- (b) They must furnish satisfactory evidence of good moral character.
- (c) They must produce a certificate from an inspector of schools, or from the head master of a district high school, or higher elementary school, or other approved school, that they exhibit aptitude and general suitability for the work of a teacher.
- (d) Before appointment as junior teachers, candidates must submit a certificate from a schools medical officer or medical practitioner approved for this purpose by the Director, that they are of sound constitution and are free from any physical defect likely to impair their usefulness as teachers.

When the number of such qualified pupils, however, exceeds the number of vacancies for junior teachers, appointments cannot be guaranteed. Qualified pupils not appointed as junior teachers by reason of there being an insufficient number of vacancies shall be recorded for vacancies which may arise during the year next succeeding the annual examination at which they qualified for appointment.

When a vacancy exists for a junior teacher and there is no candidate qualified as in any clause above, the vacancy may be filled by the appointment of a candidate having the highest qualifications, and who in the opinion of a district inspector is qualified for such a position. If it is considered necessary, the appointment shall be determined by competitive examination.

7. (a) Junior teachers will be divided into four classes.

11. The conditions necessary for the promotion of junior teachers to the Third Class shall be as follow:—

- Content of and methods of teaching the subjects set out in the course of study for Grades V., VI., VII., and VIII. in State schools, and the Director's notes thereon.
- Circulars of Information, Nos. 5, 7, 8, 9, and 10.
- Method of preparing notes of lessons, and the preparation of such notes in the case of the subjects indicated under (a) above.
- Method of criticising lessons.
- Directions for filling in the School Registers.
- Class drill and physical and breathing exercises, as for Grades V., VI., VII., and VIII.
- Phonics, voice production and blackboard writing.

Practice of Teaching.—

- To give a satisfactory lesson in arithmetic, grammar, composition, or to prepare notes of, and to give a lesson on, a subject approved of by the inspector; phonics and voice production; class drill; physical and breathing exercises, and singing.
- Reading.—To read with distinct articulation, fluency, and expression, prose and verse from a book or newspaper.

Head teachers should draw the attention of the district inspector to any marked irregularity, unpunctuality of attendance, or unsatisfactory work on the part of junior teachers.

Junior teachers may be enrolled for instruction in special classes in high schools, to be held at suitable times in the afternoons or evenings, and on Saturdays. Attendance at these classes will be held to satisfy the requirements of Regulation XI., so far as applicable to the subjects taught in the special classes, but head teachers are required to supplement the work given at a high school by supervising the individual preparation prescribed for the students in any subject.

Special attention is called to the necessity for carrying on systematically the practical training of junior teachers in the art of teaching throughout the year.

To ensure efficient practical training, the following course is considered necessary, and should be followed in schools in which junior teachers are employed:—

- Previous preparation by student teachers of at least two of the lessons they will be called upon to give next day. Brief notes indicating in outline the matter and the method of presentation should be kept.
- Preparing full notes of and giving ten criticism lessons under the supervision of the head teacher or the assistant in charge of a department.
- The giving of ten example or demonstration lessons by the head teacher or other teachers of experience and skill. These lessons should not be criticised. A list showing the names of the teachers, the subjects treated, and the time of the lessons, should be suspended in the office for the inspector's perusal.

Of these (a) may be omitted on those days when the junior teacher attends evening classes.

Ten of these lessons should be given during the year, i.e., one in each month, from February to November inclusive, and the lesson should be given on the first Tuesday in each month, or on some other day in the same

week as sanctioned by the district inspector, commencing at 11.45 a.m. On this day, the usual morning recess will be dispensed with in all classes. If, on the day appointed for the example lesson, the school is closed, the lesson should be given on the next school day. On such occasions, the school, with the exception of the class to be taught, should be dismissed for the morning at 11.45; but all members of the staff should be present as auditors while the lesson is being given. They are not to be employed in any other duties while these example lessons are in progress.

Should any teacher find the afternoon a more convenient time than the morning, such lessons may commence after the school has been in session two hours; and on such occasions the school may assemble at 1.15 p.m.

A Junior Teacher Record Book will be forwarded to each school in which a junior teacher is employed. In this book the following information should appear:—

- Record number of each junior teacher.
- Name in full.
- Date of appointment.
- Classes taught and period spent with each.
- Quarterly report of head teacher on general progress and teaching proficiency.

These reports of the head teacher will be considered in the case of each candidate (junior teacher) due for promotion.

In order to afford junior teachers who have passed in the literary work for promotion to the First Class opportunities for acquiring experience and practical skill in the management of small schools, it is requested that head teachers will afford such junior teachers in the metropolitan area an opportunity of visiting a practising school for at least one day in each quarter, or a week continuously during the last year of their course. Similar facilities should be granted to any First-class junior teacher who has not had an opportunity of observing, and acquiring skill in the working of, small schools. Ample notice of intention to send visitors to a practising school should be sent to the head teacher of such school. Junior teachers will be required to take part, if deemed necessary, in the work of the school visited, and to enter in the time-sheet of such school the time of their arrival and departure.

A junior teacher should, during his course of training, be afforded an opportunity of teaching in each department in the school, and should be required to study and prepare notes upon the programme of instruction for each grade. The head teacher should see that all circulars and notices in the *Education Gazette and Teachers' Aid* are studied by his junior teachers.

Teachers and junior teachers who wish to appeal against the result of any examination must lodge such appeal within fourteen days of the date of the notification of such result, and must forward, with their appeal, the sum of 2s. 6d. This sum will be returned if good grounds for appeal are shown, otherwise it will be retained.

Complaints that failure at examination has arisen from curtailment of the time specified or from illness of the candidate, will not be taken into consideration unless, at the time, the attention of the inspector conducting the examination is called to the matter.

REGULATION X (B).

Candidates for appointment as Sewing Mistresses in State elementary schools shall not be less than seventeen years of age; they must hold the Merit Certificate or possess some qualification approved as equivalent by the Director, and must furnish, with their applications, satisfactory evidence as to good character and suitability, and, prior to appointment, as to sound health.

The inspector shall arrange the names of the candidates in their order of merit as determined by the examination, and report to the Director for the information of the Committee of Classifiers, who shall enter in the *Employment Register* the name of the first candidate, provided she prove duly qualified.

NYAH IRRIGATION SETTLEMENT.—HOMESTEAD ALLOTMENTS AVAILABLE FOR SELECTION UNDER CONDITIONAL PURCHASE LEASES.

The time for receiving applications for this land has been extended to 30th April, 1914.

THE land is situated at Nyah, on the River Murray, about 17 miles north-west from Swan Hill.

Applications (with uncanceled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Officer, or to the Secretary for Lands, Melbourne, on or before Thursday, 30th April, 1914.

Every application must be accompanied by a deposit equal to the first instalment of the purchase money and the lease fee £1.

An applicant can, however, apply for more than one holding, and will only be required to lodge the deposit payable in respect of the most valuable allotment applied for, together with one registration fee of 5s. which covers all applications made.

Only one holding can be granted to any one person.

Improvements must be effected on the allotment to the value of not less than £50 within one year from the date of the lease, and additional improvements to the value of not less than £50 each year, before the end of the second and third years, from the date of the lease, unless the improvements already on the land are of the required value.

The lessee or grantee or owner must permanently reside on the allotment for at least eight months during each year.

Personal residence by the lessee's wife, or any of his children over 18 years of age, may, with the approval of the Minister of Lands, be considered personal residence by the lessee.

During the first three years of the term of the lease, the condition as to residence shall be deemed to be complied with for such period or periods as may be specified by the Minister of Lands during which some person named by the lessee, and approved by the Minister of Lands prior to commencement of his residence, resides on such allotment.

The term of the lease is 31½ years, and the lessee cannot transfer, assign, mortgage, or sublet his holding within the first six years of the lease.

The Crown grant may be issued at any time after the expiration of twelve years from the date of the lease, provided all conditions have been complied with, and the full purchase money has been paid.

All applications received will be dealt with by a Local Land Board, the date and place of hearing will be hereafter notified.

The irrigation charges will be about One pound ten shillings per acre per annum. During first year one-fourth, during second year one-half, and during third year three-fourths of full charge will be made.

The terms of payment for improvements shall be subject to the recommendation of the Local Land Board.

Plans may be obtained at the Enquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Bonalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

Applicants may obtain from a Local Land Officer, or the Enquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket at excursion fares to enable them to inspect the land, or to attend the Local Land Board.

Commissioner of Crown Lands and Survey.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box on or before Monday, 27th April, 1914.

NOTE.—No tender will be accepted unless the fee for the period as shown in the head-lines, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Monday, 27th April, 1914, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the Land Act 1901 shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the Land Acts, except under the 187th section of the Land Act 1901, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the Land Act 1901, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the Land Acts may think fit.

3. This licence is subject to the rights of the holder of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act 1901* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licence shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act 1890* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants were in any way responsible therefor.

Special Conditions.

1. The period of occupation will, except where otherwise specified, be for seventeen months from 1st May, 1914, to 30th September, 1915.

2. The fee for the period as shown in the head-lines—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. *Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.*

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing within one month or to require the incoming tenant to pay for it in accordance with the provisions of section 190, *Land Act 1901*.

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act 1904*, provides:—

1. Where a licensee under section 187 of the *Land Act 1901* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

10 per cent. on total amount of tender accepted, except when otherwise specified in the tender form, but in no case will security of less than £5 be received

Security will be required, either in Victorian Government Debentures, Savings Bank Deposit Book, or Bank Deposit Receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, then his tender is to be in the name of the firm and not in that of the individual; and that for breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for ——" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne.

CONDITIONS OF CONTRACT.

1. The Government will not be bound to order from the contractor all the articles enumerated in the schedules, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the quantity stated in the schedule, the contractor will nevertheless be bound to supply the same at contract rates.

2. The supplies are to be the same as sample where so stated, and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. The supplies are to be the best quality of their several kinds or manufacture. Substantial and effective preference will, however, be given to goods of Commonwealth manufacture, provided the quality is satisfactory and is equal to the particular manufacture indicated in the schedule. Preference will also be given to articles of British manufacture as against those of foreign manufacture.

3. Except where otherwise stated in the schedule, the value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., to be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c. The net weight or quantity only will be paid for. Contractors must provide, without extra charge, whatever labour may be required in the packing of stores.

4. All orders for supplies will emanate from the departments requiring the goods. The goods shall be delivered as may be directed by the officer ordering the supply. At the time of delivering the supplies, the contractor shall produce the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the stores accepted, and shall return the order to the contractor.

5. Supplies ordered for delivery in Melbourne and Williamstown are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of these contracts, Melbourne district will include a radius of six miles from the General Post Office, and Williamstown district will include the Town of Williamstown, Hobson's Bay, and the River Yarra. Supplies for s.s. John Murray must be delivered at the Railway Pier, Port Melbourne.

6. Arrangements as to time of delivery and inspection of goods will be made by the officers ordering the goods.

7. Orders must receive prompt execution; and in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officer named in Clause 6, or the head of the Department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account or from the security money.

8. The contractor will be required to furnish his account in the prescribed form at the time of the delivery of the goods, and the account shall be accompanied by the receipted delivery orders on which it is based. The prices quoted in the orders cannot be increased.

9. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores, or such other officer as shall be named in the conditions. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four hours after objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, any deficiency or defect is discovered therein, such stores may be returned to the contractor.

10. All goods forwarded under these contracts shall, where practicable, be forwarded by rail, and all consignments shall bear the number of the consignment notes under which they are forwarded, and also the name of the contractor or contractors by whom consigned, on a legibly written business label.

Schedules as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

In certain schedules where doubt exists as to whether the articles enumerated may or may not be manufactured within the Commonwealth, double columns are inserted for the rates, "A" for articles manufactured within the Commonwealth and "B" for articles manufactured elsewhere.

Preference will be given by the Tender Board to tenders for articles manufactured within the Commonwealth, provided the quality of such articles is equal to the particular manufacture indicated in the schedule and the rates charged are considered reasonable. Preference will also be given to articles of British manufacture as against those of foreign manufacture.

Tenders must be accompanied by the preliminary deposit, as shown above, in bank notes, or a bank draft in favour of the Secretary to the Tender Board (cheques will in no case be received), which will be returned within ten days to unsuccessful tenderers on their application.

11. When the contractor is required to make delivery of goods at a railway station for transmission by rail for any department except the Commonwealth Departments, he shall obtain a receipt for the goods in duplicate on the Stores and Transport consignment note, at the same time handing in a triplicate of the form as an authority for the Railways to act as agent for, and charge the freight to, the Stores and Transport Department or such other department as shall be named therein. He shall as soon as possible, and not later than twenty-four hours thereafter, deliver at the Tender Board Offices the original, the duplicate to be forwarded to consignee in accordance with Clause 12. (In the case of the Commonwealth Departments, however, the Commonwealth consignment note only which accompanies the order must be used.) Should the goods thus forwarded be rejected, the contractor must bear the cost of replacing such goods, for which service the departmental consignment note is not to be used. Any infringement of this condition will subject the contractor to such mulct as the Tender Board may recommend under Clause 16 of these conditions.

12. Immediately after the consignment of the goods to the officer to whom they are forwarded shall be notified by the contractor, on the duplicate consignment note provided for the purpose, that the goods have been sent. On receipt of this document the officer to whom it has been forwarded shall acknowledge thereon the receipt of the goods without delay, to the Stores and Transport Office. In the event of loss through failure on the part of the contractor to comply with this condition he will be held responsible, and the amount of the loss incurred for same will be deducted, as in Clause 7.

13. Should the order on the contractor specially provide that goods of a fragile character, or such as are liable to suffer loss by leakage, shall be consigned at the risk of the Railways Commissioners under special freight conditions, the contractor shall in such instance provide, in writing, on the consignment note an intimation to that effect, failing which, in the event of loss, he shall bear the whole cost of replacing the goods, the amount being deducted from the contractor's account or the security money.

14. Delivery will not be deemed to have been made until the goods have been approved of. In case of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or returned, otherwise purchases will be effected at the contractor's risk, and the extra expense deducted as in Clause 7.

15. The members of boards of survey will be appointed by the Treasurer of the State for the time being, and the decision of the board is to be considered as final. If the board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which it, or any like supply that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in Clause 7.

16. A refusal to execute orders, irregularity in the quantity or quality of the supplies, delay in delivering or replacing them when required, or non-compliance with the terms of Clauses 11 and 12 of these conditions respecting the forwarding of consignment notes, &c., will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds, as the Treasurer may direct, and the amount may be deducted as in Clause 7. It will also be in the power of the said Treasurer, upon such refusal, irregularity, or delay, to terminate the contract forthwith, and declare forfeit the whole or any portion of the security money; and, in addition, the contractor will be disqualified from tendering or holding any future contract or contracts for a period of twelve months from the date of such disqualification.

17. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognised by the Government. If it is found during the currency of the contract that the contractor has not conformed to the condition of advertisement—which stipulates that if a tenderer be a member of a firm, and such firm be interested in the contract, then the tender is to be in the name of the firm, and not in that of the individual—then the Honorable the Treasurer may, on the recommendation of the Tender Board, determine the contract, and forfeit the security money.

18. The contracts entered into under this notice are not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service, or by any contracts or purchases made by the Imperial Commissariat or Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of Public Works, or State Rivers and Water Supply Commission, or on account of the Federal Government, or for the Railway Department, or for supplies for Technical High or Higher Elementary Schools, or for the Metropolitan Parks and Gardens, or for supplies to the Aborigines, or for connexions and fittings for Diamond Drills and Batteries; or by any article being made at and supplied for the use of any Government establishment, or by the consumption of the surplus stock of any Government establishment.

19. For the purpose of the contracts entered into under these conditions, it is hereby expressly provided that in the event of any alteration in the Tariff affecting any of the items included in these contracts, the Government or the contractor (as the case may be) may give two months' notice, through the Secretary to the Tender Board, of the termination of the contract for the particular item or items so affected to the opposite party, it being understood that such notice can only be given from the first day of the month, and within the period for which the contract is made. The contract for the unaffected items to remain in full force and effect. Any notice to be served under this condition shall be deemed to have been duly served, if sent to the contractor in a registered letter at his last-known place of business or abode.

20. As regards Contracts for Supplies used expressly for the Defence Department, however, it will be competent either for the contractor, on his own behalf, or for the Secretary of the Tender Board, on behalf of the Government, to terminate the whole or any item of the contract by giving three full calendar months' notice, in writing, to the opposite party, it being understood that such notice can only be given as in Clause 19.

21. Under no circumstances other than those mentioned in Clauses 19 and 20 will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited; and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.

22. For the purposes of these contracts the word Government shall mean Government of the Commonwealth as regards supplies for the Commonwealth, and Government of the State as regards supplies for the State; and the word Treasurer shall mean Treasurer of the Commonwealth as regards supplies for the Commonwealth, and Treasurer of the State as regards supplies for the State.

23. No subletting will be allowed; all work must be carried out in the factory of the contractor; the terms of employment of any person engaged in the preparation or manufacture of the articles tendered for in these schedules, and the wages paid to any such person shall be in accordance with and subject to the terms and conditions specified in the schedules concerned; and a copy of the labour clauses thus indorsed on the schedules affected shall be kept conspicuously and continually posted, in legible Roman characters, in the factory (and in each part of the factory where several rooms are in use) in which goods are prepared or manufactured under this contract. Any infringement of these conditions, in the opinion of the Treasurer, will subject the contractor, upon report from the Tender Board, to such mulct, not exceeding Fifty pounds (£50), as the Treasurer may direct, and the amount will be deducted from the contractor's account or from the security money; and the Treasurer's decision shall be binding, final, and conclusive as to the fact of infringement and in all other respects.

24. The Contractor shall, before any account is passed for payment for services rendered, furnish a statutory declaration that all the workmen under this contract have been employed in accordance with Clause 23 of these conditions, and have been paid not less than the minimum rate of wages for such workmen as is provided for under that clause.
