LOWER-LEVEL LIGHT ON PENCARROW POINT, EASTERN SIDE OF ENTRANCE TO PORT NICHOLSON.

Marine Department,
Wellington, N.Z., 25th September, 1906.

NOTICE is hereby given that a low-level lighthouse on Pencarrow Point, 610 ft. S. 59 deg. W. of Pencarrow Lighthouse, on eastern side of entrance to Port Nicholson, has been established. A large rock standing on the shore about a chain from high-water mark has been encased in concrete, and forms a base upon which is erected an open-work iron structure carrying the light. From the bottom of the base to the top of the lantern is 56 ft., and the whole erection is painted white.

The light will be 32 ft. above sea-level at high water, and is a Wigham patent three-wick lamp. It will show a fixed white light seaward over an arc of the horizon of about 85 deg. between the bearings of N. 65 deg. E. and N. 20 deg. W., cutting seven cables off Sinclair Head and seven cables off Baring Head respectively; a red arc between N. 65 deg. E. and S. 16 deg. E. over Chaffer's Passage and Barrett's Reef; and white again in the fairway between S. 15 deg. E. and S. 8 deg. E., cutting just inside Steeple Rock buoy and the buoy on the eastern shore extension of Hope Shoal; this gives a white segment of 8 deg. in width in the fairway leading clear of all buoys.

The light should be visible in clear weather at a distance of about ten miles, and will be lighted on and after the night of Wednesday, the 10th October, 1906.

Printed forms of tender, giving full particulars, may be obtained from the Secretary to the Tender Board, Melbourne, from the Receivers and Paymasters at the respective places, and for Queenscliff from the Officer Commanding Victorian Artillery, Queenscliff, by whom also any information or explanation will be afforded to persons tendering.

Security will be required in cash, Savings Bank Deposit Book, or Bank deposit receipt, in favour of the Secretary to the Tender Board, or Government debentures.

Each tender must be accompanied by the preliminary deposit for the exact amount, according to places tendered for, in bank notes, or a bank draft payable to the order of the Secretary of the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers on application. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed and contract signed within ten days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in a separate envelope, and having the words "Tender for Coal or Coke at _____" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. As the exact quantity of coal which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. The coal supplied must have been screened at the pit's mouth, and must be the best of its kind. The house coal must be free from shale, small coal, dust, ashes, or other impurities, and the smith's coal must be free from dust, ashes, shale, or other impurities. No other coal will be received. In case of the rejection or return of any supplies the contractor shall bear the whole cost of replacing the coal so rejected or returned.

3. The orders will be issued by the departments requiring the coal.

4. Coal shall be delivered as may be directed by the officer ordering the supply, and when supplied in bags the bags remain the property of the contractor, and must be removed by the contractor within three months after delivery.

5. Melbourne District will include a radius of 6 miles from the General Post Office.

6. At the time of delivering the coal the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the coal accepted, and shall return the order to the contractor.

7. If after the delivery of the coal has been taken any deficiency or defect is discovered therein, such coal may be returned to the contractor.

8. The contractor must produce the pit certificate if requested to do so by the officer receiving the coal.

9. The contractor will be bound to weigh the house coal and coke on delivery at such establishments as are provided with weighbridges. In other cases the tickets of the public weighbridges are to be accepted as the weight to be charged for. Coal to be delivered in the places set apart therefor.

10. The contractor will be bound to deliver coal for vessels, except in the case of dredges, into the vessels' bunkers.

11. When baskets are used in the delivery of coal they are all to be of one size, and the contractor will be bound to tare the baskets when so required by the officer taking delivery. In other cases the contractor will be bound to satisfy the officer receiving that the weight or quantity is correct.

12. Coal must be put on board at a rate of not less than ten (10) tons per hour.

13. In the event of the officer ordering the coal not requiring the same to be put into the vessel's bunkers, as required by condition No. 10, a rebate of 1s. per ton to be made by the contractor.

14. Should an order not be complied with within 48 hours it will be competent for the department concerned to purchase, at the contractor's risk, and the extra expense (if any) over and above the contract price may be deducted from the contractor's account or the security money, but coal for steam vessels must be supplied on demand. No more delay will be allowed than is sufficient to give the necessary orders and get the hulk or vessel alongside. Bad weather to be the only excuse.

15. As soon as the orders shall have been completed the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.

16. In the event of a difference of opinion between the contractor and the officer receiving the coal as to the quality, the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered final.

17. If the board shall decide that the coal or coke is not of proper quality it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted as in condition 14.

18. If from any cause injury would accrue to the public service by waiting for a board of survey the head of the department, or officer in charge of station, will have the power to reject such coal or coke as is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected coal or coke and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition No. 14.

19. A refusal to execute orders, irregularity in the quality or quantity of the coal, &c., or delay in delivering or replacing the coal when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the State for the time being may direct; and the amount may be deducted as in condition 14. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith and forfeit the whole or any portion of the security money.

20. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

21. In the event of a general strike occurring at the colliery or collieries, any contract entered into under these conditions after the expiry of fourteen days' notice being given may be suspended; such contract to come into full force and effect again ten (10) days after such cause of suspension shall be discontinued.

22. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of coal by the Commonwealth Government.

23. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

24. No subletting will be allowed: all work must be carried out by the contractor, and the hours of employment of any person engaged therein are not to exceed 48 per week, and at a minimum wage of 7s. 6d. (clear of all deductions) per day of eight hours for miners, and 6s. per day for labourers; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, in the colliery,

Any infringement of this condition, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

Tenders, enclosed in a separate envelope, and having the words "Tender for Firewood at _____" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. All the firewood supplied under these contracts must be split out of large timber, and of the kind or kinds specified in the schedule, and must be dry, perfectly sound, and of good burning quality, and cut into billets of the lengths stated in the schedules, such billets to be not less than four inches nor more than six inches in any diameter. The long wood to be not less than nine inches nor more than eighteen inches in any diameter. Neither burnt wood, heart wood, small branches, nor outside pieces of bark will be received. If the firewood is obtained from a State forest timber reserve or ordinary Crown lands, persons cutting and removing same must be provided with proper Crown licences for the particular area concerned.

3. The orders will be issued by the departments requiring the supplies, and the firewood shall be delivered as may be directed by the officer ordering the supply. If after the delivery of the firewood has been taken any deficiency or defect is discovered therein, such firewood may be returned to the contractor. In case of the rejection or return of any firewood, the contractor shall bear the whole cost of replacing the wood so rejected or returned.

7. As soon as the orders shall have been completed the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.

8. In the event of a difference of opinion between the contractor and the officer receiving the firewood as to the quality, the same shall be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

10. If from any cause injury would accrue to the public service by waiting for a board of survey, the head of the department or officer in charge will have the power to reject such wood as is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected wood, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition 3.

11. A refusal to execute orders, irregularity in the quality or quantity of the firewood, or delay in delivering or replacing it when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the State for the time being may direct; and the amount may be deducted as in condition 3. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith.

12. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

13. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of firewood by the Commonwealth Government.

14. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

15. No subletting will be allowed; all work must be carried out by the contractor, and the hours of employment of any person engaged therein are not to exceed forty-eight per week, and every such person shall be paid at a minimum wage of not less than 6s. per day; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, on the premises of the contractor. TENDERS FOR GRAZING LANDS.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Survey Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box not later than Three o'clock p.m. on Tuesday, 30th October, 1906.

NOTE.—No tender will be accepted unless the fee for the period from 1st November, 1906, to 30th June, 1907, and fee of Five shillings for licence, are forwarded.

TENDERS will be received up to Three o'clock p.m. on Tuesday, 30th October, 1906, for the occupation, for grazing purposes only, of the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 187 of the *Land Act* 1901 shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act* 1901, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act* 1901, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

6A. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

That where improvements are authorized under section 189 of the *Land Act* 1901 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

7. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

8. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

9. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

10. The ring-barking of the timber upon the land by the licensee is expressly forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

11. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

12. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act* 1890 in like manner as holders of freehold lands.

13. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

14. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

Special Conditions.

1. The period of occupation will be for eight months—from 1st November, 1906, to 30th June, 1907.

2. The fee for the period from 1st November, 1906, to 30th June, 1907—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

Section 13, *Land Act* 1904, provides:—

1. Where a licensee under section 187 of the *Land Act* 1901, has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may in any Court of competent jurisdiction sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals:
