DEPARTMENT OF MINES.

ADVANCE TO A MINING COMPANY.

IN pursuance of the provisions of section 13 (1) of the *Mining Development Act 1908*, No. 2145, the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, has, by Order made on the 27th day of May, 1909, approved that the sum of One thousand five hundred pounds (£1,500), or so much of it as may be deemed requisite, be advanced to the

LADY NELSON GOLD MINING COMPANY N.L.,

on condition that in addition to every pound so advanced the said company shall, from the 17th May, 1909, expend a like sum of One pound in carrying out mining operations as arranged, or as may hereafter be arranged, subject to the control and supervision of the officers of the Mines Department deputed by the Minister of Mines to act for the purpose.

Provided that should any other works be carried out at the mine of the said company concurrently with those hereinbefore indicated, the cost of such other works will not be taken into consideration in connexion with this advance, which will be made subject to discontinuance at any time when in the opinion of the Minister of Mines, on the advice of the responsible officers of His Department, further assistance is unnecessary, uncalled for, or undesirable.

F. W. MABBOTT,
Clerk of the Executive Council.

DEPARTMENT OF MINES.

ADVANCE TO A MINING COMPANY APPROVED,
AND ORDER RESCINDED.

IN pursuance of the provisions of section 13 (1) of the *Mining Development Act 1908*, No. 2145, the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, has, by Order made on the 27th day of May, 1909, approved that the sum of Two thousand pounds (£2,000), or so much of it as may be deemed requisite, be advanced to the

NEW MOON UNITED GOLD MINING COMPANY N.L.,

on condition that in addition to every pound so advanced the said company shall, from the 5th March, 1909, expend a like sum of One pound in carrying out mining operations as arranged, or as may hereafter be arranged, subject to the control and supervision of the officers of the Mines Department deputed by the Minister of Mines to act for the purpose.

Provided that should any other works be carried out at the mine of the said company concurrently with those hereinbefore indicated, the cost of such other works will not be taken into consideration in connexion with this advance, which will be made subject to discontinuance at any time when in the opinion of the Minister of Mines, on the advice of the responsible officers of his Department, further assistance is unnecessary, uncalled for, or undesirable.

Further, His Excellency has, by the Order hereinbefore mentioned, rescinded the Order of the 29th March, 1909, gazetted 7th April, 1909, approving of an advance to the said company, of a like amount under Part II. of the said Act.

F. W. MABBOTT,
Clerk of the Executive Council.

STATE RIVERS AND WATER SUPPLY COMMISSION.—BY-LAW No. 80.—RATE.—LAKE BOGA URBAN DISTRICT OF LONG LAKE WATERWORKS DISTRICT.

THE State Rivers and Water Supply Commission, in pursuance and in exercise of the powers conferred by the *Water Act 1905*, doth hereby make the By-law following for Lake Boga Urban District of the Long Lake Waterworks District, as proclaimed by the Governor in Council by Order published in the *Victoria Government Gazette*, of the 12th May, 1909:—

1. The following rates for the supply of water are hereby made, and shall be levied upon the occupiers or owners of lands and tenements within the said Urban District:—

- (1) Of any tenement (other than land on which there is no building), a rate of Eighteen pence in the pound of the valuation of such tenement. Provided that the rate for the supply of water as aforesaid to such tenement shall not be less than the sum of Fifteen shillings per half-year.
- (2) Of lands on which there is no building, a rate of Eighteen pence in the pound of the valuation of such lands.

2. Such rates are made and shall be levied for the half-year beginning with the first day of January, 1909, and ending with the thirtieth day of June, 1909, and shall be payable on the fifth day of June, 1909, at the office of the said Commission at Melbourne.

3. Such person or persons as the State Rivers and Water Supply Commission may from time to time appoint for that purpose shall be and is or are hereby authorized to demand, receive, collect, and recover the said rates.

4. For making and levying such rates the valuation for the time being of such lands and tenements for the municipal rate of the municipality in the municipal district of which such lands and tenements are situate, shall be deemed and taken to be the valuation of such lands and tenements respectively; but if any of such lands and tenements are not included in a valuation in force for the municipality in whose district they are situate, or if there is no such valuation, the net annual value thereof may for all the purposes of such rates be determined by a police magistrate.

The foregoing By-law was made by the State Rivers and Water Supply Commission on the twenty-fourth day of May, One thousand nine hundred and nine, and the common seal of the said Commission was hereunto affixed the twenty-fourth day of May, One thousand nine hundred and nine, in the presence of—

BROADFORD WATERWORKS TRUST.—ALTERATION OF WORKS KNOWN AS OPEN RACE AND PIPE TRACK.

At the Executive Council Chamber, Melbourne, the twenty-seventh day of May, 1909.

PRESENT:

His Excellency the Governor of Victoria.
Mr. Murray | Mr. McBride.
Mr. Brown

WHEREAS by an Order in Council made on the 16th July, 1907, a Waterworks Trust known as the Broadford Waterworks Trust was duly constituted to carry out certain waterworks described in such Order, and a general plan and description of such works were in and by the said Order duly approved.

And whereas a race and pipe main were works so described and shown on such general plan and description.

And whereas by section 205 of the *Water Act 1905* (No. 2016) it is provided that in the construction of any proposed waterworks the plan and description of which have been approved by the Governor in Council no departure or variation from such plan and description shall be made except with the sanction of the Governor in Council in every case.

And whereas it is deemed expedient not to construct the race and pipe main as shown on such plan and description, and that in lieu thereof a pipe main, solely, be laid.

Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby sanction the Broadford Waterworks Trust laying a pipe main along the route shown upon a plan deposited in the Office of the Department of Water Supply, Melbourne, in lieu of constructing the race and pipe main as approved by the said Order in Council of 16th July, 1907.

And the Honorable George Graham, His Majesty's Minister of Water Supply for the State of Victoria, shall give the necessary directions herein accordingly.

Water Act 1905.—(5 Edw. VII. No. 2016.)
WESTERN WIMMERA WATERWORKS DISTRICT.
—PORTION OF DISTRICT PROCLAIMED AN
"URBAN DISTRICT."

PROCLAMATION

By His Excellency Sir Thomas David Gibson Carmichael, Baronet, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George; Governor of the State of Victoria and its Dependencies in the Commonwealth of Australia, &c., &c., &c.

UNDER the powers conferred by the Water Act 1905, and all other powers enabling me in that behalf, I, the Governor of the State of Victoria, with the advice of the Executive Council thereof, do hereby proclaim that as on and from the first day of January, 1909, that portion of Western Wimmera Waterworks District included within the following boundaries shall be and become an "Urban District" for the purposes of the said Act, and shall be known as Dimboola Urban District:—

Commencing at the most westerly angle of allotment 27, parish of Dimboola, county of Borung; thence south-easterly by the south-western boundaries of allotments 27, 28, 29, 30, and 31, and a line connecting those boundaries to the southern angle of allotment 31; thence easterly by the southern boundary of allotment 32 to its intersection with the boundary of the township of Dimboola; thence south-westerly and south-easterly by the boundaries of that township to the Wimmera River; thence south-easterly and north-easterly by that river to its intersection with the north-east boundary of the portion of the Upper Regions P.R. acquired by the Wimmera United Waterworks Trust as a site for a pumping plant, which portion is shown on the certificate of title, vol. 2059, fol. 722; thence north-westerly by the last-named boundary, a distance of fifty links and a half; thence north-easterly by a line to the western angle of allotment 163F; thence north-easterly and north-westerly by the south-eastern and north-eastern boundaries of that allotment to its northern angle; thence by a line bearing N. 52 deg. 10 min. E. and forming the north-western

boundaries of allotments 163H and 163K to the south-western boundary of the service reservoir site; thence south-easterly, north-easterly, north-westerly, and south-westerly by the boundaries of that site to its western angle; thence south-easterly by its south-western boundary a distance of two chains; thence by a line bearing S. 52 deg. 10 min. W. and forming the south-eastern boundaries of allotments 163B and 163C to the most easterly angle of allotment 163C; thence north-westerly by the north-eastern boundary of that allotment to the south-eastern boundary of the aforesaid township; thence north-easterly by that boundary and a line in continuation thereof to the northern boundary of allotment 163G of the said parish; thence westerly by that boundary to its intersection with the north-eastern boundary of the said township; thence north-westerly by that boundary to the most southerly angle of allotment 140 of the said parish; thence northerly by a road for a distance of two thousand three hundred and thirty-one links; thence south-westerly by a road for a distance of one thousand and eighty-three links to the north-eastern boundary of the said township; thence north-westerly by that boundary to a point in line with the north-western boundary of allotment 6 of the said township; thence south-westerly by a road forming the north-western boundaries of allotments 6, 6A, and 15 of the said township and aforesaid allotment 27, all in the parish of Dimboola, to the point of commencement.

All of which boundaries are as shown on a plan deposited in the Office of the State Rivers and Water Supply Commission, Treasury Gardens, Melbourne.

ALTERATION OF BOUNDARIES OF A REGISTRATION DISTRICT AND A REGISTRATION DISTRICT PROCLAIMED.

PROCLAMATION

By His Excellency Sir Thomas David Gibson Carmichael, Baronet, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George; Governor of the State of Victoria and its Dependencies in the Commonwealth of Australia, &c., &c., &c.

WHEREAS by the Registration of Births Deaths and Marriages Acts it is amongst other things enacted that the Governor in Council may, by Proclamation in the *Government Gazette*, divide Victoria into districts and assign Victoria and the said districts to the Government Statist and Registrars respectively, or to so many of them as he may think fit, and may define the limits of such districts, and from time to time revoke, vary, and alter such division and the limits of such districts: Now therefore I, the Governor of the State of Victoria in the Commonwealth of Australia, with the advice of the Executive Council of the said State, and pursuant to the provisions of section 5 of the *Registration of Births Deaths and Marriages Act 1890* (54 Vict. No. 1137), do hereby alter the division and the limits of the Bendigo Registration District as proclaimed by Order of the 27th November, 1899, by the excision of all that portion of the said Bendigo Registration District described hereunder:—

Commencing at the intersection of the south-western side of Myrtle-street and the north-western side of the Railway reserve; thence north-westerly by Myrtle-street to the Bendigo Creek; thence south-westerly by that creek to Violet-street and north-westerly by that street to Rowan-street; thence south-westerly by Rowan-street to Lily-street and north-westerly by the last-named street to Barnard-street; thence westerly by that street to Maple-street, southerly by Maple-street to Rowan-street, and south-westerly by a line, being the production of the northern side of the last named street, to Wilmot-street; thence southerly by that street to Burrowes-street, and westerly by Burrowes-street to Specimen Hill-road; thence southerly and south-westerly by that road and Bullock Creek-road to Norma-street; thence south-easterly by that street to the Bendigo Creek; thence northerly by that creek to the northern side of Ash-street; thence south-easterly by Ash-street to the Railway reserve; and thence north-easterly by that reserve to the point of commencement, and I do hereby proclaim the said portion a Registration District, to be known as the

GOLDEN SQUARE REGISTRATION DISTRICT.

Given under my Hand and the Seal of the State of Victoria aforesaid, at Melbourne, this twenty-seventh day of May, in the year of our Lord One thousand nine hundred and nine, and in the ninth year of His Majesty's reign.

WHITE CLIFFS IRRIGATION AREA.

HOMESTEADS AND MALLEE FARM ALLOTMENTS AVAILABLE FOR SELECTION UNDER CONDITIONAL PURCHASE LEASES.

THE land is situated between White Cliffs and Yelta, and is about 8 to 20 miles west from Mildura.

Applications (with uncancelled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Officer, or to the Secretary for Lands, Melbourne, on or before Thursday, the 1st July, 1909.

Every application must be accompanied by a deposit equal to the first instalment of the purchase money and the lease fee £1.

An applicant can, however, apply for more than one holding, and will only be required to lodge the deposit payable in respect of the most valuable allotment applied for, together with a registration fee of 5s. with every application made.

Only one holding can be granted to any one person.

No conditional purchase lease of a Homestead and Mallee Farm allotment can be granted to any person who is already the holder of any land, the area of which, if added to the area of the Homestead and Mallee Farm allotment, exceeds 640 acres if 1st class land, or like proportions of 2nd, 3rd, or 4th class land.

Where a Homestead allotment and a Mallee Farm allotment form one holding, improvements must be effected on the Homestead allotment, as follows:—

To the value of not less than £50 each year, before the end of the second and third years, from the date of the lease.

Before the end of the third year from the commencement of the lease and thereafter in each and every year, not less than one-fifth of the Mallee Farm allotment must be planted with cereal crops.

The lessee must permanently reside on the holding for at least eight months during each year.

Personal residence by the lessee's wife, or any of his children over 18 years of age, may, with the approval of the Minister of Lands, be considered personal residence by the lessee.

The term of the lease is 31½ years, and the lessee cannot transfer, assign, mortgage, or sublet his holding within the first six years of the lease.

The Crown grant may be issued on expiry of the lease, provided all conditions have been complied with, and the full purchase money has been paid.

All applications received will be dealt with by a Local Land Board, the date and place of hearing will be hereafter notified.

The irrigation charges will be about one pound ten shillings per acre per annum on the Homestead allotments.

In order that the Farm Allotments may be occupied in a compact group, the particular Farm allotment to be attached to a Homestead allotment will be determined at the time of the Local Land Board inquiry.

Plans may be obtained at the Inquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

Applicants may obtain from a Local Land Officer, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket at excursion fares to enable them to inspect the land, or to attend the Local Land Board.

Commissioner of Crown Lands and Survey.

WHITE CLIFFS IRRIGATION AREA.

HOMESTEAD ALLOTMENTS AVAILABLE FOR SELECTION UNDER
CONDITIONAL PURCHASE LEASES.

THE land is situated at White Cliffs, on the Murray River, about 6 to 10 miles from Mildura.

A railway station is being constructed at Merbein, within the settlement area.

Applications (with uncancelled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Office, or to the Secretary for Lands, Melbourne, on or before Thursday, 1st July, 1909.

The amount to be paid for each allotment is shown on Schedule hereto.

Every application must be accompanied by a deposit equal to the first instalment of the purchase money, and the lease fee £1.

An applicant can, however, apply for more than one allotment, and will only be required to lodge the deposit payable in respect of the most valuable allotment applied for, together with a registration fee of 5s. with every application made.

Only one allotment can be granted to any one person.

No conditional purchase lease of a Homestead allotment can be granted to any person who is already the holder of any land, the area of which, if added to the area of the Homestead allotment, exceeds 640 acres if 1st class land, or like proportions of 2nd, 3rd, or 4th class land.

Improvements must be effected on each Homestead allotment as follows:—To the value of not less than £50 within one year from the date of the lease, and additional improvements to the value of not less than £50 each year before the end of the second and third years from the date of the lease.

The lessee must permanently reside on the allotment for at least eight months during each year.

Personal residence by the lessee's wife, or any of his children over 18 years of age, may, with the approval of the Minister of Lands, be considered personal residence by the lessee.

The term of the lease is 31½ years, and the lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first six years of the lease.

The Crown grant may be issued on expiry of the lease, provided all conditions have been complied with, and the full purchase money has been paid.

All applications received will be dealt with by a Local Land Board. The date and place of hearing will be hereafter notified.

The irrigation charges will be about £1 10s. per acre per annum.

Plans may be obtained at the Inquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

Applicants may obtain from a Local Land Officer, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket at excursion fares, to enable them to inspect the land, or to attend the Local Land Board.

NOTE.—The areas are approximate only, and are subject to adjustment. The values will therefore be adjusted accordingly.

The half-yearly payment is £1 less than the deposit to be made.

MALLEE LANDS AVAILABLE FOR SELECTION AS AGRICULTURAL ALLOTMENTS.

THE land is situated near Pinnaroo, on the South Australian Border, about midway between Serviceton and the River Murray.

Applications (with uncanceled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Office, or to the Secretary for Lands, Melbourne, on or before Wednesday, the 7th J. ly, 1909.

Not more than one allotment can be included in any application, but any number of applications may be lodged, with the prescribed fee in each case.

Applicants will be hereafter notified as to the date and place of hearing of their applications by Local Land Board.

The land will be granted under agricultural allotment licence, and at the end of 6 years, if the residence, cultivation, improvement, and all other conditions have been complied with, a lease for 34 years will be granted, or, if desired, on expiry of licence, or at any time within the period of 34 years, a Crown grant will be issued on payment of the full amount of the purchase money.

The survey fee must be paid within 28 days of demand, and will range from £8 to £10 per allotment.

The licence will be subject to the following conditions:—

That substantial and permanent improvements shall be made on the land, if in the first class, to the value of 3s. 4d. per acre before the end of the second year from the date of the licence, another 3s. 4d. per acre before the end of each year of the third and fourth years, and the balance of 10s. per acre before the end of the sixth year of the licence. If in the second class, improvements to the value of 2s. 6d. per acre must be made during the like periods, and the balance of 7s. 6d. per acre before the end of the sixth year of the licence. If in the third class, improvements to the value of 5s. per acre must be made before the end of the third year from the date of the licence, and the balance of 5s. per acre before the end of the sixth year of the licence.

The first half-year's rent and licence-fee must be paid prior to issue of licence, and, provided improvements equivalent in value to the amount of rent due for each year be expended on the land during each of such years, in addition to the value required by the ordinary improvement condition, as set forth above, further payment of rent may be suspended until the end of the third year, and such suspended payments, without interest, will be collected in instalments during the remaining term of the licence.

That the licensee shall go into residence on the land within twelve months after the date of the licence, and shall reside on the land during the continuance of such licence, and shall also clear and cultivate at least one-fourth of his allotment within two years of obtaining a permit to occupy the land.

That the licensee shall not transfer, assign, mortgage, or sublet, or part with the possession, or grant the use of the whole, or any part of the allotment, during the currency of the licence.

That a special condition shall be inserted in the Lease and the Crown Grant, providing that the land referred to therein shall at all times be maintained and used for the purpose of agriculture, grazing, and residence, and that no person will be permitted to subsequently acquire or hold, or have an interest in, more than 1,000 acres, if the land be in the first class, or more than 1,500 acres, if the land be in any other class.

That the licensee shall preserve the timber on an area, or otherwise plant an area, of not less than 3 per cent. of the total area of his holding, preferably along the exposed boundary lines, viz., the western and southern.

No person, unless specially authorized, will be permitted to clear timber from any portion of areas retained for the purposes of roads and wind breaks.

Plans may be obtained at the Inquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

In the State of South Australia, plans may be obtained at the Railway Stations at Tailem Bend and Pinnaroo.

Applicants may obtain from a Local Land Officer, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket at excursion fares to enable them to inspect the land, or to attend the Local Land Board.

Accommodation is available at Pinnaroo, and conveyances may be hired there.

The Adelaide express train leaves Melbourne daily at 4.30 p.m., arriving at Tailem Bend at 6.3 a.m. (Adelaide time) on the following day.

Trains leave Adelaide on Mondays, Wednesdays, and Fridays, at 6.50 a.m., arriving at Tailem Bend at 11.20 a.m.

Trains leave Tailem Bend for Pinnaroo on Mondays, Wednesdays, and Fridays at 11.28 a.m. (Adelaide time), arriving at Pinnaroo at 5.50 p.m.

Trains leave Pinnaroo on Tuesdays, Thursdays, and Saturdays at 6.30 a.m. (Adelaide time), arriving at Tailem Bend at 12.44 p.m.

SHIRE OF BORUNG.
Local Government Act 1903.
BY-LAW NO. 8.

A By-law of the Shire of Borung, made under section 198 of the *Local Government Act 1903*, and numbered eight, for regulating and restraining the erection and construction of buildings.

IN pursuance of the powers conferred by the *Local Government Act 1903*, the President, Councillors, and Ratepayers of the Shire of Borung order as follows:—

Definition Clause.

For the purpose of this By-law, the following terms shall have the respective meanings hereby assigned to them, that is to say—

1. "The Surveyor" or "Building Surveyor," mentioned in this Regulation, shall be the engineer or clerk of works of the Shire of Borung, or such officer as the Council shall from time to time appoint for the purposes of this Regulation; and "Secretary" mentioned shall be the Shire Secretary to the Council. "Person Building" shall be either or all of the following:—Owner, lessee, architect, builder, or contractor.

Preliminaries to be Observed.

2. Notice of intention to build and payment of fees.
No person building shall commence any building or any addition or alteration to any building, or move, place, or raise any building, or do any building operation referred to or provided for in this Regulation, without delivering at the building surveyor's office a written notice thereof seven days before commencing, and lodging at the same time plans and specifications of such building, addition, or alteration, or other operation hereinbefore mentioned in this Regulation, which will show to scale the boundaries of, and the positions of the buildings existing and proposed on such land, and details of construction referred to in this Regulation.

No person building shall commence any building, addition, alteration, move or place any building, or call upon the surveyor to examine any building, settle any dispute, inspect, or report upon any party wall, or perform any special or other duties, without first paying to the Shire Secretary a fee of 10s. for inspection of plans. In cases where the value, in the opinion of the surveyor, of additions or alterations is less than £50 (fifty pounds) sterling, and special duties are not performed, no fees will be required, but the notice and the Regulations shall be complied with, though the former may be given not less than 48 hours before commencing work.

Generally.

Modification of Regulations in Additions and Alterations.

3. In cases of additions or alterations to buildings now built, upon special inspection and approved by the building surveyor, and in some cases where he may deem it necessary for the applicant to obtain a written consent of the owner adjoining, the building surveyor, or person appointed, may recommend that such modification of this Regulation be allowed, providing they shall entail no risk of mischief to the town by fire, no injury to the adjoining owner, and providing they be not contrary to the general tenor and purport of this Regulation, all such special applications shall be made in writing to the building surveyor, and submitted by him to the Council of the Shire for consideration, approval, or otherwise.

Signboards on Face of Buildings.

4. No show-board or signboard shall be affixed to the front of any building so as to extend over any public footway or roadway.

Classification of Buildings.

5. For the purpose of this Regulation, all buildings of whatever kind shall be subject to the provisions herein, and shall be deemed to belong to one or other of the following classes, that is to say:—

First class.—If a building proposed to be built is to be utilized as a dwelling house, or office, or suites, office chambers, or to be occupied or intended to be occupied as such, or as a private stable or coach-house or like out-buildings, then it is deemed to belong to the first class, as hereinafter subdivided.

Second class.—If the building proposed to be erected is intended to be utilized as a shop, or shop and dwelling, manufacturing warehouse, store, or public building, *i.e.*, hall, church, chapel, hospital, or occupied or intended to be occupied as such, or for a similar purpose, then it shall be deemed to belong to the second class, as hereinafter more specifically described.

Generally.

6. That in case of the erection of any building, or portion of a building, to which these Regulations cannot be specifically applied, then the building surveyor may recommend to the Council the granting of a special permit to build, provided that construction of the building complies with the general tenor and purport of the Regulation.

Alteration of buildings of one class to that of another class.

7. If any building of either class be subsequently converted into or used as a building of the other class, then it shall be deemed to belong to such other class, subject, nevertheless, to such modifications as shall be sanctioned by the surveyor on the supervision thereof, or if any building be used partly as a dwelling house and partly for any purpose which would bring it within the second class, then as to it all the conditions prescribed with regard to buildings of such class must be fulfilled, as if it had been originally built of such class; subject, nevertheless, to such modifications as shall be sanctioned by the surveyor on supervision thereof.

Height.

8. The height of every building is to be ascertained by measuring from the surface of the lowest floor of the building up to the top of the wall plate for receiving the roof.

Area.

9. The area of every building is to be determined by the number of squares (one square equals 100 square feet) contained in the surface of any floor, which shall contain the greatest number of squares at or above the principal entrance to such buildings, including in such surface the area of all the external walls, and such portions of the party walls as belong to such building, but excluding from such surface the area of any area, balcony, or open portico.

Capacity.

10. And the capacity or cubical contents of any building is to be ascertained by measuring within the walls at the surface of the floor, at the principal entrance to such building, and from the surface of the lowest floor to the top of the wall plate for receiving the roof.

Number of Stories.

11. And the stories of every building are to be counted from the foundation upwards.

And if the space in height between the top of the footings and the level of the lowest floor does not exceed seven feet, then the story above such space is to be considered the lowest or first story, but if such space exceed seven feet, then such space is to be considered to contain the lowest or first story, and in that case the top of the footing is to be considered the level of the lowest floor.

For the purposes of this Regulation, it is not considered necessary to provide for buildings of more than two stories. Special permit from the Council will be necessary for buildings over two stories in height (*i.e.*, 30 feet).

Subdivision of Buildings of First Class.

12A. Brick Buildings.—Footings.

Every wall shall be built upon a footing constructed of dimensions to the approval of the surveyor, based on solid ground, or upon other sufficient foundation, as approved of by the surveyor (this clause is to be also taken as generally applying to the buildings of the other class, and the subdivision of each class). Every footing must be built of brick or stone, or such bricks and stone together, laid in, and with mortar or cement, or approved concrete, in such a manner as to produce solid work.

Thickness of walls.—The clause "Footings," as above described, shall be taken to mean practically all work to within 6 inches of the footpath or ground level, everything above this height to plate-level being termed foundations.

Foundation walls externally, that is to say, walls below plate-line and down to top of footings in this subdivision, shall not be less than 14 inches thick for single-story buildings, and 18 inches thick for two-story buildings; in case of using 11-inch hollow walls in the superstructure, the 14-inch foundation wall will have to be slightly cored out to take floor-plate.

Foundation walls internally to be not less than as follows:—Under 4½-inch walls, 9 inches thick (cored out to take plate); under 9-inch walls, 14 inches (cored out to take plate).

Supports to joists and floor-bearers shall be either 9 inch x 9 inch brick (or other approved incombustible material) piers on approved concrete foundations, and spaced not more than 4 feet 6 inches apart, or alternatively 5-inch x 5-inch red gum or jarrah blocks, or round box blocks of not less a diameter in the average than 8 inches.

Superstructure.

13. The walls internally of the superstructure of building not to be less than one brick thick, *i.e.*, 9 inch, or its complement, in a hollow wall, *i.e.*, 11 inches. Buildings under this sub-section A of first class may be erected two-story with above superstructure, provided always that the height does not exceed 30 feet, and that in no case is the length of the external walls between cross walls over 30 feet. In case of carrying 11-inch walls two story, the intermediate wall-plate shall be not less than 2 inches x 8-inch W.I.

Hollow Walls.

14. The external and party walls of the first class buildings may be built hollow, with a 2-inch cavity, provided the aggregate thickness of the solid portions of such walls is as stipulated in this Regulation for buildings of such class, and provided each hollow wall is doubly bonded longitudinally twice in each story in height with strong galvanized hoop-iron, and cross-tied with stout wire ties at each fourth course at 2 feet centres, and provided that it is capped with a wall-plate, at least full area of top of wall by 1½ inch approved timber placed centrally or by other approved provision for distributing the weight and bonding the walls.

Solid Walls.

15. To be built in approved bond set in mortar, and doubly longitudinally bonded with strong galvanized hoop-iron twice in each story of its height capped with wall-plate as above described for hollow walls.

Cross Walls.

16. In this section, cross walls for a single-story building, or in the lower story of a two-story building, must not be built less than 4½ inches thick in brick or its equivalent, but the upper walls of second story may be built with stud partition not less than 4 inches x 2-inch studs, 18 inches centres, and similar top and bottom plates, thoroughly braced, herring-boned, and lathed and plastered on completion. At least in case of four top courses of all 4½-inch brick walls internally the mortar must be in cement 3 and 1. Above walls may be lined with other fireproof material, subject to the sanction of the surveyor.

All Walls Generally.

17. With regard to walls under this class, and also walls generally under all other classes (except those of wood or iron or both, provided for hereafter), every wall shall be built of good bricks or such substituted material as hereafter provided under clause 21, with lime or cement mortar, and in such a manner as will produce solid work, and every wall shall be carried up to its full thickness to the underside of the plate under the roof, and without any kind of openings in it, if in the case of first class buildings it is nearer the boundary of the tenement than 1 foot, and if, in the case of second class buildings, it is nearer than 2 feet 6 inches to the boundary of the tenement, otherwise openings of moderate size will be allowed for doors and windows.

In no case will timber be allowed to be built into walls in such a manner as its entire removal would endanger the stability of the wall, nor will any timber be allowed to extend through the wall from side to side. No timber, ends of beams, &c., shall be placed nearer than 4½ inches to the outer surface of an external wall, or than within 1½ inches of the centre of any party wall.

Partition Walls in Lath and Plaster.

18. Lath and plaster walls, as hereinbefore mentioned, may be used where they are not an essential part of the construction of the building, or where, in the opinion of the surveyor, they would not reduce its stability.

Damp Course.

19. Every wall, not being entirely of wood, or wood and iron, shall have a damp course below the level of the floor throughout its whole thickness and length, of lead, asphalt, or other mineral substance impervious to moisture, either at one level throughout, or at different levels in horizontal layers, overlapping at least six inches, with a vertical connexion touching the horizontal layers. All parapets shall have similar damp courses below the level of the roof.

Ventilation.

20. In no cases will floor timbers be allowed nearer the earth than six inches, and a proper through current of ventilation below floor levels shall be provided by means of galvanized iron or other approved air bricks built into the walls, also ventilations of timbers between floors in case of two-story buildings must be provided.

It is suggested, but is not compulsory, that approved outlet ventilation be provided as close to ceiling level of each room as possible, and also that provision should be made for ventilating the roof spaces, by perforating the soffit of eaves, and by extract vents leading direct from the roof.

Buildings constructed of other Incombustible Material than Brick.

21. The Regulations hereinbefore mentioned as applying to brick residences may be taken to apply equally to buildings of brick or stone, artificial stone, concrete blocks, and reinforced concrete, or the like material, laid or set with lime or cement mortar in such a manner as to produce solid work, provided that in no case will the erection be, in the opinion of the surveyor, less substantial than the brick erection specifically mentioned. The nature and import of this clause will also generally apply to the erection

of buildings of all classes not herein particularly described, and any restrictions herein placed upon the manner and detail of construction of brick walls will in like manner apply to buildings erected with composite walls as above described.

*Subdivision B. First Class.**Wooden Buildings.**Number of Stories and Height of Walls.*

22. Buildings of this class shall be only one story high, except in the case of private stables, which are limited to the area of 4½ squares only, which will be allowed to have a loft floor in order to form a loft.

The height of walls shall not be less than 7 feet 6 inches for skillions 9 feet for ordinary buildings, and not more than 14 feet, except in the case of private stables, which may be 16 feet high.

Special provision is made for attic accommodation in residences.

Foundations.

23. All walls shall be built in piers of brick, stone, or concrete, not less than 9 inches x 9 inches, set in mortar on 4½-inch brickwork, with 9-inch x 9-inch piers spaced every 4 feet 6 inches and set on approved concrete foundations, alternatively 5-inch x 5-inch red gum, jarrah, or box blocks may be used in place of brick foundations for wood buildings.

Construction of Walls.

24. The studs throughout shall not be spaced more than 20 inches from centre to centre, and shall not be of less scantling than 1 inches x 2 inches or 4 inches x 1½ inches for walls up to 13 feet high, 4 inches x 2 inches if over 13 feet high, and shall be diagonally braced and (if plastered), double herring-bone strutted, properly framed, and secured to top and bottom plates, and covered with good weatherboards, galvanized iron, or some material that, in the opinion of the surveyor, is equally good and substantial.

Outside the area which includes Scott, Kelsall, Phillips, Woolcock, Lyle, Anderson, Jamouneau, Molyneux, Devereux, and Tarrant streets, or any extension of that area that the Council may from time to time adopt, the inside of walls may be sheeted with rough lining up to a height of 5 feet about floor-level, and then covered with canvas and paper, excepting buildings of 12 squares or over, buildings of this area are to be built as if included in the streets above mentioned.

On all allotments fronting on both sides of the before-mentioned streets, and within this area, the inside of the walls and ceilings are to be close lined throughout with 6-inch x 2-inch lining or its equivalent in some other material to approval of surveyor, such as stamped steel, fibrous cement, &c., or, on the contrary, may be lath and plastered throughout as above. It shall be optional, then, to paper and canvas and paper over the above materials. In the case of lath and plastered walls, herring-bone stiffening pieces are to be fixed in wall two rows in height of walls, and again bracing pieces, with ceilings properly hung thereto, are to be affixed over all lath and plaster ceilings of greater span than 10 feet.

Roofs, Fireplaces, Chimneys, Brick Walls, &c.

25. See general clause No. 5, relating to all classes of buildings.

Distance of Buildings of this Class from Boundaries and Other Buildings.

26. Every building of this class shall be a single tenement, and completely isolated, that is to say, no building of this class shall be hereafter built, rebuilt, erected, or placed nearer to land of an adjoining owner or an adjoining occupier than 7 feet, measured in each case from the boundary of the tenement or land in the same occupation to the face of the wall of the building, unless and until in each and in every case brick end walls with parapets are erected, similar and of the same dimensions as provided and specified for party wall in semi-detached buildings under this class. (Sec. 12.) Where any right-of-way divides any two properties, the boundary of each property shall be considered to be the middle of the right-of-way.

Distances of Buildings of this Class from Boundaries of Other Buildings, when Brick Side or Party Walls are Provided, and Provision for such Walls.

27. Buildings of this class may be placed or left nearer to the boundaries than provided in the foregoing Regulation, or abutting on the boundaries, or nearer to one another, or may be divided into two or more tenements, provided in each and every case brick end or side walls next the boundaries or between the buildings or brick party walls if the buildings abut or are divided, are built to each building. No eaves in first-class buildings will be allowed nearer to the boundary of the tenement than 2 feet 6 inches. Each end or side wall or party wall shall be built of solid brickwork without openings (except where such walls are at least 2 feet 6 inches from the boundary of the tenement, when doors and windows will be allowed), of a thickness not less than 8½ inches, and extending at

each end 1 inch at least beyond the finished face of the wall of the furthestmost out-office, verandah, room, or other projection, both at the back and front of the building, such ends shall be left exposed entirely and without any timber cover whatever at any part, and such wall shall extend above, or through the roof, as the case is, to a height of at least 18 inches above the surface of the roof covering abutting on it, and be capped with brick on edge in cement mortar, or like impervious capping, and such wall shall comply in all other respects with all the provisions of this Regulation relating to brick, &c., walls in general, whether external, party, or otherwise. The parapet wall shall be required only on walls 2 feet 6 inches or less from the boundary of the tenement. The projection of all brick walls with parapets beyond the end or face of verandah will only be required when the outmost projection of the face or end of verandah is 2 feet 6 inches or less from the boundary of the tenement.

Old or Existing Buildings Moved.

28. No building removed bodily or piecemeal shall be moved on to any site unless it is in good repair and complies with all requirements of this Regulation as to construction, and when so moved shall comply with all the provisions of this Regulation relating to such class of building, subject to such modification as may be deemed sufficient by the surveyor on his inspection thereof, as equivalent to the Regulation requirements (see section No. 2).

Wood Sheds, Earth Closets, &c.

29. Notwithstanding anything contained herein to the contrary, wood sheds, completely open one side, and of less area than two squares, and small earth closets, in each case built of wood, may be built not nearer than three feet from the boundary of the tenement without a brick wall, with parapet, provided the buildings (except like buildings of the adjoining tenement) are no nearer than 10 feet, that the approval of the surveyor shall first be obtained as regards the site, and that in all other respects except height, which must be not less than 7 feet to the eaves, the building shall conform to all the requirements provided for second class buildings. (See also By-laws and Regulations under Health Act.)

With regard to E.C., the floor in the middenstead must in all cases be formed with paved brick, concrete, asphalt, or some equally impervious material, and the closet itself and underside of middenstead ventilated by means of at least a 2½-inch pipe with extract cowl at head.

Stables.

Generally erected in compliance with the foregoing By-laws, but not necessarily having any lining. Floors of stalls, boxes, &c., to be paved with impervious material, and to be drained to outlets. Proper and suitable dung-pits (built either in brick or wood), but having bottom of impervious material, and drained to approval, will be required attached to all stables now built, proposed, or in course of erection.

Attic Rooms.

30. Rooms in the roof of any building hereafter built or rebuilt shall not be less than 8 feet in height, except at the sloping part, which shall not begin at less than five feet nor extend more than three feet into the room. There shall be only one floor of such room in any roof. The construction of the attic generally must be submitted to and approved of by the surveyor in complete detail.

Second Class.

Generally. Area for Brick Buildings.

31. Any building in the second class, or any subdivision of this class, shall have its walls, generally speaking, built in brick, stone, or a combination of both, or reinforced concrete, or any other approved incombustible material, laid or set in lime or cement mortar in such a manner as to produce solid work and as generally hereinafter more particularly described, excepting only in such portions of the town as are not included in the following area:—All allotments facing Scott-street both sides and a distance extending back therefrom of two hundred feet and extending from Lyle-street on the one hand to Kelsall-street on the other. Such area, for the purposes of these Regulations, to be termed the "brick area."

Dwelling Houses and Buildings of First Class in Scott-street.

32. The above clause is also to be taken as applying to buildings of the first class, as it is required that no erection, unless of the nature above described, shall be permitted in the main street of the town.

Existing Buildings.

33. If it be at any time proposed to alter, or remodel, or reinstate premises in the "brick area," such alterations, remodelling, or reinstatement shall be carried out in strict compliance with the Regulations for buildings in this area, subject, nevertheless, to such alterations as may be sanctioned by the Council on the recommendation of the building surveyor after supervision thereof.

Subdivision A. Second Class.—Shops.

34. The term "shop" shall be taken as including any business premises, store, house, manufacturing workshop, or building to be occupied or intended to be occupied as such.

Generally.

The clauses in relation to the first class buildings appertaining to height, area, capacity, and number of stories will be read also as applying to buildings of the second class.

Width and Height of and Level of Top of Footings.

35. The bottom of the footing of every external or party or cross wall shall in width exceed the thickness of the wall standing thereon by two-thirds of the thickness of such wall.

The height of every footing shall be at least equal to the thickness of the wall standing thereon.

The top of every footing shall be at least six inches below the level of the footpath adjoining.

In all walls below wooden ground floors, a set off of 2½ inches extra thickness to be added to that of the wall above shall be built to carry plates.

Footings.

36. Clause 12 in reference to footings is to be generally taken as applying to all classes of brick buildings.

Supports to Joists and Floor Bearers.

37. Shall be piers not less than 9 inches x 9 inches in brickwork (or other approved incombustible material) on concrete foundations, and shall not be spaced further apart than 4 feet 6 inches.

Thickness of Walls.

38. Foundations.—In all cases the foundation wall, that is, the wall between floor-plate line and to level of, approximately, six inches below the ground surface, shall be at least 4½ inches wider than the fixed superstructure, and shall be set in cement mortar.

Superstructure.

39. In single-story buildings whose height does not exceed 13 feet and length between cross walls 30 feet, the superstructure walls shall not be less than 9 inches thick (or its complement in hollow wall 11 inches). Single-story buildings that exceed the above measurement in height or width between cross walls shall have walls increased to 14 inches thick (or its complement in hollow work—16 inches), or as an alternative a wall 9 inches may be built in with piers (in solid work set in cement mortar), and whose area shall be equal to one-sixth the superficial area of the wall, *i.e.*, a 9-inch wall with an 18-inch pier every 9 feet. Foundations and footings to be increased to correspond.

Two-Story Buildings.

40. In two-story buildings whose height does not exceed 30 feet (*i.e.*, from plate to plate, see clause 20 height), and whose length between cross walls does not exceed 50 feet, then the walls as for the lower or ground floor shall not be less than 14 inches (or its complement—9 inches with piers as above), and the walls for upper story 9 inches, either wall, of course, may be carried out in hollow work—thickness corresponding. In cases where the above measurements are exceeded, then the walls on the ground floor must be increased to 18 inches, and those of the upper floor to 14 inches, or both walls may be built 14 and 9 inches respectively, provided always that piers are built as alternatively before stipulated.

Cross Walls.

41. In case of single-story buildings, not less than 9-inch walls with 14-inch foundations and footings as generally described.

In case of two-story buildings, lower walls in all cases to be not less than 9 inches, upper walls not less than 4½ inches (or lath and plaster partitions) where span between does not exceed 15 feet.

Foundation and footing to be taken as applied to external walls.

Generally regarding Damp Courses, Materials for Walls, Hollow Walls, &c.

42. The clauses before expressed relating to the above in description of first class buildings shall be taken as generally applying throughout the Regulations.

External Walls used as Party Walls.

43. And with regard to external walls to be used as party walls to any building adjoining thereto:—If such external wall to any building be at least 8½ inches in thickness in every part, and be of sound and proper materials and in good condition, then such wall may, at the discretion of the building surveyor, with the consent, in writing, of the adjoining owner, be used as a party wall; but if the house of which such wall forms a part be rebuilt, then such wall must become subject to the provisions of this Regulation in respect to party walls, according to the class to which the said wall belongs.

Division of Buildings into Separate Tenements.

44. If any building already built, or which shall be hereafter built, be converted, used, or occupied as two or more separate buildings, each having a separate entrance or staircase, such conversion, use, or occupation, not having been made, or not having taken place prior to this Regulation coming into operation, then every such building shall be deemed to be two or more separate houses, and such separate houses must be divided from each other by a party wall, or party arch or arches, party floor or floors, built in the manner and of the dimensions and of the materials required for party walls, or for party arches, or for party floors, for the class to which the largest of the buildings so divided shall belong, that is, so far as they adjoin vertically they must be separated by a party wall, and so far as they adjoin horizontally then they must be separated by a party arch or party floor.

Height and Thickness of Parapets.

45. With regard to height and thickness of parapets on external and party walls:—Any external wall which is placed or is within four feet of land in the occupation of another, or any party wall between tenements or places separately occupied, shall be carried up to and remain 1 foot 6 inches in the place of first class, and 3 feet in the place of second class, above the level of the roof covering adjoining in each case, and the thickness of such parapet shall in all cases be not less than $8\frac{1}{2}$ inches, and the coping course finished off in cement.

Provided always that it shall not be necessary for party or dividing walls between property owned by the same person to be carried up further than underside of slates or other roof covering, or to the underside of gutter boards, provided such slates or other roof covering or gutter boards be well bedded in cement or good mortar, no such walls shall be less than $8\frac{1}{2}$ inches thick.

Projections and Cornices.

46. No projection or cornice shall project more than the thickness of the wall on which it is from the face of such wall, measured horizontally, unless sufficiently back-weighted or anchored, and all projections or cornices shall be approved of by the surveyor.

Girders and Brestsummers.

47. With regard to brestsummers fixed to carry any wall of any building:—Every such brestsummer shall be of wrought iron or mild steel, and shall have a bearing in the direction of its length of 6 inches at the least at each end for spans up to 14 feet, upon a sufficient pier of brick or stone. The bearing must be increased 1 inch at each end for every 4 feet or portion thereof by which the span exceeds 14 feet, in addition to which the brestsummer must be supported, at the discretion of the building surveyor, on one or more story posts of iron or steel with properly constructed caps and bases, fixed upon solid and sufficient foundations, to the satisfaction of the building surveyor. Every brestsummer supported on any wall or any brick or stone pier (both the latter shall be on sufficient and approved foundations, as the case requires) shall bear upon a template or corbel of stone or iron tailed through at least one-half the thickness of each wall, and of sufficient width to properly distribute the pressure for walls and for the piers a template at least the area of their top, and sufficiently thick in all cases to distribute the pressure without failure. All brestsummers and story posts shall be of ample strength for their work, with a minimum of deflection.

Subdivision B. Second Class.

48. This subdivision includes all buildings used or intended to be used either temporarily or otherwise for the assemblage of the public, whether for public worship, debate, amusement, instruction, diversion, or resort—such as church, college, hall, theatre, concert room, ball room, &c.

Thickness of Party and Cross Walls.

49. If any building in either subdivision of 2nd class correspond in form, structure, or disposition with buildings of the first class, then the thickness of the external or party walls and the footings thereof shall be built in accordance therewith. Provided always that in the case of buildings that have practically only external walls, such as churches, halls, &c., full and ample provision is made to strengthen the walls and take the thrust of the roof by means of buildings with the walls properly constructed piers and buttresses (in cement mortar). The construction of such walls will necessarily have to be submitted for special approval of the Council on the recommendation of the building surveyor. If a building in this subdivision correspond in form of structure to that of the "shop" section, then it shall be constructed accordingly.

*Buildings Outside the "Brick Area."**Subdivision 6.—Second Class.*

50. All buildings of the second class outside the "brick area" hereinbefore mentioned may be constructed in accordance with the Regulations in subdivision B of first class, namely, "wooden buildings," provided that in the

case of buildings that have practically only external walls, and whose span exceeds 20 feet, proper and suitable provision in the opinion of the surveyor is made for strengthening the walls by means of buttresses or main bearing studs.

Composite Buildings.

51. Notwithstanding anything contained in this Regulation, composite buildings in any class may be erected, provided always that they are not constructed contrary to the general tenor and purport of the Regulations, more especially as regards "area," and subject always to the special sanction of the Council.

Rules concerning Chimney Stacks, Chimneys, &c.

52. Generally to be built of brick or other incombustible material. Jambs shall not be less than 9 inches wide on either side of the opening breasts, and partitions of flues not less than $4\frac{1}{2}$ inches thick. Interior of flues to be pargetted, no flues ordinarily to be less than 9 inches x 9 inches, and in case of wash house copper and the like not less than 9 inches x $4\frac{1}{2}$ inches. No timber shall be built or let into any part of chimney stack or flue. Hearths to be in all cases of incombustible material.

Chimney stacks of greater height than 25 feet in a single-story building, or 40 feet otherwise, to be submitted to Council, and special permit obtained for same.

Chimney Pot, Tubes, Funnels, &c.

53. As to earthen or metal chimney pots, tubes, funnels, or cowls of any description whatever:—

If such pot, tube, funnel, or cowl be higher than six feet above the brick or stone work of the flue on which the same shall be placed, then it must be fixed two feet at the least into the brick or stone work of the flue on which it shall be placed, and be stayed with iron stays or ties, and no chimney shaft, tube, funnel, &c., shall be less than 3 feet in height above the roof.

*Rules Concerning Roof Coverings.**Materials.*

54. If the external parts of any roof, flat, or gutter of any building, or any projection therefrom, and of any turret, dormer, lantern-light, verandah, or portico, or other erection on the roof or flat of any building be hereafter built or rebuilt, stripped, ripped or uncovered, then every such part (except the door-frames and doors, window-frames and sashes of such turrets, dormers, lantern-lights, or other erections) must be covered with slates, tiles, lead, galvanized iron, glass, artificial stone, or cement, and such excepted parts may be made of such wood as shall be necessary.

Construction.

55. All roofs shall be constructed so as to throw no lateral thrust on the walls, and so that the only thrust from them to the walls is in a truly vertical direction, except in the case where buttresses are built out to resist the lateral thrust directly.

Underground Rooms and Lighting Thereof.

56. Plans or specifications must be submitted, and the construction of such rooms and the lighting thereof will be permitted, subject at all times to the approval of the Council and shire engineer.

Drains.

57. All drains in or upon any allotment within the boundary hereinafter referred to (see clause 58), and across the footpath to street channel, shall be so constructed to the approval of the Council with brick, stone, concrete, or earthenware, or some such impervious material laid jointed and grouted, as case may be, with Portland cement mortar, and to a fall of not less than 1 inch in 20 feet, proper inspection openings, vents, and traps being provided as may be found necessary.

58. This By-law shall apply to and have operation within that portion of the north and west ridings of the Shire of Borung as is bounded on the north by the Donald-road, Brim-road, Bowman-street, and the Creek-road to its junction with the Yarriambiack Creek and a line at right angles to such Creek-road to a point five chains west of the Yarriambiack Creek, on the south by Gardiner-street, Cemetery-road, and a line two chains south of Wood-street continued to a point five chains west of Yarriambiack Creek; on the east by the eastern boundary of the township of Warracknabeal; and on the west by a line running parallel with the Yarriambiack Creek at a distance of five chains to the west of same and in the manner hereinbefore set out.

The common seal of the Shire of Borung was hereunto affixed in pursuance of an order of the Council made the 20th day of February, 1909, in the presence of—

WALTER PENDLEBURY, President.
(L.S.) W. H. TINK, Councillor.
R. LONG, Shire Secretary.

Transfer of Land Act 1904.—No. 32, Section 16.

Title claimed by adverse possession to land under Transfer of Land Act 1890, comprised in Crown grant, vol. 512, fol. 102289, whereof JOHN PICKERING is the registered proprietor.

ELLEN PRATT, of Wodonga, widow, has applied to have a certificate of title issued to her for the land described hereunder, which is comprised in the above-mentioned Crown grant, and to have the said Crown grant cancelled as to such land. The Commissioner of Titles has directed notice of the application to be advertised once in the *Government Gazette*, also in the *Argus* and *Herald* newspapers, published in Melbourne, in three successive weeks, with an interval of not less than five days between each publication; also once in the *Wodonga and Towong Sentinel* newspaper, and has appointed four months from date of publication of the first of such newspaper advertisements on or after the expiration of which the Registrar may, unless a caveat shall be lodged forbidding the same, cancel the existing Crown grant affecting, or so far as it affects such land, and issue a certificate of title to the applicant as registered proprietor of an estate in fee simple in possession in the said land free from encumbrance.

Dated the 23rd day of February, 1909.

Land referred to.

Crown allotment One A, section 4, parish of Belvoir West, county of Bogong: Commencing at the south-western angle of said allotment; thence by the fenced north-western boundary of the allotment north-easterly 1,260 links; thence by a lagoon easterly and southerly; thence by the eastern boundary of the said allotment southerly 170 links; thence by the boundary between allotments One A and 2 westerly 861 links, and by the fenced boundary between allotments One A and One westerly 241 links to the commencing point.

This land is claimed by adverse possession, the last registered proprietor thereof being John Pickering, who is stated to have died in 1873. Others interested in such land are the next of kin of said John Pickering.

THOS. BYRNE,
Registrar of Titles.

Tooley and Wimpole, 87 Queen-street, Melbourne, solicitors for the applicant. 5169

2nd June, 1909.

THE VICTORIA GOVERNMENT GAZETTE.

SUBSCRIPTIONS.—The Subscription, including Postage, is £1 8s. 4d. per annum, or 7s. 1d. per quarter, payable in advance.

Subscriptions are required to commence and terminate with a month.

A lesser period than three months cannot be subscribed for.

Subscribers do not receive the Acts of Parliament with the Gazette.

ADVERTISEMENTS are charged at the rate of SEVENPENCE per line throughout.

The Title (£s Reward, Dissolution of Partnership, &c.) forms one or more lines, as a heading.

On an average, ten words make a line, but for the description of a brand consisting of more than one letter, &c., placed perpendicularly, thus, B, each additional letter under the first is charged as a line.

Every signature must likewise be counted as a line.

The final words of a paragraph, though only a portion of a line, must be counted as one line.

Signatures (in particular) and Proper names must be written very plainly in the text: ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

The GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion must be received by the Government Printer on or before TWO o'clock of the day preceding the day of publication.

Single copies of the GOVERNMENT GAZETTE are Sixpence, posted Sixpence halfpenny, each.

N.B.—All Gazettes prior to 1st January, 1872, are One shilling and sixpence, posted One shilling and sixpence halfpenny, each.

* * * ALL PAYMENTS ARE REQUIRED IN ADVANCE. Remittances should be made by postal note, money order, or draft in favour of the Government Printer. Advertisements unaccompanied by a remittance sufficient to cover the cost of insertion will be returned unpublished.

All communications should be addressed to "The Government Printer, Melbourne."
