*Land Act 1890, Part I.*

## REGULATIONS AMENDED AND CONSOLIDATED.

*At the Executive Council Chamber, Melbourne, the twenty-first day of January, 1897.*

## PRESENT :

His Excellency the Administrator of the Government.

Mr. Isaacs  
Mr. Peacock

Mr. Foster.

**W**HEREAS by Part I. of the *Land Act 1890* (54 Vict. No. 1106), section 142, power is given to the Governor in Council from time to time to make, alter, and rescind rules, regulations, and orders for the various purposes therein specified : Now therefore His Excellency the Administrator of the Government, acting by and with the advice of the Executive Council, doth by this Order make the following alterations in the Regulations relating to Part I. of the said Act, that is to say :—

## REGULATIONS RELATING TO PART I.

## CHAPTER II.—OF SURVEY.

Chapter II. of the aforesaid Regulations is hereby rescinded, except as to all matters done, rights acquired, and obligations incurred thereunder, and the following Regulations are substituted therefor :—

1. The methods to be employed in effecting surveys shall be those set forth in the Regulations of the Surveyors Board for the Guidance of Surveyors employed under the Land Acts.

2. In all surveys of subdivisions of township lands permanent marks shall be put in at the intersections of all centre lines of streets or roads, such marks to consist of iron pins 18 inches in length by 1 inch square at top, and are to be driven under the surface of the ground, the position of such pins to be shown on plan and on field notes ; or, for iron pins, iron piping of half-inch bore 18 inches in length may be substituted.

3. Every allotment shall, where it is practicable, contain at least two right angles, and be quadrilateral, and shall not have a shorter depth than double its frontage except where prevented by a boundary or natural feature, nor shall any allotment be allowed to cross a road or water-course that should reasonably form a boundary. If a narrow strip of land not less than 50 links in width be left between any allotment and a water frontage, the shortest side of the allotment shall front such strip of land, and where such strip is required for a roadway it is to be not less than  $1\frac{1}{2}$  chains in width. If an allotment abuts on a main road, the shortest side shall face such road. The boundary lines of allotments within a defined parish shall conform to the locally established meridian of that parish, or as nearly thereto as circumstances will permit. Any departure from these instructions will necessitate a special report to be sent in with the plan.

4. Every allotment shall, where it is practicable, be surveyed as provided for in preceding clause ; and no allotment will be allowed to be surveyed in a position or in a form which would, in the event of its being held separately, cut off access to water from any Crown land, or interfere with the profitable occupation of the same.

5. When a creek is the boundary of an allotment, the traverse of the creek shall form part of the geometrical figure used in calculating the area, and the areas of the portions lying between the traverse lines and the creek are to be computed from the offsets and insets, the average length of which must not exceed 1 chain, or taken out by the planimeter from a careful plot on an enlarged scale. Allotments fronting creek or river reserves shall have their frontages defined by notes and bounds, and marked in the ordinary manner unless otherwise directed.

6. The subject of the selection of roads being one of vital importance, the attention of surveyors is specially directed to the following instructions in reference thereto :—Every surveyor acting under the Department shall as occasion arises communicate with the Municipal Council or Councils who may be interested in any road survey, and request the co-operation of their engineer in selecting the best routes for leading lines of road through the

unappropriated portions of the district. In the event of any municipal council neglecting or refusing to comply with his request, the surveyor shall proceed to select the best lines according to his own judgment; but the failure of the municipal authorities to co-operate shall not relieve him from the responsibility of making proper provision for all necessary roads; and in no case shall he survey a detached selection so as to block an existing track, or in a position likely to interfere with the public convenience, or block access to back country, until he has satisfied himself as to the road requirements of the locality in these respects, and made proper provision therefor. In cases where a difference of opinion may arise between himself and the municipal engineers, or where the surveyor has doubts in his own mind as to the proper course to pursue, he shall refer to the District Surveyor, and be guided by his directions. He shall also from time to time report to the District Surveyor any road which he may consider it desirable to survey, and if the District Surveyor deem it necessary, in the public interest, to traverse any track, leading feature, or permanently survey any line of road in advance of settlement, he will consult with the Surveyor-General.

7. In addition to the necessary main roads, accommodation roads leading thereto or to permanent streams shall be provided for as required or at intervals of from a mile to a mile and a half.

8. Every allotment shall have a road frontage, and wherever a road is shown on a plan it must be laid off on the ground.

9. Surveyors shall be held responsible for any inconvenience that may arise either to the public or individuals through the improper blocking of existing tracks, the omission of necessary roads, or the selection of impracticable roads where practicable ones are possible.

10. In all cases where his measurements differ from those of any previous surveys, the surveyor shall furnish a special report with reference thereto.

11. Field books are to be the property of the Department, and are to be given up whenever demanded.

#### PLANS.

12. The surveyor shall supply a plan of the allotment, showing all features correctly and the course within its boundaries of any stream, race, road, track, and the position of any water-hole, dam, hut, fence, garden, old gold workings, and any other information that may help to distinguish the allotment. He shall also state on the plan whether the bearings of the boundary lines have reference to the true or the magnetic meridian, and how determined; or, if taken from an adjacent survey, the datum line adopted must be shown on the face of the plan. The scale of the plan, where the area of the allotment is 100 acres or less, shall be 8 chains to 1 inch; where the area is over 100 acres, 20 chains to 1 inch, unless a larger scale be required to show distinctly the matters hereinbefore directed to be shown. All plans shall be dated, below signature, as of the day when the plan was completed, and be certified as follows:—"I certify that this survey has been effected and marked on the ground in accordance with regulations, and that this plan is correct."

All plans on being completed are to be transmitted to the Department through the Land Officer for the district.

#### ADJUSTMENT OF BOUNDARIES.

13. Whenever it may be necessary to adjust the boundaries of any surveyed land, the Surveyor-General shall on such adjustment certify as to the correct boundaries and area of the land or any portion or portions thereof, and for every such certificate there shall be charged such fee as the Minister may direct.

#### SURVEY FEES.

14. The survey fee payable on account of any portion of Crown land which has been recommended or is to be granted to any applicant shall be in accordance with the following Schedule of Fees and Scale applicable to the class of country in which such portion is situated, and the Surveyor-General shall determine the scale which shall apply to each district or locality of the colony, and every such applicant shall pay the fee prescribed by these Regulations, even though the land has been previously surveyed and may or may not require further survey.

15. Schedule of Survey Fees for Survey, and valuation of improvements, if any.

In the event of a surveyor having performed his duties satisfactorily such deposit shall be returned to him on his services being dispensed with or on his resigning after giving reasonable notice of his wishing to be relieved.

24. The Surveyor-General shall define the limits of the division within which any authorized surveyor may be employed.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

## Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.

11. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do he will be prosecuted according to law.

13. The licensee shall destroy all thistles on the land, and on the half width of adjoining roads, and shall be responsible for the destruction of thistles under the Thistle Act in like manner as holders of freehold lands.
