SHEPPARTON WATER TRUST.

REGULATION No. 13.

THE Chairman and Commissioners of the Shepparton Water Trust, in pursuance of the powers conferred by the *Water Act 1890*, do make the following Regulation:—

1. This regulation shall apply to the urban district of Numurkah, as such district is proclaimed and defined in a certain Order in Council bearing date the 23rd June, 1890.

2. For water supplied by the Trust by measurement (except in cases of special agreement with the Trust) a charge of One shilling and sixpence for every one thousand (1,000) gallons shall be made.

3. For a temporary supply during the erection of new buildings, Ten shillings per cent. on the amount of contract and extras for brickwork, stonework, and plastering.

4. All charges for water supplied under this regulation shall be paid half-yearly, or as may be agreed upon.

5. The minimum quantity of water to be charged for per half-year to the various owners or occupiers hereinafter mentioned, shall be as follows:—

In respect of steam-boilers—for each inch of the diameter of the largest cylinder, 4,000 gallons.

In respect of livery and carriers' stables—for each stall, 1,000 gallons.

In all other cases the minimum shall be a quantity which, at One shilling and sixpence per one thousand (1,000) gallons, equals the amount of the assessed rate which would be payable for the premises so supplied if supplied otherwise than by measure.

6. The Trust may, by notice in writing, intimate to any owner or occupier using water for other than domestic purposes solely, that the water supplied is to be charged for by measure, and may by such notice require such owner or occupier to provide a meter within one month after the receipt of such notice, and thereupon such owner or occupier shall, within the time specified, at his own expense, provide a meter.

7. Such meter shall be submitted to and examined by the authorized officer of the Trust, who, if he shall find the same correct and in proper working order, shall give his certificate to that effect, and the meter, when fixed, shall be maintained and kept in proper working order by such person. The meter must be so placed as to be open for inspection, and so as to be protected from injury, and with means of access thereto; the keys of the meter shall be in possession of the Trust. No meter shall be connected with more than one separate and distinct inlet-pipe leading from the service-pipe unless otherwise permitted by order of the Trust.

8. If any meter should cease registering, or be reported by the inspector as out of repair, or registering inaccurately, the Trust shall estimate and charge for the water consumed during the period such meter was not in working order, and until it is repaired and refixed, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year, or the Trust may insert a check-meter on the service-pipe.

9. No meter shall be fixed unless the dial of the same is capable of registering one million (1,000,000) gallons.

10. All service-pipes, with the necessary stop-cocks, shall be supplied and fixed at the cost of the person or persons requiring the same, under the direction and supervision of such officer or servant as the Trust may appoint.

13. The Trust may contract with any owner or occupier of premises, or of any lands or tenements, who is entitled to be supplied with water from its works, or who is desirous of being so supplied, for the provision and laying on of a service-pipe from the pipes of the Trust to the boundaries of such land, premises, or tenements abutting on the street or road in which are the pipes of the Trust.

14. If any person shall waste water of the Trust by neglecting to repair any service-pipe conveying water from the pipes of the Trust into the premises of such person, after having received notice from any officer of the Trust that such service-pipe requires repairing, the Trust may stop the water from flowing into such premises, either by cutting off the service-pipe or otherwise, as to the Trust may seem fit, until the necessary repairs shall have been effected.

15. Any person who, having been served with the notice mentioned in clause 6 of this regulation, shall refuse or neglect to provide a meter within the time in such notice specified, shall be liable to a penalty not exceeding Two pounds for every day after the expiration of the time mentioned in the notice on which he shall still refuse or neglect to comply with the terms of such notice.

16. No person supplied with water by the Trust shall wilfully or negligently allow the same to run to waste.

17. No person shall connect any service-pipe or branch service-pipe with any steam-boiler for the purpose of feeding or supplying the same with water without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter.

18. No pipes shall be affixed to the main pipe, nor to any service-pipe or apparatus connected therewith, nor shall any alteration be made in any existing pipes or apparatus, without notice in writing of the intention so to do being given to the Trust, and the consent of the Trust thereto first had and obtained.

19. All water troughs must be fitted with approved self-acting taps, to prevent overflow.

20. No hose or pipe shall be applied to any pipes or taps for the purpose of watering the ground, or trees, or plants, or washing houses, or walls, carriages, or horses, or for any similar purpose, unless the water is charged for by measure.

21. No person receiving water from the Trust shall take or carry away such water from his premises, nor shall allow any person to take or carry away any such water, nor shall sell the same to any other person.

22. No person shall lay any pipe to communicate with the pipes of the Trust without giving two days' notice of the day and hour when such pipe is intended to be made to communicate with the pipes of the Trust, nor shall make such communication except under the superintendence and according to the directions of a duly-authorized officer of the Trust appointed for the purpose.

23. The service-pipes for conveying water from the pipes of the Trust into the premises of consumers shall each have a stop-cock at the main, and shall in no case exceed the following diameter:—For the domestic supply of premises not exceeding £20 annual value, ½-in. diameter; for the domestic supply of premises exceeding £20 but not more than £100 annual value, ¾-in. diameter; for the domestic supply of premises exceeding £100 annual value, 1-in. diameter; for the supply of water for other than domestic purposes, and for all supplies by meter, such diameter as the Trust shall authorize in each case.

24. If any person, whether supplied with water by the Trust or otherwise, shall commit a breach of these regulations, such person shall be liable to a penalty not exceeding £5 for each such offence.

Printed forms of tender and conditions of contract may be obtained from the Secretary, Tender Board, Treasury, Melbourne, or from the officer in charge at any station, by whom also information or explanation will be afforded to persons tendering.

As much forage as can be stored at any station where the storage is small will, for the convenience of the contractor, be ordered at one time.

The price, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per cental of 100 lbs. (net weight), including delivery at the stations, and all charges except the bags, which will remain the property of the contractor. At stations where the bags can be at once emptied the contractor will be required to remove them when delivery is taken. At other stations, notice will be sent to the contractor when the bags are empty. Bags to be removed at contractor's expense.

Tenders, which should be upon the printed form, will be received for either oats, bran, hay, or straw (the particular kind of hay or straw offered to be stated); but if all be included in one tender it may be accepted for one article only, if advisable. Oaten hay will be preferred. If sheaf hay be tendered for, it must be so stated in the tender.

Telegrams or tenders not complying with the terms of advertisement will not be entertained.

The successful tenderer will be required to enter into a bond for one-third of the estimated amount of the contract within ten days after the acceptance is notified. Two approved sureties are required for contracts amounting to £150 and upwards, and one surety for contracts under £150.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Forage," and deposited in the Tender-Box, Pay Office, Treasury, Melbourne; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Treasury, Melbourne.

The Government will not necessarily accept the lowest or any tender.

The decision of the Government will be made known by *Gazette* notice, and by letter to accepted tenderers.

CONDITIONS OF CONTRACT.

1. The hay to be good, sound, and sweet, and properly trussed, except when otherwise specified in the contract; the straw to be wheaten or oaten, and both to be in all respects of the best quality; oats, clean white (Victorian grown) and bran to be sound and sweet, and of the best description; chaff to be made from oaten hay of the best quality; the maize to be of the best quality. The hay tenders must specify whether they are for oaten or wheaten hay.

2. The supplies are for police, telegraph, and other horses, and are to be delivered on the order of the officer in charge of the district or station. The quantities stated in the schedule being only approximate, it must be understood that the Government may draw either more or less than those mentioned; and should new telegraph stations be formed, or additional horses required to be stationed at any of the stations, the contractor will be required to supply the additional forage. Should the additional number of horses, however, exceed two, the contractor may, if he desires it, terminate the contract by supplying at once the whole quantity due at the station under the contract according to the foregoing schedule.

3. Notwithstanding anything contained in the preceding condition, the contractors for the supply to the Police Depot may be called upon to supply any other Government Departments within a radius of six miles from Melbourne, and for which no contracts have been taken, at the same rates.

4. The forage, when delivered, must be accompanied by the particulars of quantity, showing the net weight, to be indorsed on the back of the order, which, when signed by the officer in charge of the station, for the net quantity received, will be returned to the contractor, and by him rendered in support of his account.

5. Each contractor will be required to prepare his own account in the prescribed form, and, on presentation thereof to the officer in charge of the station or district, it will be forwarded for payment at the Treasury, Melbourne, or the Pay Office of the district, as may be indicated by the contractor on the account.

6. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department (should circumstances require it) to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

7. In the event of a difference of opinion between the contractor and the officer receiving the forage as to the quality of the same, it is to be decided by a board of survey, composed of persons named by the head of the department ordering the supply, and the decision of the Board is to be considered final.

8. If the Board shall decide that the forage is not of proper quality, it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 6.

9. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue either to the public service or to the contractor by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 6.

10. A repetition of irregularity in the quantity or quality of the forage, or of the delay in delivering or replacing it when required, or refusal to execute orders, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding £20, as the Treasurer of the colony for the time being may direct. It will also be in the power of the said Treasurer, upon such repetition, to terminate the contract forthwith.

11. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

12. TENDERS FOR GRAZING LANDS.

Tenders must be sent in on proper form, which can be obtained on application to the Lands Department, Melbourne, or any of the Survey Offices in the country.

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Friday, 18th December, 1891.

NOTE.—The fee for the period from 1st January, 1892, to 31st December, 1892, and fee of Five shillings for licence, must accompany each tender.

TENDERS will be received by the Board of Land and Works up to Noon of Friday, 18th December, 1891, for the occupation, for grazing purposes only, of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto, and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same, without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

11. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do, he will be prosecuted according to law.

Special Conditions:

1. The period of occupation will be from 1st January, 1892, to 31st December, 1892.

2. The licence-fee must be paid in advance. The fee for the period from 1st January, 1892, to 31st December, 1892—for which the licence will be issued—must accompany the tender, or be paid by the successful tenderer or his agent immediately on the declaration of the acceptance of the tender, otherwise the offer of the next highest tenderer who may be prepared to comply with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 762," or "Lot 2, Block 965," or "Lot 3, Block 1026," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.
