Marine Acts 1890 and 1909.

AMENDED REGULATIONS RELATING TO THE PORT PHILLIP PILOT SICK AND SUPER-ANNUATION FUND.

IN pursuance of the powers conferred upon it by the Marine Acts, the Pilot Superannuation Board, with the approval of His Excellency the Governor of Victoria, acting by and with the advice of the Executive Council thereof, doth hereby make the Regulations following, that is to say:—

1. *Short Title.*—These Regulations may be cited as "The Port Phillip Pilot Sick and Superannuation Fund Regulations 1909."

2. *Commencement and Repeal.*—These Regulations shall be deemed to have come into operation on the 27th day of August, 1908, from which date all previous regulations relating to the maintenance of the Port Phillip Pilot Sick and Superannuation Fund, and for the distribution of the annual income thereof, shall stand repealed, and it is hereby directed that from such date the regulations so repealed shall no longer continue or remain in force with respect to pilots licensed before the commencement of *The Marine Board Act 1887*. And it is further directed with respect to widows or children of such pilots that no allowance, gratuity, or pension granted by the Pilot Board before the commencement of the said Act under any of such regulations shall be or continue to be payable to the recipients thereof in the same way as it would have been had *The Marine Board Act 1887* or the *Marine Act 1890* not been passed; but that as from such date such allowance, gratuity, or pension shall be and continue to be paid under these regulations or other regulations for the time being in force under the *Marine Act 1890* or under any Act amending the same or in substitution therefor.

3. *Applications for Pensions, Allowances, &c.*—Every application for any allowance, gratuity, or pension shall be made in such form as the Pilot Superannuation Board may require, and shall be accompanied by satisfactory evidence of the validity of the grounds upon which any such application is based.

4. *Service of Sea Pilots under Ten Years.*—No sea pilot shall be entitled to a pension under these Regulations unless he shall have completed ten (10) years' service as a duly licensed pilot, and in the event of his death before the completion of such term his widow and children shall not be entitled to participate in the benefit of the fund; provided, however, that should any such pilot die or be disabled by sickness or accident from the performance of duty as a pilot, thereby necessitating his retirement from the pilot service before he has served the specified term of ten years, then in such case there shall be paid to him or to his executors for the benefit of his widow and children from the Sick and Superannuation Fund a gratuity, the amount of which shall be determined as provided in the following Regulation.

5. *Determination of Gratuity to Sea Pilots.*—The Secretary to the Board shall record at the end of every month the amount which has been contributed to the Sick and Superannuation Fund for such month from the earnings of the sea pilots; such amount shall then be divided by the number for the time being forming the full complement of licensed sea pilots, and the sum so arrived at shall be recorded and shall represent the amount which for that month is to be deemed to be the proportion contributed to the fund by each individual pilot; the total amount of gratuity to be paid to any sea pilot under the provisions of the Regulation immediately preceding shall be the sum total of the recorded individual contributions for every completed calendar month forming the period of his service as a pilot.

6. *Service of Harbor Pilots under Ten Years.*—No harbor pilot shall be entitled to a pension under these Regulations unless he shall have completed ten (10) years' service as a duly licensed pilot, and in the event of his death before the completion of such term his widow and children shall not be entitled to participate in the benefit of the fund; provided, however, that should any such pilot die or be disabled by sickness or accident from the performance of duty as a pilot, thereby necessitating his retirement from the pilot service before he has served the specified term of ten years, then in such case there shall be refunded to him or his executors for the benefit of his widow and children the amount he has directly contributed from his earnings to the Sick and Superannuation Fund.

7. *Superannuation.*—Any pilot who has served ten (10) years and upwards, and who has attained the retiring age applicable to his case for the time being fixed by the Marine Board Regulations, or who in consequence of infirmity, sickness, or accident has become incapacitated for the performance of duty as a pilot, shall be entitled

from the date of his retirement from the pilot service to an annual pension from the Sick and Superannuation Fund, according to the scale of pensions set forth in Schedule (I.) hereto, provided that no pension shall be granted for more than thirty-five years' service.

8. *Lump Sum in Lieu of Pension.*—Where any pilot shall have become entitled to a pension, and he is desirous of accepting a lump sum in lieu thereof, he shall be entitled to be paid a sum calculated at the rate of £35 for the first year of completed service, £36 for the second year of such service, £37 for the third year of such service, and so on increasing One pound for each additional year of completed service up to thirty-five years, provided that such pilot grants a release to the Board from all future claims against the fund on behalf of himself and of his wife and of his children (if any), and provided further that no payment shall be made for a greater length of service than thirty-five years.

9. *Provision for Widows of Pilots.*—On the decease of a pilot in the exercise of his calling after having served ten years and upwards, or subsequent to his being placed on the superannuation list, and leaving a widow him surviving, the said widow shall be entitled to receive a pension from the Sick and Superannuation Fund, in accordance with the scale prescribed in Schedule (II.) hereto, subject to the proviso that the pension to the widow of any pilot shall in no case exceed £45 per annum, unless she shall have been married to him ten years or upwards at the time of his death or superannuation, whichever may first have happened, and shall in no case exceed £55 per annum, unless she shall have been married to him at least fifteen years at the time of such decease or superannuation, whichever may first have happened, and shall in no case exceed the amount specified as pension for the widow of a pilot who has served thirty-five years.

10. *Provision for Children of Pilots.*—If a pilot shall die leaving a widow and child or children him surviving, a capitation allowance shall be made in favour of each child at the rate of £6 5s. per annum until such child shall have attained the age of fifteen years. On the death of any widow, she leaving any child or children under the age of fifteen years her surviving, the capitation allowance, if there be but one child, shall be increased to a sum of Fifteen pounds (£15) per annum. In the case of more than one child, the pension payable to the widow shall be divided into as many equal portions as there are children, and each such portion shall be continued as a yearly allowance in addition to the capitation allowance payable as aforesaid to each such child, to be continued until the age of fifteen is attained, but without benefit of survivorship between the children, and subject to the further proviso that no child shall, in any case, receive a larger allowance (capitation money included) than £15 per annum.

In the event of a pilot dying leaving a child or children under fifteen years of age, but no widow him surviving, the allowance to each child is to be calculated as if the pilot had died leaving a widow surviving him for a period of 24 hours.

11. *Suspension of Widow's Allowance on Her Re-marriage.*—In all cases of a widow of a pilot re-marrying, her pension shall be suspended from the date of her re-marrying, but in the event of her again becoming a widow her pension may be restored to her on proof being adduced to the satisfaction of the Board that she is in circumstances needing assistance and is otherwise deserving of bounty, but it will be again liable to suspension during future re-marriages.

12. *Provisions Inalienable.*—The provisions hereby made for pilots, their widows, and children are intended to be personal and inalienable by charge, mortgage, executions under judgment, insolvency, or other voluntary or involuntary disposition; and, notwithstanding any assignment which may purport to have been made thereof, the Board shall pay the person entitled irrespective of any such assignment; or, if necessary for the protection of such persons under this clause, the Board may apply the same, at their discretion, for the benefit of such persons or of other members of their families.

13. *Sick Allowance.*—Any pilot who by reason of accident or of physical, mental, or visual unfitness for duty shall have been granted leave of absence by the Marine Board shall, during the term of such leave, be entitled to receive a sick allowance at the rate of Twenty-five shillings per week, provided that no pilot shall be entitled to sick allowance for any period of absence through sickness under 24 hours.

14. *Increase or Reduction of Pensions.*—If at any time after the granting of any pension the particular scale on which the same was originally computed or is, for the time being, paid (hereinafter referred to as the "old scale") be superseded or altered, with the result that the

pension of a person whose claim to a grant arises subsequently to such supersession or alteration (with, for computation purposes, identical or like services to that of the pilot incidental to whose services the pension was granted at the date when the right to a pension accrued), will, under the new scale, be computed and allowed at a different amount, either higher or lower, than is or would be payable in like case under the old scale, then, and in every such case (to take effect from the date when the new scale came into force) every pension theretofore granted to which this clause has application shall thereupon be and be deemed to be increased or reduced, as the case may be, by an amount representing the difference between the rate the pensioner was in law entitled to be paid immediately prior to the new scale coming into force and the rate which the pensioner would receive under the new scale had the same been in force at the date when his claim to the grant of a pension originally arose, and shall so continue raised or reduced until the new scale is in its turn superseded or altered (if at all), and so on from time to time.

The provisions of this clause shall extend and apply to the case of all pensions and periodic allowances granted under any rules or regulations hereinbefore repealed, including more particularly pensions of and periodic allowances to persons entitled under Rules or Regulations made by the late Pilot Board declared no longer in force under the authority conferred by the *Marine Act* 1909 (Act No. 2172). The intention being that the amount of such latter pensions and periodic allowances shall be adjusted in accordance with the scale in force on the 27th day of August, 1908, which thereupon shall be deemed the particular scale on which the pension or allowance is for the purposes of this clause to be regarded as "originally computed."

The foregoing Regulations were made and passed at a meeting of the Pilot Superannuation Board, held this 25th day of October, in the year of our Lord One thousand nine hundred and nine.

NYAH IRRIGATION AREA.

HOMESTEAD ALLOTMENTS AVAILABLE FOR SELECTION UNDER
CONDITIONAL PURCHASE LEASES.

THE land is situated at Nyah, on the River Murray, about 17 miles north-west from Swan Hill Railway Station.

The amount to be paid for each allotment is shown on Schedule hereto.

Applications (with uncanceled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Office, or to the Secretary for Lands, Melbourne, on or before Wednesday, 8th December, 1909.

Every application must be accompanied by a deposit equal to the first instalment of the purchase money, and the lease fee £1.

An applicant can, however, apply for more than one allotment, and will only be required to lodge the deposit payable in respect of the most valuable allotment applied for, together with a registration fee of 5s. with every application made.

Only one allotment can be granted to any one person.

Allotments will, if required, be subdivided. Applicants may apply for part of an allotment, and the question of subdivision will be dealt with by the Local Land Board.

No conditional purchase lease of a homestead allotment can be granted to any person who is already the holder of any land, the area of which, if added to the area of the homestead allotment, exceeds 640 acres if 1st class land, or like proportions of 2nd, 3rd, or 4th class land.

Improvements must be effected on each homestead allotment as follows:—To the value of not less than £50 within one year from the date of the lease, and additional improvements to the value of not less than £50 each year before the end of the second and third years from the date of the lease.

The lessee must permanently reside on the allotment for at least eight months during each year.

Personal residence by the lessee's wife, or any of his children over 18 years of age, may, with the approval of the Minister of Lands, be considered personal residence by the lessee.

The term of the lease is 3½ years, and the lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first six years of the lease.

The Crown grant may be issued on expiry of the lease, provided all conditions have been complied with, and the full purchase money has been paid.

All applications received will be dealt with by a Local Land Board, the date and place of hearing will be hereafter notified.

The irrigable portions of the various allotments are shown on plan.

The water charge, after the 1st July, 1910, will be 7s. 6d. per acre for the 1st year, 15s. for the 2nd year, and 22s. 6d. for the 3rd year. For the 4th and subsequent years, the charge will be the actual cost of supplying the water, which is estimated at 30s. per acre per annum.

Water supplied before the 1st July, 1910, will be charged for at the rate of 3s. per acre foot.

Plans may be obtained at the Inquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Bechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

Applicants may obtain from a Local Land Officer, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket at excursion fares to enable them to inspect the land, or to attend the Local Land Board.

Tenderers failing to take up their accepted tenders will be disqualified from tendering for Government supplies for a period of twelve months.

The Government will not necessarily accept the lowest or any tender.

Tenders, enclosed in a separate envelope, and having the words "Tender for Firewood at" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated in the schedule, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. All the firewood supplied under these contracts must be split out of large timber, and of the kind or kinds specified in the schedule, and must be dry, perfectly sound, and of good burning quality, and cut into billets of the lengths stated in the schedules,

such billets to be not less than four inches nor more than six inches in any diameter. The long wood to be not less than nine inches nor more than eighteen inches in any diameter. Neither burnt wood, heart wood, small branches, nor outside pieces of bark will be received. If the firewood is obtained from a State forest timber reserve or ordinary Crown lands, persons cutting and removing same must be provided with a licence or permit from the State Forests Department.

3. The orders will be issued by the departments requiring the supplies, and the firewood shall be delivered as may be directed by the officer ordering the supply. Should an order not be complied with within forty-eight hours it will be competent for the department concerned to purchase the firewood at the contractor's risk, and the extra expense (if any) over and above the contract price will be deducted from the contractor's account or from the security money.

4. Melbourne District will include a radius of six miles from the General Post Office. The Williamstown District will include the Borough.

5. The contractor will be bound to place the firewood in stacks for measurement on such ground as may be pointed out. The stacks are to be five feet high, and of the width specified in the various schedules, with space between each stack for measuring; and the billets or lengths are all to lie the same way, viz., cross-ways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack, and to the satisfaction of the officer receiving the supply. Firewood for the Yarra Bend need not be stacked, but must be weighed on the Asylum weighbridge.

6. The acceptance of the firewood shall be subject to the approval of the officer authorized to take delivery, or such other officer as shall be named by him. If after the delivery of the firewood has been taken any deficiency or defect is discovered therein, such firewood may be returned to the contractor. In case of the rejection or return of any firewood, the contractor shall bear the whole cost of replacing the wood so rejected or returned.

7. As soon as the orders shall have been completed the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.

8. In the event of a difference of opinion between the contractor and the officer receiving the firewood as to the quality, the same shall be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered as final.

9. If the board shall decide that the wood is not of proper quality it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted as in condition No. 3.

10. If from any cause injury would accrue to the public service by waiting for a board of survey, the head of the department or officer in charge will have the power to reject such wood as is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing; and the contractor must take back the rejected wood, and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition 3.

11. A refusal to execute orders, irregularity in the quality or quantity of the firewood, or delay in delivering or replacing it when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the State for the time being may direct; and the amount may be deducted as in condition 3. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith.

12. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

13. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of firewood by the Commonwealth Government.

14. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

15. No subletting will be allowed; all work must be carried out by the contractor, and the hours of employment of any person engaged in any business or occupation connected with the preparation of the Firewood for sale or connected with the sale or distribution of the Firewood tendered for in this schedule shall not exceed forty eight per week, and every such person shall be paid at a minimum wage of not less than 7s. a day, unless other wages and conditions may be determined by any special Board under the Factories and Shops Acts which may be appointed for this trade during the currency of the contract, when every such person shall be employed at such wages and subject to such conditions as may thus be determined; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, on the premises of the contractor. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from any accounts which are or may be due to the contractor, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement, and all other respects.

Treasurer.

5. Melbourne District will include a radius of 6 miles from the General Post Office.

6. At the time of delivering the coal the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the coal accepted, and shall return the order to the contractor.

7. If after the delivery of the coal has been taken any deficiency or defect is discovered therein, such coal may be returned at the contractor's expense, and coal of a satisfactory quality must be supplied in lieu thereof.

8. The contractor must produce the pit certificate if requested to do so by the officer receiving the coal.

9. The contractor will be bound to weigh the house coal and coke on delivery at such establishments as are provided with weighbridges. In other cases the tickets of the public weighbridges are to be accepted as the weight to be charged for. Coal to be delivered in the places set apart therefor.

10. The contractor will be bound to deliver coal for vessels, except in the case of dredges, into the vessels' bunkers.

11. When baskets are used in the delivery of coal they are all to be of one size, and the contractor will be bound to tare the baskets when so required by the officer taking delivery. In other cases the contractor will be bound to satisfy the officer receiving that the weight or quantity is correct.

12. Coal must be put on board at a rate of not less than ten tons per hour.

13. In the event of the officer ordering the coal not requiring the same to be put into the vessel's bunkers, as required by condition No. 10, a rebate of 1s. per ton to be made by the contractor.

14. Should an order not be complied with within 48 hours it will be competent for the department concerned to purchase, at the contractor's risk, and the extra expense (if any) over and above the contract price may be deducted from the contractor's account or the security money, but coal for steam vessels must be supplied on demand. No more delay will be allowed than is sufficient to give the necessary orders and get the bulk or vessel alongside. Bad weather to be the only excuse. In the event of the coal having to be delivered to outlying places by ketch or steamer, seven days' notice of such requirement must be given to the contractors.

15. As soon as the orders shall have been completed the contractor will be required to furnish to the department supplied his account in the prescribed form, with the receipted delivery order attached thereto. Accounts will be payable at any Receipt and Pay Office that the contractor may desire.

16. In the event of a difference of opinion between the contractor and the officer receiving the coal as to the quality, the same is to be decided by a board of survey, composed of persons named by the head of the department, and the decision of the board is to be considered final.

17. If the board shall decide that the coal or coke is not of proper quality it must be immediately replaced by the contractor, failing which it will be procured elsewhere, and the extra expense (if any) will be deducted as in condition 14.

18. If from any cause injury would accrue to the public service by waiting for a board of survey the head of the department, or officer in charge of station, will have the power to reject such coal or coke as is obviously of inferior quality, it being understood that he will be responsible to the Government for so doing, and the contractor must take back the rejected coal or coke and supply good in its stead, failing which it will be procured elsewhere, and the extra expense (if any) will be charged as in condition No. 14.

19. A refusal to execute orders, irregularity in the quality or quantity of the coal, &c., or delay in delivering or replacing the coal when required, will subject the contractor to such mulct, not exceeding £50, as the Treasurer of the State for the time being may direct; and the amount may be deducted as in condition 14. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith and forfeit the whole or any portion of the security money.

20. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

21. In the event of a general strike occurring at the colliery or collieries, any contract entered into under these conditions after the expiry of fourteen days notice being given may be suspended, such contract to come into full force and effect again fourteen days after such cause of suspension shall be discontinued. During the fourteen days severally hereinbefore mentioned, the contractors shall not be bound to supply coal to a greater quantity than the average daily consumption under the contract.

22. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by any purchase of coal by the Commonwealth Government.

23. Under no circumstances will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited, and in addition the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

24. Should the selling price at Newcastle, on which the prices under this contract are based, be increased or reduced, or should any duty, rate, or charge upon coal be imposed by the Parliament of the Commonwealth or of any of the States, or by any authority empowered to make or levy duties, rates, or charges on coal, or should any alteration take place in the wharfage rates on coal, either by way of imposition of new rates or abolition of present rates, or by increase or decrease of present rates, then the rise or fall respectively, as the case may be, occasioned by any of these causes shall be added to or subtracted from the contract price per ton hereinbefore set out.

25. Notwithstanding anything in these conditions, it is distinctly agreed that the contractors will be deemed to have carried out their contract if they supply the best coal of any kind which from time to time is obtainable by the contractors with ordinary steamers' despatch at the loading ports.

26. No subletting will be allowed: all work must be carried out by the contractor, and the hours of employment of any person engaged therein are not to exceed 48 per week, and at a minimum wage of not less than 8s. (clear of all deductions) per shift of eight hours for miners, and 6s. 8d. per day for labourers; and a copy of these conditions shall be kept conspicuously and continually posted, in legible Roman characters, in the colliery. Any infringement of this condition, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money, and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

W. A. WATT,
Treasurer.

Conditions.

1. 2. 3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act 1901* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act 1890* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

Special Conditions.

1. The period of occupation will be for ten months from 1st December, 1909, to 30th September, 1910.
2. The fee for the period from 1st November, 1909, to 30th September, 1910—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

Section 13, *Land Act* 1904, provides:—

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

BOROUGH OF COBURG.

BY-LAW No. 20.

A By-law of the Borough of Coburg, made under section 198 of the *Local Government Act 1903*, and numbered 20, for—

- Regulating and restraining the erection and construction of buildings, erections, or hoardings.
- Requiring the pulling down and removal of buildings, erections, or hoardings.
- Authorizing the Council to pull down and remove buildings, erections, or hoardings erected or constructed contrary to any such By-law or not pulled down or removed as required by or under any such By-law, and to sell the materials and apply the proceeds in reimbursing the expenses of pulling down and removing such buildings, erections, or hoardings, and in paying into the municipal fund any fees or penalties due by the owner thereof.
- Appointing fees which may be charged and received by the Council for any act done, or to be done, by any of its officers under such regulations, and for any permit or licence to be issued by the Council.

IN pursuance of the powers conferred by the *Local Government Act 1903*, the Mayor, Councillors, and Burgesses of the Borough of Coburg order as follows:—

1. In the erection of the internal or external walls, roofs, floors, ceilings, or any part of any building to be erected, no unsound material shall be used. The surveyor shall be the sole judge as to soundness of materials.

2. No building which has been removed as a whole or in part, whether from without the borough or from another part of the same, shall be erected on land within the Borough without the consent of the Council. Nothing herein contained shall prevent the alteration of the position of or removal of any building within the boundary of the land in the same possession on which it stands, always provided that such alteration or removal is carried on in strict conformity with the general provisions of the building regulation.

3. The internal walls of all wooden buildings shall be properly framed with studs and plates, and covered with lath and plaster, tongued and grooved wood, steel plates, or any other similar lining which has been approved by the surveyor. The outside walls shall be similarly framed with sufficient studs and plates and covered with sound new boards or material approved by the surveyor. The surveyor shall be the sole judge as to the necessary sizes of studs and plates, but no studs or plates shall be of a less thickness than $1\frac{1}{2}$ inches.

4. Nothing contained in the building regulation shall prevent sheds covered as to their external walls with galvanized iron from being erected on the side boundaries of properties, provided that such sheds shall not have their external walls within four (4) feet of any existing wooden building. Provided also that should the surveyor consider that the erection of any shed is detrimental to adjacent property he shall have power to refuse permission to erect such sheds.

5. Any hoarding erected for advertising or other purposes shall be erected under the supervision of the surveyor, who shall require complete plans of the construction of such hoarding to be submitted to him before the same is erected, and further shall have power to insist on such additional strengthening as he may deem necessary in the interests of public safety. The surveyor shall also have power to prevent the erection of any hoarding within a distance from the street frontage equal to the height of the said hoarding should he consider that the position of the hoarding necessitates this requirement being observed.

6. Before the erection of any building or hoarding is commenced there shall be submitted a plan of the same showing clearly all of the buildings, sheds, hoardings, or other structures which it is proposed to erect, and the distance from boundaries of the same, and there shall also be submitted a tracing or exact copy of the plan, such copy to be retained by the surveyor for office use.

7. Upon the certificate, in writing, by the surveyor that any building, erection, or hoarding is in such a dilapidated, ruinous, or insanitary state as to be dangerous to health or safety, or is not being erected in accordance with the provisions of this By-law, the Council shall cause

to be served on the owner of such building, erection, or hoarding, a notice to pull down or remove the said building, erection, or hoarding, within any period which the said Council may consider sufficient, such period, however, to be not less than three (3) days from the date on which the notice shall be served.

8. In default of compliance with any such notice to pull down or remove any building, erection, or hoarding, the said Council shall have power immediately on the expiration of the period herein mentioned to pull down or remove such building, erection, or hoarding, and further shall have power to sell the material of such building, erection, or hoarding, and apply the proceeds of such sale in reimbursing the expenses of pulling down or removing such building, erection, or hoarding, and shall pay into the municipal fund any fees or penalties due by the owner thereof.

9. The following fees shall be payable for the sundry services hereunder set forth, and such fees shall be paid to the borough treasurer before the performance of any act for which any such fee is payable:—

For any addition or alteration to any existing building per square or portion of square ...	£0 2 6
For inspection of any ruinous or dangerous building, sum not exceeding ...	£2 0 0
For any special inspection not set forth above, a sum not exceeding ...	£2 0 0

10. Every person wilfully offending against or committing any breach of this By-law shall for every such offence or breach be liable to a penalty not exceeding £20.

2. This By-law shall apply to and have operation throughout the whole of the municipal district of the Borough of Coburg.

Resolution for passing this By-law agreed to by the Council, the eighth day of September, 1909; and confirmed the sixth day of October, 1909.
