[No. 56 OF 1902.]

TIDES AT EAST CAPE.

The principal light-keeper at East Cape states that, having noted the time of high water at F. and C. at East Cape for some time, he finds it to be about 6 hours 15 minutes, instead of 8 hours 55 minutes, as given in the "New Zealand Pilot." It is likely that several of the tide establishments need revision: for instance, it will be seen that Cape Runaway is given on the chart as having high water at F. and C. at 9 hours 16 minutes, and Te Kaha, only 20 miles to the S.W. of it, as 6 hours 30 minutes, and the tidal stream here runs to the westward. It would seem likely, therefore, that one or other of these times is considerably in error.
