In assessing the number of cows to be paid for as such registration fee, the same shall be based on the average number of cows milked on seven consecutive days during the months of October and November last preceding the date of application for registration, and such seven days shall be the seven consecutive days in such month during which the greatest number of cows were milked.

Application for Registration as

I desire to be registered in accordance with the particulars in the Schedule hereunder:—

[Schedule.]

4. All cattle in dairies or places where any of the said trades shall be carried on shall be inspected by an officer appointed by the said Council (hereinafter called the inspector), and any cattle found to be diseased, or which from poverty or weakness, or from any other cause are, in the opinion of the inspector, likely to be unfit for use for dairy purposes, or the milk thereof unwholesome or unhealthy, shall be forthwith removed from every such dairy or place if ordered by such inspector, and any such

7. Every person carrying on the trade of a cowkeeper, dairyman, or purveyor of milk, and any person having the management of any such trade, shall forthwith report, in writing, to the said inspector, the occurrence of any disease in any of his milch cows, or any contagious or infectious disease in man or animal upon the premises upon which such trade is carried on, and the milk of a diseased cow shall not be used in any way whatsoever, but shall immediately upon being obtained be destroyed or thrown away.

8. No cowkeeper, dairyman, or purveyor of milk shall keep, or permit or suffer to be kept, any pigs in the sheds, buildings, or milking yards in which any dairy cows may be kept or sheltered.

9. If any person commits a breach of any of the provisions of this By-law, he shall for every such breach be liable to a penalty not exceeding Ten pounds nor less than Five shillings, or to a penalty not exceeding Five pounds nor less than Five shillings for each day during which such breach shall be continued or committed, provided that the justices before whom any penalty imposed hereby is sought to be recovered may order the whole or part only of such penalty to be paid, and every person committing any such breach as aforesaid shall be liable to the foregoing penalty, notwithstanding that the said Council may be empowered by this By-law or otherwise to remedy such breach, and whether such Council have or have not taken advantage of such powers.

10. This By-law shall come into full force and operation on its confirmation by the Board of Health, and immediately after its publication in the *Government Gazette*, and shall have operation in the whole of the said shire.

Made and passed by a resolution of the Council of the Shire of Narracan, on the 26th day of June, 1908, and confirmed by the Council on the 9th day of October, 1908.

The above prices are based upon what is known at Newcastle as the selling price of coal, upon which the miners' hewing rate is there paid, being 11s. per ton large coal and 6s. 3d. per ton small coal.

Should the selling price at Newcastle as aforesaid be increased or reduced, or should any duty, rate or charge upon coal be imposed by the Parliament of the Commonwealth or of any of the States, or by any authority empowered to make or levy duties, rates, or charges on coal, or should any alteration take place in the wharfage rates on coal, either by way of imposition of new rates or abolition of present rates, or by increase or decrease of present rates, then the rise or fall respectively, as the case may be, occasioned by any of these causes shall be added to or subtracted from the contract price per ton hereinbefore set out.

COUNTRY FIRE BRIGADES BOARD.

REGULATIONS.

At the Executive Council Chamber, Melbourne, the first day of December, 1908.

PRESENT:

His Excellency the Governor of Victoria.	
Mr. Davies	Mr. McBryde
Mr. Mackey	Mr. Payne
Mr. Bowser	Mr. Robertson
Mr. Hunt	Mr. McDonald.

THE Governor of Victoria, by and with the advice of the Executive Council thereof, under the powers in that behalf conferred upon him by the *Fire Brigades Act 1890*, doth hereby revoke the Regulations made on the sixth day of October, 1908, and in lieu thereof doth make the following Regulations which shall apply to those parts of the State of Victoria known as the Nine Country Fire Districts as set forth in the First Schedule of the *Fire Brigades Act 1890*, and by Proclamations made from time to time under the provisions of sections 4 and 5 of the said Act:—

CLASSIFICATION OF BRIGADES.

1. For the efficient working of fire brigades the Country Fire Brigades Board may register brigades and place them under such classification as it may from time to time determine.

The classification for the present shall be as follows:—

Class A.—A complement of fifteen effective registered members, graded as follows:—Captain, lieutenant, foreman, secretary, and eleven firemen.

Class B.—A complement of twenty effective registered members, graded as follows:—Captain, lieutenant, foreman, apparatus officer, secretary, and fifteen firemen.

Class C.—A complement of twenty-five effective registered members, graded as follows:—Captain, lieutenant, foreman, apparatus officer, secretary, auxiliary station-keeper, and nineteen firemen.

Class E.—Such complement and grades as the Board may from time to time determine for the Ballarat, Ballarat City, Bendigo, Eaglehawk, and Geelong Brigades.

In addition to the complement of registered members as provided for above, brigades may elect reserve members, who will be required to attend fires, practices, and drills, and to render themselves efficient in the use of fire extinguishing apparatus. As vacancies in the ranks of registered members occur the places should be filled, as far as practicable, from the reserve. Reserve members will not be granted uniforms or permitted to have any vote or voice at brigade meetings on questions connected with the management or discipline of the brigade.

REGISTRATION MAY BE SUSPENDED.

2. Whenever any brigade by reason of deaths, resignations, or expulsions shall have reduced its roll to less than a minimum effective strength to be determined by the Board, the registration of the said brigade may be suspended, and any allowances payable thereto or salaries payable to any members thereof may be reduced or forfeited to the Board as the Board may determine. If through dissensions or other cause the efficiency of any brigade is, in the opinion of the Board, impaired registration may be suspended or the brigade may be disbanded by the Board.

NOTICE BEFORE DISBANDMENT.

3. If after one month's notice from the Board any registered brigade remains below the minimum effective strength determined by the Board the Board may cancel the registration of such brigade.

QUALIFICATIONS OF MEMBERSHIP.

4. No person shall in future be registered on the roll of any brigade unless—

- 1st. He is in good health, and sound in body and mind.

MAXIMUM AGE OF NEW MEMBERS.

5. No person who is over the age of 40 years shall, be enrolled without the consent of the Board.

The Board may require a certificate from the captain of the brigade that due regard has been paid to the distribution of the membership over the area in which property has to be protected. Members shall reside within easy sound of the alarm bell.

PERSONS NOT ELIGIBLE FOR MEMBERSHIP.

8. No person shall, unless with the consent of the Board, be eligible for re-election to any brigade who has been dismissed or struck off the roll of any brigade for misconduct, or for persistent neglect to attend fires or practices, or for want of interest generally in his duty as a fireman, or for any cause, which, in the opinion of the Board, would disqualify him for membership.

TRANSFERS OF MEMBERS.

9. Members may be transferred from one brigade to another, provided the complement of the latter permits of such transfer, on production of a certificate of discharge from their former brigade, and with the approval of the Board.

LEAVE OF ABSENCE AND RESIGNATIONS.

10. Members desirous of obtaining leave of absence must apply for same in writing to their brigade, and in the event of such leave being sought for a longer period than one month, the applications must be forwarded to the Board with the Brigade's recommendation. 13. The members of each brigade shall upon an alarm of fire proceed promptly with the appliances to the fire. They shall immediately on arrival report themselves to the senior officer present, and shall perform such duty as may be required of them. They shall remain on duty until relieved by orders, which shall be given only by the officer in command. In brigades where no station-keeper is provided members are required to keep the appliances and buildings in good order without cost to the Board.

DUTIES OF EMPLOYES.

The Station-keeper.

14. Where the classification of a brigade provides for a permanent station-keeper it shall be his duty to reside at the head station wherever practicable. He shall attend to and be responsible for the cleanliness, good order, and condition of the fire station and out-stations, and the fire-extinguishing appliances belonging to the Board or in charge of the brigade. He shall at all times be under the direction of the senior officer of the brigade present for the time being. Permanent station-keepers must not leave their station except when on duty without the sanction of the captain or officer in charge.

He shall devote his time to keeping a strict watch for fires, and be prompt in giving the alarm. He shall perform such other duties as are consistent with the position and as may be required by the Board. He shall when on the station premises be under the direction of the senior officer of the brigade present. He shall receive such remuneration as the Board may determine, and shall be liable to suspension, removal, or dismissal by the Board.

CONDUCT OF MEMBERS.

15. Members of brigades are required, in their intercourse with each other, official or social, to observe a courteous demeanour, and officers or men addressing each other will do so in a respectful manner. While on duty at fires, practices, drills, or parades, the greatest degree of silence compatible with a proper discharge of duty will be required, and members must address officers by their official titles.

Members of brigades are considered to be on duty at all times when in uniform; and at fires, alarms of fire, practices, drills, parades, or brigade meetings whether in uniform or plain clothes. Any member of a brigade who may be deemed to be guilty of disobedience of orders, insubordination, conduct subversive of discipline, intoxication, abusive or obscene language or other unseemly conduct when on duty shall within twenty-four hours be reported to the Board, in writing, by the senior officer of the brigade present, who may

suspend such member from duty pending an inquiry by the Board. Officers below the rank of captain shall forward their reports in such cases to the captain for transmission to the Board for its decision. In exercise of the powers conferred by section 35 of the *Fire Brigades Act 1890* the Chief Officer may suspend any member of any brigade, and shall within 24 hours report such suspension and the reasons for it to the Board, in writing, for its inquiry and decision. The member suspended shall be entitled to receive a copy of the Chief Officer's report to the Board, and be entitled to be heard at the inquiry.

The Board shall have power to deal with members against whom a charge has, in the opinion of the Board, been proven either by reprimanding them, suspending them, or by removing them from office or from the roll of registered members.

DUTIES AT FIRES.

16. At fires the senior officer present shall take command until the arrival of his senior. The brigade's duties are not completed until the fire is properly and effectually extinguished. Members must turn out to fires or alarms of fire in the Board uniform when they can do so without causing undue delay in attending.

ROLL CALL AT FIRES.

17. On returning from a fire or an alarm of fire, the officer in command shall cause the roll to be called, and record the names of members present at such fire or alarm of fire, and a copy of such roll, together with a report of the fire, signed by the officer in command at the fire and the secretary of the brigade, shall be forwarded to the secretary of the Board within seven days after the occurrence of the fire. The officer in command may exempt members from returning to the fire station for roll call, and he may call the roll at the place of the fire or alarm of fire.

RECOGNITION OF LONG SERVICE.

18. Officers and members of brigades who shall have efficiently served not less than fifteen years in any one or more brigades in Victoria, of which at least ten years shall have been under the Country Fire Brigades Board, shall be entitled to the Board's Long Service Badge. Firemen with twenty years' service may wear a red clasp below the badge, with twenty-five years' service, an additional white clasp; and with thirty years' service, an additional blue clasp. Applications for badges must show all details of service, and be duly certified to by the applicant, and the captain and secretary of the brigade. Service as a reserve member is not to be counted in the periods of service mentioned in this regulation. The above regulation applies to honorary medical officers, honorary veterinary surgeons, and honorary dispensers.

Captains with not less than five years' service as captains under the Board, and not less than fifteen years' service in all, shall be entitled to retain and wear their uniforms and to wear an ex-captain's badge. Firemen with not less than twenty-five years' service, including not less than ten years under the Board, shall be entitled to retain and wear their uniforms. Service as a reserve member is not to be counted in the periods of service mentioned in this regulation.

The Board may, however, in its discretion, withhold the above privileges if the applicant shall at any time have been adjudged guilty of any offence against the Board's regulations.

BRIGADES TO REQUISITION FOR APPLIANCES, ETC.

19. Plant and appliances and supplies required by any brigade shall be requisitioned for to the Board. Requisitions shall be sent in only on the authority of a properly constituted meeting of the brigade.

A receipt for all plant and appliances and supplies received shall be forwarded to the secretary of the Board, and particulars of same entered in a book to be kept for that purpose by the secretary of each brigade.

Urgent repairs to plant may be effected by the brigade without requisition, provided the cost does not exceed £2. Where the repairs involve a larger expenditure requisition must be made to the Board.

BRIGADE RULES.

20. Each brigade may have its own rules of internal and general working, which must in all cases be subject to the approval of the Board. All proposed alterations or additions must be submitted to the Board for approval or otherwise. No rule shall be contrary or antagonistic to the Board's regulations. Every officer and member shall conform to the regulations made, or which may hereafter be made, for the management of the various fire brigades, and shall be subject to the duties, conditions, and penalties named therein. All allowances and salaries shall, at the discretion of the Board, be subject to stoppage or absolute forfeiture in the event of wilful violation of the regulations.

No. 152.—DECEMBER 9, 1908.—15005.—3.

PRACTICES.

21. The members of each brigade shall be practised in their duties at engine, reel, or other drill, at least once each calendar month, under the supervision of their officers, and at such other time as the Board, chief officer, or captain may direct. During the winter months or in inclement weather brigades may hold their monthly practice or drill indoors.

A recognised practice shall mean practical work in fire extinction, or other drill, for at least three-quarters of an hour. Brigades are required to see that the fire plugs are at all times kept in good order.

Each brigade may appoint its own dates for practice, and moonlight nights should be selected when practicable.

EFFECTIVE MEMBERS.

22. Every member of a brigade must make himself effective by attending fires and practices. An effective member shall mean one who has, each half-year, attended at least two-thirds each of the fires, or alarms of fire, and also of the recognised monthly practices, except in the case of brigades of Class E, in which, owing to the large number of calls, an attendance of 50 per cent. will be sufficient to render members effective. Any member who has failed to keep himself effective in such attendances, without leave or sufficient excuse, shall be liable to be struck off the register by the Board. Members are expected to attend all brigade meetings, but these meetings must not be counted towards the attendances required for effectiveness.

ALLOWANCE FOR PURCHASE OF MINOR SUPPLIES.

23. An allowance will be provided for every brigade for the purchase of such minor supplies, and for defraying cost of such repairs to plant, as may be required for the ordinary maintenance of the brigade. The total amount of such allowance must not exceed in any one year the amount provided for in the Board's estimates. Such allowance shall be available quarterly, and the vouchers for such expenditure, showing full particulars of the purchases made or repairs effected, duly certified by the captain and secretary of the brigade, and receipted in proper form, must be forwarded to the secretary of the Board for examination, not later than the 21st day in the months of January, April, July, and October in each year. Such expenditure shall be subject to the approval of the Board, who may disallow any or all of it.

ALLOWANCES FOR EXPENSES AT FIRES, PRACTICES, ETC.

24. An allowance, to be determined by the Board, will be granted to every brigade for the purpose of defraying the incidental expenses of the brigade, and for expenses incurred while on duty at fires and recognised practices, and in connexion with the annual demonstrations. Such allowance is not to be regarded as remuneration for services rendered and must not be divided amongst individual members.

DEMONSTRATIONS AND COMPETITIONS.

25. Brigades shall at no time attend fire brigades competitions or demonstrations outside a radius of 5 miles from the head station without leaving a sufficient number of effective registered members within their respective districts—that is to say, five members of a brigade classed A, seven of a brigade classed B, eight of a brigade classed C, and ten of any class above C. Neither will any of the apparatus (with the exception of a competition reel and appliances) be permitted to be taken to a competition or demonstration without the written consent of the Board. Captains will be held responsible for the carrying out of this regulation.

BRIGADE DISTRICT.

26. The district within which each registered brigade shall be liable to do duty shall be that portion that is within the boundary of the municipal district or township, or portion of township, in which the brigade is established, and on the rateable property of which the Council of the said municipal district is assessed under the Act.

Such municipal district or township, or portion of township, as the case may be, shall be known and designated as the brigade district under the name of the said municipal district or township, or portion of township, as the case may be.

UNIFORMS.

27. The uniforms for registered firemen will be provided by the Board and shall consist of a coat with arm badge, cap, belt, and spanner for brigades of fifteen, twenty, and twenty-five men. Helmets will be supplied to brigades in cases where the Board considers they are required.

Coat.—To be of stout blue cloth with the exception of the Ballarat, Geelong, and Newtown and Chilwell Brigades, which are to be of stout scarlet cloth. The pattern to be double-breasted, extra long reefer, with turn-down collar, two inside breast pockets, four metal buttons to be sewn on each side of coat six inches apart, buttons to bear an impressed design of the Southern Cross on a shield surmounted by a helmet and surrounded by the words Country Fire Brigades, Victoria. The coats of all ranks to be of the same quality and pattern. Coats are to be buttoned from the left on to the right breast.

Arm Badge.—Scroll pattern with the name of brigade worked on in red letters, except for the Ballarat, Geelong, and Newtown and Chilwell Brigades, the lettering in these cases being white. The badge is to be worn on left sleeve of coat midway between the shoulder and elbow.

Cap.—Yachting cap pattern, black leather drooping peak, band of black Hercules braid 1½ inches wide with red tracing braid 1-16 inch wide sewn both above and below same, black patent leather chin strap secured by two small metal buttons with letters C.F.B.B. impressed. Land Act 1901
REGULATIONS SUBSTITUTED.

At the Executive Council Chamber, Melbourne, the first day of December, 1908.

PRESENT :

His Excellency the Governor of Victoria.

Mr. Davies,
Mr. Mackey,
Mr. Bowser,
Mr. Hunt,

Mr. McBryde,
Mr. Payne,
Mr. Robertson,
Mr. McDonald.

WHEREAS by section 208 of the *Land Act 1901* power is given to the Governor in Council from time to time to make, alter, and rescind rules, regulations, and orders for the various purposes therein prescribed: Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby substitute the following Regulations for the corresponding chapter of Regulations made on 8th January, 1902, and doth also substitute the Schedule hereunder for the corresponding Schedule to the Regulations made on 29th August, 1905 (that is to say):—

LAND ACTS.—REGULATIONS.

PART I.—CHAPTER V.—SURVEY.

The following Regulations (Chapter V: Survey) shall be substituted for the corresponding chapter of the Regulations made by His Excellency the Governor in Council on 8th January, 1902, and the subsequent amendments thereof:—

Chapter V.—Survey.

1. The methods to be employed in effecting surveys shall be those set forth in the Regulations of the Surveyors Board for the Guidance of Surveyors employed under the Land Acts.

2. In all surveys of subdivisions of township lands permanent reference marks shall be put up at the intersections of all streets or roads, and 10 links from one side thereof, such marks to consist of iron pins 18 inches in length by 1 inch square at top, or iron piping of similar length, and are to be driven under the surface of the ground, the position of such pins to be shown on plan and on field notes.

3. Every allotment shall, where it is practicable, contain at least two right angles, and be quadrilateral, and shall not have a shorter depth than double its frontage except where prevented by a boundary or natural feature, nor shall any allotment be allowed to cross a road or water-course that should reasonably form a boundary. If a narrow strip of land not less than 50 links in width be left between any allotment and a water frontage, the shortest side of the allotment shall front such strip of land, and where such strip is required for a roadway it shall be not less than $1\frac{1}{2}$ chains in width. If an allotment abuts on a main road, the shortest side shall face such road. The boundary lines of allotments within a defined parish shall conform to the locally established meridian of that parish, or as nearly thereto as circumstances will permit. Any departure from these instructions will necessitate a special report to be sent in with the plan.

4. Every allotment shall, where it is practicable, be surveyed as provided for in preceding clause; and no allotment shall be surveyed in a position or in a form which would, in the event of its being held separately, cut off access to water from any Crown land, or interfere with the profitable occupation of the same.

5. When a creek is the boundary of an allotment, the traverse of the creek shall form part of the geometrical figure used in calculating the area, and the areas of the portions lying between the traverse lines and the creek shall be computed from the offsets and insets, the average length of which shall not exceed 1 chain, or be taken out by the planimeter from a careful plot on an enlarged scale. Allotments fronting creek or river reserves shall have their frontages defined by metes and bounds, and marked in the ordinary manner unless otherwise directed. When a stream which carries with it a permanent reserve is found to have altered its course, the old bed shall be shown on plan and field notes, and a report furnished.

6. The subject of the selection of roads being one of vital importance, the attention of surveyors is specially directed to the following instructions in reference thereto:—Every surveyor acting under the Department shall as occasion arises communicate with the municipal council or councils who may be interested in

any road survey, and request the co-operation of their engineer in selecting the best routes for leading lines of road through the unappropriated portions of the district. In the event of any municipal council neglecting or refusing to comply with his request, the surveyor shall proceed to select the best lines according to his own judgment; but the failure of the municipal authorities to co-operate shall not relieve him from the responsibility of making proper provision for all necessary roads; and in no case shall he survey a detached selection so as to block an existing track, or in a position likely to interfere with the public convenience, or block access to back country, until he has satisfied himself as to the road requirements of the locality in these respects, and made proper provision therefor. In cases where a difference of opinion may arise between himself and the municipal engineers, or where the surveyor has doubts in his own mind as to the proper course to pursue, he shall refer to the District Surveyor, and be guided by his directions. He shall also from time to time report to the District Surveyor any road which he may consider it desirable to survey, and if the District Surveyor deem it necessary, in the public interest, to traverse any track, leading feature, or permanently survey any line of road in advance of settlement, he shall consult the Surveyor-General or Assistant Surveyor-General.

7. In addition to the necessary main roads, carefully selected accommodation roads leading thereto or to permanent streams shall be provided for as required or at intervals of from a mile to a mile and a half.

8. Every allotment shall have a road frontage, and wherever a road is shown on a plan it shall be laid off on the ground.

9. Surveyors shall be held responsible for any inconvenience that may arise either to the public or individuals through the improper blocking of existing tracks, the omission of necessary roads, or the selection of impracticable roads where practicable ones are possible.

10. In all cases where his measurements differ from those of any previous surveys, the surveyor shall furnish a special report with reference thereto.

11. Field books shall be the property of the Department, and shall be given up whenever demanded.

PLANS.

12. The surveyor shall supply a plan of the allotment, showing all features correctly and the course within its boundaries of any stream, race, road, track, and the position of any water-hole, dam, hut, fence, garden, old gold workings, and any other information that may help to distinguish the allotment. He shall also state on the plan whether the bearings of the boundary lines have reference to the true or the magnetic meridian, and how determined; or, if taken from an adjacent survey, the datum line adopted shall be shown on the face of the plan. The scale of the plan, where the area of the allotment is 100 acres or less, shall be 8 chains to 1 inch; where the area is over 100 acres, 20 chains to 1 inch, unless a larger scale be required to show distinctly the matters hereinbefore directed to be shown. All plans shall be dated, below signature, as of the day when the plan was completed, and be certified as follows:—"I certify that this survey has been effected and marked on the ground in accordance with regulations, and that this plan is correct."

All plans on being completed shall be transmitted to the Department through the Land Officer for the district.

The specifications for plans issued with the Survey Regulations of 1894 shall be strictly adhered to.

ADJUSTMENT OF BOUNDARIES.

13. Whenever it may be necessary to adjust the boundaries of any surveyed land, the Surveyor-General shall on such adjustment certify as to the correct boundaries and area of the land or any portion or portions thereof, and for every such certificate there shall be charged such fee as the Minister may direct.

SURVEY FEES.

14. The survey fee payable on account of any portion of Crown land which has been recommended or is to be granted to any applicant shall be in accordance with the following Schedule of Fees and Scale applicable to the class of country in which

such portion is situated, and the Surveyor-General shall determine the scale which shall apply to each district or locality of the colony, and every such applicant shall pay the fee prescribed by these Regulations, even though the land has been previously surveyed and may or may not require further survey.

15. Schedule of Fees for Survey, and valuation of improvements, if any.

TENDERS will be received on or before Saturday, 12th December, 1908, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined special conditions.

Every licence granted under section 187 of the *Land Act 1901* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act 1901*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1901*, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act* 1901 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

11. The licence shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act* 1890 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

Special Conditions.

1. The period of occupation will be for nine months—from 1st January, 1909, to 30th September, 1909.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

* Six months in the year only.

Tenders for supply of forage to more than five separate stations in any one district must be accompanied by a preliminary deposit of 10s. for each and every station over and above five, except in the case of the Melbourne District, the preliminary deposit for which shall be £25 with each tender, irrespective of the number of stations tendered for, in bank notes, or a bank draft payable in the order of the Secretary to the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers on their application. Such deposit to be forfeited in the event of the successful tenderer failing to complete the necessary bond within a reasonable time after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to hold contracts for Government supplies for a period of two years.

The price must include delivery at the stations, and all charges except the bags, which will remain the property of the contractor. At stations where the bags can be at once emptied the contractor will be required to remove them when delivery is taken. At other stations, notice will be sent to the contractor when the bags are empty. Bags to be removed at contractor's expense.

For police stations, excepting the depot and institutions other than police, the successful tenderer will be required to enter into a bond for the sum of £5 per horse per station, and for the depot and other institutions a bond based on one-quarter of the total amount of the tender accepted, such bonds to be entered into within a reasonable time after the acceptance is notified. Two approved sureties are required for contracts where the sum stated in the bond is £50 and upwards, and one surety where the sum stated is under £50.

CONDITIONS OF CONTRACT.

1. The hay to be good, sound, and sweet, and properly trussed except when otherwise specified in the contract; the straw to be wheaten or oat, and both to be in all respects of the best quality; oats, white or Algerian (Victorian grown), of the best description, full kernel, clean, and free from wild oats or other objectionable seeds; bran to be sound and sweet, and of the best description; chaff to be made from oat-hay of the best quality. As much forage as can be stored at any station where the storage is small will, for the convenience of the contractor, be ordered at one time.

2. The quantities stated in the schedule are only approximate, and the Government may draw either more or less than those mentioned. Should new telegraph stations be formed or additional horses be required at any station, the contractor will be required to supply the extra forage. Should the additional number of permanent horses, however, exceed two, the contractor may, if he desires it, terminate the contract by supplying at once the whole quantity due at the station.

3. Notwithstanding anything contained in the preceding condition, the contractors for the supply to the Police Depot may be called upon to supply any Government Departments within a radius of six miles from Melbourne, for which no contracts have been taken, and also forage for any extra horses that may be at any time stabled at the depot for police purposes, at the same rates. The contract for the supply of forage to the Military Barracks may be terminated by three months' notice being given by the Secretary to the Tender Board to the contractor of such determination.

4. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

5. In the event of a difference of opinion between the contractor and the officer receiving the forage as to the quality of the same, it is to be decided by a board of survey, composed of persons named by the head of the department ordering the supply, and the decision of the Board is to be considered final.

6. If the Board shall decide that the forage is not of proper quality, it must be immediately replaced, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 4.

7. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue to either party by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, but he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 4.

8. A refusal to execute orders, irregularity in the quantity or quality of the forage, or delay in delivering or replacing it when required, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding £20, as the Treasurer of the State for the time being may direct. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith.

9. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

10. Under no circumstances will a contractor be permitted to abandon his contract, and in the event of his failing to carry on his contract he will be held liable for any loss which the Government may sustain in consequence of such failure. In the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.

11. The contracts entered into under this notice are not to be considered as broken, infringed, or vitiated by the purchase by any Department of forage grown at any Government establishment.
