MAFFRA WATERWORKS TRUST.

RATING BY-LAW No. 6.

IN pursuance of the powers conferred by the Water Acts, the Commissioners of the Maffra Waterworks Trust do hereby make the following By-law:—

1. The following rates and charges are those which the occupiers or owners of lands and tenements liable to be rated, shall pay for the year 1919 in respect of water supplied within the Urban District of the Trust:—

2. For every house or tenement of an annual value of £14 or over, at the rate of One shilling and ninepence in the pound (1s. 9d.) of such value.

3. For every house or tenement of a less annual value than £14, a minimum charge of £1 5s.

4. For every vacant allotment of land of an annual value of £5 or under a charge of 5s. For each additional allotment of land rated together with the first allotment, 1s. Where the annual value of an allotment is over £5, a rate of One shilling and ninepence in the pound of the annual value thereof.

5. For every water trough supplied with water, £1. On vacant lands the rate of payment shall be considered as part payment of this charge of £1. In cases where a large quantity of water is consumed by the use of a trough, as in a paddock where a number of stock are kept, the Trust in its discretion may insist on a meter being installed.

6. For water supplied by measure, 2s. for every 1,000 gallons; provided that the minimum charge shall not be less than the amount of the assessed rate; except in cases where the Trust has made special arrangements. In cases where the occupier quits without paying for the excess water, the owner will be held liable for same.

7. For using a hose for stable watering during the year, 10s. This payment will entitle the user to an additional 5,000 gallons of water.

8. For water supplied to new buildings being erected, £1 per centum on the contract price of all brick, stone, cement or other work where water is used. In every case where a new building is erected, a minimum charge of 10s. shall be paid by the owner.

9. Water supplied to manufactories, railways, livery stables or paddocks, or for other than domestic purposes may be charged at a special rate, or by measurement at the discretion of the Trust.

10. The Trust may by notice in writing, require any owner or occupier using water through a hose or for other than domestic purposes, to provide a meter within two weeks from the date of such notice; the expense of providing the meter is to be borne by such owner or occupier.

11. Notwithstanding the payment of any charge by any owner or occupier, the Trust reserves the right to cut off the supply of water from any premises if such owner or occupier shall wilfully or negligently allow water to run to waste, or who uses it in an unauthorized manner, or who does not provide a meter when requested to do so. When the water is cut off from any premises the owner or occupier must pay the sum of One pound to be re-connected with the main. Water must not be used for gardens between the hours of 9 o'clock p.m. or 6 o'clock a.m. For the purpose of conserving water during dry weather, or for extensions or repairs, the Trust in its discretion may cut off the water during certain hours of the day.

12. For water supplied through any stand-pipe or hydrant a charge of One shilling for each 200 gallons.

13. For all lands or tenements in the said district situated otherwise than in streets in which pipes for the supply of water have been laid down, and in which tenements are not supplied with water from such pipes, and being within a quarter of a mile from any stand-pipe or hydrant for the supply of water, one-half of the above-mentioned rate; and where such tenements are more than a quarter of a mile and less than half-a-mile from such stand-pipe or hydrant, one-fourth of the above-mentioned rate.

14. For every plumber's licence, £1 per year ending the 31st December.

15. The foregoing rates and charges are payable in two moieties in advance on the 1st day of February, 1919, and 1st day of August, 1919.
