

SUPPLEMENT SECOND

TO THE

VICTORIA GOVERNMENT GAZETTE

OF WEDNESDAY, AUGUST 21, 1901.

Published by Authority.

No. 115.]

TUESDAY, AUGUST 27.

[1901.

AGRICULTURAL STATISTICS, 1900-1.

MEMORANDUM.—At the date at which the Agricultural Statistics are collected it is impossible to obtain a reliable estimate of the produce of Potatoes, Vines, Hops, Tobacco, and Flax or of the quantity of Fruit gathered in many of the orchards and gardens. This information having since been ascertained by means of circulars sent to the growers, is now published. Particulars of the Honey obtained, Ensilage made, and manure used are also shown.

JAMES J. FENTON, Government Statist.

Office of the Government Statist, Melbourne, 19th August, 1901.

POTATOES.

TABLE I.—Return showing the Area under, and Produce of, Potatoes in Municipalities in which 300 acres and upwards were grown during the Season 1900-1.

	Shires.			Area. Produce.		Shires.	Area.	Produce.
Bungaree Romsey Buninyong Warrnambool Kyneton				Acres. 3,803 2,501 2,188 2,167 2,163	Tons, 16,310 8,003 5,150 6,718 4,975 5,558	Portland Warragul Ballan Bellarine	Acres 816 . 762 . 709 . 483 . 464 . 457	Tons. 3,264 2,103 3,233 1,623 1,559 1,659
Moorabbin Creswick Newham Glenlyon				1,737 1,658 1,231 1,216	3,913 3,939 2,870	Narracan Oxley	445 373 8,402	2,029 932 25,751
Belfast Buln Buln Colac Ballarat				1,180 1,041 1,033 955	3,658 4,747 4,235 2,674	Total 1900-1	38,477	123,126 173,381
Dandenong Lancefield Koroit Borough				923 922 848	2,654 2,950 2,619	Decrease	16,992	50,255

Note.—As only a part of the potato crop, viz., 6,585 acres, had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received, in response to circulars, from the principal growers in each shire. The average of the 6,585 acres dug prior to the general collection of the statistics was 3 of tons per acre; and that of 5,997 acres, returned by principal growers after such collection, was 3 33 tons per acre; giving a general average for the whole season of 3 20 tons per acre. Hence the estimate of the total produce is based on the average yield of 12,582 acres—or, nearly three-tenths of the whole area.

POTATOES.

TABLE II.—Return for Eleven Years.

Year.	Area.	Produce.*	Average per Acre.*	Year.	Area.	Produce.*	Average per Acre.
1890-1 1891-2 1892-3 1893-4 1894-5 1895-6	Acres. 53,818 57,334 40,594 40,909 56,383 43,895	Tons. 204,155 200,523 142,623 144,708 196,706 117,238	Tons. 3·79 3·50 3·51 - 3·54 3·49 2·67	1896-7 1897-8 1898-9 1899-1900	Acres. 43,532 44,197 41,252 55,469 38,477	Tons. 146,555 67,296 161,142 173,381 123,126	Tons. 3 37 1 52 3 91 3 13 3 20

^{*} Based on ante-harvest estimates by all farmers prior to 1898-9; but in 1898-9, 1899-1900, and 1900-1, on partial returns received from principal growers.

VINES.

Table HI.—Return of the Number of Growers, the Area cultivated, and the Produce obtained during the Season 1900-1.

^{*} Particulars combined of Shires having an area of 50 acres and under of vines, and also those from which single schedules were received, were as follow:—The Shires of Alexandra. Avon, Bairnsdale, Bellarine, Birchip, Boroondara, Borung, Bright, Bulla, Castle Donnington, Colae, Cranbourne, Creswick, Donald, Dunmunkle, Ferntree Gully, Frankston and Hastings, Glenlong, Grenville, Heidelberg, Keilor, Kowree, Kyneton, Leigh, Maffra, Maldon, Melton, Metcalfe, Morwell, Mount Alexander, Mount Franklin, Newstead, Orboot, Eyalong, Rispon, Rossedale, Saymon, South Barwon, South Gippsland, Strathfieldsaye, Talbot, Templestowe, Towong, Traralgon, Warragul, Wycheproof, and Wyndham; and the Boroughs of Ararat, Carisbrook, Gastlemaine, Chewton, Daylesford, Dunolly, Horsham, Maryborough, Tarnagulla, and Wangaratta.
† Of this total the estimated quantity of grapes used for making wine was 396,644 cwt., for making raisins and currants 99,255 cwt., and for table consumption or export 136,013 cwt.
‡ Including 103,000 gallons of wine made in wineries situated in the Shires of Rodney and Yarrawonga.
§ In addition, 620,592 lbs. of raisins were made on the opposite side of the Murray River, in New South Wales, from grapes grown in Mildura, as against 585,460 lbs. made in 1899-1900.

FRUIT.

TABLE IV.—Return of Fruit Trees in 1898-9, and of Fruit other than Grapes (so far as returned) gathered during the three Seasons 1898-9 to 1900-1, in Orcharda and Gardens growing fruit for sale.

NOTE.—The particulars as to the number of trees were not collected in 1899-1900 or 1900-1. If it is desired to ascertain the approximate area under each kind of fruit, it may easily be done by taking a given number of trees to the acre. It is stated that a large number of the trees are not yet bearing. In 1900-1 the number of persons growing fruit for sale (orchardists) was 5,400, as compared with 5,028 in 1899-1900, and 4,868 in 1898-9.

Table V.—Return showing the Municipalities in which 5,000 cwt. and over of Large Fruits, 1,000 cwt. and over of Small Fruits, and 1,000 lbs. and over of Nuts, were stated to have been gathered for sale in 1900-1.
