GENERAL PROVISIONS.—DEFINITIONS.

Noxious or Offensive Matter.—In the construction of this By-law "noxious or offensive matter" means any matter manufactured, product, residue, garbage, refuse, in whatever state, whether solid, liquid, or gaseous, from which any effluvia, offensive fumes, vapour, gas, dust, or other impurity may be or is liable to be emitted.

Premises.—"Premises" means lands, buildings, out-buildings, yard, or enclosure used or intended to be used for the reception, treatment, disposal, production, manufacture, or storage of any articles or material used or intended to be used in one or more of the noxious or offensive trades or businesses hereinbefore mentioned.

Owner.—"Owner" means the owner or owners for the time being of the premises aforesaid.

Occupier.—"Occupier" includes any person or persons in actual occupation of or entitled to occupy and use the premises aforesaid.

1. *Covers for Receptacles.*—The owner or occupier of the premises shall cause every boiler, digester, drier, mixer, vat, pan, tank, trough, vessel, and other receptacle therein containing noxious or offensive matter to be provided with a cover fitting fixedly, and in an airtight manner, and to be in other respects so constructed and placed that when such receptacle is in use the escape of noxious or offensive effluvia, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented as far as practicable.

2. *Construction of Buildings.—General.*—He shall on the premises cause every room, chamber, or place that is used for the purpose of receiving, storing, boiling, drying, reducing, crushing, disintegrating, pulverizing, grinding, or otherwise treating noxious or offensive matter, to be constructed in such a manner and furnished with such appliances that, when such room, chamber, or place, and such appliances are in such use, escape of noxious or offensive effluvia, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented as far as practicable.

3. *Reception, Treatment, and Storage of Noxious or Offensive Matter.*—He shall on the premises cause all noxious or offensive matter that is taken to such premises, or that results from trade processes at such premises, to be received, treated, and stored, while on the premises, in a room, chamber, or place constructed in such a manner, and furnished with such appliances that, when such room, chamber, or place, or such appliances are in use, escape of noxious or offensive effluvia, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented, provided always that noxious or offensive waste matters other than drainage, and resulting from the trade processes conducted by him and no longer required by him for conducting these processes, shall—

(a) At least daily be placed in a receptacle or receptacles formed of non-absorbent and durable material, and furnished with a cover of such material and capable of being fitted quickly, fixedly, and in airtight manner to such receptacle; and

- (b) At least once weekly be either removed from the premises in receptacles of the description already mentioned in 3 (a), or be burnt or otherwise rendered inoffensive and innocuous by means of an appliance by which escape of offensive or noxious fumes, gas, dust, vapour, or liquid into the external atmosphere will be prevented as far as practicable.

4. *Transport of Noxious or Offensive Matter on Premises.*—He shall when removing noxious or offensive matter from one part of his premises to another part thereof, remove the same in a receptacle of the description mentioned hereinbefore in 3 (a), or by some other appliance by which escape of offensive or noxious effluvia, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented as far as practicable.

5. *Use of Receptacles, Appliances, and Apparatus.—Treatment of Noxious and Offensive Vapours, &c., by Fire or Condensation or by both.*—He shall cause every part of his premises, and every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, receptacle, appliance, and apparatus used on such premises to be so used that escape of noxious or offensive effluvia, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented as far as practicable, and he shall in every case cause all noxious or offensive vapours, gas, dust, or fumes therefrom to pass through a fire or into a suitable condensing apparatus or through such apparatus and then through a fire, in such a manner as to deprive such vapours as far as practicable of all noxious and offensive properties.

In the boiling of blood, steam must be used instead of the direct action of fire on the pan or other receptacle containing blood. The addition of acid to blood or blood clot shall be effected only in closed vessels formed of non-absorbent material.

Bone milling processes shall be conducted only in airtight casings, and the products of the milling shall be conveyed to airtight receivers or to sound bags through airtight shoots or conveyors enclosed in airtight casings.

6. *Import or Export of Noxious or Offensive Matter to or from Premises.*—He shall cause all noxious or offensive matter that is taken to the premises or that results from the trade processes at such premises to be brought to or removed from such premises only in a receptacle which, or, in a vehicle the receptacle of which is of the description mentioned hereinbefore in 3 (a).

7. *Certain Details of Construction.*—He shall on the premises cause every floor, and to a height of 6 feet from the floor, each wall, post, column, pier, or other upright support of every chamber, room, or place containing noxious or offensive matter, to be constructed of durable, non-absorbent material, closely joined, and, as far as practicable, finished internally with smooth surfaces, and with angles and corners rounded off and out sufficiently to prevent the lodgment of filth, provided that, in the case of blood boiling, blood drying, and fat rendering establishments, and of bone mills, the walls to their full height and extent to every such chamber, room, or place shall be also constructed of the aforesaid material.

In the case of proposed new premises, the site thereof must be raised above the levels of adjoining roadways and pathways.

8. *Disposal of Drainage of Premises.*—He shall on the premises cause every chamber, room, or place containing any noxious or offensive matter to be effectually drained by means of a closed drain trapped and ventilated and covered at every inlet with a fixed grating formed of wrought-iron bars not less than $\frac{3}{8}$ inch in diameter, and placed not more than $\frac{3}{8}$ inch apart, such drain discharging—

- (a) Into a public sewer the sewage from which is dealt with so as to be innocuous and inoffensive; or, in case such a sewer is not available,
- (b) On to land situated at such distance, being 100 yards from any human habitation, and used in such a manner as to effectually render the drainage matter innocuous and inoffensive; or, where not otherwise forbidden,
- (c) Into a suitably covered and ventilated receptacle situated on the premises, and so formed, constructed, and placed as to admit of its being readily and effectually removed; or
- (d) To some apparatus approved by the Council, and by which the drainage matters shall in an innocuous and inoffensive manner be rendered innocuous and inoffensive as far as practicable.

Grease traps shall be provided wherever required by the Council.

9. *Internal Drainage of Premises.*—He shall on the premises cause all drainage from every chamber, room, or place containing any noxious or offensive matter to flow

as provided for in accordance with the provisions of the last preceding clause (8), and in the event of the receptacle mentioned in sub-clause (c) of that clause being used, he shall at least twice weekly in the months of October, November, December, January, February, and March, and once weekly in the remaining months, effectually remove the contents by means of a receptacle which, or, if a vehicle, the receptacle of which can be fixedly closed so as to be airtight as described in 3 (a), and shall dispose of them in an innocuous and inoffensive manner, and shall, on the occasion of such removal, effectually cleanse the drainage receptacle, and in the event of this drainage being made to flow to an apparatus of the description mentioned in 8 (d), he shall cause such apparatus to be used in such a way as shall not give rise to offensiveness or injury to health.

10. *Receptacles, Appliances, and Apparatus in State of Good Repair.*—He shall on the premises cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, and other receptacle, apparatus, and appliance with which and every drain, floor, wall, and ceiling, or roof lining, or roof of every room, chamber, and place in which any process of his business is carried on that may give rise to any noxious or offensive effluvia, vapour, gas, dust, liquid, or fumes to be at all times maintained in a state of good repair.

11. *Cleansing of Premises.*—He shall on the premises cause the floor, internal surface of each wall, and the lower surface of the ceiling or roof lining, or roof of every chamber, room, and place containing any noxious or offensive matter to be at all times as clean as practicable, and, except in the case of a room, chamber, or place used solely for the purpose of drying albumen, shall cause to be washed with hot limewash the internal and lower surfaces aforesaid, at least four times in every year, that is to say, at least once in each of the months of February, May, August, and November, and, in addition, as often as may be necessary for the purpose of keeping such surfaces clean and wholesome as far as practicable.

12. *Cleansing of Receptacles, Appliances, and Apparatus.*—He shall on the premises cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, receptacle, utensil, apparatus, and appliance provided, used upon or in connexion with such premises, to be kept, when not actually in use, at all times in a thoroughly clean condition, and shall cause all noxious or offensive matter that has been littered or spilled or splashed on such premises to be collected at least at the close of every working day.

13. *Water for Cleansing.*—He shall cause the premises to be constantly supplied with clean water and appliances sufficient for thoroughly cleansing the premises and all articles, appliances, and apparatus hereinbefore required to be cleaned.

14. *Penalties.*—Every person who shall commit a breach of this By-law shall for every such breach be liable to a penalty of Ten pounds; provided, nevertheless, that the Justices or Court before whom any complaint may be made or any proceedings may be taken in respect of any such breach may, if they think fit, order the whole or part only (not being less than Five shillings) of the penalty imposed by this By-law to be paid.

(2) Where the supply is solely for other than domestic purposes, a quantity which, if charged as provided by the last preceding section, would give a sum of Five shillings for any continuous period of three months.

ALLOTMENTS IN THE TOORONGA ESTATE, AVAILABLE FOR APPLICATION UNDER CONDITIONAL PURCHASE LEASE.

THE several allotments included in the Schedule hereunder are declared available as Workmen's Homes Allotments to be taken up on Conditional Purchase Lease. Applications must be made on the prescribed forms, and will be received by the Secretary, Closer Settlement Branch, Lands Department, until Monday, 6th January, 1913, accompanied by the deposit, as shown in Schedule hereunder, for the most valuable allotment applied for. All applications lodged on or before the above date will be deemed to have been simultaneously made. The deposit includes registration fee of 5s. and lease fee of 1l.

The Local Land Board to deal with applications will be held at the Public Offices, Melbourne, on Wednesday, 15th January, 1913, at Ten a.m.

CONDITIONS, ETC.

Allotments in this Estate will be disposed of under Conditional Purchase Lease extending over a term of 31½ years.

The amount to be paid for each allotment is shown in the Schedule herewith.

Any person 18 years of age who is engaged in any form of manual, clerical, or other work for hire or reward, and is not possessed of real or personal property to a value exceeding £350, or whose salary does not exceed £220 per annum, may apply for one or more allotments, but no one can be granted more than one allotment.

No conditional purchase lease of an allotment can be granted to any person who is directly or indirectly the owner of any other land in the State, which, if Town or Suburban land, exceeds ½ of an acre, or, if Rural land, exceeds 50 acres in area.

Every application must be made on the prescribed form, and be accompanied by a deposit equal to that prescribed for the most valuable allotment applied for.

The lessee has the option of paying the whole or any portion of the balance of purchase money at the end of any half-year, and securing a reduction of the instalment accordingly.

The deposit, after deducting the sum of £1 5s. for fees, will be credited as part payment of the capital value of the allotment, and the balance of the purchase money with interest at 4½ per cent., must be paid by 63 or a less number of half-yearly instalments, calculated according to any of the tables under Division 3 of Part I. of the *Savings Banks Act 1890 Amendment Act 1896*. Each instalment will include interest upon the balance of the purchase money remaining unpaid.

The Crown grant may be issued to the lessee at the end of any half-year after the first twelve years have expired, on payment of the balance of purchase money, and will be subject to the same condition as the lease in regard to permanent residence.

A substantial residence to the value of at least £300, excluding fencing, must be erected on each allotment in accordance with plans and specifications approved by the Board's architect, and advances may be made on the £1 for £1 principle to assist lessees to build, repayable by monthly instalments, extending over a period of 20 years, and bearing 5 per cent. interest. In special cases the Board may advance the maximum amount of £250, although the value of the house which is to be erected does not exceed the £300. All such improvements are to be insured in the name of the Board.

Successful applicants, when signing the contracts for their houses, must deposit a sum of at least £50, as proof of their *bona fides*. This amount, together with the sum advanced by the Board, is paid to the contractor as the work proceeds. In the event of the sum of £250 being advanced by the Board, the monthly repayment extending over 20 years is £1 12s. 11d., and smaller advances in proportion.

All buildings must be erected under the supervision of the Board's architect, and a charge of 2½ per cent. of the total value of the buildings, &c., will be made. This amount must be paid by the lessee on completion of the contract.

Advances will be only paid on the certificate of the architect that the conditions of contract have been complied with in every particular.

The lessee must, within four months, enter into *bona fide* occupation of his allotment and reside there permanently.

The lessee cannot transfer, assign, mortgage, or sublet the whole or any part of his allotment within the first six years of the lease.

Not more than one residence or place of business shall be erected on any one allotment, and no building or verandah attached thereto shall be erected within 20 feet of the street boundary line, except in the case of business premises.

Plans and further information may be obtained from the Closer Settlement Branch, Crown Lands Office.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box on or before Thursday, 19th December, 1912.

NOTE.—No tender will be accepted unless the fee for the period as shown in the head-lines, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Thursday, 19th December, 1912, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the *Land Act* 1901 shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act* 1901, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act* 1901, or for mining purposes.
2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.
3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.
4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.
5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.
6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.
7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.
8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act* 1901 the licensee shall notify, on completion, that such improvements have been made; otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licence shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act* 1890 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

Special Conditions.

1. The period of occupation will, except where otherwise specified, be for nine months from 1st January, 1913, to 30th September, 1913.
2. The fee for the period as shown in the head-lines—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.
3. Separate tenders must be lodged for each block.
4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.
5. The highest or any tender not necessarily accepted.
6. Tenderers must give their full name and ordinary postal address.
7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.
8. The outgoing tenant has the option to remove any existing fencing within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 190, *Land Act* 1901.

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act* 1901, provides:—

1. Where a licensee under section 187 of the *Land Act* 1901 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.
2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

* Deposit of £10 required. Delivery on trucks at Wail Railway Station.

Tenders for supply of forage to more than five separate stations in any one district must be accompanied by a preliminary deposit of 10s. for each and every station tendered for except in the case of the Melbourne District, the preliminary deposit for which shall be £25 with each tender, irrespective of the number of stations tendered for, and the State Plantation at Wail, the preliminary deposit for which shall be £10. Deposits must be in bank notes, or bank drafts payable to the order of the Secretary to the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers on their application, such deposit will be forfeited in the event of the tenderer, after the time fixed for the closing of tenders, withdrawing or attempting to withdraw his tender, or of the successful tenderer failing to complete the necessary bond within a reasonable time after the acceptance is notified.

Tenderers failing to take up their accepted tenders, or failing to carry out their contract satisfactorily, will be ineligible to hold contracts for Government supplies for a period of two years.

The price must include delivery at the stations, and all charges except the bags, which will remain the property of the contractor. At stations where the bags can be at once emptied the contractor will be required to remove them when delivery is taken. At other stations, notice will be sent to the contractor when the bags are empty. Bags to be removed at contractor's expense.

For police stations, excepting the depot and institutions other than police, the successful tenderer will be required to enter into a bond for the sum of £5 per horse per station, and for the depot and other institutions a bond based on one-quarter of the total amount of the tender accepted, such bonds to be entered into within a reasonable time after the acceptance is notified. Two approved sureties are required for contracts where the sum stated in the bond is £50 and upwards, and one surety where the sum stated is under £50.

CONDITIONS OF CONTRACT.

1. The hay to be good, sound, and sweet, and properly trussed except when otherwise specified in the contract; the straw to be wheaten or oatstraw, and both to be in all respects of the best quality; oats, white or Algerian (Victorian grown), of the best description, full kernel, clean, and free from wild oats or other objectionable seeds; bran to be sound and sweet, and of the best description; chaff to be made from oatstraw of the best quality. As much forage as can be stored at any station where the storage is small will, for the convenience of the contractor, be ordered at one time.

2. The quantities stated in the schedule are only approximate, and the Government may draw either more or less than those mentioned. Should new telegraph stations be formed or additional horses be required at any station, the contractor will be required to supply the extra forage. Unless otherwise specified in the tender form the contractor may, if he desires it, terminate the contract by supplying at once the whole quantity due at the station, should the additional number of permanent horses exceed two.

3. Notwithstanding anything contained in the preceding condition, the contractors for the supply to the Police Depot may be called upon to supply any Government Departments within a radius of six miles from Melbourne, for which no contracts have been taken, and also forage for any extra horses that may be at any time stabled at the depot for police purposes, at the same rates. The contract for the supply of forage to the Military Barracks may be terminated by three months' notice being given by the Secretary to the Tender Board to the contractor of such determination.

4. Should forage duly ordered under these contracts not be delivered within forty-eight hours of the time specified in the order for delivery, it will be competent for the department to purchase the same at the risk of the contractor, from whose account any expense over and above the contract price is to be deducted.

5. In the event of a difference of opinion between the contractor and the officer receiving the forage as to the quality of the same, it is to be decided by a board of survey, composed of persons named by the head of the department ordering the supply, and the decision of the Board is to be considered final.

6. If the Board shall decide that the forage is not of proper quality, it must be immediately replaced, failing which it will be procured elsewhere, and the extra cost, if any, will be charged as in clause 4.

7. When a board of survey cannot be conveniently assembled, or when, from some other cause, injury would accrue to either party by waiting for a board of survey, the officer in charge will have the power to reject such supplies as are obviously of inferior quality, but he will be responsible to the Government for so doing; and the contractor must take back the rejected forage, and supply good in its stead, failing which it will be obtained by the officer requiring it, and the expense will be charged as in clause 4.

8. A refusal to execute orders, irregularity in the quantity or quality of the forage, or delay in delivering or replacing it when required, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding £20, as the Treasurer of the State for the time being may direct. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith.

9. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government.

10. Under no circumstances will a contractor be permitted to abandon his contract, and in the event of his failing to carry on his contract he will be held liable for any loss which the Government may sustain in consequence of such failure. In the event of a station being discontinued or any change in the supplies required, the contractor will receive the earliest possible intimation.

11. The contracts entered into under this notice are not to be considered as broken, infringed, or vitiated by the purchase by any Department of forage grown at any Government establishment.

Treasury,
Melbourne, 30th November, 1912.

W. A. WATT,
Treasurer.
