TENDERS FOR GRAZING LANDS.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box on or before Saturday, 27th September, 1913.

NOTE.—No tender will be accepted unless the fee for the period as shown in the head-lines, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Saturday, 27th September, 1913, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the *Land Act 1901* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the Land Acts, except under the 187th section of the *Land Act 1901*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1901*, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the Land Acts may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act* 1901 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act* 1890 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

Special Conditions.

1. The period of occupation will, except where otherwise specified, be for twelve months from 1st October, 1913, to 30th September, 1914.

2. The fee for the period as shown in the head-lines— for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. *Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.*

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 190, *Land Act* 1901.

Plans can be seen and information may be obtained in this office.

Section 13. *Land Act* 1904, provides:—

1. Where a licensee under section 187 of the *Land Act* 1901 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

SHIRE OF DANDENONG.

REGULATION NO. 1.

A Regulation of the Shire of Dandenong numbered 1, made under subdivision 4 of Part I. of the 13th Schedule to the *Local Government Act 1903*, in force in the Shire by virtue of a By-law of the abovenamed Shire numbered 31, for the purpose of regulating the construction of crossings across or over footways and channels and the materials for making and constructing the same.

IN pursuance of the powers conferred by the *Local Government Act 1903*, the President, Councillors, and Ratepayers of the Shire of Dandenong make the following Regulation, which shall apply to and have operation throughout the whole of the Shire of Dandenong:—

1. Every crossing over any footway shall be flush with the surface of the footway for one-third of the width of the footway, and shall then fall with a regular inclination to the level of the bottom of the channel.

2. Every crossing may be depressed towards the centre thereof for drainage purposes to a depth of 4 inches below the level of the footway.

3. No crossing shall be of a less width than 9 feet, and shall extend for the full width of the footway between the building line of the street and the kerb line, but if

the channel is not pitched then the crossings shall extend for a further distance of 3 ft. 9 in. beyond the kerb line.

4. Every crossing (except as hereinafter provided for) shall be constructed of squared bluestone pitchers with smooth tops, 9 inches wide, 6 inches deep, and from 12 to 16 inches in length; such pitchers shall be laid in straight and parallel courses in the line of the footway, and shall be finished at each end of the crossing with a string course, laid at right angles to the other courses. The pitchers shall be bedded on 3 inches of coarse sand, with close joints properly grouted with sand run in with water, and the pitchers rammed to a solid and even bearing with a heavy pavior's rammer.

5. Where crossings are only used for such traffic as the Council may determine to be light traffic, they may be laid down with gravel, tar-paving, or such other material as the Council may approve.

6. The Council may grant permission for temporary crossings to be laid down for the purpose of carting building or other materials over the footways or water channels. In all such cases the surface of the footway and channel shall be adequately protected by being covered with battens or planks laid on the surface and firmly secured in position, and so laid as not to cause any obstruction or to be a source of danger to pedestrians using the footway. Temporary bridges shall be placed over the water channels, but so as not to obstruct the water way, and all such bridges shall be kept clear and free from obstruction.

7. Wherever it is necessary from any cause that a bridge should be placed over any water channel for access to any private property, the same shall be constructed in accordance with the plan to be submitted by the owner and approved by the Council, and deposited at the Town Hall.

Such bridges for foot traffic shall be constructed of hardwood battens not less than 3 inches deep and 2 inches wide, spaced 1 inch apart, and bearing on angle-iron bearers not less than 2½ inches by 2½ inches by ¾ inch, and firmly secured thereto by iron straps or dog-spikes, such bearers to be spaced not more than 5 feet apart and to be kept in position by ½-in. iron bolts passing through the bridge from side to side. For wheeled traffic such bridge shall be constructed of hardwood battens 3 inches deep by 2 inches wide, placed 1 inch apart, and bearing on 1-in. by 1½-in. rolled steel joists 2 ft. 3 in. apart, firmly secured at ends of battens by iron straps secured on top of battens through same to the joists by ½-in. bolts. Every such bridge shall be built of sufficient capacity to freely pass all water down the channel. The top of such bridges shall finish flush with the level of the footway.

8. Wherever it is necessary for access to private property that a culvert should be placed in any water channel, such culvert may be built subject to the approval of the Council. Such culvert shall be constructed of stoneware or concrete drain pipes with watertight joints, or of brickwork built in Portland cement mortar, with redgum cover, and of such size as the engineer may direct. The inclination or fall of such culverts shall be the same as that of the water channel in which they are laid. Every such culvert shall be built of sufficient capacity to freely pass all water coming down the channel. The ends of such culverts, if constructed of pipes, shall be finished with a facewall at each end, constructed of either brickwork or of redgum planks 3 inches in thickness, shaped to fit the end of the pipes.

9. No person shall build, lay down, or construct any crossing, bridge, or culvert over or across any footway or water channel in the Shire without the written permission of the Council first had and obtained, and every crossing, bridge, or culvert shall be built, laid down, or constructed in accordance with this regulation and to the satisfaction of such officer as the Council may appoint for that purpose.

Resolution for passing this Regulation agreed to by the Council on the 30th day of June, 1913, and confirmed on the 25th day of August, 1913.
