Conditions :

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.

2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.

3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same without the permission or sanction of the licensee or any one claiming under her, him, or them.

4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate or to fence any portion thereof.

6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.

7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.

8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.

9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.

10. This licence may be forfeited if the licensee commit a breach or neglect to comply with any of these conditions.

11. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do he will be prosecuted according to law.

13. The licensee shall destroy all thistles on the land, and on the half width of adjoining roads, and shall be responsible for the destruction of thistles under the Thistle Act in like manner as holders of freshhold lands.

14. Free access to water shall be kept open at all times for travelling and other stock and also for persons desiring to take water for domestic supply.

Special Conditions.

1. The period of occupation will be for seven months—from 1st December, 1898, to 30th June, 1899.

2. The fee for the period from 1st December, 1898, to 30th June, 1899—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 1085," or "Lot 2, Block 2175," or "Lot 3, Block 2439," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

3. Bark to be properly bundled, securely tied, and stacked in heaps of not less than 1 ton, in clear places only, every reasonable precaution being taken against fire, and a space of at least 20 feet diameter round each stack cleared of grass and rubbish. GENERAL ELECTORAL LISTS, 1898-9.—ISSUE OF ELECTORS' RIGHTS.

IT is hereby notified that Thursday, the 1st day of December, is the last day on which Electors' Rights can be obtained for enrolment on the General Lists of Non-ratepaying Electors for the Legislative Council and Legislative Assembly, and that persons who are not already enrolled will be entitled to have their names entered on such lists by obtaining Electors' Rights from the Registrars for their respective Divisions, or their Deputies, before or on that date.

Intending applicants for Electors' Rights are cautioned to apply early to the Registrar. The law requires the prescribed questions as to an applicant's qualifications to be answered in writing before the Right is issued; therefore, if application be postponed until the last day allowed for the purpose, the Registrar or Deputy may be unable to issue Rights to all applicants on that day, and those to whom Rights are not so issued will not be enrolled, and will lose their title to vote.

Each applicant should provide himself with the stamp (6d.) necessary for payment for the Right.

Intending applicants are cautioned to carefully ascertain whether they are fully qualified under the law, as a penalty is imposed upon persons knowingly and wilfully obtaining Electors' Rights by falsely answering the questions when not qualified.

No person whose name is on, or entitled to be on, any Roll of Ratepaying Electors for any Division of a PROVINCE may obtain an Elector's Right for such PROVINCE.

No person whose name is already on the New List of Ratepaying Electors (now being prepared) for any Division of an ELECTORAL DISTRICT may obtain an Elector's Right for such DISTRICT.

Foreigners who desire to obtain Electors' Rights must, if not already naturalized in Victoria, obtain letters of naturalization before doing so; and such foreigners, if they desire enrolment as Ratepaying Electors, must obtain letters of naturalization before the sitting of the Revision Courts appointed to be held during February next.

The Registrars and Deputy Registrars throughout Melbourne and suburbs and in the principal towns throughout Victoria will keep their offices open for the issue of Electors' Rights until Ten o'clock p.m. on Saturday, the 26th, Monday, the 28th, and Wednesday, the 30th November, and Thursday, the 1st December.

The security must be completed and contract signed within ten days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

Tenders must express the prices in words as well as in figures; and without alterations or erasures.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in a separate envelope, and having the words "Tender for Victorian House and Smiths' Coal, Victorian Brown Coal or Coke, or Steam Coal at ——" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. As the exact quantity of coal which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.
2. The coal supplied must have been screened at the pit's mouth, and must be the best of its kind. The house coal must be free from shale, small coal, dust, ashes, or other impurities, and the smiths' coal must be free from dust, ashes, shale, or other impurities. No other coal will be received. In case of the rejection or return of any supplies the contractor shall bear the whole cost of replacing the coal so rejected or returned.
3. The orders will be issued by the departments requiring the coal.
4. Coal shall be delivered as may be directed by the officer ordering the supply.
5. At the time of delivering the coal the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the coal accepted and shall return the order to the contractor.
6. If after the delivery of the coal has been taken any deficiency or defect is discovered therein, such coal may be returned to the contractor.
7. The contractor must produce the pit certificate if requested to do so by the officer receiving the coal.
8. The contractor will be bound to weigh the house coal and coke on delivery at such establishments as are provided with weighbridges. In other cases the tickets of the public weighbridges are to be accepted as the weight to be charged for. Coal to be delivered in the places set apart therefor.
9. The contractor will be bound to deliver coal for vessels, except in the case of dredges, into the vessels' bunkers.
10. When baskets are used in the delivery of coal they are all to be of one size, and the contractor will be bound to tare the baskets when so required by the officer taking delivery. In other cases the contractor will be bound to satisfy the officer receiving that the weight or quantity is correct.
11. Coal must be put on board at a rate of not less than ten (10) tons per hour.
12. In the event of the officer ordering the coal not requiring the same to be put into the vessel's bunkers, as required by condition No. 8, a rebate of 1s. per ton to be made by the contractor.
13. Should an order not be complied with within forty-eight hours it will be competent for the department concerned to purchase, at the contractor's risk, and the extra expense (if any) over and above the contract price may be deducted from the contractor's account or the security money, but coal for steam vessels must be supplied on demand. No more delay will be allowed than is sufficient to give the necessary orders and get the hulk or vessel alongside. Bad weather to be the only excuse.
14. As soon as the orders shall have been completed the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.
15. In the event of a difference of opinion between the contractor and the officer receiving the coal as to the quality the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered final.
16. If the board shall decide that the coal or coke is not of proper quality it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted as in condition 13.
17. If from any cause injury would accrue to the public service by waiting for a board of survey the head of the department, or officer in charge of station, will have the power to reject such coal or coke as is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected coal or coke and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition No. 13.
18. A refusal to execute orders, irregularity in the quality or quantity of the coal, &c., or delay in delivering or replacing the coal when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the Colony for the time being may direct; and the amount may be deducted as in Condition 13. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith and forfeit the whole or any portion of the security money.
19. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.
20. In the event of a general strike occurring at the collieries, any contract entered into under these conditions after the expiry of one calendar month from notice being given may be suspended, such contract to come into full force and effect again ten (10) days after such cause of suspension shall be discontinued.
21. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of any other coal by the Defence Department for the use of torpedo boats and the Cerberus.
22. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.
23. No subletting will be allowed; all work must be carried out by the contractor, and the hours of employment of any person engaged therein are not to exceed forty-eight per week, and at a minimum wage of 7s. 6d. (clear of all deductions) per

day of eight hours for miners, and 6s. per day for labourers; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, in the colliery. Any infringement of this condition, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account, or from the security money; and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

8. If the board shall decide that the wood is not of proper quality it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted as in condition No. 3.
9. If from any cause injury would accrue to the public service by waiting for a board of survey, the head of the department or officer in charge will have the power to reject such wood as is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected wood, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition 3.
10. A refusal to execute orders, irregularity in the quality or quantity of the firewood, or delay in delivering or replacing it when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the Colony for the time being may direct; and the amount may be deducted as in condition 3. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith.
11. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.
12. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.
13. No subletting will be allowed; all work must be carried out by the contractor, and the hours of employment of any person engaged therein are not to exceed forty-eight per week, and at a minimum wage of 6s. per day; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, on the premises of the contractor. Any infringement of this condition, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted as in condition 3, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement, and in all other respects.

TENDERS FOR GRAZING LANDS.

Tenders must be sent in on proper form, which can be obtained on application to the Lands Department, Melbourne, or any of the Survey Offices in the country.

Tenders must be placed in the Crown Lands Office Tender-box not later than Twelve noon on Monday, 28th November, 1898.

NOTE.—No tender will be accepted unless the fee for the period from 1st December, 1898, to 30th June, 1899, and fee of Five shillings for licence, are forwarded with the tender.

TENDERS will be received by the Board of Land and Works up to Twelve noon on Monday, 28th November, 1898, for the occupation, for grazing purposes only, of the following unappropriated portions of land, subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 123 of the *Land Act 1890* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Under section 7 of the *Vermin Destruction Act 1890*, all licensees under the section for which these licences will issue are liable for the destruction of rabbits within the boundaries of their licences.

Conditions:

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1890*, except under the 123rd section thereof, under which the licence is issued, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1890*, or for mining purposes.
2. In case the said land, or any part or parts thereof, shall be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than the return of such portion of his licence-fee paid by him as the responsible Minister of the Crown for the time being administering Division II. of the *Land Act 1890* may think fit. This licence is also subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine therein, and to erect and occupy mining plant and machinery, without making any compensation for surface or other damage.
3. Subject to these conditions, the licensee shall be entitled to use the land for the purposes for which the licence has been granted, until notice has been given in the *Government Gazette* that such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid; and immediately upon such notice being given, all the interest of the licensee in the licensed land described in such notice shall cease and be determined, and any person entitled to occupy the licensed land, or any part thereof, may lawfully make entry upon and hold the same without the permission or sanction of the licensee or any one claiming under her, him, or them.
4. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.
5. This licence entitles the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but does not confer any right to build thereon, or to cultivate or to fence any portion thereof.
6. If the licensee desire a renewal of this licence, notice to that effect must be given to the responsible Minister aforesaid one month prior to the expiration thereof, but nothing herein contained shall be deemed to confer the right to any renewal.
7. The interest in this licence may not be transferred without the consent of the Minister aforesaid and the payment of a fee of £1.
8. No claim whatever shall be made or entertained by reason of the licence not being renewed or transferred.
9. This licence is to be used under and in accordance with the regulations made or to be made under the provisions of the said Act and for the time being in force.
10. This licence may be forfeited if the licensee commit a breach of or neglect to comply with any of these conditions.
11. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.
12. The ring-barking of the timber upon the land by the licensee is expressly forbidden, nor is he entitled to destroy or cut and take away any such timber; and should he be found destroying, felling, or removing live or dead timber without a licence authorizing him so to do he will be prosecuted according to law.
13. The licensee shall destroy all thistles on the land, and on the half width of adjoining roads, and shall be responsible for the destruction of thistles under the Thistle Act in like manner as holders of freehold lands.
14. Free access to water shall be kept open at all times for travelling and other stock and also for persons desiring to take water for domestic supply.

Special Conditions.

1. The period of occupation will be for seven months—from 1st December, 1898, to 30th June, 1899.
2. The fee for the period from 1st December, 1898, to 30th June, 1899—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.
3. Tenders to be for so much per lot and block per annum.
4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 1085," or "Lot 2, Block 2175," or "Lot 3, Block 2439," as the case may be.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.

Plans can be seen and information may be obtained in this office.

The births of 896 children, viz., 469 boys and 427 girls, were registered in Greater Melbourne during the month of October. The number was, it will be observed, 12 more than in October, 1897, but much fewer than that recorded for the month during any other of the previous ten years. The number was, moreover, 352 below the average of the previous ten years, or 358 below it, if allowance be made for the increase of population.

The deaths registered in October numbered 574, viz., 315 of males and 259 of females; the births thus exceeded the deaths by 322, or by 56 per cent., as against 87 in 1897 and 112 per cent. according to the average. The deaths were, it will be noticed, 102 more than those in October, 1897, but 16 fewer than the average of October during the last ten years, or 19 below it, allowing for the increase of population.

To every 1,000 of the population of the district the proportion of births registered was equivalent to 23.00 and of deaths registered to 14.74 per annum, as compared with averages of the same month in 1897 of 23.07 and 12.32 respectively, and in the last ten years of 33.03 and 15.51 respectively, and averages of the whole year of 33.56 and 17.77.

The highest temperature in the shade recorded at Melbourne Observatory during the month was 89.0° on the 26th, and the lowest was 38.2° on the 5th. The mean temperature of the month (57.0°), was three-fifths of a degree above the average. The greatest range of the thermometer in any one day (39.9°) took place on the 26th, and the least range (2.4°) on the 7th. The mean daily range was 20.7°. The highest atmospheric pressure recorded was 30.195 inches on the 1st, and the lowest was 29.153 inches on the 28th. The mean atmospheric pressure (29.755 inches) was about one-eighth of an inch below the average, and was, with one exception, the lowest for the month during the last eleven years.

Rain fell on eleven days, the amount being 1.21 inches, which was nearly two-thirds of an inch lower than in October, 1897, and 1.10 inches below the average of the previous ten years.

Males contributed 55 per cent. and females 45 per cent. to the mortality of the month. Children under five years of age contributed 30 per cent. to that mortality, as against 19 per cent. in October, 1897; 21 per cent. in October, 1896; 21 per cent. in October, 1895; 21 per cent. in October, 1894; 28 per cent. in October, 1893; and 26 per cent. in October, 1892.

Sixty-four persons—as against thirty-eight in October, 1897—whose deaths were recorded during the month had attained or passed the age of 75 years. Of these, a female, aged 75, died of phthisis; a miner and a female, each aged 75, of valvular disease of the heart; a carpenter, aged 75, of pericarditis; a female, aged 75, of heart disease; a labourer and a female, each aged 75, of bronchitis; a male, of no occupation, aged 76, of hæmoptysis; a female, aged 76, of heart disease; a gentleman and a male of no occupation, both aged 76, of bronchitis; a dairyman, aged 76, of pneumonia; a merchant, aged 76, of cystitis; a miner, aged 77, of gout; a female, aged 77, of paralysis; a bricklayer and a female, both aged 77, of bronchitis; a male, of no occupation, aged 77, of pneumonia; a labourer, aged 78, of phthisis; a female, aged 78, of diabetes; an ex-schoolmaster, aged 78; of softening of the

N.B.—The figures in parentheses represent the numbers in the corresponding month of the preceding year.

In the month under notice as compared with the corresponding month last year, there was an increase of 51 deaths under the head of local, 18 under zymotic, 12 under constitutional, 5 under developmental, 2 under parasitic diseases, 4 under the head of violence, and 11 under ill-defined causes; whilst the only decrease was 1 under dietic diseases. Under the local class, the principal increases were 16 under diseases of the circulatory, 38 under those of the respiratory (chiefly bronchitis and pneumonia), and 27 under those of the digestive system (of which 16 were due to enteritis alone); as against which there was a decrease of 32 under diseases of the nervous system, and 3 under diseases of parturition. Under the zymotic class, deaths from diarrhoeal diseases increased by 5, typhoid fever, whooping cough, and syphilis by 4 each, and measles by 3; but, on the other hand, those from diphtheria diminished by 5. Under the constitutional class, deaths from cancer were more numerous by 7, and those from scrofula, &c., by 6.

The present epidemic of measles, which culminated in April with 99 deaths, is gradually abating—the deaths having since gradually fallen to 3 in October. Since its first outbreak, in December last, this epidemic has carried off 397 persons—principally children. During the last 25 years there have been six conspicuous epidemics of measles, of which the most fatal was the epidemic of 1874-5, which caused 733 deaths; the next, that now prevalent; and the next, that of 1893, which caused 386 deaths. Such epidemics have occurred at intervals of usually four or five years, and the disease is apparently not confined to any particular season of the year. The following are particulars of the leading outbreaks during the last 25 years:—

It will be noticed that by far the highest mortality occurred in Melbourne, Collingwood, and Brunswick, in the order named, and the next highest in Richmond, Fitzroy, the Hospitals, South Melbourne, and North Melbourne.

NOTE.—The figures in brackets indicate the number of deaths in October.

The following is a statement of the deaths set down to diphtheria and typhoid fever in each month of the years 1890 to 1897, and the first ten months of 1898, from which may be traced the rise and fall of the mortality at various periods of the year. It will be noticed that the mortality from typhoid fever usually attains its maximum in March, and is at a minimum from July to November. It will also be noticed that the mortality from typhoid fever has been very low during the past five months.

POPULATION OF VICTORIA.

ESTIMATED Population of Victoria on the 30th September, 1898:—

Third Quarter of 1898.	Males.	Females.	Males.	Females.	Total.
Births ...	4,027	3,889			
Deaths ...	2,350	1,799			
Natural increase	1,677	2,090	3,767
Arrivals by sea (recorded) ...	13,346	5,787			
Departures by sea (recorded) ...	12,128	5,981			
Departures unrecorded (estimated)	1,213	359			
Net loss by emigration	+ 5*	553	548
Increase during the quarter	1,682	1,537	3,219
Estimated Population on 30th June, 1898	589,424	580,010	1,169,434
Estimated Population on 30th September, 1898	591,106	581,547	1,172,653

* The plus (+) sign indicates gain by immigration.

NOTE.—The natural increase of population during the quarter was one-fifth below the average of the corresponding quarters of the two previous years, owing to a falling-off in the birth rate, accompanied with an increase in the rate of mortality. Thus, the births fall off by 312 as compared with the third quarter of 1897, and by 500 as compared with that of 1896, whilst the deaths increased by 587 and 425 respectively; resulting in a reduction in the natural increase of 899 and 925 respectively.

The returns of the Immigration Agent, however, show a marked improvement in the movements of population, there having been recorded a net immigration during the quarter, for the third time since 1891, of 1,024 persons, the two other occasions being the fourth quarters of 1897 and 1894, when a net immigration of 2,504 and 1,311 respectively was recorded; whereas in the third quarter of 1897 there was a net emigration of 886, and in that of 1896 one of 5,386. Allowing for unrecorded departures (estimated), however, there was really a loss by emigration during the quarter of 548, as shown in the table.

Deducting the net loss by emigration from the natural increase, there results an increase of population during the quarter of 3,219, as compared with an increase of 2,174 in the corresponding quarter of 1897, but with a decrease of 2,585 in that of 1896. The increase shown was the fourth largest recorded—taking all quarters—since 1891, the largest being 4,206 in the last quarter of 1894, the next, 3,696 in the fourth quarter of 1897, and the next, 3,247 and 3,219 respectively in the third quarter of 1892 and 1898.

From the date of the census (5th April, 1891) the allowance for unrecorded departures has been 55,515, viz., 43,156 of males, and 12,359 of females. Had no such allowance been made, the population at the end of September would have been set down at 1,228,168, viz., 634,262 males and 593,906 females.

The records of migration—which include passengers merely calling at Victorian ports *en route*—show a balance in favour of immigrants of 1,763 from Western Australia, 643 from Foreign Ports, 144 from South Australia, 170 from the United Kingdom, and 26 from South Africa; but a balance in favour of emigration of 1,284 to New South Wales, 410 to Queensland, 15 to Tasmania, and 13 to New Zealand and South Seas. The noticeable feature in these records is the cessation—temporary at least—of the emigration to Western Australia and South Africa, to the former of which there has been an almost uninterrupted net emigration during the previous nine years and a half amounting altogether to 70,650, and to the latter, during the previous three years and a half, a net emigration amounting to 5,211. The only exceptions to the regular outflow to Western Australia occurred in the fourth quarter of 1893 and 1897—when there was a net gain of 379 and 2,464 respectively, and in the quarter under review. In the third quarter of 1897, the net emigration to Western Australia was 1,377, and to South Africa 139; and in the corresponding quarter of 1896 it was 7,795 to the former and 1,118 to the latter colony.

persons or otherwise; and every wilful breach of any such regulation shall be deemed to be a separate offence against this part of this Act, and every person committing any such offence shall be liable to a penalty not exceeding Five pounds.

4. Any local authority may make such rules and regulations with reference to the licensing of carters and boatmen, the places where they shall stand, the rates they shall receive, the distance they shall be compelled to go, and such other matters as may tend to the public convenience in regard to them as such local authority may see fit.

5. No person without a licence first had and obtained from the local authority shall erect, place, or set up, or build in any public place any hoarding or scaffolding, or place or erect any posts, bars, rails, boards, or other thing by way of enclosure for the purpose of making mortar, or of depositing, sifting, screening, or slacking any brick, stone, lime, sand, or any other material for building or repairing any house or other tenement or erection, or for any other purpose; and such licence as aforesaid shall specify therein the length of time for which any such hoarding, scaffolding, posts, bars, rails, boards, or other thing when so erected or set up may be continued, and shall contain such other directions respecting the same as are necessary. And if any person place, set up, erect, or build, or cause or permit to be erected, placed, set up, or built any such hoarding or scaffolding, or any enclosed posts, bars, or rails, or any other matter or thing for the purposes aforesaid, or for any other purpose without such licence, or contrary to the provisions and conditions of such licence, or to be continued for any longer time than is allowed or expressed in such licence, then and in any of the said cases such person shall forfeit and pay a penalty not exceeding Twenty pounds, and also the sum of One pound for every day that the same has been and is set up and continued contrary to the provisions hereof, and the said local authority may, four days after notice, cause the same to be pulled down and removed, and the same and all the materials thereof to be kept and detained until such person pays to such local authority all the penalties incurred by such persons, together with the charges of pulling down, removing, and keeping the same; and if the same be not claimed and the said penalties and charges as aforesaid paid within the space of five days next after the pulling down and removing thereof, such local authority may order or cause the same to be sold by public auction, and the proceeds thereof applied according to the provisions hereinafter mentioned respecting the appropriation of moneys arising from forfeitures.

6. 8. If any person, after the coming into operation of this Act, erect or cause to be erected in any city, town, district, or place to which this provision may be extended any chimney or fire-place of timber or other matter liable to ignition, or do not place for a sufficient distance some matter or material not liable to ignition between such chimney or fire-place and any material of an inflammable nature or liable to ignition, the occupier of such house shall, on notice from the local authority being served upon him or left at such premises, requiring such fire-place or chimney to be so altered as not to come within the meaning of this provision, and neglecting, after the expiration of seven days, to comply with the conditions of such notice, forfeit and pay a penalty of not more than Ten pounds.

9. Upon the extension of any of the provisions of this part of this Act to any city, town, or borough in Victoria, the council of such city, town, or borough, or, if there be no such council, the Surveyor-General, shall cause to be set out the breadth of the carriage and foot ways in the streets and public places of every such city, town, or borough, and shall cause the said footways to be marked by posts at the corners and intersections of the streets; and the carriage and foot ways, when so set out, shall be deemed to be the carriage and foot ways respectively of such city, town, or borough.

10. Before the Surveyor-General shall cause to be set out the carriage and foot ways of any such city, town, or borough as aforesaid, he shall submit to the Governor in Council a plan of the same, showing the proposed breadth of the carriage and foot ways; and thereupon the Governor may, by notice in the *Government Gazette*, fix and declare the breadth of such carriage and foot ways, and the distance from the outer edge of such footways, within which it shall not be lawful to erect any building or fence.

Passed by special order of the Council of the Shire of Glenlyon on the 3rd day of October, 1898, and confirmed on the 7th day of November, 1898.

REGULATIONS FOR THE CARE, PROTECTION, AND MANAGEMENT OF THE RESERVE FOR PUBLIC RECREATION IN THE TOWNSHIP OF COBURG.
