NOTICE BY THE MINISTER OF PUBLIC WORKS OF INTENTION TO OBTAIN AN ORDER IN COUNCIL UNITING THE SHIRE OF MOUNT FRANKLIN WITH THE SHIRE OF GLENLYON.

It appearing on the joint report of two Inspectors of Municipal Accounts, dated the 28th day of January now last past, that general and extra rates made and levied by the Shire of Mount Franklin during the twelve months ended the 30th day of September, 1914, did not yield a sum of £1,500, notice is hereby given that it is the intention of the Minister of Public Works, at the expiration of three months from the date of this notice, to proceed to obtain an Order in Council, under the powers conferred by the *Local Government Acts Amendment Act 1914*, to unite the said Shire of Mount Franklin with the Shire of Glenlyon.

Dated at Melbourne this 20th day of May, 1915.

F. W. HAGELTHORN,
Minister of Public Works.

ROMAN CATHOLIC CHURCH.—POWER TO DISPOSE.—LAND AT BITTERN.

A STATEMENT of Trusts having been submitted by the head or authorized representative of the denomination known as Roman Catholic, under the provisions of the "*Act to provide for the Abolition of State Aid to Religion*," for allowance by the Governor, the same was allowed by him on the eighteenth day of May, 1915, and the following is the form in which such statement of trusts has been allowed:—

Description of Land.—One acre two roods, county of Mornington, parish of Bittern, being allotment 108c: Commencing at the south-west angle of the allotment; bounded thence by a road bearing east two chains ninety-eight links; thence by allotment 108b bearing north three chains seventy-five links and west five chains two links; and thence by a road bearing south 28 deg. 35 min. east four chains twenty-seven links to the point of commencement.

Names of Trustees.—The Roman Catholic Trusts Corporation for the Diocese of Melbourne.

Power of Disposition.—To sell, transfer, mortgage, lease, exchange, give, grant, or dispose of the whole or any part of the said land.

Purposes to which Proceeds of Disposition are to be Applied.—To such purposes of the Roman Catholic Church in the Diocese of Melbourne as a Council of such Diocese, under the provisions of Act No. 2100, may from time to time by resolution direct.

As witness the hand of the Governor of the State of Victoria, this eighteenth day of May, 1915.

COLLECTION BY STAMPS OF THE FEES SET FORTH IN THE SCHEDULE TO THE RULES OF THE SUPREME COURT OF VICTORIA.

At the Executive Council Chamber, Melbourne, the eighteenth day of May, 1915.

PRESENT:

His Excellency the Governor of Victoria.	
Sir A. J. Peacock	Mr. Hutchinson
Mr. Murray	Mr. Livingston
Mr. Mackinnon	Mr. Baillieu
Mr. Brown	Mr. Membrey.
Mr. Lawson	

WHEREAS by section 4 of the *Stamps Act 1890* it is provided that—

“From and after such time or respective times as the Governor in Council shall heretofore by notice published in the *Government Gazette* have appointed or shall hereafter from time to time by such notice published in the *Government Gazette* appoint the following fees, or such of them as shall have been or shall be specified in such notice or respective notices,

shall be collected by stamps, namely: All fees payable to the Crown or the consolidated revenue of Victoria or to the several officers of Government in the several Courts and offices in respect of matters or things to be done or performed under the several enactments specified in the Second Schedule hereto, and all fees payable to the Crown or the consolidated revenue of Victoria or to any officers of the Government under any other enactment now or hereafter in force, and which the Governor in Council shall by any such notice in the *Government Gazette* direct to be collected by stamps.”

And whereas by the Rules of the Supreme Court of Victoria, dated the 20th day of August, 1914, it is ordered under the powers conferred by the *Service and Execution of Process Act 1901-12* that the fees to be paid in connexion with the service of the process of the Courts of this State under the said Act and the execution and enforcement by such Courts of the process and judgments of the Courts of other States and parts of the Commonwealth shall be those set forth in the Schedule to the said Rules:

Now therefore His Excellency the Governor of Victoria with the advice of the Executive Council thereof, by virtue of the powers conferred by the first-mentioned Act, doth, by this present Order, direct that the fees set forth in the Schedule to the said Rules be collected by stamps.

And the Honorable Donald Mackinnon, His Majesty's Solicitor-General for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,
Clerk of the Executive Council.

Country Roads Act 1912 (Act No. 2415).

ORDER APPROVING OF DEVIATION FROM A MAIN ROAD IN THE SHIRE OF PHILLIP ISLAND AND WOOLAMAI.

At the Executive Council Chamber, Melbourne, the eighteenth day of May, 1915.

PRESENT:

His Excellency the Governor of Victoria.	
Sir A. J. Peacock	Mr. Hutchinson
Mr. Murray	Mr. Livingston
Mr. Mackinnon	Mr. Baillieu
Mr. Brown	Mr. Membrey.
Mr. Lawson	

WHEREAS the Country Roads Board constituted under the *Country Roads Act 1912 (Act No. 2415)* has represented to the Governor in Council that it appears to be desirable that the deviation hereinafter referred to from the existing Korumburra-Wonthaggi road in the Shire of Phillip Island and Woolamai (declared to be a main road under the said Act which declaration was confirmed by the Order in Council published in the *Government Gazette* of the thirteenth day of May One thousand nine hundred and fourteen on page 2049) should be made by the said Board. And whereas the said Board in accordance with the requirements of section 19 of the said cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and of constructing the said deviation. And whereas on an inspection of the said map and plan and a consideration of the said estimate the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation. Now therefore be it known by this present Order that the Governor of the State of Victoria with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

A roadway generally one chain wide commencing at a point on the existing 2-chain road, about 4½ chains from the south-western angle of allotment 33, parish of Wonthaggi, thence following the existing roadway for a distance of about 67 chains, thence bearing north-easterly and northerly through allotment 28, a distance of about 25 chains to a point on the existing 1-chain roadway, thence following the said roadway for a distance of about 20 chains, thence through allotment 28A a distance of about 3 chains to the bank of the Powlett River, thence crossing the said river and across the south-eastern angle of allotment 13C, parish of Wonthaggi North, thence northerly along the 1-chain road for a distance of about 56 chains, thence north-easterly through allotment 13C a distance of 1 chain, thence north-easterly through allotment 13A a

distance of about 47 chains to a point on the existing roadway at the north-eastern angle of the said allotment, thence north-easterly through allotment 21b a distance of about 25 chains to a point on the existing roadway at the north-eastern angle of the said allotment, thence following the existing roadway in a northerly direction for a distance of about 63 chains to the north-western angle of allotment 23, parish of Wonthaggi North, thence north-easterly a distance of about 1 chain across the north-western angle of the said allotment, thence easterly along a roadway a distance of about 23 chains, thence generally northerly along a roadway a distance of about 21 chains to a point on the western boundary of allotment 29 about 6 chains in a southerly direction from its most westerly angle, thence generally northerly through the said allotment a distance of about 11 chains to a point on the existing roadway, thence following the existing roadway for a distance of about 12 chains, thence generally north-westerly through allotments 32 and 33, parish of Wonthaggi North, a distance of about 20 chains to a point on the northern boundary of allotment 33 about 5 chains westerly from its north-eastern angle, thence generally north-easterly through allotment 34 a distance of about 19 chains to a point on the existing roadway about 4 chains south from the north-western angle of allotment 35, parish of Wonthaggi North, thence in a north-easterly direction following the existing roadway a distance of about 62 chains to a point on the western boundary of allotment 40 of the said parish.

And the Honorable F. Hagelthorn, His Majesty's Minister of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

Country Roads Act 1912 (Act No. 2415).

ORDER APPROVING OF DEVIATION FROM A MAIN ROAD IN THE SHIRE OF BULN BULN.

At the Executive Council Chamber, Melbourne, the eighteenth day of May, 1915.

PRESENT :

His Excellency the Governor of Victoria.	Mr. Hutchinson
Sir A. J. Peacock	Mr. Livingston
Mr. Murray	Mr. Baillieu
Mr. Mackinnon	Mr. Membrey.
Mr. Brown	
Mr. Lawson	

WHEREAS the Country Roads Board constituted under the *Country Roads Act 1912 (Act No. 2415)* has represented to the Governor in Council that it appears to it desirable that the deviation hereinafter referred to from the existing main Neerim road in the Shire of Buln Buln (declared to be a main road under the said Act which declaration was confirmed by the Order in Council published in the *Government Gazette* of the fifth day of December One thousand nine hundred and thirteen on page 5154) should be made by the said Board. And whereas the said Board in accordance with the requirements of section 19 of the said cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and of constructing the said deviation. And whereas on an inspection of the said map and plan and a consideration of the said estimate the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation. Now therefore be it known by this present Order that the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

A road generally one chain wide commencing at the north-eastern angle of Crown allotment 17a parish of Drouin West, county of Buln Buln, and proceeding in a south-westerly and thence south-easterly direction to a point on the eastern boundary of the said allotment, and 200 links distant from the south-eastern angle thereof.

And the Honorable F. Hagelthorn, His Majesty's Minister of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,
Clerk of the Executive Council.

Country Roads Act 1912 (Act No. 2415).

At the Executive Council Chamber, Melbourne, the eighteenth day of May, 1915.

PRESENT :

His Excellency the Governor of Victoria.	
Sir A. J. Peacock	Mr. Hutchinson
Mr. Murray	Mr. Livingston
Mr. Mackinnon	Mr. Baillieu
Mr. Brown	Mr. Membrey.
Mr. Lawson	

WHEREAS by the Resolution set out below and dated the third day of May One thousand nine hundred and fifteen the Country Roads Board incorporated under the *Country Roads Act 1912 (Act No. 2415)* being of opinion that the highways in the State of Victoria set out or described in the Schedule to the same were of sufficient importance to be main roads and acting under the powers that behalf conferred upon it by the said Act declared such highways to be main roads within the meaning and for the purposes of the Act aforesaid. And whereas the said Act among other things provides that the Governor in Council might by order published in the *Government Gazette* confirm such Resolution whereupon any road mentioned in such Resolution should be a main road. And whereas it is deemed desirable to confirm the Resolution so made and passed by the said Country Roads Board. Now therefore His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth by this Order confirm such Resolution and declare upon the publication of this Order in the *Government Gazette* the roads mentioned in the Schedule to such Resolution of the Country Roads Board main roads within the meaning and for the purposes of the *Country Roads Act 1912*.

And the Honorable F. Hagelthorn, His Majesty's Minister of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,
Clerk of the Executive Council.

RESOLUTION OF THE COUNTRY ROADS BOARD ABOVE REFERRED TO.

THE Country Roads Board incorporated by the *Country Roads Act 1912 (Act No. 2415)* at a meeting now holden, being of opinion that the highways within the State of Victoria set out or described in the Schedule hereunder written are of sufficient importance to be main roads, acting under the powers in that behalf conferred upon it by the said Act doth by this Resolution hereby declare such highways to be main roads within the meaning and for the purposes of the said *Country Roads Act 1912*.

His Excellency the Governor of Victoria.

Sir A. J. Peacock,	Mr. Hutchinson
Mr. Murray,	Mr. Livingston
Mr. Mackinnon	Mr. Baillieu
Mr. Brown	Mr. Membrey.
Mr. Lawson	

WHEREAS the Country Roads Board constituted under the *Country Roads Act 1912 (Act No. 2415)* has represented to the Governor in Council that it appears to it desirable that the deviation hereinafter referred to from the existing Main Ferntree Gully-road in the Shire of Ferntree Gully (declared to be a main road under the said Act which declaration was confirmed by the Order in Council published in the *Government Gazette* of the fifth day of November One thousand nine hundred and thirteen on page 4812) should be made by the said Board. And whereas the said Board in accordance with the requirements of section 19 of the said cited Act has caused to be prepared maps and plans marked "A" and "B" respectively and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and of constructing

the said deviation. And whereas on an inspection of the said maps and plans and a consideration of the said estimate the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation. Now therefore be it known by this present Order that the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth hereby approve of the said road being made that is to say:—

"A."—All that piece and parcel of land being part of Crown allotment 14, section B, parish of Narree Worrان, county of Mornington, bounded by lines commencing at a point the most westerly angle of the said allotment and bearing respectively north 41 deg. 26 min. east 170 links, south 9 deg. 4½ min. east 202.2 links, north 62 deg. 35 min. west 170 links, back to the point of commencement.

LEONGATHA WATERWORKS TRUST.
REGULATIONS FOR THE ELECTION OF COMMISSIONERS.

At the Executive Council Chamber, Melbourne, the
eighteenth day of May, 1915.

PRESENT:

His Excellency the Governor of Victoria.	
Sir A. J. Peacock	Mr. Hutchinson
Mr. Murray	Mr. Livingston
Mr. Mackinnon	Mr. Baillieu
Mr. Brown	Mr. Membrey.
Mr. Lawson	

WHEREAS by Division 3 of Part III. of the *Water Act 1905* the Governor in Council is empowered to make regulations for the election of Commissioners of Waterworks Trusts: Now therefore His Excellency the Governor of the State of Victoria, acting by and with the advice of the Executive Council thereof, and in pursuance of the provisions of the now in part recited Act, doth for the purposes aforesaid make the following regulations for the election of Commissioners of the Leongatha Waterworks Trust.

1. Interpretation of terms.—In these regulations "the Trust" or "the said Trust" shall mean the Leongatha Waterworks Trust. "Minister" shall mean the Minister of Water Supply.
2. Period for which Commissioners shall hold office.—The period for which the Commissioners shall hold office shall be three years, and shall date on and from the date of election.
3. Extraordinary vacancies, how filled.—Should any vacancy in the office of Commissioner be occasioned by the death, disqualification, or any other cause whatever, the same shall be filled up by election under these regulations, within one month after the vacancy has occurred, and the person elected to fill such vacancy shall hold the office of Commissioner during the unexpired portion of the term of office of the Commissioner whose seat shall have become vacant.
4. Date of first and subsequent Election of Commissioners.—The first election of Commissioners under these regulations shall be held on the 21st day of July, 1915, and the ordinary election of Commissioners shall be held on the 21st day of July in each succeeding triennial year. Provided that whenever such date shall fall upon a Sunday or any day set apart as a public holiday such election shall be held upon the day next following.
5. Voters' List to be prepared.—For the purposes of the first election of Commissioners a voters' list shall be prepared in like manner to that provided by section 96 of the *Water Act 1905* in so far as circumstances will admit, on or before the 19th day of June, 1915, by the Secretary to the Trust, certified by him as correct, and such list shall be the list of voters for the said election of Commissioners, and shall remain in force, and shall be used at any subsequent election of Commissioners that may be held prior to a fresh voters' list being made out as hereinafter provided.
6. Voters' List to be prepared annually.—Before the last day of February in each year a voters' list shall be made out in the manner prescribed by section 96 of the *Water Act 1905*, which shall, upon approval of the Commissioners under the common seal of the Trust, be the list of voters for the election of Commissioners for the twelve months next ensuing.
7. Form of Voters' List.—First Schedule.—Such voters' list shall be in the form in the First Schedule hereto, and shall contain, in regular numerical sequence and alphabetical order of surname, the christian name or names, surname, and address (so far as these may be known) of every ratepayer within that portion of the municipal district of the Shire of Woorayl included within the district of the Waterworks Trust.
In making out such list of voters, if the property in respect of which any ratepayer is entitled to vote is only in part within the Waterworks district, then the number of votes of such ratepayer in respect of such property shall be reduced in the proportion which such part bears to the whole property of such ratepayers rated in the municipal district.
8. Minister to appoint returning officer for first election.—Chairman of Trust to be returning officer at subsequent elections.—For the purpose of the first election herein mentioned the Minister shall appoint some fit and proper person to be returning officer; but for every subsequent election (whether ordinary or extraordinary) the Chairman of the Trust holding office as such on the day immediately preceding the date of election shall be the returning officer; but if at the time of any election the office of Chairman of the Trust should become vacant the Commissioners of the Trust may, by resolution, appoint one of their number to be returning officer; and the returning officer may appoint a deputy to assist him or to act in

his room at any election, and such deputy may do all things which the returning officer is hereby authorized or required to do.

9. Notice of Election.—Nomination of Candidates.—Second Schedule.—Fourteen clear days before any election of Commissioners under these regulations, the returning officer shall give public notice of such election by advertisement inserted in some newspaper generally circulating in the Leongatha township, and by such notice shall require all candidates at such election to be nominated at some place within the said township to be named in such notice in manner hereinafter mentioned, between the hours of Ten o'clock in the forenoon and Four o'clock in the afternoon, on some day before a day (hereinafter called the day of nomination) not less than four nor more than seven days after the time of giving such notice, and named therein, and any person desirous of becoming a candidate shall, before Four o'clock in the afternoon of the day next preceding the nomination day, cause to be delivered at the place aforesaid to the returning officer a nomination paper, in the form of the Second Schedule, or to the like effect, stating therein both his christian and surname, together with the other particulars required in and by the said Schedule; and such nomination paper shall be signed by not less than three persons duly qualified to vote at such elections, as well as by the candidate. And no person who shall not have been so nominated shall, within the provisions of these regulations, be deemed to be a candidate at any election of Commissioners.

10. Qualifications of Commissioners.—No person shall be eligible for election as a Commissioner unless he is liable to be rated under the *Water Act 1905* in respect of property within the district of the Trust.

11. Where Number of Candidates does not exceed Number of Commissioners to be elected.—If, at the expiration of the time limited as hereinbefore provided for the nomination of candidates, the number of persons who have become candidates as aforesaid does not exceed the number of Commissioners to be elected, the returning officer shall then declare such candidates to be duly elected, and they shall be deemed to be then duly elected accordingly.

12. Where Number of Candidates exceeds the Number of Commissioners to be elected.—Third Schedule.—Notice of Poll.—Hours of Polling.—If, at the expiration of the time limited for the nomination of candidates, the number of candidates exceeds the number of Commissioners to be elected, then the returning officer shall forthwith cause the ballot-papers to be printed, with the christian names and surnames of all the candidates in full in the form of the Third Schedule hereto, and shall also give public notice by advertisement in some newspaper circulating in the Leongatha township, stating the names of the persons so nominated, and that a poll will be taken for the election of such Commissioners upon a day named in such notice, at such place within the said township as the returning officer shall in and by such notice appoint; and such poll shall take place accordingly, and shall commence at Eight o'clock in the forenoon, and close at Four o'clock in the afternoon.

13. Retirement of Candidates before Polling Day.—If, at any election, after a poll shall have been appointed as aforesaid any candidate for such election, and two of the persons having signed the paper nominating him as aforesaid, are desirous that he should retire from such candidature, such candidate and the persons aforesaid may sign and deliver to the returning officer, not later than four clear days before the day of polling, a notice in the form of the Fourth Schedule hereto, stating that such candidate so retires; and the said candidate or his agent shall thereupon publish in some newspaper generally circulating in the Leongatha township a copy of such notice, and the returning officer, on sufficient proof of such publication aforesaid, if the number of candidates is by such retirement reduced to the number of persons to be elected at such election shall, on the day appointed for the election, declare the remaining candidates duly elected; and, if the said number is not so reduced, shall omit the name of the person so retiring from the ballot-papers to be used at the said election, and, if such papers are already printed, shall erase such name therefrom; and such person shall not be capable of being elected at such election.

14. Polling Booth may be hired.—At such election the returning officer shall provide a suitable place for taking a poll, and may, if necessary, cause to be hired and used as a polling booth any room which he may deem to be suitable at the place appointed for taking the poll, and may divide such room into compartments as to him may seem most convenient.

15. Returning Officer to Preside at Polling Booth.—The returning officer or his deputy shall preside at the polling booth for taking the poll.

16. Scrutineers may be appointed.—Each candidate shall be entitled to appoint, in writing, one scrutineer to be present in the polling booth, and the said returning officer or his deputy, and the said scrutineers, and any voters not exceeding four in number, actually engaged in voting, shall alone be permitted at any one time to enter or remain in the polling booth.

17. Pencils to be provided.—The returning officer or his deputy shall provide pencils in the polling booth for the use of the voters, and also a locked box, to be called the ballot-box, with a cleft or opening therein capable of receiving the ballot-papers, and such box shall be opened and exhibited to the scrutineers before the polling begins; and the box shall then be locked, and shall stand on a table opposite the returning officer or deputy returning officer, who shall keep the key of such box.

18. Mode of voting.—The returning officer shall deliver to every voter who requires the same a ballot-paper, or if such voter appears by the roll to be entitled to give more votes than one, then so many ballot-papers as may be equal to the number of votes which such voter so appears to be entitled to give, such ballot-papers being in the form of the Third Schedule hereto, and initialed by the returning officer; and, every such voter shall, without leaving the booth, strike out from all or any of such papers the name of every candidate for whom he does not intend to vote. And in case any voter is unable to read or write, the returning officer or his deputy, if so required, shall, in view of such one of the scrutineers as the voter may desire, strike out the name or names of such candidate or candidates as such voter may designate; and after such name or names have been so struck out, the ballot-paper or ballot-papers (as the case may be) shall forthwith be deposited in the said box. Provided that all the ballot-papers to which any person may be entitled at the polling booth shall be demanded and received by him at one and the same time; and no person having once demanded and received any such ballot-paper or papers, and voted by the same, shall at the same election receive any further ballot-papers, or exercise any further right of voting.

19. Ballot-papers to be numbered.—Before delivering any ballot-paper to the voter, the returning officer or his deputy shall write upon the back of each such ballot-paper, as near as practicable to the lower edge thereof, the number set opposite to the voter's name in the roll, and shall thereupon, upon a copy of such roll, check off such voter's name as having voted, and mark against such name the number of ballot-papers delivered to such voter.

20. Informal Ballot-papers.—If any voter suffer to remain upon his ballot-paper a greater number of names not struck out than the number of Commissioners to be elected, the vote given on and by such paper shall be void and of no effect.

21. What Question may be asked.—At any election of Commissioners the returning officer may, if he see fit, or if required to do so by any candidate or scrutineer, put to any person tendering his vote the question following:—

“Are you the person whose name appears as (A.B.) in the roll now in force for this Trust, being enrolled therein in respect of property described to be situated in (here specify the street or other place described in the roll)?”

And no other question shall be put to any person tendering his vote; and no person who shall refuse to answer such question, or who shall not answer the same absolutely in the affirmative, shall receive a ballot-paper or be permitted to vote.

22. False Answer, Polling Twice, and Personation.—Every person who shall wilfully make a false answer to the question aforesaid, or who shall poll more than once, or offer to poll more than once at the same election, or who shall depart or attempt to depart from any polling booth after having received a ballot-paper, without having deposited the same in the ballot-box, as hereinbefore provided, or who shall personate any other person for the purpose of polling at such election, shall be guilty of a breach of these regulations; but nothing contained in this clause shall apply to any person only by reason of his exercising the right of voting as often as it appears by the roll he is entitled so to do.

23. Result of Polling, how ascertained.—Immediately on the close of the poll, the returning officer shall, in the presence of and subject to the inspection of so many of the scrutineers of the candidates as please to be present, proceed to ascertain the number of votes for each candidate; and such returning officer shall abstain from inspecting the number written as aforesaid on any ballot-paper, and take care that the same is not seen by any person before being sealed up as herein provided; and the returning officer shall seal up the ballot-papers deposited in the booth, and as soon as conveniently may be on or after the day of the poll, publicly

declare the candidates, not exceeding the number of vacancies to be filled up, who have received the greatest number of votes to have been duly elected Commissioners of the Trust, and if two or more candidates have received an equal number of votes, the returning officer shall determine by lot the candidate to hold office.

24. Ballot-papers, how disposed of.—The returning officer shall forthwith after the declaration of the poll indorse with a description of the contents thereof, and sign the sealed parcel of ballot-papers, and forward the same to the Secretary of the Trust, to be by him safely and secretly kept for six months then next ensuing, and then by him caused to be destroyed in the presence of three Commissioners of the Trust.

25. Minister to determine question arising upon first election.—If any question arise as to the due election of any Commissioner at the first election, the returning officer shall, at the request of any voter or candidate, submit such question, in writing, to the Minister, who shall decide the same; and such decision shall be final and binding.

26. Questions arising upon subsequent election to be determined by the Trust.—If any question arise as to the due election of any Commissioner at any subsequent election (whether ordinary or extraordinary), such question shall be determined by the Commissioners of the Trust at the first ordinary meeting held after the election; but no Commissioner in respect of whose election such question shall have arisen shall act as a Commissioner at such meeting, or be entitled to take any part in the proceedings thereof, or in any manner or at any time to act as a Commissioner until such question shall have been so determined; and the majority of the Commissioners whose election is not in dispute shall form a quorum.

27. Appeal to Minister from Determination of Trust.—In event of any voter or candidate feeling aggrieved by the determination of the Trust with reference to any such question as last aforesaid, he may appeal therefrom to the Minister within fourteen days from the date upon which the Commissioners shall have determined the question, and the Minister may make such inquiry as to the merits of the question as may appear to him to be necessary, and determine such question in such manner as to him may appear just; and such determination of the Minister shall be final and binding.

28. Failure to Elect deemed to create Extraordinary Vacancies.—If at any election of Commissioners any vacancies less than the whole number which should have been filled up at such election are not filled up, then the vacancies which are not so filled shall severally be deemed extraordinary vacancies and to have occurred on the day appointed for such election. Provided always that the Commissioners eventually elected or appointed to fill such vacancies shall go out of office as if elected at such election.

29. Expenses of Election to be paid by Trust.—The expenses incurred by the returning officer, or under his direction, in connexion with any election shall be defrayed by the Trust.

30. Penalty for Breach of Regulations.—Any person guilty of a breach of any of the provisions of these regulations shall be liable to a penalty not exceeding Ten pounds, to be recovered in a summary manner before justices of the peace.

31. Interpretation.—In these regulations words importing the masculine gender shall be deemed and taken to include females, unless there is something in the context repugnant to or inconsistent with this interpretation.

Mr. Brown	Mr. Membrey.
Mr. Lawson	

WHEREAS by section 95 of the *Water Act 1905* it is enacted that wherein any Order in Council whether made before or after the passing of the said Act, it has not been provided that the Commissioners of any Waterworks Trust are to be elected by the ratepayers, the Governor in Council, upon a petition of a majority of the ratepayers, may, if he thinks fit, declare that the Commissioners shall, from a date to be named in such Order, cease to be such Commissioners, and shall from such day be succeeded by Commissioners elected by the ratepayers.

And whereas it is further provided by the aforesaid section 95 that the Governor in Council may, by the same or any subsequent Order, direct that any number of Commissioners stated in such Order shall, within a time specified in such Order, and thereafter from time to time, be elected in such manner as may be prescribed by Regulations made by the Governor in Council.

And whereas by an Order in Council bearing date the 6th March, 1905, a certain Waterworks Trust, known as the Leongatha Waterworks Trust, was duly constituted, and it was ordered and provided that the councillors for the West Riding of the Shire of Woorayl and three other persons should be Commissioners of the said Trust.

And whereas a petition has been signed by a majority of the ratepayers within the Waterworks District of the said Trust praying that the councillors for the said Riding and the three other persons appointed Commissioners of the said Trust shall cease to hold office as such Commissioners, and that they be succeeded by Commissioners to be elected by the ratepayers within the Waterworks District of the said Trust.

Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council of the said State, and in pursuance of the powers conferred upon him by the provisions of the said *Water Act 1905*, doth hereby declare that the persons holding office as Commissioners of the Leongatha Waterworks Trust, by virtue of their office as councillors for the West Riding of the Shire of Woorayl, and three other persons appointed Commissioners of such Trust, shall, after the 20th July, 1915, cease to hold office as such Commissioners accordingly, and shall, after such day, be succeeded by seven Commissioners to be elected for such Trust on the 21st July, 1915, in the manner prescribed by Regulations made for that purpose, and also for the purpose of conducting subsequent elections.

And the Honorable William Hutchinson, His Majesty's Minister of Water Supply for the State of Victoria, shall give the necessary directions herein accordingly.

BROADFORD WATERWORKS TRUST.

RATING BY-LAW FOR 1915 WITHIN THE BROADFORD URBAN DISTRICT.

THE Commissioners of the Broadford Waterworks Trust, the Waterworks District of which has been duly proclaimed an Urban District do hereby, in pursuance of the provisions of the *Water Act 1905*, and in exercise of the powers and authorities conferred by the said Act, make the following By-law:—

The rates and charges hereinafter specified are those which the occupiers or owners of lands and tenements situated within the aforesaid Urban District, and liable to be rated, shall pay for the year 1915 in respect of water supplied otherwise than by measure, for domestic purposes, such rates to be paid half-yearly in advance in equal moieties, on the 1st day of January and on the 1st day of July, 1915.

1. On every house and tenement of the annual value of Fifteen pounds or under, according to the municipal valuation of such house or tenement during the said year, the sum of Thirty-seven shillings and sixpence.

2. On every house or tenement above the annual value of Fifteen pounds, according to the municipal valuation of such house or tenement during the said year, the sum of Two shillings and sixpence in the pound of such valuation.

3. On every piece of vacant or unoccupied land, the sum of Ten shillings.

4. The following shall be the charges payable in respect of water supplied by measure:—

- (1) Water supplied by measure shall be charged for at the rate of One shilling for every one thousand gallons, or at such price as may be specially agreed upon. The minimum quantity of water to be charged for in each case so supplied shall be twenty thousand gallons per half-year, or a quantity which at One shilling per thousand gallons would be equivalent to the quantity of water which the owner or occupier would be entitled to receive according to his assessed rate for the year if supplied otherwise than by measure.

- (2) For standpipe or hydrant water for each load of two hundred and fifty gallons or under, One shilling.
- (3) For a temporary supply during the erection of new buildings, Five shillings per cent. on the amount of contract for stonework, brickwork, and plastering, or in the event of there not being any contract, Five shillings per cent. on the amount charged or paid for stonework, brickwork and plastering.
- (4) All accounts for water supplied under special agreement or by measure shall be paid as agreed upon.

5. Such person or persons as the Commissioners of the said Trust may from time to time appoint for the purpose are hereby authorized to collect and recover the said rates and charges.

Passed this 15th day of October, One thousand nine hundred and fourteen.

(SEAL) K. MCKENZIE, Chairman.
J. NEILL, Commissioner.
C. D. RYAN, Secretary.

Approved by the Governor in Council,
18th May, 1915.

F. W. MABBOTT,
Clerk of the Executive Council.

DANDENONG WATERWORKS TRUST.

RATING BY-LAW FOR 1915.

THE Dandenong Waterworks Trust do hereby, pursuant to and in execution of the powers and authorities conferred by the *Water Act 1905*, make the following By-law:—

1st. The following rates and charges are those which the occupiers or owners of lands and tenements shall pay for the year 1915 in respect of water supplied by the Trust within the Trust District, and such rates shall be payable in one moiety, and become due on the 1st day of January, 1915.

2nd. On every house and tenement of an annual municipal value of under Eight pounds sterling (£8), the minimum sum of Ten shillings (10s.).

3rd. On every house and tenement of an annual municipal value of Eight pounds sterling (£8) or upwards, the sum of One shilling and sixpence in the pound (£1) on the amount of the said valuation.

4th. On warehouses and wholesale stores, not being domiciles or used in retail business, the sum of One shilling and sixpence in the pound (£1) on the amount of municipal valuation, provided that in no case shall a less rate than One pound sterling be paid.

5th. A rate of One shilling and threepence in the pound (£1) on the municipal valuation shall be levied on all vacant land fronting such streets as are reticulated.

6th. Water supplied by measure to be used in private domiciles or other premises for domestic or other than domestic use shall be charged for at the rate of One shilling per 1,000 gallons. The minimum quantity to be charged for yearly shall be that which at One shilling per 1,000 gallons would be equal to the amount which the Trust would be entitled to receive under the current rating upon the municipal assessed value of any such premises, and at the rate of One shilling per 1,000 gallons in addition to a supply for domestic or other purposes beyond such an amount as aforesaid.

7th. The charge for water supplied for manufacturing and other purposes, and to buildings, lands, and institutions not rated, to be subjected to special agreement with the Trust.

8th. For water supplied to charitable institutions for gardens or irrigation purposes, Sixpence per 1,000 gallons.

9th. For water supplied for cricket or bowling grounds, the charge shall be subject to arrangement with the Trust.

10th. For water supplied to gardens or nurseries cultivated for trade purposes, One shilling per 1,000 gallons.

11th. For water supplied to private fountains, Twenty shillings each, or as may be decided upon by the Trust, in addition to a charge for a supply for domestic or other purposes.

12th. For water supplied and used solely as a motive power for hydraulic lifts, water blasts, turbines, water wheels, electric and other motors (subject to the supply being refused or discontinued at any time), One shilling per 1,000 gallons, or as may be agreed upon, in addition

to the rating upon the assessment of the premises for a supply for domestic or other purposes.

The foregoing By-law was made by the Commissioners of the Dandenong Waterworks Trust on the 11th day of January, 1915, and the common seal of the Dandenong Waterworks Trust was hereunto affixed by authority of the Trust in the presence of—

(SEAL) P. J. McQUADE, Chairman.
JOHN ROGERS, Commissioner.
K. G. McALPIN, Secretary.

Approved by the Governor in Council,
18th May, 1915.

F. W. MABBOTT,
Clerk of the Executive Council.

WARRAGUL WATERWORKS TRUST.

RATING BY-LAW.

THE Commissioners of the Warragul Waterworks Trust, the Waterworks District of which has been proclaimed an Urban District for the purposes of the *Water Act 1905*, pursuant to and in exercise of the powers and authorities conferred by the said Act, do hereby make the following By-law:—

BY-LAW No. 5.

1. The following are the rates which the occupiers or owners of lands and tenements within the Waterworks District of the Warragul Waterworks Trust, shall pay for water supplied by the said Trust, that is to say:—

- (a) For every house, building or tenement, a rate of One shilling and sixpence in the £1 sterling upon the municipal valuation for the time being of such house, building or tenement shall be paid. Provided that such rate shall not be less than One pound two shillings and sixpence per annum, and provided further that the maximum quantity of water to be used by any ratepayer, owning or occupying one house, building or tenement only, shall be 1,000 gallons for every £1 sterling of such municipal valuation.
- (b) For every piece of land occupied or unoccupied upon which there is no house or building erected, a rate of Eighteen pence in the £1 sterling upon the municipal valuation for the time being shall thereof be paid. Provided that such rate shall not be less than Ten shillings and sixpence per annum.
- (c) And for every ratepayer owning or occupying two or more houses, buildings or tenements within the Waterworks District to each of which water meters have been and are attached, such maximum quantity to be consumed either wholly at any one or partly at one and partly at any other or others of the said houses, buildings, or tenements (and in all cases to be ascertained and paid for by measure) shall, for that part or the whole of the year as the case may be during which such ratepayer shall own or occupy such two or more houses, buildings or tenements, but for no longer period, be 1,000 gallons for every £1 sterling of the total sum of the municipal valuations of all the said houses, buildings or tenements owned or occupied by him. If such maximum quantities be exceeded the excess shall be paid for by measure at the rate of One shilling and sixpence per 1,000 gallons.
- (d) For water supplied by measure a rate of One shilling and sixpence for every 1,000 gallons shall be paid, and the minimum quantity to be charged for shall be 15,000 gallons, this charge to apply also to all consumers outside the water area.

2. The rates herein are made for the year ending on the 31st day of December, 1915, and shall be payable in one sum on the 16th day of April, 1915.

Such person or persons as the Commissioners shall appoint from time to time for that purpose shall be authorized to demand, receive, collect and recover such rates.

Passed this 16th day of April, 1915.

(SEAL) B. J. DUNN, Chairman.
EVAN J. HUNTER, Commissioner.
C. S. OGILVY, Secretary.

Approved by the Governor in Council,
18th May, 1915.

THE GEELONG WATERWORKS AND SEWERAGE TRUST.

BY-LAW No. 36.

Water Supply.

PREAMBLE.—The Geelong Waterworks and Sewerage Trust (hereinafter called "the Trust"), pursuant to and in exercise and execution of the powers and authorities conferred on the Trust by the Geelong Waterworks and Sewerage Acts and the Water Acts, and in exercise and execution of any other powers and authorities in anywise enabling the Trust in that behalf, doth hereby make the By-law following:—

1. *Repeal of By-laws.*—By-law No. 3 of the State Rivers and Water Supply Commission relating to the Geelong Area Water Supply shall be and the same is hereby revoked as from the date of coming into operation of this By-law, but nothing herein contained shall relieve, discharge, or absolve any person from liability to pay any rate or charge made in accordance with the provisions of the said By-law; nor abrogate or alter the power of the Trust to recover and enforce payment of any such rate or charge; nor withdraw any permission given, nor cancel any licence granted or order made, nor invalidate any act or thing done, nor annul or stay any proceedings taken, prosecution commenced, or business initiated as in conformity with the provisions of the said By-law prior to the date of this By-law coming into operation; but the same respectively may be continued and carried to completion, and all offences against any provision of the said By-law committed before the date of this By-law coming into operation, may be prosecuted for and punished as if this By-law had not been made and passed.

SUPPLY BY MEASURE.

2. *Charges for Water Supplied by Measure.*—Every owner or occupier of lands and tenements, or other persons supplied with or using water for private water troughs, steam boilers, engines, building purposes, brick-work, concrete, masonry, syphons, hydraulic power blasts, watering of horses, cattle, or other stock, glass washing machines, cooling windows, washing or cleaning vehicles, or watering gardens, yards, pathways or drives, or for use in any trade, industry or business, or for any other than domestic purposes solely, shall be supplied by measure.

The amounts to be charged for the supply of water by measure shall (subject to section 209 of the *Water Act 1905*) be as follows:—

- (a) *Shipping.*—To shipping, other than shipping owned by the Geelong Harbor Trust Commissioners, at the rate of Three shillings per 1,000 gallons; provided that for any volume of water supplied at one delivery the charge shall be not less than Three shillings.
- (b) *Parks and Gardens.*—For parks and gardens under municipal control, Ninepence per 1,000 gallons, and for the Victorian Railway Commissioners and the Geelong Harbor Trust at Sixpence per 1,000 gallons, in accordance with section 53 of Act No. 2109.
- (c) In all cases other than the foregoing, water supplied by the Trust by measurement in the Trust's District will be charged for at the rate of One shilling per 1,000 gallons.

3. *Compulsory Fixing of Meters.*—The Trust may, by notice in writing, require any person—

- (a) being the owner or occupier of premises or a consumer supplied with water, whether for domestic purposes solely or not;
- (b) supplied with or desiring to be supplied with water;
- (c) whose premises are directly or indirectly connected with the mains or pipes of the Trust or are about to be so connected—

to be supplied by measure, and to fix a meter in a position or place to be approved of by the proper officer of the Trust, to register the quantity of water so supplied. Any person so required, who shall not within fourteen days after the service of such notice duly and properly fix a meter, shall be liable to a penalty not exceeding Five pounds for every day after the expiration of the said period of fourteen days during which he shall fail or neglect to fix such meter in accordance with such registration.

MINIMUM METER CHARGE.

4. (a) *Minimum Charge for Water Supplied by Measure.*—Where the supply is for domestic as well as for other than domestic purposes, the minimum quantity of water to be charged for by measurement where water is supplied to any lands and tenements by measure shall, except as provided in clause 2 (b) of this By-law, be

the quantity which at One shilling per 1,000 gallons will produce an amount equal to the amount of the water rate which, under the provisions of any By-law of the Trust, for making and levying rates, would be payable for the said lands and tenements if supplied otherwise than by measure.

(b) Save as aforesaid, in every case where the supply is by measure, the minimum quantity to be charged for shall be a quantity which, if charged for as provided by clause 2 (c) of this By-law, would give a sum of Five shillings for any continuous period of three months.

SPECIAL RATES AND CHARGES.

5. *Charges for Special Supplies.*—Notwithstanding anything contained in clauses 2 and 4 of this By-law, the Trust may, if it shall think fit, grant special supplies of water according to the following terms and charges, which shall be payable in advance, viz.:—

Water Troughs.—To private water troughs at the rate of Twenty shillings per annum each. Troughs of such materials, forms, and construction as shall be approved by the Trust and erected in any public highway, with the consent of the Council of the Municipal District, shall not be deemed to be private troughs.

Building Rates.—For building or other structural purposes, in the case of buildings or structures not exceeding Three hundred pounds estimated capital value, the charge shall be Ten shillings. In the case of buildings or structures exceeding Three hundred pounds estimated capital value, the supply shall be by measure only, with a minimum charge of Ten shillings.

Special Rate may be Fixed in cases not provided for.—Supplies of water for purposes not otherwise specified in this By-law must be paid for at such rate as the Trust shall in each case determine, and a preliminary payment at such rate must be made at the office of the Trust before a supply can be taken or used.

METERS.

6. *Meters to be Tested and Approved.*—No meter shall be affixed until it shall have been examined, tested, and approved by the proper officer of the Trust, and each meter must be capable of registering at least 1,000,000 gallons, and each $\frac{1}{2}$ -in., $\frac{3}{4}$ -in., and 1-in. meter must be capable of registering any flow not less than 10, 15, and 30 gallons per hour respectively.

Meters, how to be fixed.—Every meter must be fixed truly level, with connexions above ground, approved by the Trust's supervising officer, in an easily accessible position, and properly protected on a proper foundation of timber, stone, brick, or concrete, approved by the Trust's supervising officer, which must, wherever practicable, be level with the surface of the ground and within 3 feet of the building line of the property. If it be impracticable to place the meter above the surface of the ground, it may be fixed in a pit approved by the Trust's supervising officer, which must be properly constructed and drained.

Leather Washers to be used.—Wherever washers are necessary for meter connexion couplings, leather washers must in all cases be used.

Whole Supply to Property to be Registered.—Every meter must be fixed to register the whole of the water supplied to any tenement or premises, except where otherwise allowed by the Trust.

Removal of Meters.—Every person desiring to remove or alter the position of a meter must, six days prior to such removal, make written application for the consent of the Trust to such removal or alteration, and no such removal or alteration may be effected until the Trust's permission in writing shall have been given.

Meters to be Available for Inspection.—No person shall construct, place, stack, store, or permit to be constructed, placed, stacked, or stored, any building, erection, materials, or goods over or upon any meter through which water is supplied by the Trust, or do or permit anything which shall prevent or interfere with the inspection at any time by any officer of the Trust of any such meter.

7. *Where Meter Ceases Registering, &c., Average may be Charged.*—If any meter in use cease registering, or be reported as out of repair, or registering inaccurately, the Trust may estimate and charge for the water consumed during the period such meter was not in working order and until it is repaired and refixed, (1) by taking an average of the quantity used during the previous quarter or half-year or during the corresponding period of the previous year, or (2) on the basis of subsequent consumption after repairing, or (3) the Trust may insert a check-meter on the service pipe and charge upon estimate from the registering thereof.

Testing large Meters in Position.—In all cases of fixing and refixing 2-in. meters and meters of larger sizes, provision must be made for testing the working

of the meters in position by the affixing of a stop tap or valve on the outlet side of the meter, with a stop-cock ferrule between the stop tap and the meter. No branches are to be taken off between the stop tap or valve and the meter. The sizes of the stop-cock ferrules must be as follows:—

For 2-in. and 3-in. meters	..	$\frac{3}{4}$ inch
For 4-in. meters	..	1 inch
For meters larger than 4-in.	..	1 $\frac{1}{2}$ inches

Meters removed owing to being out of order must be repaired, adjusted, and submitted to the Trust for test by a licensed plumber employed for the purpose, with the least possible delay. For any unnecessary delay in refixing the meter, such licensed plumber shall be liable to a penalty not exceeding Five pounds or suspension of his licence.

Refixing of Meters.—Any meter fixed prior to this By-law coming into operation shall, if removed for any purpose whatever, be refixed in manner and position in strict accordance with the provisions of this By-law.

Check Meter.—The Trust, by its officers, may at any time attach a check meter to the service pipes of any consumer, either inside or outside the premises of such consumer, and may for such purpose enter such premises at any time between the hours of 10 in the forenoon and 4 in the afternoon, and then and there do all things necessary therefor.

HIRE OF METERS.

8. Hire of Meters and Rate of Rent thereof.—The Trust may, if it so think fit, let for hire water meters, the rent of which, if inferential meters, shall be at the rate per annum of—

For $\frac{1}{2}$ -in. meter	..	Seven shillings
For $\frac{3}{4}$ -in. meter	..	Eight shillings

For any meter of larger size than $\frac{3}{4}$ -in., the rent per annum shall be at the rate of 10 per cent. upon the cost of such meter fixed complete.

Meter Rent exclusive of Rate.—Such rent shall be exclusive of and in addition to the amount of rate chargeable for the recorded consumption of water, and shall be due and must be paid half-yearly in advance on the first day of the months of January and July in every year, the first payment to date and be made as from the commencement of the then current half-year. Such hired meters shall be kept in repair at the cost of the Trust, except as to external injuries, the cost of repairing which shall be borne by the hirer.

Testing Meters.—In the event of the hirer being dissatisfied with the registering of a hired meter, he may, by notice in writing, require the Trust to cause such meter to be removed and tested, and, together with such notice, shall forward a sum of Ten shillings, which, if the meter be found to register correctly, within a margin of 5 per cent., shall be applied in paying the cost of removing, testing, and replacing such meter, and the balance, if any, shall be returned to him; but if such meter be found to fail to register, or be found to register incorrectly, after allowing such margin as aforesaid, such meter shall be repaired and replaced, or another meter shall be placed instead of it, at cost of the Trust, and the amount deposited by the hirer shall be returned to him.

Meters other than such as are hired from the Trust will be tested on delivery thereof at the office of the Trust, and a fee of One shilling shall be charged for each test.

Hirer to give Notice of Removal.—Any person hiring a meter from the Trust, who shall cease to occupy the premises on which such meter shall be fixed, without having previously given, in writing, at least six days' notice to the Trust of his intention to leave the premises, shall be liable to a penalty not exceeding Five pounds.

ALLOWANCE FOR SANITARY FLUSHING.

9. Water Supply to Closets.—Every consumer of water who shall receive his supply of water through a meter, and shall pay for such supply by measure an amount exceeding the sum which he would be required to pay upon the rating of his premises, shall, out of such excess, be allowed, so far as such excess will admit thereof, a deduction equal to Seven shillings per annum on account of each water closet on his premises, the supply of water for the flushing whereof shall pass through and be recorded by such meter, provided always the total deduction allowed to any such consumer shall not in any case exceed Twenty-one shillings in respect to such premises.

TAPPINGS AND SERVICES.

10. Application of Provisions regarding Connexions, &c.—All work, connexions, fittings, apparatus, and material in connexion with the supply of water from the pipes of the Trust shall be in strict accordance with the provisions of this By-law, and where any service

existing at the time of the coming into operation of this By-law, and supplying water from the pipes of the Trust, or any fitting or apparatus connected therewith, is not in accordance with the provisions of this By-law; all renewals, alterations, or replacements thereof or thereto must be effected in strict accordance with the provisions of this By-law.

11. Ordinary Connexions—Special Size Services.—Ordinary connexions with pipes of the Trust must be made with proper stop-cock screwed ferrules, to which for iron services a length of not less than two (2) feet of lead pipes with brass unions must be attached. One service pipe only for domestic supply to each tenement will be permitted. For tenements rated at Thirty pounds per annum or under the bore of such service pipe must not exceed $\frac{1}{2}$ inch, and for tenements rated at over Thirty pounds per annum the bore of such service pipe must not exceed $\frac{3}{4}$ inch, unless permission for a larger service shall have been received in writing from the Trust, and the supply be taken through a meter; and no such larger service shall in any case exceed 1 inch in diameter, unless the average number of persons residing in the tenement be more than twenty-five, or the tenement be rated at not less than One-hundred and fifty pounds per annum, nor shall it exceed 1 $\frac{1}{4}$ inches in diameter unless the average number of persons residing in the tenement be more than 100, or the tenement be rated at not less than Two hundred and fifty pounds per annum.

12. Maximum Tappings without Clip.—The maximum tapping that will be allowed without clip for each size of cast-iron main is as follows:—

For 3-in. and 4-in. pipes,	$\frac{3}{4}$ -in. tapping.
For 5-in., 6-in., and 7-in. pipes,	1-in. tapping.
For 8-in. pipes,	1 $\frac{1}{4}$ -in. tapping.
For 9-in. pipes,	1 $\frac{1}{2}$ -in. tapping.
Over 9-in. pipes,	2-in. tapping.

A clip shall be used for tappings to all pipes other than cast iron, except where otherwise permitted in writing by the Trust.

Branches for Large Tappings.—A branch must be inserted for all connexions of 2-in. diameter or over to mains of 5-in. diameter or less, and for all connexions of 3-in. diameter or over to mains of 6-in. diameter or over. All such branches must be of pattern and material approved by and be fixed only in accordance with the directions of the Trust's supervising officer.

13. Tappings under pressure by an Officer of the Trust, at Cost of Consumer.—Upon any person giving notice of his desire to lay a pipe to connect with and tap the pipes of the Trust, he shall be informed, on behalf of the Trust, whether it is or is not required that such tapping should be made under pressure by an officer of the Trust, and if it be so required, such person shall not tap any such pipe, but shall provide for and be at the cost of all labour and material necessary for such connexion, and for the restoration of the ground to the satisfaction of the local authority, and be liable for the consequences of failure in so doing, and shall pay in advance to the Trust the expense of such tapping, including the stop-cock and ferrule, as follows, viz.:—For $\frac{1}{2}$ -in. pipe, Seven shillings and sixpence; for $\frac{3}{4}$ -inch pipe, Ten shillings; for 1-in. pipe, Fifteen shillings; for 1 $\frac{1}{4}$ -in. pipe, Twenty-five shillings; for 1 $\frac{1}{2}$ -in. pipe, Forty shillings; for 2-in. pipe, Sixty shillings; and where the place at which such tapping is to be made shall be distant more than five miles from the General Post-office in the City of Geelong, there shall be paid by the person for whom the same is to be made a further sum sufficient to defray the cost of conveying the officer of the Trust who shall make such tapping to and from the work, and also the value of time occupied by such officer in going to and returning from the work at the rate of One shilling and sixpence per hour. If it becomes necessary to effect repairs, removals, or replacements to any such tapping as aforesaid, the fee of Ten shillings must be paid on each occasion where the main is 16 inches in diameter or less.

14. Connexions, Brass Couplings.—All connexions with or between lead and iron pipes must be made with brass union couplings.

15. Stop-cock and Cover Box.—A high-pressure screw-down stop-cock, properly secured and covered with an approved cast-iron box or cup, must be fixed on each water service, between the main and the building line, and at a uniform distance of 3 feet from the building line.

16. Mains under Wood Blocks, &c.—Where mains are under wood blocks, concrete, or other special pavements, an approved iron box must be fixed over the stop-cock ferrule in the main.

Position of Stop-cocks.—Except where otherwise permitted by the Trust, stop-cocks and stop-cock ferrules must be opposite the tenement supplied, and in one

line at right angles to the main on which such stop-cock ferrule is fixed. Every service which does not enter the building line of the tenement supplied at a point opposite to the main to which such service is connected shall be provided with two high-pressure screw-down stop-cocks and approved cast-iron covers, one of which shall be fixed opposite the main, and the other in a position approved by the Trust's supervising officer, immediately outside the building line where the service enters the tenement.

17. *All Lead Joints to be Wiped.*—All joints connecting lead pipes must be "wiped" joints, and in no case will "bolt" or "copper bit" joints be allowed on water service pipes, either in the interior or on the exterior of any building or tenement, and any plumber who, by himself or his workman, shall break this clause of this By-law shall, in addition to any other penalty for which he may be liable, be liable to have his licence cancelled.

18. *Services to be Separate, except by Permission.*—Excepting with the permission of the Trust, not more than one tenement shall be supplied from a single service pipe. The Trust may in special cases consent to two or more tenements being supplied from one service pipe, but in such cases the sub-services shall be so arranged that the supply to each tenement shall be independent of the supply to the remaining tenements, and be controlled by a stop-cock fixed in a public thoroughfare on such sub-service. One service pipe only for domestic supply to each tenement will be permitted.

Renewal of Services.—Whenever any service existing at the time of the coming into operation of this By-law supplies more than one tenement, and such service is not laid in accordance with the provisions of this section, repair of such service will not be permitted should the repair involve the replacement of more than one pipe length of the service, but the service must be renewed strictly in accordance with the before-mentioned provisions.

Any person offending against the provisions of this clause shall be liable to a penalty not exceeding Five pounds.

19. *Extension subject to consent of the Trust.*—No extensions of private services will be allowed except by permission of the Trust.

Plans.—In connexion with every application to lay a water service of 1 inch and upwards in diameter, or to alter the position of any such water service, the plumber's notice must be accompanied by a properly dimensioned plan, showing the locality of the premises at which the work is to be effected, and the position in which it is intended to lay the pipes and fix meters, plugs, stop taps, &c., thereto.

20. *Service Pipes to be Repaired by Owner or Occupier—Penalty for Refusal or Neglect to Repair Service.*—The service pipes from the main being the property of the owner or occupier of the tenement supplied by such service pipe, the occupier (if any) or (if none) the owner shall, upon receiving notice that his service pipe requires repairing, immediately proceed to repair the same; and he shall be responsible for any loss of water or other damage which shall be caused by reason of such service pipe being leaky or otherwise out of repair or broken, and in default of so repairing he shall be liable to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day such pipe remains out of repair after service of such notice; and the Trust may stop the water from flowing into such tenement either by cutting off the service pipe or otherwise as to the Trust may seem fit, until the necessary repairs shall have been effected.

WASTE OF WATER.

21. *Waste of Water.*—Any person supplied with water by the Trust who shall wilfully or negligently allow the same to run to waste shall be liable for each offence to a penalty not exceeding Five pounds; and in the event of continuing the offence to a further penalty of Two pounds for each day after notice of the offence from the Trust.

TAKING OR SUPPLYING WATER WITHOUT AUTHORITY.

22. *Water not to be used or supplied without Written Authority.*—Any person receiving water from the Trust who, without the written permission of the Trust, shall take or carry away such water from his tenement, or allow any person to take or carry away such water, or shall sell the same to any other person, shall be liable to a penalty not exceeding Five pounds.

23. *Unlawful Taking of Water.*—Any person who shall, without the written permission of the Trust, take or carry away water from the premises of any other person supplied by the Trust, or from any drinking tap, trough, or private or public service pipe, shall be liable to a penalty not exceeding Five pounds.

24. *Supply may be Cut Off.*—If any person supplied with water by the Trust does, or causes to be done, anything in contravention of this By-law, or fails to

pay any rates or charges lawfully due by him, or fails to do anything which under this By-law ought to be done, or wilfully or negligently allows water to run to waste, the Trust may, in addition to any other remedy, cut off the supply of water from the premises of such person, either by cutting the pipes by or through which water is supplied or otherwise, and may cease to supply him with water so long as the cause of complaint remains or is not remedied.

LICENSED PLUMBERS.

25. *Unlicensed Persons not to Interfere with Pipes or Services.*—No person shall affix any service pipe to any pipe of the Trust, or alter, repair, or in any manner interfere with any pipe of the Trust, or any service pipe, cock, or fitting connected with the pipes of the Trust unless (a) he is the holder of a "Working Plumber's Licence" under any By-law which may now or hereafter be in force within the Drainage Area relating to sewerage, or (b) he shall obtain from the Trust a licence in that behalf to execute such work; and any unlicensed person affixing, altering, repairing, or in any manner interfering with any such pipe, service pipe, cock, or fitting as aforesaid shall be liable to a penalty not exceeding Five pounds.

26. *Licences to Plumbers. Expiration of.*—Every such licence issued hereunder shall expire on the 31st day of December in each year, and may be renewed, but shall be subject to review from time to time, and the Trust may at any time cancel such licence in the event of the holder thereof being adjudged by the Trust to be incompetent, or by himself or his employes committing any breach of the Water Acts or of this By-law, or being guilty of any conduct which the Trust may regard as improper.

27. *Special Licences to Pipe-fitters—Proof of Fitness to be given by the Applicant before granting or renewal of Licence.*—Before any such licence shall be granted or renewed by the Trust, the person applying for same shall satisfy the Trust that he is a competent plumber, and that he is thoroughly conversant with the provisions of the By-laws of the Trust relating to Water Supply, and with the sections of the Water Acts applicable to the Trust; but the Trust may, if for any reason it so see fit, refuse to grant or renew such licence, and shall not be bound to give any reason for such refusal. All current licences to plumbers to execute Water Supply work issued under By-law No. 3 of the State Rivers and Water Supply Commission shall expire on the 31st day of December, 1915, and no licence to execute Water Supply work shall be granted hereunder to any person who was not at the date of coming into operation of this By-law the holder of a licence under the said By-law No. 3 of the State Rivers and Water Supply Commission.

28. *Licence to Plumbers under Water Act and By-laws not to apply to Sewerage.*—The Trust may, if it sees fit, grant special licences to pipe-fitters in continuous employment of large firms who require their services on the premises or in the business. Where the supply is through meter the licensed fitter shall only be permitted to work upon water supply pipes and fittings within the premises, and on the outlet side of the meter, and he shall not be permitted to execute any lead work. The special licence as aforesaid shall be subject to review from time to time, and also to cancellation, as provided in clause 26 of this By-law.

29. *Notice of Work proposed to be Given.*—A licence issued in conformity with the provisions of the Water Acts or any Act repealed thereby or any By-law or regulation thereunder (including this By-law) shall not authorize the holder thereof to do any kind of work connected with the sanitary fittings of houses or the sewerage system.

NOTICES.

30. *Notices to be signed by Licensed Plumber.*—Any person, whether licensed as aforesaid or not, who shall open any ground so as to uncover any pipe or pipes the property of the Trust, without giving two days' notice to the Trust or its proper officer of his intention to do so, or who shall in any way tamper with or alter any pipe the property of the Trust, without the permission in writing of the Trust being first obtained, or who shall wilfully or carelessly break, injure, or open any lock, cock, valve, pipe, work, or engine the property of the Trust, shall be guilty of an offence and shall be liable for each such offence to a penalty not exceeding Five pounds.

Notices must be signed by the licensed plumber actually engaged in carrying out the works referred to on the notice, or by a licensed plumber employing another plumber to carry out the work under his supervision.

1876

Any licensed plumber signing a notice for work which is not actually done either by himself or by a plumber employed under his supervision, or carrying out work under a notice not signed by himself, shall be guilty of an offence.

31. Notice to Lay Service to be Given—Material to be Approved and Work Inspected.—Any person, whether licensed as aforesaid or not, who shall lay any pipe to communicate with the pipes of the Trust, or who shall alter, repair, or replace pipes or fittings in communication with the pipes of the Trust without giving two days' notice of the day and hour when such work is to be carried out, or who shall make such communication, alteration, repair, or replacement, except under the superintendence and according to the directions of the proper officer of the Trust, or who shall lay any leaden or other pipes to communicate with the pipes of the Trust of a strength and material not sanctioned by the Trust, shall be guilty of an offence and shall be liable for each such offence to a penalty not exceeding Five pounds; and in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the Trust. In the case of service communication with the pipes of the Trust being made through the intervening medium of storage tanks, the provisions of this clause shall have as full application as if the communication were by direct service.

Urgent Repairs.—The giving of two days' notice as aforesaid will only be dispensed with in the event of urgent repairs being required to stop the waste or escape of water, in which case notice must be sent to the Trust by the licensed plumber concurrently with or immediately after the execution of such urgent repairs. The penalty for not giving notice as required by this paragraph shall be as mentioned for an offence against the first part of this clause.

QUALITY OF MATERIAL.

32. Fittings to be of the best Quality and subject to Approval.—No person shall use any tap, stop-cock, bib-cock, ball-cock, valve, closet cistern, service box, bath tap or valve, or other fitting in connexion with a supply of water of the Trust which is not of the best quality, tested, stamped, and approved by the Trust.

33. No person shall use any stop or bib cocks which are not screw-down, high-pressure cocks, made of hard brass or gun-metal, and in every respect of the best quality and workmanship, tested, stamped, and approved by the Trust.

34. Lead Piping.—Lead piping shall be of the following weights:—

Diameter of pipe.	Weight of pipe per yard.	Diameter of pipe.	Weight of pipe per yard.
3/4-inch	5 lbs.	1 inch	12 lbs.
1-inch	6 lbs.	1 1/4 inch	20 lbs.
1 1/4-inch	7 1/2 lbs.	1 1/2 inch	28 lbs.
1 3/4-inch	9 lbs.	2 inch	45 lbs.

Galvanized Iron Piping.—Except with the written consent of the Trust, only galvanized iron piping of approved quality, tested and stamped by the Trust, will be allowed for external and internal services. The fixing of lead pipes on water supply to filters will not be permitted. Tin-lined lead pipes or galvanized wrought iron pipes of approved quality must be used.

CISTERNS AND TANKS.

35. Equilibrium Ball Valves to be Provided.—No person shall use any cistern or tank that is not provided with an equilibrium ball valve, and with the overflow pipe laid and fixed in a suitable manner, open to inspection and in a position approved by the Trust. Every such cistern or tank must be constructed, protected, made accessible, and provided with inlet and outlet pipes, as required by the Trust, so as to reduce the risk of pollution and waste of water to a minimum.

URINALS.

36. Urinals.—Water closets and urinals will not be allowed to be supplied direct from the pipes of the Trust, but from a cistern only, so constructed that the water cannot flow continuously, and that not more than 2 gallons can escape at one flush.

BATHS.

37. Holding Capacity of Baths.—Baths supplied from the pipes of the Trust, except when the supply is by measure, must not exceed 6 ft. 3 in. in length along the centre line, by a mean width of 2 feet, and a depth of 1 ft. 9 in., with ends sloping inwards.

FIRE SERVICE.

38. Private Fire Services.—Subject to the previous written consent of the Trust, private fire services will be allowed, but every such service must be sealed, except in cases where the proper officers of the Trust

shall have certified in writing that sealing is unnecessary. For each such fire service there shall be paid a sum of One pound per annum after the fixing thereof. No water shall be taken from any sealed portion of such service except for extinction of fire. Except in the case of fire, no person shall, without authority of the Trust, wilfully break the seal affixed to any private fire service, and in the event of any such seal having been broken, accidentally or otherwise, the occupier of the tenement shall, within twenty-four hours thereafter, give notice in writing of the fact at the office of the Trust, and, failing to do so, shall be liable to a penalty not exceeding Two pounds, and to a further penalty of Ten shillings for every day during which he shall neglect to give such notice.

GENERAL.

39. Reflux Valve to be Fixed in Steam Services.—Any person, whether licensed as aforesaid or not, who shall connect any service pipe or branch service pipe with any steam boiler, for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of the meter, shall be liable to a penalty not exceeding Five pounds, and, in the event of continuing the offence, to a further penalty of Two pounds for each day after notice of the offence from the Trust.

40. Street Watering.—No person shall, without the written permission of the Trust, water streets or thoroughfares by means of hydrant or hose attached to fire plugs, but for such purpose water carts or some other method approved by the Trust shall be used. Any person offending against the provision of this clause shall be liable to a penalty not exceeding Five pounds.

41. Supply to Public Parks and Gardens.—The water supply of all public parks and gardens shall be exclusively under the control and direction of the officers of the Trust, and any person not duly authorized who shall turn on the water or otherwise interfere with such water supply shall be liable to a penalty not exceeding Five pounds.

Channel Flushing.—Channel flushing and filling of public baths will be permitted only between the hours of 10 o'clock p.m. and 6 o'clock a.m., and then only subject to seventy-two hours' previous notice to the Trust, in writing, specifying the time and place where such operation is to take place.

42. Hose not to be Affixed or Syphon Pump used without Meter.—No person shall use a hose attached to any tap or pipe for any purpose whatsoever, nor shall the use of syphon pumps be allowed, except where authorized by this By-law, unless a meter be fixed and the water be supplied by measure; and any person offending against the provisions of this Section shall be liable to a penalty not exceeding Five pounds.

43. Consent of the Trust.—Notices to be addressed to the Secretary.—Conditions as to Notice.—In every case in which it is necessary to obtain the consent of the Trust before doing any act or commencing any work, such consent must be asked for by notice in writing, addressed to the Secretary of the Trust, and delivered at his office, of such length as it is required by the Water Abts or by this By-law, and in no case less than two days prior to the time proposed for the doing of such act or the commencement of such work; and such notice must state clearly the act proposed to be done or work to be commenced, and such act shall not be done or work be commenced save upon the Trust's consent in writing, and then only subject to and in accordance with such directions or conditions as shall be therein specified.

Consent may be given by the Chairman, Secretary, or Engineer for Water Supply.—Such consent may be given by and under the hand of the Chairman of the Trust, the Secretary, or the Engineer of Water Supply, or other proper officer of the Trust who, severally, shall be competent to give the Trust's consent, and on behalf of the Trust to prescribe any directions or conditions attaching thereto and subject to and in accordance with which only such consent shall be deemed to have been given.

PENALTY.

44. Penalty.—Any person who is guilty by act or omission of any contravention or evasion of this By-law shall be guilty of an offence, and where no other penalty is provided shall be liable to a penalty not exceeding Five pounds.

INTERPRETATION.

45. Interpretation Clause.—In the construction of this By-law, the meaning which in the Water Acts is assigned to any word shall be the meaning of the same

word where occurring in this By-law, unless inconsistent with the subject matter or context, and the following special meanings shall be assigned, namely:—

"Person" shall extend to and include a corporation whether aggregate or sole public or private.

"Proper Officer" shall mean an officer or servant of the Trust, authorized either specially or generally to perform any act, matter, or thing, or to accept service of any notice or to execute any function on behalf of the Trust.

The foregoing By-law was made and passed by the Geelong Waterworks and Sewerage Trust on the 30th day of April, 1915, and the common seal of the said Trust was, on the date aforesaid, hereto affixed in the presence of

ISAAC HODGES, Chairman.
(SEAL) J. P. McCABE DOYLE, Commissioner.
JAS. S. SHARLAND, Secretary.

Approved by the Governor in Council,
the eighteenth day of May, 1915.

F. W. MABBOTT,
Clerk of the Executive Council.

THE GEELONG WATERWORKS AND SEWERAGE TRUST.

BY-LAW No. 37.

Sewerage.

By-law relating to the Levels, Dimensions, Construction, Maintenance, Ventilation, and Cleansing of Sewers.

PREAMBLE.—The Geelong Waterworks and Sewerage Trust (hereinafter called the Trust), in order to secure the efficient maintenance of the main and general sewerage of the Geelong drainage area, and pursuant to and in exercise and execution of the powers and authorities conferred upon or vested in the Trust by the Geelong Waterworks and Sewerage Acts, or by any other Acts incorporated therewith (hereinafter called "the Act"), and in exercise and execution of any other powers and authorities in any wise enabling the Trust in that behalf, doth hereby make the By-law following:—

GENERAL.

1. *Interference with or Building over Sewers, &c.*—No person shall interfere with, break up, remove, or build over any building, wall, fence, or other structure, any sewer or trap, ventilating shaft, manhole, lamphole, flush tank, catch-basin, or any part of the Trust's sewerage system without the previous consent in writing of the Trust.

2. *Offal, &c., not to be Deposited in Sewers.*—No person shall throw or deposit, or cause to be thrown or deposited, in any drain or sewer, or opening, or receptacle connected with the sewerage system, any garbage, offal, dead animals, vegetable parings, ashes, cinders, rags, refuse from manufactories, trade wastes, or any other matter or thing which, in the opinion of the Trust, may cause a stoppage in or injuriously affect the sewers or sewerage machinery.

3. *Trade Wastes to Discharge into Pit before Reaching Sewer.*—No person shall cause or permit any waste water or fluid or other trade wastes, containing any substance or matter of a solid nature, to flow or pass, or to be carried from, any manufactory or business or other premises of such person into any sewer of the Trust, or any drain or pipe communicating therewith, without first discharging into a pit so constructed as to intercept all such substance or matter of a solid nature, and prevent the same from passing into any such sewer of the Trust or drain or pipe communicating therewith.

4. *Solids or Liquids likely to Cause Injury.*—No person shall cause or permit to be discharged into any drain or sewer of the Trust any solid or liquid likely to cause the generation of gases injurious to the Trust's sewers or sewerage machinery.

5. *Temperature of Trade Wastes Discharging into Sewers.*—No person shall cause or permit any waste water or fluid or other trade wastes to flow or pass or be carried from any manufactory or business or other premises of any such person into any sewer of the Trust, or any drain or pipe communicating therewith, unless and until the temperature of such waste water or fluid or trade wastes shall have been first reduced to or below one hundred and ten degrees Fahrenheit, and unless and until such waste water or fluid or trade wastes shall have been completely neutralized as to acidity; and unless and until such person shall have first made and provided suitable apparatus, means, or appliances for properly sedimenting and filtering such waste water or fluid or trade wastes before the same shall flow or pass or be carried into such sewer or drain as aforesaid.

6. *Benzine or other Inflammable Materials not to be Discharged.*—No person shall cause or permit to flow or pass or be carried from any manufactory or business or other premises of any such person into any sewer of the Trust or any drain or pipe communicating therewith, any benzine, naphtha, ether, carbon bi-sulphide, or other inflammable materials which will not readily mix with water.

7. *Natural Drainage not to enter Sewer.*—No person shall cause or permit the admission to any drain or sewer of the Trust of any land drainage surface or otherwise, or rain water from roofs, yards, streets, or other surfaces, whether by inlets specially designed to admit it, or by any other inlets or openings so placed that such water may get access thereto.

PREPARATION OF PLANS AND EXECUTION OF HOUSE

CONNEXION WORKS.

8. *Works to be in Accordance with By-law.*—All connexions of plumbing work, drains, or sewers with the sewers of the Trust, and all work connected in any way with the drainage of any premises, shall be executed in accordance with this By-law.

9. *Drains Connected with Sewer to be Cleansed at Cost of Owner.*—All drains in and from properties to and as far as the point of connexion of the branch drain with the sewer must be repaired and cleansed by, or at the cost of, the owner.

10. All the works of sewerage and drainage must be carried out in accordance with the provisions of the Act and By-laws or Regulations thereunder.

Obstructions in Combined Drain.—In the case of any obstruction taking place in a combined drain the Trust will determine between the respective owners or occupiers of the premises drained thereby by whom and in what proportion the cost of removing any such obstruction shall be paid.

Failure to Comply with Notice.—Every person who, by a notice from the Trust, issued in accordance with the Act, or any By-law or Regulation thereunder, shall be required to do or not to do anything, including a requirement to make any sewer or drain, or branches, works, or arrangements for the better sewerage or draining of his house, building, or ground, and who fails to comply with such notice, shall be guilty of an offence.

APPLICATIONS FOR CONSENTS, ETC.

11. *Application for Consent to be Made in Writing.—Form "A."*—Application for the Trust's consent to connect with the sewerage system, or to do plumbing work connected therewith, must be made in writing by the owner of the property to be drained, or his authorized agent. Such application shall give the precise location of the property, the name of the owner, and the name of the person employed to do the work, and shall be made in Form "A" appended hereto, or to the like effect. For any wilful misrepresentation in such application the owner or authorized agent as aforesaid shall be guilty of an offence against this By-law. No consent shall be deemed to authorize anything not stated therein.

Trust's Approval of Plan or Consent to Connect shall not Authorize Trespass.—Any approval by the Trust of a plan under section forty-one of the Act, or any consent to connect any premises with any sewer of the Trust, shall not be deemed to authorize or to confer or grant the right to lay a drain through any land intervening between the premises proposed to be connected and such sewer of the Trust, and any owner or applicant for the approval of such plan or consent shall satisfy himself as to his legal right to drain through such intervening land, and shall be solely responsible for any trespass or damage thereon or thereto.

Conditions on which Consent to Connect will be Granted.—Consents to make connexions with the sewerage system will be issued only when the plumbing in the property to be connected is planned to be made in accordance with the rules for plumbing hereinafter prescribed, and after such plan has been inspected and approved of by the inspector appointed by the Trust for the purpose, or, in the case of new buildings, when a proper plan of the plumbing and of the drainage of the building into the branch, of which the Trust shall have fixed the position, has been approved of in writing by the Trust. All connexions with the drains or sewers, and all plumbing connexions therewith, shall be made under the direction of the engineer-in-chief or the superintending officer of the Trust.

Persons to be Engaged in Actual Performance of Work.—Consent will not be given for the performance of any such work except upon condition that no person shall be engaged or employed as a workman in the actual performance of any work unless he be the holder of a "Working Plumber's Licence," or "Drainer's Licence," from the Trust. Any person who shall at any time, or at any place, make up, form, affix, alter, or repair any fitting, pipe, bend, trap, or other thing connected or

intended to be connected with the Trust's sewerage system, unless he be the holder of a licence from the Trust authorizing him to do such work, shall be liable to a penalty not exceeding Ten pounds.

Interference with Drains, &c., without Trust's Consent.—Penalty.—Any person, whether licensed as aforesaid or not, who shall alter, remove, or in any way interfere with any drain, fitting, pipe, bend, trap, or other thing connected with the Trust's sewerage system, unless the Trust's written consent has been previously issued to do such work at the premises concerned, shall be liable to a penalty not exceeding Ten pounds.

MASTER PLUMBERS' LICENCES.

12. *Master Plumbers' Licences.*—“Master Plumbers' Licences” may be granted by the Trust to any “Master Plumber” residing in and carrying on business within the drainage area for a period of six months prior to the date of this By-law coming into operation, who shall satisfy the Trust, within six months of the said date, either by passing an examination by examiners appointed by the Trust or in such other manner as the Trust may from time to time or in any particular case direct, that he has a thorough knowledge of sanitary and general plumbing, and of the by-laws and provisions of the Act relating thereto. The general conditions under which working plumbers' licences are issued shall also apply to master plumbers' licences.

WORKING PLUMBERS' LICENCES.

13. *Issue of Working Plumbers' Licences.*—The conditions upon which “Working Plumbers' Licences” will be issued by the Trust are—

(a) *Cancellation—Expiration.*—That every such licence will be subject to suspension or cancellation at the will of the Trust, and that all such licences will be granted to expire on the 31st day of December of each year.

(b) *Plumber to be Dismissed on Suspension or Cancellation of Licence—Form “B.”*—A special condition of every consent issued to an owner or agent shall be that if a licensed plumber, in his employment upon any such work, prove, according to the judgment of the Trust's inspecting officer, to be incapable as a workman, or transgress the By-laws or Regulations of the Trust, and the “Working Plumber's Licence” of such workman be for any such cause suspended or cancelled by the Trust, and notice of such suspension or cancellation, in the Form “B” to this By-law annexed, or to the like effect, be given by the Trust in writing, by registered letter addressed to the said owner or agent, the said owner or agent shall cease to employ such workman upon any such work immediately after and during the continuance of such suspension or cancellation. And any such owner or agent who shall neglect or fail to comply with this condition shall be guilty of an offence against this By-law.

(c) *Examination for Working Plumbers.*—“Working Plumbers' Licences” will be issued to candidates who shall have successfully passed an examination by examiners appointed by the Trust in the following subjects, that is to say—

Materials.—The use of lead, tin, copper, and their alloys, wrought and cast iron, stoneware or cement concrete, bricks, tiles, Portland cement, and other materials used by the plumber and drainer.

Plumbing Practice.—As to solder and soldering, lead burning, lead laying, pipe and joint making, pipe bending, and general plumber's practice.

Water Supply Work.—Knowledge of the Act and Water Supply By-laws, general water supply works, water supply fittings, hot-water connexions.

Sewerage Work.—Knowledge of the Act and Sewerage By-laws or Regulations thereunder, in so far as the same relate to the work and duties of plumbers or others in regard to the construction, maintenance, and protection of the general sewerage system, construction and use of traps, soil, waste, and vent pipes, house fittings, water closets, kitchen sinks, baths, lavatories, housemaids' sinks, urinals, latrines, and other sewerage apparatus and appliances.

General Principles of Sanitary Work.—Flushing, ventilation, disconnection.

Candidates must provide Tools, &c.—Candidates for examination in plumbing practice must provide themselves with their own tools, and may be required to submit samples of work done by themselves, and also to make

any pipe, bend, joint, or other plumbing appliance which may be required to satisfy the examiners.

(d) *And give Notice of Intention.*—Candidates for “Working Plumbers' Licences” must give notice in writing to the Secretary of the Trust of their intention to submit themselves to examination at such time as shall be appointed for the same by the Trust's examiners.

Successful Candidates to be furnished with Licence.—Every candidate who shall have successfully passed the before-mentioned examination and given proof to the satisfaction of the examiners of practical ability as a plumber, will be furnished with a licence from the Trust to do practical work as a working plumber upon and in connexion with the sewers, drains, and all fittings, appliances, and apparatus appurtenant thereto within the Geelong drainage area, subject to and in accordance with the Trust's By-laws or Regulations. And he will likewise be furnished with a certificate from the Trust that he is duly qualified to do work in connexion with the sewerage system under the control of the Trust, and in accordance with the Trust's Regulations.

Licence may be issued to certain Plumbers without Examination—Register to be Signed.—

“Working Plumbers' Licences” will, at the discretion of the Trust, be issued without previous examination to any practical plumber who shall be the holder of, and shall produce, a licence from any other sewerage or water supply authority, equal in value to the standard established by the Trust's examination, according to the judgment of the Trust's examiners, which shall be final, subject only to review by the Trust. Prior to the issue of any “Working Plumber's Licence” the person to whom the same is to be issued must sign a register containing a declaration that he accepts such licence subject to and in conformity with the conditions thereof, and the By-laws or Regulations of the Trust, and that he will conform to and comply therewith.

Holders of Licences for Water Supply Work may Fix Cisterns and Water Closets.—Whilst none but the holders of “Working Plumbers' Licences” are allowed to be engaged or employed in the performance of plumbing work for sewerage, the holders of licences for water supply work may do water supply work necessary to the sanitary works, such as fixing cisterns and water closets in outside buildings where lead is not used, and work for water supply.

DRAINERS' LICENCES.

14. *Examination for Drainers' Licences.*—Drainers' licences will be issued to candidates who have successfully passed an examination in the following subjects:—

Plans.—How to read plans; meaning of scales—the scales commonly used in drainage plans; meaning of elevation, plan, and section drawings.

Levels, &c.—Laying off levels for drains; the straight edge, spirit-level, and honing rods; tools generally used in drain laying; preparing bottom of trench to receive pipes.

Excavating, Timbering, and Re-filling.—Protecting the trench by timbering; different treatment of different soils, as loam, clay, loose and wet sand, &c.; tunnelling and tunnel timbering; precautions when near buildings; importance of care in re-filling trenches and tunnels.

Drain Laying.—Junctions to sewers, laying and jointing of stoneware pipes, cement joints, bitumen joints, self-fitting joints, drains under houses and in soft ground; cast-iron drains, laying and jointing; method of joining stoneware and cast-iron drains; minimum depth below surface for safety.

Drainage Details.—The boundary or main disconnecting trap; diminishing of pipes by various methods; sully traps or sinks; self-cleansing form and arresting form, and where each should be used; the reflux gully trap; grease or grease interceptor trap; cottage pans and S trap; pedestal W.C.; access eyes and access pipes; cast-iron drainage details.

Materials.—Salt-glazed stoneware; qualities of lime; mortar, and cement mortar, and where each should be used; concrete, proportion mixing, and usage; brick bond for junction pits, man-holes, &c.; cast-iron pipes.

Hints on Work.—Laying-off work; drain testing by water, smoke, &c.; clearing of chokages.

The conditions under which working plumbers' licences are issued will also apply to drainers' licences.

PERSONS AUTHORIZED TO CARRY OUT WORKS.

15. *Persons Authorized to Carry Out Works.*—No person shall tender for or enter into a contract for any plumbing work relating to sewerage within the drainage area who does not hold either a Master Plumber's Licence or a Working Plumber's Licence. And no person other than the holder of a Working Plumber's Licence or Drainer's Licence shall actually perform any such work as aforesaid.

PLAN OF DRAINAGE.

16. *Copies of Trust's Plans to be Furnished.*—Copies of the Trust's plans will be furnished by the Trust upon application, and payment for the same as follows:—

Charges for Plans.—Plan of drainage, including survey, &c., for every house or building a minimum charge of 5s., and an additional charge of 5s. for every water closet more than one appurtenant to such house or building.

Plan of any alteration or addition to original plan—a charge of 2s. 6d.; except in cases where there may be additional closets, when the charge will be 5s. for each such additional closet.

Copy of plan of completed drainage will be supplied on payment of 2s. 6d. for each water-closet appurtenant to the house or building.

INSPECTION.

17. *Notice of Intention to Commence Work—Work to be Left Open for Inspection.*—The owner or his authorized agent, or the plumber, drainer, or contractor carrying out the work, must give at least twenty-four hours' notice to the Trust of his intention to commence work, and also when any work is ready for inspection. All work must be left uncovered and convenient for examination until inspected and approved of by an inspector appointed by the Trust. Such inspection shall be made within twenty-four hours of such notification being received at the office of the Trust, except when notification is received on Saturdays, when sixty hours must be allowed.

Tests to be Applied by Inspecting Officer—Defects to be Remedied—Penalty.—The inspecting officer may apply the ether, peppermint, water, or smoke test, and the plumber or drainer shall furnish all the necessary tools, labour, and assistance for such tests. The owner or his authorized agent shall remove or repair any defect when so ordered by the inspecting officer, and if he neglect or fail to do so he shall be liable, upon conviction, to a penalty not exceeding Five pounds and to a penalty not exceeding One pound for every day thereafter during which such neglect or failure shall continue.

Testing Joints.—Before the fittings are connected with the plumbing of any house or building, or after, if so ordered, and before the soil or waste pipe is connected with the sewer, the outlet of the soil or waste pipe and all openings into it below the top shall be hermetically sealed. The pipes shall then be filled with water to such height as the superintending officer of the Trust shall require, and every joint carefully examined for leaks. Work already in place may be examined by the peppermint or other test. Defective pipes must be removed and replaced by sound ones, and all defective joints made tight, and every part of the work made to conform to this By-law, and subject to the approval of an officer appointed by the Trust.

House Drains to be Tested.—House drains, whether laid by the Trust's workmen or others, must be thoroughly tested in every case before being passed by the Trust's officers. When being tested with water there must be a head of at least six (6) feet above every part of the drain.

Stoppages in Drain not to be Cleared without Notice.—Before a licensed plumber or drainer commences to clear a stoppage in a drain he must notify the Trust in writing of the time when he intends to clear the stoppage, so that an inspector may attend and pass the work in accordance with the provisions of the Act.

DEFECTIVE FITTINGS.

18. *Defective Pipes shall be Removed or Repaired on Notice from the Trust—Trust may Remedy Defect at Owner's Cost.*—Any drain pipe, soil pipe, trap, water closet, urinal, sink, or other fitting laid, used, or constructed otherwise than in accordance with this By-law, or which shall, in the opinion of the Trust, be or become bad, or of defective quality, shall, upon notice in writing from the Trust to the owner or occupier of the property, be by such owner or occupier removed or repaired in the manner determined, and within the time fixed by the Trust; and in case such owner or occupier fails to comply with the requirements of such notice he shall be liable to prosecution and penalty for an offence against the Act, or the Trust will, if it think fit, remove or repair the said defective fitting, and charge such owner or occupier of the

premises with the cost so incurred, and will proceed for recovery of the same in manner provided by the said Act.

QUALITY OF MATERIALS.

19. *Material, Work, and Fittings to be of Good Quality.*—All materials used must be of good quality and free from defects. The work must be executed in a thorough and workmanlike manner, and to the satisfaction of the Trust. No sanitary fitting shall be allowed to be connected to the sewers of the Trust unless it be of a type previously approved by the Trust, or unless special permission has been given by the Engineer-in-Chief for connexion of such fitting.

Materials to Comply with Trust's By-laws.—The utmost care must be exercised on all house connexion work to insure that only materials which are in accordance with the Trust's By-laws and Regulations are used.

STOPPAGES IN DRAINS.

20. *Stoppages in Drains to be Removed by Owners.*—Owners and occupiers of premises are responsible for clearing stoppages in drains within their premises or between their premises and the sewers into which the branches lead.

DRAINS.

21. *Houses to be Drained Separately.*—The drainage of each house is to be arranged for separately, unless in cases of properties belonging to the same owner, or where, in the Trust's opinion, special reasons exist for draining by a combined operation.

Combined Drainage.—Owners desiring to have the drainage of their properties combined must sign a request for a combined drain.

Not more than two houses shall be combined except by the permission of the Engineer-in-Chief.

When the drainage of more than two properties is combined an inspection chamber must be provided if shown on plan or ordered.

Boundary Traps.—Where several properties are connected with a private reticulation pipe there shall be a boundary trap at the building line, and the drain to each individual house shall have its own boundary trap.

Manholes.—At the head of every connecting branch to the Trust's sewers, at or near the boundary of the premises, a boundary trap must be fixed with or without a manhole, as may be ordered by the Trust. All the drains must, wherever considered necessary by the Trust, join in a manhole at least three feet (3ft.) long and two feet (2ft.) wide, fitted with a closed cover if for inspection purposes only, or with an open grating if for ventilation purposes. The portions of the drains crossing the floor of the manhole must be connected with the boundary trap, either in a straight line or by curved junctions in the floor of the manhole. The boundary trap must be provided with an inspection cap on the sewer side of the trap.

Where an open grating is inadvisable, the manhole must be provided with a closed cover, with a fresh air inlet fitted with a ventilation pipe of such size and materials, and so placed as the Trust may direct.

The drains outside of the house or building, or from isolated water-closets, to the street sewer shall be constructed of pipes of approved quality and manufacture.

Cast-iron Pipes to be Used in certain Cases—Cement.—Cast-iron pipes jointed with lead, as is usual in water pipes or other approved pipes, surrounded with at least six inches (6in.) of Portland cement concrete must be used, such concrete to be composed of 1 part Portland cement, 2 parts of clean sand, and 4 parts of stone of 1½-in. gauge, or gravel approved by the Inspector—

- (a) in yards or places liable to heavy traffic, where the cover over the drain is less than 2 ft. 6 in.;
- (b) in cases where the construction of drains under buildings is unavoidable;
- (c) where drains and fittings are to be laid and fixed at a distance of less than 6 feet from any cellar, water tank, or other excavation.

PIPE TRENCHES.

22. *Trenches for Drains: Construction and Guarding thereof.*—The trenches for the drains from all properties shall be dug so as to meet the public sewers at the position of the branches indicated by the Trust. The material from the trench shall be placed so as not to obstruct and so as to cause the least possible inconvenience to the public. Proper barriers and lights must be maintained on the banks of the trench during the progress of the work, to guard the public against accident. In refilling the trench the earth must be rammed or flooded carefully, so as to keep the pipe in position and avoid settling. No stone shall be used in refilling until there has been a depth of at least 2 feet of earth or gravel placed over the pipe.

SUB-SOIL DRAINAGE.

23. *Draining Sub-soil on Site of New Buildings.*—Every person who shall erect a new building shall, wherever in the opinion of the Trust the dampness of the site renders such a precaution necessary, cause the sub-soil of the site of such building to be effectually drained by means of suitable earthenware field pipes properly laid to a suitable outfall.

Trenches where Foundation Soil Damp.—Where the soil around the foundation is damp, trenches must be dug either round the building or in the cellar. In these trenches drain-pipes must be laid with joints covered with tarred canvas, with as much fall as can be obtained on even grades, and packed round with broken stones.

Discharge of Sub-soil Drains.—No such pipes shall be laid in such a manner or in such a position as to connect directly with any drain or sewer, but shall discharge into a manhole or open shaft made of earthenware pipes, and fitted with a dirt box which shall communicate with the sewer by a proper trap with a ventilating pipe on the sewer side. The "proper" trap must be one the seal of which is to be maintained by a pull and chain cistern, unless some waste-pipe connect with it.

BASEMENT AND CELLAR DRAINAGE.

24. *Water Closets and Urinals in Cellars or Basements.*—No water closet or urinal shall be placed in any cellar, basement, room, or apartment unless at least 5 feet of the walls of such cellar, basement, room, or apartment are above the surrounding land. In all cases where it is proposed to place a water closet or urinal below the level of the surrounding land, plans and sections showing provision for light and ventilation must be lodged with the application for approval of plan under section 41 of the Act.

Drainage of Cellars and Basements by Syphons.—Where any house shall have its lowest floor, cellar, or basement at a lower level than the sewer of the Trust into which such house would otherwise drain, the owner shall pending pulling down or alteration of such house, cause the drainage from such lowest floor, cellar, or basement to be raised by means of a syphon, or some other method approved by the Trust, so that it shall discharge into a drain communicating with the sewer of the Trust.

Drainage of Cellars and Basements by Gravitation.—Where, in the opinion of the Trust, a cellar or basement is so situated that it can be drained by gravitation to the Trust's sewers free from any risk of back-flow in the event of the sewers becoming surcharged, the Trust may permit such connexion, provided a sluice valve be fixed between the cellar or basement connexion, and the boundary trap to be kept closed as hereinafter mentioned; and provided the owner apply in writing for same; and furnish the Trust with an undertaking that such connexion is made at his risk, and indemnify the Trust against all damage in connexion therewith. In such cases the soffit of the pipe draining the cellar shall at its highest point be at least 2 feet below the cellar or basement at its lowest point.

Sluice Valves to be Kept Closed.—Sluice valves must be kept closed, and only opened when it is necessary to allow an accumulation of water to drain the sewers. Spindles of sluice valves must be fitted with permanently-attached extension rods of sufficient length and diameter to enable the valves to be opened or closed from above the level of ground floor or building.

RAIN WATER.

25. *Rain Water not to Enter Sewers.*—Rain-water conductors must not be connected with the sewers.

STABLES, ETC.

26. *Stables, &c., to be Paved, Graded, and Drained.*—All stables, dairies, paved yards, market places, cab stands, receptacles for sludge water from manufactories, areas where milk-cans are washed, and all polluted areas must be paved with approved material, graded and drained to the satisfaction of the Trust, and the drain therefrom must be trapped with an approved silt trap connected with the drain inside the boundary trap. The joints of stable floors and paved areas connected with the sewers of the Trust must be filled to full depth with either (1) good cement mortar in the proportion of one part of cement to not more than three parts of clean sharp sand, or (2) an admixture of pitch, distilled tar, and sand, mixed as directed, or (3) with other jointing material which may be approved by the Trust.

Stables, &c., to be Connected with Sewer.—All stables and cowsheds in actual use must be paved and graded to the satisfaction of the Trust, and connected with the Trust's sewers. The drainage of those not in use must be provided for, but they need not be connected with the sewers while they are unused.

And Discharge over Silt Trap.—The drainage from stable floors must discharge over an approved silt trap, which must be provided with a top of brickwork or Portland cement concrete, and fitted with a heavy grating.

MANURE BINS.

27. *Manure Bins to be Provided.*—Manure bins must be provided for all stables or cow-yards where the local Council's by-laws demand their construction, or where the locality is closely built on.

Structure of Manure Bins.—All the manure bins must have the inside surfaces rendered with cement mortar, and must be made impervious throughout. Walls of new manure bins must, unless otherwise approved, be at least 9 inches in thickness, built of brickwork laid in cement mortar.

Outlet Pipe.—If an outlet pipe be provided for a manure bin, it must be properly connected with the Trust's sewers.

Branches in House Drains.—Branches in house drains must be provided in all cases where manure bins exist, for their connexion whenever the Trust shall deem it necessary.

LAYING DRAINS.

28. *Size of Drain-pipes—Pipes to be Tested.*—All drain-pipes must be at least 4 inches in diameter, except where otherwise ordered by the Trust; and unless obtained from the Trust's store yard, must be taken to one of the Trust's depôts to be tested by the officer appointed by the Trust, in the machines provided for the purpose.

The cover of the branch on the sewer shall be carefully removed so as not to injure the socket.

The first length of the pipe attached to the branch shall be curved and set so as to give a good fall into the sewer.

Bedding of Pipes.—All pipes shall be carefully bedded on the barrel in the solid ground.

Cast-iron or Cement Concrete Pipes to be Used.—Where in the opinion of the Trust it is necessary, cast-iron pipes must be used or stoneware or cement concrete pipes bedded in concrete of dimensions approved by the Engineer-in-Chief, such concrete to be composed of one part of Portland cement, two parts of clean sand, and four parts of stone of 1½-in. gauge or gravel approved by the inspector.

Stoneware or Cement Concrete Pipe to be Laid Two Feet Below Surface.—Stoneware or cement concrete pipe drains must not be laid less than 2 feet deep from the surface to the centre line of the pipe. Where this amount of covering cannot be obtained, the stoneware or cement concrete pipes must be entirely surrounded with not less than 6 inches of Portland cement concrete, or the surface of the ground must be raised to the satisfaction of the Trust's inspector.

Pipes under Buildings.—All stoneware or cement concrete pipe drains under buildings and near roots of trees must be surrounded with not less than 6 inches of Portland cement concrete.

Jump-ups.—Jump-ups, where allowed, must be bedded on, and surrounded with 6 inches of Portland cement concrete to full height of drop.

Grade.—The drain-pipes shall be laid on an even grade of not less than 1 in 40 if a 4-in. pipe be used, or of 1 in 60 if a 6-in. pipe be used, unless by special permission of the Trust, in which case special provision must be made for regular and efficient flushing.

Direction.—As far as possible, all drains shall be laid in straight lines; where changes of direction occur they shall be made either by suitably curved pipes or in manholes.

Stoneware or Cement in Lieu of Cast Iron.—Stoneware or cement concrete drain pipes may be substituted for cast-iron drain pipes in every case except where the ground is soft or liable to heavy traffic; but in all cases where stoneware or cement concrete is substituted for cast iron the pipes must be entirely surrounded by not less than 6 inches of Portland cement concrete, whether inside or outside of buildings.

Drain Pipes through Walls.—All drain pipes carried through walls must have a space of about 3 inches clear left over the pipes.

Broken Pipes.—If a pipe be cut out to clear a stoppage, or if a pipe be broken, it must be replaced by a new pipe. The old pipe must not be patched up.

Cast-iron Pipes.—All cast-iron pipes must be sound, free from holes or cracks, and coated with tar or asphaltum.

Weights of Pipes.—The following weights will be accepted as standards for cast-iron drainage pipes:—

4-in. diameter, 16 lbs. per lineal foot.

5-in. diameter, 20 lbs. per lineal foot.

6-in. diameter, 23½ lbs. per lineal foot.

Fittings of Pipes.—All fittings used in connexion with such pipes shall correspond with them in weight and quality. All junctions must be curved; right-angled junctions must not be made.

Repair or Removal of Outside Closets.—Where outside closet buildings require repairing or removing, the necessary work within the space covered by the closet buildings may be carried out before the water closet branch is laid; but other portions of the drain may be laid, provided provision be made for effectually testing the closet branch when laid.

Repair of Paved Yards.—Wherever a paved, asphalted, or tar-paved yard or space has been broken in connexion with house drainage, the surface where so broken must be restored as nearly as possible to the same condition as it was in previously, unless otherwise required by the owner.

JOINTS—DRAINAGE.

29. Jointing of Cast-iron Pipes.—Cast-iron pipes shall be jointed with gasket and lead, and caulked as to make the joints gas and water tight. Wrought-iron pipes shall be screw jointed with white lead.

Connexions of Lead with Iron Pipes.—All connexions of lead pipes with iron pipes must be made with a brass sleeve or ferrule of the same size as the lead pipe, put in the socket of the branch of the iron pipe, and caulked with lead. The lead pipe must be attached to the sleeve or ferrule by a wiped joint.

Joints of Stoneware and Cement Pipes.—Joints of stoneware or cement concrete pipes shall be made with Stamford joints or cement joints with gaskets.

Ends of Private Drains to be Closed.—The ends of all private drains not immediately connected with the plumbing fixtures shall be securely closed with water-tight imperishable materials. If stoneware or cement concrete, a stoneware, cement concrete, or cast-iron disc must be cemented in; if wrought iron, a plug must be screwed on the end; if cast iron, a cast-iron plug must be caulked in with lead.

Connexions of Galvanized with Cast-iron Pipes.—Connexions of galvanized sheet-iron vent pipes to cast-iron do not require a brass sleeve unless ordered by the Engineer-in-Chief.

VENT PIPES—DRAINAGE.

30. Main Drain Vents.—The main drain leading to the boundary trap must be vented at its upper end by a pipe or shaft erected vertically to such a height that the mouth of the pipe or shaft shall be at least 6 feet higher than any window, door, or other opening situated within a distance of 30 feet therefrom. If the drain cannot be vented at the upper end, the system of ventilation must be reversed.

Branch Drain Vent.—Branch drains need not be vented if the drainage traps be within 15 feet of the main drain.

Height of Vent Pipe.—Every vent pipe extending upwards from a soil or drain pipe must be carried to such a height as may be deemed necessary by the Trust, and in any case at least 2 feet above the highest part of the roof or coping.

Size of Vent Pipe.—Every vent pipe must be of undiminished size, without return bend, with basket end, or educt or induct cowls as ordered, and it must not open near a window, a chimney, or an air shaft which ventilates living rooms.

Vent Pipes near Windows, Doors, &c.—All vent pipes in an extension of a main building, when otherwise they would open within 30 feet of the windows, doors, or other openings into the main building or the adjoining building, must be extended to such a height above the roof of the main building as may be deemed necessary by the Trust.

Diameter of Main Educt Vents.—All the main educt vents on house drains shall be of the same diameter as the drains unless special permission be given to vary their dimensions.

Chimney Flue not to be Used as Vent.—No chimney flue shall be used as a sewer ventilator, or to ventilate any drain, soil, or waste pipe.

Protection of Inlets and Vent Openings.—All inlets to drains or openings for ventilating shall be efficiently protected by proper gratings of ample area. The aggregate area of the apertures in any grating covering a ventilation opening shall not be less than the sectional area of the pipe or drain to which such grating is fixed. All openings for ventilation made in accordance with this By-law, or upon order of the Trust, shall at all times be kept open and perfectly free from obstruction.

Sheet-iron Vent Pipes to be Tar Coated Inside.—All galvanized sheet-iron vent pipes used to ventilate the drainage system, or used as anti-syphonage pipes to soil or waste pipes from closets, slop sinks, or urinals, must be coated with hot tar or asphaltum inside before erection.

Sheet-iron Vent Pipes to be Double Galvanized.—All drainage sheet-iron vent pipes must be double galvanized.

Staying of Vent Pipes.—Whenever vent pipes from drains are not more than 12 feet above the offset they will not require staying; if longer, they must be stayed with $\frac{1}{2}$ -in. galvanized wrought-iron pipe.

Pipe Clips.—When a galvanized sheet-iron pipe, with or without an offset, is carried up above the brick wall of a building, a galvanized wrought-iron pipe clip shall be used, leaded to the wall near the top wherever possible, and bolted against vent pipe. All band iron clips or vent pipes to brick walls must be fastened with nuts and bolts, leaded in.

A length of 20 feet of straight vent pipe without offset may be fixed without stays.

There shall be at least one pipe hook or clip to each 6-ft. length of vent pipe.

Vent Pipes near Chimney Openings.—When vent pipes terminate more than 6 feet from chimney opening, at the same level, the ordinary rules as to height are to apply; but when the distance is 6 feet and under, the vent pipe must terminate 2 feet below the chimney opening. Vents must, as far as possible, be kept away from chimneys.

Vent Pipes below Parapet or Ridge.—When it is not possible to carry a vent pipe above the parapet or ridge the pipe must be carried up as high as it will stand without staying, provided it is 30 feet from a window or door. When it is at a less distance than this it must be carried up 6 feet higher than any window or door opening within a radius of 30 feet of the vent pipe, and have sufficient stays to support it.

Wooden Blocks for Vent Pipes.—Wooden blocks for vent pipes will not be allowed on walls; when used on posts they must be of redgum or jarrah.

Supports for Induct Vent Pipes.—When a sufficiently strong support cannot be obtained for the induct vent pipe, a plated and strutted redgum or jarrah post, sunk 2 feet in the ground, of dimensions not less than 4 in. x 4 in., must be fixed to support it.

Cellar Drainage Ventilation.—In any case of cellar drainage ventilation where, in the opinion of the Engineer-in-Chief, the length of the drain connecting the premises with the sewer and the shortness of the distance between the cellar and the boundary trap shall render such a course advisable, the vent pipe may be taken from the sewer side of the boundary trap, and the ventilation shaft must be entirely outside the building. But if the vent pipe be taken from the house side of the boundary trap the ventilating shaft may be inside the building.

TRAPS—DRAINAGE.

31. Traps of three (3) classes shall be used:—

(a) **Traps for Intercepting Gases.**—“Traps” for intercepting gases only, to be of round section and self-cleansing form, but not so easy as to empty by momentum or suction.

(b) **Silt Traps.**—“Silt Traps” for intercepting both gases and solids, to have slightly tapered sides, flat bottom, and rounded (not sharp) angles, and provided with trays fitted with handles for catching and removing solids.

(c) **Grease Traps.**—“Grease Traps” for solidifying and collecting grease or other semi-fluid matter liable to foul the pipes, to be of such form as may from time to time be approved.

“Gully.”—The term “gully” is applied to traps (a) and (b) in cases where they are to be used externally, and fitted with dished tops and gratings. In such case the dish must be in one piece with the trap, or jointed thereto spigot and socket, and the depth of the dish from the top to the grating must not be less than 6 inches, and the grating must be removable.

“Disconnecter.”—The term “disconnecter” is applied to traps in cases where provision has to be made for inlet ventilation to the pipe or pipes discharging therein.

Water Seal on Traps.—All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case of less than $2\frac{1}{2}$ inches.

Gully Traps on Slop Sinks.—Unless a slop sink be fixed inside the building a gully trap must be provided in the yard of every house, placed as near as possible to the back of the kitchen door, with a tap placed over it at a height of about 2 feet, except in cases where the owner desires the tap to be placed higher.

Gully Traps and Silt Traps to be Surrounded by Brick or Concrete.—Gully-trap basins and tops of silt traps must be surrounded with brickwork or concrete neatly rendered inside with cement mortar. The internal diameter of brickwork around gully traps measured from face of cement rendering must not be less than 15 inches, and must be neatly rounded to meet the gully top. The walls at rear of gully and silt traps, if of brick or stone, must be cement rendered to height of tap; if traps abut against a wooden wall, a sheet galvanized-iron apron must be fixed.

Height of Top of Traps.—The top of all traps must be at least 6 inches above the surface of the surrounding ground.

Gratings to Gully Traps.—Gratings to gully traps must not be less than 6½ inches overall, with openings of suitable outlet capacity.

Gratings to be Fixed.—All gratings must be fixed down in an approved manner with bitumen or wedges of lead.

Connexion of Boundary Trap and Connecting Drain.—When the connecting drain is considerably deeper than the depth at which the boundary trap will be required to be placed to provide for existing or future cellars or subsoil water, the boundary trap, instead of being connected directly to the connecting drain, may, if approved, be connected to a jump-up or vertical extension from the same.

WATER SUPPLY.

32. Water for Flushing.—All water-closets and other plumbing fixtures must be provided with a sufficient supply of water for flushing purposes to keep them at all times in a proper and cleanly condition.

Owners to Provide Approved Piping for Water Supply Before Connecting with Sewers.—Every owner of property who shall desire, or who shall have been ordered by the Trust to provide sanitary appliances for his property, and to connect the same with the sewers of the Trust, must, prior to or at the commencement of the work of making such connexion, provide piping approved by the Trust for the conveyance of water, and cause the same to be joined to the most convenient water supply main, or, with the permission of the Trust, to some pipe already joined thereto, which piping must be of capacity sufficient to supply all sanitary fittings on the premises freely and continuously, and convey to the flushing cistern of each water-closet upon the property enough water to fill such cistern within five minutes, and he shall cause such piping to be connected with such cistern prior to the completion of the work.

Sanitary Fittings to be Connected with Sewer.—No water-service pipe shall be laid to supply any sanitary fitting in any property in the drainage area unless such fitting be connected with the sewers of the Trust; or unless the special permission of the Trust in writing shall have been previously given to lay on such water supply.

Water Piping for Sanitary Uses to be Separate.—The piping to convey a supply of water to the tenement for sanitary uses shall not, for the purpose of obtaining such supply, be joined to the piping which conveys water to another tenement, for general purposes.

Where Meter Used an Independent Tapping Allowed for Sanitary Purposes.—Check Meter on Closet Service.—*Allowance where Sanitary Supply passes through Meter.*—Where a house is supplied through meter, an independent service or an extension from the existing service, taken from the main side of the meter, will be allowed to the closets or urinals. Such independent service or extension must be so laid that, in the opinion of the hydraulic engineer, there shall not be any risk of branches being taken from it for any other purpose; or a check meter may be fixed on the closet service, and the water registered through it will not be charged for (unless the Trust shall hereafter order otherwise), provided that there be no automatic flushing cistern fixed. An allowance of 7s. 6d. per closet will be made in cases where the branches to closet services are taken off on the service side of the meter.

Plumbers' Notices to state if Supply through Meter or not.—All plumbers' notices for laying on water for water-closets, or making any alterations when the tenement is supplied through meter, must distinctly state whether such supply to the closets is or is not to pass through the meter.

Water-supply Pipes to Storage Tanks.—Water-supply pipes to storage tanks for internal closets must be 4-in. diameter for tanks up to 20 gallons, and 2-in. for tanks of larger size, and be provided with high-pressure ball taps, except where the height of the storage tank is not sufficient to allow of high-pressure ball taps being used when low-pressure ball taps may, with the consent of the hydraulic engineer, be fixed to 2-gallon cisterns.

Outlets from Storage Tanks.—Outlets from storage tanks must not be less than 2 inch when supplying one or two cisterns, and 1 inch for three to six cisterns. Whenever a larger number than six cisterns is fixed, the size of the outlet must be increased. The overflow from storage tanks must be 1½ inch in diameter, and a stop-tap must be fixed on the rising supply pipe to tank.

Where Modification of Provisions Required Application must be Made.—Where any deviation from these provisions is desired in special circumstances, an application in writing (in addition to the plumber's notice) must be made, and must distinctly state the reasons why such deviation is required, and pending the consent of the Trust the work must not be undertaken.

Lead Pipe between Flushing Cistern and Supply Pipe.—In all water-closets a piece of lead pipe not less than 12 inches in length must be used between the flushing cistern and the supply pipe.

PLUMBING RULES—GENERAL.

33. Separate Internal Wastes.—Separate internal wastes shall be provided for each of the following classes of polluted waters, viz. :—

- (1) Dirty water from baths, pantry, and china closet sinks, lavatories, and wash troughs, and other waters with a small proportion of soap and dirt.
- (2) Greasy water from kitchen and scullery sinks, where grease traps are required.
- (3) Soil water from closets, and other water containing fecal matter, and urinal water from housemaids' slop sinks and public and private urinals.

Connexion of Waste Pipe with Drain.—Each of these separate waste pipes, except those for soil water, and in special cases where permission has been granted those for urinal and slop-sink water, must be connected with the drains through a gully or disconnector trap.

Waste Pipes not to be Laid in Ground.—No waste pipe shall be laid in the ground outside any building unless by special permission.

Materials of Soil Vent or Water Pipes within Buildings.—No material shall be used within the building for soil, vent, or waste pipes other than wrought or cast-iron pipes with securely screwed or leather joints, or lead pipes with wiped joints. Cement or putty joints, or tin or sheet-iron pipes, whether galvanized or not, shall not be used.

In all cases the upward extension from the soil pipe for ventilation must pass in as direct a manner as possible above, and, if necessary, through the roof.

Minimum Sizes and Weights of Soil, Waste, and Vent Pipes.—The following are the minimum sizes of soil, waste, and vent pipes, and weights of lead, soil, waste, and vent pipes, which must be used throughout, unless otherwise specially ordered by the superintending officer :—

Fitting.	Diameter of Waste Pipe.	Minimum Weight of Lead Waste Pipe.	Diameter of Vent Pipe.	Minimum Weight of Lead Vent Pipe.
	inches.	lbs.	inches.	lbs.
One Wash Basin	1½ to 1¾	6	1½	6
Row of Wash Basins	1½ to 2	6	1½	6
Wash Basin Overflow	1½ to 1¾	6	1½	6
One Bath	2	6	1½	6
Combined Waste for Baths	2½ to 3	6	2 to 2½	6
Bath Overflows	1½ to 2	6	1½	6
Wash Tub	2	6	1½	6
Set of Tubs	2	6	1½ to 2	6
Kitchen Sink	2	6	2	6
Pantry Sink	2	6	2	6
Slop Sink	2½ to 3	7	2 to 2½	7
One Urinal	1½	7	1½	7
Row of Urinals	2	7	1½ to 2	7
Soil Pipes	4	7	2 to 3	7

Cast-iron Pipes to be Sound.—All cast-iron pipes must be sound, free from holes and cracks, and coated with tar or asphaltum.

Standard Weights of Cast-iron Pipes.—The following weights will be accepted as standards :—

- 2-in. diameter, 5½ lbs. per lineal foot.
- 3-in. diameter, 8 lbs. per lineal foot.
- 4-in. diameter, 13½ lbs. per lineal foot.

Wrought-iron Pipes.—All wrought-iron pipes must be of approved standard weight and quality, and galvanized or coated to the satisfaction of the Trust.

Fittings Used with Pipes.—All fittings used in connexion with such pipes shall correspond with them in weight and quality. All junctions must be curved; right-angled junctions must not be made.

Lead Pipes Used for Waste or Vent Pipes.—Where lead pipe is used for waste or vent pipes, such pipes must not be lighter than of 6-lb. lead; but where, in the opinion of the Engineer-in-Chief, a heavier weight may be required, such heavier weight as the Engineer-in-Chief shall desire must be used.

Weights and Thickness of Cast-iron and Glass-enamelled Pipes.—No cast-iron pipe laid in the ground or fixed above the ground shall, for the first 9 feet above the ground, be less than the standard weights given in this By-law, but for cast-iron soil waste and vent pipes

in other positions, and for glass enamelled pipes, the following modifications of this By-law will be allowed, viz. :-

- Cast-iron soil and waste pipes, minimum thickness, $\frac{1}{4}$ inch.
- Cast-iron ventilation pipes, 2-in., 3-in., and 4-in. diameter, minimum thickness, 3-16th inch.
- Glass-enamelled pipe, if not under heavy pressure, may be 3-16th inch in thickness, without coating, for 3-in. or 4-in. soil or waste pipes. Glass-enamelled pipes shall be measured without enamel.

All soil pipes shall be at least 4 inches in diameter.

Position and Fixing of Soil, Waste, and Vent Pipes.—Where lead or cast-iron soil, waste, or vent pipes are fixed outside a wall for upstairs fittings, the cast-iron pipes must be carried up above the level of the highest fitting attached to the pipe.

Galvanized sheet-iron vent pipe must not be fixed at a lower level than the topmost fitting on the stack of waste pipe.

Cleaning eyes.—Sufficient inspection and cleaning eyes must be provided in such positions on cast or wrought-iron wastes as to be easy of access for proper cleansing of these wastes.

Cloth Washers to be Used.—Where inspection openings are provided to soil and waste pipes, preference must be given to insertion cloth washers before red lead.

Soil, Waste, and Vent Pipes and Traps to be Exposed to View.—The soil, waste, and vent pipes, and traps, must, where practicable, be exposed to view at all times for ready inspection and for convenience of repairing. When unavoidably placed within partitions or recesses of walls, soil, waste, or vent pipes must be covered with woodwork so fastened with screws as to be readily removable.

The arrangements of soil and waste pipes must be as direct as possible.

Gradients to be Adopted.—The following are the minimum gradients to be adopted :—

Sizes of Pipes.	Gradients.	Sizes of Pipes.	Gradients.
6-in.	1 in 60	1½-in.	1 in 15
4-in.	1 in 40	1¼-in.	1 in 12
3-in.	1 in 30	1-in.	1 in 10
2-in.	1 in 20		

No variation will be allowed except by permission of the Engineer-in-Chief.

Area of Openings in Gratings.—The area of openings in gratings to any waste must not be less than will fully charge the waste pipe to which it is attached; and must be in accordance with the Trust's standard drawings.

Diameter of Main Waste Pipe.—A main waste pipe into which lavatories, baths, or sinks discharge must be at least two inches (2in.) in diameter.

Minimum Gauge of External Galvanized Vent Pipes.—External vent pipes of galvanized iron must be of not less gauge than the following diameter :—

- 1½-in., 2-in., and 2½-in.—22-gauge galvanized iron.
- 3-in. and 4-in.—20-gauge galvanized iron.
- 6-in.—18-gauge galvanized iron.

Material of Vent Pipes Inside Buildings.—Vent pipes, if inside a building, must in all cases be of cast or wrought iron or lead. Grooved or riveted double galvanized-iron vent pipes may be used where they are entirely outside a building, and these must be connected with the traps or waste pipes with brass ferrules, or other joints approved by the Engineer-in-Chief.

Branching of Vent Pipes.—The various vent pipes may be branched into a soil or waste pipe of the same class above the level of the highest fixture. They may be combined by branching together those which serve several traps of the same class.

Vent Pipes to have Continuous Slope.—Vent pipes must always have a continuous slope, to avoid collecting water by condensation.

Not to be Used as Waste or Soil Pipes.—Vent pipes shall not be used as waste or soil pipes.

Galvanized Sheet-iron Vent Pipes may be Used in Stables, &c.—Galvanized sheet-iron vent pipes may be used inside stables or open sheds in place of cast-iron pipes, except where liable to blows from vehicles or to other external damage.

Inspection Opening on Soil Pipe.—In all cases where the vertical stack of the soil pipe provides for closets 4 feet or more above ground level, a short length of pipe, with inspection opening cover close to the ground, clamped to a flange on the pipe with bolts, must be fixed.

Lead Pipes Disallowed under Ground Floors.—Lead pipes must not be used under ground floors where they are inaccessible or in the soil. In such places cast or wrought iron must be used.

Anti-syphonage Vent Pipes.—Anti-syphonage vent pipes or fittings discharging into gully or disconnector traps must be carried above the eaves of the building, unless special permission to the contrary be granted by the Engineer-in-Chief. These vent pipes must be branched to the waste or soil pipe, as near as possible to the trap.

Additional Branch to Vent Pipe.—Where an additional branch is required to a galvanized sheet-iron vent pipe already fixed, a brass saddle piece bolted and soldered to the existing vent must be used.

Ventilation of Waste Pipes from Disconnected Fittings.—Waste pipes from disconnected fittings (except urinals and slop sinks) need not be ventilated unless they exceed 12 feet inclined, or 18 feet vertical, in length (or their equivalent), and branch wastes to such fittings, if connected with the ventilated main waste, provided there be no other fittings attached to the line of waste, may be 12 feet in length without being ventilated, unless syphonage occurs in a trap, in which case a vent pipe must be supplied to the waste of that trap.

Concealed Wastes.—Concealed standing wastes are not allowed.

Spacing of Lead Tacks.—Spacing of lead tacks must be arranged as nearly as possible, thus :—

- 4-inch vertical lead pipes, 2 ft. 6 in. centres.
- 4-inch horizontal lead pipes, 2 feet centres.
- Less than 4-inch vertical lead pipes, 3 feet centres.
- Less than 4-inch horizontal pipes, 2 ft. 3 in. centres.

Tacks for Lead Flush Pipes.—One pair of tacks fixed opposite is sufficient for lead flush pipes for cisterns with lugs; in other cases an extra tack must be fixed as near to the cistern as possible.

Flashing for Baths, Troughs, &c.—Where water might otherwise percolate to the floor, baths, troughs, and the like fittings must be flashed with sheet lead of not less than 4 lbs. per square foot, or other approved material. All flashings must be turned up walls at least 4 inches, properly secured, and made water tight. This provision shall not apply to the sinks which are specially provided for under clause 38 of this By-law.

Removal of Soil, Waste, Vent, and Water Supply Pipes where Fitting Abolished.—Whenever a fitting is abolished, the soil, waste, vent, and water supply pipes to such fitting must be removed, or if allowed by the Trust to remain, the ends of pipes must be sealed with water-tight, imperishable materials. Wrought-iron pipe must be sealed with screwed plug; a cast-iron pipe must have cast-iron plug caulked in with lead; lead pipe must have end securely closed with properly wiped joint; stoneware or cement concrete pipe must have a disc cemented in.

JOINTS—PLUMBING.

34. **"Wiped Joints" to be Used.**—All connexions of lead waste and vent pipes shall be made by means of wiped joints.

"Molten Lead" Joints.—All connexions of galvanized sheet-iron pipes to cast-iron pipes shall be made with molten lead and be lightly caulked.

Brass Sockets or Sleeves.—Brass sockets or sleeves must be used in connecting galvanized sheet-iron to wrought-iron pipes; and proper brass sleeves must be used in connecting galvanized sheet-iron pipes to lead pipes. Sheet-iron pipes must not be soldered to lead pipes.

"Butting."—In connecting galvanized wrought-iron waste pipes the ends of the pipes must be butted by means of short sockets of a minimum length of 1½ inches, or the pipes must be sufficiently threaded to allow of the butting being done.

Lead Cap Piece.—The flushing pipe from cistern to water closet must be connected by a lead cap piece with red lead packing.

Vent pipes must be connected to the vent horn of the water-closet trap by a lead cap piece with red lead packing.

TRAPPING FITTINGS.

35. **Water Closets, &c., to be Trapped.**—Every water closet, urinal, lavatory, slop or other sink, bath, and wash trough, or set of wash troughs, must be separately and effectively trapped.

Position of Traps.—Traps must be placed as near to the fittings as possible, and in no case shall a trap be more than 2 feet from a fitting unless specially allowed by the Engineer-in-Chief.

Prevention of Trap Syphonage.—In the event of trap syphonage, it must be prevented by a special pipe connected to the waste pipe at a point not less than 3 nor more than 12 inches from the highest part of the trap, and on that side of the water seal which is nearest to the soil or waste pipe.

Weight of Lead Traps.—All lead traps must be of 7 lbs. drawn lead.

Water Seal in Traps.—All traps must have a water seal of at least half the diameter of the outlet pipe, but in no case of less than 2½ inches.

"P" Form of Traps to be Used.—The P form of traps, with wastes above floors, and with joints visible and accessible all round, must be used in all internal fittings where possible.

"S" Form Not to be Used without Special Permit.—The S form of traps, with wastes under floors, shall only be used by special permission. Where used, facilities for periodical inspection must be provided.

Except in Detached Closets.—In detached closets and urinals, approved S forms in earthenware, with joints visible and accessible all round, may be used.

Fittings Inside of Building to be Trapped.—All fittings inside of main building, and also in buildings directly attached to a main building with doors or windows opening directly into living rooms, work rooms, or kitchens, must be trapped.

GREASE TRAPS.

36. Fixings and Materials of Grease Traps.—Every grease trap shall be fixed outside the premises, wherever possible, and (if not portable) must be of stoneware or cement concrete, and attached directly to the drain or disconnector trap.

Size of Grease Traps.—The size of grease traps in ordinary cases must be as nearly as possible the following, viz.:—Portable copper, 21 inches in length; stoneware or cement concrete, 27 inches in length.

Copper Grease Trap.—Wherever a copper grease trap is used inside a building, it must be fitted so as to be easily movable.

Size of Grease Trap Discharge Pipes.—The size of grease trap discharge pipes, except in special cases, must not be less than 3 inches for copper, and 4 inches for stoneware or cement concrete.

Ventilation of Grease Traps.—All large grease traps which are built in brick or slate must have provision made for inlet and outlet ventilation.

When Grease Traps to be Provided.—Sinks, and all such places as food packing houses, butchers' shops, lard-rendering establishments, hotels, restaurants, boarding-houses, and laundries, and wherever ordered by the Engineer-in-Chief, shall be provided with suitable approved grease traps.

WATER-CLOSETS AND LATRINES.

37. Area and Height of Water-closet—Floors.—The area of any water-closet must not be less than 15 square feet, with a minimum internal dimension of 3 feet, inside measurements. The minimum height to be not less than 8 feet. The floors of all water-closets must be constructed of concrete tiles or other approved impervious and non-absorbent material. Seats must be either flap or hinged tip-up.

Position of Internal Water-closets.—Every internal water-closet shall be constructed in such a position that one of its sides at least shall be an external wall which shall abut immediately upon the street, or upon a yard or garden or open space of not less than 100 square feet of superficial area, measured horizontally at a point below the floor of such closet.

Entrance to Internal Water-closet.—Such water-closet shall not be constructed so that it is entered directly from any room used for the purpose of human habitation, or for the manufacture, preparation, or storing of food for man, or used as a factory, workshop, or work place. Such water-closet shall be constructed so that on any side on which it would abut on a room intended for human habitation or use for the manufacture, preparation, or storage of food for man, or used as a factory, workshop, or work place, it shall be enclosed by an air-tight partition of brick or other approved material extending the entire height from floor to ceiling.

Such water-closet apartment must be entered only from a well-lighted and well-ventilated hall, passage, lobby, or staircase; or, if proposed to be fixed in or adjoining a room used for the purpose of human habitation, or as a factory, workshop, or work place, must be cut off from such room, factory, workshop, or work place by a separate enclosure adjoining the closet apartment. Such enclosure must have a floor area of at least 20 square feet per closet, and must be enclosed on all sides with air-tight partitions extending from floor to ceiling or ceiled over with an air-tight ceiling at an approved height from floor.

Such halls, passage, lobby, staircase, or enclosure must be provided with a window having an area of at least 2 square feet, opening directly into the external air. If such method of lighting enclosure be impracticable, other methods of naturally lighting same must be provided.

Windows in Water-closet.—Such water-closet apartment must be provided with a window of such dimensions that an area of at least 2 square feet, exclusive of frame, shall open directly into the external air.

Ventilation of Water-closet.—In addition to a window, such water-closet apartment, and such hall, passage, lobby, staircase, or enclosure must be provided with independent, adequate means of constant inlet and outlet ventilation, by means of air-bricks built in external wall of such water-closet apartment, hall, passage, lobby, staircase, or enclosure, or by combination of an air-brick and an air-shaft, louvred openings, or by some other effectual method or appliance for ventilation. The effective area provided for outlet ventilation of each water-closet apartment, hall, passage, lobby, staircase, or enclosure, must not be less than 27 square inches, and where the level of the floor of closet is lower than the outside surface of the ground, exhaust ventilation must be provided by means of a tube at least 6 inches in diameter carried up through roof and furnished with cowl.

Water-closet to be Furnished with Basin of Non-absorbent Material—Size of Closet Seat Openings—Size of Pans.—The water-closet shall be furnished with a basin of non-absorbent material of such shape, capacity, and mode of construction as to receive and contain a sufficient quantity of water, and to allow all filth which may from time to time be deposited in such basin to fall free of the sides thereof and direct into the water received and contained in the basin. To prevent fouling of pan, the closet seat openings must not be larger than 10½ inches x 9 inches, and seats with holes so large as to cause fouling of the pan must not be used. Pans must measure at least 12 inches between the lowest edge of the front and back faces of flushing rims.

Closet pans and fittings thereto must be entirely open to inspection without any enclosure.

Adequate Provision for Flushing Basin.—A suitable apparatus must be provided for the effective application of water to the basin of the water-closet, and for the effective flushing and cleansing of such basin, and for the prompt and effective removal therefrom of any solid or liquid filth which may from time to time be deposited therein.

Separate Flushing Cistern for every Closet Pan.—Every closet pan shall be furnished with a separate flushing cistern or other apparatus approved by the Trust, of at least 2 gallons capacity, which shall be so constructed, fitted, and placed as to admit of the supply of water for use in such closet pan without any direct communication with any service pipe upon the premises.

Size of Flush Pipe from Cistern.—The flush pipe from such cistern shall in no case be less than 1½ inches internal diameter, and shall be fitted as straight as possible under the circumstances. The bottom of every such cistern shall be at least 5 feet above the closet seat, but in cases where this distance cannot be obtained in existing buildings without structural alteration, 4 feet will be allowed, but the internal diameter of the down pipe must then be 1½ inches. Every cistern must be fixed so that the ball tap shall be accessible. Cisterns of all closets must have a separate stop tap to each. Cistern boards must be in one piece, not less than 10 inches deep and 1½ inches thick.

Venting of Water-closet Inside Main Building.—All water-closets inside a main building must be vented either by a soil bent pipe, or, if considered necessary by the Engineer-in-Chief, by back-venting the trap at a point near the crown of the trap where directed.

Provision to Prevent Syphonage.—In every case where there is more than one closet on an upstairs floor, provision must be made for ventilating in an approved manner to prevent syphonage, and so as to have a current of air continually passing through the soil pipes.

Where there are more than three closets on the ground floor, special provision must be made to prevent syphonage.

Venting of Branch from Closet to Main Soil Pipe.—Where the branch from the closet to the main soil pipe is not more than 3 feet in length, and such closet is the only one attached to the soil pipe, the branch may be allowed to remain without any further venting.

Flap Seats and Cast-iron Brackets.—Where flap seats are required for water-closets, with separate pans and traps, cast-iron brackets must be provided, screwed to, or built into, the back wall of the closet and supported in front by an iron support secured to the floor.

Internal Water-closets to be Provided with Storage Tanks.—Internal water-closets must be provided with storage tanks capable of holding 6 gallons of water for each occupant of the building. These tanks may be of 22-gauge galvanized sheet iron, or 24-gauge corrugated iron. The storage tanks may be placed in the closet room itself, on the roof over a flat or gutter, or in an accessible place between the ceiling and the roof, in which latter case a galvanized sheet-iron or lead safe, with overflow, must be fixed under the storage tank. If the owner desire not to provide storage tanks, he must make a request, in writing, accepting all responsibility in the matter.

BATHS AND LAVATORIES.

42. *Size, &c., of Waste Pipe from Bath or Lavatory.*—The waste pipe from a bath or set of lavatories must be at least 2 inches diameter, trapped with a deep syphon trap with a cleansing screw, and provided with a 1½-inch vent pipe for the bath, 1¼-inch vent pipe for lavatory. The waste pipe must be carried separately to the open air, and delivered over a gully trap or into a disconnector trap.

Waste Pipe from Single Lavatory.—The waste pipe and trap from a single lavatory newly placed must be at least 1½ inches in diameter, and the area of the grating must be sufficient for the water to effectually scour the waste pipe. The waste pipe must be as short as possible, and discharge over a gully trap or into a disconnector trap.

Waste Pipe from Set of Lavatories.—From two to six lavatories must have at least a 1½-inch combined waste pipe; and from seven to twelve a 2-inch waste.

Ventilation of Internal Lavatories to Prevent Syphoning.—In all internal lavatories, where syphoning occurs, separate trap ventilation must be provided. In ranges of lavatories in external buildings or rooms isolated from the main building the waste may be ventilated by single pipe at its upper end.

Tip-up Basins Not Allowed.—Tip-up basins will not be allowed to be connected with the sewers unless they are already in existence, and are allowed to be retained as existing fittings; the waste pipes from such basins must be 2 inches in diameter.

Galvanized Iron Baths to be Supported.—Where it is necessary to fix new wastes to galvanized iron baths, the bottoms of which are unsupported, efficient supports for the baths must be provided before the wastes are fixed.

Bath Traps on Outside of Wall.—Where a bath trap is fixed on the outside of a wall it must in no case be more than 2 feet from outlet of bath, unless with special permission of the Engineer-in-Chief.

Position of Pedestal Baths.—Where pedestal baths are to be fixed, and it is not desired to flash them, they must be fixed with a space of at least 6 inches clear of walls.

SAFES, OVERFLOWS, ETC.

43. *Draining of Safes Under Water Closets, Urinals, &c.*—Unless where otherwise allowed by the Engineer-in-Chief, every safe under a water closet, urinal, lavatory, bath, refrigerator, sink, or other fixture, must be drained by special pipe not directly connected with any waste pipe, soil pipe, drain, or sewer. It must be provided at the outlet into the open air, with flap valves of brass or other approved metal.

Discharge of Pipes Draining Safes.—Pipes draining safes may discharge into the open air only when the discharge will not cause any inconvenience or nuisance. In all other cases the pipes must be brought to the ground surface, or be arranged to discharge where they will not prove a source of annoyance or inconvenience.

Size of Pipes for Safes.—Pipes for bath safes must be of 2 inches diameter, and those from closet and urinal safes must be of 1½ inches or 1¼ inches, as directed.

Brass Grating.—A brass grating must be fixed to the inlet of each safe pipe.

No Steam Exhaust, Blow-off, or Drip Pipe to be Connected with Sewer.—No steam exhaust, blow-off, or drip pipe shall be connected with the drain or sewer, or with any soil or waste pipe. Such pipes must discharge into the rain water channels.

Existing Lead Safes.—On special application of the owner, lead safes already in position may be retained as existing fittings.

Safes Under Fittings on Upstairs Floor.—It shall be compulsory to fix a lead safe or other impervious material under any fitting on an upstairs floor.

Regrading of Existing Bath Floors.—Existing bath floors must be regraded if necessary in the opinion of the Trust's inspecting officer and a proper waste pipe and flap valve must be fixed.

Overflow from Cisterns.—On ground floors where cisterns are fixed over concrete or tiled floors graded to drain outside of the room, the overflow may discharge on to them provided no damage is likely to arise therefrom.

Overflows from cisterns, wherever possible, must be taken through external walls, and must discharge inside the owner's property, but in exceptional cases permission may be given to discharge into a slop sink or other fitting or on to a lead cufe which has a drainage pipe attached.

EXISTING FITTINGS.

44. *Existing Fittings to be Removed if Offensive.*—Existing fittings and appliances which are offensive must be removed at once, and all fittings not in accordance with this By-law shall only remain at the distinct request of the owner, and must be removed at any time the Trust so orders.

GRATINGS.

45. *Gratings.*—The entrance to exit pipes to all fixtures, except water closets, shall be furnished with suitable permanently attached gratings.

CONSENT, SANCTION, ETC., OF THE TRUST.

46. *Consent, &c., of Trust—how same may be given.*—Where the sanction, permission, authority, consent, approval, satisfaction, order, direction, opinion, indication, or notice of or from the Trust is necessary, whether special, in writing, or otherwise, with regard to any act, matter, or thing mentioned in this By-law, the same may be given by and under the hand of the Chairman of the Trust, or of the Engineer-in-Chief, personally, or through an inspection officer appointed under him, who severally shall be competent to give the same, and authorized on behalf of the Trust, to prescribe any conditions attaching thereto, and subject to and in accordance with which only the same shall be deemed to have been given.

VARIATION OF REGULATIONS.

47. *No Variations Without Prior Special Permit.*—No variation from the Regulations contained in this By-law will be allowed except by the special written approval of the Trust obtained previously to the proposed variation being carried out.

OFFENCES AND PENALTIES.

48. *Offences.*—Where anything is by this By-law directed to be done, or forbidden to be done, or where any authority is given to the Trust or any of its officers to direct or to forbid anything to be done, and such act so directed to be done remains undone, or such act so forbidden to be done, is done, then and in every such case the person making default as to said direction or prohibition respectively, shall be guilty of an offence against this By-law.

Penalties not Otherwise Provided for.—Every person guilty of an offence against this By-law, not otherwise specially provided for by or under the authority hereof, shall be liable for every such offence, besides any costs or expenses which may be incurred in the taking of proceedings against such person guilty of such offence as well as any costs or expenses which may be incurred in remedying such default, as particularly provided for in this By-law or the Act, to a penalty not exceeding Ten pounds, and to a further penalty of One pound for each day during which such offence is continued by such person after notice of the offence shall have been given by the Trust to him, and such penalty shall be recoverable, notwithstanding that the Trust may not have chosen to exercise any power given to it by the Act or by this By-law to remedy such default.

INTERPRETATION.

49. *Interpretation.*—In the construction of this By-law the meaning which in the Act is assigned to any word shall be the meaning of the same word where occurring in this By-law, unless inconsistent with the subject matter or context.

The foregoing By-law was made and passed by the Geelong Waterworks and Sewerage Trust on the 30th day of April, 1915, and the common seal of the said Trust was hereunto affixed on the date aforesaid, in the presence of—

ISAAC HODGES, Chairman.

ALBERT J. MULLETT,
Government Printer.

THE "VICTORIA GOVERNMENT GAZETTE."

SUBSCRIPTIONS.—The Subscription, including Postage, is £1 8s. 4d. per annum, or 7s. 1d. per quarter, payable in advance.

Subscriptions are required to commence and terminate with a month.

A lesser period than three months cannot be subscribed for.

Subscribers do not receive the Acts of Parliament with the Gazette.

ADVERTISEMENTS are charged at the rate of SEVENPENCE per line throughout.

The title (£5 Reward, Dissolution of Partnership, &c.) forms one or more lines, as a heading.

On an average, ten words make a line, but for the description of a brand consisting of more than one letter, &c., placed perpendicularly, thus, B, each additional

B

letter under the first is charged as a line.

Every signature must likewise be counted as a line.

The final words of a paragraph, though only a portion of a line, must be counted as one line.

Signatures (in particular) and proper names must be written very plainly in the text; ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

The GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion must be received by the Government Printer on or before TWO o'clock of the day preceding the day of publication.

Single copies of the GOVERNMENT GAZETTE are Sixpence, posted Sixpence halfpenny, each.

N.B.—All Gazettes prior to 1st January, 1872, are One shilling and sixpence, posted One shilling and sixpence halfpenny each.

* * * ALL PAYMENTS ARE REQUIRED IN ADVANCE. Remittances should be made by postal note, money order, or draft in favour of the Government Printer. Advertisements unaccompanied by a remittance sufficient to cover the cost of insertion will be returned unpublished.

All communications should be addressed to "The Government Printer, Melbourne."
