supplies the contractor shall bear the whole cost of replacing the supplies so rejected or returned. Should an order not be complied with within forty-eight hours, it will be competent for the department concerned to purchase at the contractor's risk, and to deduct from the contractor's account or the security money the extra expense (if any) over and above the contract price.

3. The contractor will be bound to weigh the coal on delivery at such establishments as are provided with weighbridges. In other cases the tickets of the public weighbridges are to be accepted as the weight to be charged for. Coal to be delivered in the places set apart therefor.

4. As soon as the orders shall have been completed, the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.

5. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered final.

6. If the board shall decide that the article is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted from the contractor's account or the security money.

7. If from any cause injury would accrue to the public service by waiting for a board of survey, the head of the department, or officer in charge of station, will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected article, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged, as in condition 6.

8. A refusal to execute orders, or a repetition of irregularity in the quality or quantity of the supplies, or of delay in delivering or replacing them when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the colony for the time being may direct, and the amount may be deducted as in condition 6. It will also be in the power of the said Treasurer, upon such refusal or repetition, to terminate the contract forthwith and forfeit the whole or any portion of the security money.

9. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

10. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

11. In the event of a general strike occurring at the collieries, or in the event of war breaking out between Great Britain and any other large maritime power, any contract entered into under these conditions after the expiry of one calendar month from notice being given may be suspended, such contract to come into full force and effect again ten (10) days after such cause of suspension shall be discontinued.

12. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by the purchase of coal by the Victorian Government from any mine or mines within the colony of Victoria for any of the Departments of the Public Service.

13. In the event of any alteration in the tariff affecting any of the items included in these contracts, the Government will neither claim any decrease upon the contract price, nor entertain any application from a contractor for any increase to it.

D. GILLIES,
Treasurer.

10. In the event of the officer ordering the coal not requiring the same to be put into the ship's bunkers, as required by condition No. 7, a rebate of 1s. per ton to be made by the contractor.

11. In the event of a difference of opinion between the contractor and the officer receiving the supply as to the quality, the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

12. If the board of survey shall decide that the coal is of inferior quality, the delay in delivering the quality specified in condition No. 1 will subject the contractor to a mulct assessed according to the actual loss sustained by such delay, and it will also be in the power of the Treasurer of the colony for the time being to terminate the contract forthwith and forfeit the whole or any portion of the security money.

13. Steam vessels are to be supplied with coal on demand. No more delay will be allowed than is sufficient to give the necessary orders and get the hulk or vessel alongside. Bad weather to be the only excuse. When there is not a necessity for an immediate supply, a day's notice will be given.

14. As soon as the orders shall have been completed, the contractor will be required to furnish to the department supplied his accounts in the prescribed form, with the receipted delivery orders attached thereto.

15. A refusal to execute orders, or repetition of irregularity in the quality or quantity of the supplies, or in delay of delivering or replacing them when required, will subject the contractor to such mulct, not exceeding £50, as the said Treasurer may direct, such mulct to be deducted from the contractor's account or the security money. It will also be in the power of the Treasurer, upon such refusal or repetition, to terminate the contract forthwith and forfeit the whole or any portion of the security money.

16. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

17. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

18. In the event of a general strike occurring at the collieries, or in the event of war breaking out between Great Britain and any large maritime power, any contract entered into under these conditions after the expiry of one calendar month from notice being given may be suspended, such contract to come into full force and effect again ten (10) days after such cause of suspension shall be discontinued.

19. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of Welsh coal or Westport coal by the Defence Department for the use of torpedo boats, or by the purchase of coal by the Victorian Government from any mine or mines within the colony of Victoria for any of the Departments of the Public Service.

20. In the event of any alteration in the tariff affecting any of the items included in these contracts, the Government will neither claim any decrease upon the contract price, nor entertain any application from a contractor for any increase to it.

1. Tenders are required to be written on a form, printed copies of which may be had gratuitously on application at any post office in the colony, and are to be forwarded (if by post, PREPAID AND REGISTERED) for receipt at the General Post Office by the hour and date first above mentioned, addressed to the Honorable the Postmaster-General, with the words "Tender for Mail Service No. " endorsed on the cover, or placed in the tender-box at the General Post Office.

2. Tenderers are requested to describe by their numbers, as below, the mail services for which they tender.

3. The amount of the tender must be stated AT RATE PER ANNUM in words as well as figures.

4. Every tender must bear the *bona fide* signature and address of the tenderer, and bear the names of two responsible persons willing to become bound for the fulfilment of the contract in such sum as the Government may direct, not exceeding the gross amount of the contract.

5. Every tender must be accompanied by cash, marked cheque, bank draft, or a bank deposit-receipt to the credit of the Deputy Postmaster-General for a sum equal to TEN PER CENT. of the annual amount named in the tender; this deposit to be absolutely forfeited to the Government in case the person whose tender may be accepted shall fail to complete the usual bond and contract to the satisfaction of the Government within ten days of being notified that the documents are ready for execution. The notice of acceptance, if delivered at the address named in the tender, shall be deemed sufficient.

6. The money or other security deposited by successful tenderers will be returned to them upon application, on the bond and contract being duly signed.

7. The money or other security deposited by unsuccessful tenderers will be returned to them upon application, and on their signing receipts for the respective amounts.

8. In the event of a new line of railway, or a new railway station on an existing line being opened for traffic, and it being decided that the mails shall be conveyed by rail, the Postmaster-General shall have the power of cancelling the contract for any mail service running in the vicinity of the railway without compensation to the contractor, or shall have power to alter the points of arrival and departure of the mails; and, in the event of the travelling distance on any mail line being in such manner increased or diminished, all payments for the service subsequent to the alteration shall be computed on the basis of the average mileage-rate of the contract.

9. In the event of it being found necessary, from any cause, to absolutely cancel a contract, the Postmaster-General shall have full power to do so, provided that, unless the contract be cancelled on account of any fault on the part of the contractor, or on account of the opening of a railway line or a new railway station, payment shall be made to the contractor as compensation of a sum equal to ten per cent. of the moneys which would have become due on the unexpired period of the contract if the latter had been continued for the full term of three years.

10. Tenderers are requested to state the mode by which they propose to convey mails, whether by vehicle, on horseback, or by man on foot. If by vehicle, the description of vehicle and number of horses by which it is to be drawn to be given.

A "trip" to mean a journey from the Post Office to the Railway Station, and from the Railway Station to the Post Office, carrying mails each way.

The carriage of mails one way, viz., either from a Post Office to a Railway Station or from a Railway Station to a Post Office, shall be regarded as half a trip, and payment made accordingly. Where tenders are invited for a service to and from a Post Office and Railway Station "as often as required," tenderers are required to name a lump sum per annum for the work, and such sum shall not be liable to alteration either through increase or diminution in the number of trips. Contracts for services to and from Post Offices and Railway Stations are liable to be discontinued at one month's notice from the department.

13. A separate *bona fide* tender must be sent in for each service.

THE President, Councillors, and Ratepayers of the Shire of Yarrowonga, by virtue of the powers and authorities vested in them by the *Local Government Acts 1874 and 1883* and the *Tramways in Country Districts Act 1886*, do hereby make the following General By-laws, numbered "One."

PART I.—For preventing the commission of any nuisance in or upon any carriage, or in or against any premises belonging to them.

PART II.—For regulating the travelling in or upon any carriage belonging to them.

PART III.—For fixing within the limits allowed by the Order authorizing the construction of the tramways, the tolls, and charges payable for using the same.

PARTS I. AND II.

1. *Melbourne time to be observed.*—Melbourne time is to be observed at all stations.

2. *Passengers to have tickets to show, and deliver them up when required.*—No passenger will be allowed to enter any tramway carriage or travel therein unless furnished with a ticket or a free pass entitling him or her to enter or travel therein. Each passenger on paying his or her fare will be furnished with a ticket, and he or she must show it and allow it to be marked when required; and every ticket (whether single, return, or periodical) must be delivered up upon demand of any station-master, guard, porter, ticket collector, or other authorized servant of the council. Any person guilty of a breach of this by-law shall be liable to a penalty not exceeding Five pounds.

3. *Penalty for transferring tickets.*—Tickets are the property of the council, and are not transferable. A ticket can only be used by the person to whom it may be issued. Any person using or attempting to use a transferred ticket shall be liable to a penalty not exceeding Five pounds.

4. *Punishment for attempting to defraud.*—Any person using or attempting to use a ticket on any day, or to and from any place for which such ticket is not available, or altering a ticket or travelling upon a ticket which is not sufficient for a journey, or travelling on a ticket which was previously used and was not available for the journey then taken, shall be liable to a penalty not exceeding Twenty pounds.

5. *Travelling in a superior class than warranted by ticket punishable.*—Any person travelling in a tramway carriage of a superior class to that for which his or her ticket was issued shall be liable to a penalty not exceeding Ten pounds, and in addition be liable to pay the extra fare according to the class of carriage in which he or she was travelling.

6. *Getting into or quitting carriage when train is in motion.*—Any person, except the servants of the council, who shall attempt to get into or upon or quit any tramway carriage when the train of which the carriage forms part is in motion, shall be liable to a penalty not exceeding Ten pounds.

7. *Tickets available only at certain stations.*—Tickets shall be available and shall be used by passengers only to convey them to the stations named thereon, or to any station short of such destination. Any person using or attempting to use a ticket in violation of this by-law shall be liable to a penalty not exceeding Five pounds.

8. *Penalty for defacing tickets.*—No tickets will be recognised by any officer or servant of the council unless the number, date, and names of the stations printed on such tickets are perfectly legible. The holder of any ticket which may be defaced, or rendered

illegible in any of the above particulars, will be regarded as not having paid his fare, and will be liable to a penalty not exceeding Five pounds.

31. *Punishment for driving diseased cattle on tramway premises.*—No person shall knowingly, willingly, or negligently drive or attempt to drive, or allow to stray into any tramway station, yard, or premises, or upon any lands, or within any tramway fences, any sheep, cattle, horses, or live stock, having or suffering from any disease whatsoever; and any person committing a breach of this by-law shall be liable to a penalty for every such offence not exceeding Twenty pounds.

32. *Council not required to carry diseased cattle or sheep.*—No sheep, cattle, horses, or live stock which in the judgment of the council, its officers or servants, may be infected with any disease shall be carried on any tramway, and the council, its officers or servants, may refuse to take any sheep, cattle, horses, or live stock suspected by them to be diseased. 36. *Council not responsible for articles left by passengers at station, &c.*—The council will not be responsible for articles left by passengers at any station unless the same be duly registered, for which a charge per article will be made and a ticket given, and no article will be given up without the production of such ticket or satisfactory evidence of ownership and the loss of such ticket. The article will be delivered to the bearer of the ticket unless notice to the contrary be given by the owner.

37. *Live stock to be removed immediately.*—All live stock must be removed from the tramway premises immediately after the arrival of the train, or if left they will remain at the owner's risk and expense, and may be sent to agistment or livery, the cost of which shall be paid by the owner, and such cost must be paid on demand as part of the authorized charges, and such stock if not removed within seven days may be sold by auction by the council, and the proceeds thereof applied in payment of all expenses incurred, and the balance thereof handed over to the owner.
