A By-law of the City of Camberwell, made under the provisions of section 198 of the *Local Government Act 1915*, and numbered 42, for the purpose of regulating and restraining the removal and re-erection of wooden buildings and erections within the city of Camberwell, and for repealing By-law 31.

**I**N pursuance of the powers conferred by the *Local Government Act 1915*, the Mayor, Councillors, and Citizens of the City of Camberwell order as follows:—

(1) *Repeal.*—By-law 31 made by the Council of the Town of Camberwell on the 31st day of January, 1911, is hereby repealed.

(2) *Removed Buildings Prohibited.*—From and after the date of this By-law coming into force it shall not be lawful for any person to remove or transport or cause to be removed or transported any wooden building or erection from any place without the Municipality of the City of Camberwell for the purpose of re-erection the same within any part of the said municipality, and such prohibition shall apply to every wooden building or erection whether removed in whole, or in sections, or in parts.

*Exemption.*—The foregoing prohibition shall however not apply to temporary offices or sheds used by builders on or about the site of any building being erected, repaired or altered, or used by contractors in carrying out works for any public body or corporation, provided that such offices or sheds are used exclusively for the purposes of such building or works. Such exemption shall however only continue during the time occupied in completing such building or work, and in any case shall not exceed a period of six months except by special permission of the Council.

(3) The Council may, however, in its discretion grant permission for the removal from without the municipality and re-erection within the municipality of any wooden building or erection not exceeding three squares in superficial area for use as a stable, workshop, shed or out-building, subject to the following provisions being complied with:—

Application for permission must be made to the Council in writing, and must be accompanied by the following particulars:—

- (a) The situation of the building or erection proposed to be removed.
- (b) The situation of the land on which it is proposed to re-erect or place such building or erection.
- (c) The external dimensions and height of such building or erection.

- (e) The purpose for which it was being used prior to its removal.

The Council on receipt of such application and on payment of the hereinafter-mentioned fee for inspection may cause the building or erection to be inspected by its building surveyor before removal and in its discretion may either refuse permission or may grant permission for its removal and re-erection within the municipality subject to such conditions as it may see fit to impose.

(4) Nothing, however, herein contained shall prevent the Council from granting permission for the removal of a wooden building, from one part of the municipality, and its re-erection in another part of the municipality subject to the following conditions being complied with:—

Application for such permission must be made to the Council in writing and must be accompanied by the following particulars:—

- (a) The situation of the building or erection which it is intended to remove.
- (b) The situation of the land on which it is proposed to place or re-erect such building or erection.

The Council on receipt of such application and on payment of the hereinafter-mentioned fees for inspection may before the building or erection is removed cause the building or erection to be inspected by its building surveyor, and may in its discretion either refuse permission, or may grant permission for its removal and re-erection subject to such conditions as it may see fit to impose.

(5) Any permission given under this By-law shall be in writing and signed by the Town Clerk of the Municipality.

(6) *Old Material.*—No old or secondhand material which has been previously used for building or other purposes shall be used in the construction of any building erection out-building stable or shed unless the same has been first inspected and its use approved of by the building surveyor, and all timber and material which in the opinion of the building surveyor is unsound or defective shall be removed and replaced with sound material.

(7) Every building or erection for the removal of which permission has been granted shall when re-erected comply with all the provisions of the Council's By-laws and Regulations in regard to buildings.

(8) For the purpose of this By-law wooden buildings and erections shall be deemed to include every building or erection the framework of which is of wood, whether covered with timber, iron, or other material.

(9) Nothing herein contained shall prevent the alteration of the position of any building or erection within the boundaries of the land on which the same stands.

(10) If the building surveyor shall certify in writing that any building or erection has been removed into or re-erected within the municipality contrary to any of the provisions of this By-law or that any removed building or erection has been left in such a dilapidated, ruinous, or unsafe condition as to be unsightly or dangerous to the public, the owner of such building or erection upon receiving from the Council, its town clerk, or its building surveyor a notice in writing requiring him to alter or repair or pull down or remove the said building or erection, shall alter or repair or remove or pull down such building or erection within the time limited by such notice. And if default shall be made in complying with such notice the Council may on the expiration of the time therein limited cause such building or erection to be pulled down or removed, and may sell any of the materials thereof and apply the proceeds of such sale in reimbursing the costs and expenses of pulling down, removing and selling such building or erection and in paying into the Municipal fund any fees or penalties due by the owner thereof.

(11) *Fees.*—The following fees shall be payable by the owner or person removing any building:—

- (a) For inspection by the building surveyor of any building or erection exceeding three squares in area which it is proposed to remove from one part of the municipality to another part, whether the same is approved or not—£2

The amount of the foregoing fees must accompany the application to the Council.

In addition to the foregoing fees for inspection the following building fees shall be payable if the approval of the Council is granted:—

- (c) For all buildings or erections exceeding three squares in area removed from one part and re-erected in another part of the municipality per square or part of a square—2s.
