## Education Act 1890.

REGULATIONS No. I. And No. IV. RESCINDED.—  
NEW REGULATIONS MADE.

At the Executive Council Chamber, Melbourne, the  
fourth day of June, 1907.

## PRESENT:

His Excellency the Lieutenant-Governor of Victoria.

Mr. Cameron	Mr. Mackey
Mr. Sachse	Mr. Mackinnon.
Mr. McLeod	

WHEREAS by section 23 of the *Education Act 1890* (54 Vict. No. 1086) it is enacted that the Governor in Council may from time to time make and rescind regulations for all or any of the purposes therein mentioned, and generally for carrying the said Act into effect: Now therefore His Excellency the Lieutenant-Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby rescind Regulation No. I., Course of Free Instruction, and Regulation No. IV., The Certificate of Exemption from Compulsory Attendance and the Certificate of Merit, and doth substitute the following Regulations in lieu thereof, that is to say:—

## REGULATION I.

## COURSE OF FREE INSTRUCTION.

I. The secular instruction to be given in schools under the Education Acts shall be that shown in the following Course of Free Instruction:—

## Class I.

READING, SPELLING, AND TRANSCRIPTION.—(a) To read *The Primer, the First Book*; and, in addition, to read, from the blackboard, lessons in script or print containing, in new combinations, the words employed in the above books. Reasonable fluency will be required, and also ability to group words into phrases, and to read naturally and with expression.

(b) To spell the words contained in *The Primer* and up to page 44 of the *First Book* and the words printed in black type in the remaining portion of the *First Book*. The spelling should be both written and oral, and the more advanced scholars should be practised in easy dictation exercises. Oral spelling should not be required in the early stages of learning to read, but should be delayed until the children have become familiar with word pictures. The spelling of a word should be learnt in association with its meaning and with its use in a phrase or sentence.

(c) To write, on slates or paper, any sentences which are prescribed for reading. The teacher's object should be to give the children, from the earliest stage, the power of using writing as a mode of thought expression, and, therefore, the subject-matter should often be taken from the children's own oral composition.

*Alternative Course.*—Teachers who desire to teach the above-mentioned subjects in correlation with the general lessons may select their own subject-matter, provided that the district inspector is satisfied that the work selected is equal in amount and in difficulty to that prescribed above.

LANGUAGE.—To be learning to speak correctly and naturally, and to be trained in giving clear and connected answers to questions; the class to be able to give the substance of a short story told by the teacher; to be receiving oral composition exercises in the form of lessons on pictures, and of conversations between teacher and class on objects or on incidents arising out of the school work.

FORMAL WRITING.—To be learning to form, on slates or on paper, the small and the capital letters and short words, from copies on the blackboard and from dictation. The more advanced pupils of the Lower First Class to be learning to write with pen or pencil in the *Australian Instructory Copy-book*, and the pupils of the Upper First Class to be writing with pens in the *Australian Copy-book No. 1*. Plain books with similar ruling may be used. Care should be taken to avoid an unduly small and cramped formation of letters.

The teacher's object should be to show clearly the elements which go to the building-up of each letter, and how these may be produced; also to teach the child how to sit at writing exercises, how to hold the pencil or pen, and how to form words without lifting the pencil or pen.

POETRY.—To learn at least 150 lines of suitable verse.

Where practicable, this verse should be related to the subject-matter of other lessons, especially of those on nature-study. All suitable means for bringing home to the minds of the children the meanings of the words and phrases, and of the verse as a whole, should be adopted.

No. 72.—JUNE 12, 1907.—6668.—2.

ARITHMETIC.—*First stage.*—To count, read, and write numbers up to 20; to learn the significance of the number names used; to learn the analysis of numbers up to 10, applied and abstract.

No work should be done with abstract numbers until number facts have become familiar through objective illustrations.

*More advanced stages.*—To count, read, and write numbers up to 100; to know the significance of the number names used; to know the analysis of numbers up to 20, applied and abstract; to be learning (a) to count by tens, fives, and twos up to 100, (b) to add one number less than ten to another number more than ten, the total not to exceed 100, and (c) to add a column of numbers, each less than ten.

The children should be taught practically the following measurements, and these should be used in the work with applied numbers:—inch, foot, yard; ounce, pound; pint, quart; day, week; and the relative values of the bronze and silver coins up to one shilling. The fractions one-half and one-fourth should be used.

MANUAL TRAINING.—I. *Drawing* (a course of at least one hour and a half per week).—(a) To draw, on slates or blackboards and on plain paper, examples containing both straight and simple curved lines. No mechanical aids, such as ruling into squares, are to be used. The drawings on slates or blackboards are to be executed on a large scale, and with a free arm. Slate pencils are not to be used. The examples selected for freehand and freearm work should represent objects interesting to the children; they should not be mere collections of lines.

(b) Drawing from memory.

(c) To draw, with the aid of a foot-rule, simple exercises representing objects or patterns in straight lines.

II. (1) *Brushwork* (a course of at least one hour per week, but not compulsory for pupils who learn needlework).—To draw, with a brush and water-colour, simple natural forms and simple decorative forms.

(2) *Occupations.*—Where practicable, one or more of the following:—(a) Outlining with coloured wool (for Lower First Class only); (b) paper folding and cutting; (c) mat-weaving; (d) clay modelling; (e) sand-tray work; (f) card-board sewing.

NOTE.—Boys as well as girls may, if the teacher so desires, receive instruction in the needlework of this class.

SINGING.—(1) To sing, sweetly and without strain, suitable class songs. The aim should be to develop the sense of tune and rhythm by means of the neat execution of songs learnt by ear. The more advanced pupils to be learning the scale and common chord with the tonic sol-fa syllables. The hand-signs should be used. Where practicable, the songs chosen should be related to the subject-matter of the other lessons of the class.

(2) Practice in breathing exercises.

NATURE-STUDY.—To receive lessons on the animal and plant life of the district, whether native or introduced, and on simple natural phenomena familiar to the children.

STORIES.—To be told stories bearing on, illustrating, and deepening the interest in, the general class work, e.g., mythological stories, fairy stories, and nature stories.

PHYSICAL TRAINING.—To be practising finger plays, games, marching, and physical exercises and drill with music; breathing exercises.

## Class II.

READING, SPELLING, AND TRANSCRIPTION.—(a) To read, with reasonable fluency and expression, and with understanding of the subject-matter, the *Second Reading Book* or approved equivalent.

(b) To spell the words in the matter prescribed for reading, either orally or in easy dictation exercises. The children should learn the spelling of words in association with their meaning and with their use in sentences.

(c) To write in a bold and legible small hand, with correct spelling and punctuation, either on slates or on paper, the subject-matter of the reading lesson.

COMPOSITION.—To be learning to express thought easily, correctly, and naturally, either orally or in writing; the class to be able to give the substance of a short story told to them; picture lessons; composition arising out of the general school work.

**Measurements.**—To be learning practically:—Fractional parts up to  $\frac{1}{8}$ ; inch, foot, yard; ounce, pound; pint, quart, gallon; minute, hour, day, week; dozen, score; and the relative values of all British coins in use in Victoria; and to be able to apply the knowledge.

Work under this head should consist only of such facts as are evident to young children.

**Drawing and Modelling.**—To be able to make a plan of the school-room and environs to a fairly correct scale; to be studying models in sand of geographical features, and to be able to make plans of them; to be able to point out these features on a picture, map, or globe, and to describe them orally and in writing.

**Topography.**—The topography of the district, but so far only as it touches the lives of the children; Australia and its divisions; the continents and oceans. **MANUAL TRAINING.**—I. *Drawing* (a course of at least one hour and a half per week)—(a) As for Class I., but the work to be of a more advanced character and of better quality in execution. It is recommended that, for hemming, strips of coarse calico (8 inches by 3 inches), with coloured threads—black, red, blue, and white—and needles No. 7, short, should be used. About eight stitches should go to the inch, and the work should include turning down and tacking the hem, beginning, joining, and fastening-off threads. In seaming or top-sewing, practice may be given in joining the strips used in hemming. A small, untrimmed garment or other article, showing these stitches, should be made, e.g., a child's under-bodice or a work-bag. Tenders should be placed in the Crown Lands Office Tender-box not later than Three o'clock p.m. on Thursday, 27th June, 1907.

NOTE.—No tender will be accepted unless the fee for the period from 1st July, 1907, to 30th June, 1908, and fee of Five shillings for licence, are forwarded.

TENDERS will be received up to Three o'clock p.m. on Thursday, 27th June, 1907, for the occupation, for grazing purposes only, of the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 187 of the *Land Act* 1901 shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

## Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act* 1901, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act* 1901, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads, from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

6A. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

That where improvements are authorized under section 189 of the *Land Act* 1901 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

7. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

8. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

9. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

10. The ring barking of the timber upon the land by the licensee is expressly forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

11. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

12. The licensee shall destroy all thistles on the land, and on the half width of the adjoining road, and shall be responsible for the destruction of thistles under the *Thistle Act* 1890 in like manner as holders of freehold lands.

13. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

14. This licence is issued subject to the right of sawmillers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

## Special Conditions.

1. The period of occupation will be for twelve months—from 1st July, 1907, to 30th June, 1908.

2. The fee for the period from 1st July, 1907, to 30th June, 1908—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Tenders to be for so much per lot and block per annum.

4. Separate tenders must be lodged for each block.

5. Tenders to be indorsed—"Tender for Lot 1, Block 3935," or "Lot 2, Block 6556," or "Lot 3, Block 6799," as the case may be, and addressed to Secretary for Lands, Melbourne.

6. The highest or any tender not necessarily accepted.

7. Tenderers must give their full name and ordinary postal address.

8. The areas are given as more or less, and all appropriated, alienated, or licensed land (if any) within the boundaries is excluded.

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act* 1904, provides:—

1. Where a licensee under section 187 of the *Land Act* 1901 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may in any Court of competent jurisdiction sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

Burials of deceased persons from sub-districts north of the Yarra will take place at the Fawkner Cemetery, and those from sub-districts south of the Yarra at the Springvale Necropolis respectively.

Tenders, which must be upon the printed form, will be received for either funerals or removals, but if both services be included in one tender it may, if advisable, be accepted for one service only.

For funerals separate prices must be stated for adults, for children under fourteen years of age, and for children under five years of age including still-born—one sum is to be stated for each, including interment, conveyance, and all charges whatsoever, except ministers' fees. For removals separate prices must be stated for adults and children under seven years of age.

Tenderers are advised to attach to their tenders lists of their business branches, specifying telephonic connexions, as accessibility and means of prompt communication will be considered in accepting the tenders.

Tenders must state the prices in words as well as in figures, without alterations or erasures.

Tenders must be accompanied by a preliminary deposit in bank notes, or a bank draft payable to the order of the Secretary to the Tender Board for £5 for burials and £5 for removals (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers on their application. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

Security will be required, in the sum of £25 for burials, and £25 for removals, either in cash, Victorian Government debentures, Bank deposit receipt, or Savings Bank deposit book in favour of the Secretary to the Tender Board, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

Tenders, indorsed "Tender for Funerals or Removals" (as the case may be), are to be deposited in the Tender-box at the Pay Office, Treasury, or addressed to the Chairman, Tender Board, Pay Office, Treasury, Melbourne.

The Government will not necessarily accept the lowest or any tender.

#### CONDITIONS OF CONTRACT.

1. The services are to be performed upon an order signed by a member of the Police Force. Under 31 Victoria No. 310, section 9, cemetery fees are not payable in the cases of paupers buried upon an order signed by a Justice, and in such cases the contractor's account for the burial will be correspondingly reduced.

2. No claim will be allowed under this contract for any burial respecting which the contractor receives or arranges for any payment whatever from the relatives or friends of the deceased.

3. The funerals are to be of the most economical description consistent with propriety. A plain hearse for an adult, and a covered, plain, suitable four-wheeled vehicle for a child under five years of age, to be provided. The body shall be taken direct to the necropolis, or to the cemetery as the case may be, and no more than one body shall be carried in the hearse or vehicle at a time.

4. Coffins for funerals must be sufficiently long, deep, wide, and substantial to bear the corpse and permit it to lie extended at full length, and must be covered with black cloth, and fastened down with screws. The contractor shall provide 2 inches of sawdust for the bottom of the coffin; a small block of wood to keep the head of the deceased in position, and sufficient white calico to cover the body. In the event of a body being decomposed, or whenever it may be considered necessary by the member of the Police Force issuing the order for the burial, a coffin must be supplied sufficiently large to leave at least 2 inches between the body and the sides and top and bottom of the coffin, and this space must be filled up round the body with pine or phenyle sawdust by the contractor at his own expense; and in the event of any neglect in so providing or filling up the coffin the contractor will be dealt with as provided in Condition 13. Coffins to be properly lowered into the graves, and the graves filled up again.

5. Bodies of deceased persons must be conveyed to the Fawkner Cemetery for burial should the death of such person take place in any sub-district north of the Yarra, and to the Springvale Necropolis should the death take place in any sub-district south of the Yarra.

6. The graves to be dug of the proper depth, and in conformity with the Necropolis and Cemetery Regulations.

7. In the event of the contractor failing to attend punctually to any order, the work will be otherwise performed, and the extra expense incurred, if any, will be charged to the contractor. Should any circumstance, however, make it necessary in any particular case that an immediate removal to the Morgue be effected, the hiring of another vehicle for the purpose will not be an infringement of the contract.

8. When burials or removals are required to take place on Sunday, or, in the case of any lunatic asylum, burials on the same day as the inquest, no delay must take place in complying therewith, and any additional fees charged by the necropolis or cemetery authorities in the case of burials will be repaid to the contractor.

9. The attendance of a minister of the denomination named in the order for the burial must, if practicable, be provided. If for any burial such minister is not available the burial service is to be conducted by the resident chaplain deputed by the denomination, and in cases where no such deputy is appointed by the denomination, or where the religious denomination of the deceased is unknown, the services are to be performed by the resident chaplains alternately, and the contractor must inform the Police of the hour when the funeral service will take place, so that the friends of the deceased may attend at the cemetery if they wish. Such order to be produced at the cemetery when the contractor gives the order for interment. The contractor must pay the minister's fee for reading the burial service should it be claimed, and he will be reimbursed, on producing the minister's receipt, which must specify that the burial service was duly and properly performed at the time of the burial, and that he received the fee for so doing. Should the burial service not be performed at the time of the burial no reimbursement will be

allowed. The receipt must also specify the name, age, and denomination of deceased, the name and denomination of the minister who performed the burial service, and the hour when the service was performed.

10. Bodies to be removed to the Morgue shall be placed before removal in shell coffins securely closed, and shall be conveyed in suitable covered four-wheeled vehicles.

11. Every practicable precaution must be taken in order to prevent offensiveness from decomposition, but in no case of removal must any disinfectant be used without the authority of the medical officer performing the *post-mortem* examination.

12. The account is to be rendered monthly to the officer ordering the service for payment at the Treasury, Melbourne. The charge for the minister's fee should be included in the account for the funeral.

13. A refusal to execute orders, impropriety, neglect or delay in conducting the funerals or removals will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding £50, as the said Treasurer may direct, and the amount may be deducted from the contractor's account or from the security money. It will also be in the power of the said Treasurer, upon such refusal, impropriety, neglect, or delay, to terminate the contract forthwith, and forfeit the whole or any part of the security money.

14. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the security money will in that case be absolutely forfeited, and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

15. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

16. No subletting will be allowed; all work must be carried out by the contractor, the hours of employment of any person engaged in the burials or removals tendrad for in this schedule are not to exceed forty-eight per week, and every such person shall be paid at the minimum wage of not less than 6s. per day; and a copy of these labour conditions shall be kept conspicuously and continually posted, in legible Roman characters, in the factory or shop (and in each part of the factory or shop where several rooms are in use) in which funerals are prepared under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding £50 (fifty pounds), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement, and in all other respects.

JNO. M. DAVIES,  
Acting Treasurer.

The Treasury,  
Melbourne, 10th June, 1907.
