

FIFTH SUPPLEMENT
TO THE
VICTORIA
GOVERNMENT GAZETTE

OF FRIDAY, JANUARY 19, 1894.

Published by Authority.

No. 13.] WEDNESDAY, JANUARY 24. [1894.

OFFICIAL LIST OF PATENTS AND TRADE MARKS FOR THE MONTH
OF DECEMBER, 1893.

PART I.—PATENTS.	CONTENTS.	PART II.—TRADE MARKS.	Page
Applications for Patents	347	Applications for Trade Marks	354
Provisional Specifications Accepted	349	Trade Marks Registered	359
Complete Specifications Accepted	349	Subsequent Proprietors Registered	359
Provisional Specifications Refused	350	Trade Marks Renewed	359
Complete Specifications Refused	351	Application Refused	359
Letters Patent Sealed	351	Applications Opposed	359
Patents Renewed	352	Alteration of Trade Mark	359
Patents Expired	352		
Applications Abandoned	353		
Application Void	353		
Assignments Registered	353		

PART I.—PATENTS.

APPLICATIONS FOR PATENTS.

No. 11002. By Willis Durwood Sherman, of 85-91 Ninth-street, in the city of Brooklyn, county of Kings, state of New York, United States of America, mechanical engineer, for "Improvements in hoisting apparatus." 1st December. Complete.

No. 11003. By Edward Eliot Chambers, of Lyttleton, New Zealand, for "An improved venetian blind." 1st December. Provisional.

No. 11004. By John Flynn, of Universal Chambers, 323 Collins-street, Melbourne, Victoria, agent, for "An improved safety label and a clasp link for use with same." 1st December. Provisional.

No. 11005. By Alfred Philip Dowell, of 73 St. George's-road, North Fitzroy, Victoria, coach-builder, for "A new or improved spring catch self fastener." 2nd December. Provisional.

No. 11006. By George Gubbins, of Footscray, Victoria, agricultural implement manufacturer, for "A method of altering or interchanging the bodies (or attachments thereto) of multiple-furrow ploughs." 4th December. Provisional.

No. 11007. By William John Dunstan, of Gamble-street, off Glenlyon-road, East Brunswick, Victoria, engineer, for "Starting cable tram cars." 5th December. Provisional.

No. 11008. By John Duntun, of 137 Barry-street, Carlton, Victoria, contractor, for "An improved means for supporting the rails of post and rail fences." 5th December. Provisional.

No. 11009. By Henry Vander Weyde, of 182 Regent-street, London, W., England, artist and electric light photographer, for "Improvements in block ice." 5th December. Complete.

No. 11010. By Henry Hyne, of Main-street, Lilydale, Victoria, architect and surveyor, for "Improvements in and connected with sluice boxes for extracting the gold from auriferous material." 5th December. Provisional.

- No. 11011. By William Wratten, of Birch Hill, Martinborough, New Zealand, farmer, for "Improvements in the construction of wire fencing." 7th December. Complete.
- No. 11012. By David Watts, of Broadward Villa, Windsor, near Melbourne, Victoria, insurance agent, for "An improved spark arrester for locomotive boilers." 7th December. Provisional.
- No. 11013. By Richard Hales Smith, of 2 Perthshire Terrace, Domain-street, South Yarra, Victoria, masseur, for "A tubular screw." 8th December. Complete.
- No. 11014. By Edward Arthur Brown, of Hudson-street, Coburg, near Melbourne, Victoria, embosser, for "An improved spark arrester for locomotive and other boilers." 8th December. Provisional.
- No. 11015. By Albert William Beard, of "Wabun," North Sydney, New South Wales, gentleman, for "Fastening lid of butter box used for export." 9th December. Provisional.
- No. 11016. By John Murphy, of Wyncham-street, Shepparton, Victoria, engineer, for "An improved frame or body for that class of implements generally known as cultivators or scarifiers." 9th December. Provisional.
- No. 11017. By Robert Latta, of Hastings, Hawke's Bay, New Zealand, settler, for "An improved method of and means for connecting stirrups to saddles." 11th December. Provisional.
- No. 11018. By John Burns Smith, of 23 Errol-street, Brunswick, Victoria, gentleman, for "Improvements in the construction of collars, saddles of all kinds as well as breast-plates used by all animals, used in the drawing of either light or heavy weights." 11th December. Provisional.
- No. 11019. By William Harding, of Neilborough North, Victoria, agriculturalist, for "An improved portable circular saw machine." 11th December. Complete.
- No. 11020. By John Maclellan, a member of the firm of Messrs. Foy and Gibson, of 139 Smith-street, Collingwood, near Melbourne, Victoria, merchant, for "Improved means for securely retaining stoppers in bottles, jars, and other receptacles." 11th December. Provisional.
- No. 11021. By Asa Norman Whitney, of the Melbourne Club, Collins-street, Melbourne, Victoria, master mariner, for "An improved lay or inanimate 'pigeon.'" 12th December. Complete.
- No. 11022. By George Massey, of 6 Post Office Chambers, Pitt-street, Sydney, New South Wales, civil engineer, for "A combination spanner and locking tool for nuts and bolts." 12th December. Provisional.
- No. 11023. By James Robert Horne, of Sandham-street, Elsternwick, Victoria, gentleman, for "Improvement in the method of printing, packing, and conveying butter of uniform various weights from factories and dairies to market." 12th December. Complete.
- No. 11024. By John Corcoran, of Tarraville, South Gippsland, Victoria, tanner, for "An improved method of [water supply for cooling railway trucks and other compartments." 12th December. Provisional.
- No. 11025. By Henry Adams, of 29 Aberdeen-road, East Prahran, Victoria, contractor, for "An improved portable export fruit case." 13th December. Provisional.
- No. 11026. By George Sexton Evans, of North-road, Elsternwick, Victoria, civil engineer, for "An improved method of protecting cable tramways grippers against the destructive action of the slot rails on each side." 13th December. Provisional.
- No. 11027. By John Smith, of North Sydney, New South Wales, coach-builder, and Charles Pratten, of Harris-street, Ultimo, Sydney, New South Wales, manager of the Farmers' and Dairymen's Milk Company, for "Improvements in sulkeys." 13th December. Provisional.
- No. 11028. By David Elliott, of Botany-street, Redfern, New South Wales, tinsmith, for "An improved heat exchanger." 13th December. Provisional.
- No. 11029. By Carl Gustaf Patrik de Laval, of Stockholm, Sweden, civil engineer, for "Improvements in supporting rotating bodies." 13th December. Complete.
- No. 11030. By The Simplex Mineral Water Aerator Syndicate Limited, of 3 East India Avenue, London, England, for "Improved apparatus for the manufacture of aerated water or other liquid." 13th December. Complete.
- No. 11031. By Thomas Frederick Curtis, of 56-62 Elizabeth-street, Melbourne, Victoria, for "A portable easel for sketching, painting, and other purposes." 14th December. Provisional.
- No. 11032. By William Davis Bowen and John Bowen, both of William-street, Broken Hill, New South Wales, metallurgists, and Frederick Augustus Edwards, of Grand Hotel, Argent-street, Broken Hill aforesaid, mining manager, for "Improved process for the treatment of gold ores, refractory or otherwise, and of complex silver ores containing zinc, antimony, and other refractory metals." 15th December. Provisional.
- No. 11033. By Matthew Belk, of Palmerston North, New Zealand, feather dyer, for "A new or improved apparatus for preventing locomotives from leaving the rails." 15th December. Provisional.
- No. 11034. By Frank Arthur Harris, of "Netley," Dundas-street, Northcote, near Melbourne, Victoria, potter, William Maclach, of 413 Victoria-street east, Collingwood, near Melbourne aforesaid, engineer, and William George Sandys, of Newcastle-street, Yarraville, near Melbourne, Victoria aforesaid, engineer, for "An improved method of aid machinery for manufacturing earthenware and stoneware drain pipes." 16th December. Provisional.
- No. 11035. By Harry Hale, of Point Nepean-road, Cheltenham, Victoria, boot dealer, for "An improved potato digger." 16th December. Provisional.
- No. 11036. By David Jones, pattern maker, Hugh Vaughan, draper, and William Henry Knight, mechanic, all of 11 George-street, Redfern, Sydney, New South Wales, for "Horizontal machine with worm feeding furnace combined for compressing coal, pitch, tar, and oil into fuel blocks." 18th December. Complete.
- No. 11037. George Whitwell Chalmers, of 137 Westbury-street, East St. Kilda, Victoria, plumber, for "Improvements in the method of milking cows and other animals." 18th December. Provisional.
- No. 11038. By Carl Edward Kirmse, of Nunurkah, Victoria, civil engineer, for "An improved apparatus for exhausting or supplying air or gas." 18th December. Provisional.
- No. 11039. By Robert Barr, of 110 Brunswick-street, Fitzroy, Victoria, printer and publisher, for "An improvement in the construction of cold storage houses, vehicles, and cooling chambers." 18th December. Provisional.
- No. 11040. By Frank Arthur Harris, of "Netley," Dundas-street, Northcote, near Melbourne, Victoria, potter, William Maclach, of 413 Victoria-street east, Collingwood, near Melbourne, Victoria aforesaid, engineer, and William George Sandys, of Newcastle-street, Yarraville, near Melbourne aforesaid, engineer, for "An improved two-wheeled barrow or hand truck, principally for the purpose of conveying earthenware and stoneware pipes from one place to another during the process of manufacture." 18th December. Complete.
- No. 11041. By Hugh Thomson, of "Thornton," Studley Park-road, Kew, near Melbourne, Victoria, tanner, for "Improved metal hobs or studs for boots and shoes." 19th December. Complete.
- No. 11042. By Paul Dubiau, of 80 Rue de Paradis, Marseilles, France, engineer, for "Improvements in or connected with steam generators." 19th December. Complete.
- No. 11043. By Dugald Little, of Gardiner House, Dandenong-road, Malvern, Victoria, for "Cooling railway cars, ships' holds, and storage chambers." 19th December. Provisional.
- No. 11044. By George Smith Morison, of 20 Brunning-street, St. Kilda, Victoria, tramway company employé, for "An improved potato digger." 19th December. Provisional.
- No. 11045. By Oscar Brunler, of 15 Braustrasse, Entritzsch, Leipsic, Germany, engineer, for "Process for obtaining a compression in gas and petroleum engines with slow combustion." 19th December. Complete.
- No. 11046. By John George Yandell, of 300 Chapel-street, Prahran, Victoria, chemist and dentist, for "An improved method of and apparatus for ventilating and cooling railway and other vehicles and chambers generally." 20th December. Complete.
- No. 11047. By George Hawker, of Point Nepean-road, South Brighton, Victoria, blacksmith, for "A machine for raising potatoes and separating them from the soil and tops." 20th December. Provisional.
- No. 11048. By Julius Gottfried Roediger, managing director of the Braybrook Implement Company Limited, of Devonshire-road, Braybrook Junction, Victoria, for "An improved horse works." 25th December. Provisional.
- No. 11049. By Montague Herbert Churchill Shann, of 32 Winter-street, Malvern, Victoria, engineer, for "An improvement in staying for water tube boilers and the like." 20th December. Provisional.
- No. 11050. By Granville White, of 2 Grandview-terrace, Moreland, Victoria, contractor, for "An improved spark destroyer and smoke purifier." 20th December. Provisional.
- No. 11051. By Augustin Avrial, of 16 Drouot-street, Paris, France, manufacturer, for "Improvements in sewing machines." 20th December. Complete.
- No. 11052. By Barnett Glass, of 16 and 18 Queensberry-street, North Melbourne, Victoria, waterproof garment manufacturer, for "Improvements in indiarubber waterproof garments." 21st December. Complete.
- No. 11053. By Asa Norman Whitney, of Footscray, Victoria, engineer, for "An improved counterfeit pigeon projector or trap for shooting practice." 22nd December. Complete.
- No. 11054. By George Frederick Gee, of Islington, Canterbury, New Zealand, tin-plate worker, for "A finger can opener." 22nd December. Complete.
- No. 11055. By Arthur George Holroyd, of Moray-street, South Melbourne, Victoria, metallurgist, Edward Hughes, John Sinclair Pirrie, and Edward Joseph Rigby, all of Hanna-street, South Melbourne, Victoria, engineers, for "An improved concentrator and classifier." 22nd December. Complete.
- No. 11056. By William George Sandys, of Newcastle-street, Yarraville, near Melbourne, Victoria, engineer, for "Improvements in the cores of machines for making earthenware or stoneware pipes." 23rd December. Provisional.
- No. 11057. By Stuart Leopold Mackenzie, of "Glenview," Stanhope-street, Malvern, Victoria, chairman, for "An improved method of protecting spouting from sparrows, leaves, and other rubbish." 23rd December. Provisional.

- No. 11058. By James Greedy, of Gilberton, South Australia, coach-builder, for "An improved swing bar for securing shafts and pole to buggies and other similar vehicles." 28th December. Complete.
- No. 11059. By Eugene Hermite and Charles Friend Cooper, both of European Works, Pownall-road, Dalston, London, England, engineers, for "Improvements in disinfecting and apparatus for that purpose." 28th December. Complete.
- No. 11060. By Charles James Holroyde, of 87 Fitzwilliam-street, East Kew, near Melbourne, Victoria, engineer, for "A new or improved clip for fastening the covers of electric light and other casing." 28th December. Provisional.
- No. 11061. By William John McGaw, of Koob Station, Darlington Point, South-Western Railway, New South Wales, station owner, for "A plough for preventing the spreading of bush fires." 28th December. Complete.
- No. 11062. By Henry Jagers, of 101 George-street, East Melbourne, Victoria, contractor, for "An improved apparatus for concentrating metals." 30th December. Provisional.
- No. 11063. By William Gordon Coote, of Yuulong, Scotsburn, Victoria, farmer, for "Potato digging." 30th December. Provisional.
- No. 11064. By James Coventry, tinsmith, William Thomas Hildreth, jun., waste product merchant, and Edwin James Le Grove, journalist, all of the city of Wellington, New Zealand, for "An improved index for telephone subscribers' lists." 30th December. Provisional.

PROVISIONAL SPECIFICATIONS ACCEPTED.

No.	Date of Acceptance.	Name.	Title.
	1893.		
10997	December 2	Sidney Prescott Wood	Improved contrivances for automatically compensating for the expansion and contraction of wires used in operating semaphore and other signals
10998	December 2	John Jerger	Method of and apparatus for saving or recovering fine or float gold
10999	December 2	Moritz Meyring	Improvements in machinery for the saving of gold or other valuable minerals
11000	December 2	Francis James Odling	An improved method of calcining roasting, chlorination roasting, and de-sulphurizing ores, and apparatus therefor
10871	December 4	Edward Francome	Drain plough
10986	December 7	Julius Emil Rieschick	An improved appliance for rendering a lady's stirrup leather adjustable on the off side
11007	December 7	William John Dunstan	Starting cable tram cars
11010	December 7	Henry Hyne	Improvements in and connected with sluice boxes for extracting the gold from auriferous material
11003	December 8	Edward Eliot Chambers	An improved venetian blind
11012	December 8	David Watts	An improved spark arrester for locomotive boilers
11004	December 9	John Flynn	An improved safety label and a clasp link for use with same
11006	December 11	George Gibbins	A method altering or interchanging the bodies (or attachments thereto) of multiple-furrow ploughs
11014	December 12	Edward Arthur Brown	An improved spark arrester for locomotive and other boilers
11005	December 13	Alfred Philip Dowell	A new or improved spring catch self fastener
11008	December 13	John Dunton	An improved means for supporting the rails of post and rail fences
11022	December 13	George Massey	A combination spanner and locking tool for nuts and bolts
11024	December 13	John Corcoran	An improved method of water supply for cooling railway trucks and other compartments
11015	December 14	Albert William Beard	Fastening lid of butter box used for export
11017	December 15	Robert Latta	An improved method of and means for connecting stirrups to saddles
11025	December 15	Henry Adams	An improved portable export fruit case
11026	December 15	George Sexton Evans	An improved method of protecting cable tramways grippers against the destructive action of the slot rails on each side
11028	December 15	David Elliott	An improved heat exchanger
10994	December 16	James Alston	An improved water trough
11031	December 18	Thomas Frederick Curtis	A portable easel for sketching, painting, and other purposes
11032	December 19	William Davies Bowen, John Bowen, and Frederick Augustus Edwardes	Improved process for the treatment of gold ores, refractory or otherwise, and of complex silver ores containing zinc, antimony, and other refractory metals
11033	December 19	Matthew Belk	A new or improved apparatus for preventing locomotives and vehicles from leaving the rails
11034	December 19	Frank Arthur Harris, William Machar, and William George Sandys	An improved method of and machinery for manufacturing earthenware and stoneware drain pipes
11030	December 19	Robert Barr	An improvement in the construction of cold storage houses, vehicles, and cooling chambers
11038	December 20	Carl Edward Kirmsso	An improved apparatus for exhausting or supplying air or gas
11027	December 21	John Smith and Charles Pratten	Improvements in sulkies
11043	December 21	Dugald Little	Cooling railway cars, ships' holds, and storage chambers
11044	December 22	George Smith Morison	An improved potato digger
11049	December 22	Montague Herbert Churchill Shann	An improvement in staying for water tube boilers and the like
11050	December 22	Granville White	An improved spark destroyer and smoke purifier
11048	December 23	Julius Gottfried Roediger	An improved horse works

COMPLETE SPECIFICATIONS ACCEPTED.

NOTE.—Any person desiring to oppose the grant of a patent on any of the undermentioned applications must, within two months from the date of the acceptance, give notice at the Patent Office of such opposition.

No.	Date of Publication.	Name.	Title.
	1893.		
10254	December 1	Margaret von Reiche	A new self-acting system for trapping rabbits, foxes, hares, rats, field mice, snakes, all alive
10300	December 1	James Mason	An improved machine to cut furrows and distribute poisoned grain for the destruction of rabbits
10439	December 1	Carl Maria Pielstickor	Improvements in the extraction of gold and silver from ores
10565	December 1	William Nelson Blakeman, jun.	A new and useful process of making and treating pigments and paints
10712	December 1	David Silver and Charles Thomas Silver	Improvements in sheep-shearing machines and in flexible shafts therefor
10904	December 1	Wilbraham Evelyn Liardet	An improved safety explosive and method or process of manufacturing the same

COMPLETE SPECIFICATIONS ACCEPTED—continued.

No.	Date of Publication.	Name.	Title.
	1893.		
10907	December 1	Thomas Smith	A new or improved ventilator or chimney cowl
10963	December 1	Robert Ferguson	An improved tap or cock for aerating liquids
10977	December 1	Edward Eugene Dulier	Improvements in apparatus for removing impurities from smoke
10984	December 1	David Silver and Charles Thomas Silver	Improvements in sheep-shearing machines
10163	December 8	Alfred Ensson	An improved railway buffer
10189	December 8	William Wallace Clarke	Feeding calves
10339	December 8	Edmund Paul Dignan	Improvements in and relating to the driving gear of stripping machines
10511	December 8	Robert Ferguson	Improvements in automatic flushing syphons
10742	December 8	Lloyd Heber Chase	An improved optical fore-sight for rifles or other firearms and ordnance
10821	December 8	Stephen Cox Middenwāy	Folding and wrapping newspapers and periodicals, &c., to be called "Middenway's improved wrapping machine"
10920	December 8	Joseph William Sutton	Improved rotary apparatus for the generation of chlorine gas, connexion between the generating and chlorinating chambers, and the chlorination of pulverized or finely-divided gold or silver ores
10933	December 8	Abner Torkington	Improvements relating to the manufacture of white lead and to apparatus therefor
10965	December 8	Richard Alexander Hamilton	An apparatus for use in conjunction with diving dresses for minimizing the danger of deep-water diving
10968	December 8	James Beal Meldrum and Burton Ealy Sampson	Improvements in and connected with enclosures or kilns for seasoning timber
10971	December 8	Richard Hales Smith	An improved oyster opener
10989	December 8	John Franklin Knight	A wet or dry gold separator
10990	December 8	Henry Belland Tyler and Abraham Thomson	An improved apparatus for bluing or colouring nails, tabs, and other like articles
10350	December 15	John Davies	An improvement in domestic kettles and similar utensils
10563	December 15	William Nelson Blakeman, jun.	A new and useful process of treating fatty and other oils so as to impart drying properties to the same
10879	December 15	Edward Waters	An improved method of and apparatus for dissolving, leaching, and filtering
10887	December 15	William Lind	A foster mother for rearing chickens and other young birds when hatched
10991	December 15	George Simpson Pitcairn	Improvements in pyramidal boxes for classifying metalliferous material
11002	December 15	Willis Durwood Sherman	Improvements in hoisting apparatus
11019	December 15	William Harding	An improved portable circular saw machine
10655	December 22	James Dennis Horne	A method for the extermination of rabbits
10769	December 22	Ernst Egger and Ferdinand August Wessel	Electric cars
10792	December 22	David Anderson	An improved spark arrester
10843	December 22	James Musgrave, George Dixon, Edward Field, and Francis Sanders Morris	Improvements in steam-engines
10955	December 22	Alfred Tabor, jun.	A new and improved gold-saving, concentrating, and amalgamating appliance
10985	December 22	David Silver and Charles Thomas Silver	Improvements in flexible shafts
11021	December 22	Asa Norman Whitney	An improved lay or inanimate "pigeon"
10342	December 29	James Wilson	Improved sheet or "blanketing" for retaining fine gold and other metals
10513	December 29	John Cunninghame Montgomerie	Improvements in the extraction of gold and silver from ores or compounds containing the same, and in apparatus applicable for use in the treatment of such materials by means of solvents
10595	December 29	James Hugh Baxter	An improved spark arrester
10689	December 29	Thomas Burke Fogarty	Process and apparatus for the production of cyanides and ammonia and gases for use in such production
10758	December 29	Roderick Impey Murchison	An improved contrivance to be used for starting horse races
10803	December 29	Henry Noyes	Improvements in the construction of woven wire webbing suitable for mattresses, bedstead bottoms, sofas, chairs, and the like
10882	December 29	Arthur Edwin Hart	Improved shaft tug
10978	December 29	Giacomo Durio and Secondo Durio	Improvements in and relating to tanning hides and skins and to apparatus therefor
10983	December 29	Henry Monleau de Montenas, John Lane, Edward George Cronin, and Thomas Con Allen	An improved mode of and apparatus for destroying garbage and noxious organic matter
11013	December 29	Richard Hales Smith	A tubular screw
11029	December 29	Carl Gustaf Patrik de Laval	Improvements in supporting rotating bodies
11040	December 29	Frank Arthur Harris, William Machar, and William George Sandys	An improved two-wheeled barrow or hand-truck, principally for the purpose of conveying earthenware and stoneware pipes from one place to another during the process of manufacture
11042	December 29	Paul Dubiau	Improvements in or connected with steam generators
11045	December 29	Oscar Brunler	Process for obtaining a compression in gas and petroleum engines with slow combustion
11046	December 29	John George Yandell	An improved method of and apparatus for ventilating and cooling railway and other vehicles and chambers generally
11051	December 29	Augustin Avrial	Improvements in sewing machines

PROVISIONAL SPECIFICATIONS REFUSED.

No.	Date Refused.	Name.	Title.
	1893.		
10615	December 14	David McRoberts and Charles Oakley Cutler	Artist's combination palette
10797	December 11	John Francis Botting	Appliances for teaching arithmetic
10902	December 7	William Clymer Stott	An improved method of heating water by means of a circulating tube or tubes
10905	December 14	Donald Matheson	Arresting sparks in locomotive, portable, traction, and other engines
10916	December 7	Henry Cook	Fire kindler

COMPLETE SPECIFICATIONS REFUSED.

No.	Date Refused.	Name.	Title.
10377	1893. December 1	Alois Riedler	Improvements in and connected with compressing and pumping apparatus
10635	December 7	Paul A. Renzow	A treble onion seed-sowing machine
10661	December 7	James Hugh Brake and Richard Bradbury	The manufacture of a combination pipe, the exterior portion whereof is of earthenware and the interior portion whereof may be of metal, paper, or canvas
10805	December 7	Richard Hales Smith	A fluted and twisted nail

LETTERS PATENT SEALED.

No.	Date of Sealing.	Name.	Title.
	1893.		
10293	December 6	Arthur Otto Sachse	An improvement in cooking utensils
10506	December 6	Henry Thomas Dawson	Improvements in gas-engines
10517	December 6	Henry Williams	An improved ploughshare
10647	December 6	James Wilson	An improved tool for cutting and smoothing the welts and soles of boots
10697	December 6	Thomas Willmot and Michael Thomas Morgan	Improved apparatus for coating paving blocks and lengthy supple subjects with tar, oil, pigments, or other liquids
10735	December 6	George Thomas Booth	Improvements in harrows of a class allied to disc harrows
10756	December 6	John Stewart MacArthur and Charles James Ellis	Improvements in the "MacArthur Forrest" process of extracting gold and silver from ores and the like
10767	December 6	John Hartnett and David Moffat Robison	Improvements in machines for milking cows and other like animals
10770	December 6	Gabriel Eilenberg and Meyer Zeltner	An improvement in the seams of waterproof clothing
10771	December 6	Gabriel Eilenberg and Meyer Zeltner	An improvement in the joints of the facings and pockets of waterproof garments
10825	December 6	Henry Thomas Dawson	Improvements in gas-engines
10830	December 6	Frederick Long	Improved rotary ore crusher
10833	December 6	Joseph Colley	Improvements in striking mechanism of certain descriptions of small arms
10834	December 6	Joseph Colley	An improved split screw-keeper for guard swivels of small arms and the like
10836	December 6	Joseph Colley	An improved rod holder for stocks of small arms
10841	December 6	Gustavus Casar Horstmann, John Clement Ellison, and John Callaghan	Improvements in centrifugal amalgamators
10739	December 8	Richard Alexander Hamilton ...	An improved tent
10010	December 12	Carl Adolph Sahlstrom and Ellis Parr	Improvements in the process of and apparatus for the cleansing of wool, hair, silk, cotton, flax, and other animal and vegetable fibres or fabrics, the recovery of by-products, such as oil and fat, and of the whole or part of the ingredients used in the process
10025	December 12	Edward Waters	Improved mechanism, applicable to a device which can be used either as a rotary steam-engine or as a rotary pump
10206	December 12	Henry Clay Elliot	Improved folding bars for cigarette machines
10233	December 12	David Thompson	An improvement in the method of and apparatus for compressing air
10253	December 12	John Bowring	Improvements in cooking processes
10658	December 12	Marcel Certain	A new or improved method of and machinery and apparatus for treating the sulphide ores of antimony, more especially those ores known as "rebellious" or "refractory"
10804	December 12	William Clark, Alexander Cameron, and Charles Kirk	Improvements in automatic flushing apparatus for urinals, applicable also to other contrivances wherein a predetermined quantity of liquid is syphoned through or over a break or opening in the long leg
10823	December 12	James Valentine Coleman ...	Improvements in adjustable partitions for packing boxes and travellers' cases, and for other like purposes
10826	December 12	Edgar Ayres	Improved electrical mechanism for operating clocks synchronously, and electrical apparatus for controlling said mechanism
10246	December 18	Rosa Gosden	Improvements in bidets or hip baths
10602	December 18	George Earl Church and George Watson Ettenger	Improvements in metallic under frames and bogie frames of railway rolling-stock
10691	December 18	Alexander Robert Hislop	A new or improved advertising ruler
10790	December 18	John Thomas Walker	An improved reel to be used for straining wire
10822	December 18	Askin Morrison Nicholas	Improved concentrating pan
10844	December 18	Carl Moldenhauer	A process for precipitating precious metals from solutions
10854	December 18	John Athay Jefferies	An improved worm wheel
10869	December 18	Joseph Temperley	Travelling pulley carriage for raising, lowering, and traversing loads
10851	December 20	Friend Johnson Bringham	Method of and apparatus for the manufacture of seamless leather articles
10093	December 20	Arthur Lucas Harrold	A combined multi-furrow paring plough, seed sower, and manure distributor
10278	December 23	Cecil Edwin Paterson	Improvements in pea-threshing machines
10644	December 23	Walter Charles Church	Improvements in or connected with steam and other motive fluid engines
10760	December 23	Thomas Edwards	Improvements in process and apparatus for the application of chlorine for the extraction of gold from pyrites, matte, quartz, or other material containing the same
10831	December 23	George Montague Bowser and George Bowser	An improved reciprocating machine for moulding and dressing stone used for building, drainage, and other analogous purposes
10861	December 23	Robert Hall Best	Mechanism for raising and lowering the centre lights of chandeliers, electroliers, and the like
10872	December 23	Ewald Schoneberg	Improvements in barbed fencing wire
10874	December 23	Samuel Starrett	A new apparatus for fixing or locking up type or printing surfaces in their formes or holders
10880	December 23	Frederick North	An improved tobacco pipe
10856	December 23	Edward Waters	Improvements in and connected with machines for casting lines of type, and in and connected with their matrix bars
10416	December 29	Pierre Aignau Moreau	Improvements in the artificial coloration and hardening of natural or artificial stone

PATENTS ON WHICH RENEWAL FEES HAVE BEEN PAID.

No.	Renewal Fee.	Name.

PATENTS EXPIRED FOR NON-PAYMENT OF FEES.

NOTE.—These patents may be revived upon application to the Commissioner within six months (see *Patents Act 1890*, sec. 22).

No.	Name.	Title.	Term.
4804	Porter B. Yates	Improvements in wood-polishing machines	3rd term
4842	Henry D'Esterre Taylor	An improved apparatus for cooling air	"
4843	Robert John Shaw	Improvements in meat safes, which improvements are partly applicable to existing meat safes	"
4846	William Cowan	Improvements in apparatus for the measurement of liquids	"
4847	Alfred René Upward and Charles William Pridham	Improvements in galvanic batteries and in apparatus connected therewith	"
4852	Thomas Jefferson	An invention for making the shell of raised pies	"
4855	Andrew Kilgour	A tree and stump extractor	"
4858	Edward Seitz	An improved wet or dry amalgamator	"
4859	Desmond Gerald Fitzgerald	Improvements in the manufacture of plates or elements for voltaic batteries	"
4862	Roderick Kilborn	An improved feed water heater for locomotive or other engine boilers	"
8292	Henry George Bedell	An improved gas regulator and purifier	2nd term
8293	James Walters	Improvements in revolvable and other seats for buggies and other vehicles	"
8294	William Frederick Jones	An improved pneumatic tracker action for operating the pallets and stops in organs	"
8295	The Melbourne Sanitary Syndicate Limited	An improved centrifugal separator for treating night-soil or excreta	"
8298	John Tonner Kelly and Archibald McIntyre	Improved means for raising sunken vessels	"
8301	Samuel Wareham	An improved wall ventilator	"
8303	James Main Swinbourn	An improved ball valve for hydrants and fire-plugs	"
8304	Benjamin Miller Gibson	Improvements in pigment branding machines	"
8305	Alfred Dobinson	A new or improved contrivance for conveying excavated material from and depositing it beyond canal and railway cuttings	"
8310	Thomas Field, Thomas Andrew Hemming Field, and Henry Montague Field	A new or improved syringe or pump, more especially applicable for spraying fruit trees	"
8311	Henry Jerger	An improved beam water engine	"
8312	Charles Riddell	Improvements in the manufacture and application of the compounds of chloride of sulphur with fatty bodies	"
8318	William Gillies	Improvements in machines for sharpening the combs and cutters of sheep-shearing machines and for grinding and polishing flat surfaces	"
8319	William Algernon Ede-Clendinnen	Improved means for retaining window and other sashes in any desired position	"
8323	Parnell Rabbidge	Improvements in telephones	"
8326	Charles Fairbairn	Improvements in apparatus for forging and finishing circular articles	"
8327	Reuben Hallenstein	Apparatus for working fireproof doors for closing lift openings and other apertures in floors of buildings	"
8325	John Tyler, George Meacham, and William Albert Blandford	A steam rotary motor for the driving of governors for regulating marine and other engines	"
8329	Hugh Watson Mackenzie	An improved machine for gauging, cutting, and panning dough used in the manufacture of biscuits	"
8330	Samuel Howard Stott	Improvements in apparatus for diffusing upon plants fertilizing, insect-destroying, or other compounds in liquid form	"
8333	George Samuel Baker	Improvements in oven lights	"
8335	William Parker	An improved portable press for hay, straw, and the like	"
8337	Robert Rogers	Improved lacing contrivances for boots, shoes, ladies' corsets, and other articles	"
8338	William John Jessup and George Henry Cugley	An improved construction of rising beam and foot, and means of supporting it on stump-jump ploughs and cultivators	"
8341	Herbert Leslie Manton	An electric apparatus for indicating tabulated public information	"
8344	Frances Ann Fisher	A new or improved safe, which is more especially applicable to storing and cooling butter	"
8347	Duncan Cameron and Robert Cameron	An improved contrivance for protecting provision safes, &c., from the intrusion of ants, cockroaches, and such like	"
8350	William Roberts and Howard Raymond Belden	An improvement in conical disc burnishing machines	"
8352	Charles Graham Hepburn and Wilfred Joseph Spruson	Improvements in magnetic separators	"

PATENTS EXPIRED FOR NON-PAYMENT OF FEES—continued.

No.	Name.	Title.	Term.
8355	Henry Thomas Tootell	Improvements in mouldboards of ploughs	2nd term
8358	The Marshall Improved Window Furniture Company	Certain improvements in sash balances	"
8361	William Holme Davis	Improvements connected with aerated liquor fountains	"
8362	Giovanni Battista Zerderli and John O'Grady	An improved anti-acetic bung and spigot for wine casks	"
8364	Thomas Alexander Patterson	Improved means for producing a fine spray or mist for watering plants and cooling purposes	"
8366	Henry Anthony Hedley	Improvements in the method of precipitating gold from the liquor in which it is held in solution	"
8367	William Stone	Improved means for automatically regulating the currents of "open-coil" dynamo-electric machines	"
8372	Joseph William Corbett	A new cementitious and fire-resisting composition	"
8375	Richard Wood Davies and Herman Steinberg Pieremont	Improvements in brick-making machinery	"
8377	William Lacy Clark	Improvements in machinery for heating carpets	"
8381	William McLean	Apparatus for automatically emptying, cleansing, and disinfecting night-soil pans and other utensils for similar purposes	"
8382	Alexander Holm	An improved construction of frame for cess-pan transport waggons	"
8385	James Peter Franki and Norman Selke	Improvements in condensing pumps for refrigerating machinery	"
8386	Thomas Alva Edison	Improvements in methods and apparatus for applying the power of electric motors, especially applicable to electric railways	"
8390	William Henry Coward	Improvements in mills for crushing or pulverizing ores and other substances	"
8393	Herbert Oates Capes	An improved compound for removing paint, rust, and other coatings from metal and other surfaces	"
8394	James Kelly	Improvements in worm-gear baling presses	"

APPLICATIONS ABANDONED.

No.	Date of Abandonment.	Name.	Title.
	1893.		
10294	November 4	Bernard Moss	An improved automatic coin-freed contrivance for delivering single cards
10295	November 4	John Ebbs	Improvements in apparatus for flushing sewers
10297	November 7	Alexander Crawford	An improved instrument to be used in caponizing poultry
10298	November 7	Andrew Mackay	An improved ledger and hand-rest for ledger-keepers and for artists who paint small ornaments, china, glass, &c.
10301	November 8	Herbert King Hancock	An improved method of ventilating milk cans
10310	November 12	John Alves, jun.	An improvement in shirt cuffs
10311	November 12	James Greenhill	Improvements in grape mills
10313	November 14	Robert Ogg	An improved water-heater
10314	November 14	L. Cox	Safety gear for the automatic opening and closing the doors for passenger lifts
10319	November 15	Annie Smales	Improvements in the construction of railway rolling-stock to enable same to be used on railways of different gauges and appliances connected therewith
10320	November 17	George Fagg	An improved automatic machine for nailing fruit and other wooden boxes
10321	November 15	Edward James Crawford	An improved spirit level
10322	November 15	William Henry Allen	An improved wool-washing composition
10324	November 17	James Scott and James Cunningham	An improved cowl for fire-plugs
10326	November 18	George White	An improved contrivance for aiding persons in swimming
10327	November 18	Herbert Merriman	An improved valve for hydrants and fire-plugs
10328	November 19	John Lewis	An improved ripple for attachment to rotary crushing machines and amalgamators
10329	November 21	Philip Conyngham	Improved method of hanging venetian blinds
10331	November 23	Elisha Tippett	A new or improved solution for extracting precious metals from argenteriferous and auriferous ores
10333	November 23	Robert Harvey	Improved method of locking balls
10334	November 24	Hugh Thomson	An improved fire-plug

APPLICATION VOID.

(The complete specifications not accepted within the prescribed time.)

No.	Date of Application becoming void.	Name.	Title.
10078	22nd December, 1893	William Webb	A method and means for extinguishing fires and for introducing cold or heated air into buildings or portion of buildings or vessels

ASSIGNMENTS REGISTERED.

No.	Title.	Date of Registration.	Name of Assignee.	Whole or Part.
5490	Improvements in the construction of hydraulic lifts or elevators	13th December, 1893 ...	Johns and Waygood Ltd. (New Co.)	Whole
6723	An improved hydrant	13th December, 1893 ...	Johns and Waygood Ltd. (New Co.)	Whole
