IN pursuance of the powers conferred upon it by the *Marine Act 1890 (Act No. 1165)*, the Marine Board of Victoria, with the consent of His Excellency the Governor of Victoria, acting by and with the advice of the Executive Council thereof, doth hereby make the Regulations following, that is to say:—

Short Title.—These Regulations may be cited as “The Regulations for the Equipment of Ships with Life-saving Appliances 1915.”

Commencement and Repeal.—These Regulations shall take effect on and from the date of publication hereof in the *Government Gazette*, from which date all previous regulations relating to the equipment of ships with life-saving appliances shall be and stand repealed.

Penalty.—In cases where section 123 of the *Marine Act 1890* does not apply, every person guilty of a breach of these Regulations shall be punishable by a fine not exceeding Fifty pounds.

Classes of Ships.—For the purposes of these Regulations ships shall be arranged in the following classes, under the headings “Foreign-going” and “Home Trade”:

FOREIGN-GOING.

CLASS I.

Foreign-going steam-ships having certificates of survey issued under the *Marine Act 1890*, or issued by the Board of Trade, or by the properly constituted authority in any British Possession, authorizing them to carry passengers exceeding twelve in number; also “emigrant ships.”

CLASS II.

Foreign-going steam-ships not certified to carry passengers or certified to carry passengers not exceeding twelve in number.

CLASS III.

Foreign-going sailing ships carrying passengers.

CLASS IV.

Foreign-going sailing ships not carrying passengers.

HOME TRADE.

CLASS I.

Steam-ships having certificates of survey issued under the *Marine Act 1890* authorizing them to carry passengers exceeding twelve in number within the Home-trade limits as defined by the said Act—that is to say, between any port or place in the State of Victoria and any port or place on the mainland of Australia, or any island on the coast thereof not beyond Port Stephens, in the State of New South Wales, on the one hand, nor beyond Spencer's Gulf, in the State of South Australia, on the other hand, or any port or place in the State of Tasmania.

CLASS II.

Steam-ships plying anywhere within Home-trade limits, defined as aforesaid, not certified to carry passengers, or certified to carry passengers not exceeding twelve in number.

CLASS III.

Sailing ships carrying passengers anywhere within Home-trade limits defined as aforesaid.

CLASS IV.

Sailing ships plying anywhere within Home-trade limits defined as aforesaid, not carrying passengers.

CLASS V.

Sailing ships of not less than 15 tons gross registered tonnage plying within the limits of any Port in the State of Victoria.

CLASS VI.

Steam-ships certified to carry passengers on short excursions to sea, *i.e.*, beyond partially smooth water limits during daylight.

CLASS VII.

Steam-ships certified to carry passengers in partially smooth water.

CLASS VIII.

Steam-ships certified to carry passengers in smooth water in estuaries and lakes.

CLASS IX.

Steam-ships certified to carry passengers in smooth water on rivers.

CLASS X.

Steam-ships not certified to carry passengers plying or trading within the limits of any Port in the State of Victoria.

CLASS XI.

Steam fish carriers, tugs, steam lighters, dredges, steam hoppers, and hulks, which proceed to sea.

CLASS XII.

Steam fish carriers, tugs, steam lighters, dredges, steam hoppers, and hulks, which do not proceed to sea.

FOREIGN-GOING.

CLASS I.

Regulations for Foreign-going Steam-ships having Certificates of Survey issued under the Marine Act 1890, or issued by the Board of Trade, or by the properly constituted authority in any British Possession, authorizing them to Carry Passengers, exceeding Twelve in Number, and for Emigrant Ships.

Regulation A.—(1) A ship of this class shall carry lifeboats in such number and of such aggregate capacity as shall be sufficient to accommodate the total number of persons which is carried, or which the ship is certified to carry, whichever number is the greater.

Provided that if the aggregate capacity of the lifeboats carried by a ship of this class exceeds the capacity required by General Regulation 2, the Board may allow one or more life-rafts, conforming to the conditions laid down in that Regulation, to be carried in lieu of any of the remaining lifeboats which would otherwise be required by this Regulation.

(2) The master or owner of a ship of this class claiming to carry on any voyage fewer lifeboats and life-rafts than will provide sufficient accommodation for all the persons for which the ship is certified, must declare before the Collector, or other Officer of Customs, or the Secretary to the Marine Board, before the time of clearance, that the lifeboats and life-rafts actually carried will be sufficient to accommodate all persons who will be carried at any time during the intended voyage.

Regulation B.—A ship of this class shall, subject to the provisions of General Regulation 20 (1), be provided, in accordance with its length, with the number of sets of davits specified in Column A of the Table in Appendix I.

Provided that no ship shall be required to have a number of sets of davits greater than the number of boats required to accommodate the total number of persons which is carried, or which the ship is certified to carry, whichever number is the greater, and provided further that the Board may, where it appears to it necessary, having regard to the height at which the boats are carried above the centre of the load line disc, and to the other circumstances of the case, require a ship of this class to carry in lieu of, or in addition to, davits, some other approved form of launching appliances, or such arrangements for launching boats as may be, in its opinion, effective.

Regulation C.—(1) Each set of davits shall have a lifeboat of Class 1 attached to it, and of these lifeboats at least the minimum number specified in Column B of the Table in Appendix I. shall be open boats.

(2) Any additional lifeboats which may be required to make up the total lifeboat accommodation, may be boats of Class 1 or Class 2.

Regulation D.—If the ship is under 200 feet in length, at least six approved lifebuoys shall be carried; if of 200 feet or over, but under 400 feet in length, at least twelve approved lifebuoys shall be carried; if 400 feet or over, but under 600 feet, at least eighteen approved lifebuoys shall be carried; if 600 feet or over, but under 800 feet, at least twenty-four approved lifebuoys shall be carried; and if 800 feet or over, at least thirty approved lifebuoys shall be carried.

Regulation E.—One approved life-jacket shall be carried for each adult person on board, and, in addition, approved life-jackets of a size suitable for children shall be carried equal to five (5) per centum of the total number of passengers which the ship is certified to carry: provided that in no case shall the number of children's life-jackets be less than six (6).

CLASS II.

Regulations for Foreign-going Steam-ships not Certified to Carry Passengers, or Certified to Carry Passengers not exceeding Twelve in Number.

Regulation A.—A ship of this class shall carry on each side of the ship lifeboats of Class 1, in such number, and of such aggregate capacity, as will accommodate all persons on board: Provided that if the total number of lifeboats required under this Regulation exceeds two, a boat of Class 3 may be carried in lieu of one of them; and if the number exceeds three, one or two boats of Class 3 may be carried in lieu of the same number of lifeboats.

Regulation B.—The lifeboats, and boats of Class 3 carried in lieu of lifeboats, shall be attached to davits.

Regulation C.—At least six approved lifebuoys shall be carried, together with one approved life-jacket for each adult person on board, and, in addition, six approved life-jackets, of a size suitable for children, shall be carried: Provided that a ship of this class which is certified to carry less than six passengers shall not be required to carry a larger number of children's life-jackets than the number of passengers such ship is certified to carry.

CLASS III.

Regulations for Foreign-going Sailing Ships Carrying Passengers.

Regulation A.—A ship of this class shall carry lifeboats in such number, and of such aggregate capacity, as shall be sufficient to accommodate all persons on board.

Regulation B.—All the lifeboats shall be attached to davits so far as practicable in the opinion of an Inspector or Surveyor to the Board.

Regulation C.—At least six approved lifebuoys shall be carried, together with one approved life-jacket for each adult person on board, and, in addition, approved life-jackets of a size suitable for children shall be

carried corresponding in number with the actual number of children which may be on board any such ship when departing from any port or place in the State of Victoria.

CLASS IV.

Regulations for Foreign-going Sailing Ships not Carrying Passengers.

Regulation A.—A ship of this class shall carry a lifeboat or lifeboats of Class 1, of such capacity as shall be sufficient to accommodate all persons on board; if only one lifeboat is required under this Regulation, a boat of Class 3 shall be carried in addition, and if the number of lifeboats required under this Regulation exceeds two, a boat of Class 3 may be carried in lieu of one of them.

Regulation B.—Two boats at least shall be attached to davits, one on each side of the ship.

Regulation C.—At least four approved lifebuoys shall be carried, together with one approved life-jacket for each person on board.

HOME TRADE.

CLASS I.

Regulations for Steam-ships having Certificates of Survey issued under the Marine Act 1890, authorizing them to Carry Passengers exceeding Twelve in number within the Home-trade Limits—that is to say, between any Port or Place in the State of Victoria and any Port or Place on the Mainland of Australia, or any Island on the Coast thereof, not beyond Port Stephens, in the State of New South Wales, on the one hand, nor beyond Spencer's Gulf, in the State of South Australia, on the other hand, or any Port or Place in the State of Tasmania.

Ships of this class shall be subject to the same requirements as those in Class I. (Foreign-going).

CLASS II.

Regulations for Steam-ships trading anywhere within Home-trade Limits, defined as aforesaid, not Certified to Carry Passengers, or Certified to Carry Passengers not exceeding Twelve in Number.

Regulation A.—A ship of this class, if 100 feet or over in length, shall carry a boat or boats on each side of the ship of such capacity as shall be sufficient, to accommodate all persons on board. The boats shall be attached to davits.

Regulation B.—One of the boats may be a boat of Class 3. The remaining boats shall be lifeboats of Class 1.

Regulation C.—A ship of this class, if under 100 feet in length, shall carry at least one open boat of Class 1, so stowed that it can be readily placed in the water on either side of the ship, and of sufficient capacity to accommodate all the persons on board.

Regulation D.—A ship of this class, if 100 feet or over in length, shall carry at least four approved lifebuoys; and if under 100 feet, at least two approved lifebuoys. One approved life-jacket shall be carried for each adult person on board; and, in addition, if the ship be certified to carry passengers, six approved life-jackets of a size suitable for children shall be carried: Provided that a ship of this class which is certified to carry less than six passengers shall not be required to carry a larger number of children's life-jackets than the number of passengers such ship is certified to carry.

CLASS III.

Regulations for Sailing Ships Carrying Passengers anywhere within Home-trade Limits defined as aforesaid.

Regulation A.—A ship of this class shall carry a lifeboat or lifeboats of sufficient aggregate capacity to accommodate all persons on board.

Regulation B.—The lifeboats shall, as far as practicable, be attached to davits.

Regulation C.—At least four approved lifebuoys shall be carried, together with one approved life-jacket for each adult person on board; and, in addition, approved life-jackets of a size suitable for children shall be carried, corresponding in number with the actual number of children which may be on board any such ship when departing from any port or place in the State of Victoria.

CLASS IV.

Regulation for Sailing Ships Trading anywhere within Home-trade Limits defined as aforesaid, not Carrying Passengers.

Regulation A.—Subject to the provisions of Regulation B, a ship of this class shall carry a boat or boats of such capacity as shall be sufficient to accommodate all persons on board. The boats shall be stowed in such a manner that they can readily be placed in the water on either side of the ship. At least one of the boats shall be an open boat of Class 1.

Regulation B.—A ship of this class, if under 100 feet in length, and engaged solely in trading between ports on the coast of Victoria, shall comply with the requirements of Regulation A, except that the boat or boats carried may be of Class 3.

Regulation C.—A ship of this class, if 100 feet or over in length, shall carry at least four approved lifebuoys and if under 100 feet, at least two approved lifebuoys. One approved life-jacket shall be carried for each person on board.

CLASS V.

Regulations for Sailing Ships of not less than 15 tons gross registered tonnage plying within the limits of any Port in the State of Victoria.

(a) A ship of this class shall carry, equipped to the satisfaction of the Board, a boat or boats of wood or metal, at least sufficient for all persons on board, and in such a position as to be readily got into the water.

(b) A ship of this class shall also carry at least two approved lifebuoys, and one approved life-jacket for each person on board.

CLASS VI.

Regulations for Steam-ships certified to Carry Passengers on Short Excursions to Sea, i.e., beyond partially Smooth Water Limits, during Daylight.

Regulation A.—Subject to the provisions of General Regulation 20 (1), a ship of this class shall be provided, in accordance with its length, with such number of sets of davits as is specified in the table in Appendix II.; each set of davits shall have a lifeboat of Class 1 attached to it.

Provided that no ship shall be required to have a number of sets of davits greater than the number of boats required to accommodate the total number of persons carried, or which the ship is certified to carry, whichever number is the greater.

Regulation B.—Subject to the provisions of General Regulation 20 (2) and (3), such further number of lifeboats, or such number of approved life-rafts, approved buoyant deck seats, or other approved buoyant apparatus, shall be provided, as shall be sufficient, together with the lifeboats required by Regulation A, to accommodate 70 per cent. of the total number of persons for which the ship is certified.

Regulation C.—The lifeboats carried shall be of such reasonable capacity, having regard to the size of the ship, as the Board may require.

Provided that no ship shall be required to carry lifeboats of an aggregate capacity greater than is required to accommodate the total number of persons which the ship is certified to carry.

Regulation D.—If the ship is under 200 feet in length, at least four approved lifebuoys shall be carried, and if 200 feet or over in length, at least eight approved

lifebuoys shall be carried. One approved life-jacket shall be carried for each adult person on board, and, in addition, approved life-jackets of a size suitable for children shall be carried equal to five (5) per centum of the total number of passengers which the ship is certified to carry: provided that in no case shall the number of children's life-jackets be less than six (6).

CLASS VII.

Regulations for Steam-ships Certified to Carry Passengers in Partially Smooth Water.

Regulation A.—Subject to the provisions of General Regulation 20 (1), a ship of this class shall be provided, in accordance with its length, with the number of sets of davits specified in the table in Appendix II.; each set of davits shall have a lifeboat of Class 1 attached to it.

Provided that no ship shall be required to have a number of sets of davits greater than the number of boats required to accommodate the total number of persons carried, or which the ship is certified to carry, whichever number is the greater.

Regulation B.—Subject to the provisions of General Regulation 20 (2) and (3) such additional lifeboats, or such number of approved life-rafts, approved buoyant deck seats, or other approved buoyant apparatus, shall be provided as shall be sufficient, together with the lifeboats required under Regulation A, to accommodate 60 per cent. of the total number of persons for which the vessel is certified.

Regulation C.—The lifeboats carried shall be of such reasonable capacity, having regard to the size of the ship, as the Board may require.

Provided that no ship shall be required to carry lifeboats of an aggregate capacity greater than is required to accommodate the total number of persons which the ship is certified to carry.

Regulation D.—If the ship is under 200 feet in length, at least four approved lifebuoys shall be carried, and if 200 feet or over in length, at least eight approved lifebuoys shall be carried. One approved life-jacket shall be carried for each adult person on board, and, in addition, approved life-jackets of a size suitable for children shall be carried equal to five (5) per centum of the total number of passengers which the ship is certified to carry: provided that in no case shall the number of children's life-jackets be less than six.

CLASS VIII.

Regulations for Steam-ships Certified to Carry Passengers in Smooth Water in Estuaries and Lakes.

Regulation A.—Subject to the provisions of General Regulation 20 (2) and (3), a ship of this class shall carry such boats, approved life-rafts, approved buoyant deck seats, or other approved buoyant apparatus, as shall be sufficient, together with the boat or boats required by Regulation B, where that Regulation applies, to accommodate 40 per cent. of the total number of persons for which the ship is certified.

Regulation B.—A ship of this class, if not under 70 feet and under 150 feet in length, shall carry at least one boat, and if 150 feet or over in length, at least two boats. The boat or boats shall be attached to davits, and shall be equipped to the satisfaction of the Board.

Regulation C.—If the ship is under 150 feet in length, at least four approved lifebuoys shall be carried, and if 150 feet or over in length, at least six approved lifebuoys shall be carried. One approved life-jacket shall be carried for each person on board.

Regulation D.—The Board may, in its discretion, relieve a ship of this class wholly or partially from the operation of these Regulations.

CLASS IX.

Regulations for Steam-ships Certified to Carry Passengers in Smooth Water on Rivers.

Regulation A.—Subject to the provisions of General Regulation 20 (2) and (3), a ship of this class shall carry such boats, approved life-rafts, approved buoyant deck seats, or other approved buoyant apparatus, as shall be sufficient, together with the boat carried under Regulation B, where that Regulation applies, for 40 per cent. of the total number of persons for which the ship is certified.

Regulation B.—A ship of this class, if not under 70 feet in length, shall carry a boat in such a position that it can readily be got into the water, and such boat shall be equipped to the satisfaction of the Board.

Regulation C.—At least four approved lifebuoys shall be carried. One approved life-jacket shall be carried for each person on board.

Regulation D.—The Board may, in its discretion, relieve a ship of this class wholly or partially from the operation of these Regulations.

CLASS X.

Regulations for Steam-ships not Certified to Carry Passengers Plying or Trading within the Limits of any Port in the State of Victoria.

Regulation A.—Steam-ships of this class shall carry, equipped to the satisfaction of the Board, a boat or boats of wood or metal, placed under davits, such boat or boats being of sufficient capacity to accommodate at least all persons carried on board; and such steam-ships shall have proper appliances for getting the boat or boats into the water.

Regulation B.—Such steam-ships shall also carry a sufficient number of approved life-jackets, so that there may be at least one for each person carried on board any such steam-ship.

Regulation C.—Such steam-ships shall also carry not less than two approved life-buoys.

Regulation D.—The Board may, in any case wherein they think it expedient to do so, relieve any steam-ship of this class from the operation of the whole or any part of Regulation A hereof.

CLASS XI.

Regulations for Steam Fish-carriers, Tugs, Steam Lighters, Dredgers, Steam Hoppers, and Hulks, which Proceed to Sea.

Regulation A.—A ship of this class shall comply with the Regulations in Class II., Home Trade.

CLASS XII.

Regulations for Steam Fish-carriers, Tugs, Steam Lighters, Dredgers, Steam Hoppers, and Hulks, which do not Proceed to Sea.

Regulation A.—A ship of this class shall carry a boat sufficient to accommodate all persons on board, and equipped to the satisfaction of the Board.

Regulation B.—A ship of this class shall also carry two approved lifebuoys, and one approved life-jacket for each person on board.

GENERAL REGULATIONS.

1.—Interpretation.

(1) In these Regulations, unless the context otherwise requires:—

"Person" means a person over the age of one year.

"Passenger" has the same meaning as in section 3 of the *Marine Act 1890*.

"The Board" shall mean the Marine Board of Victoria.

"Emigrant ship" has the same meaning as in section 268 of the *Merchant Shipping Act 1894*, as amended by section 14 of the *Merchant Shipping Act 1906*.

"Daylight" shall be reckoned as extending from one hour before sunrise to one hour after sunset.

"Approved" means approved by the Marine Board of Victoria.

"Length," where a ship is referred to, means registered length.

(2) The *Interpretation Act 1890* shall apply to these Regulations in the same way as it applies to an Act of Parliament.

2.—Power of the Board to Accept Alternatives.

The Board shall have power, in general or in any particular case, to accept any boat, raft, buoyant apparatus, or other life-saving appliance, in lieu of a life-saving appliance required by these Regulations, subject to such conditions as they may impose, if they are satisfied that, under those conditions, it will be as effective as the appliance required by these Regulations.

Provided that, in the case of a steamship in Class I. (Foreign-going), or Class I. (Home Trade), no life-saving appliance shall be accepted in lieu of a lifeboat required by these Regulations, except either some other approved type of lifeboat or a life-raft approved as being in every respect as efficient as the pontoon life-raft described in General Regulation 10.

Provided also, that no life-raft shall be accepted on any such steam-ship in lieu of a lifeboat required by these Regulations, unless the total cubic capacity of the lifeboats provided is at least equal to the greater of the two following amounts:—

(i) 75 per cent. of the total capacity required to accommodate all the persons carried.

or (ii) The minimum capacity required by column C of the table in Appendix I.

3.—Boats.

For the purposes of these Regulations, boats are arranged in the following classes:—

CLASS 1.

A.—Open Lifeboats with Internal Buoyancy only.

The buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat, an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—Open Lifeboats with Internal and External Buoyancy.

The internal buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to $7\frac{1}{2}$ per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousandths of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat, an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

C.—Pontoon Lifeboats having a Well Deck and Fixed Watertight Bulwarks.

The area of the well deck of a boat of this type shall be at least 30 per cent. of the total deck area. The height of the well deck above the water-line at all points shall be at least equal to $\frac{1}{2}$ per cent. of the length of the boat, this height rising to $1\frac{1}{2}$ per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least 35 per cent.

CLASS 2.

A.—Open Lifeboats having the Upper Part of the Sides Collapsible.

A boat of this type shall be fitted both with water-tight air-cases and with external buoyancy, the volume of which, for each person which the boat is able to accommodate, shall be at least equal to the following amounts:—

	Cubic feet.
Air cases	1.5
External buoyancy (if of cork) ...	0.2

The minimum freeboard of boats of this type is fixed in relation to their length; it shall be measured vertically to the top of the solid hull at the side amidships, from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts:—

Length of the Boat in feet.	Minimum Freeboard in inches.
26	8
28	9
30	10

The freeboard of boats of intermediate lengths shall be found by interpolation.

B.—Pontoon Lifeboats having a Well Deck and Collapsible Bulwarks.

All the conditions laid down for boats of Class 1C shall be applied to boats of this type, which differ from those of Class 1C only in regard to the bulwarks.

C.—Pontoon Lifeboats having a Flush Deck and Collapsible Bulwarks.

The minimum freeboard of boats of this type is independent of their length, and depends only upon their depth. The depth of the boat shall be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships, and the freeboard shall be measured from the top of the deck at the side amidships to the water level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts, which are applicable, without correction, to boats having a mean sheer equal to 3 per cent. of their length:—

Depth of Boat in inches.	Minimum Freeboard in inches.
12	2½
18	3½
24	5½
30	6½

For intermediate depths, the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figures in the table one-seventh of the difference between the standard sheer and the actual mean sheer measured at the stern and stern post; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer, or on account of the camber of the deck.

CLASS 3.

Open boats which have not the buoyancy required for lifeboats of Class 1.

4.—Motor Boats.

(1) An approved motor boat may be carried as a lifeboat, subject to the following conditions:—

- It shall comply with the requirements for a lifeboat of Class 1, and proper appliances shall be provided for putting it into the water speedily.
- It shall be adequately provided with fuel, and kept so as to be at all times fit and ready for use.

(2) Where the number of lifeboats is less than ten, one of them may be a motor boat. Where the number of lifeboats is not less than ten, two of them may be motor boats. The Board may, on the application of an owner, allow a greater number of motor boats to be carried, if they are satisfied that the efficiency of the life-saving equipment will not thereby be diminished.

(3) In fixing the volume of the internal buoyancy and, where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and its accessories and the weight of the additional persons which the boat could accommodate if the motor and its accessories were removed.

5.—Construction of Boats.

(1) All boats shall be properly constructed, and shall be of such form and proportions that they shall have ample stability in a seaway, and sufficient freeboard when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the Board.

(2) The structural strength of the boats shall be to the satisfaction of the Board, and in the case of a steamship in Class I. (Foreign-going) or in Class I. (Home Trade) launched on or after the 1st November, 1913, shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board.

(3) In all open boats, all thwart and side seats shall be fitted as low in the boat as practicable, and shall provide seating accommodation for all persons the boat is deemed fit to carry, and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 9 inches above them.

(4) Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 18 ozs. to the superficial foot, or of other durable material, and in open boats of Class 1, may be placed along the sides or at the ends of the boat, but not in the bottom of the boat. External buoyancy apparatus may be of cork, or of any other equally efficient approved material; the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air, is prohibited.

(5) Open lifeboats of Class 1 shall have a mean sheer at least equal to 4 per cent. of their length.

(6) Pontoon lifeboats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with textile material between; if of metal, they shall be divided into water-tight compartments with means of access to each compartment, and shall be provided with at least two bilge pumps.

(7) All pontoon lifeboats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are intermittently submerged. The number and size of the orifices shall be determined by the Board for each type of boat by a special test.

For the purpose of this test:—

- The pontoon boat shall be loaded with a weight of iron equal to that of its complement of persons and equipment;
- In the case of a boat 28 feet in length, 2 tons of water shall be cleared from the boat in a time not exceeding the following:—

Class 1C ...	60 seconds
Class 2B ...	60 seconds
Class 2C ...	20 seconds

In the case of a boat having a length greater or less than 28 feet, the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a lifeboat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull.

(9) All boats shall be fitted for the use of a steering oar.

(10) All boats shall be permanently marked to the satisfaction of the Board in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with, or are otherwise defective or improper.

6.—Number of Persons.

(1) The number of persons which a lifeboat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, as the case may be (calculated as provided by General Regulations 7 and 8), by the standard unit of capacity, or unit of surface, defined below.

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be ten times the number of persons which the boat is authorized to carry.

(3) The standard units of capacity and surface are as follows:—

Unit of Capacity.	Cubic feet.
Class 1A	10
Class 1B	9
Class 3	10
Unit of Surface.	Square feet.
Class 2A	3½
Class 2C	
Class 1C	3½
Class 2B	

(4) The Board may accept a smaller divisor for pontoon boats of Class 1C and Class 2B, if they are satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by applying the above divisor, provided always that the divisor adopted in place of 3½ shall never be less than 3.

(5) The number of persons obtained by the above rules shall be reduced:—

(i) If it is greater than the number of persons for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(ii) If, in the case of boats other than open boats of Class 1, the freeboard when the boat is fully loaded is less than the freeboard required by these Regulations.

(6) If a surveyor is doubtful as to the number of persons any boat is fit to carry, he may require the boat to be tested afloat with the intended number of persons on board.

(7) The Board may limit the number of persons to be allowed in boats with very fine ends, and in boats very full in form.

7.—Cubic Capacity of Open Boats of Class 1.

(1) In the case of an open boat of Class 1, the cubic capacity shall be determined by the following formula:—

$$\text{Capacity} = \frac{l}{12} (4A + 2B + 4C).$$

l denotes the length of the boat in feet from the inside of the planking or plating at the stem to the corresponding point at the stern post; in the case of a boat with a square stern, the length is measured to the inside of the transom.

A, B, C , denote respectively the areas of the cross-sections at the quarter length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing l into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas A, B, C , shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross-sections:—

$$\text{Area} = \frac{h}{12} (a + 4b + 2c + 4d + e).$$

h denotes the depth measured in feet inside the planking or plating from the keel to the level of gunwale, or, in certain cases, to a lower level, as determined hereafter.

a, b, c, d, e , denotes the horizontal breadths of the boat measured in feet to the inside of the planking at the upper and lower points of the depth, and at the three points obtained by dividing h into four equal parts (a and e being the breadths at the extreme points, and c at the middle point, of h).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceeds 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-sections A or C shall be deemed to be the depth amidships, plus 1 per cent. of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section B shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections A and C shall be obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet, the number of persons given by the application of these General Regulations shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested afloat with that number of persons on board all wearing life-jackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth, and the depth, multiplied by 0.6 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner:—

Length: From the intersection of the outside of the planking with the stem to the corresponding point at the stern post, or, in the case of a square-sterned boat, to the after side of the transom.

Breadth: From the outside of the planking at the point where the breadth of the boat is greatest.

Depth: Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the ship-owner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlock shall be considered as the gunwale in measuring the depth of the boat.

(7) The cubic capacity of a motor boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the motor and its accessories.

8.—Deck Area and Capacity of Pontoon Boats and of Open Boats of Class 2.

In the case of boats of the above types, the surface in square feet shall be determined by the following formula:—

$$\text{Area} = \frac{l}{12} (2a + 1.5b + 4c + 1.5d + 2e).$$

l denotes the length in feet from the intersection of the outside of the planking at the points obtained by dividing *l* into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (*a* and *e* being the breadths at the extreme subdivisions, *c* at the middle point of the length, and *b* and *d* at the intermediate points).

9.—Size of Boats.

No boat carried in compliance with these Regulations shall have a capacity of less than 125 cubic feet.

10.—Life-Rafts.

(1) An approved pontoon life-raft shall satisfy the following conditions:—

- (i) It shall be reversible and fitted with bulwarks of wood, canvas, or other suitable material on both sides. These bulwarks may be collapsible.
- (ii) It shall be of such size, strength, and weight that it can be handled without mechanical appliances, and, if necessary, be thrown from the vessel's deck.
- (iii) It shall have not less than 3 cubic feet of air-cases, or equivalent buoyancy, for each person whom it can accommodate.
- (iv) It shall have a deck area of not less than 4 square feet for each person whom it can accommodate, and the platform shall not be less than 6 inches above the water-level when the raft is loaded.
- (v) The air cases, or equivalent buoyancy, should be placed as near as possible to the sides of the raft.

(2) Every raft shall be marked to the satisfaction of the Board in such a way as plainly to indicate the number of persons for which it is approved.

(3) In ships which carry rafts, there shall be a sufficient number of rope-ladders, or other approved appliances, always available for use in embarking the persons in the rafts.

11.—Weight of Persons.

In the tests prescribed by these Regulations for determining the number of persons which a boat or pontoon raft can accommodate, each person shall be assumed to be an adult person wearing a life-jacket.

In verifications of freeboard, the pontoon boats shall be loaded with a weight of at least 165 lbs. for each adult person that the pontoon boat is authorized to carry.

12.—Stowage of Boats, Rafts, etc.

(1) All boats and rafts shall be stowed in such a way that:—

- (a) They can be launched in the shortest possible time;
- (b) Even under conditions of list and trim unfavorable from the point of view of the handling of the boats and rafts, as large a number of persons as possible can be embarked in them;

(c) As large a number of the boats and rafts as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing some of the additional boats or rafts in rows across the deck, or by some other equally satisfactory means.

(2) With regard to the stowage of additional life-boats and rafts, the following provisions shall also apply:—

- (a) Additional lifeboats may be stowed under lifeboats of Class 1 attached to davits;
- (b) Additional lifeboats may be stowed in tiers of two or three one above the other, or they may, subject to such conditions as the Board may impose, be fitted one within another;
- (c) Additional lifeboats, and rafts, may be stowed in rows across a deck, bridge, or poop;
- (d) Means shall be provided, to the satisfaction of the Board, for attaching additional life-boats to the davits, and lowering them into the water, in the shortest possible time, and in the case of boats not stowed under davits, for securing their transfer to the ship's side in the shortest possible time.

(3) Where a boat is stowed underneath another boat, there shall be provided approved removable supports or other approved appliances, so as to secure that the weight of a boat is not unduly supported by the boat underneath it.

(4) Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above.

(5) All other buoyant apparatus, lifebuoys, and life-jackets, shall be so stowed as to be readily available in case of emergency.

13.—Appliances for Lowering Boats.

(1) The davits shall be of approved form, and shall be suitably placed to the satisfaction of the Board. They shall be fitted on one or more of the decks in such positions that the boats can be efficiently lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of launching.

(2) The davits, falls, blocks, and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the Board; and in the case of a ship in Class I. (Foreign-going), or Class I. (Home Trade) launched on or after the 1st November, 1913, they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees.

(3) In the case of any such steam-ship launched on or after the 1st July, 1914, the davits shall be fitted with a gear of sufficient power to insure that the boat can be turned out against the maximum list under which the lowering of the boats is possible on the vessel on which they are fitted.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light. Life-lines shall be fitted to the davit spans, and shall be long enough to reach the water when the vessel is light. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for speedily, but not necessarily simultaneously or automatically, detaching the boats from the falls; the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats to the falls shall be sufficiently away from the ends of the boats to insure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangement as shall be satisfactory to the Board.

(6) Where more boats than one are served by the same set of davits, arrangements shall be made to prevent the falls fouling when they are recovered; and, where more than three boats are served by the same set of davits, there shall be provided an approved appliance for lowering the boats in turn and rapidly.

(7) The Board may accept, in lieu of davits or sets of davits, any other appliance, appliances, or arrangements, which appear to them at least as effective as davits for placing the boats in the water.

14.—Equipment for Boats and Life-Rafts.

(1) Every boat which is carried by any ship in Class V., VIII., IX., X., or XII. (Home Trade), shall be equipped to the satisfaction of the Board.

(2) Every boat which is carried by any ship in Classes I. to IV. inclusive (Foreign-going), or in Class I., II., III., IV., VI., VII., or XI. (Home Trade), shall be equipped as follows:—

- (a) With the full single banked complement of oars and two spare oars, and a steering oar.
- (b) With two plugs for each plug-hole, attached with lanyards or chains, and one set and a half of thole pins or crutches, attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.
- (c) With a sea anchor, a bailer, a galvanized-iron bucket, a rudder, and a tiller, or yoke and yoke-lines, a painter of sufficient length, and a boat-hook. The rudder, the bailer, and the bucket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.
- (d) With a vessel capable of holding one quart for each person that the boat is deemed fit to carry. This vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.
- (e) With two hatchets, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.
- (f) With a line securely becketted round the outside of the boat.
- (g) With an efficient lantern trimmed, with oil in its receiver sufficient to burn eight hours; or with some other lantern or light at least as effective approved by the Board.

(3) In addition to the equipment prescribed above, the boats carried by any ship in Classes I. to IV. inclusive (Foreign-going) or in Class I. (Home Trade) shall be equipped as provided in paragraphs (a) to (e), inclusive, of this sub-section of this Regulation. The boats of ships in Classes II. to IV., inclusive, of the Home Trade, shall be provided with the additional equipment specified in paragraphs (b), (d), and (e) of this sub-section of this Regulation:—

- (a) With a mast or masts, and with at least one good sail, and proper gear for each; but this does not apply to an approved motor boat.

- (b) With an efficient compass.

- (c) With an air-tight case containing 2 lbs. of biscuits for each person for whom the boat is approved.

- (d) With 1 gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.

- (e) With one dozen self-igniting red lights in a water-tight tin, and a box of suitable matches in a water-tight tin.

(4) Every life-raft which is carried by any ship in Classes I. to IV., inclusive (Foreign-going), or in Class I. (Home Trade), shall be equipped as follows:—

- (a) With four oars, and five thole-pins or crutches, attached to the raft by sound lanyards, and a steering oar.
- (b) With a sea anchor, and a painter of sufficient length.
- (c) With a vessel capable of holding one quart for each person that the raft is deemed fit to carry. This vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.
- (d) With a line securely becketted round the outside of the raft.
- (e) With a self-igniting lifebuoy light.
- (f) With 1 gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.
- (g) With an air-tight case containing 2 lbs. of biscuits for each person for whom the raft is approved.
- (h) With one dozen self-igniting red lights in a water-tight tin, and a box of suitable matches in a water-tight tin.

(5) Every life-raft which is carried by any ship in Classes II. to XII. inclusive (Home Trade), shall be provided with a suitable approved equipment.

(6) All boats and rafts shall be fully equipped before the ship leaves port, and the equipment shall remain in the boat or raft throughout the voyage, while the ship is at sea. Such of the articles as are liable to be stolen or mislaid shall be properly secured to the boat or raft. If it is not practicable to place the whole of the equipment in the boat or raft, the part not so placed shall be stowed in a suitable locker near by, and each article shall be marked with the number of the boat or raft to which it belongs.

15.—Buoyant Apparatus.

Approved buoyant apparatus, whether buoyant deck-seats, buoyant deck-chairs, or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person, or a number of persons, to be ascertained by dividing the number of pounds of iron which it is capable of supporting in fresh water by 32. Such buoyant apparatus shall be of approved material and construction, and if it depends for its buoyancy on air, shall not require to be inflated before use, and shall be marked in such a way as plainly to indicate that it is buoyant, and the number of persons for which it is approved.

16.—Life-Jackets.

An approved life-jacket shall mean a jacket of approved material and construction which is capable of floating in fresh water for twenty-four hours with 15 lbs. of iron suspended from it, or any other approved appliance of equal buoyancy, and capable of

being fitted on the body. Life-jackets, the buoyancy of which depends on air-compartments, are prohibited. Life-jackets for children shall be of suitable size and buoyancy to the satisfaction of the Board.

17.—Lifebuoys.

(1) (a) An approved lifebuoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least twenty-four hours with 32 lbs. of iron suspended from it.

(b) Lifebuoys filled with rushes, cork shavings, granulated cork, or any other loose granulated material, or whose buoyancy depends upon air-compartments requiring inflation, are prohibited.

(2) All lifebuoys shall be fitted with beackets securely seized, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

(3) (a) Self-igniting lifebuoy lights shall be placed near the following number of lifebuoys:—

In Class I. (Foreign-going), and Class I. (Home Trade):—

At least half the lifebuoys required by these Regulations, but in no case less than six (6).

In all other Classes (ships in Class IX., Home Trade, excepted):—

At least half the lifebuoys required in any ship.

(b) Provided that the Board may, in its discretion, relieve any ship in Class VIII. (Home Trade) from the operation of this Regulation.

(c) Lifebuoy lights shall be efficient and inextinguishable in water to the satisfaction of the Board, and provided with means for attachment to the lifebuoys.

18.—Position of Lifebuoys and Life-Jackets.

All lifebuoys and life-jackets shall be suitably placed to the satisfaction of an inspector or surveyor to the Board, and so as to be readily accessible to all persons on board; and their position shall be plainly indicated so that it may be known to those for whom they are intended.

Lifebuoys shall always be capable of being rapidly cast loose, and shall not be rigidly secured in any way.

19.—Saving for certain Ships and Boats.

(1) Notwithstanding anything contained in these Regulations, a steam-ship in Class VI., Class VII., Class VIII., or Class IX., Home Trade, launched before the 1st March, 1913, shall not be required to be provided, until the 1st June, 1916, with boats, approved life-rafts, approved buoyant deck-seats, or other approved buoyant apparatus more than sufficient to accommodate the following percentage of the total number of persons which the ship is certified to carry.

In Class VI.	...	50 per cent.
In Class VII.	...	40 per cent.
In Class VIII.	...	25 per cent.
In Class IX.	...	25 per cent.

In every case, subject to the discretionary power given to the Board by Class VIII., Regulation D, and by Class IX., Regulation D, approved life-jackets shall be carried in accordance with the Regulations in the respective classes.

(2) Any boat which forms part of the equipment of a ship that was launched before the 1st November, 1913, and which has been inspected, and approved by the Board, before that date, may be accepted as equivalent to a lifeboat until the 1st July, 1915, so long as it remains in good condition.

(3) Boats and rafts which were ordered before the 1st March, 1913, in order to complete the equipment of a ship, but which were not delivered in sufficient time to be inspected by the Board before the 1st November, 1913, may be accepted as equivalent to lifeboats and pontoon life-rafts, respectively, until the 1st July, 1915, so long as they remain in good condition, and subject, as regards rafts, to such conditions as the Board may in any particular case require. Provided that the boats and rafts shall not be so accepted unless:—

(a) they have been inspected, where this has not already been done;

(b) they would have complied with the requirements of the Regulations in force prior to the 1st November, 1913.

20.—Exemptions.

(1) If it appears to the Board, on the application of the owner of any ship, that it is not practicable or reasonable to fit in that ship the number of sets of davits required by these Regulations, the Board may direct that one or more sets of davits may be dispensed with in that ship, subject to such conditions, if any, as the Board may require.

Provided that, in the case of a ship in Class I. (Foreign-going), or Class I. (Home Trade), the number of davits fitted shall not be less than the minimum number of open boats of Class 1 required by these Regulations, except in the following cases:—

(i) If a large proportion of the persons on board are accommodated in boats whose length is greater than 50 feet, a further reduction in the number of sets of davits may be allowed if the Board is satisfied that the arrangements are in all respects satisfactory.

(ii) In the case of a steam-ship, the keel of which was laid on or before the 31st December, 1914, the minimum number of sets of davits may, if the ship is between 245 feet and 460 feet in length, be one less, and if the ship is 460 feet or more in length, two less (one on each side of the ship) than the minimum number of open boats specified in column B of the table in Appendix I.

Provided further that, in the case of a ship in Class I. (Foreign-going), or Class I. (Home Trade), the owner of the ship in question shall be required to prove, by a test made in the presence of a Surveyor to the Board, that all the boats can be launched in a time, to be fixed by the Board. The conditions of this test shall be as follows:—

(i) The ship is to be upright and in smooth water.

(ii) The time is the time required from the beginning of the removal of the boat covers, or any other operation necessary to prepare the boats for lowering, until the last boat, or pontoon raft, is afloat.

- (iii) The number of men employed in the whole operation must not exceed the total number of boat hands that will be carried on the vessel under normal service conditions.
- (iv) Each boat when being lowered must have on board at least two men, and its full equipment as required by these Regulations.

The Board may, in its discretion, impose as a condition of such exemption as aforesaid, in respect of a ship in Class I. (Home Trade), launched before the 1st March, 1913, that the boats carried shall be of a required capacity greater than the minimum capacity prescribed in General Regulation 9.

(2) If it appears to the Board, on the application of the owner of any ship, that it is not practicable or reasonable in a particular case to require that pontoon lifeboats, made before the 31st December, 1914, and carried on ships of which the keel was laid on or before that date, shall have the minimum freeboard specified in these Regulations, or the bottom and deck made in two thicknesses with textile material between, the Board may, in their discretion, dispense with full compliance with the Regulations in these respects until the 1st January, 1920, subject to such conditions, if any, as the Board may impose.

(3) If it appears to the Board, on the application of the owner of any steamship in Class VI., Class VII., Class VIII., or Class IX., in the Home Trade, launched before the 1st March, 1913, that it is not practicable or reasonable to provide in that ship the boats, approved life-rafts, approved buoyant deck-seats, or other approved buoyant apparatus required, the Board may direct that the requirements of these Regulations may be modified as regards that ship, subject to such conditions as they may impose, provided always that the total number of persons which can be accommodated by the boats, approved life-rafts, approved buoyant deck-seats, or other approved buoyant apparatus, shall not be a lower percentage of the total number of persons which the ship is certified to carry than is required in sub-section (1) of Regulation 19 for these classes of ships respectively.

(4) If a small ship is unable to carry more than one boat, the Board may, in its discretion, exempt that ship from carrying more than one; but whenever one boat only is carried, there shall be proper provision to enable it to be placed readily in the water on either side of the ship.

If it is impracticable in any case for a ship to carry a boat of the minimum capacity prescribed by General Regulation 9, the Board may, in its discretion, allow a boat of smaller capacity to be carried by that ship.

21.—References to General Regulations.

Where in a Regulation in any class reference is made to a General Regulation, that reference shall not be deemed in any way to limit or to derogate from the general force and application of the Regulation to which reference is made.

The foregoing Regulations were made and passed at a meeting of the Marine Board of Victoria, held this twenty-eighth day of May, in the year of our Lord One thousand nine hundred and fifteen.

W. D. GARSIDE, President.

(SEAL) C. W. MACLEAN, Vice-President.

Public Health Department, 26th May, 1915.

T. W. H. HOLMES, Secretary.

CITY OF FOOTSCRAY.

BY-LAW No. 41.

A By-law under the *Health Act 1890* for the regulation of certain Noxious or Offensive Trades or Businesses, viz.:—

Trades.—The trades or businesses of—
 Blood boiling.
 Blood drying.
 Blood albumen manufacture.
 Bone boiling.
 Bone grinding or bone milling.
 Bone manure depôt.
 Dealing in bones, hides, horns, hoofs, or skins, whether for storage, drying, preservation, or conversion of such articles.
 Fat rendering.
 Fat extracting.
 Fat melting.
 Tallow melting.
 Fish curing.
 Gut cleaning, gut scraping, sausage skin, catgut or fiddlestring manufacture.
 Glue manufacture.
 Knackery.
 Manure manufacture.
 Soap manufacture.
 Fellmongering.
 Tanning.
 Wool scouring or wool washing.

IN pursuance of the powers conferred by the *Health Act 1890*, and of every other power enabling it in that behalf and for the purpose of carrying the said Act into execution, the Council of the City of Footscray, in the name and on behalf of the Mayor, Councillors, and Citizens thereof, hereby orders and enacts that from and after the date of this By-law coming into operation:—

GENERAL PROVISIONS.—DEFINITIONS.

Noxious or Offensive Matter.—In the construction of this By-law "Noxious or Offensive Matter" means any matter, manufactured product, residue, garbage, refuse, in whatever state, whether solid, liquid, or gaseous, from which any noxious or offensive effluvium, fumes, vapour, gas, dust, or other impurity may be or is liable to be emitted.

Premises.—"Premises" means lands, buildings, out-buildings, yard or enclosure used or intended to be used for the reception, treatment, disposal, production, manufacture, or storage of any article or material used or intended to be used in one or more of the noxious or offensive trades or businesses hereinbefore mentioned.

Council.—"Council" means the Council of the City of Footscray in the State of Victoria.

Owner.—"Owner" means the owner or owners for the time being of the premises aforesaid.

Occupier.—"Occupier" includes any person or persons in actual occupation of or entitled to occupy and use the premises aforesaid.

Air-Tight.—"Air-tight" in reference to any appliance or apparatus herein mentioned means "air-tight as far as possible" consistently with the carrying on of the trade or business for which or in connexion with which the said appliance is used or is herein required to be provided."

1. *Covers for Receptacles.*—The owner or occupier of the premises shall cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, vehicle, and other receptacle therein containing noxious or offensive matter to be provided with a cover, so constructed and placed that when such receptacle is in use the escape of noxious or offensive effluvium, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented as far as practicable.

2. *Construction of Buildings.—General.*—He shall on the premises cause every room, chamber, or place that is used for the purpose of receiving, storing, boiling, drying, reducing, crushing, disintegrating, pulverizing, grinding, or otherwise treating noxious or offensive matter, to be constructed in such a manner and furnished with such appliances that when such room, chamber, or place and such appliances are in such use, escape of noxious or offensive effluvium, vapour, gas, dust, liquid or fumes into the external atmosphere will be prevented as far as practicable.

3. *Reception, Treatment, and Storage of Noxious or Offensive Matter.*—He shall on the premises cause all noxious or offensive matter that is taken to such premises, or that results from trade processes at such premises, to be received, treated, and stored, while on the premises, in a room, chamber, or place constructed in such a manner and furnished with such appliances that when such room, chamber, or place, or such appliances are in use escape of noxious or offensive effluvium, vapour, gas, dust, liquid, or fumes into the external atmosphere will be effectually prevented, provided always

that noxious or offensive waste matters other than drainage and resulting from the trade processes conducted by him and no longer required by him for conducting these processes shall—

- (a) At least daily be placed in a receptacle or receptacles formed of non-absorbent and durable material and furnished with a cover of such material and capable of being fitted quickly and fixedly to such receptacle, and
- (b) At least once weekly be either removed from the premises in receptacles of the description already mentioned in 3 (a) or be burnt or otherwise rendered inoffensive and innocuous by means of an appliance by which escape of offensive or noxious fumes, gas, dust, vapour, or liquid into the external atmosphere will be prevented as far as practicable.

4. *Transport of Noxious or Offensive Matter on Premises.*—He shall when removing noxious or offensive matter from one part of his premises to another part thereof, remove the same in a receptacle of the description mentioned hereinbefore in 3 (a) or by some other appliance by which escape of offensive or noxious effluvium, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented as far as practicable, provided, nevertheless, that artificial manure may be removed on such premises if such manure be so removed whilst enclosed within bags that are in good order and condition.

5. *Use of Receptacles, Appliances, and Apparatus.—Treatment of Noxious and Offensive Vapours, &c., by Fire or Condensation or by both.*—He shall cause every part of his premises and every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, receptacle, appliance, and apparatus used on such premises to be so used that escape of noxious or offensive effluvium, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented as far as practicable, and he shall in every case cause all noxious or offensive vapours, gas, dust, or fumes therefrom to pass through a fire or into a suitable condensing apparatus, or through such apparatus and then through a fire, or otherwise, in such a manner as to deprive such vapours as far as practicable of all noxious and offensive properties.

6. *Import or Export of Noxious or Offensive Matter to or from Premises.*—He shall cause all noxious or offensive matter that is taken to the premises or that results from the trade processes of such premises to be brought to or removed from such premises only in a receptacle which or in a vehicle the receptacle of which is of the description mentioned hereinbefore in 3 (a).

7. *Certain details of Construction.*—He shall on the premises cause every floor and to a height of 6 feet from the floor, each wall, post, column, pier, or other upright support of every chamber, room, or place containing noxious or offensive matter, to be constructed of durable non-absorbent material closely joined and as far as practicable finished internally with smooth surfaces and with angles and corners rounded off and out sufficiently to prevent the lodgment of filth, provided that in the case of blood boiling, blood drying, bone boiling, bone grinding, bone milling, fat rendering, fat extracting, fat melting, tallow melting, gut cleaning, gut scraping establishments, sausage skin, catgut, or fiddlestring manufactories, glue, manure, and soap manufactories, the walls to their full height and extent of every such chamber, room, or place shall be also constructed of the aforesaid non-absorbent material.

In the case of proposed new premises, the site thereof must be raised above the levels of adjoining roadways and pathways.

8. *Disposal of Drainage of Premises.*—He shall on the premises cause every chamber, room, or place containing any noxious or offensive matter to be effectually drained by means of a closed drain trapped and ventilated and covered at every inlet with a fixed grating formed of wrought iron bars not less than three-eighths of an inch in diameter and placed not more than three-eighths of an inch apart, or, in case of drainage discharging into the sewers of the Melbourne and Metropolitan Board of Works, then under such conditions as may be prescribed by the said Board's Regulations, such drain discharging—

- (a) into a public sewer the sewerage from which is dealt with so as to be innocuous and inoffensive, or, in case such a sewer is not available;
- (b) on to land situated at such distance from any human habitation as shall be determined by the Council and used in such a manner as to effectually render the drainage matter innocuous and inoffensive, or, where not otherwise forbidden;
- (c) into a suitably covered and ventilated receptacle situated on the premises and so formed, constructed, and placed as to admit of its being readily and effectually removed; or

- (d) to some apparatus approved by the Council, and by which the drainage matters shall, in an innocuous and inoffensive manner, be rendered innocuous and inoffensive as far as practicable.

Grease traps shall be provided wherever required by the Council.

9. *Internal Drainage of Premises.*—He shall on the premises cause all drainage from every chamber, room, or place containing any noxious or offensive matter to flow as provided for in accordance with the provisions of the last preceding clause (8), and in the event of the receptacle mentioned in sub-clause (c) of that clause being used, he shall at least twice weekly in the months of October, November, December, January, February, and March, and once weekly in the remaining months, effectually remove the contents by means of a receptacle which, or if a vehicle the receptacle of which can be fixedly closed so as to be air-tight as described in 3 (a), and shall dispose of them in an innocuous and inoffensive manner, and shall on the occasion of such removal effectually cleanse the drainage receptacle, and in the event of this drainage being made to flow to an apparatus of the description mentioned in 8 (d), he shall cause such apparatus to be used in such a way as shall not give rise to offensiveness or injury to health.

10. *Receptacles, Appliances, and Apparatus in State of Good Repair.*—He shall on the premises cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, and other receptacle, apparatus, and appliance with which and every drain floor, wall, and ceiling, or roof lining, or roof of every room, chamber, and place in which any process of his business is carried on that may give rise to any noxious or offensive effluvia, vapour, gas, dust, liquid, or fumes to be at all times maintained in a state of good repair.

11. *Cleansing of Premises.*—He shall on the premises cause the floor, internal surface of each wall and the lower surface of the ceiling or roof lining or roof of every chamber, room, and place containing any noxious or offensive matter to be at all times as clean as practicable, and, except in the case of a room, chamber, or place used solely for the purpose of drying albumen, shall cause to be washed with hot lime-wash, the internal and lower surfaces aforesaid, at least four times in every year, that is to say, at least once in each of the months of February, May, August, and November, and, in addition, as often as may be necessary for the purpose of keeping such surfaces clean and wholesome as far as practicable.

12. *Cleansing of Receptacles, Appliances, and Apparatus.*—He shall on the premises cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, receptacle, utensil, apparatus and appliance provided, used upon or in connexion with such premises, to be kept, when not actually in use, at all times in a thoroughly clean condition, and shall cause all noxious or offensive matter that has been littered or spilled or splashed on such premises, to be collected at least at the close of every working day.

13. *Water for Cleansing.*—He shall cause the premises to be constantly supplied with clean water and appliances sufficient for thoroughly cleansing the premises and all articles, appliances, and apparatus hereinbefore required to be cleaned.

14. *Penalties.*—Every person who shall commit a breach of this By-law shall, for every such breach, be liable to a penalty of Ten pounds, provided nevertheless that the Justices or Court before whom any complaint may be made or any proceedings may be taken in respect of any such breach, may, if they think fit, order the whole or part only (not being less than Twenty shillings) of the penalty imposed by this By-law to be paid.

SECTION No. 1.

Bone Mills and Bone Manure Depôts.

1. *Interpretation.*—In the construction of this section of this By-law, unless the context otherwise requires—

- (a) "Bone Mill" shall mean the building and the appliances used for receiving, storing, crushing, disintegrating, pulverizing, grinding, or otherwise reducing or treating bones for conversion into bone manure, and shall include all buildings and land that may be appurtenant to such premises.
- (b) "Bone Miller" shall mean the person or persons occupying a bone mill.
- (c) "Bone Manure" shall mean bones or bone-dust whether mixed or unmixed with any other ingredient.
- (d) "Bone Manure Depôt" shall mean the building in which bone manure is kept or stored, and shall include all buildings and land that may be appurtenant to such premises.

2. *Construction of Building—Storage of Bones and Bone Manure.*—*Vide* "Special Provisions" relating hereto on page 2104 hereof.

3. *Milling Processes in Air-tight Receptacles.*—(a) Every bone miller or owner or occupier of a bone mill shall cause all milling processes therein to be conducted in air-tight casings, and the products of the milling to be conveyed in air-tight receivers or sound-bags through air-tight shoots.

Control of Noxious or Offensive Effluvia or Dust.—(b) Every bone miller or owner or occupier of a bone mill, and every owner or occupier of a bone manure depôt, shall adopt the best means practicable for preventing at all times the emission of dust or offensive or noxious effluvia from every part of the bone mill and bone manure depôt respectively.—*Vide* also clauses 1 and 3 of the General Provisions of this By-law, and the "Special Provisions" relative hereto on page 2104 hereof.

4. *Transport of Bones and Bone Manure.*—Every bone miller or owner or occupier of a bone mill or owner or occupier of a bone manure depôt shall cause all bones or bone manure received into or despatched from such bone mill or bone manure depôt, as the case may be, to be previously packed in such a manner as to prevent any nuisance arising therefrom during transit.—*Vide* also clauses 4, 6, and 12 of the General Provisions of this By-law.

5. *Maintenance and Cleansing.*—Every bone miller or owner or occupier of a bone mill or owner or occupier of a bone manure depôt shall, to the satisfaction of the Council, cause all buildings upon the premises where his trade is carried on, and all appliances, vessels, utensils, and implements used in connexion therewith, to be at all times maintained in good repair and kept clean, in accordance with clauses 10, 11, 12, and 13 of the General Provisions of this By-law.

SECTION No. 2.

Places for Storing, Drying, or Preserving Bones, Hides, Horns, Hoofs, or Skins.

1. *Construction of Buildings.*—Every owner or occupier of premises in which bones, hides, horns, hoofs, or skins are received in order to be stored, dried, or preserved shall, to the satisfaction of the Council—

- (a) Cause all such bones, hides, horns, hoofs, or skins to be stored in a building properly paved with asphalt, concrete, or other approved durable, impervious, and jointless material, and otherwise constructed as prescribed in clauses 2, 7, and 10 of the General Provisions of this By-law, and the floor to be properly graded to an impervious drain, which shall have an approved gradient, and discharge into a trapped drain inlet or other approved impervious receptacle.

- (b) *Storage of Materials.*—Cause all materials which have been received upon the premises where his trade is carried on to be stored in such a manner and in such a situation as to prevent as far as practicable the emission of noxious or offensive effluvia from such premises.—*Vide* also clauses 2 and 3 of the General Provisions of this By-law.

2. *Daily Cleansing.*—Every owner or occupier of premises in which bones, hides, horns, hoofs, or skins are received shall, to the satisfaction of the Council, at the close of every working day—

- (a) Cause every floor and pavement and every drain upon his premises to be thoroughly cleansed; and
- (b) *Collection, Storage, and Disposal of Litter, Filth, &c.*—He shall also at the close of every working day cause all litter, filth, or refuse, or decomposed or noxious matters that may be upon his premises to be collected and placed in properly constructed durable galvanized iron or other non-absorbent vessels or other suitable receptacles furnished with air-tight covers, and he shall cause the several vessels or receptacles then to be covered, and shall cause such vessels or receptacles, with the contents thereof, to be forthwith removed, and the contents thereof to be either burnt on the premises if such course be approved by the Council, or else removed from the premises and disposed of to the satisfaction of the Council; and

- (c) *Periodic Cleansing and Lime-washing.*—He shall also cause every part of the interior, above the floor or pavement of every building upon such premises, to be thoroughly cleansed at least four times in every year, and at the same time thoroughly washed with hot lime-wash, that is to say, at least once during the periods between the first and twenty-first days of February, the first and twenty-first days of May, the first and twenty-first days of August, and the first and twenty-first days of November respectively.

3. *Maintenance of Buildings, Drains, and Filth Receptacles.*—Every owner or occupier of premises at which bones, hides, horns, hoofs, or skins are received in order to be stored, dried, or preserved shall, to the satisfaction of the Council—

- (a) Cause every part of the internal surfaces of the walls of every building, and every floor or pavement upon the premises where his trade is carried on, to be kept at all times in good order and repair so as to prevent the absorption thereof of any liquid, filth, or any obnoxious matter which may fall or be splashed or deposited thereon; and
- (b) Cause every drain or means of drainage upon or in connexion with his premises to be maintained at all times in good order and effective condition; and
- (c) Cause every receptacle for filth or noxious matters to be maintained complete and in good repair and kept clean.—*Vide* also clauses 10, 11, 12, and 13 of the General Provisions of this By-law.

SECTION No. 3.

Fat Rendering, Fat Extracting, Fat Melting, and Tallow Melting.

1. *Construction of Buildings.*—

- (a) *Vide* "Special Provisions" relating hereto on page 2104 hereof, and
- (b) *Drainage of Buildings.*—Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on, shall cause every floor upon which any process of his business is carried on in any part of his premises, to be properly covered with a layer of concrete or other approved durable, jointless, impervious material, laid upon a firm foundation. He shall cause every such floor to have a self-draining slope towards a channel or gully, and shall cause every part of his premises wherein any such floor may be constructed to be effectually drained by adequate drains constructed of hard, durable, and impervious material, and communicating with a public sewer or other receptacle approved of by the Council. He shall cause every drain to be trapped (grease traps being provided where required by the Council), and the entrance thereto to be covered with a fixed grating, the bars of which shall not be more than three-eighths of an inch apart, or, in case of drainage discharging into the sewers of the Melbourne and Metropolitan Board of Works, then under such conditions as may be prescribed by the said Board's regulations. *Vide* also clauses 2, 7, and 10 of the General Provisions of this By-law.

2. *Appliances for treating Noxious or Offensive Effluvia.*—Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on, shall cause his premises to be provided with appliances capable, as far as practicable, of rendering innocuous and inoffensive all noxious or offensive effluvia, vapours, or gases arising in any process of his business, or from any matter which may be kept or stored upon his premises.

3. *Control of Noxious or Offensive Effluvia.*—Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on, shall adopt the best practicable means for insuring that every process of his business in which any noxious or offensive effluvia, vapours, or gases are generated, shall be conducted in such a manner that all noxious or offensive effluvia, vapours, or gases shall be effectually intercepted on the premises and rendered innocuous and inoffensive.—*Vide* also the "Special Provisions" relative hereto on page 2104 hereof.

4. Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on, shall, to the satisfaction of the Council, cause all material used, or offensive material or refuse from the boiling pans, and all refuse, residue, or other matters from which noxious or offensive effluvia, vapours, or gases are evolved, or are liable to be evolved, to be placed in properly closed receptacles, or to be otherwise dealt with in such a manner as to prevent, as far as practicable, any noxious or offensive effluvia, vapours, or gases therefrom escaping into the external atmosphere.—*Vide* also clauses 1 and 3 of the General Provisions of this By-law.

5. *Collection and Storage of Scraps, &c.*—Every fat renderer, fat extractor, fat melter, or tallow melter, or

owner or occupier of premises where such processes are respectively carried on, shall, to the satisfaction of the Council, cause all scraps, litter, refuse, or residue composed of matters liable to become decomposed on his premises to be constantly gathered or swept up and placed in properly closed receptacles.

6. Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on, shall, to the satisfaction of the Council, cause—

- (a) *Cleansing of Floors.*—The floor of every place in which any process of the business is carried on to be kept thoroughly cleansed, and he shall cause the premises to be constantly provided with an adequate supply of water for the purpose; and
- (b) *Periodic Cleansing of Walls.*—Cause the internal face of every wall of any building upon the premises where his trade is carried on to be thoroughly cleansed, and, after being so cleansed, to be thoroughly washed with hot limewash four times at least in every year, that is to say, at least once during the periods between the first and twenty-first days of February, the first and twenty-first days of May, the first and twenty-first days of August, and the first and twenty-first days of November respectively; and
- (c) *Daily Removal of Filth.*—At the close of every working day, cause all fat, tallow, grease, refuse, or filth which has been spilled or splashed or has fallen or been deposited upon any floor or pavement or elsewhere upon the premises where his trade is carried on, to be removed therefrom by scraping or by some other effectual means of cleansing; and
- (d) *Maintenance of Floors, Pavements, and Walls.*—Cause every part of the internal surface of the walls of every building, and every floor or pavement upon such premises, to be kept at all times in good order and repair, so as to prevent the absorption thereof of any liquid, filth, refuse, or any noxious matter which may be splashed, or may fall, or be deposited thereon; and
- (e) *Maintenance of Drains.*—Cause every drain or means of drainage upon or in connexion with such premises to be maintained at all times in good order and efficient action; and
- (f) *Maintenance and Cleanliness of Receptacles.*—Cause all receptacles, apparatus, boilers, and implements used upon his premises to be kept clean and maintained in good order and repair.

SECTION No. 4.

Blood Drying and Blood Boiling.

1. Every blood drier or blood boiler or owner or occupier of premises where such processes are respectively carried on shall—

- (a) *Transport of Blood.*—Cause all blood brought to or from his premises to be brought thither or thence in properly closed vessels or receptacles constructed of galvanized iron or other non-absorbent material.—*Vide* also clauses 4, 6, and 12 of the General Provisions of this By-law.
- (b) *Storage of Blood.*—Cause all blood which has been received upon the premises where his trade is carried on, and which is not required for immediate use, to be stored in such a manner and in such a situation as to prevent as far as practicable the emission of offensive or injurious effluvia therefrom; and
- (c) *Construction of Buildings.*—*Vide* "Special Provisions," relating hereto on page 2104 hereof.

2. Every blood drier or blood boiler or owner or occupier of premises where such processes are respectively carried on, shall, to the satisfaction of the Council, at the close of every working day—

- (a) *Daily Cleansing of Floors and Pavements.*—Cause every floor or pavement and up to a height of 6 feet the walls on his premises elsewhere than in that part of the premises where the processes of drying and packing are carried on, to be thoroughly cleansed; and
- (b) *Daily Cleansing of Utensils.*—Cause every vessel or utensil and every implement which has been in use during the day upon the premises where his trade is carried on, or which is in a foul or offensive condition, to be thoroughly cleansed, and shall provide an adequate supply of water for cleansing purposes.

3. Every blood drier or blood boiler or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council—

(a) *Maintenance of Walls and Floors.*—Cause every part of the internal surface of the walls and every floor or pavement of any building upon the premises where his trade is carried on, to be kept at all times in good order and repair, so as to prevent the absorption therein of any liquid, filth, or refuse, or any noxious or injurious matter which may fall or be splashed, spilled, or deposited thereon.—*Vide* also clauses 10, 11, 12, and 13 of the General Provisions of this By-law.

(b) *Maintenance of Drains.*—Also cause every drain or means of drainage upon or in connexion with such premises to be maintained at all times in good order and efficient action.

4. *Storage of Decomposable Matter, Control of Noxious or Offensive Effluvia.*—Every blood drier or blood boiler or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council, cause all blood, blood clots, or any refuse, residue, or other matter from which noxious or offensive effluvia or vapours are evolved, or are liable to be evolved, to be placed in properly closed receptacles formed of non-absorbent material, or to be otherwise dealt with in such a manner as to prevent as far as practicable any noxious or offensive effluvia or vapours therefrom escaping into the external atmosphere.—*Vide* also clauses 1 and 3 of the General Provisions of this By-law, and the "Special Provisions" relative hereto on page 2104 hereof.

5. *Treatment of Noxious or Offensive Effluvia.*—Every blood drier or blood boiler or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council—

(a) adopt the best practicable means of rendering innocuous and inoffensive all vapours emitted during the process of drying or boiling from the contents of any pan or other receptacle, or from any kiln or drying floor upon the premises where his trade is carried on. The boiling of blood shall be effected by means of steam and not by direct action of fire on the pan or other receptacle containing blood. The addition of acid to blood or blood clot may be effected only in a closed non-absorbent vessel, which shall be connected with apparatus of the kind mentioned in clause (b) next following;

(b) in every case cause the vapours to pass directly from the pan or receptacle, or from the kiln or drying floor through a fire, or into a suitable condensing or absorbing apparatus, or through a suitable condensing or absorbing apparatus, and then through a fire in such a manner as to effectually consume the vapours, or deprive the same as far as practicable of all offensive or injurious properties.

6. *Periodic Cleansing of Building.*—Every blood drier or blood boiler or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council, cause every part of the internal surface above the floor or pavement of every building used for any process of his trade to be thoroughly cleansed, and at the same time washed with hot limewash at least four times in every year, that is to say, at least once during the periods between the first and tenth days of February, the first and tenth days of May, the first and tenth days of August, and the first and tenth days of November respectively.

"SPECIAL PROVISIONS" HEREINBEFORE REFERRED TO.

Every blood boiler and blood drier (provided such blood is in a condition of putrescence), and every bone boiler, bone grinder, bone miller, fat renderer, fat extractor, fat melter, tallow melter, gut cleaner, gut scraper, sausage-skin manufacturer, cat-gut or fiddle-string manufacturer, glue manufacturer, manure manufacturer, and soap manufacturer shall for the purposes of this By-law provide a closed chamber or chambers in accordance with the following requirements:—

(a) Such chamber or chambers shall be enclosed with walls of brick, stone, concrete, reinforced concrete, or other suitably impervious material, and such walls and the roof or ceiling shall be constructed in such manner that the air of the closed chamber or chambers cannot, except as hereinafter provided, escape into the external atmosphere.

(b) Such chamber or chambers shall be provided with windows or lights of glass not less than one-eighth of an inch in thickness, the aggregate area of such glass shall be equal to not less than one-tenth of the floor space of the chamber, and such windows or lights shall be made air-tight and not to open, and shall, where necessary, be protected externally by a wire netting of a mesh of not more than half an inch.

(c) The door or doors of such chamber or chambers shall be closely fitting and self-closing, so as to prevent the air of the closed chamber escaping through the doorway when the door is closed.

(d) Such closed chamber or chambers shall be provided with an inlet or inlets for air and such inlet or inlets shall be so constructed or fitted as to prevent escape of air from the chamber into the external atmosphere, and shall be fitted with a fan or fans or other appliances, which shall be kept working at all times when the business is in operation, and in such manner as to provide an adequate supply of fresh air for the ventilation of the chamber and to prevent nuisance arising in connexion with the use of such chamber.

(e) Such closed chamber or chambers shall be provided with a shaft fitted with a fan or other appliance capable of effectually conveying the air of the chamber into or through a furnace, fire, or through other apparatus, so as to deprive such air of all offensive or noxious properties.

The inner surface of the walls of such closed chamber or chambers shall be covered with hard, smooth, and impervious material to the height of 6 feet at the least above the level of the floor, and such covering shall be always kept in good order and repair.

Every blood boiler and blood drier (provided such blood is in a condition of putrescence), and every bone boiler, bone grinder, bone miller, fat renderer, fat extractor, fat melter, tallow melter, gut cleaner, gut scraper, sausage-skin manufacturer, cat-gut or fiddle-string manufacturer, glue manufacturer, manure manufacturer, and soap manufacturer shall keep in the afore-said closed chamber or chambers all materials, manufactured products, residues, or refuse used in connexion with his business in or upon the premises and from which any offensive or noxious effluvia, vapour, or gas may be emitted.

Every blood boiler and blood drier (provided such blood is in a condition of putrescence), and every bone boiler, bone grinder, bone miller, fat renderer, fat extractor, fat melter, tallow melter, gut cleaner, gut scraper, sausage-skin manufacturer, cat-gut or fiddle-string manufacturer, glue manufacturer, manure manufacturer, and soap manufacturer shall conduct in such closed chamber, or chambers aforesaid, and in such manner as to prevent the escape of such offensive effluvia, vapour, or gas into the external atmosphere all processes of his business in which any offensive or noxious effluvia, vapour, or gas may be emitted.

The resolution for passing this By-law, No. 41, was agreed to by the Council on the fifteenth day of March, 1915, and confirmed on the nineteenth day of April, 1915.

The common seal of the Municipality of the City of Footscray was hereto affixed in the presence of—

(SEAL) STUART M. BELL, Mayor.
A. McDONALD, Councillor.
D. T. BARNET, Town Clerk.

The foregoing By-law was allowed and confirmed by the Board of Public Health in and for the State of Victoria (it having been first certified that notice of the intention to apply for such confirmation had been given in the city for which the same has been made in the manner required by law) this ninth day of June, in the year of our Lord One thousand nine hundred and fifteen.

By order of the Board,

T. W. H. HOLMES,
Secretary.

CITY OF RICHMOND.

BY-LAW NO. 76.

A By-law under the Health Act 1890 for the Regulation of Certain Noxious or Offensive Trades or Businesses, viz. :—

Trades—The trades or businesses of—

Blood boiling.
Blood drying.
Blood albumen manufacture.
Bone boiling.
Bone grinding or bone milling.
Bone manure dépôt.
Dealing in bones, hides, horns, hoofs or skins, whether for storage, drying, preservation, or conversion of such articles.
Fat rendering.
Fat extracting.
Fat melting.
Tallow melting.
Fish curing.
Gut cleaning, gut scraping, sausage skin, catgut or fiddlestring manufacture.
Glue manufacture.
Knackery.
Manure manufacture.
Soap manufacture.
Fellmongering.
Tanning.
Wool scouring or wool washing.

IN pursuance of the powers conferred by the Health Act 1890, and of every other power enabling it in that behalf, and for the purpose of carrying the said Act into execution, the Council of the City of Richmond, in the name and on behalf of the Mayor, Councillors, and Citizens thereof, hereby orders and enacts that from and after the date of this By-law coming into operation—

GENERAL PROVISIONS.—DEFINITIONS.

Noxious or Offensive Matter.—In the construction of this By-law "noxious or offensive matter" means any matter manufactured, product, residue, garbage, refuse, in whatever state, whether solid, liquid, or gaseous, from which any effluvia, offensive fumes, vapour, gas, dust, or other impurity may be or is liable to be emitted.

Premises.—"Premises" means lands, buildings, out-buildings, yard, or enclosure used or intended to be used for the reception, treatment, disposal, production, manufacture, or storage of any articles or material used or intended to be used in one or more of the noxious or offensive trades or businesses hereinbefore mentioned.

Owner.—"Owner" means the owner or owners for the time being of the premises aforesaid.

Occupier.—"Occupier" includes any person or persons in actual occupation of or entitled to occupy and use the premises aforesaid.

Council.—"Council" means the Council of the City of Richmond, in the State of Victoria.

1. *Covers for Receptacles*.—The owner or occupier of the premises shall cause every boiler, digester, drier, mixer, vat, pan, tank, trough, vessel, and other receptacle therein containing noxious or offensive matter to be so dealt with that when such receptacle is in use noxious and offensive effects will be prevented or diminished as far as practicable.

2. *Construction of Buildings—General*.—He shall on the premises cause every room, chamber, or place that is used for the purpose of receiving, storing, boiling, drying, reducing, crushing, disintegrating, pulverizing, grinding, or otherwise treating noxious or offensive matter, to be kept in such a manner, when such room, chamber, or place are used, that noxious and offensive effects will be prevented or diminished as far as practicable.

3. *Reception, Treatment, and Storage of Noxious or Offensive Matter*.—He shall on the premises cause all noxious or offensive matter that is taken to such premises, or that results from trade processes at such premises, to be received, treated, and stored, while on the premises, in a place so that noxious and offensive effects may be prevented or diminished as far as practicable, provided always that noxious or offensive waste matters other than drainage, and resulting from the trade processes conducted by him and no longer required by him for conducting these processes, shall—

(a) At least daily be placed in a receptacle or receptacles formed of non-absorbent and durable material; and

(b) At least once weekly be either removed from the premises in receptacles, or be burnt or otherwise dealt with in order to prevent or diminish noxious or offensive effects arising therefrom as far as practicable.

4. *Transport of Noxious or Offensive Matter on Premises*.—He shall, when removing noxious or offensive matter from one part of his premises to another part thereof, remove the same by such means that escape of

offensive or noxious effluvia, vapour, gas, dust, liquid, or fumes into the external atmosphere will be prevented as far as practicable.

5. *Use of Receptacles, Appliances, and Apparatus—Treatment of Noxious and Offensive Vapours, &c.*—He shall cause every part of his premises, and every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, receptacle, appliance, and apparatus used on such premises to be so used that noxious or offensive effects will be prevented or diminished as far as practicable.

In the boiling of blood, steam must be used. The addition of acid to blood or blood clot shall be effected only in closed vessels formed of non-absorbent material.

Bone milling processes shall be conducted only in air-tight casings, and the products of the milling shall be conveyed to air-tight receivers or to sound bags through air-tight shoots or conveyors enclosed in air-tight casings.

6. *Import or Export of Noxious or Offensive Matter to or from Premises*.—He shall cause all noxious or offensive matter that is taken to the premises or that results from the trade processes at such premises to be brought to or removed from such premises in such a way that noxious or offensive effects arising therefrom may be diminished or prevented as far as practicable.

7. *Disposal of Drainage of Premises*.—All drainage must comply with the requirements of the Melbourne and Metropolitan Board of Works.

8. *Receptacles, Appliances, and Apparatus in State of Good Repair*.—He shall on the premises cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, and other receptacle, apparatus, and appliance with which and every drain, floor, wall, and ceiling, or roof lining, or roof of every room, chamber, and place in which any process of his business is carried on that may give rise to noxious or offensive effects, to be at all times maintained in a state of good repair.

9. *Cleansing of Premises*.—He shall on the premises cause the floor internal surface of each wall, and the lower surface of the ceiling or roof lining, or roof of every chamber, room, and place containing any noxious or offensive matter to be at all times as clean as practicable.

10. *Cleansing of Receptacles, Appliances, and Apparatus*.—He shall on the premises cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, receptacle, utensil, apparatus and appliance provided, used upon, or in connexion with such premises to be kept when not actually in use, at all times in a thoroughly clean condition, and shall cause all noxious or offensive matter that has been littered or spilled or splashed on such premises, to be collected at least at the close of every working day.

11. *Water for Cleansing*.—He shall cause the premises to be constantly supplied with clean water and appliances sufficient for thoroughly cleansing the premises and all articles, appliances, and apparatus hereinbefore required to be cleaned.

12. *Penalties*.—Every person who shall commit a breach of this By-law shall for every such breach be liable to a penalty not exceeding Ten pounds; provided, nevertheless, that the Justices or Court before whom any complaint may be made or any proceedings may be taken in respect of any such breach may, if they think fit, order the whole or part only (not being less than Five shillings) of the penalty imposed by this By-law to be paid.

SECTION NO. 1.

Bone Mills.

1. *Interpretation*.—In the construction of this section of this By-law, unless the context otherwise requires—

(a) "Bone-mill" shall mean the building and the appliances used for receiving, storing, crushing, disintegrating, pulverizing, grinding, or otherwise reducing or treating bones for conversion into bone manure, and shall include all buildings and land that may be appurtenant to such premises.

(b) "Bone miller" shall mean the person or persons occupying a bone mill.

(c) "Bone manure" shall mean bones or bone dust, whether mixed or unmixed with any other ingredient.

2. *Construction of Buildings*.—(a) A bone miller or owner or occupier of a bone mill shall not suffer or permit any bones to be received, stored, crushed, disintegrated, pulverized, ground, or otherwise reduced or treated in a bone mill unless such processes are wholly conducted within a building or buildings, the walls, floors, and ceilings, or underside of the roof whereof are constructed of durable and non-absorbent materials, finished internally with smooth surfaces, and in other respects constructed and maintained as prescribed in clauses 2 and 8 of the General Provisions of this By-law.

Storage of Bones and Bone Manure.—(b) The owner or occupier of a bone mill shall not suffer or permit any bones or bone manure to be kept or stored in such bone mill, except in a building or buildings whose walls, floors,

and ceilings, or the underside of the roofs of which are constructed as hereinbefore described in clauses 2 and 8 of the General Provisions of this By-law.

3. Milling Processes in Air-tight Receptacles.—(a) Every bone miller or owner or occupier of a bone mill shall cause all milling processes therein to be conducted in air-tight casings, and the products of the milling to be conveyed to air-tight receivers or sound bags through air-tight shoots.

Control of Noxious or Offensive Effluvia or Dust.—(b) Every bone miller or owner or occupier of a bone mill shall adopt the best means practicable for preventing at all times the emission of dust or offensive or noxious effluvia from every part of the bone mill. *Vide* also clauses 1 and 3 of the General Provisions of this By-law.

4. Transport of Bones and Bone Manure.—Every bone miller or owner or occupier of a bone mill shall cause all bones or bone manure received into or despatched from such bone mill to be previously packed in such a manner as to prevent any nuisance arising therefrom during transit. *Vide* also clauses 4, 6, and 10 of the General Provisions of this By-law.

5. Maintenance and Cleansing.—Every bone miller or owner or occupier of a bone mill shall, to the satisfaction of the Council, cause all buildings upon the premises where his trade is carried on, and all appliances, vessels, utensils, and implements used in connexion therewith, to be at all times maintained in good repair and kept clean, in accordance with clauses 8, 9, 10, and 11 of the General Provisions of this By-law.

SECTION No. 2.

Places for Storing, Drying, or Preserving Bones, Horns, Hoofs, or Green or Salted Hides, or Green or Salted Skins.—

1. Construction of Buildings.—Green or salted hides or green or salted skins must be stored on floors constructed either of brick, concrete, asphalt, or other similar impervious material.

2. Daily Cleansing.—Every owner or occupier of premises in which bones, horns, hoofs, or green or salted hides or green or salted skins are received shall, to the satisfaction of the Council, at the close of every working day—

(a) Cause every floor and pavement, and every drain upon his premises to be thoroughly cleansed; and

(b) **Collection, Storage, and Disposal of Litter, Filth, &c.**—He shall also, at the close of every working day, cause all litter, filth, or refuse, or decomposed or noxious matters that may be upon his premises, to be collected and placed in properly constructed, durable, galvanized-iron, or other non-absorbent vessels or other suitable receptacles, and he shall cause the several vessels or receptacles then to be covered, and shall cause such vessels or receptacles, with the contents thereof, to be removed as soon as practicable, and the contents thereof to be either burnt on the premises, if such course be approved by the Council, or else removed from the premises and disposed of to the satisfaction of the Council; and

(c) **Periodic Cleansing.**—He shall also cause every part of the interior above the floor or pavement of every building upon such premises to be thoroughly cleansed at least twice in every year. That is to say at least once during the periods between the first and twenty-first days of February and the first and twenty-first days of August.

3. Maintenance of Buildings, Drains, and Filth Receptacles.—Every owner or occupier of premises at which bones, hides, horns, hoofs, or skins are received in order to be stored, dried, or preserved, shall, to the satisfaction of the Council—

(a) Cause every part of the internal surface of the walls of every building, and every floor or pavement upon the premises where his trade is carried on, to be kept at all times in good order and repair, so as to prevent the absorption thereof of any liquid, filth, or any noxious matter which may fall or be splashed or deposited thereon; and

(b) Cause every drain or means of drainage upon or in connexion with his premises to be maintained at all times in good order and effective condition; and

(c) Cause every receptacle for filth or noxious matters to be maintained complete and in good repair, and kept clean. *Vide* also clauses 8, 9, 10, and 11 of the General Provisions of this By-law.

SECTION No. 3.

Fat Melting, Fat Extracting, Fat Rendering, and Tallow Melting.

1. Construction and Drainage of Buildings.—Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on shall cause the ground floor upon which any process of his business is carried on in any part of his premises, to be properly covered with a layer of concrete or other approved durable jointless impervious material, laid upon a firm foundation. He shall cause every such floor to have a self-draining slope towards a channel or gully-trap, and shall cause every part of his premises wherein any such floor may be constructed to be effectually drained in accordance with the By-laws or Regulations of the Melbourne and Metropolitan Board of Works.

2. Appliances for Treating Noxious or Offensive Effluvia.—Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on shall cause his premises to be provided with appliances capable, as far as practicable, of rendering innocuous and inoffensive all noxious or offensive effluvia, vapours, or gases arising in any process of his business, or from any matter which may be kept or stored upon his premises.

3. Control of Noxious or Offensive Effluvia.—Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on, shall adopt the best practicable means for insuring that every process of his business may be so conducted so as to prevent or diminish any noxious or offensive effects thereof as far as practicable.

4. Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council, cause all material used, or offensive material or refuse from the boiling pans, and all other refuse, residue or other matters from which noxious or offensive effluvia, vapours, or gases are evolved, or are liable to be evolved, to be placed in properly closed receptacles, or to be otherwise dealt with in such a manner as to prevent or diminish, as far as practicable, any noxious or offensive effects thereof. *Vide* also clauses 1 and 3 of the General Provisions of this By-law.

5. Collection and Storage of Scraps, &c.—Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council, cause all scraps, litter, refuse or residue composed of matters liable to become decomposed on his premises to be constantly gathered or swept up and placed in properly closed receptacles.

6. Every fat renderer, fat extractor, fat melter, or tallow melter, or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council, cause—

(a) **Cleansing of Floors.**—The floor of every place in which any process of the business is carried on to be kept thoroughly cleansed, and he shall cause the premises to be constantly provided with an adequate supply of water for the purpose; and

(b) **Periodic Cleansing of Walls.**—Cause the internal face of every wall of any building upon the premises where his trade is carried on to be thoroughly cleansed, and after being so cleansed, to be thoroughly washed with hot limewash at least twice in every year. That is to say at least once during the periods between the first and twenty-first days of February and the first and twenty-first days of August.

(c) **Daily Removal of Filth.**—At the close of every working day, cause all fat, tallow, grease, refuse, or filth which has been spilled or splashed, or has fallen or been deposited upon any floor or pavement or elsewhere upon the premises where his trade is carried on, to be removed therefrom by scraping or by some other effectual means of cleansing; and

(d) **Maintenance of Floors, Pavement, and Walls.**—Cause every part of the internal surface of the walls of every building, and every floor or pavement upon such premises, to be kept at all times in good order and repair, so as to prevent as far as practicable the absorption thereof of any liquid, filth, refuse, or any noxious matter which may be splashed or be deposited thereon; and

(e) **Maintenance of Drains.**—Cause every drain or means of drainage upon or in connexion with such premises to be maintained at all times in good order and efficient action; and

(f) **Maintenance and Cleanliness of Receptacles.**—Cause all receptacles, apparatus, boilers, and implements used upon his premises to be kept clean and maintained in good order and repair.

SECTION No. 4.

Blood Drying and Blood Boiling.

1. Every blood drier or blood boiler, or owner or occupier of premises where such processes are respectively carried on, shall—

(a) *Transport of Blood.*—Cause all blood brought to or from his premises to be brought thither or thence in properly closed vessels or receptacles, constructed of galvanized-iron or other non-absorbent material. *Vide* also clauses 4, 6, and 12 of the General Provisions of this By-law.

(b) *Storage of Blood.*—Cause all the blood which has been received upon the premises where his trade is carried on, and which is not required for immediate use, to be stored in such a manner and in such a situation as to prevent, as far as practicable, the emission of offensive or injurious effluvia therefrom; and

(c) *Construction of Buildings.*—Cause every process of his business to be carried on in a building properly paved with asphalt, concrete, or other approved impervious material, and having walls covered to a height at least 6 feet with hard, smooth, and impervious material, and otherwise constructed and maintained as prescribed in clauses 2 and 8 of the General Provisions of this By-law.

2. Every blood drier or blood boiler, or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council, at the close of every working day—

(a) *Daily Cleansing of Floors and Pavements.*—Cause every floor or pavement, and up to a height of 6 feet, the walls on his premises, elsewhere than in that part of the premises where the processes of drying and packing are carried on, to be thoroughly cleansed, and

(b) *Daily Cleansing of Utensils.*—Cause every vessel or utensil and every implement which has been in use during the day upon the premises where his trade is carried on, or which is in a foul or offensive condition, to be thoroughly cleansed, and shall provide an adequate supply of water for cleansing purposes.

3. Every blood drier or blood boiler, or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council—

(a) *Maintenance of Walls and Floors.*—Cause every part of the internal surface of the walls and every floor or pavement of any building upon the premises where his trade is carried on to be kept at all times in good order and repair, so as to prevent the absorption therein of any liquid, filth, or refuse, or any noxious or injurious matter which may fall or be splashed, spilled, or deposited thereon. *Vide* also clauses 8, 9, 10, and 11 of the General Provisions of this By-law.

(b) *Maintenance of Drains.*—Also cause every drain or means of drainage upon or in connexion with such premises to be maintained at all times in good order and efficient action.

4. *Storage of Decomposable Matter—Control of Noxious or Offensive Effluvia.*—Every Blood drier or blood boiler, or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council, cause all blood, blood clots, or any refuse, residue, or other matter from which noxious or offensive effluvia or vapours are evolved, or are liable to be evolved, to be placed in properly closed receptacles formed of non-absorbent material, or to be otherwise dealt with in such a manner as to prevent, as far as practicable, any noxious or offensive effluvia or vapours therefrom escaping into the external atmosphere. *Vide* also clauses 1 and 3 of the General Provisions of this By-law.

5. *Treatment of Noxious or Offensive Effluvia.*—Every blood drier or blood boiler, or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council—

(a) Adopt the best practicable means of rendering innocuous and inoffensive all vapours emitted during the process of drying or boiling from the contents of any pan or other receptacle, or from any kiln or drying floor upon the premises where his trade is carried on. The boiling of blood shall be effected by means of steam, and not by the direct action of fire on the pan or other receptacle containing blood. The addition of acid to blood or blood clot may be effected only in a closed, non-absorbent

vessel, which shall be connected with apparatus of the kind mentioned in clause (b) next following:—

(b) In every case cause the vapours to pass directly from the pan or receptacle or from the kiln or drying floor, through a fire, or into a suitable condensing or absorbing apparatus, or through a suitable condensing or absorbing apparatus, and then through a fire, in such a manner as to effectually consume the vapours, or deprive the same, as far as practicable, of all offensive or injurious properties.

6. *Periodic Cleansing of Building.*—Every blood drier or blood boiler, or owner or occupier of premises where such processes are respectively carried on shall, to the satisfaction of the Council, cause every part of the internal surface above the floor or pavement of every building used for any process of his trade to be thoroughly cleansed, and at the same time washed with hot lime-wash at least four times in every year—that is to say, at least once during the periods between the first and tenth days of February, the first and tenth days of May, the first and tenth days of August, and the first and tenth days of November respectively.

SECTION No. 5.

Soap Manufacture.

1. *Interpretation.*—In the construction and for the purposes of this section of this By-law the term "soap manufactory" shall be held to include soap boiling establishment.

2. *Control of Noxious or Offensive Effluvia.*—Every owner or occupier of a soap manufactory shall on the premises conduct all processes of his business so as to prevent or diminish the noxious or offensive effects thereof, if any.

3. *Buildings, Receptacles, Appliances, and Apparatus in State of Good Repair.*—He shall on the premises cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, and other receptacle, apparatus, and appliance with which and every drain, floor, wall, and ceiling or roof-lining or roof of every room, chamber, and place in which any process of his business is carried on that may give rise to noxious and offensive effects, to be at all times maintained in a state of good repair.

4. *Cleansing of Premises.*—He shall on the premises cause the floor, internal surface of each wall, and the lower surface of the ceiling or roof-lining or roof of every chamber, room, and place containing any noxious and offensive matter, to be at all times as clean as practicable.

5. *Cleansing of Receptacles, Appliances, and Apparatus.*—He shall on the premises cause every boiler, digester, drier, mixer, vat, pan, tank, trough, tub, vessel, receptacle, utensil, apparatus, and appliance provided, used upon or in connexion with such premises, to be kept when not actually in use at all times in a thoroughly clean condition, and shall cause all noxious or offensive matter that has been littered or spilled or splashed on such premises to be collected at least at the close of every working day.

6. *Water for Cleansing.*—He shall cause the premises to be constantly supplied with clean water and appliances sufficient for thoroughly cleansing the premises and all articles, appliances, and apparatus hereinbefore required to be cleaned.

7. He shall cause every floor, yard, and hauling-way to have a proper slope and channel towards a gully-trap, and to be effectually drained in accordance with the By-laws or Regulations of the Melbourne and Metropolitan Board of Works.

8. *Cleansing of Premises.*—(a) Every owner or occupier of a soap manufactory shall on the premises, to the satisfaction of the Council, cause the inner surface of every wall of every chamber, room, or place in which any process of his business is carried on, which surface is not covered with durable, smooth, and non-absorbent material, to be kept at all times thoroughly clean and in good order and repair. He shall, except as herein-after provided, cause every such inner surface of such wall, and also of every ceiling or roof in every such chamber, room, or place aforesaid, to be thoroughly washed with hot lime-wash at least twice in every year; that is to say, at least once during the periods between the first and twenty-first days of February and the first and twenty-first day of August, provided nevertheless he shall not cause to be lime-washed the inner surface of any wall or part of a wall or of a ceiling or part of a ceiling, where such surface is properly covered with durable, smooth, and non-absorbent material.

9. *Maintenance of Floors, Pavements, and Walls.*—Every owner or occupier of a soap manufactory shall cause every part of the internal surface of the walls of every building and every floor or pavement upon such premises to be kept at all times in good order and

repair so as to prevent the absorption therein of any liquid, filth, refuse, or any offensive or noxious matter which may be splashed or deposited thereon.

10. *General*.—*Vide* also clauses numbered 1, 3, 4, 6, 8, 9, 10, and 11 of the General Provisions of this By-law.

Resolution for passing this By-law agreed to by the Council on the twenty-sixth (26th) day of October, 1914.

BOROUGH OF MARYBOROUGH.

BY-LAW No. 45.

A By-law of the Borough of Maryborough, made under the provisions of sections 31, 32, 35, and 253 of the *Health Act 1890*, and numbered 45, for regulating the removal and disposal of house and yard rubbish, and to compel occupiers and owners of premises within the borough to provide proper receptacles for the garbage arising from their premises.

IN pursuance of the powers conferred by the *Health Act 1890*, the Mayor, Councillors, and Burgesses of the Borough of Maryborough make the following By-law:—

1. All former By-laws so far as they relate to the matters and things provided for in this By-law be and are hereby repealed.

2. This By-law shall come into force on its confirmation by the Board of Public Health and immediately after its publication in the *Government Gazette*.

3. This By-law shall apply to and have operation within the municipal boundaries of the Borough of Maryborough.

4. The Council may exempt any premises within the municipal boundaries of the Borough of Maryborough from the operation of this By-law on the recommendation of the Health Officer and the Health Inspector.

5. The occupier and every person having the management or control of any house or premises within the said borough shall cause the yard and ground belonging thereto, or occupied in connexion therewith, to be kept so as not to be a nuisance or injurious to health, and shall provide and keep, or cause to be provided and kept thereon, a covered receptacle or receptacles made of non-absorbent material, and shall cause all rubbish from their respective houses or premises to be placed without delay in such covered non-absorbent watertight receptacles, into which a sufficient quantity of some efficient deodorant shall be introduced when necessary, the capacity of each of such receptacles not to exceed three cubic feet.

6. Every such occupier or person shall keep such receptacles in his yard so as to be easily accessible to the borough scavengers, and shall not place them in any street or lane without the consent, in writing, of the Health Inspector, and shall be responsible for the keeping of the receptacles in a sound and inoffensive condition.

7. That at least once a week, or so much more frequently as the Council may from time to time direct, the contents of these receptacles shall be removed, and either rendered inoffensive or removed to a destructor.

8. No such occupier or person shall deposit, place, or sweep any dust, rubbish, yard or house sweepings, or filth of any kind, upon any land, street, lane, drain, water channel, or place other than the depôts provided by the Council, or the receptacles provided by the householder for the deposit of such dust, rubbish, yard or house sweepings, or filth.

9. No dust-box or receptacle shall be placed in or on any street, lane, or right-of-way, but will be removed from the inside of the yards or premises.

10. For every offence against any provisions of this By-law the offender shall, upon conviction before any two or more justices of the peace, forfeit and pay a penalty not exceeding Ten pounds or less than Five shillings.

Made and passed by special order on the 18th day of February, 1915.

(SEAL) A. M. GIDDINGS, Mayor.
H. N. PHILLIPS, Town Clerk.

Confirmed by special order on the 18th day of March, 1915.

(SEAL) A. M. GIDDINGS, Mayor.
H. N. PHILLIPS, Town Clerk.

The foregoing By-law was allowed and confirmed by the Board of Public Health in and for the State of Victoria (it having been first certified that notice of the intention to apply for such confirmation had been given in the borough for which the same has been made in the manner required by law) this ninth day of June, in the year of our Lord One thousand nine hundred and fifteen.

By order of the Board,

Stamps Act 1890.

COLLECTION OF FEES BY STAMPS.

At the Executive Council Chamber, Melbourne, the eighth day of June, 1915.

PRESENT:

His Excellency the Governor of Victoria.	
Sir A. J. Peacock	Mr. Hagelthorn
Mr. Murray	Mr. Lawson.

WHEREAS by section 4 of the *Stamps Act 1890* it is provided that—

From and after such time or respective times as the Governor in Council shall heretofore by notice published in the *Government Gazette* have appointed or shall hereafter from time to time by such notice published in the *Government Gazette* appoint, the following fees, or such of them as shall have been or shall be specified in such notice or respective notices, shall be collected by stamps, namely: All fees payable to the Crown or the consolidated revenue of Victoria or to the several officers of Government, in the several Courts and offices, in respect of matters or things to be done or performed under the several enactments specified in the Second Schedule hereto, and all fees payable to the Crown or the consolidated revenue of Victoria or to any officers of the Government under any other enactment now or hereafter in force, and which the Governor in Council shall by any such notice in the *Government Gazette* direct to be collected by stamps:

And where by the Rules of the Supreme Court of Victoria, dated the 20th day of August, 1914, it is ordered, under the powers conferred by the *Services and Execution of Process Act 1901-12* that the fees to be paid in connexion with the service of the process of the Courts of this State under the said Act and the execution and enforcement by such Courts of the process and judgments of the Courts of other States and parts of the Commonwealth shall be those set forth in the Schedule to the said Rules: And whereas an Order in Council in relation to such fees was made on the 18th day of May, 1915: Now therefore His Excellency the Governor of Victoria, with the advice of the Executive Council thereof, by virtue of the powers conferred by the first-mentioned Act, doth, by this present Order, give notice that such of the fees set forth in the Schedule to the said Rules as are payable to the consolidated revenue of Victoria be collected by stamps, and that this notice be substituted for the said Order in Council of the 18th day of May, 1915.

And the Honorable Donald Mackinnon, His Majesty's Solicitor-General for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,
Clerk of the Executive Council.

Country Roads Act 1912 (Act No. 2415.)

DECLARATION OF MAIN ROADS UNDER THE COUNTRY ROADS ACT IN THE SHIRES OF ARARAT, AVOCA, GRENVILLE, LEXTON, RIPON, AND STAWELL.

At the Executive Council Chamber, Melbourne, the eighth day of June, 1915.

PRESENT:

His Excellency the Governor of Victoria.

Sir A. J. Peacock Mr. Hagelthorn
Mr. Murray Mr. Lawson.

WHEREAS by the Resolution set out below and dated the thirty-first day of May One thousand nine hundred and fifteen the Country Roads Board incorporated under the *Country Roads Act 1912* (Act No. 2415) being of opinion that the highways in the State of Victoria set out or described in the Schedule to the same were of sufficient importance to be main roads and acting under the powers in that behalf conferred upon it by the said Act declared such highways to be main roads within the meaning and for the purposes of the Act aforesaid: And whereas the said Act among other things provides that the Governor in Council might by Order published in the *Government Gazette* confirm such Resolution whereupon any road mentioned in such Resolution should be a main road And whereas it is deemed desirable to confirm the Resolution so made and passed by the said Country Roads Board Now therefore His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council thereof doth confirm such Resolution and declare upon the publication of this Order in the *Government Gazette* the roads mentioned in the Schedule to such Resolution of the Country Roads Board main roads within the meaning and for the purposes of the *Country Roads Act 1912*.

And the Honorable Frederick Hagelthorn, His Majesty's Commissioner for Public Works, shall give the necessary directions herein accordingly.

F. W. MABBOTT,
Clerk of the Executive Council.

RESOLUTION OF THE COUNTRY ROADS BOARD ABOVE REFERRED TO.

THE Country Roads Board incorporated by the *Country Roads Act 1912* (Act No. 2415) at a meeting now holden being of opinion that the highways within the State of Victoria set out or described in the Schedule hereunder written are of sufficient importance to be main roads, acting under the powers in that behalf conferred upon it by the said Act doth by this Resolution hereby declare such highways to be main roads within the meaning and for the purposes of the said *Country Roads Act 1912*.

Country Roads Act 1912 (Act No. 2415.)

ORDER APPROVING OF A DEVIATION FROM A MAIN ROAD IN THE SHIRE OF POOWONG AND JEETHO.

At the Executive Council Chamber, Melbourne, the eighth day of June, 1915.

PRESENT:

His Excellency the Governor of Victoria.
Sir A. J. Peacock | Mr. Hagelthorn
Mr. Murray | Mr. Lawson.

WHEREAS the Country Roads Board constituted under the *Country Roads Act 1912* (Act No. 2415) has represented to the Governor in Council that it appears to it desirable that the deviation hereinafter referred to from the existing Korumburra-Warragul road in the Shire of Poowong and Jeetho (declared to be a main road under the said Act which declaration was published in the *Government Gazette* of the fourteenth day of January One thousand nine hundred and fourteen on page ninety-three) should be made by the said Board And whereas in accordance with the requirements of section 19 of the said cited Act has caused to be prepared a map plan and estimate showing the points between which and on and through what land the said deviation is proposed to be made and the cost of acquiring the land and of constructing the said deviation And whereas on an inspection of the said map and plan and a consideration of the said estimate the Governor in Council is satisfied that there are funds legally available for acquiring the land and constructing the said deviation Now therefore be it known by this present Order that the Governor of the State of Victoria with the advice of the Executive Council thereof doth hereby approve of the said road being made, that is to say:—

A road generally one chain wide: Commencing at a point 3,995 links south from the north-western angle of allotment 4, parish of Korumburra; thence generally north-easterly, easterly, and northerly for a distance of 4,515 links, crossing a two-chain road (McDonald's Track) near its intersection with Whitelaw's Track; thence entering allotment 36, parish of Poowong East, and continuing in a north-easterly direction through the said allotment for a distance of 2,182 links, and terminating at angle formed by the intersection of lines bearing north 3 deg. 28 min. west and north 29 deg. 38 min. west respectively.

And the Honorable F. Hagelthorn, His Majesty's Minister of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

**SHIRES OF BAIRNSDALE AND AVON.—
 ADJUSTMENT OF ACCOUNTS.**

*At the Executive Council Chamber, Melbourne, the
 eighth day of June, 1915.*

PRESENT :

His Excellency the Governor of Victoria.
 Sir A. J. Peacock | Mr. Hagelthorn
 Mr. Murray | Mr. Lawson.

WHEREAS consequent upon an Order in Council published in the *Government Gazette* on the 27th day of May, 1914, whereby a certain area was severed from the Shire of Bairnsdale and annexed to the Shire of Avon, it has become necessary to settle and adjust certain accounts between the said Municipalities : Now therefore His Excellency the Governor of the State of Victoria, with the advice of the Executive Council thereof, and in accordance with the provisions of section 19 of the *Local Government Act 1903* (3 Edw. VII. No. 1893) for the settlement and adjustment of accounts between the said Municipalities, doth hereby order :—

That the Shire of Bairnsdale shall forthwith pay to the Shire of Avon in full settlement a sum of £100.

And the Honorable F. Hagelthorn, His Majesty's Commissioner of Public Works for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,
 Clerk of the Executive Council.

REGULATIONS FOR THE CARE, PROTECTION, AND MANAGEMENT OF THE EDINBURGH GARDENS.

WHEREAS by section 200 of the *Land Act* 1901 it is enacted that where, under the provisions of any Act relating to Crown lands, the Governor in Council has reserved from sale, permanently, any Crown lands for any public purpose whatsoever, or for any of the purposes specified in section 10 of such Act, and has vested such land in trustees, or jointly in the Board of Land and Works and trustees, it shall be lawful for the trustees of any such land, with the approval of the Governor in Council, to make rules and regulations for all or any of the purposes mentioned in sub-section (1) of section 200, *Land Act* 1901: And whereas Crown grants have issued in favour of the Board of Land and Works, and the Mayor, Councillors, and Citizens of the City of Fitzroy, in respect of the Edinburgh Gardens in the City of Fitzroy: Now therefore the Board of Land and Works, and the Mayor, Councillors, and Citizens of the City of Fitzroy, do hereby make the following Regulations in respect of the said Gardens:—

REGULATIONS.

1. In these Regulations the word "Gardens" shall mean and include the park and garden known as The Edinburgh Gardens, and the word "Committee" shall mean the Committee of Management for the time being of the Gardens.

2. The Gardens shall be open to the public by day and night throughout the year.

3. No person shall damage or in any way interfere with the lawns, trees, shrubs, flowers, footpaths, water-pipes or fittings, or with any birds, fish, or other property in the Gardens, or roll or throw stones or other missiles, or beat carpets, or commit any nuisance therein, or leave any bottles, orange peel, paper, cast-off clothing, or any litter in the Gardens.

4. No person shall climb on or jump over the fences in or around the Gardens or the seats therein, or stick bills, cut names, letters or marks, or write on, or otherwise injure or deface the seats, fences, gates, posts, buildings, or other property in the Gardens.

5. No person shall—

- (a) drive nails or cut foot-holes in any tree;
- (b) climb any tree, whether by the assistance of nails, foot-holes, or otherwise;
- (c) take, catch, trap, or receive any bird, or rob any bird's nest of eggs within the Gardens.

6. No person shall play any unlawful game, or make any wager for money, or by unseemly conduct interfere with the comfort and enjoyment of any other person within the Gardens.

7. No person shall, without the permission in writing of the Committee first obtained—

- (a) bring into the Gardens or have under his control therein any cattle, horses, goats, or pigs;
- (b) erect or place any dwelling, booth, stand, or other structure therein;
- (c) conduct or take part in sports, games, bands of music, or other entertainment therein;
- (d) hold or take part in any fête or concert, or in any assemblage for the purpose of public worship, preaching, or public speaking of any kind, or meetings of a like character;
- (e) collect moneys therein for any charitable or other purpose;
- (f) ride or drive therein any horse or carriage, cart, or other vehicle, or any bicycle, tricycle, motor cycle, motor car, or other vehicle driven by machinery;
- (g) enter any plots of ground therein enclosed for plantations or other purposes, or set apart for the cultivation of flowers or shrubs;
- (h) hawk or offer for sale therein any goods or articles of any description;
- (i) being a male person, enter any part of the Gardens reserved for females only;
- (k) light any fire in the Gardens.

8. No person shall bring into the Gardens any dog for training or coursing or other purposes of sport, and all dogs so brought in or used, and all goats and poultry found therein, shall be liable to be destroyed.

9. No person shall play cricket, football, or other games, or take part in athletic sports in the Gardens, except in such portions thereof as may be set aside for the purpose and under such conditions as the Committee may direct.

10. No person shall, in the Gardens, interfere with or in any way hinder or interrupt in his work by conversation or otherwise, any person in the employ of the Committee.

11. Permits for the temporary occupation of sites within the Gardens, and for any other special privilege in connexion therewith, shall, if issued, be subject to such terms and conditions as may from time to time be approved by the Committee; and no person shall

occupy any site within the Gardens, or enjoy any special privilege therein without the permission in writing of the Committee first obtained.

12. Any person in a state of intoxication, or behaving in a disorderly manner, or lying in an objectionable attitude, or using obscene language, or creating or taking part in any disturbance, or committing any act of indecency in the Gardens, shall be liable to be removed by any officer or servant of the Committee, or by any constable, and shall be liable to prosecution for an offence against these Regulations.

Every person offending against these Regulations shall, in accordance with section 200 of the *Land Act* 1901, on conviction before any Justice, be liable to a penalty not exceeding Five pounds for each offence; and every person who so offends, and who, after he has been warned by any Bailiff of Crown Lands, or officer or servant of the trustees, or by any constable, does not desist from so offending, may be forthwith apprehended by such bailiff, officer or servant, or constable, and taken before some Justice of the peace, and shall, on conviction, be liable to a penalty not exceeding Ten pounds.

The common seal of the Board of Land and Works was hereunto affixed this fourth day of June, 1915, in the presence of—

(SEAL) H. S. W. LAWSON, President.

Closer Settlement Acts.
THORNBURY ESTATE.

WORKMEN'S HOME ALLOTMENTS IN THE THORNBURY ESTATE AVAILABLE FOR APPLICATION UNDER CONDITIONAL PURCHASE LEASE.

THE allotments mentioned in the schedule hereunder will be available for application till 21st June, 1915.

Applications must be made on the prescribed forms and lodged with the Secretary, Closer Settlement Branch, Lands Department, accompanied by the registration fee of 5s., and a deposit equal to the first half-yearly instalment for the most valuable allotment applied for, and the lease fee of £1.

All applications so lodged on or before the above-mentioned date will be deemed to have been simultaneously made.

A Local Land Board, to deal with applications received, will be held on Thursday, 24th June, 1915, at 10 a.m., in the Board Room, Public Offices, Melbourne.

Terms, Conditions, &c., for Allotments in the Thornbury Estate.

Allotments in this Estate will be disposed of under Conditional Purchase Lease, extending over a term of 31½ years. The amount to be paid for each allotment is shown in the schedule herewith.

Any person 18 years of age who is engaged in any form of manual, clerical, or other work for hire or reward, and is not possessed of real or personal property to a value exceeding £350, or whose salary does not exceed £220 per annum, may apply for one or more allotments, but no one can be granted more than one allotment.

No conditional purchase lease of an allotment can be granted to any person who is directly or indirectly the owner of any other land in the State, which, if Town or Suburban land, exceeds ¼ of an acre, or, if Rural land, exceeds 50 acres in area.

Every application must be made on the prescribed form, and be accompanied by a deposit equal to that prescribed for the most valuable allotment applied for.

The lessee has the option of paying the whole or any portion of the balance of purchase money at the end of any half-year, and securing a reduction of the instalment accordingly.

The deposit, after deducting the sum of £1 5s., for fees, will be credited as part payment of the capital value of the allotment, and the balance of the purchase money, with interest at 4½ per cent., must be paid by 63 or a less number of half-yearly instalments, calculated according to any of the tables under Division 3 of Part I. of the *Savings Bank Act 1890 Amendment Act 1896*. Each instalment will include interest upon the balance of the purchase money remaining unpaid.

The lessee must, within four months, enter into *bona fide* occupation of his allotment and reside there permanently.

The lessee may at any time with the consent of the Lands Purchase Board mortgage his allotment, or transfer, assign, or sublet it to any person who is eligible to hold such an allotment.

The Crown grant may be issued to the lessee at the end of any half-year after the first twelve years have expired, on payment of the balance of purchase money, and will be subject to the same condition as the lease in regard to permanent residence.

BUILDING ADVANCE.

Not more than one residence or place of business shall be erected on any one allotment, and no building or verandah attached thereto shall be erected within 20 feet of the street boundary line, except in the case of business premises.

A substantial residence to the value of at least £300, excluding fencing, must be erected on each allotment, and an advance of £250 will be made by the Board to assist lessees to build.

Plans and specifications will be prepared by the Board's Architect, and submitted to the lessee for approval, after which tenders will be advertised by the Board.

All buildings will be erected under the supervision of the Board's Architect, and a fee of 2½ per cent. of the total contract price will be charged for the Architect's services, including the preparation of plans and specifications.

As soon as the plan has been approved by the lessee, he will be called upon to deposit the sum of £57 10s., being the amount required to complete payment for a house to the value of £300. If on acceptance of tender the cost exceeds £300, the lessee must, before the contract is signed, deposit the additional amount required to pay all charges due under the contract and for the Architect's supervision.

The amount paid by the lessee (less the charge for the Architect's services), together with the sum advanced by the Board, will be paid to the Contractor as the work proceeds, on the certificate of the Architect that the conditions of contract have been complied with in every particular.

The Board's advance of £250 will be repayable by monthly instalments of £1 12s. 11d., extending over a period of 20 years, and bearing interest at the rate of 5 per cent. per annum.

All buildings and fences are to be insured either with the Lands Purchase and Management Board or in the name of the Secretary, Lands Purchase and Management Board.

SEWERAGE ADVANCE.

The lessee may, on application to the Lands Purchase and Management Board, arrange to have his property sewered either by the Melbourne and Metropolitan Board of Works or by private contract.

The full cost of sewerage will, if required, be paid by the Lands Purchase and Management Board, and will be repayable by twenty half-yearly instalments, bearing interest at the rate of 5 per cent. per annum.

Plans and further information may be obtained from the Enquiry Branch, Crown Lands Office.

FORTNIGHTLY LIST OF CROWN LANDS AVAILABLE (OTHER THAN MALLEE LANDS).

THE undermentioned areas are available for application, as provided by various sections of the Land Acts, and all applications received on or before Wednesday, the 14th July, 1915, will be deemed to have been simultaneously made, but any application lodged after such date may be considered if received in time for inclusion in the advertisement of the cases to be heard at the Local Land Board.

Applications, on proper form, accompanied by 5s. duty stamp uncancelled (registration fee), may be delivered or forwarded by post to the Local Land Office, or to any Crown Lands Office in Victoria. Applicants may obtain from Local Land Officers or the Enquiry Office, Lands Department, Melbourne, a certificate authorizing the issue by the Railway Department of a return ticket at concession fares to enable them to inspect available areas or to attend Local Land Boards. Specially reduced rates are also allowed for a selector when granted an allotment for removal of his family and belongings to the land.

Marked plans of any particular area, application forms, a pamphlet explaining various sections of the Land Acts, and any further information may be obtained from the Enquiry Office, Lands Department, Melbourne, and Land Officers, Alexandra, Ararat, Bairnsdale, Benalla, Beechworth, Geelong, Hamilton, Horsham, Omeo, Sale, Seymour, Stawell, St. Arnaud, and Warracknabeal.

MALLEE LANDS AVAILABLE FOR APPLICATION
AS SELECTION PURCHASE ALLOTMENTS.

THE land is situated west of the Mildura railway line, and is from $3\frac{1}{4}$ to $14\frac{1}{4}$ miles north-west or west of Tempy Railway Station.

Applications (with uncanceled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any Local Land Office, or to the Secretary for Lands, Melbourne, on or before Saturday, 3rd July, 1915.

Two or more applications for allotments may be made at the same time by any one person without affixing more than one duty stamp of 5s.

Applicants will be hereafter notified as to the date and place of hearing of their applications by Local Land Board.

The land will be granted under selection purchase lease, and at the end of six years, if the residence, cultivation, improvement, and all other conditions have been complied with, the lease will be indorsed under the seal of the Board of Land and Works to the effect that such conditions have been complied with, and at any time within the remaining period of 14 or 34 years (as the case may be) a Crown Grant will be issued on payment of the full amount of the purchase money.

The survey fee must be paid within 28 days of demand, and will range from £9 to £12 per allotment.

The amount of loading (3s. per acre) is to be collected in instalments, therefore its cash value, about 1s. 11d. per acre only, will be the limit of expenditure for road and water improvements.

The half-yearly payment on each allotment, set out in Schedule hereto, includes the amount of loading.

The lease will contain (*inter alia*) conditions to the effect as follows:—

That substantial and permanent improvements shall be made on the land if in the first class to the value of 3s. 4d. per acre before the end of the second year from the date of the lease, another 3s. 4d. per acre before the end of the third and fourth years, and the balance of 10s. per acre before the end of the sixth year of the lease. If in the second class, to the value of 2s. 6d. per acre before the end of the second year from the date of the lease, another 2s. 6d. per acre before the end of each year of the third and fourth years, and the balance of 7s. 6d. per acre before the end of the sixth year of the lease. If in the third class, improvements to the value of 5s. per acre must be made on the land before the end of the third year from the date of the lease, and the balance of 5s. per acre before the end of the sixth year of the lease.

The first half-year's rent and lease-fee must be paid prior to issue of lease.

That the lessee shall go into residence on the land within twelve months after the date of the lease, and shall reside for at least three years and nine months on, or within five miles of, the land during the first six years of the term of the lease, and shall also clear and cultivate at least one-fourth of his allotment within two years of obtaining a permit to occupy the land.

That the lessee shall not transfer, assign, mortgage, or sublet, or part with the possession or grant the use of the whole or any part of the allotment during the first six years of the term of the lease, and that after the first six years of the term of the lease the lessee shall not sell, transfer, assign, mortgage, or sublet the whole or any part of the allotment unless and until the lease has been indorsed under the seal of the Board to the effect that all the conditions and covenants of the lease during the first six years thereof have been complied with.

No person who already holds or has previously selected the area of Mallee land allowed by classification will be eligible to apply.

The total area of Mallee land which may be selected is 640 acres if in the first class, or 1,000 acres if in the second class, or 1,280 acres if in the third class. Any further area (limited as by the next succeeding paragraph) can be obtained only by purchase from other persons.

That a special condition shall be inserted in the lease and the Crown Grant, providing that the land referred to therein shall at all times be maintained and used for the purpose of residence or agriculture and grazing, and that no person will be permitted to subsequently acquire or hold, or have an interest in, more than 1,000 acres, if the land be in the first class, or more than 1,600 acres, if the land be in any other class.

That the lessee or grantee or owner shall preserve the timber on, or plant an area of, not less than 3 per cent. of the total extent of his holding. (N.B.—Along the exposed boundary lines, viz., the western and southern, would be preferable.)

No person, unless specially authorized, will be permitted to clear timber from any portion of areas retained for the purposes of roads and windbreaks.

Plans may be obtained at the Inquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

Applicants may obtain from a Local Land Officer, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket over the Victorian Railways only, at excursion fares, to enable them to inspect the land, or to attend the Local Land Board.

Land Act 1911, Section 22.

MALLEE LANDS AVAILABLE FOR APPLICATION AS SELECTION PURCHASE ALLOTMENTS.

THE land is situated from 6 to 8 miles from the Ouyen to Pinnaroo railway line.

Applications (with uncanceled Victorian duty stamp of 5s., or postal note for same amount, affixed), must be made on the usual form, and delivered or forwarded by post to any Local Land Office, or to the Secretary for Lands, Melbourne, on or before Saturday, 3rd July, 1915.

Two or more applications for allotments may be made at the same time by any one person, without affixing more than one duty stamp of 5s.

Applicants will be hereafter notified as to the date and place of hearing of their applications by Local Land Board.

The land will be granted under selection purchase lease, and at the end of six years, if the residence, cultivation, improvement, and all other conditions have been complied with, the lease will be endorsed under the seal of the Board of Land and Works to the effect that such conditions have been complied with, and at any time within the remaining period of 14 or 34 years (as the case may be) a Crown Grant will be issued on payment of the full amount of the purchase money.

The survey fee must be paid within 28 days of demand, and will range from £9 to £11 per allotment.

The amount of loading (3s. per acre) is to be collected in instalments, therefore its cash value, about 1s. 11d. per acre only, will be the limit of expenditure for road and water improvements.

The half-yearly payment on each allotment, set out in Schedule hereto, includes the amount of loading.

The lease will contain (*inter alia*) conditions to the effect as follows:—

That substantial and permanent improvements shall be made on the land. If in the second class, to the value of 2s. 6d. per acre before the end of the second year from the date of the lease, another 2s. 6d. per acre before the end of each year of the third and fourth years, and the balance of 7s. 6d. per acre before the end of the sixth year of the lease. If in the third class, improvements to the value of 5s. per acre must be made on the land before the end of the third year from the date of the lease, and the balance of 5s. per acre before the end of the sixth year of the lease.

The first half year's rent and lease-fee must be paid prior to issue of lease.

That the lessee shall go into residence on the land within twelve months after the date of the lease, and shall reside for at least three years and nine months on, or within five miles of, the land during the first six years of the term of the lease, and shall also clear and cultivate at least one-fourth of his allotment within two years of obtaining a permit to occupy the land.

That the lessee shall not transfer, assign, mortgage, or sublet, or part with the possession, or grant the use of the whole or any part of the allotment during the first six years of the term of the lease, and that after the first six years of the term of the lease the lessee shall not sell, transfer, assign, mortgage, or sublet the whole or any part of the allotment unless and until the lease has been endorsed under the seal of the Board to the effect that all the conditions and covenants of the lease during the first six years thereof have been complied with.

No persons who already hold or has previously selected the area of Mallee land allowed by classification will be eligible to apply.

The total area of Mallee land which may be selected is 640 acres if in the first class, or 1,000 acres if in the second class, or 1,280 acres if in the third class. Any further area (limited as by the next succeeding paragraph) can be obtained only by purchase from other persons.

That a special condition shall be inserted in the lease and the Crown Grant, providing that the land referred to therein shall at all times be maintained and used for the purpose of residence or agriculture and grazing, and that no person will be permitted to subsequently acquire or hold, or have an interest in, more than 1,000 acres, if the land be in the first class, or more than 1,600 acres, if the land be in any other class.

That the lessee or grantee or owner shall preserve the timber on, or plant an area of, not less than 3 per cent. of the total extent of his holding. (N.B.—Along the exposed boundary lines, viz., the western and southern, would be preferable.)

No person, unless specially authorized, will be permitted to clear timber from any portion of areas retained for the purposes of roads and windbreaks.

Plans may be obtained at the Inquiry Office, Lands Department, Melbourne, and at Land Offices, Alexandra, Ararat, Bairnsdale, Ballarat, Beechworth, Benalla, Bendigo, Geelong, Hamilton, Horsham, Omeo, St. Arnaud, Stawell, Seymour, Sale, and Warracknabeal, and may be inspected at the principal railway stations throughout the State.

Applicants may obtain from a Local Land Officer, or the Inquiry Office, Lands Department, Melbourne, a certificate authorizing the issue, by the Railway Department, of a ticket over the Victorian Railways only, at excursion fares, to enable them to inspect the land, or to attend the Local Land Board.

TENDERS FOR GRAZING LANDS.

Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box on or before Monday, 28th June, 1915.

NOTE.—No tender will be accepted unless the fee for the period as shown in the head-lines, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Monday, 28th June, 1915, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 187 of the *Land Act* 1901 shall be subject to the conditions set forth in the schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

Conditions.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 187th section of the *Land Act* 1901, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council, for any of the purposes for which land may be reserved under section 10 of the *Land Act* 1901, or for mining purposes.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions, the licensee shall be entitled to use the land for the purpose for which this licence has been granted, until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 189 of the *Land Act* 1901 the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act* 1890 in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible therefor.

Special Conditions.

1. The period of occupation will, except where otherwise specified, be for fifteen months from 1st July, 1915, to 30th September, 1916.

2. The fee for the period as shown in the head-lines—for which the licence will be issued, and fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing within one month or to require the incoming tenant to pay for it in accordance with the provisions of section 190, *Land Act* 1901.

Plans can be seen and information may be obtained in this office.

Section 13, *Land Act* 1904, provides:—

1. Where a licensee under section 187 of the *Land Act* 1901 has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.

FIRST MILDURA IRRIGATION TRUST.

NOTICE TO NAVIGATORS ON RIVER MURRAY.—
MILDURA WEIR.

NAVIGATORS are advised that a temporary partial obstruction to shipping at present exists in the bed of the Murray River, situate between Gol Gol and Psyche Bend Pumping Station. The portion of the weir creating the temporary obstruction is situate on the Victorian side of the river, and marked by day by four posts in alignment, connected together, and projecting 400 feet from the Victorian side into the river. At night four red lights are shown on the posts. The navigation way, 100 feet wide over the natural reef, is shown at night by white lights on either side of the channel, on the New South Wales side of river. At the date of this notice there is only 2 feet of water in the channel over the reef. Shipmasters are advised to approach the weir by day.

ALBERT J. MULLETT,
Government Printer.

THE "VICTORIA GOVERNMENT GAZETTE."

SUBSCRIPTIONS.—The Subscription, including Postage, is £1 8s. 4d. per annum, or 7s. 1d. per quarter, payable in advance.

Subscriptions are required to commence and terminate with a month.

A lesser period than three months cannot be subscribed for.

Subscribers do not receive the Acts of Parliament with the Gazette.

ADVERTISEMENTS are charged at the rate of SEVEN-PENCE per line throughout.

The title (£5 Reward, Dissolution of Partnership, &c.) forms one or more lines, as a heading.

On an average, ten words make a line, but for the description of a brand consisting of more than one letter, &c., placed perpendicularly, thus, B, each additional

letter under the first is charged as a line.

Every signature must likewise be counted as a line.

The final words of a paragraph, though only a portion of a line, must be counted as one line.

Signatures (in particular) and proper names must be written very plainly in the text; ONE SIDE ONLY of each slip of paper should be WRITTEN UPON.

ALL DOCUMENTS illegibly written will be returned unpublished, and, where brands occur unprovided for by the ordinary letters of the alphabet, a worded explanatory description must be furnished.

The GOVERNMENT GAZETTE is published on WEDNESDAY EVENING in each week, and Notices for insertion must be received by the Government Printer on or before TWO o'clock of the day preceding the day of publication.

Single copies of the GOVERNMENT GAZETTE are Sixpence, posted Sixpence halfpenny, each.

N.B.—All Gazettes prior to 1st January, 1872, are One shilling and sixpence, posted One shilling and sixpence halfpenny each.

* * ALL PAYMENTS ARE REQUIRED IN ADVANCE. Remittances should be made by postal note, money order, or draft in favour of the Government Printer. Advertisements unaccompanied by a remittance sufficient to cover the cost of insertion will be returned unpublished.

All communications should be addressed to "The Government Printer, Melbourne."
