NOTE.—No tender will be accepted unless the fee for the period as shown in the head-lines, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Wednesday, 29th January, 1913, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the *Land Act 1901* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

## Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act 1901*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1901*, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act 1901* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licence shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act 1890* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

#### Special Conditions.

1. The period of occupation will, except where otherwise specified, be for twenty months from 1st February, 1913, to 30th September, 1914.

2. The fee for the period as shown in the head-lines—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. *Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.*

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 190. *Land Act 1901.*

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act 1904*, provides:—

1. Where a licensee under section 187 of the *Land Act 1901* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

A By-law of the Shire of Numurkah, made under subsection 29 of section 107 of the *Local Government Act 1903*, for prohibiting or regulating the use on any public highway of traction engines or other vehicles having projections on their wheels, and under section 594 of the said Act for regulating the conditions on which traction engines may proceed over any public highway.

IN pursuance of the powers conferred by the *Local Government Act 1903*, the President, Councillors, and Ratepayers of the Shire of Numurkah order as follows:—

## Bars, Spikes, Grips, or other Projections on Wheels.

1. No person shall use or cause or procure any other person to use on any public highway any traction engine or other vehicle having on its wheels any bars, spikes, grips, or other projections.

This prohibition, however, shall not apply to—

(a) Any traction engine used only for hauling agricultural machinery, or hauling a vehicle containing such machinery only, if the projections on the driving wheels of such engine consist only of bars at least two and three-quarter inches in width and not more than one and one-sixteenth of an inch in thickness, and the space intervening between such bars does not exceed five inches; or

(b) Any traction engine, the driving wheels of which are cylindrical and smooth-soled, and having no projections thereon other than diagonal bars of not less than three inches in width nor more than three-quarters of an inch in thickness, and extending the full width of the tire, and the space intervening between such cross bars not exceeding three inches, provided in such last-mentioned case—

I. That the owner of such engine has previously obtained from the Council, or an officer of the Council duly authorized in that behalf, a permit, in writing, specifying the public highways on which it may be used, and that the engine is being used on one of the highways so specified.

II. That the owner has agreed, in writing, to pay to the Council the cost of making good any damage done to any roadway, bridge, or culvert by such engine or any vehicle drawn by it.

III. That such engine is not being used (unless with the written consent of the Council, or an officer of the Council duly authorized in that behalf) to haul more than two vehicles, exclusive of any vehicle solely used for carrying water for such engine.

IV. That the loading of any vehicle drawn by such engine does not exceed 9 tons in weight, including the weight of such vehicle.

V. That the weight carried by any vehicle drawn by such engine (including the weight of such vehicle) does not exceed three hundredweight for each half-inch of bearing surface of the tire or felloe of each wheel of such vehicle.

## Weight of Engine, &amp;c., to be Painted thereon.

2. Every owner of a traction engine shall cause to be painted in legible letters not less than 1 inch long on a plate attached to the engine, or on a conspicuous place on the engine, the exact and true weight thereof, and the maximum weight of water and fuel necessary for its propulsion.

Person to be in Attendance whilst Engine contains in itself sufficient Motive Power to move it.

3. So long as the fires of a traction engine are alight, or the traction engine contains in itself sufficient motive power to move it, one person shall remain in attendance whilst it is on any public highway, although it is stationary.

Taking Engine across or along Bridges, Embankments, &c.

4. No person shall take any traction engine across or along any bridge, culvert, or embankment so as to meet or pass thereon any other traction engine or any person with a horse or vehicle drawn by a horse.

## Engines not to Halt on certain parts of Highway.

5. No person shall halt (unless through unforeseen circumstances, or unless actually engaged in loading or unloading) in any part of a road where the traffic way is narrowed by fences, excavations, embankments, dangerous depressions, or such like, but shall draw off at least 20 feet from the middle of the formation in the case of a made road, or the middle of the surveyed road if unmade.

## Driving Engine between Sunset and Sunrise.

7. No person shall drive any traction engine between sunset and sunrise, unless by written permission of the Council or an officer of the Council duly authorized in that behalf, defining the route to be travelled and the extended hours during which such travelling is permissible, such permission to be withdrawable at any time upon written notice to that effect being served on the owner or driver of the engine, or being forwarded to him by registered letter. No person who has received such written permission shall drive any traction engine between sunset and sunrise, unless there shall be exhibited on such engine proper and sufficient carriage or other approved lights, one at each side on the front, and one on the rear, or when a vehicle or vehicles are being drawn by such engine, then in the rear of the last vehicle.

## Wooden Planks to be carried on Engine, &amp;c.

8. No person shall use or cause or procure to be used on any public highway any traction engine unless there is carried on such engine, or some vehicle drawn by the same, at least four wooden planks, 12 inches in width, 4 inches in thickness, and at least 12 feet in length, and when crossing any bridge or culvert the driver or the person in charge of such engine shall lay down such planks, and no engine shall be permitted to cross over any bridge or culvert except on such planks.

9. The driver of a traction engine shall shut off steam immediately the driving wheels of the engine commence to skid, and he shall not start the engine again until he has taken all necessary and proper means to prevent damage being done to the highway by the skidding of the wheels.
