PART I.—PATENTS.

APPLICATIONS FOR PATENTS.

- No. 10340. By Charles Hibberd, of Bromby-street, South Yarra, Victoria, contractor, for "An improved lock specially applicable for window sashes." 1st March. Complete.
- No. 10341. By Charles Edward Rogers, of 69 Victoria-street, Flemington, Victoria, painter, for "Automatic signalling." 1st March. Provisional.
- No. 10342. By James Wilson, of 586 Collins-street, Melbourne, Victoria, manager, for "Improved sheet or blanketing for retaining fine gold and other metals." 2nd March. Provisional.
- No. 10343. By Murdoch McDonald, of Service-street, Clunes, Victoria, blacksmith, for "Improved combined harrow and seed sower." 2nd March. Provisional.
- No. 10344. By Albert E. B. Swanson, of corner of Queen and Lonsdale streets, Melbourne, Victoria, patent agent, for "An improved sewing machine needle." 21st November, 1892. Complete. (Divisional of No. 10151.)
- No. 10345. By Albert E. B. Swanson, of corner of Queen and Lonsdale streets, Melbourne, Victoria, patent agent, for "A new or improved attachment for threading open-eye needles of sewing machines." 21st November, 1892. Complete. (Divisional of No. 10151.)
- No. 10346. By Joseph Fielding Higgins, of Tuckett Chambers, Collins-street, Melbourne, Victoria, civil engineer, for "Improvements in spark catchers." 2nd March. Provisional.
- No. 10347. By John Meikle, of Sydney-road, Coburg, Victoria, blacksmith, and Arthur Henry Shaw, of 360 Little Collins-street, Melbourne, Victoria, for "An improved separable wing-share for ploughs and like implements." 2nd March. Complete.
- No. 10348. By Arthur Otto Sachse, of 454 Collins-street, Melbourne, Victoria, patent agent, for "Improvements in machines for forming, filling, and sealing boxes to contain small articles for the market." 3rd March. Complete.
- No. 10349. By Arthur Otto Sachse, of 454 Collins-street, Melbourne, Victoria, patent agent, for "Writing telegraph." 3rd March. Complete.
- No. 10350. By John Davies, of Beaconsfield-parade, Northcote, Victoria, ironmoulder, for "An improvement in domestic kettles and similar utensils." 3rd March. Provisional.

- No. 10351. By Henri Galopin, of Temple Court-place, Chancery-lane, Melbourne, Victoria, scientific engineer, and Henry Schreiber, of "Tannus," Jasper-road, East Brighton, Victoria, instrument maker, for "An improved window or sash fastener." 3rd March. Provisional.
- No. 10352. By James Scott, of Beechworth, Victoria, foreman of waterworks, and James Cunningham, of Beechworth, aforesaid, ironmonger and plumber, for "An improved fire-plug valve, double action automatic closing." 6th March. Provisional.
- No. 10353. By Frederick William Meakin, of 673 Canning-street, North Carlton, Victoria, engineer, for "Cutting gauge glasses." 7th March. Complete.
- No. 10354. By William Augustus Howard, of Imperial Hotel, Brisbane, Queensland, marine surveyor, for "A centrifugal amalgamator." 7th March. Complete.
- No. 10355. By Edward Waters, of 131 William-street, Melbourne, Victoria, patent agent, for "An improved pumping engine." 7th March. Provisional.
- No. 10356. By Edward Waters, of 131 William-street, Melbourne, Victoria, patent agent, for "Improvements in compound and triple expansion pumping-engines." 7th March. Provisional.
- No. 10357. By David Deere Stephens, of "Osborne House," Nicholson-street, Melbourne, Victoria, merchant, for "An improved can-opener." 8th March. Provisional.
- No. 10358. By Edward Thunderbolt, of 115 Faraday-street, Carlton, Victoria, engineer, and Noah Farrar, of Henderson-street, South Northcote, Victoria, gentleman, for "Improvements in valves or cocks for retaining or regulating the flow of steam, hot or cold water, or other gases, or liquids." 8th March. Complete.
- No. 10359. By Edwin Shepherd and Ernest Shepherd, both of 9 David-street, off Elgin-street, Carlton, Victoria, tailors, for "Inlaid and outlaid trimming applicable to articles of dress, bags, portmanteaus, slippers, tapestry, bookbinding, upholstery, &c., &c." 8th March. Provisional.
- No. 10360. By Frederick George Douglas, of 130 Domain-road, South Yarra, Victoria, brassfinisher, for "Improvements in water heaters for baths." 8th March. Provisional.
- No. 10361. By William Everts Richards, of 203 Broadway, City, County and State of New York, United States of America, patent agent, for "Device for partitioning drawers and similar structures." 8th March. Complete.
- No. 10362. By Ralph Wilson the younger, and Richard Wilson, trading as "Wilson Brothers," of Wilson's-lane, off Buncle-street, North Melbourne, Victoria, canister manufacturers, for "An improved fastening for the lids of metallic canisters." 8th March. Complete.
- No. 10363. By Olaf Terp, of Forest Hill, in the County of Surrey, England, engineer, for "Improvements in apparatus for drilling or boring rock metals or other hard substances." 8th March. Complete.
- No. 10364. By Jesse Ascough, of Handsworth, in the County of Stafford, England, agent, for "Improvements in the manufacture of sodium liberate or box sodium, crystalline, carbonate, or washing soda, and other compounds containing boron or sodium, or both." 8th March. Complete.
- No. 10365. By Edward Waters, of 131 William-street, Melbourne, Victoria, patent agent, for "An improved manufacture of cuffs, collars, shirts, and other articles of wearing apparel made wholly or partly of linen." 8th March. Provisional.
- No. 10366. By Henri Galopin, of Temple Court-place, Chancery-lane, Melbourne, Victoria, scientific engineer, for "Improvements in hydraulic blowers for increasing the pressure of air or gas or for mixing or compressing air and gas." 8th March. Provisional.
- No. 10367. By Alfred James Hodgkinson, C.E., A.M.I.C.E., of 34 Queen-street, Melbourne, Victoria, civil engineer, for "Improved machine for manufacture of rectangular wire-netting or fencing." 8th March. Provisional.
- No. 10368. By Charles Brache, of 35 St. James' buildings, Bourke-street, Melbourne, Victoria, wine merchant, for "An improved method of and apparatus for facilitating and regulating fermentation in the process of wine making." 9th March. Provisional.
- No. 10369. By Ernest Hosking, 489 Flinders-lane, Melbourne, Victoria, for "A method of and process for printing and embossing on tinfoil, leadfoil, or any other description of thin-rolled or beaten metals attached to paper." 9th March. Provisional.
- No. 10370. By John Howell, mining manager, and Edgar Arthur Ashcroft, electrical engineer, both of Broken Hill, New South Wales, for "An improved process and apparatus for generating steam by the aid of hot or molten slag from smelting or other furnaces." 10th March. Provisional.
- No. 10371. By Massey Harris Company Limited, of Toronto, County of York, Province of Ontario, Canada, agricultural implement makers, for "Improvements in cultivators." 10th March. Complete.
- No. 10372. By Massey Harris Company Limited, of Toronto, County of York, Province of Ontario, Canada, agricultural implement makers, for "Improvements in seed-sowing machines." 10th March. Complete.
- No. 10373. By Massey Harris Company Limited, of Toronto, County of York, Province of Ontario, Canada, agricultural implement makers, for "An improved cultivator." 10th March. Complete.
- No. 10374. By James Henderson Cobb, of 78 St. Vincent's-place, Albert Park, Victoria, agent, for "The universal automatic rabbit-trapping fence." 11th March. Provisional.
- No. 10375. By William Robinson, storekeeper, and Frederick Duncan Fergusson, schoolmaster, both of Makatoku, Hawke's Bay, New Zealand, for "An improved lifting apparatus for sack barrows." 13th March. Complete.
- No. 10376. By John Pender, of Tinning-street, Brunswick, Victoria, nail manufacturer, for "An improved tapering butter box for packing and transporting butter, lard, or other alimentary substance." 13th March. Complete.
- No. 10377. By Alois Riedler, of 78 Friedrich Strasse, Berlin, Germany, professor in the Polytechnic School, for "Improvements in and connected with compressing and pumping apparatus." 13th March. Complete.
- No. 10378. By George Cook, of 58 Spencer-street, Clerkenwell, London, England, clock maker, and Charles Kerr Marr, of 2 Sutherland-terrace, Hillhead, Glasgow, Scotland, gentleman, for "Improvements in apparatus for automatically displaying advertisements, pictures, and the like." 13th March. Complete.
- No. 10379. By Theodor Puskas, of 10 Badgasse, Budapest City, Hungary, gentleman, for "Telephonic news dispenser." 14th March. Complete.
- No. 10380. By William Stronach Lockhart, of London, England, civil engineer, for "An improved process and apparatus used therein for the washing and separating of gems or other substances from the earthy and other mineral matters containing them." 14th March. Complete.
- No. 10381. By Victor Carandini, F.R.V.I.A., of 34 Queen-street, Melbourne, Victoria, architect and civil engineer, for "The Carandini improved portfolio advertising ticket." 14th March. Complete.
- No. 10382. By Henry David Sinclair, of 19 Silver-street, London, England, manufacturer, for "Improvements relating to shirt cuffs, collars, and the like." 14th March. Complete.
- No. 10383. By Alfred Daniel Stone, of Patterson-street, West Beach, St. Kilda, near Melbourne, Victoria, carpenter, for "An improved spark arrester." 15th March. Provisional.
- No. 10384. By John McKay, of 48 Shiels-street, Newmarket near Melbourne, Victoria, blacksmith, for "An improved rocking apparatus for amalgamating and concentrating auriferous material." 16th March. Provisional.
- No. 10385. By Joseph Bradshaw, of Moorhouse-street, Camberwell, Victoria, pastoralist, for "Improvements in propellers for vessels." 16th March. Provisional.
- No. 10386. By Joseph Bradshaw, of Moorhouse-street, Camberwell, Victoria, pastoralist, for "Improvements in steering gear for vessels." 16th March. Provisional.
- No. 10387. By Edward Duncan, of Cecil-street, Williamstown, Victoria, carpenter, for "Improved combined inlet and outlet valves for regulating water pressure for sanitary and other purposes." 17th March. Provisional.
- No. 10388. By Carl Friedrich Wilhelm Sussbier, of Murtoa, Victoria, farmer, for "An improved agricultural roller." 17th March. Complete.
- No. 10389. By Carl Boeck, of Lawloit, Victoria, farmer, for "Improvements in stump-jumping implements." 18th March. Complete.
- No. 10390. By George Harry Goodwin Wharington, of 72 and 74 Lonsdale-street east, Melbourne, Victoria, japanner and ironworker, for "Combination milk bucket and sieve." 18th March. Provisional.
- No. 10391. By James Robinson, of Gawler, South Australia, ironfounder, for "Improvements in shares for scarifiers and cultivators." 20th March. Complete.

- No. 10392. By Hugh Thomson, of "Thornton," Studley Park-road, Kew, near Melbourne, Victoria, tanner, for "An improved removable screw down stopper for preventing leakage either into or out of water-mains through street fire-plugs." 21st March. Provisional.
- No. 10393. By Robert Browne, of Balwyn-road, Balwyn, Victoria, engineer, for "Improved apparatus for heating or cooling milk." 22nd March. Provisional.
- No. 10394. By John McLean, of 17 Great Oxford-street, Collingwood, Victoria, fire-plug manufacturer, for "An improved street fire-plug." 22nd March. Provisional.
- No. 10395. By Joseph Canwell, dairyman, and John Rintoull, blacksmith, both of Moreland, Gippsland, Victoria, for "An improved machine for moulding, printing, and cutting butter into pats of equal weight." 22nd March. Complete.
- No. 10396. By Robert Brownridge, of 44 Barrett-street, South Melbourne, Victoria, carpenter, for "A blower for cooling curds in cheese-making operations." 22nd March. Complete.
- No. 10397. By Arthur Edwin Battle, of 359 Collins-street, Melbourne, Victoria, engineer, for "An improved water tube steam boiler." 22nd March. Complete.
- No. 10398. By George Barnes Pearce, of Suffolk-road, Surrey Hills, near Melbourne, Victoria, engineer, for "Improved appliances for actuating the starting valves of elevators." 23rd March. Provisional.
- No. 10399. By Edward Waters, of 131 William-street, Melbourne, Victoria, patent agent, for "Improvements in the manufacture of playing cards." 23rd March. Complete.
- No. 10400. By Robert Robinson Cowl, of Vincent-street, South Melbourne, Victoria, architect, for "An improvement in window box frames." 23rd March. Provisional.
- No. 10401. By Robert Ferguson, of 391 Bourke-street, Melbourne, Victoria, engineer, for "An improvement in plugs and washers, and method of fitting same to cast-iron cisterns." 23rd March. Complete.
- No. 10402. By John Noel Carey, of 454 Collins-street, Melbourne, Victoria, military captain, for "An improved gash fastener." 23rd March. Provisional.
- No. 10403. By Theodore Ostendorf, of 287 Clarendon-street, South Melbourne, Victoria, journeyman butcher, for "An improved cooling chamber for the preservation of animal and other substances." 24th March. Complete.
- No. 10404. By Annie Macdonald, of Bungendore, New South Wales, gentlewoman, for "Improvements in sleeping and drawing room railway cars." 24th March. Complete.
- No. 10405. By Annie Macdonald, of Bungendore, New South Wales, gentlewoman, for "Improvements in box and cattle railway cars." 24th March. Complete.
- No. 10406. By David Pullar, of Blayney, New South Wales, engineer, for "Improvements in the construction and use of steam injectors and their attachments." 24th March. Complete.
- No. 10407. By Angelo Tornaghi, of Enmore, Sydney, New South Wales, mathematical instrument maker, for "Apparatus for amalgamating and concentrating." 24th March. Complete.
- No. 10408. By Alfred Felton, Frederick Sheppard Grimwade, and Lambton Le Breton Mount, trading together as the "Melbourne glass bottle works company" at Spottiswoode, near Melbourne, Victoria, for "An improved stopper for bottles, jars, and other receptacles principally adapted for those containing vegetable substances in preserving liquids." 24th March. Complete.
- No. 10409. By John Stewart Reid, of 8 Victoria-street, Westminster, England, mechanic, for "Wire-barbing machines." 24th March. Complete.
- No. 10410. By John Pender, of Tinning-street, Brunswick, Victoria, nail manufacturer, for "Improvements in machines for grooving or trenching boards and cutting same to given lengths for boxes and other structures." 25th March. Complete.
- No. 10411. By Frederick Giles, of Tivoli-road, South Yarra, Victoria, engineer, for "An improved hose coupling." 27th March. Provisional.
- No. 10412. By Bernard Charles Molloy, of the Middle Temple, London, England, Member of Parliament, barrister-at-law, for "Improvements in dissolving gold and other metals out of ores and compounds, and obtaining the metals therefrom." 27th March. Complete.
- No. 10413. By Samuel Tonkin, of Wentworth, New South Wales, for "A double-tired tubular-spoked sectional-naved wheel." 27th March. Complete.
- No. 10414. By Arthur John Cox, of Barkly-street, Ararat, Victoria, watchmaker, for "An improved automatic spring blade apparatus for destroying rabbits." 27th March. Provisional.
- No. 10415. By William Kirkley Birkinshaw, of Quarndon, Derby, England, merchant, for "Improvements in picks and other tools having movable operative parts." 28th March. Complete.
- No. 10416. By Pierre Aignau Moreau, of Meung-sur-Loire (Loiret), France, marble workman, for "Improvements in the manufacture of artificial stones and in the artificial colouration and hardening of natural or artificial stone." 28th March. Complete.
- No. 10417. By Edward Waters, of 131 William-street, Melbourne, Victoria, patent agent, for "Improvements in packing cases for bottles." 7th November, 1892. Complete. (Divisional of No. 10121.)
- No. 10418. By William Henry Finlayson, of Sydney, New South Wales, railway contractor, for "Improvements in earth excavators." 28th March. Provisional.
- No. 10419. By Thomas Lawson Binns and Frederick Thomas Collas, both of 461 Pitt-street, Sydney, New South Wales, builders and contractors, for "An improved bracket for toilet articles." 28th March. Complete.
- No. 10420. By W. B. Fox, of Kangaroo Flat, Bendigo, Victoria, saddler, for "Improvement in cricket balls." 28th March. Provisional.
- No. 10421. By Gerolt Gibson, of St. Louis, State of Missouri, United States of America, for "Window sash locks." 29th March. Complete.
- No. 10422. By Gerolt Gibson, of 117 N. Eighth-street, St. Louis, State of Missouri, United States of America, for "Improvements in nut locks." 29th March. Complete.
- No. 10423. By William John McVeigh, of Moorabool-street, Exhibition Exchange, Geelong, Victoria, butter factory manager, for "An improved apparatus, and mode of using the same, for cooling milk and cream." 29th March. Complete.
- No. 10424. By Frederic John Claridge, of 159 Queen-street, Melbourne, Victoria, merchant, for "An improved ventilated collapsible fruit case." 29th March. Complete.
- No. 10425. By Henry Samuel Pruyn, of Hoosick Falls, State of New York, United States of America, mechanical engineer, for "Improvements in railway cars." 29th March. Complete.
- No. 10426. By Edward Waters, of 131 William-street, Melbourne, Victoria, patent agent for "Improvements in gas burners." 29th March. Complete.
- No. 10427. By John Cockerell, of Plenty-road, South Yan Yean, Victoria, blacksmith, for "An improved potato plough and scarifying implement." 29th March. Complete.
- No. 10428. By Charles Andrews, of Latrobe-terrace and Gheringhap-street, Geelong, Victoria, oven builder, for "An improved cooking stove." 29th March. Complete.
- No. 10429. By George William Shailer, photographer, and John Herbert Hankins, barrister, both of Palmerston North, New Zealand, for "Improvements in apparatus for ear marking sheep and for other similar purposes." 30th March. Complete.
- No. 10430. By Walter Alexander Anderson, of 123 William-street, Melbourne, Victoria, clerk, for "An improved process for recovering the valuable constituents of solutions in which wool has been washed." 30th March. Provisional.
- No. 10431. By John Lawrence Cox, of 25 Douglas-street, Toorak, Victoria, commercial traveller, for "An improved process of and apparatus for the disinfecting of sewage and other fecal matter and for the automatic receipt and discharge of liquids." 30th March. Provisional.
- No. 10432. By Alfred Montgomery Howarth, of 137 Elizabeth-street, Sydney, New South Wales, civil engineer, for "Improved modes of constructing bridges, jetties, stagings, platforms, floors, and ceilings of buildings from iron or steel railway rails." 30th March. Complete.
- No. 10433. By Edward Jordan, of Sydney, New South Wales, galvanized-iron worker, for "An improved induct cowl." 30th March. Provisional.
- No. 10434. By Edward Jordan, of Sydney, New South Wales, galvanized-iron worker, for "An improved induct cowl." 30th March. Provisional.

PROVISIONAL SPECIFICATIONS ACCEPTED.

No.	Date of Acceptance.	Name.	Title.
10275	1893. March 3	Daniel Hickie and Peter Bell Ritchie	An improved method for closing and opening necks of bottles, jars, and other vessels, and for conserving and dealing with effervescent and other liquids, semi-liquids, and other substances
10334	March 3	Hugh Thomson	An improved fire plug
10351	March 6	Henri Galopin and Henry Schriber	An improved window or sash fastener
10346	March 7	Joseph Fielding Higgins	Improvements in spark catchers
10341	March 8	Charles Edward Rogers	Automatic signalling
10343	March 9	Murdoch McDonald	Improved combined harrow and seed sower
10350	March 9	John Davies	An improvement in domestic kettles and similar utensils
10357	March 9	David Deere Stephens	An improved can opener
10360	March 10	Frederick George Douglas	Improvements in water-heaters for baths
10369	March 10	Ernest Hosking	A method of, and process for printing and embossing on tinfoil, lead-foil, or any other description of thin-rolled or beaten metals attached to paper
10352	March 13	James Scott and James Cunningham	An improved fire-plug valve, double action, automatic closing
10355	March 13	Edward Waters	An improved pumping engine
10356	March 13	Edward Waters	Improvements in compound and triple expansion pumping engines
10359	March 13	Edwin Shepherd and Ernest Shepherd	Inlaid and outlaid trimming, applicable to articles of dress, bags, portmanteaus, slippers, tapestry, bookbinding, upholstery, &c., &c.
10366	March 15	Henri Galopin	Improvements in hydraulic blowers for increasing the pressure of air or gas, or for mixing and compressing air and gas
10370	March 15	John Howell and Edgar Arthur Ashcroft	An improved process and apparatus for generating steam by the aid of hot or molten slag from smelting or other furnaces
10339	March 16	Edmund Paul Dignan	Improvements in and relating to the driving gear of stripping machines
10374	March 16	James Henderson Cobb	An automatic rabbit trapping fence
10383	March 16	Alfred Daniel Stone	An improved spark arrester
10390	March 20	George Harry Goodwin Wharington	Combination milk bucket and sieve
10384	March 24	John McKay	An improved rocking apparatus for amalgamating and concentrating auriferous material
10385	March 24	Joseph Bradshaw	Improvements in propellers for vessels
10386	March 24	Joseph Bradshaw	Improvements in steering gear for vessels
10392	March 24	Hugh Thomson	An improved removable screw-down stopper for preventing leakage either into or out of water-mains through street fire-plugs
10394	March 25	John McLean	An improved street fire-plug
10398	March 25	George Barnes Pearce	Improved appliances for actuating the starting valves of elevators
10342	March 27	James Wilson	Improved sheet or blanketing for retaining fine gold and other metals
10393	March 27	Robert Browne	Improved apparatus for heating or cooling milk
10402	March 27	John Noel Carey	An improved sash fastener
10368	March 28	Charles Brache	An improved method of, and apparatus for facilitating and regulating fermentation in the process of wine-making
10400	March 28	Robert Robinson Cowl	An improvement in window box frames
10411	March 28	Frederick Giles	An improved hose coupling
10414	March 28	Arthur John Cox	An improved automatic spring blade apparatus for destroying rabbits
10420	March 29	William Barwick Fox	Improvements in cricket balls

COMPLETE SPECIFICATIONS ACCEPTED.

NOTE.—Any person desiring to oppose the grant of a patent on any of the undermentioned applications must, within two months from the date of publication of the acceptance, give notice at the Patent Office of such opposition.

No.	Date of Publication.	Name.	Title.
9591	1893. March 3	Edward Waters	Improved apparatus for the automatic taking and completion of positive photographs
10025	March 3	Edward Waters	Improved mechanism applicable to a device which can be used either as a rotary steam engine or as a rotary pump
10145	March 3	Arthur William Thomson	An improved low cushion for billiard tables
10203	March 3	The Automatic Fire Telegraph Company Limited	Improvements in electrical fire alarm transmitting and receiving apparatus
10244	March 3	Richard Pearce	Improvements in and relating to annular ear-roasting furnaces
10252	March 3	Julius Moeller	Apparatus for manufacture of oil gas
10271	March 3	Nicolaus Potschinsky	New or improved method of and means for automatically taking and indicating soundings for purposes of navigation, applicable also for taking and indicating soundings for hydrographical, topographical, geological, and like purposes
10276	March	Albert Richard	An improved electro-medical chair
10286	March	William Tarrant	An improved concentrating machine, usable also as an amalgamator
10289	March 3	Charles Gooding	Improvements in or connected with coffins
10296	March 3	J seph Colley	Improvements in action-retaining mechanism of small arms
10380	March 3	Thomas Phillips	An improved vegetable food compound
10323	March 3	Samuel Edward Haskin	Improved process and apparatus for vulcanizing wood
10151	March 10	Albert E. B. Swanson	A new or improved attachment for threading open-eye needles of sewing machines
10272	March 10	William Cowan	Automatically varying the load and pressure of gas governors and in the means or apparatus employed therefor
10282	March 10	Adelaide Morrilt	Improved cabinet or cage for use in stage illusions and the like
10283	March 10	James Livesey Scott	An improved contrivance for stamping advertisements on eggs
10290	March 10	Frederick Nicholson Turney	An improved process and apparatus for degreasing leather
10299	March 10	Parker Cogswell Choate	Improvements in the art of producing metallic zinc
10305	March 10	Robert Ashton Lister and Mikael Pedersen	Improvements in or applicable to centrifugal machines for separating liquids
10317	March 10	Robert Carey	Improvements in hydraulic lifts, and in the method of operating same
10318	March 10	Joseph Allison Coombes	Improvements in separators suitable for separating gold and other precious or valuable metals from gravel, pulverized quartz, and the like
10325	March 10	Hugh Thomson	Improvements in valves for fire-plugs and hydrants, and means for operating same
10340	March 10	Charles Hibberd	An improved lock, specially applicable for window sashes
10344	March 10	Albert E. B. Swanson	An improved sewing machine needle

COMPLETE SPECIFICATIONS ACCEPTED—continued.

No.	Date of Publication.	Name.	Title.
1893.			
10345	March 10	Albert E. B. Swanson	A new or improved attachment for threading open-eye needles of sewing machines
10347	March 10	John Meikle, and Arthur Henry Shaw	An improved separable wing share for ploughs and like implements
9598	March 17	John Charles Tippet	Improvements in cesspans
10281	March 17	Robert Gamble Marks	Improvements in apparatus for interlocking the levers of railway signals
10292	March 17	Henry Finch Rix	Improved set of apparatus for teaching the first steps in arithmetic
10353	March 17	Frederick William Meakin	An improved appliance for cutting gauge and other tubular glasses
10362	March 17	Ralph Wilson, and Richard Wilson	An improved fastening for the lids of metallic canisters
9617	March 24	William Dennis Connelly	An improved fastening for lids of air-tight cesspans
10185	March 24	William Rochiff, and Michael Mathias Perl	An improved spark arrester applicable to locomotives, high-pressure marine engines, and similar engines whose exhaust is discharged into the chimney
10363	March 24	Olaf Terp	A drilling or boring tool, and a cement for carrying the cutting medium
10375	March 24	William Robinson, and Frederick Duncan Fergusson	An improved lifting apparatus for sack barrows
10381	March 24	Victor Carandini, F.R.V.I.A.	An improved portfolio advertising ticket, card, or pass
10033	March 30	Elias Elkan Ries	Method of and socket for regulating incandescent electric lamps
10304	March 30	John Zimmerman	Improvements in and relating to the manufacture of cans or tins, the opening of which is to be effected by the removal of a strip of the metal
10309	March 30	Robert Ferguson	Improvements in milking machines
10316	March 30	George Lander Thiell	Improvements in apparatus for controlling the draught in chimneys
10332	March 30	Hannah Fox Harding	An improved mattress for the use of invalids
10348	March 30	Arthur Otto Sachse	Improvements in machines for forming, filling, and sealing boxes to contain small articles for the market
10349	March 30	Arthur Otto Sachse	Writing telegraph
10378	March 30	George Cook and Charles Kerr Marr	Improvements in electrically controlled apparatus for automatically displaying advertisements, pictures, and the like
10379	March 30	Theodor Fuskas	Telephonic news-distributing system

9100	March 3	Edward Cathcart Sessions	Improvement in street railway carriages

LETTERS PATENT SEALED.

No.	Date of Sealing.	Name.	Title.
1893.			
9396	March 4	The Wolsley Sheep Shearing Company Limited	Improvements in flexible couplings or joints for toothed wheel gearing
9694	March 4	Milan Constant Bullock	Improvements in rock-drilling machines and method of and apparatus for lifting the core
10015	March 4	James Alexander Augustine Parker	Improvements in the furnaces of portable boilers to be used for washing and other purposes
10065	March 4	Robert Ferguson	An improved curd-cutting machines
10072	March 4	Arthur Clement and Herbert Jones	An improved appliance for regulating the discharge of water from cisterns or tanks
10121	March 4	Edward Waters	Improvements in packing cases for bottles and the like
10126	March 4	Benjamin Fox Mellor	An improved sheet or plate metal plough share and contrivance for manufacturing same
10131	March 4	Walter Swain and William Philipson	Improvements in the construction of wheels and tires for carriages, bicycles, tricycles, and other road vehicles
10147	March 4	Howard Osborne	An improvement in the manufacture of portmanteaus
10150	March 4	Charles Albert Cox	Improvements in shirts and shirt fronts
10191	March 4	Nowell Henry Richards	Improvements in rails for tramways and railways, and in chairs to be used therewith
9671	March 6	Bedlington Bodycomb	Improvements in the electric control of railway trains and in railway brakes
9698	March 6	Otis Brothers and Company	Improvements in electric elevators or lifts, and in electrical appliances connected therewith
9920	March 6	George Sexton Evans	An improved method of and apparatus for gripping a rope or cable
10086	March 6	William Hawkins and Thomas Hawkins	Improvements in and relating to apparatus for the manufacture of hydrogen gas
10122	March 6	William Tenny Cutter	An improved process of extracting fatty substances from wool and the like, and for the clarifying the solvent used in the process
10143	March 6	Charles Hibberd	An automatic coin separating and counting machine
10148	March 6	Frederick de Jersey Clere	Improvements in the construction of window sashes to facilitate cleaning and for other purposes
10155	March 6	The Pneumatic Tire and Booth's Cycle Agency Limited	Improvements in rubber tires and metal rims or feloes, and methods of securing the same, the one to the other, for the wheels for cycles and other light vehicles
10184	March 6	William Troutbeck	Improvements in rock drills
10190	March 6	Frank Bedford and Charles Searle	An improved grill and toaster
10194	March 6	Edward Waters	Improvements in or connected with gas engines
10200	March 6	Ernest Leslie Ransome	An improved apparatus for delivering the several ingredients for concrete to a mixer in automatically proportioned quantities
9823	March 7	Guiseppo Garibaldi Turri	Improvements in explosive compounds
10087	March 7	James Dennis and Joseph Hilton	Improved reel or holder for wool, thread, or twine

LETTERS PATENT SEALED—continued.

No.	Date of Sealing.	Name.	Title.
	1893.		
9227	March 9	Adolf Goerke	Improvements in the method of constructing staircases, arches, ceilings, partition walls, pipes, buildings, and other structures
10178	March 9	William Henry Trengrove ...	An elliptical chain-wheel for increasing the speed of cycling machines
9703	March 10	The Pfaudler Vacuum Fermentation Company	Improvements in the manufacture of beer
9704	March 10	The Pfaudler Vacuum Fermentation Company	Improvements in the manufacture of beer
10164	March 15	Henry Noyes	Improved contrivance or rivet "sett" for holding rivets whilst they are being fastened
9455	March 16	John Henry Burney	Improved hinged contrivances for making the lids of dust-boxes and similar receptacles hingeable to and also detachable from the said boxes and similar receptacles
9752	March 16	Erik Gustaf Nicolaus Salenius ...	Improvements in the process of and apparatus for the centrifugal separation of cream from milk and the subsequent manufacture of butter
9784	March 16	Electrolibration Company ...	Method of and thermo-electric battery for medical treatment of disorders of human beings and other living objects
10067	March 16	Edward Towlson	Improvements in rotary fluid pressure engines, applicable also to pumps
9832	March 23	Thomas Hardcastle	Improvements in a combination mopping, mop-wringing, and scrubbing device

APPLICATIONS ABANDONED.

No.	Date of Abandonment.	Name.	Title.
	1893.		
9618	February 6	Frederick James Pettit	An improved water heater
9619	February 6	Amos Underwood	Improvements in appliances for simultaneously closing railway carriage doors
9624	February 7	George Williamson Bruce	An improvement in the ventilation of hats
9626	February 8	Jesse Cartwright Baker and Thomas Reynolds James	Improvements in water motor power
9627	February 8	Robert Rowland Morgan... ..	Improvements in and connected with sliding floors to close the openings in the shafts of lifts
9628	February 10	Alwin Hugo Eusebius Fischer	Improved water heater for gas
9629	February 11	John Carroll	A combined groove-forming hole-boring and net-stretching machine to be used in the erection of wire-netted fencing
9632	February 12	Theodore William Hickson	A simple and durable kerosene tin-bucket handle and support
9633	February 12	Charles James Polain and Alfred Arthur Whipp	An archimedean elevator and transmitter
9634	February 13	David Watts	Improvements in self-acting gates and semaphores for railways
9641	February 15	Edmund Dodgshon and John Duntton	An improved machine for digging and bagging potatoes
9644	February 17	George Harwood Palmer	Improvements in potato-raising ploughs
9648	February 19	Simon Warren and Charles Horace Mansfield	An improved method of and apparatus for treating ores of antimony and gold
9649	February 19	Alexander Doepel	An improved method of and apparatus for neutralizing foul air in mines and other places
9652	February 20	Edward Lambert Drew	An improved machine for separating or concentrating and classifying discrete matter specially metalliferous material, and for amalgamating discrete auriferous material
9659	February 21	Samuel James Mitchell	A new or improved bottle pump and dial register for recording the quantity of liquid discharged from the same
9660	February 21	Samuel James Mitchell	A new or improved dial register for automatically recording the quantity of liquor discharged from beer engines
9676	February 28	Henry William Hargrave	Improved centring for the construction of masonry, brick, or concrete arches
9684	February 28	Frederick W. Clifton	An improved material for the manufacture of brooms

APPLICATION VOID.

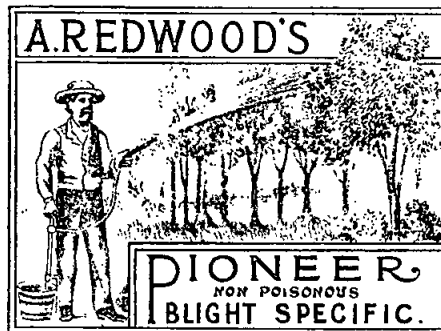

(The complete specification not accepted within the prescribed time.)

No.	Date of Application becoming void.	Name.	Title.
9355	5th March, 1893	Dr. John Storer	Improvements in the treatment of sulphide ores and in the extraction of the metals therefrom

ASSIGNMENTS REGISTERED.

No.	Title.	Date of Registration.	Name of Assignee.	Whole or Part.
8396	Improvements in ore-roasting furnaces	1st March, 1893	Thomas Edwards	Part
5491	Improvements in stump-jumping ploughs, scarifiers, and other implements for breaking up land	2nd March, 1893	The Braybrook Implement Company Limited	Whole
9333	An improved apparatus for use in cars for indicating stopping places	3rd March, 1893	George Sparling	Part
9452	An improved lock or fastener for securing window sashes	3rd March, 1893	George Sparling	Part
10121	Improvements in packing cases for bottles and the like	14th March, 1893	The Bottle Packing Case Company Limited	Whole
9083	A new and improved machine for grooving or trenching boards and cutting same to given lengths for boxes and other structures and purposes	25th March, 1893	John Pender	Part
4535	An improved composition for cleansing wool, silver, and other goods	27th March, 1893	George Moody	Part

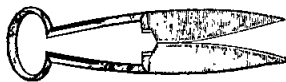

PART II.—TRADE MARKS.
APPLICATIONS FOR TRADE MARKS.

The essential particulars of the Trade Mark are the following:—The device and the words "A. Redwood's Pioneer," and applicant disclaims any right to the exclusive use of the added matter.

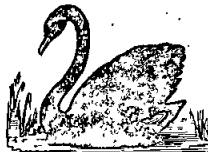

CLASS 2.

3422. A Non-poisonous Blight Specific for the Eradication of Blights and Pests in Gardens, &c. Alphonso Henry Redwood, of Westbrook, Darling Downs, Queensland, gentleman, trading as "A. Redwood and Co." 15th March, 1893. (As a distinctive label.)

CLASS 2.

3439. Sheep Dips, Cattle Washes, and Disinfectants. Battle, Maltby, and Bower, of Lincoln, England, manufacturers of sheep dips, disinfectants, &c. 27th March, 1893. (As a distinctive device.)

BLACK SWAN.

CLASS 3.

3438. Eucalyptus Oil and Eucalyptus Oil preparations in this class. Arthur Coulson Parkin, of Herbert-street, North Carlton, Victoria, manufacturing chemist. 27th March, 1893. (As a distinctive device and words having no reference to the character or quality of the goods and not being a geographical name.)

CLASS 5.

3430. Galvanized Iron and Wire, Fencing Wire, Sheet Iron, Plate Iron, Box Iron, and Boiler Plates. John Lysaght Limited, of St. Vincent's Iron Works, Bristol, England, ironmasters and galvanizers. 22nd March, 1893. (As a distinctive brand.)

CLASS 13.

3420. Metal Screws, Nails, Hooks, Staples, Bolts, and like articles. The British Screw Company Limited, of 8A Rumford-place, Liverpool, and Kirkstall-road, Leeds, England, screw manufacturers. 14th March, 1893. (As a distinctive device.)

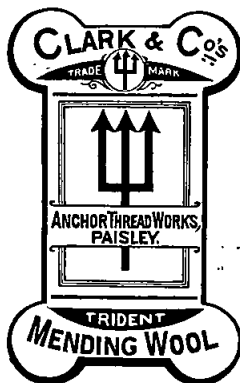

1903

April 27, 1893.

(See No. 3430.)

CLASS 13.

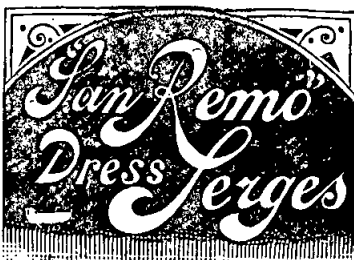

3431. Wire Netting. John Lysaght Limited, of St. Vincent's Iron Works, Bristol, England, ironmasters and galvanizers. 22nd March, 1893. (As a distinctive brand.)

The essential particulars of the Trade Mark are the following:—The device of a trident and the word "Trident," together with the name, Clark and Co., and their address.

CLASS 33.

3407. Mending Wool. Clark and Co., Anchor Mills, Paisley, Scotland, cotton thread manufacturers. 15th February, 1893. (As a distinctive label.)

CLASS 34.

3417. Woollen Cloths in the piece. George and George Limited, of 162 to 168 Collins-street, Melbourne, Victoria, warehousemen. 4th March, 1893. (As a distinctive label.)

The essential particulars of the Trade Mark are the following:—The words "The Purple Wreath," surrounded by a device of wreath and surmounted by the word "Excelsior," and applicant disclaims any right to the exclusive use of the added matter.

CLASS 38.

3425. Apparel, Underclothing. Harry Courtney Dix, of 1 Queen-street, Melbourne, Victoria, agent. 20th March, 1893. (As a distinctive brand.)

CLASS 38.

3436. Articles of Clothing. Robert Reid and Company, of Nos. 246 to 254 Flinders-lane, Melbourne, Victoria, warehousemen. 24th March, 1893. (As a distinctive mark.)

April 27, 1893.

1904

W T & C
EXTRA STRONG
3009

(Use of above Trade Mark by Applicants and their predecessors in business for thirteen years before the year 1876 is claimed.)

CLASS 39.

3434. Paper and Envelopes. Wiggins, Teape, and Company Limited, of Nos. 10 and 11 Aldgate, London, England, paper makers and wholesale stationers. 24th March, 1893. (As a distinctive brand.)

HERCULES
CLASS 39.

3435. Paper and Envelopes. Wiggins, Teape, and Company Limited, of Nos. 10 and 11 Aldgate, London, England, paper makers and wholesale stationers. 24th March, 1893. (As a word having no reference to the character or quality of the goods and not being a geographical name.)

<p align="center">SCIENTIFIC OPINIONS.</p> <p>The "Largest" specimen... British Medical Journal... Medical Press... Medical Recorder... Medical News... Professor H. Hahn... Prof. J. F. W. Hodge...
