NOTICE is hereby given that it is intended, at the expiration of one month from the date hereof, to issue a Proclamation prohibiting the taking, by dredging or otherwise, of the article known as Marine Fibre, growing off the foreshore of Victoria, except by any person or persons who may be licensed for such purpose.

NOTICE TO MARINERS.—VICTORIA.

[No. 54.]

SNAKE CHANNEL.—PORT ALBERT.

WITH reference to General Notice to Mariners, dated 1st August, 1907, page 112, relative to Snake Channel leading to Port Albert, mariners and others are hereby notified that, owing to such Channel having deepened to six (6) feet at low water, an additional nun buoy, coloured black, with two red bands, has been moored in 30 feet depth of water to mark the entrance to such Channel, at a position from which Seal Island bears south 16 deg. east distant $8\frac{1}{2}$ miles, and Mount Singapore bears south 81 deg. west.

C. W. MACLEAN,
Port Officer.

Melbourne, 27th October, 1909.

NOTICE TO MARINERS.—VICTORIA.

[No. 55.]

GIPPSLAND LAKES ENTRANCE.

REFERRING to General Notice to Mariners, dated 1st August, 1907, pages 117 and 118, mariners and others are hereby warned that, under present conditions, navigation at the Entrance requires great care, and that in order to clear the vicinity of the submerged Western Pier and stumps and stones which now exist 210 feet off such West Pier end, as well as the shallow and broken water between such obstruction and the Bar, they must keep to the Eastward of the Flagstaff and red beacon in line while approaching and leaving the Entrance between the Piers.

Masters are also cautioned against a strong set to the westward during the prevalence of easterly weather between the Bar and Entrance piers.

Navigation of the Entrance at night-time is attended with considerable risk.

The safest time to take the bar is still at slack water.

C. W. MACLEAN,
Port Officer.

Not more than one allotment may be included in any application, but any number of applications may be lodged with the prescribed fee in each case.

Conditional Purchase Lease.

Every conditional purchase lease will be dated the 1st day of December, 1909, and may be for such a term of years, not exceeding 31½, as may be agreed upon between the lessee and the Board.

Rent.

The purchase money, with interest at 4½ per cent., must be paid by 63 or a lesser number of half-yearly instalments (including deposit), calculated according to any of the tables under Division 3 of Part I. of the *Savings Banks Act 1890 Amendment Act 1896*. Each instalment will include interest upon the balance of the purchase money remaining unpaid.

On a conditional purchase lease application a deposit equal to the two (2) first instalments of purchase money, together with fees (including survey charge), must be paid within fourteen days after an allotment has been recommended.

Every conditional purchase lease of an allotment will contain the following special conditions:—

- a condition that the lessee or purchaser shall make substantial improvements on the land to the extent of 10s. per acre in each of the first three years from the date of lease or sale; and
- a condition on the part of the lessee or purchaser to keep open all canals and drains.

The Board has power to grant, subject to such terms and conditions as it thinks fit, authority to the owner or occupier of any allotment to cut a drain through any adjoining allotment without making compensation to the owner or occupier thereof, such drain to run parallel with and within 10 links (approximately 6½ feet), where practicable, of a boundary line of such allotment.

On payment of deposit or rent, together with fees, a permit to occupy will forthwith issue.

Residence is not necessary.

Printed forms of tender, giving full particulars, may be obtained from the Secretary to the Tender Board, Melbourne, from the Receivers and Paymasters at the respective places, and for Queenscliff from the Officer Commanding Victorian Artillery, Queenscliff, by whom also any information or explanation will be afforded to persons tendering.

Security will be required in cash, Savings Bank Deposit Book, or Bank deposit receipt, in favour of the Secretary to the Tender Board, or Government debentures.

Each tender must be accompanied by the preliminary deposit for the exact amount, according to places tendered for, in bank notes, or a bank draft payable to the order of the Secretary of the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers on application. Such deposit to be forfeited in the event of the successful tenderer failing to complete the security within the prescribed period.

The security must be completed and contract signed within ten days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in a separate envelope, and having the words "Tender for Coal or Coke at ..." (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. As the exact quantity of coal which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. The coal supplied must have been screened at the pit's mouth, and must be the best of its kind. The house coal must be free from shale, small coal, dust, ashes, or other impurities, and the smith's coal must be free from dust, ashes, shale, or other impurities. No other coal will be received. In case of the rejection or return of any supplies the contractor shall bear the whole cost of replacing the coal so rejected or returned.

3. The orders will be issued by the departments requiring the coal.

4. Coal shall be delivered as may be directed by the officer ordering the supply. If the bags supplied are not returned to the contractor or his agent within six weeks' time they will be charged for at the rate stipulated in the tender. Such bags to be removed at the contractor's expense.

5. Melbourne District will include a radius of 6 miles from the General Post Office.

6. At the time of delivering the coal the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the coal accepted, and shall return the order to the contractor.

7. If after the delivery of the coal has been taken any deficiency or defect is discovered therein, such coal may be returned at the contractor's expense, and coal of a satisfactory quality must be supplied in lieu thereof.

8. The contractor must produce the pit certificate if requested to do so by the officer receiving the coal.

9. The contractor will be bound to weigh the house coal and coke on delivery at such establishments as are provided with weighbridges. In other cases the tickets of the public weighbridges are to be accepted as the weight to be charged for. Coal to be delivered in the places set apart therefor.

10. The contractor will be bound to deliver coal for vessels, except in the case of dredges, into the vessels' bunkers.

11. When baskets are used in the delivery of coal they are all to be of one size, and the contractor will be bound to tare the baskets when so required by the officer taking delivery. In other cases the contractor will be bound to satisfy the officer receiving that the weight or quantity is correct.

12. Coal must be put on board at a rate of not less than ten 10) tons per hour.

13. In the event of the officer ordering the coal not requiring the same to be put into the vessel's bunkers, as required by condition No. 10, a rebate of 1s. per ton to be made by the contractor.

14. Should an order not be complied with within 48 hours it will be competent for the department concerned to purchase, at the contractor's risk, and the extra expense (if any) over and above the contract price may be deducted from the contractor's account or the security money, but coal for steam vessels must be supplied on demand. No more delay will be allowed than is sufficient to give the necessary orders and get the hulk or vessel alongside. Bad weather to be the only excuse. In the event of the coal having to be delivered to outlying places by ketch or steamer, seven days' notice of such requirement must be given to the contractors.

15. As soon as the orders shall have been completed the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.

16. In the event of a difference of opinion between the contractor and the officer receiving the coal as to the quality, the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered final.

17. If the board shall decide that the coal or coke is not of proper quality it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted as in condition 14.

18. If from any cause injury would accrue to the public service by waiting for a board of survey the head of the department, or officer in charge of station, will have the power to reject such coal or coke as is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected coal or coke and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition No. 14.

19. A refusal to execute orders, irregularity in the quality or quantity of the coal, &c., or delay in delivering or replacing the coal when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the State for the time being may direct: and the amount may be deducted as in condition 14. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith and forfeit the whole or any portion of the security money.

20. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

21. In the event of a general strike occurring at the colliery or collieries, any contract entered into under these conditions after the expiry of fourteen days' notice being given may be suspended, such contract to come into full force and effect again fourteen days after such cause of suspension shall be discontinued. During the fourteen days severally hereinbefore mentioned, the contractors shall not be bound to supply coal to a greater quantity than the average daily consumption under the contract.

22. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of coal by the Commonwealth Government.

23. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

24. Should the selling price at Newcastle, on which the prices under this contract are based, be increased or reduced, or should any duty, rate, or charge upon coal be imposed by the Parliament of the Commonwealth or of any of the States, or by any authority empowered to make or levy duties, rates, or charges on coal, or should any alteration take place in the wharfage rates on coal, either by way of imposition of new rates or abolition of present rates, or by increase or decrease of present rates, then the rise or fall respectively, as the case may be, occasioned by any of these causes shall be added to or subtracted from the contract price per ton hereinbefore set out.

25. Notwithstanding anything in these conditions, it is distinctly agreed that the contractors will be deemed to have carried out their contract if they supply the best coal of any kind which from time to time is obtainable by the contractors with ordinary steamers' despatch at the loading ports.

26. No subletting will be allowed; all work must be carried out by the contractor, and the hours of employment of any person engaged therein are not to exceed 48 per week, and at a minimum wage of not less than 8s. (clear of all deductions) per shift of eight hours for miners, and 6s. 8d. per day for labourers; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, in the colliery. Any infringement of this condition, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

Treasurer.

Tenders, enclosed in a separate envelope, and having the words "Tender for Firewood at _____" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. In case of the rejection or return of any firewood, the contractor shall bear the whole cost of replacing the wood so rejected or returned.

7. As soon as the orders shall have been completed the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.

11. A refusal to execute orders, irregularity in the quality or quantity of the firewood, or delay in delivering or replacing it when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the State for the time being may direct; and the amount may be deducted as in condition 3. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith.

12. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

13. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of firewood by the Commonwealth Government.

14. Under no circumstances will a contractor be permitted to abandon his contract. Any infringement of those conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from any accounts which are or may be due to the contractor, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement, and all other respects.

REGULATION No. 5.

A Regulation of the Town of Camberwell, numbered 5, made under Part 1, Section 4, of the 13th Schedule to the *Local Government Act 1903*, in force in the Town by virtue of a By-law of the above-named Town, numbered 24, for the purpose of regulating the construction of crossings across or over footways and channels, and the materials for making and constructing the same.

IN pursuance of the powers conferred by the *Local Government Act 1903*, the Mayor, Councillors, and Burgesses of the Town of Camberwell make the following Regulation, which shall apply to and have operation throughout the whole of the Town of Camberwell:-

1. *Repeal*.—Regulation No. 2, made by the Council of the Shire of Boroondara, under Part I., section 4, of the 13th Schedule to the *Local Government Act 1890*, for the purpose of regulating the construction of crossings over footways and channels, and the materials for making and constructing the same is hereby repealed.
2. Every crossing over any footway shall be flush with the surface of the footway for one-third of the width of the footway, and shall then fall with a regular inclination to the level of the bottom of the channel.
3. Every crossing may be depressed towards the centre thereof for drainage purposes to a depth of 4 inches below the level of the footway.
4. No crossing shall be of a less width than 9 feet, and shall extend for the full width of the footway between the building line of the street and the kerb line, but if the channel is not pitched then the crossing shall extend for a further distance of 3 feet 9 inches beyond the kerb line.
5. Every crossing (except as hereinafter provided for) shall be constructed of squared bluestone pitchers with smooth tops 9 inches wide, 6 inches deep, and from 12 to 16 inches in length; such pitchers shall be laid in straight and parallel courses in the line of the footway, and shall be finished at each end of the crossing with a string

No. 133.—NOVEMBER 3, 1909.—14611.—4.

course, laid at right angles to the other courses. The pitchers shall be bedded on 3 inches of coarse sand with close joints properly grouted with sand run in with water and the pitchers rammed to a solid and even bearing with a heavy pavior's rammer.

6. Where crossings are only used for light traffic, they may be laid down with gravel, tar-paving, or such other material as the Council may approve.

7. The Council may grant permission for temporary crossings to be laid down for the purpose of carting, building, or other materials over the footways or water channels. In all such cases the surface of the footway and channel shall be adequately protected by being covered with battens or planks laid on the surface and firmly secured in position, and so laid as not to cause any obstruction or be a source of danger to pedestrians using the footway. Temporary bridges shall be placed over the water channels, but so as not to obstruct the water-way, and all such bridges shall be kept clear and free from obstruction.

8. Wherever it is necessary from any cause that a bridge should be placed over any water channel for access to any private property the same shall be constructed in accordance with the plan to be submitted by the owner and approved by the Council, and deposited at the Town Hall.

Such bridges shall be constructed of hardwood battens not less than 3 inches deep and 2 inches wide, spaced 1 inch apart, and bearing on angle iron bearers not less than 2½ in. x 2½ in. x ½ in., and firmly secured thereto by iron straps or dog spikes, such bearers to be spaced not more than 5 feet apart and to be kept in position by ½ in. iron bolts passing through the bridge from side to side. The top of such bridge shall finish flush with the level of the footway.

9. Wherever it is necessary for access to private property that a culvert should be placed in any water channel, such culvert may be built subject to the approval of the Council. Such culvert shall be constructed of stoneware or concrete drain pipes with water-tight joints, or of brickwork built in Portland cement mortar, with red-gum cover, and of such size as the Engineer may direct. The inclination or fall of such culverts shall be the same as that of the water channel in which they are laid. Every such culvert shall be built of sufficient capacity to freely pass all water coming down the channel. The ends of such culverts, if constructed of pipes, shall be finished with a face-wall at each end, constructed of either brickwork or of redgum planks 3 inches in thickness, shaped to fit the end of the pipes.

10. No person shall build, lay down, or construct any crossing bridge or culvert over or across any footway or water channel in the town without the written permission of the Council first had and obtained, and every crossing, bridge, or culvert shall be built, laid down, or constructed in accordance with this Regulation and to the satisfaction of such officer as the Council may appoint for that purpose.

The common seal of the Mayor, Councillors, and Burgesses of the Town of Camberwell was hereto affixed by order of the Council this 25th day of October, 1909.
