29. The mover of an original proposition, but not of an amendment, shall have a right of reply, immediately after which the question shall be put from the chair; but no other Commissioner shall be allowed to speak more than once on the same question, unless permission be given to explain, or the attention of the chairman be called to a point of order.

32. If a debate on any motion moved and seconded be interrupted by the number of Commissioners present at a meeting becoming insufficient for the transaction of business, such debate may be resumed, at the point where it was so interrupted, on motion upon notice.

33. If a debate on an order of the day be interrupted by such insufficiency of number of Commissioners as aforesaid, such order may be restored to the notice-paper for a future day, on motion upon notice; and such debate shall be resumed at the point where it was so interrupted.

34. Minutes of proceedings of committees shall be entered in the committee's minute book, and, being signed by the Chairman of Committee, shall be presented to the Trust.

42. No appointment shall be made to any permanent office at the disposal of the Trust until seven clear days' public notice has been given by advertisement in one or more newspapers circulating in the waterworks district, inviting applications from qualified candidates for the same.

43. The salary or allowance attached to every office and place at the disposal of the Trust shall be fixed before the publication of the advertisement inviting applications as aforesaid, and shall be specified in such advertisement.

44. In case of security being required for the faithful performance of any duty or contract, the expense of preparing such security shall be borne by the person providing the same.

45. The secretary shall have the custody of the common seal, and shall be responsible therefor. Impressions may be made only by order of the Trust, and shall be verified by the signatures of two Commissioners and the secretary.

All fittings must be of good quality, and of strength to bear with safety the maximum pressure to which they may be subject. Connexions with the pipes of the Trust must be made with proper stop-cock screwed ferrules, and with 2 feet of lead piping with brass unions. One service-pipe only, for domestic supply, to each tenement will be permitted. The maximum size of service-pipes, unless by special consent of the Trust, shall be—for tenements of annual value not exceeding £20, $\frac{1}{2}$ -inch bore; for tenements exceeding £20 annual value, $\frac{3}{4}$ -inch bore. All service-pipes on private property shall be at a depth of not less than 10 inches below the surface of the ground.

6. All connexions between lead and iron pipes must be made with brass union couplings, all joints connecting lead pipes must be "wiped" joints; in no case will "bolt" or "copper bit" joints be allowed on service-pipes, either in the interior or on the exterior of any building or tenement, on pain of cancellation of the licence of the

plumber affixing the same. A high-pressure screw-down stop-cock shall be fixed on each service between the main and the building line, and at a uniform distance of 3 feet from the building line, properly secured and covered with an approved cast-iron cap.

7. The service-pipes from the mains being the property of the owners or occupiers of the tenements supplied by such service-pipes, the occupier or owner shall, in every instance in which any damage is caused by reason of such service-pipe being leaky, or otherwise out of repair, or broken, be guilty of an offence.

8. If any person neglect to repair any service-pipe conveying water from the pipes of the Trust into the premises of such person after having received notice from the proper officer of the Trust that such service-pipe requires repairing, the Trust may stop the water from flowing into such premises, either by cutting off the service-pipe or otherwise, as to the Trust may seem fit, until the necessary repairs have been effected.

9. The Trust may at any time, when found necessary, repair or renew any pipes and stop-cocks laid for conveying a supply of water to any tenement, and may charge the owner thereof with the cost and expense of providing and laying, repairing, or renewing the same; and such cost and expense shall be a debt due by such owner to the Trust, and shall be recoverable in any court of competent jurisdiction.

10. No hose or pipe shall be attached to any pipe or tap for the purpose of watering ground, or trees, or plants, or washing house walls or carriages, or for any similar purpose, except where the water is charged for by measure. Syphon pumps will not be allowed except where the water is supplied by measure.

11. Any person receiving water from the Trust who shall take and carry away such water from his premises, or who shall allow any person to take or carry away such water, or shall sell the same to any other person, shall be guilty of an offence.

12. Any person not having agreed to be supplied by the Trust who shall take or carry away water from any drinking tap, trough, or private or public service-pipe, shall be guilty of an offence.

13. No meter for measuring the water supplied to any tenement shall be affixed until it shall have been examined, tested, and approved by the proper officer of the Trust. Every such meter shall be capable of registering at least 1,000,000 gallons. The Trust will, if it so think fit, but not otherwise, affix and let for hire water meters, the rent for which shall be at the rate per annum of—

For $\frac{1}{2}$ -inch meter, Four shillings;

For $\frac{3}{4}$ -inch meter, Five shillings;

For any meter of larger size than $\frac{3}{4}$ -inch, 6 per cent upon the cost of such meter, fixed complete.

Such rents shall be exclusive of and in addition to the amount chargeable for the recorded consumption of water, and shall become due and be paid half-yearly, in advance, on the first day of the months of January and July in each year. Such hired meters shall be kept in repair at the cost of the Trust, except as to external injuries, the cost of repairing which shall be borne by the hirer.

14. In the event of the hirer being dissatisfied with the registering of a meter hired from the Trust, he may, by notice, in writing, require the Trust to cause such meter to be removed and tested; and, together with such notice, shall forward a sum of Ten shillings, which, if the meter be found to register correctly, shall be applied in paying the cost of the removing, testing, and replacing, and the balance, if any, shall be returned to him; but if such meter be found to fail to register, or be found to register incorrectly, it shall be repaired and replaced, or another meter shall be placed instead thereof at the cost of the Trust, and the amount deposited by the hirer shall be returned to him. Any person so hiring a meter from the Trust, who shall cease to occupy the premises on which such meter is fixed without having previously given, in writing, at least six days' notice to the Trust of his intention to do so, shall be guilty of an offence.

15. If any meter cease registering, or be found to be out of repair, or registering inaccurately, the Trust may estimate and charge for the water consumed during the period such meter was not in working order and until repaired and re-fixed, by taking it as equal to the quantity used during the previous quarter, or during the corresponding period of the previous year.

16. Meters used for measuring the water supplied to consumers, other than such as are hired from the Trust, will be tested on delivery thereof at the office of the Trust; a fee of One shilling shall be charged for each test.

17. The Trust, by its officers, may, at any time, after six days' notice, in writing, of its intention, attach a check meter to the service-pipes of any consumer, either inside or outside the premises of such consumer; and may, for such purpose, enter such premises at any time between the hours of Ten in the forenoon and Four in the afternoon, and then and there do all things necessary therefor.

18. Any person supplied with water by the Trust who shall wilfully or negligently allow such water to run to waste shall be guilty of an offence; and, in the event of

continuing the same, shall be guilty of a further offence for each day, after notice from the Trust, on which such waste is continued.

19. All water troughs supplied from the pipes of the Trust shall be lined with metal, so as to be watertight, and shall have proper and efficient fittings for supplying them. All such troughs and fittings shall be kept in proper order and repair.

20. Baths supplied from the pipes of the Trust, except when the supply is by measure, must not exceed 6 feet 3 inches in length along the centre line, by a mean width of 2 feet, and a depth of 1 foot 9 inches, with ends sloping inwards. Overflow pipes to baths will not be permitted.

21. Any person, whether licensed or not, connecting any service-pipe or branch service-pipe with any steam boiler for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, shall be guilty of an offence.

22. Water closets and urinals will not be allowed to be supplied direct from the pipes of the Trust, but from a cistern only, so constructed that the water cannot flow continuously, and that not more than two gallons can escape at one flush; the supply thereto shall be by measure.

23. The streets shall not be watered from hydrants or fire-plugs by means of a nozzle, but by carts or by some method approved by the Trust.

24. Channel flushing and filling of public baths will be permitted only between the hours of Ten o'clock p.m. and Six o'clock a.m.

25. Any person, having received a supply of water from the Trust, allowing any other person who has not agreed to be supplied by the Trust to use such water, shall be guilty of an offence; and any such last-mentioned person so using such water shall be guilty of an offence.

26. If any person supplied with water by the Trust does, or causes to be done, anything in contravention of this By-law, or fails to pay any rates or charges lawfully due by him, or fails to do anything which under this By-law ought to be done, or wilfully or negligently allows water to run to waste, the Trust may, in addition to any other remedy, cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of complaint remains or is not remedied.

27. Any person guilty of an offence against this By-law shall be liable to a penalty not exceeding Five pounds, recoverable summarily before any court of competent jurisdiction.

28. In the construction of this By-law the word "person" shall extend to and include a corporation, whether aggregate or sole. The expression "proper officer" shall mean an officer or servant of the Trust authorized to perform any act or to accept service of any notice or to execute any function on behalf of the Trust.

(a) For use in any rateable tenement which includes, or in part consists of, a garden attached to and used in conjunction with a dwelling, and cultivated only for growth of flowers, ornamental shrubs, vegetables, fruit, and the like, for the use and enjoyment of the inmates of such dwelling, and not for trade purposes, the charge shall be Sixpence per thousand gallons for all water supplied to such tenement in excess of the quantity which, at the rate of One shilling per thousand gallons, would be equal to the sum payable in respect of such tenement under the provisions of any By-law of the Trust for

making and levying rates; provided that such excess be used solely in the cultivation of such garden and for the growth of plants therein.

- (b) For building purposes, in the case of buildings not exceeding £300 of estimated capital value, the charge shall be Ten shillings for the first three months from the date of connecting with the pipes of the Trust, and Ten shillings thereafter for every three months or part thereof. In the case of buildings exceeding £300 of estimated capital value, the supply shall be by measure only.

- (c) For private water troughs the charge shall be Twenty shillings per annum each, except where the Trust shall decide that the supply shall be by measure, in which case the minimum quantity to be charged for shall be 20,000 gallons per annum.

2. The minimum quantity of water to be charged for in each case where water is supplied by measure from the pipes of the Trust shall be as follows:—

- (a) Where the supply is for domestic as well as for other than domestic purposes, the quantity which, if charged for at One shilling per 1,000 gallons, would produce a sum equal to that payable in respect of the premises so supplied under the provisions of any By-law of the Trust for making and levying rates if such premises were supplied otherwise than by measure.
- (b) Where the supply is solely for other than domestic purposes, 30,000 gallons per half-year.

10. For water supplied to any house or tenement upon which no annual municipal value is made, the sum of One pound ten shillings (£1 10s.) per annum.
11. All water supplied by the Trust by measurement shall be charged for at the rate of One shilling and threepence (1s. 3d.) per thousand (1,000) gallons, but in no case shall the amount to be paid be less than that which would be payable for the premises under its municipal assessment.
12. For every public water trough supplied with water from the works of the Trust, the sum of One shilling (1s.) per annum shall be paid.
13. All public water troughs must be fitted with approved self-acting taps to prevent overflow; such taps to be approved by the secretary for the time being of the said Trust.
14. It shall be unlawful for any person to have an overflow waste pipe from any private bath.
15. The Trust may by notice, in writing, intimate to any owner or occupier using water for other than domestic purposes solely that the water supplied is to be charged by measure, and may by such notice require such owner or occupier to provide a meter within fourteen days after the receipt of such notice; and thereupon such owner or occupier shall, within the time specified, at his own expense, provide a meter.
16. No meter shall be affixed until it shall have been examined and approved, and a certificate from the Board of Works or other authorized person be produced for the inspection of the secretary of the Trust for the time being that such meter is in proper order.
17. Every person requiring to remove or alter the position of any meter shall give six days' notice, in writing, to that effect to the Trust, and a regulation of the quantity of water used shall be taken before such removal or alteration is made.
18. If any person who has provided any meter fail to give the notice required of any repairs required for such meter he shall be liable to a penalty not exceeding Five pounds (£5).
19. If any person refuse or delay to have such meter properly repaired and put in correct working order after having been required by any officer of the Trust so to do, the Trust may shut off the supply of water from the premises of such person, either by cutting the service-pipe or otherwise, until such meter shall have been properly repaired and certified by some officer of the Trust as being in proper working order.

20. Any person supplied with water by the Trust who shall wilfully or negligently allow the same to run to waste, or who shall use or allow the water to be used in an unauthorized manner, or who is in arrears with the payment of his water rate, the Trust may, after one hour's notice, cut off the supply of water from the premises of such person either by cutting the pipes by or through which the water is supplied or by any other means that are available, and may cease to supply such premises with water so long as the Trust may think fit.

21. It shall be lawful for any person appointed by the Trust for such purpose to request permission from any owner or occupier to make an inspection of the water service to ascertain if water is being allowed to run to waste, and, if such occupier or owner refuse permission for such inspection, the Trust may, if it think fit, refuse to supply such premises with water; and such refusal on their part will in no way relieve the owner or occupier from payment of any rate or rates as may be levied on such property.

22. If the person appointed for such inspection shall ascertain that any owner or occupier is allowing water to waste by reason of leaky taps or otherwise, he shall be empowered to authorize the repair of such taps or pipes and to notify such owner or occupier that the waste of water must at once cease.

23. NOTE.—No tender will be accepted unless the fee for the period as shown in the head-lines, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Saturday, 20th December, 1913, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the *Land Act 1901* shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act 1901*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act 1901*, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 180 of the *Land Act 1901* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act 1890* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

Special Conditions.

1. The period of occupation will, except where otherwise specified, be for twenty-one months from 1st January, 1914, to 30th September, 1915.

2. The fee for the period as shown in the head-lines—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.
6. Tenderers must give their full name and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing within one month or to require the incoming tenant to pay for it in accordance with the provisions of section 190, *Land Act* 1901.

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act* 1904, provides:—

1. Where a licensee under section 187 of the *Land Act* 1901 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.
