EXAMINATION FOR MINING SURVEYORS.—
CERTIFICATE ISSUED.

THE Board of Examiners for Mining Surveyors has granted a certificate to

Mr. THOMAS COWLEY HODGSON

without examination.

JAMES MILNE,
Secretary to the Board.
Office of Mines,
Melbourne, 13th March, 1895.

EXAMINATIONS FOR MINING AND FACTORY
ENGINE-DRIVERS.

NOTICE.—Applications (to be accompanied by a fee of 10s.) will be received by the Secretary for Mines, Melbourne, up to the 30th March, from persons desirous of being examined in Melbourne for Certificates as Engine-drivers and Boiler Attendants.

Applications will also be received up to the 13th April from candidates who wish to be examined in the country districts. Forms of application and copies of the regulations may be obtained at this office, or from any of the Mining and Factory Inspectors.

JAMES MILNE,
Secretary to the Board of Examiners for
Engine-drivers.
Office of Mines,
Melbourne, 26th February, 1895.

EXAMINATIONS FOR MINING SURVEYORS.

BOARD OF EXAMINERS.

R. L. J. ELLERY, Esq., C.M.G., F.R.S., Government Astronomer.
STUART MURRAY, Esq., C.E., Chief Engineer for Water Supply.
A. W. HOWITT, Esq., F.G.S., F.L.S., Secretary for Mines.
REGINALD A. F. MURRAY, Esq., F.G.S., Government Geologist.

THE Board of Examiners hereby gives notice that the next examination will commence on Wednesday, the 3rd April, 1895.

Candidates must lodge their applications with the Secretary to the Board not later than the 16th March; they must also forward to the Board satisfactory documentary evidence that they have complied with the preliminary conditions; and on their application being approved by the Board they must pay the prescribed fee of £2 2s into the Treasury, Melbourne, or into any Receipt and Pay Office, and forward receipt for same to the Secretary to the Board, Office of Mines, Melbourne.

PRELIMINARY CONDITIONS.

1. Every candidate must have previously obtained a certificate as Contract or Authorized Land Surveyor from the Board of Examiners appointed in connexion with the Department of Lands and Survey in Victoria.

2. He must also have served for not less than six months under some competent mining surveyor or engineer, or mining manager, in the conduct of mining surveys or actual mining operations.

A candidate whose application shall have been approved as having complied with the above conditions will be examined, and will be required to pass in each of the six following subjects:—

- (1) Mining Surveying.—Connexion and reduction of bearings to datum of surface survey; survey of vertical and inclined shafts, drives, and workings; survey of mineral veins and lodes, leads, and drifts.
- (2) Levelling.—Practice of surface and underground levelling, levelling by vertical angles, plotting sections.
- (3) Mensuration of earthwork.
- (4) Practical Mining.—Construction of shafts, chambers, and tunnels in rock and drift; timbering, drainage, and ventilation of mines; general principles of the strength of timber in framings; constructions in rough carpentry.
- (5) Hydraulic Engineering.—Measurement and estimation of water in natural and artificial channels, estimation of sources of water supply, dimensions and discharge of pipes and channels, construction of reservoir embankments, weirs, and aqueducts.
- (6) Geology.—Lithological structure of the principal rock formations as they occur in Victoria; modes of occurrence of gold and other valuable minerals.

The Board of Examiners will accept the degree of Master of Civil Engineering of the University of Melbourne, with satisfactory evidence of six months' practical experience under some competent mining engineer, mining surveyor, or mining manager in the conduct of mining surveys or actual mining operations, reserving the right of *visu voce* or other examination in these subjects and also in geology as applied to mining, if deemed necessary.

JAMES MILNE,
Secretary to the Board.

MELBOURNE AND METROPOLITAN BOARD OF WORKS.

BY-LAW No. 5.*

REGULATIONS for the construction and use of Sewers and Drains within the area under the control of the Melbourne and Metropolitan Board of Works.

NOTE.—The sections quoted are those contained in the "Melbourne and Metropolitan Board of Works Act 1890."

Preamble.—Whereas by the Melbourne and Metropolitan Board of Works Act 1890 (hereinafter called "the Act") it is amongst other things enacted—that, subject to the provisions of the Act, and in order to secure the efficient maintenance of the main and general sewerage of the metropolis, the Board created by the Act, and hereinafter called "the Board," may from time to time make by-laws in relation to the levels, dimensions, construction, maintenance, ventilation, and cleansing of sewers; subject, however, to the approval of the Governor in Council before any by-law as to the construction, ventilation, or cleansing of sewers shall be of force or effect, and that the Board may by any such by-laws prescribe the form of any notices or orders under the Act, which notices or orders may be used in the form so prescribed or to the like effect, varied as the circumstances may require, and shall be sufficient in law, and that by such by-laws the Board, with the approval of the Governor in Council, may impose reasonable penalties, not in any case exceeding the sum of Twenty pounds, for the violation of any such by-laws or regulations.

And whereas by Part III. of the Act provision is made with regard to main sewerage and drainage, and the sewerage and drainage of private premises, and by section 100 thereof it is provided that every person intending to make or branch any sewer or drain into a sewer vested in the Board shall, seven clear

days before commencing any works for that purpose, make written application to the Board, accompanied by a plan showing such particulars as may be required by any by-law or resolution of the Board, and that no such work shall be commenced until the sanction in writing of the Board has been given:

And whereas it is expedient that regulations with regard to the construction of sewers and drains in the metropolis, more especially in relation to their connexion with the main sewers and to water-closets, sinks, traps, and other house sewerage fittings, appliances, and apparatus, should be prescribed; and that the same, and also the terms and conditions upon which the sanctions, permissions, authorities, and consents which the Board is empowered to give for connecting private sewers and drains with the sewers and drains of the Board and otherwise will be accorded and given, should be declared and known:

Now, therefore, the Board doth hereby, pursuant to and in exercise of the power and authority conferred upon it as aforesaid, make the following by-law (that is to say):—

GENERAL.

1. The sewerage system of the metropolis consists of main and lateral conduits of salt-glazed vitrified stoneware, Portland cement concrete, brickwork in cement, wrought iron, cast iron, or of these materials combined in various ways.—[Section 79.]

They are designed to carry off all the water passing through water-closets, lavatories, baths, and urinals; all chamber slope; water used in cooking, washing food, clothes, floors, &c., and generally from sinks in kitchens, cellars, and sculleries, from stables, cow-houses, and other out offices, together with all liquid refuse which in the opinion of the Board will not prejudicially affect the sewers, sewerage machinery, or the sewage farm.

Washings from paved yards will only be admitted as hereinafter provided.

2. All connexions of plumbing work, drains, or sewers with the sewerage system of the metropolis, and all work connected in any way with the drainage of any premises, shall be executed in accordance with these rules and regulations.—[Section 100.]

CONSTRUCTION OF SEWERS AND DRAINS.

3. The Board will construct, maintain, and repair all the main and lateral sewers. The drains must be constructed, maintained, repaired, and cleansed by or at the cost of the owners.—[Section 79.]

All the works of sewerage and drainage will be carried out in accordance with the provisions of Part III. of the Act, being sections 76 to 119 thereof, both inclusive.

In case of any obstruction taking place in a combined drain, draining two or more premises, the Board will determine between the respective owners of the premises so drained by whom and in what proportion the cost of removing any such obstruction shall be paid; and the proportion so determined must be paid by and will be recoverable from each such owner at the instance of such one or more of the other owners as shall have paid for the work, or of the Board if the work shall have been done by it.

Every person who by a notice from the Board issued in accordance with the Act shall be required to do or not to do anything, including therefore a requirement to make any sewer or drain, or branches, works, or arrangements for the better sewerage or draining of his house, building, or ground, and who fails to comply with such notice, will, under the provisions of section 165 of the Act, become guilty of an offence against the Act, and for every such offence he will be liable, unless other penalty be prescribed, besides any costs or expenses which may be incurred in taking proceedings against him, as well as any costs or expenses which may be incurred in remedying any default of his, to a penalty not exceeding Twenty pounds, and to a penalty not exceeding Five pounds, nor less than One pound, for each day during which such offence is continued by him, and such penalty will be recoverable, notwithstanding that the Board may not have chosen to exercise any power given to it by the Act to remedy such default.—[Section 165.]

With a view to obviate the incurring of liability to such penalties, and to insure uniformity and efficiency of work by reason of its being done by skilled and experienced workmen, supervised by the Board's inspectors, and for economy, because of the cheaper price at which fittings and apparatus can be obtained under contracts for large quantities thereof by the Board, the Board will, in exercise of its powers, contract and agree with the owners of houses, buildings, or ground that the constructing, altering, or enlarging any sewer or drain connected with such premises shall be done by the Board on payment of the cost of the same by the owners; and the Board will, in like manner, on payment of all expenses and cost, undertake to perform any work which may be required to be done by any notice issued by the Board to any owner.—[Section 105.]

LICENSED PLUMBERS.

4. No consent will be given to any person, firm, or corporation to do any kind of work connected with the laying of house drains or plumbing, or making any repairs, additions to, or alterations of any drain or plumbing work connected or designed to be connected with the sewerage system, unless through an employer or working plumber licensed by the Board.—[Section 99.]

The conditions upon which the Board will consent to the making or branching, or the causing to be made or branched, any sewer, or to the making or causing to be made any opening into any sewer, vested in the Board, or to the fixing of any fittings or apparatus, or to the doing of any other work in connexion with the sewers or drains within the metropolis, are and shall be:—

- (1) That every person contracting or undertaking to do any such work by the agency of workmen employed by or under him must himself be the holder of a licence from the Board called an "Employer's Licence," or of a licence from the Board called a "Working Plumber's Licence."

* Re-published in lieu of the By-law in Gazette of 22nd February, 1895, page 747.

- (2) That no person shall be engaged or employed as a workman in the actual performance of any such work unless he is the holder of a "Working Plumber's Licence" from the Board.

The conditions upon which "Employers' Licences" and "Working Plumbers' Licences" will be issued by the Board are—

- (1) That every such licence will be subject to suspension or cancellation at the will of the Board; and that all such licences will be granted to expire on the 30th day of June of each year.
- (2) "Employers' Licences" will qualify their holders to carry out work under the Board's Regulations, by the agency of licensed working plumbers; but such licences will not authorize their holders to do practical work under the said Regulations, unless they be also themselves holders of "Working Plumbers' Licences."
- (3) A special condition of every licence issued to an employer shall be that, if a licensed workman in his employment upon any such work prove, according to the judgment of the Board's inspecting officer, to be incapable as a workman, or transgress the Regulations of the Board, and the "Working Plumber's Licence" of such workman be for any such cause suspended or cancelled by the Board, and notice of such suspension or cancellation, in the Form A to this By-law annexed, or to the like effect, be given by the Board in writing, by registered letter, addressed in accordance with the registered address in the licence issued to the said employer, the employer shall cease to employ such workman upon any such work immediately after and during the continuance of such suspension or cancellation. And any holder of an "Employer's Licence" who shall neglect or fail to comply with this condition shall be liable to a penalty not exceeding Ten pounds, and to a continuing penalty of not more than Two pounds nor less than One pound for every day during which such neglect or failure shall continue after service of the hereinbefore mentioned notice upon such employer. And the "Employer's Licence" of such employer shall thereupon become liable to suspension or cancellation by the Board. [Form A.]

"Working Plumbers' Licences" will be issued to candidates who shall have successfully passed an examination by examiners appointed by the Board in the following subjects (that is to say):—

Materials.—The use of lead, tin, copper, and their alloys, wrought and cast iron, stoneware, bricks, tiles, Portland cement, and other materials used by the plumber and drainer.

Plumbing Practice.—As to solder and soldering, lead burning, lead laying, pipe and joint making, pipe bending, and general plumbers' practice.

Water Supply Work.—Knowledge of the Board's Water Supply By-laws, general water supply work, water supply fittings, hot-water connexions.

Sewerage Work.—Knowledge of the Board's Sewerage Regulations, construction and use of traps, soil, waste and vent pipes, house fittings, water-closets, kitchen sinks, baths, lavatories, housemaids' sinks, urinals, latrines, and other sewerage apparatus and appliances.

General Principles of Sanitary Work.—Flushing, ventilation, disconnection.

Candidates for examination in plumbing practice must provide themselves with their own tools, and must submit samples of work done by themselves, and also make any pipe, bend, joint, or other plumbing appliance which may be required to satisfy the examiners.

Candidates for "Working Plumbers' Licences" must give notice in writing to the Secretary of the Board of their intention to submit themselves to examination at such time as shall be appointed for the same by the Board's examiners.

Every candidate who shall have successfully passed the before-mentioned examination, and given proof to the satisfaction of the examiners of practical ability as a plumber, will be furnished with a licence from the Board to do practical work as a plumber upon and in connexion with the sewers, drains, and all necessary fittings, appliances, and apparatus appurtenant thereto within the metropolis, subject to and in accordance with the Board's Regulations. And he will likewise be furnished with a certificate from the Board that he is duly qualified to do work in connexion with the water supply and sewerage systems under the control of the Board, and in accordance with the Board's Regulations.

"Working Plumbers' Licences" will, at the discretion of the Board, be issued without previous examination to any practical plumber who shall be the holder of and shall produce a licence from any other sewerage or water supply authority equal in value to the standard established by the Board's examination according to the judgment of the Board's examiners, which shall be final, subject only to review by the Board.

Prior to the issue of any "Employer's Licence," or "Working Plumber's Licence," the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions thereof and with the Regulations of the Board, and that he will conform to and comply therewith.

The holder of an "Employer's Licence," or of a "Working Plumber's Licence," is hereinafter called a "licensee."

CONSENTS.

5. Application for the Board's consent to connect with the sewerage system, or to do plumbing work connected therewith, must be made in writing by a licensee for the owner of the property to be drained or his authorized agent. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be made in Form B hereto attached, or to the like effect. No consent shall be deemed to authorize anything not stated in the application, and for any misrepresentation in such application the licence of the applicant may be suspended for such time as the Board shall order; and if such misrepresentation appears to be wilful his licence shall be cancelled.—[Section 99. Form B.]

Consents to make connexions with the sewerage system will be issued only when the plumbing in the property, to be connected is in accordance with the rules for plumbing hereinafter prescribed, and has been inspected and approved of by an inspector of plumbing appointed by the Board for the purpose, or, in case of new buildings, when a proper plan of the plumbing has been approved of in writing by the Board, which shall define the position of the Y branch in the sewer to which the work must be connected. All connexions with the drains or sewers, and all plumbing connected therewith, shall be made under the direction of the Engineer-in-Chief or other superintending officer of the Board.—[Section 100.]

PLAN OF PLUMBING.

6. Seven days before a consent is issued for doing plumbing work in a property or before any alterations or additions are made, excepting necessary repairs, a plan and description of the work, signed by a licensee on forms to be furnished for the purpose, shall be filed in the office of the Board; and no such work shall be commenced until such plan and description shall be sanctioned, and no alterations shall be made in any way in the plan or any work without a special consent in writing from the Board. Such plan will be furnished by the Board upon application and payment for the same as follows:—

Plan of drainage, including survey,	
&c., for every house	5s. 0d.
Plan of any alterations or additions	2s. 6d.
Copy of drainage plan	2s. 6d.

—[Sections 100 and 101.]

Where the work is done by the Board, a plan of the work done, when it is completed, will be forwarded to the owner for his information, and the cost of making such plan shall be included in and form part of the cost of the work which shall be paid for to the Board by the owner.

INSPECTION.

7. The plumber is to give notice to the Board when any work is ready for inspection, and all work must be left uncovered and convenient for examination until inspected and approved of by an inspector appointed by the Board. Such inspection shall be made within twenty-four hours of such notification being received at the office of the Board, except on Saturday, when forty-eight hours must be allowed. The inspecting officer may apply the ether, peppermint, water, or smoke test, and the plumber shall furnish all the necessary tools, labour, and assistance for such tests. The plumber shall remove or repair any defective material or labour when so ordered by the inspecting officer.—[Section 107.]

Any drain pipe, soil pipe, trap, water-closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with these regulations, or which shall, in the opinion of the Board, be or become of bad or defective quality, shall, upon notice in writing from the Board, be removed or repaired in the manner determined and within the time fixed by the Board; and the Board will, if it think fit, remove or repair the said defective fitting, and charge the owner or occupier of the premises with the cost incurred.—[Section 111.]

STATEMENT OF WORK DONE.

8. The plumber shall, on the completion of the work, file in the office of the Board, on forms furnished for the purpose, a correct statement of the work done under the consent furnished for the same.—[Section 99.]

INJURY TO SEWERS.

9. No municipal council, corporation, firm, or person shall interfere with, break up, or remove any gully, ventilating shaft, man-hole, lamp-hole, flush-tank, catch-basin, or any part of the sewerage system, except by a special permit in writing of the Board, or throw or deposit, or cause to be thrown or deposited, in any drain or sewer, opening or receptacle connected with the sewerage system, any garbage, offal, dead animals, vegetable parings, ashes, cinders, rags, or any other matter or thing except the materials which, according to section 1 of these Regulations, the sewers and drains are designed to receive.—[Sections 92, 93, and 98.]

SUB-SOIL DRAINAGE.

10. Every person who shall erect a new building shall cause the sub-soil of the site of such building to be effectually drained by means of suitable earthenware pipes properly laid to a suitable out-fall, whenever the dampness of the site renders such a precaution necessary in the opinion of the Board.

He shall not lay any such pipes in such a manner or in such a position as to connect directly with any drain or sewer, but shall discharge into an open shaft made of earthenware pipes, and fitted with a dirt box which shall communicate with the sewer by a proper trap with a ventilating pipe on the sewer side,

CELLAR DRAINAGE.

11. Where any house heretofore built shall have its lowest floor at a lower level than the sewer of the Board into which such house would otherwise drain, pending pulling down or alteration of such house, the owner shall cause the drainage from such lowest floor to be raised by means of a syphon, or some automatic method approved by the Board, so that it shall discharge into a drain communicating with the sewer of the Board. The water seal of the trap in the drain pipe leading from the cellar shall be constantly maintained by means of an automatic flushing cistern.—[Sections 107 and 109.]

PLUMBING RULES.—GENERAL.

12. All materials used must be of good quality and free from all defects. The work must be executed in a thorough and workmanlike manner, and to the satisfaction of the Board.

The drain outside of the house or building, or from isolated water-closets, to the street sewer shall be of first-quality salt-glazed vitrified stoneware pipes, unless laid less than 2 feet deep from the surface to the centre line of the pipe, in yards or places liable to heavy traffic, when it shall be of heavy cast or wrought iron. Heavy cast-iron pipes must be used if the ground has been made up or filled in, or adjoins a cellar.

PIPES.

13. All drain pipes are to be at least 4 inches in diameter, except where otherwise ordered by the Board. Where the drain pipes are laid more than 10 feet from the surface, the pipes must be taken to one of the Board's store yards, unless obtained from there, to be there tested by an officer appointed by the Board in the machines provided for the purpose.

All cast-iron pipes must be sound, free from holes or cracks, and coated with tar or asphaltum.

The following weights will be accepted as standards:—

2 inch diameter	5½ lbs. per lineal foot.
3 " " "	9½ " " "
4 " " "	13 " " "
5 " " "	17 " " "
6 " " "	20 " " "

All wrought-iron pipes must be of approved standard weight and quality, and galvanized or coated to the satisfaction of the Board.

All fittings used in connexion with such pipe shall correspond with it in weight and quality. All junctions must be curved; right-angled junctions must not be made. Where lead pipe is used to connect fixtures with vertical soil or waste pipes, or to connect traps with vertical vent pipes, such pipes must not be lighter than of 7-lb. lead, but where, in the opinion of the Board, a heavier weight may be required, its instructions shall be complied with.

The arrangements of soil and waste pipes must be as direct as possible.

The drain pipes shall be laid on an even grade of not less than 1 in 40 if a 4-in. pipe be used, or of 1 in 60 if a 6-in. pipe be used, unless by special permission of the Board, in which case special provision must be made for regular and efficient flushing. As far as possible, all drains shall be laid in straight lines; where changes of direction occur, they shall be made either by suitably curved pipes or in man-holes.

PIPE TRENCHES.

14. The trenches for the drains from all properties shall be dug so as to meet the public sewers at the position of the Y branches indicated by the Board. The material thrown from the trench shall be placed so as not to obstruct and so as to cause the least inconvenience to the public. Proper barriers and lights must be maintained on the banks of the trench to guard the public against accident during the progress of the work. In refilling the trench the earth shall be carefully rammed or flooded, so as to keep the pipe in position and avoid settling. No stone shall be used in refilling until there has been a depth of at least 2 feet of earth or gravel placed over the pipe.

PIPE LAYING.

15. The cover of the Y branch on the sewer shall be carefully removed so as not to injure the socket.

The first length of the pipe attached to the Y branch shall be curved and set so as to give a good fall into the sewer.

The joints of the stoneware pipes shall be made with Stamford joints, or cement joints with gaskets.

Joints of iron pipes shall be made with gasket and lead if cast-iron pipes be used, or screwed joints with white lead if wrought iron be used.

The ends of all private drains not immediately connected with the plumbing fixtures shall be securely closed with water-tight imperishable materials. If lead pipe, the end must be soldered; if wrought-iron pipe, a plug must be screwed on the end; if cast-iron pipe, a cast-iron plug must be caulked in with lead.

All pipes shall be carefully bedded in the solid ground. If the ground, in the opinion of the Board, is not sufficiently solid, cast-iron pipes must be used, or stone-ware pipes bedded in concrete composed of 1 of Portland cement, 2 of clean sand, and 5 of stone of 1½-in. gauge or gravel improved by the inspector.

Where there is a sewer in the street or right-of-way adjoining, every property must be separately and independently connected with it.

Whenever possible, such connexion must be made directly at the rear of, or in the front of, the house.

Where there is no sewer in the street, or it is necessary to construct a private drain to connect either one or several properties with a sewer in an adjoining street, the drain must be laid under the roadway or right-of-way, and not through the yards or under the houses if possible to avoid it.

Sub-soil drains shall be of earthenware field pipes.

CESSPOOLS, OVERFLOWS.

16. No cesspool, overflow, or privy vault shall be connected with any drain or sewer.

DRAINS, SOIL AND WASTE PIPES.

17. At the head of every connecting drain, at or near the boundary of the premises or building, a boundary trap must be fixed, with or without a man-hole. All the drains must, where ever considered necessary by the Board, join in a man-hole at least 3 feet long and 2 feet wide, fitted with an open grating. The portions of the drains crossing the floor of the man-hole must be connected with the boundary trap, either in a straight line or by curved junctions in the floor of the man-hole. The boundary trap must be provided with a seal 2½ inches deep, and an inspection cap on the sewer side of the trap.

All soil pipes shall be at least 4 inches diameter.

The soil and waste pipes and traps must, where practicable, be exposed to view at all times, where necessary, for ready inspection and for convenience of repairing. When unavoidably placed within partitions, or recesses of walls, soil and waste pipes must be covered with woodwork so fastened with screws as to be readily removed.

No soil or waste pipe shall be fixed within any building or tenement unless the special authority of the Board has been previously obtained.

No material may be used within the building for soil or waste pipes other than wrought or cast iron pipes with securely screwed or leaded joints, or lead pipes with soldered or wiped joints. Cement or putty joints, tin or sheet iron pipes, whether galvanized or not, shall not be used.

In all cases the upward extension from the soil pipe for ventilation must pass in as direct a manner as possible above, and if necessary through, the roof.

Traps must be ventilated, and waste and soil pipes must have an approved fall.

Where an open grating is inadvisable, the man-hole must be provided with a fresh air inlet, fitted with a mica flap valve, and the man-hole must be fitted with an iron air-tight cover. A ventilation pipe of such size and materials, and so placed as the Board may desire, shall be provided and fixed wherever considered necessary.—[Section 79.]

Separate internal wastes shall be provided for each of the following classes of polluted waters, viz:—

- (1) Dirty water from baths, pantry and china closet sinks, lavatories, and wash troughs, and other waters with a small proportion of soap and dirt.
- (2) Greasy water from kitchen and scullery sinks.
- (3) Sludge water from manufactures, stables, cow-houses, cab-stands, and other specially polluted surfaces for which consents have been granted by the Board.
- (4) Urinal water from housemaids' slop sinks, public and private urinals.
- (5) Soil water from closets, and other water containing faecal matter.

Each one of these separate waste pipes, except for soil water, must be connected with the drains through a gully or disconnector trap.

A main waste-pipe, into which lavatories, baths, or kitchen sinks discharge, must be at least 2 inches in diameter, with at least 1½-in. branches.

JOINTS.

18. All joints in iron drain pipes, soil pipes, and waste pipes, except where screw joints are used, must be so filled with gasket and lead and caulked as to make them gas tight.

All connexions of lead pipes with iron pipes must be made with a brass sleeve or ferrule of the same size as the lead pipe put in the socket of the branch of the iron pipe and caulked with lead.

The lead pipe must be attached to the ferrule by a wiped joint.

All connexions of lead waste and vent pipes shall be made by means of wiped joints.

INSPECTION.

19. Before the fixtures are placed in connexion with the plumbing of any house or building, and before the soil pipe is connected with the sewer, the outlet of the soil pipe and all openings into it below the top shall be hermetically sealed, the pipe shall then be filled with water to the top, and every joint carefully examined for leaks. Work already in place will be examined by the peppermint or other test. Defective pipes must be removed and replaced by sound ones, and all defective joints made tight, and every part of the work made to conform to these Rules and Regulations, and subject to the approval of an inspector of plumbing appointed by the Board.

TRAPS.

20. Every water-closet, urinal, lavatory, slop sink, kitchen sink, bath, and every tub or set of tubs, must be separately and effectively trapped.

Traps must be placed as near the fixtures as possible, and in no case shall a trap be more than 2 feet from a fixture.

All lead traps must be drawn.

Traps of three (3) classes will be used—

- (a) "Traps," for intercepting gases only, to be of round section and self-cleansing form, but not so easy as to empty by momentum or suction.

- (b) "Silt traps," for intercepting both gases and solids, to have slightly tapered sides, flat bottoms, and rounded not sharp angles, and provided with trays fitted with handles for catching and removing solids.
- (c) "Grease traps," for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, must be of such form as may from time to time be approved.

The term "gully" will be applied to traps (a) and (b) in cases where they are to be used externally, and fitted with dished tops and gratings. In such cases the dish must be in one piece with the trap or jointed thereto spigot and faucet, and the depth of the dish from the top to the grating must not be less than half the diameter of the pipe, and the grating must be removable.

The term "disconnector" will be applied to traps in cases where provision has to be made for inlet ventilation to the pipe or pipes discharging therein.

Where soil pipes from pedestal or other closets are to be disconnected from the house-drain, a Y piece for the air inlet must be fixed, and the term "Y disconnector trap" will be used.

All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case less than 2½ inches.

The P form of traps, with wastes above the floor, and joints visible and accessible all round, must be used in all internal fittings where possible.

The S form of trap or waste under floors must not be used, except with special permission and facilities for periodical inspection.

In detached closets and urinals, approved S forms in earthenware, with joints visible and accessible all round, may be used.

Sinks in all food-packing houses, butchers' shops, lard-rendering establishments, hotels, restaurants, boarding-houses, and laundries, or wherever ordered by the Board, shall be provided with suitable approved grease traps. Wash-rooms for carriages must have silt traps provided, with proper means of intercepting mud.

Stables, dairies, cab-stands, markets, &c., and paved back yards for which drainage consents have been granted, must be provided with suitable approved silt traps.

VENT PIPES.

21. Every vent pipe extending upwards from a soil or waste pipe must extend, to such a height as may be deemed necessary by the Board, at least 2 feet above the highest part of the roof or coping. It must be of undiminished size without return bend, with basket end or educt or induct cowls as ordered. It must not open near a window, a chimney, nor an air shaft which ventilates living rooms.

All vent pipes, in an extension of a main building, must be extended, to such a height as may be deemed necessary by the Board, above the roof of the main building, when otherwise they would open within 30 feet of the windows of the main house or of the adjoining house.

The main drain leading to the boundary trap is to be vented at its upper end by a pipe or shaft erected vertically to such a height that the mouth of the pipe or shaft shall be at least 6 feet higher than any window or door situated within a distance of 30 feet therefrom. Branch drains need not be vented if the gully traps are within less than 15 feet from the main drain, or unless otherwise ordered by the Board, and then must be vented according to such order.

Traps must be prevented from syphonage, or the waste pipe leading from them be ventilated by a special pipe taken from such a position that the vent pipe entrance will not be fouled by the discharge of the trap.

The vents must not be less than 2 inches for water-closets, and not less than 1½ inches for other traps. The combined vertical vent pipes for traps of water-closets in buildings must be at least 3 inches in diameter, with branches 2 inches diameter to each trap, and for traps of other fixtures not less than 2 inches in diameter, unless the trap is smaller, in which case the diameter of the branch vent pipe must be at least equal to the diameter of the trap.

In all cases vent pipes must be of cast or wrought iron or lead inside a building, dipped and folded galvanized-iron vent pipes may be used where they are entirely outside a building, and shall be connected with the traps with brass or lead ferrules.

Vent pipes must extend 2 feet at least above the highest part of the roof or coping. The extension must not be reduced in diameter. The various vent pipes may be branched into a soil or waste pipe of the same class above the inlet from the highest fixture. They may be combined by branching together those which serve several traps of the same class.

These vent pipes must always have a continuous slope, to avoid collecting water by condensation.

No vent pipe shall be used as a waste or soil pipe.

No brick, earthenware, or house chimney flue shall be used as a sewer ventilator, nor to ventilate any drain, soil, or waste pipe.

All inlets to drains or openings for ventilating shall be efficiently protected by proper gratings of ample area. The aggregate area of the apertures in any grating covering a ventilation opening shall not be less than the sectional area of the pipe or drain to which such grating is fixed. All openings for ventilation made in accordance with these regulations, or by order of the Board, shall at all times be kept open and perfectly free from obstruction.

SAFES, OVERFLOWS, ETC.

22. Every lead safe under a water-closet, urinal, lavatory, bath, refrigerator, sink, or other fixture must be drained by a special pipe not directly connected with any waste pipe, soil pipe, drain, or sewer. They must be provided at the outlet into the open air with flap valves of brass or other approved metal.

The drip pipe from refrigerators shall not be connected with the soil or waste pipes, drains, or sewers.

No steam exhaust, blow-off, or drip pipe shall be connected with a drain or sewer, or with any soil or waste pipe. Such pipes must discharge into the rain-water channels.

RAIN WATER AND PAVED YARDS.

23. Rain-water conductors must not be connected with the sewers. All stables, dairies, paved yards, market-places, cab-stands, or other places for which the Board may from time to time grant consent to be connected with the sewers or drains, must be properly graded, cemented, flagged, or well paved; and properly drained, and must be trapped with an approved gully silt trap, connected with the drain inside the boundary trap.

WATER-CLOSETS.

24. Every water-closet in a building shall, where practicable, be constructed in such a position that one of its sides at least shall be an external wall. Every water-closet, that is every closet consisting of a single or not more than two soil-pans, constructed in connexion with a building, whether the situation of such water-closet be or be not within the building, shall have in the walls of such water-closet a window of not less dimensions than 2 square feet in aperture, exclusive of frame, and, where practicable, opening directly into the external air.

In addition to such window such water-closet must be provided with adequate means of constant ventilation by at least one air brick built in an external wall of such water-closet, or by an air shaft, or by some other effectual method or appliance for ventilation.

Every water-closet in connexion with a building shall be furnished with a separate flushing cistern of at least 3 gallons capacity, which shall be so constructed, fitted, and placed as to admit of the supply of water for use in such water-closet without any direct communication between any service-pipe upon the premises and any part of such water-closet other than such cistern or flushing box. A suitable apparatus must be provided for the effectual application of water to the basin of the water-closet, and for the effectual flushing and cleansing of such basin, and for the prompt and effective removal therefrom of any solid or liquid filth which may from time to time be deposited therein. Such water-closet shall be furnished with a basin of non-absorbent material of such shape, capacity, and mode of construction as to receive and contain a sufficient quantity of water, and to allow all filth which may from time to time be deposited in such basin to fall free of the sides thereof and directly into the water received and contained in the basin.

Latrines, or a group of closets, may, by special permission, be supplied from one flushing tank of approved size; but water-closets on different floors must not be flushed from one tank.

In houses occupied by different tenants in separate rooms, or suites of rooms, there must be a separate cistern to each water-closet. In no case will water-closet accommodation be allowed in the cellar or basement. Water-closets of the description known as "pan closets" are absolutely prohibited. At any time after the date fixed by notice from the Board to the owner of any house, building, or ground, requiring him to connect the same with any sewer of the Board, no privy closet, other than a water-closet approved by the Board, shall be used in such house or building or upon such ground.

The water-closet fitting must be entirely open to inspection, and with no enclosures.

STRAINERS.

25. The entrance to exit pipes to all fixtures except water-closets shall be furnished with suitable permanently attached strainers.

URINALS.

26. Internal cradle urinals must be small, free from projecting ornament, and of non-absorbent material. The waste pipe shall be of potteryware or lead, and, after being trapped, deliver out into the open air over a gully trap or into a disconnector trap, keeping the waste pipe as short and free from bends as possible. The urinal must be provided with approved flushing apparatus. The floor under urinals must be covered with non-absorbent material.

In hotels, clubs, restaurants, theatres, and other public places, enamelled slate or other approved water troughs shall be provided, sunk in an impervious floor under the range of urinals, and kept full of flowing water by approved flushing apparatus. The floors of the urinals must be tiled or paved with a fall towards the trough. The walls behind and screens between urinals must be of non-absorbent material, and of approved height; the screens must also be free from the floor for a portion of the width of the divisions. They must project at least 1ft. 6in., and be not less than 2 feet apart.

HOUSEMAIDS' SLOP SINKS.

27. The waste pipe from a slop sink must be of at least 8-lb. lead, and must be carried independently out to the open air, with a quick fall, and into a full-bore ventilated 3-in. down pipe to the ground, where a gully trap or disconnector trap must take the waste to the drain, and must be trapped with 3-in. trap, having a 2½-in. seal and a brass cleaning screw under the water line, well opened out into a deep cone to receive the sink basin. The trap must be fitted with a 2-in. vent pipe. The sink must be of approved material. Draw-off taps must not be used directly over slop sinks unless at least 2 feet above the sink. Slop sinks must be provided with approved flushing arrangements.

KITCHEN AND SCULLERY SINKS OR TROUGHS.

28. Unless where otherwise specially approved kitchen and scullery sinks and troughs must discharge into the open air over a gully trap. The trap and waste pipes must be not less than 1½ inches diameter.

The brass strainer must be sunk in a hollow cone to the level of the trough.

BATHS AND LAVATORIES.

29. The waste pipe must be at least 1½ inches diameter, of 8-lb. lead pipe, trapped with a deep syphon trap, with a cleansing screw provided with a 2-in. vent pipe. The waste pipe must be carried separately to the open air and delivered over a gully trap, or into a disconnector trap.

The waste pipe and trap from single lavatories must be at least 1 inch in diameter, but the area of the grating must be sufficient to fill the waste pipe full bore. The waste pipe must be as short as possible, and discharge into the open air.

CONSENT OF BOARD.

30. Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Board is necessary, whether special, in writing, or otherwise, with regard to any act, matter, or thing mentioned in this By-law, the same may be given by and under the hand of the Chairman of the Board or of the Engineer-in-Chief, personally, or through an inspecting officer appointed under him, who severally shall be competent to give the same and on behalf of the Board to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given. The giver of the same shall notify his having done so at the next following meeting of the Sewerage Committee of the Board, with a view to report thereof to the Board for confirmation where necessary.

PENALTY.

31. Any person offending against any provision of this By-law, for violation of which no special penalty is hereinbefore prescribed, shall be liable for every such offence to a penalty not exceeding Twenty pounds, or may be proceeded against under the 163th section of the Act as an offender against the Act.—[Sections 99, 110, 113, and 165.]

The foregoing By-law was made and passed by the Melbourne and Metropolitan Board of Works, and the common seal of the said Board was hereunto affixed the eleventh day of December, One thousand eight hundred and ninety-four in the presence of—

(SEAL) E. G. FITZ GIBBON, Chairman.

Mr. Taverner	Mr. Williamson.

WHEREAS by section 22 of the *Water Act 1890* it is enacted that when the Waterworks District of any Waterworks Trust has been or is about to be increased or diminished, the Governor in Council may make such order as appears just for the purpose of apportioning any debts or liabilities between the various localities affected or to be affected by the increasing or diminishing of such Waterworks District, and that every such Order should be in all respects binding on the Waterworks Trust's ratepayers and on all other persons thereby affected: And whereas by a certain Order in Council bearing date the 5th March, 1895, the Waterworks District of the Wimmera United Waterworks Trust

was diminished by the excision therefrom of certain land that is now included within and forms the Waterworks District of the Donald Waterworks Trust: Now therefore His Excellency the Governor, with the advice of the Executive Council, and in pursuance of the provisions of the now in part recited Act and for the purpose aforesaid, doth order—

That of the total amount of money advanced to the Wimmera United Waterworks Trust by way of loans, the said Donald Waterworks Trust shall be liable for the sum of Seven thousand one hundred and sixty-six pounds three shillings and tenpence (£7,166 3s. 10d.), which said sum shall be transferred from the liabilities of the Wimmera United Waterworks Trust and shall form a liability of the said Donald Waterworks Trust, together with interest on the said amount from the 1st January, 1895, at the rate of Four pounds ten shillings per centum per annum:

And it is hereby further ordered that the amount to be set aside by the Donald Waterworks Trust for the purpose of providing a sinking fund for the liquidation of the said sum of £7,166 3s. 10d. shall be at the rate of one and a half (1½) per centum per annum on such sum, and shall commence from the 1st January, 1895.

And the Honorable Henry Foster, Her Majesty's Minister of Water Supply for Victoria, shall give the necessary directions herein accordingly.

THOS. BRISBANE,
Acting Clerk of the Executive Council.

PART OF THE SHIRE OF YACKANDANDAH SEVERED THEREFROM AND ANNEXED TO THE SHIRE OF BRIGHT.

At the Executive Council Chamber, Melbourne, the fifth day
of March, 1895.

PRESENT:

His Excellency the Governor.

Mr. Turner	Mr. Best
Mr. Isaacs	Mr. Cuthbert
Mr. Peacock	Mr. Williams
Mr. Gavan Duffy	Mr. McCulloch.

WHEREAS by the Local Government Acts it is enacted that, subject to the provisions of the said Acts, the Governor in Council may from time to time make Orders exercising certain powers therein set forth, amongst others to sever any portion of Victoria forming part of a municipal district from such municipal district, and annex the same to any other municipal district with which the portion so severed forms one continuous area, and from time to time make any apportionment of property rights and liabilities, and give any directions as to any matters and things that may be necessary to do justice as between the municipalities concerned; and that every such Order shall be published in the *Government Gazette*, and shall take effect as from the day of such publication: And whereas the powers conferred upon the Governor by the said Acts are now exercised upon a petition signed by a majority of the ratepayers of portion of the Kiewa Riding of the Shire of Yackandandah, notice of such petition having been published in the manner prescribed in the said Acts: Now therefore His Excellency the Governor, with the advice of the Executive Council, and in compliance with the prayer of the petition hereinbefore mentioned, doth by this present Order sever from the Shire of Yackandandah the portion described in such petition, being portion of the Kiewa Riding of the said shire, and doth annex the portion so severed from such shire to the North Riding of the Shire of Bright; and with the advice aforesaid doth hereby re-define the boundaries of the said Shire of Yackandandah and of the Kiewa Riding thereof as hereby reduced, and of the said Shire of Bright and of the North Riding thereof as hereby enlarged, in the manner set forth hereunder, that is to say:—

YACKANDANDAH SHIRE REDUCED AND RE-DEFINED.

Commencing at the junction of the Indigo Creek with the Murray River; thence easterly by the said river to the west boundary of the parish Belvoir West; thence southerly by that boundary to the north boundary of allotment 4 of section 11; thence south-easterly and south-westerly by a road bounding the said allotment and allotment 4 of section 10 to the north boundary of the parish of Wooragee North; thence south-easterly by the south-western boundary of allotments 1, 4b, 15, 14, and 26A, section N^o, parish of Wooragee North, easterly by a direct line to the south-west angle of allotment 28A, further easterly by that allotment, southerly by allotments 49 and 49A, and south-easterly by the northern boundaries of allotment 4 of section C and allotments 1 and 6 of section 28, parish of Baranduda to the road from Beechworth to Wodonga; thence north-easterly by that road to the east angle of allotment 3, and north-westerly by the last-mentioned allotment to Middle Creek; thence north-easterly by that creek to the Kiewa River; thence south-easterly by that river to the north boundary of the parish of Beethang; thence easterly by that boundary to the Mitta Mitta River; thence southerly by that river to a point in line with the east boundary of the Bungonia pre-emptive section; thence southerly by a line and a road to the south-east angle of the said section; thence easterly by the north boundary of the parish of Tanganbalanga to the west boundary of the parish of Bolga; thence southerly and easterly by the west and south boundary of that parish to the summit of the range forming the watershed between the Mitta Mitta River and Sandy Creek; thence south-easterly and southerly by that range and the range forming the watershed between the Mitta Mitta and Kiewa Rivers to a point due east of the north-east angle of allotment 48, parish of Mullagong; thence west by a line and the north boundaries of allotments 48 and 47 to the north-west angle of allotment last named; thence westerly by a road to the Kiewa River; thence southerly by that river to the north bound-

dary of the Tawanga pre-emptive section; thence westerly by that boundary and southerly by a road to the south angle of allotment 5, section 4, parish of Tawanga; thence westerly by the southern boundaries of allotments 8, 33A, 32, 31A, and 31 to the south boundary of allotment 5, section 1, a line and a road to the south-west angle of allotment 4; thence northerly by a road to the road forming the north boundary of allotment 1, section 15; thence westerly and north-westerly by that road to the western watershed of the Kiewa River; thence northerly and north-westerly by said watershed to the south boundary of the parish of Bruarong; thence westerly by that boundary to Stanley range; thence northerly by a direct line to the south-west angle of section 8, parish of Stanley, by a road forming the west boundary of the said section and sections 7A and 6A, by a direct line to the south-west angle of the parish of Yackandandah, and by the west boundary of that parish to the western watershed of the Yackandandah Creek; thence further, north-westerly by that watershed to the eastern boundary of the parish of Wooragee; thence northerly and westerly by the east and north boundaries of that parish to the south-west angle of the parish of Wooragee North; thence northerly and north-westerly by a road to a point in line with the west boundary of allotment 1 of section M; thence northerly and easterly by a line and the west and north boundaries of the said allotment to the south-west angle of allotment 4, section 1A; thence northerly and north-easterly by a road to the south angle of allotment 2, section B; thence north-westerly and north-easterly by the southern and western boundaries of that allotment, and westerly by the south boundary of the parish of Barnawartha, south to the west angle of allotment 19, section 5, in the last-named parish; thence north-easterly by a road to the south angle of allotment 2, section 4; thence north-westerly by a road to the south angle of allotment 1; thence north-easterly by that allotment to Indigo Creek aforesaid; and thence northerly by that creek to the commencing point.

KIEWA RIDING REDUCED.

Commencing at the Kiewa River where it is intersected by the northern boundary of the shire; thence south-easterly by the Kiewa River to its junction with the Yackandandah Creek; thence by a direct line southerly to the summit of the Murrumurrang range; thence by the Murrumurrang range and the ranges forming the western watershed of the Kiewa River to the western boundary of the shire; thence following the shire boundary southerly, easterly, northerly, and westerly to the point of commencement.

BRIGHT SHIRE ENLARGED AND RE-DEFINED.

Commencing at the junction of the Buffalo and Ovens Rivers; thence southerly by the former river to its source and south to the Great Dividing range; thence southerly by that range and a direct line to the source of the Wonnangatta River; thence south-easterly by that river to a point due west of Mount Birregun; thence east by a line to that point, and north-easterly by a range to the Great Dividing range aforesaid; thence north-westerly by that range to Mount Hotham; thence north-easterly and south-easterly by a range to Mount Cope; thence northerly by the range forming the watershed between the Kiewa and Big Rivers to Mount Bogong; thence north-westerly by the range forming the watershed between the Mitta Mitta and Kiewa Rivers to a point due east of the north-east angle of allotment 48, parish of Mullagong; thence west by a line and the north boundaries of allotments 48 and 47 to the north-west angle of allotment last named; thence westerly by a road to the Kiewa River; thence southerly by that river to the north boundary of the Tawanga pre-emptive section; thence west by that boundary and southerly by a road to the south angle of allotment 5, section 4, parish of Tawanga; thence westerly by the southern boundaries of allotments 8, 33A, 32, 31A, and 31, and the south boundary of allotment 5, section 1, a line and a road to the south-west angle of allotment 4; thence northerly by a road to the road forming the north boundary of allotment 1, section 15; thence westerly and north-westerly by that road to the western watershed of the Kiewa River; thence northerly and north-westerly by said watershed to the source of Barwidgee Creek; thence westerly by that creek to block 38, parish of Barwidgee, and south by that block to a road forming the boundary of allotments 2 of section 11, 2b, 2A, and 2 of section 6, 3A, 3, and 1 of section 2; thence westerly and north-westerly by that road to the north-east angle of the last-mentioned allotment; thence westerly by the north boundary of that allotment and the north boundary of allotment 2 of section 1 to the Barwidgee Creek aforesaid; thence south-westerly by that creek and Myrtle Creek to the Ovens River aforesaid; and thence north-westerly by that river to the commencing point.

NORTH RIDING ENLARGED.

Commencing at the source of the northern branch of the Two-mile Creek; thence by a direct line northerly to the Ovens River bridge; thence by the centre of the Buckland main road to the north-west of Trapp's special allotment; thence by a line bearing north to the northern boundary of the shire; thence following the shire boundary northerly, easterly, southerly, and westerly to Mount Hotham; thence northerly by a range forming the western watershed of the Kiewa River to a point due east of the German Creek; thence by a line and German Creek to its junction with the Ovens River; thence by a line bearing westerly to Dogherty's crossing being a fording place so named on the Bright and Morse's Creek road; thence by a direct line bearing westerly to the point of commencement.

And the Honorable John William Taverner, Her Majesty's Commissioner of Public Works for Victoria, shall give the necessary directions herein accordingly.

THOS. BRISBANE,
Acting Clerk of the Executive Council.

SALES (Nos. 7598 AND 7599) OF CROWN LANDS
IN FEE SIMPLE.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to direct that sales by auction of the undermentioned Crown Lands will be holden at the times and places mentioned, and that such lands be offered for sale in the lots hereinafter specified, and at the upset price fixed to each lot respectively.

The lands will be sold in fee simple, and subject to the covenants, conditions, exceptions, and regulations directed by the Governor in Council by an Order in Council dated the 17th day of March, 1885, and published in the *Government Gazette* of the 20th March, 1885, page 817.

A deposit of one-fourth the price at which each lot is sold must be paid by the purchaser at the time of sale, and all such payments shall be made only in gold, silver, or bank notes, or cheques approved of by the receiver and paymaster, and the residue of such price will be payable in twelve (12) equal instalments on the last day of each successive period of three (3) months from the time of sale, or, if the purchaser choose, at any earlier time or times, being one of such last days of any of the periods of three (3) months stated above; such residue of payment will bear interest at the rate of six (6) per centum per annum, to be computed from the time of sale to the time of payment of such residue or instalment of such residue.

The Governor in Council may, if he think fit, register the transfer of the interest of any purchaser of an allotment sold by public auction prior to the final payment of the purchase money being made. The fee for such registration shall be One pound eleven shillings and sixpence.

REGULATIONS FOR THE CARE, PROTECTION, AND
MANAGEMENT OF THE RESERVE FOR A RACE-
COURSE AND OTHER PURPOSES OF PUBLIC
RECREATION IN THE PARISH OF YACKANDAN-
DAH.

THE Council of the Shire of Yackandandah, the duly appointed Committee of Management of the Reserve for a Race-course and other purposes of Public Recreation in the parish of Yackandandah, having framed the following Regulations for the care, protection, and management thereof, and also for the preservation of good order and decency therein, and for the collection and receipt of tolls, entrance fees, or other charges for entering therein or thereupon, submit the said Regulations to the Board of Land and Works, to be made by such Board in pursuance of the powers conferred by section 136 of the *Land Act 1890*:-

REGULATIONS.

1. The reserve shall be open to the public free of charge from sunrise to sunset, except on such days (not exceeding twelve in any one year) as the reserve may be set apart for races, sports, shows, football matches, cricket matches, or holiday amusements.
2. No person shall enter or remain in the reserve who may offend against decency as regards dress, language, or conduct.
3. No person shall damage in any way the trees, shrubs, or flowers in the reserve, nor shall fires be lighted therein.
4. No person shall climb or jump over the fences or gates, stick bills, thereon, or cut names on the fences, trees, or seats, or roll or throw stones in the reserve.
5. No person shall train or exercise horses (without the authority, in writing, of the committee of management first obtained) or put goats or pigs in the reserve.
6. No person shall bring into the reserve any dog, unless led by a chain or cord, without the authority, in writing, of the committee of management first obtained.
7. No person shall erect any dwelling in the reserve nor any booth or other structure for the purpose of offering for sale any article without the consent, in writing, of the committee of management first obtained.
8. No person, except labourers and workmen employed in the reserve, shall enter any plots therein which may be enclosed for plantations of young trees and shrubs.
9. The following shall be the scale of fees which may be charged and taken for admission to the reserve on such days (not exceeding twelve in any one year) as it may be set apart for races, shows, sports, football matches, cricket matches, or holiday amusements:-
 - (a) For the admission of every adult, such a sum as the committee of management may determine, not exceeding One shilling (1s.).
 - (b) For the admission of every saddle horse, exclusive of rider, such a sum as the committee of management may determine, not exceeding One shilling (1s.).
 - (c) For the admission of every carriage, cart, or other vehicle drawn by one horse, exclusive of passengers, such a sum as the committee of management may determine, not exceeding Two shillings and sixpence (2s. 6d.).
 - (d) For the admission of every additional horse Sixpence (6d.).

Every person offending against these Regulations shall, in accordance with section 136 of the *Land Act 1890*, on conviction before any justice, forfeit and pay a penalty not exceeding Five pounds (£5) for each offence; and every person who knowingly and wilfully offends against any such Regulations, and who, after he has been warned by any bailiff of Crown lands or any constable, does not desist from so offending, may be forthwith apprehended by such bailiff or constable and taken before any justice of the peace, and shall, on conviction, forfeit and pay a penalty not exceeding Ten pounds (£10).

(SEAL) JOHN MACDONALD,
President.
J. MOLYNEUX,
Shire Secretary.

THE Board of Land and Works, in pursuance of the powers conferred by the *Land Act 1890*, section 136, doth hereby make the foregoing Regulations in respect of the Reserve for a Race-course and other purposes of Public Recreation in the parish of Yackandandah.

The common seal of the Board of Land and Works was hereto affixed this 12th day of March, 1895, in the presence of—

SPECIAL MALLEE ALLOTMENTS.—MALLEE LANDS AVAILABLE FOR APPLICATION IN THE PARISH OF PIANGIL, COUNTY OF TATCHERA.

THE undermentioned mallee allotments, being subdivisions of Mallee Blocks 20A and 20B, are now available for application under section 157, *Land Act 1890*, as amended by the *Land Act 1891*.

Plans showing position of the land can be obtained at the Crown Lands Offices, Melbourne, Bendigo, Horsham, Warracknabeal, St. Arnaud, and Kerang.

On these allotments the mallee has been cut. Applicants for same must be prepared to pay Five shillings (5s.) per acre for the clearing done. Of this amount One shilling and threepence (1s. 3d.) per acre must be paid immediately on land being recommended by Local Land Board, and the balance in three half-yearly instalments of One shilling and threepence (1s. 3d.) each, with interest added at the rate of Six (6) per cent. per annum.

No application for these allotments can be entertained only under above-mentioned condition.

This land is the nearest to the Murray River, and is reported to be of excellent quality.

R. W. BEST,

Commissioner of Crown Lands and Survey,
Being the Responsible Minister of the Crown
administering the said Act.

Department of Lands and Survey,
Melbourne, 13th March, 1895.

* All applications received on or before Friday, the 15th March, 1895, will be deemed to have been simultaneously made.

Applications must be made on the usual form, which can be obtained at any Land Office in the district, or the Head Office, Melbourne, and forwarded to any Land Officer, accompanied by a certificate of registration to be obtained from any Receiver and Paymaster on payment of a fee of £1.

The land is situated at Piangil, near the Murray River, about midway between Swan Hill and Narrung, and immediately opposite Tooleybuc.

Swan Hill railway station is 25 miles from the nearest point of the land and 30 miles from the most distant.

The tenure of the lease is eight years and eleven months from the 1st January, 1895. Rental is Sixpence per acre per annum, and lessees will be required to cultivate and otherwise improve their land, and also to destroy all vermin thereon.

All applications for the land will be considered by a Local Land Board, and the allotments will be recommended the applicants deemed most likely to prove suitable and *bona fide* settlers.

Not more than one allotment will be granted to any one person.

No person will be considered eligible who has previously selected an area which, if added to any area in these subdivisions, would exceed 640 acres.

Applicants must specify on the application form which allotment they wish to apply for.

Incoming lessee to pay the value of improvements (if any) on these allotments.

Land Act 1890, Part II., as amended by the Land Act 1891.

**MALLEE LANDS AVAILABLE FOR APPLICATION
IN THE PARISHES OF PIANGIL AND PIANGIL
WEST, COUNTY OF TATCHERA.**

THE undermentioned Mallee Allotments, being subdivisions of Mallee Blocks Nos. 20A and 20B, are now available for application under section 137, *Land Act 1890*, as amended by the *Land Act 1891*.

Plans of the land can be obtained at the Crown Lands Offices, Melbourne, Bendigo, St. Arnaud, Horsham, and Kerang; and can also be inspected at the Post Offices at Swan Hill, Lake Boga, Mystic Park, and Kaneira; and at the offices of the Receiver and Paymaster at Charlton and Wycheproof.

R. W. BEST,

Commissioner of Crown Lands and Survey.

Crown Lands Department,
Melbourne, 28th February, 1894.

SITE REFERRED TO.

At Portsea, parish of Nepean, being the eastern portion (33 feet frontage) of the reserve west of allotment 145A, and formerly occupied by J. F. Roberts as a site for refreshment room: Melbourne district.—(1808/99.)

TENDERS FOR GRAZING LANDS.

Tenders must be sent in on proper form, which can be obtained on application to the Lands Department, Melbourne or any of the Survey Offices in the country.

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Friday, 22nd March, 1895.

NOTE.—The fee for the period from 1st April, 1895, to 30th June, 1895, and fee of Five shillings for licence, must accompany each Tender.

No tender will be accepted unless the fees referred to above are forwarded with the tender.

TENDERS will be received by the Board of Land and Works up to Noon of Friday, 22nd March, 1895, for the occupation, for grazing purposes only, of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions :

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

11. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do he will be prosecuted according to law.

13. The licensee shall destroy all thistles on the land, and on the half width of adjoining roads, and shall be responsible for the destruction of thistles under the Thistle Act in like manner as holders of freehold lands.

Special Conditions :

1. The period of occupation will be from 1st April, 1895, to 30th June, 1895.

2. The licence-fee must be paid in advance. The fee for the period from 1st April, 1895, to 30th June, 1895—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 405," or "Lot 2, Block 736," or "Lot 3, Block 2192," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.

Plans can be seen and information may be obtained in this office.

BOROUGH OF ST. ARNAUD.

By-Law No. 46.

By-law making a Rate for Water Supply Purposes, and for fixing a Scale of Charges for Water supplied by Measure.

THE Council of the Borough of Saint Arnaud doth hereby, pursuant to and in exercise and execution of the powers and authorities conferred on it by Part VI. of the *Water Act 1830*, make the following rate for one year, from the 1st day of January, 1895, upon all lands and tenements within the Water Supply District of Saint Arnaud, that is to say:—

The rates and charges hereinafter specified are those which the owners and occupiers of lands and tenements shall pay in respect of water supplied, otherwise than by measure, for domestic purposes.

On every house or tenement of the annual value of £5 and under, the annual sum of Ten shillings.

On every house or tenement above the annual value of £5 and not exceeding £10, the annual sum of Ten pounds per centum on the amount of the valuation.

On every house or tenement above the annual value of £10 and not exceeding £20, the annual sum of Twenty shillings.

On every house or tenement above the annual value of £20, the annual sum of Five pounds per centum on the amount of the valuation.

WATER SUPPLIED BY MEASURE.

The charges for water supplied by measure for all purposes, except in cases of special agreement with the council, shall be at the rate of Two shillings per 1,000 gallons.

The minimum quantity of water to be charged to all owners or occupiers of gardens (except market gardens) and lawns, or other lands where water is supplied by the council for the purpose of irrigation or for ornamental purposes, shall be as follows:—

One-eighth of an acre and less, per annum, 5,000 gallons.

Exceeding one-eighth of an acre, but not exceeding one-quarter of an acre, per annum, 7,500 gallons.

Exceeding one-quarter of an acre, but not exceeding one-half of an acre, per annum, 12,500 gallons.

For every additional half acre, per annum, 12,500 gallons, and proportionately, according to the foregoing scale, for every additional fractional part of an acre.

The minimum quantity of water to be charged for to owners or occupiers of market gardens shall be as follows:—

One-eighth of an acre and less, per annum, 10,000 gallons.

Exceeding one-eighth of an acre, but not exceeding one-quarter of an acre, per annum, 15,000 gallons.

Exceeding one-quarter of an acre, but not exceeding one-half of an acre, per annum, 25,000 gallons.

For every additional half acre, per annum, 25,000 gallons, and proportionately, according to the foregoing scale, for every additional fractional part of an acre.

The minimum quantity of water to be charged for to owners or occupiers of livery, bait, and coaching stables shall be as follows:—

(a) For each stall, not exceeding ten, per annum, 1,750 gallons.

(b) For each stall above the first ten, and not exceeding twenty, per annum, 1,000 gallons.

(c) For each additional stall above twenty, per annum, 750 gallons. In open sheds used for the above purposes, each space of five feet shall be charged for as a stall.

For a temporary supply, during the erection of new buildings, the minimum quantity to be charged for shall be 1,000 gallons for every 1,000 bricks or fractional part thereof, and 500 gallons for every cubic yard of concrete, or fractional part thereof, used in the construction of the building or of the appurtenances thereto.

For manufacturing purposes the minimum quantity of water to be charged for in each case, where water is so supplied by measure, shall be the quantity for which the charge at Two shillings per 1,000 gallons would be equal to the amount of 4d. in the £1 of valuation for the lands and tenements used for such manufacturing purposes. And the valuation for the time being of all lands and tenements for the municipal rate of the said borough in which such lands or tenements are situate shall be deemed and taken to be the valuation of such lands and tenements respectively for the purpose of this section of this by-law.

The rates and charges for water supplied by measure under special agreement with the council shall be payable as agreed upon.

The rates and charges hereinbefore specified shall be due and payable in advance as from the 1st day of January, 1895.

In the construction of this by-law the word "Council" shall mean the Borough Council of Saint Arnaud.

The foregoing by-law was made and passed by the Council of the Borough of Saint Arnaud, on the 4th day of March, 1895, and shall take effect from the 1st day of January, 1895.
