REGISTRATION OF QUALIFIED CANDIDATES.

14. Any person who has enlisted with any Expeditionary Force raised in Victoria for Naval or Military Service during the War in which His Majesty is at present engaged, and who left Victoria on duty with such Force shall, if he obtains the minimum number of pass marks in the required subjects, be entitled, irrespective of age and in priority to all persons whatsoever, except persons in the Public Service, to be appointed to any vacancy in the Public Service, if competent to fulfil the duties of the vacant position.

15. Candidates who have passed the examination, and are included in the number to be selected for appointment, or are qualified under the provisions of clause 14, shall furnish the Commissioner, within seven days after being required so to do, with a properly certified extract from some official register of births or other evidence of age, satisfactory to the Commissioner, and also a certificate of sound bodily health and freedom from physical defects from the Government medical officer, or from some other medical practitioner registered in Victoria approved by the Commissioner. Provided that in the case of candidates who shall have enlisted with any Expeditionary Force—Military or Naval—raised in Victoria for Imperial service, and who have been absent from the State on duty with such force, it shall be sufficient if the said medical certificate sets forth that they are of sound bodily health, and do not suffer from any physical defect which would incapacitate them from the proper performance of the duties of the position for which they are candidates. Failure to comply with the provisions of this clause will preclude the registration of a candidate.

16. The Commissioner shall cause to be entered in the "Register of Qualified Candidates," in the order of their merit the names of candidates qualified under the provisions of clause 14, and then, up to but not beyond the published number to be selected for appointment, the names of all other candidates who have passed the

examination, including those of officers who have served for less than two years\* in the General Division, and are between the ages specified in clause 5, and of officers who have served two years in that Division, provided that all such candidates not in the General Division have forwarded evidence as prescribed as to age, health, and freedom from physical defects. If two or more candidates obtain the same total number of marks, the order of their merit shall be determined by the number of marks obtained for Mathematics, and, if these numbers be also the same, then by lot.

17. The name of a candidate shall be removed from the Register—

- (a) on his nomination for appointment by the Commissioner; or
- (b) on his attaining the age of twenty-two years—unless he is an officer in the General Division who has served two years in such Division, and if appointed after the 1st December, 1912, is not more than thirty years of age, or unless he is a returned sailor or soldier.

\* The provisions of section 54 of Act No. 2713 do not apply to this class of officer.

## Motor Car Act 1915.

## REGULATIONS.

At the Executive Council Chamber, Melbourne, the nineteenth day of March, 1918.

## PRESENT:

His Excellency the Governor of Victoria.

Mr. Bowser  
Mr. Wynne  
Mr. McPherson  
Mr. Clarke

Mr. Baird  
Mr. McWhae  
Mr. Oman  
Mr. Kendall.

WHEREAS by section 15 of the *Motor Car Act 1915* (6 Geo. V. No. 2702) it is provided that the Governor in Council may make regulations with respect to any matters therein referred to: Now therefore His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby make the following Regulations, that is to say:—

## REGULATIONS.

1. These Regulations may be cited as the "*Motor Car Regulations 1918*," and shall come into force upon the date of their publication in the *Government Gazette* on and from which date the Regulations made severally on the eighteenth day of February, 1910, and the tenth day of March, 1913, by His Excellency the Lieutenant-Governor in Council as Deputy for His Excellency the then Governor and His Excellency the Governor in Council respectively shall be and the same are hereby repealed.

2. No person shall cause or permit a motor car to be used on any road, street, lane, highway or other public place or shall drive or have charge of a motor car when so used unless the conditions hereinafter set forth are satisfied, namely:—

(1) The motor car, if it exceeds in weight unladen five hundredweight, shall be capable of being so worked that it may travel either forwards or backwards.

(2) The motor car shall not exceed seven feet six inches in width, such width to be measured between its extreme projecting points. The registration of cars exceeding this width may be allowed on special conditions to be fixed by the Chief Commissioner of Police.

(3) The tire of each wheel of the motor car shall be of the width following:—

(a) If the weight of the car unladen exceeds fifteen hundredweight but does not exceed one ton, not less than two-and-a-half inches.

(b) If such weight exceeds one ton, but does not exceed two tons, not less than three inches.

(c) If such weight exceeds two tons, but does not exceed three tons, not less than four inches.

Provided that where a pneumatic tire, or other tire of a soft and elastic material, is used, the conditions hereinbefore set forth with respect to tires shall not apply.

(4) The motor car shall have two independent brakes in good working order and of such efficiency that the application of either to the motor car shall cause two of its wheels on the same axle to be so held that the wheels shall be effectually prevented from revolving or shall have the same effect in stopping the motor car as if such wheels were so held. Provided that in the case of a motor car having less than four wheels this condition shall apply as if, instead of two wheels on the same axle, one wheel was therein referred to. Such brakes must be so constructed as to be within the control of the driver of the motor car.

(5) The motor car and all the fittings thereof shall be in such a condition as not to cause, or to be likely to cause, danger to any person on the motor car or on any road or highway.

3. Every person driving or in charge of a motor car when used on any road, street, lane, highway or other public place shall comply with the Regulations hereinafter set forth, namely:—

(1) He shall not cause the motor car to travel backwards for a greater distance or time than may be requisite for the safety or convenience of the occupants of the motor car and of the passenger and other traffic on the road, street, lane, highway or other public place where such backward travelling is found necessary.

(2) He shall not, when on the motor car, be in such a position that he cannot have control over the same, or that he cannot obtain a full view of the road and traffic ahead of the motor car, nor quit the motor car without having taken due precautions against its being started in his absence, nor allow the motor car or a vehicle drawn thereby to stand on any street, road, lane, highway or other public place so as to cause any unnecessary obstruction thereof.

(3) (a) He shall when meeting any horse, cattle or vehicle (whether tram car or other vehicle) keep the motor car on the left or near side of the road and when passing any horse, cattle or vehicle (other than a tram car) proceeding in the same direction shall keep the motor car on the right or off side of the same.

Galla  
Mellings.  
1912, V.L.R. 26. In passing a tram car proceeding in the same direction he shall keep the motor car on the left or near side of such tram car, as close to the kerb or gutter as is practicable. In this clause "tram car" means a vehicle running with flanged wheels on grooved rails laid in or about the middle of any street, road or thoroughfare.

(b) The driver of any motor car, other than a motor car belonging to the Metropolitan Fire Brigades Board which is proceeding to a fire call, overtaking any such tram car which is about to stop or is stationary for the purpose of allowing passengers to alight or for any other reason shall reduce the rate of motion of the motor to a speed so slow that he may be in a position to stop the car immediately in case of sudden danger, and shall not increase such speed until he has passed a reasonable distance beyond such tram car.

(4) He shall not negligently or wilfully prevent, hinder or interrupt the free passage of any person, vehicle, horse, or cattle on any road, street, lane, highway, or other public place, and shall keep the motor car, and any vehicle drawn thereby, on the left or near side of the road, for the purpose of allowing such passage.

(5) He shall, whenever necessary, by sounding the bell, horn, or other instrument required by section 13 of the *Motor Car Act 1915*, give audible and sufficient warning of the approach or position of the motor car.

(6) He shall, at the request, or signal by hand, of a constable in uniform, or at the request of any person having charge of a horse, cause the motor car to stop, and to remain stationary so long as may be reasonably necessary. Any person who, being in charge of a horse, shall, without good cause, request the stoppage of a motor car, shall be guilty of an offence.

4. Every motor car shall be so constructed as to enable the driver, when the motor car is stationary, otherwise than through an enforced stoppage owing to necessities of traffic, to stop the action of any machinery attached to or forming part of the motor car, as far as may be necessary for the prevention of noise. The driver shall, on every such occasion, make prompt and effective use of all such means as, in pursuance of this Regulation, are provided for the prevention of noise. This Regulation shall not apply so as to prevent the examination or working of the machinery attached to or forming part of a motor car where any such operation is rendered necessary by any failure or derangement of the said machinery.

5. No person driving a motor car shall leave such car on any street, road, lane, highway, or other public place, in such a position as to obstruct other vehicles or pedestrian traffic. This Regulation shall apply, even though the motor car be left in such a position that there is room for other vehicles to pass; but shall not apply in cases where such car is drawn up close to the kerb or edge of the roadway, and left for a reasonable time (having regard to the volume of traffic) without any person being in charge thereof.

6. Each motor car not being a motor cycle registered under the *Motor Car Act 1915* shall have firmly fixed in a central position, both on the front and on the back or rear part of the body of such motor car, a metal or wooden plate rectangular in shape, painted black, and having the identifying number shown on the registration certificate of such motor car painted thereon in white figures. Instead of using a plate, it shall be permitted to paint the identifying number on the body of the car or upon the petrol tank, provided that the position selected for such identifying number shall be prominent.

7. Each figure on such plate shall be  $3\frac{1}{4}$  inches high. Every part of each figure must be at least five-eighths of an inch broad, and the total width of the space taken up by each figure must be 2 $\frac{1}{2}$  inches, except in the case of the figure 1.

The space between adjoining figures must be  $\frac{1}{4}$  inch, and there must be a margin between the nearest part of any figure and the top and bottom of the plate of at least  $\frac{1}{2}$  inch, and between the nearest part of any figure and the sides of the plate of at least 1 inch.

8. Every registered motor car being a motor cycle shall have fixed to the front and back thereof a plate at least 5 inches long by 2 $\frac{1}{2}$  inches high, the front one having duplicate faces painted black, and the identifying number painted in white figures on each face.

The back plate shall be placed across the back of the cycle with the registered number shown thereon and may be so constructed as to have the light required by Regulation 9 behind such numbers and exhibiting them at night.

The size and spacing of the figures shall be in proportion to the size of the plate, relatively to that provided in the case of motor cars not being motor cycles.

9. Every registered motor car, not being a motor cycle, shall carry on the right or off side of such car a lamp showing a bright white light, visible within a reasonable distance, but not less than 200 yards, in the direction toward which the motor car is proceeding, and a lamp at rear showing a red light, visible at the same distance in the reverse direction.

The head lamp or lamps of every motor vehicle, or motor cycle, shall be fitted in such a manner, or with such lenses, glasses, device, or devices as to reasonably prevent dangerous, dazzling rays, capable of confusing any approaching pedestrian, cyclist, or motor cyclist, or driver of any motor car, motor lorry, or other vehicle being emitted or reflected.

It shall be deemed compliance with the provisions of this Regulation if the dimming of such lamps is effected by frosting the top half of lens, or by the use of any other effective contrivance approved by the Chief Commissioner of Police provided that the means adopted shall cause the uppermost rays of the main shaft of reflected light not to be elevated more than four feet above the surface of a level roadway at a point one hundred feet ahead of the lamp.

10.
