[Hydrographic Notice No. 37.]

HURRICANES ON THE QUEENSLAND COAST.

The accompanying information relative to hurricanes on the Queensland coast, received from H.M.S. *Dart*, is promulgated for general information and guidance.

(*Dart*, 3rd May, 1897, No. 28: Office No. 1875.)

CYPRIAN A. G. BRIDGE,
Rear-Admiral.

To the respective Captains, Commanders,
and Officers Commanding Her Majesty's
ships and vessels on the Australian Station.

HURRICANES, QUEENSLAND COAST.

Tropical hurricanes on the coast of Queensland may be expected during the summer months, viz., December, January, February, March, and early part of April, and have occurred between the dates 14th December to 14th April inclusive.

These storms appear to originate between latitudes 8° to 12° S., and between the meridians of 155° E. and 170° W.

On reaching the Queensland coast, they may strike the land at any point between latitudes 14° and 26° (that is, between Cape Melville and Wide Bay); for the last eight years the full force, or centre of the storm, has passed about 30 miles to the southward of Cairns.

The names of the places at which they are most frequently experienced are Cardwell, Townsville, Bowen, the Northumberland Islands, and the neighbourhood of Sandy Cape.

To the southward of lat. 26° S. these storms break up into heavy gales.

2. If, during the summer months and the early part of April, a heavy swell sets in from N.E., and there is little or no wind at the time, bad weather is certain, for the sea is always in advance of a cyclone.

With the glass steadily falling, heavy rains and murky sky, winds between S.S.E. and E., a cyclone may be expected.

These storms may extend some distance inland, but their centres do not often pass the coast ranges, which appear to repel them, and they usually emerge from the coast between Broad Sound and Cape Moreton.

3. If the barometer is high over a considerable portion of the coast, the storm will recurve some distance off the land, and the wind will be from S.E. to S.

4. If, on the contrary, the barometer is low in front of the storm, it will blow home on the land as far as the coast range, and cause floods; when this happens, the first of the gale will be southerly, the latter part northerly.

5. The bearing of the storm centre will be at right angles to the waves line; thus, on a fine day, if there is a heavier sea than usual breaking on the beach, and it is coming from the N.E., if the direction remains the same or nearly so, and the barometer is not above 30 inches, the gale will blow home on the land, and the first signs of bad weather will not precede the gale by more than twelve hours; but if the direction of the swell changes to the eastward, the storm is recurving, and the body of it will not reach the land.

When the swell is from the east, the storm centre is east; when there is any southing in the line of swell, the storm has passed.

6. No matter how threatening the weather signs may be, if the line of swell comes first from the southward there will only be an ordinary south polar storm with a low temperature.

7. To avoid the storms.—By applying Buys' Ballot's law for the Southern Hemisphere, namely, "Standing with your back to the wind the lowest barometer is on your right hand," and hence the storm centre, valuable information is attained.

Should the wind be from S.S.E. to E., the barometer steadily falling, and a heavy murky sky, the navigator may be certain the storm is approaching him, and should endeavour to make northwards, so as to locate himself in the northern or fine weather half of the disturbance, where the winds will be from N.W. to W. Steamers bound north and outside the Barrier Reef, on observing the barometer falling and signs of bad weather, should steam S.S.E., and let the storm pass inside them. Steamers coming south should, in a similar case, stop for a few hours, and let the storm pass ahead of them.

Sailing vessels should not hesitate a moment, but run for the nearest shelter; but should they be coming south and find themselves on the east side of the storm with northerly wind they should heave to, and on no pretence attempt to run.

If anchored under the lee of an island, and the wind does not shift, the centre of the storm will pass over them; and the fiercest part of the gale will be experienced; after the centre has passed they will have a dead lee shore.

Therefore, when the wind lulls, which it usually does, slip and get away at once, if possible to do so.

The Government will not necessarily accept the lowest or any tender.

CONDITIONS OF CONTRACT.

1. The services are to be performed upon an order signed by a member of the Police Force. Under 31 Victoria No. 310, section 9, cemetery fees are not payable in the cases of paupers buried upon an order signed by a Justice, and in such cases the contractor's account for the burial will be correspondingly reduced.

2. The funerals are to be of the most economical description consistent with propriety. A plain hearse for an adult, and a covered, plain, suitable four-wheeled vehicle for a child under seven years of age, to be provided. The body shall be taken direct to the cemetery, and no more than one body shall be carried in the hearse or vehicle at a time.

3. Coffins for funerals must be sufficiently long, deep, wide, and substantial to bear the corpse and permit it to lie extended at full length, and must be fastened down with screws. The contractor shall provide 2 inches of sawdust for the bottom of the coffin; a small block of wood to keep the head of the deceased in position, and sufficient white calico to cover the body. In the event of a body being decomposed, or whenever it may be considered necessary by the member of the Police Force issuing the order for the burial, a coffin must be supplied sufficiently large to leave at least 2 inches between the body and the sides and top and bottom of the coffin, and this space must be filled up round the body with pine or phenyle sawdust by the contractor at his own expense; and in the event of any neglect in so providing or filling up the coffin it will be competent for the Tender Board to inflict a fine not exceeding £5 to be deducted as in Condition 11. Coffins to be properly lowered into the graves, and the graves filled up again.

4. The graves to be dug of the proper depth, and in conformity with the Cemetery Regulations.

5. In the event of the contractor failing to attend punctually to any order, the work will be otherwise performed, and the extra expense incurred, if any, will be charged to the contractor. Should any circumstance, however, make it necessary in any particular case that an immediate removal to the Morgue be effected, the hiring of another vehicle for the purpose will not be an infringement of the contract.

6. When burials or removals are required to take place on Sunday, or, in the case of any lunatic asylum, burials on the same day as the inquest, no delay must take place in complying therewith, and any additional fees charged by the cemetery authorities in the case of burials will be repaid to the contractor.

7. The attendance of a minister of the denomination named in the order for the burial must, if practicable, be provided. If for

any burial such minister is not available the burial service is to be conducted by the resident chaplain deputed by the denomination, and in cases where no such deputy is appointed by the denomination, or where the religious denomination of the deceased is unknown, the services are to be performed by the resident chaplains alternately, and the contractor must inform the Police of the hour when the funeral service will take place, so that the friends of the deceased may attend at the cemetery if they wish. Such order to be produced at the cemetery when the contractor gives the order for interment. The contractor must pay the minister's fee for reading the burial service should it be claimed, and he will be reimbursed, on producing the minister's receipt, which must specify that the burial service was duly and properly performed at the time of the burial, and that he received the fee for so doing; the receipt must also specify the name, age, and denomination of deceased, the name and denomination of the minister who performed the burial service, and the hour when the service was performed.

8. Bodies to be removed to the Morgue shall be placed before removal in shell coffins securely closed, and shall be conveyed in suitable covered four-wheeled vehicles.

9. Every practicable precaution must be taken in order to prevent offensiveness from decomposition, but in no case of removal must any disinfectant be used without the authority of the medical officer performing the *post-mortem* examination.

10. The account is to be rendered monthly to the officer ordering the service for payment at the Treasury, Melbourne. The charge for the minister's fee should be included in the account for the funeral.

11. In the event of any charge of impropriety or neglect in conducting the funerals or removals being established against the contractor, the Government may for the first offence deduct from the security money, by way of fine, £5; and for the second offence a similar amount, and, in addition thereto, may forthwith cancel the contract.

12. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the security money will in that case be absolutely forfeited, and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

13. Contractors are not at liberty to transfer their contracts under cover of power-of-attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

No subletting will be allowed. All work must be carried out by the contractor, and the hours of employment of any person engaged in the funerals or removals tendered for in this schedule are not to exceed forty-eight per week, and at a minimum wage of 6s. per day. Any infringement of this condition in the opinion of the Treasurer will subject the contractor, upon report from the Tender Board, to such mulct not exceeding Fifty pounds (£50) as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money; and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

TENDERS FOR GRAZING LANDS.

Tenders must be sent in on proper form, which can be obtained on application to the Lands Department, Melbourne, or any of the Survey Offices in the country.

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Saturday, 26th June, 1897.

NOTE.—No tender will be accepted unless the fee for the period from 1st July, 1897, to 30th June, 1898, and fee of Five shillings for licence, are forwarded with the Tender.

TENDERS will be received by the Board of Land and Works up to Twelve noon on Saturday, 26th June, 1897, for the occupation, for grazing purposes only, of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.
2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.
3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same without the permission or sanction of the licensee or any one claiming under her, him, or them.
4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.
5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate or to fence any portion thereof.
6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.
7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.
8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.
9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.
10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.
11. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.
12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do he will be prosecuted according to law.
13. The licensee shall destroy all thistles on the land, and on the half width of adjoining roads, and shall be responsible for the destruction of thistles under the Thistle Act in like manner as holders of freehold lands.
14. Free access to water shall be kept open at all times for travelling and other stock and also for persons desiring to take water for domestic supply.

Special Conditions:

1. The period of occupation will be for twelve months—from 1st July, 1897, to 30th June, 1898.
2. The fee for the period from 1st July, 1897, to 30th June, 1898—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.
3. Tenders to be for so much per lot and block per annum.
4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 457," or "Lot 2, Block 1048," or "Lot 3, Block 2401," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.
