REGULATIONS.

At an Executive Council held at the Law Courts, Melbourne, the eighteenth day of February, 1910.

PRESENT:

His Excellency the Lieutenant-Governor as Deputy for His Excellency the Governor of Victoria.

Mr. Graham	Mr. Thomson
Mr. Watt	Mr. Edgar.

WHEREAS by the *Motor Car Act 1909* (9 Edw. VII. No. 2237) it is among other things provided that the Governor in Council may make regulations with respect to any matters whatsoever necessary or desirable for the purpose of giving effect to the said Act: Now therefore His Excellency the Lieutenant-Governor as Deputy for His Excellency the Governor of the State of Victoria, with the advice of the Executive Council thereof, doth hereby make the following Regulations, that is to say:—

MOTOR CAR ACT 1909.

REGULATIONS.

1. No person shall cause or permit a motor car to be used on any road, street, lane, highway or other public place or shall drive or have charge of a motor car when so used unless the conditions hereinafter set forth are satisfied, namely:—

- (1) The motor car, if it exceeds in weight unladen five hundredweight, shall be capable of being so worked that it may travel either forwards or backwards.
- (2) The motor car shall not exceed seven feet two inches in width, such width to be measured between its extreme projecting points.
- (3) The tire of each wheel of the motor car shall be of the width following:—
 - (a) If the weight of the car unladen exceeds fifteen hundredweight but does not exceed one ton, not less than two and a half inches.
 - (b) If such weight exceeds one ton, but does not exceed two tons, not less than three inches.
 - (c) If such weight exceeds two tons, but does not exceed three tons, not less than four inches.

Provided that where a pneumatic tire, or other tire of a soft and elastic material, is used, the conditions hereinbefore set forth with respect to tires shall not apply.

- (4) The motor car shall have two independent brakes in good working order and of such efficiency that the application of either to the motor car shall cause two of its wheels on the same axle to be so held that the wheels shall be effectually prevented from revolving or shall have the same effect in stopping the motor car as if such wheels were so held. Provided that in the case of a motor car having less than four wheels this condition shall apply as if, instead of two wheels on the same axle, one wheel was therein referred to. Such brakes must be so constructed as to be within the control of the driver of the motor car.

- (5) The motor car and all the fittings thereof shall be in such a condition as not to cause, or to be likely to cause, danger to any person on the motor car or on any road or highway.

2. Every person driving or in charge of a motor car when used on any road, street, lane, highway or other public place shall comply with the regulations hereinafter set forth, namely:—

- (1) He shall not cause the motor car to travel backwards for a greater distance or time than may be requisite for the safety or convenience of the occupants of the motor car and of the passenger and other traffic on the road, street, lane, highway or other public place where such backward travelling is found necessary.
- (2) He shall not, when on the motor car, be in such a position that he cannot have control over the same, or that he cannot obtain a full view of the road and traffic ahead of the motor car, nor quit the motor car without having taken due precautions against its being started in his absence, nor allow the motor car or a vehicle drawn thereby to stand on any street, road, lane, highway or other public place so as to cause any unnecessary obstruction thereof.
- (3) He shall when meeting any vehicle, horse, or cattle, keep the motor car on the left or near side of the road, and when passing any vehicle, horse, or cattle, proceeding in the same direction, keep the motor car on the right or off side of the same.
- (4) He shall not negligently or wilfully prevent, hinder or interrupt the free passage of any person, vehicle, horse, or cattle on any road, street, lane, highway, or other public place, and shall keep the motor car, and any vehicle drawn thereby, on the left or near side of the road, for the purpose of allowing such passage.
- (5) He shall, whenever necessary, by sounding the bell, horn, or other instrument required by section 13 of the *Motor Car Act 1909*, give audible and sufficient warning of the approach or position of the motor car.
- (6) He shall, at the request, or signal by hand, of a constable in uniform, or at the request of any person having charge of a horse, cause the motor car to stop, and to remain stationary so long as may be reasonably necessary. Any person who, being in charge of a horse, shall, without good cause, request the stoppage of a motor car, shall be guilty of an offence.

3. Every motor car shall be so constructed as to enable the driver, when the motor car is stationary, otherwise than through an enforced stoppage owing to necessities of traffic, to stop the action of any machinery attached to or forming part of the motor car, so far as may be necessary for the prevention of noise. The driver shall, on every such occasion, make prompt and effective use of all such means as, in pursuance of this regulation, are provided for the prevention of noise. This regulation shall not apply so as to prevent the examination or working of the machinery attached to or forming part of a motor car where any such operation is rendered necessary by any failure or derangement of the said machinery.

4. No person driving a motor car shall leave such car on any street, road, lane, highway, or other public place, in such a position as to obstruct other vehicles. This regulation shall apply, even though the motor car be left in such a position that there

is room for other vehicles to pass; but shall not apply in cases where such car is drawn up close to the kerb or edge of the roadway, and left for a few minutes only without any person being in charge thereof.

5. Each motor car not being a motor cycle registered under the *Motor Car Act* 1909 shall have firmly fixed in a central position, both on the front and on the back or rear part of the body of such motor car, a metal or wooden plate rectangular in shape, painted black, and having the identifying number shown on the registration certificate of such motor car painted thereon in white figures. Instead of using a plate, it shall be permitted to paint the identifying number on the body of the car or upon the petrol tank, provided that the position selected for such identifying number shall be prominent.

6. Each figure on such plate shall be $3\frac{1}{2}$ inches high. Every part of each figure must be at least five-eighths of an inch broad, and the total width of the space taken up by each figure must be $2\frac{1}{2}$ inches, except in the case of the figure 1.

The space between adjoining figures must be $\frac{1}{2}$ inch, and there must be a margin between the nearest part of any figure and the top and bottom of the plate of at least $\frac{1}{2}$ inch, and between the nearest part of any figure and the sides of the plate of at least 1 inch.

7. Every registered motor car being a motor cycle shall have fixed to the front thereof a plate approximately 5 inches long by $2\frac{1}{2}$ inches high, having duplicate faces painted black, and the identifying number painted in white figures on each face. The size and spacing of the figures shall be in proportion to the size of the plate, relatively to that provided in the case of motor cars not being motor cycles.

8. Every registered motor car, not being a motor cycle, shall carry on the right or off side of such car a lamp showing a bright white light, visible within a reasonable distance, but not less than 200 yards, in the direction toward which the motor car is proceeding, and a lamp at rear showing a red light, visible at the same distance in the reverse direction.

9. Each registered motor car, not being a motor cycle, shall carry a lamp showing a bright light at the rear of such motor car, set on a bracket and firmly fixed in such a position that the light from such lamp shall fall obliquely upon the identifying number of the said motor car, and make such number clearly visible at a reasonable distance by night. The lamp must be so placed that its body will not obstruct the view of any person seeking to read the identifying number of the motor car either by night or day. The front lamp of a motor cycle shall be so fixed as to illuminate and render easily distinguishable by night the identification plate fitted to the front of such motor cycle.

10. Lights as prescribed shall be carried on motor cars and motor cycles from half an hour after sunset until half an hour before sunrise when travelling or standing on any road, street, lane, highway or public place.

WHITE CLIFFS IRRIGATION AREA.

SCHEDULE OF ALLOTMENTS.

HOMESTEAD ALLOTMENTS AVAILABLE FOR SELECTION UNDER
CONDITIONAL PURCHASE LEASES.

THE land is situated at White Cliffs, on the Murray River, about 6 to 10 miles from Mildura. A railway station is being constructed at Merbein, within the settlement area.

Applications (with uncanceled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Office, or to the Secretary for Lands, Melbourne, on or before Wednesday, 23rd March, 1910.

The amount to be paid for each allotment is shown on Schedule hereto.

Every application must be accompanied by a deposit equal to the first instalment of the purchase money, and the lease fee £1.

An applicant can, however, apply for more than one allotment, and will only be required to lodge the deposit payable in respect of the most valuable allotment applied for, together with a registration fee of 5s. with every application made.

Only one allotment can be granted to any one person.

No conditional purchase lease of a Homestead allotment can be granted to any person who is already the holder of any land, the area of which, if added to the area of the Homestead allotment, exceeds 640 acres if 1st class land, or like proportions of 2nd, 3rd, or 4th class land.

Improvements must be effected on each Homestead allotment as follows:—To the value of not less than £50 within one year from the date of the lease, and additional improvements to the value of not less than £50 each year before the end of the second and third years from the date of the lease.

The lessee must permanently reside on the allotment for at least eight months during each year.

Personal residence by the lessee's wife, or any of his children over 18 years of age, may, with the approval of the Minister of Lands, be considered personal residence by the lessee.

The term of the lease is 31½ years, and the lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first six years of the lease.

The Crown grant may be issued on expiry of the lease, provided all conditions have been complied with, and the full purchase money has been paid.

All applications received will be dealt with by a Local Land Board. The date and place of hearing will be hereafter notified.

The irrigation charge will be about 30s. per acre per annum.

Of this amount, 7s. 6d. only will be collected during the first year, and increasing annually by a like amount until the fourth year, when the full amount will be charged.

The charge for irrigation will commence on the 1st July, 1910.

Plans may be obtained at the Inquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

Applicants may obtain from a Local Land Officer, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket at excursion rates, to enable them to travel by train to inspect the land.

Commissioner of Crown Lands and Survey.

NOTE.—No tender will be accepted unless the fee for the period from 1st March, 1910, to 30th September, 1910, or to 31st October, 1910, as the case may be, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Thursday, 24th February, 1910, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the *Land Act* 1901 shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act* 1901, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act* 1901, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act* 1901 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licence shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act* 1890 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

Special Conditions.

1. The period of occupation will, except where otherwise specified, be for seven months from 1st March, 1910, to 30th September, 1910.

2. The fee for the period from 1st March, 1910, to 30th September, 1910—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act* 1904, provides:—

1. Where a licensee under section 187 of the *Land Act* 1901 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.
