MARYBOROUGH WATERWORKS TRUST.  
REGULATION No. 11.

THE Chairman and Commissioners of the Maryborough Waterworks Trust, the waterworks district of which has been proclaimed an Urban District for the purpose of the *Water Act 1890*, do hereby, pursuant to and in exercise of the powers and authorities conferred by the said Act, make the following Regulation, viz.:-

REGULATION No. 11.

General Conditions.

1. That Regulation No. 7 of the Maryborough Waterworks Trust be repealed, and the same is hereby repealed.
2. The Trust shall not be liable to any penalty or damages for not supplying water if the want of such supply arises from unavoidable cause or accident.
3. Every person who shall have agreed with the Trust for a supply of water by measure shall, at his own expense, provide a meter, and keep and maintain the same in good working condition to the satisfaction of the Trust, and in the event of any repairs thereto being required, notice, in writing, shall be immediately given by such person to the Trust. If any person who has provided any meter as aforesaid shall fail to give the notice hereinbefore mentioned of any repairs required for such meter, he shall be liable to a penalty not exceeding Five pounds.
4. If any person who, under the provisions herein contained or under the provisions of the *Water Act 1890*, ought to provide any meter neglect or refuse, after having been required by the Trust so to do, to provide such meter, he shall be liable to a penalty not exceeding Two pounds for every day during which such neglect or refusal continues.
5. No meter shall be affixed unless the dial of the same shall be capable of registering 1,000,000 gallons and unless the same is approved, in writing, by the duly authorized officer of the Trust. If any meter should cease registering, or be found or reported to be out of repair or registering incorrectly, the Trust shall estimate and charge for the water consumed during the period such meter was not in working order, and until it shall have been repaired and refixed, either by taking an average of the quantity used during the previous half-year or during the corresponding period of the previous year, or the Trust may insert a check meter on the service-pipe.
6. No person shall remove or alter the position of any meter when fixed without the written consent of the duly authorized officer of the Trust.
7. Every meter shall be placed according to the direction of the duly authorized officer of the Trust, and so as to be open to inspection at all times, and, as far as practicable, in a situation where it cannot be affected by frost or injured by any other means, and shall be provided with means of access thereto. A meter shall not be connected with more than one separate and distinct inlet-pipe leading from the service-pipe or other pipe of the Trust unless permitted by a memorandum, in writing, under the hand of a duly authorized officer of the Trust. A meter shall not continue to be used if it is found, on being tested by the Trust's officer, to be inaccurate.
8. If any person refuse or delay to have such meter properly repaired and put in correct working order, after having been required by any officer of the Trust so to do, the Trust may shut off the supply of water from the premises of such person, either by cutting the service-pipe or otherwise, until such meter shall have been properly repaired and certified by some officer of the Trust as being in proper working order.
9. If any plumber fix or refix any meter upon any premises supplied with water by the Trust without having first obtained a certificate from the Trust that the said meter has been examined and found in correct working condition, he shall be liable to a penalty not exceeding Five pounds.
10. If any person remove or alter the position of, or in any way interfere with, any meter without giving six days' notice, in writing, to the Trust, he shall for each such offence be liable to a penalty not exceeding Ten pounds over and above the damage which he may be found liable to pay in any action at law at the suit of the Trust, and, in the event of continuing the offence, to a further penalty of One pound for each day the offence is continued after notice of the offence from the Trust.
11. Fire plugs shall not be used except for the purpose of extinguishing fires unless any other use of them be allowed, in writing, by the Trust, and they shall at all times be under the control of the officers of the Trust.
12. A supply of water for domestic purposes shall not include a supply of water for livery or carriers' stables, or a supply for any manufacturing purposes, or for irrigation, or for water power, or for fountains, or for any ornamental purposes; and the supply of water for other than domestic purposes solely shall in all cases be by measure, unless by the special consent of the Trust. The Trust may supply any person with water for domestic or for other than domestic purposes by measure, at such rates, upon such terms, and subject to such conditions as the Trust and the person requiring such supply may agree to adopt.
13. Any person receiving water from the Trust who shall take or carry away such water from his premises, or who shall allow any person to take or carry away such water, or who shall sell the same to any other person, shall be liable to a penalty not exceeding One pound, and, in the event of continuing the offence, to a further penalty not exceeding One pound for each day the offence is continued after notice of the offence from the Trust.
14. Before any person shall affix any service-pipe to any pipe of the Trust, or alter, repair, or in any manner interfere with any pipe of the Trust, or any service-pipe, cock, or fitting connected with the pipes of the Trust, he shall obtain from the Trust a licence in that behalf to execute such works; and any unlicensed person affixing, altering, repairing, or in any manner interfering with any such pipes, service-pipe, cock, or fitting as aforesaid, shall be liable to a penalty not exceeding Five pounds.

15. Licences to affix, and lay on, alter, or repair service-pipes, to tap mains and sub-mains, and to do and execute generally the plumbing and other work necessary for laying on and maintaining water services, may be granted to persons who shall satisfy the Trust of their competency to perform such plumbing and other work upon payment of an annual fee of One pound.

16. It shall not be compulsory on the Trust to grant a licence to every or any applicant who shall prove his competency.

17. In all and every case a licensee shall be responsible for the acts of himself and his employes, and the Trust shall have the power to cancel the licence of any person at any time should a breach of these regulations be committed.

18. Any person, whether licensed as aforesaid or not, who shall offend by opening any ground so as to uncover any pipe or pipes the property of the Trust, without giving two days' notice to the Trust of his intention so to do, or who shall in any way tamper with or alter any pipe the property of the Trust without the permission, in writing, of the Trust being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe, work, or engine, the property of the Trust, shall be liable for each such offence to a penalty not exceeding Five pounds, and, in the event of continuing the offence, to a further penalty not exceeding One pound for each day the offence is continued after notice of the offence from the Trust.

19. Applications to tap mains and sub-mains must in every case be accompanied by the proportion of rate due from time of tapping to the 30th of June or the 31st December of one year, as required.

20. Any person, whether licensed as aforesaid or not, who shall lay any pipe to communicate with the pipes of the Trust without giving two days' notice of the day and hour when such pipe is intended to be made to communicate with the pipes of the Trust, or who shall make such communication except under the superintendence and according to the direction of some officer of the Trust, or who shall lay any pipe to communicate with the pipes of the Trust of a strength and material not sanctioned by the Trust, shall be liable for each such offence to a penalty not exceeding Five pounds, and, in the event of continuing the offence, to a further penalty of One pound for each day the offence is continued after notice of the offence from the Trust.

21. Wrought galvanized iron or lead piping of approved quality only will be allowed for external and internal services; ordinary connexions with mains and sub-mains must be made with approved brass stop-cock ferrules, all connexions with lead and iron pipes must be made with approved brass union couplings. All joints connecting lead pipes must be wiped joints, and in no case will bolt or copper bit joints be allowed, either in the interior or exterior of any building. One service-pipe only to each house, tenement, or land will be permitted, unless by the special consent of the Trust.

22. No service-pipe of a larger bore than half-an-inch will be permitted, unless by the special consent of the Trust.

23. If any person shall neglect to repair any service-pipe conveying water from the pipes of the Trust into the premises of such person, after having received notice from any officer of the Trust that such service-pipe requires repairing, the Trust may stop the water from flowing into such premises, either by cutting off the service-pipe or otherwise as the said Trust may deem fit until the necessary repairs shall have been effected. The occupier (if any) and if none, the owner, shall in every instance in which any damage shall be caused by reason of such service-pipes being leaky, or otherwise out of repair or broken, be liable to a penalty not exceeding Five pounds, and, in the event of continuing the offence, to a further penalty not exceeding One pound for each day such offence is continued after notice thereof from the Trust.

24. Any person supplied with water by the Trust who shall wilfully or negligently allow the same to run to waste shall be liable for each offence to a penalty not exceeding Five pounds, and, in the event of continuing such offence, to a further penalty not exceeding One pound for each day the offence is continued after notice thereof from the Trust.

25. To prevent overflow all water troughs and cisterns must be fitted with approved self-acting taps, which shall at all times be maintained in good working order.

26. All boilers or hot-water apparatus must be supplied from cisterns, as in no case will they be permitted to be fed directly from the pipes of the Trust.

27. In every bath the inlet must be distinct from and unconnected with the outlet, and the inlet pipes must be visible and accessible, and be attached to the bath above the bottom thereof, and such bath shall be provided with a proper well-fitted and perfectly water-tight ground outlet, plug, or cock. Overflow pipes to private baths or other vessels will not be permitted except where the supply is taken by measure.

28. Water-closets will not be allowed to be supplied direct from the main, but from a cistern only so constructed that the water cannot flow continuously, and that not more than two gallons can escape at each flush.

29. Any officer appointed by the Trust for the purpose may, between the hours of Ten o'clock in the forenoon and Four o'clock in the afternoon, enter any house, tenement, or land to, through, or into which water is supplied by the Trust, in order to inspect the meters, instruments, pipes, and apparatus for measuring, conveyance, reception, or storage of water, or for the purpose of ascertaining the quantity of water supplied or consumed, and may from time to time enter any house, building, or lands for the purpose of removing any meter, instrument, pipe, or apparatus the property of the Trust; and if any person hinders any such officer from entering or making such inspection or removal, he shall for every such offence be liable to a penalty not exceeding Five pounds.

30. Any officer appointed by the Trust for the purpose may, between the hours of Nine o'clock in the forenoon and Four o'clock in the afternoon, enter into any house or premises supplied with water by the Trust, in order to examine if there be any waste or misuse of such water; and if such officer at any such time be refused admittance into such dwelling-house or premises for the purpose aforesaid, or be prevented from making such examination as aforesaid, the Trust may turn off the water supplied by it from such house or other premises.

31. If any person supplied with water by the Trust does, or causes to be done, anything in contravention of this regulation, or fails to pay his rates when due, or fails to do anything which, under this regulation, ought to be done, or wrongfully or negligently allows water to run to waste, the Trust may cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of injury remains or is not remedied; but no such cutting off of the water supply shall exempt the offender from payment of the water rate during such suspension of the supply, nor from any fine or penalty provided for such offence by the *Water Act 1830* or these regulations.

32. The following regulations shall be observed by all persons in connexion with the supplying and laying of services, and the necessary fittings:—

(1) The whole of the pipes, tees, bends, or other fittings shall be sound and free from all defects, and all ends of pipes, tees, bends, or other fittings shall be properly threaded, and capable of being screwed into thimbles, tees, pipes, bends, or other fittings; all delivery cocks shall be high pressure, and of the best quality in workmanship; all jointing between pipes, thimbles, bends, couplings, elbows, meters, and cocks shall be made with red lead and flux.

(2) No service-pipe shall be laid at a depth below the surface of the ground of less than 10 inches. After service-pipes have been laid, the trench or trenches shall be properly filled in and thoroughly rammed, and any subsidence therein which may appear within three months shall be immediately made good by the owner or occupier of the premises supplied by such service-pipe. No trench made for the purpose of receiving, altering, repairing, or extending a service-pipe shall be left open after sunset.

(3) Every person previous to being licensed to lay services shall deposit with the Trust Secretary the sum of Two pounds sterling as security for the strict observance and performance of the regulations and conditions contained in this regulation, and, in the case of the non-observance or non-performance of any such stipulations and conditions at any time by such licensed person, the Trust shall be entitled to declare his deposit absolutely forfeited, and the same shall thereupon become and be absolutely forfeited as liquidated damages, and the name of such persons shall at once be struck off the roll of licensed plumbers. On the surrender of licence to the Trust, the Two pounds deposit (if not forfeited) shall be refunded.

(4) No private services whatsoever shall be laid or extension made by any licensed person, unless he has ascertained at the Trust's office that the person for whom such work is intended has received the consent of the proper officers of the Trust to have such work executed.

(5) Within 24 hours after the completion of each service the licensed person by whom such service shall have been laid shall report at the office of the Trust the completion of such service.

(6) If at any time any such licensed person wilfully acts contrary to any of the provisions of this regulation, either by himself or his workmen, or refuses to communicate any needful and proper information required of him in regard to any work connected with the works of the Trust done by him or his workmen, or under his superintendence, or upon his responsibility, his name may be erased by the Trust from the licensed plumbers.

(7) Each licensed person shall be held responsible for any injury occasioned by him or his workmen to the streets and mains, or any property of the Trust, or to private services already laid and connected with the Trust's water supply; and full compensation for such injury, including cost of all repairs necessitated thereby, shall be paid by such licensed person to the Trust within 24 hours of the time such injury was occasioned.

In the construction of this regulation, the word "Trust" shall mean the Maryborough Waterworks Trust, and the word "person" shall be deemed to extend to and include a corporation whether aggregate or sole; and wherever the word "officer" appears the same shall be deemed to be taken and mean an officer of the Trust duly authorized in that behalf.

The above regulation was passed by the Commissioners of the Maryborough Waterworks Trust on the 25th day of June, 1891, under and by virtue of the provisions of the *Water Act 1890*, and the corporate seal of the Trust was affixed hereto in the presence of—

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

## Conditions :

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate, or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.
