Goods Act 1918 (No. 2983).
REGULATIONS.

At the Executive Council Chamber, Melbourne, the fifth day of October, 1920.

PRESENT:

His Excellency the Lieutenant-Governor of Victoria.
Mr. Lawson | Mr. Clarke
Mr. Robinson | Mr. Hicks.

UNDER the powers in that behalf conferred by the Goods Act 1918 (No. 2983) to make Regulations (*inter alia*) prescribing the character of the trade description indicating the country or place in or at which goods specified for the purposes of the said Act in a Proclamation thereunder in the *Government Gazette* were made or produced and the manner in which the same is to be applied, His Excellency the Lieutenant-Governor of Victoria, by and with the advice of the Executive Council thereof, doth make the Regulations following (that is to say):—

1. These Regulations may be cited as the "Goods Acts Regulations (character and manner of indicating country of origin of specified goods) 1920," and shall come into force on the first day of December, 1920. All previous Regulations heretofore made are hereby repealed.

2. In these Regulations "Specified" goods mean any article or goods to which the provisions of section 3 of the *Goods Act* 1918 apply.

"Wrapper" means any case, box, barrel, canister, tin, bag, envelope, carton, cover, or other medium or article of any kind employed or used to contain, pack into, keep together, or in separate quantities, or to protect any goods or articles.

3. The character of the trade description by which is to be indicated the country or place in or at which specified goods were made or produced (hereinafter referred to as the "trade description") shall be a conspicuous legible inscription (in Roman character, with letters of just proportion properly spaced and of a magnitude reasonably suitable, having regard to the size, shape, and nature of the goods, article, label, or wrapper to be marked), setting out the name of the country where the goods were manufactured or produced, with (when of moment or required) the name before it of the place therein of manufacture or production, such inscription (country, or place and country) being in all cases immediately prefaced with the words "Made in" or "Made at," or, as the case may require, interwoven in the manufacture with, or indelibly engraved, stamped, moulded, stencilled, branded, painted, or printed, as the case may require, having regard to the particular mode prescribed hereunder for the marking of the class or kind of article or wrapper.

4. The manner in which Specified Goods are to have the trade description applied to them shall be in accordance with the requirements applicable to their case as below indicated, viz.:—

(a) Where the goods are of a kind which in the manufacture of the article the trade description can reasonably be embossed, moulded, impressed, or blown in or with the substance of the article—

By being so embossed, moulded, impressed, or blown in with the substance unless the requirements of the Regulations in relation to a particular class or kind of goods or articles call for some further or permit of some different mode.

(b) Where the goods are of a kind to which the requirements of sub-clause (a) cannot reasonably be applied, but are such that the trade description can properly be indicated by engraving, cutting, stamping, or otherwise tooling the surface of the article at the required place—

By being so engraved, cut, stamped, or tooled on the surface, unless in the case of special goods some different or further or particular mode is permitted or required.

(c) Where the goods are of a kind to which the requirements of either sub-clauses (a) or (b) are inapplicable, but are such that the trade description can properly be indicated by painting, stencilling, or printing it on the surface of the article itself—

By so painting, stencilling, or printing on the surface, unless some requirement applicable to special goods calls for or permits of something different.

(d) Where the goods are of a kind to which the requirements of either sub-clauses (a), (b), or (c) are inapplicable but are such where a fixed label can reasonably be nailed, screwed, tacked, riveted, glued, gummed, sewn, or by other suitable means immovably secured to or let into the article (unless in the case of special goods some requirement applicable to them calls for or permits of something different).—

And the Honorable W. M. McPherson, His Majesty's Treasurer for the State of Victoria, shall give the necessary directions herein accordingly.

F. W. MABBOTT,
Clerk of the Executive Council.

- By a label attached by one or other of the methods indicated but subject to the condition that of the methods referred to the one employed shall be the one most fitting to be used to secure permanency, having regard to the composition of the label required to be employed and the nature, composition, size, shape, and other characteristics of the article itself.
- (e) Where the goods are of a kind to which the requirements of either sub-clauses (a), (b), (c), or (d) are, inapplicable—
By (unless in the case of special goods some requirement applicable to them calls for or permits of something different) a label attached to the goods themselves, or, if made up or wound into a coil, skein, hank, roll, ball, or other form of assemblage for more convenient handling, to the coil or other form of assemblage adopted, or, to the wrapper, cover, reel, or thing used in connexion with the goods or article (such label being of the kind appropriate to the class or kind of goods or package with which it is intended to be used), having the trade description embossed or moulded on it in the case of a metal label, or printed on it in the case of a label made of parchment, cardboard, or other suitable non-metallic substance.
- (f) Where the goods are of a kind necessarily placed or retailed in a wrapper by reason of their nature or instability or of the fragility of the article or for trade reasons, and are not such as to which the requirements of either sub-clauses (a), (b), (c), (d), or (e) are applicable—
By being embossed, moulded, impressed, blown, engraved, cut, stamped, burnt in, printed, stencilled, or painted on the outside of the wrapper. Provided nevertheless that of the processes above particularized which is to be adopted in any case in indicating a trade description on the wrapper with its contents (hereinafter referred to as the "package"), the choice is to be governed, as the case may require, as if the package were an article within the meaning of sub-clauses (a), (b), (c), (d), or (e), and the particular mode followed is to be appropriate to the circumstances of the case on such assumption but regard being had to the material of which the wrapper is made, the space on it available and its shape and make up.
- (g) Where the goods are a tool, instrument, appliance, or utensil partially composed of metal and of some other substance or substances, the metal portion being in a prominent position and some surface of it reasonably capable of the trade description being impressed, stamped, moulded, embossed, or (in the case of delicate subjects) engraved on the metal portion—
By being so impressed, moulded, embossed, or engraved on the metal portion, or, if no such metal portion is in a prominent position, but some other material is and can reasonably be resorted to, impressed, stamped, moulded, embossed, or engraved on such other material.
- (h) Where the goods are sheet metal by being impressed, stamped, moulded, embossed, painted, or stencilled thereon.
- (i) Where the goods are cables or chains of any magnitude made from any one or other of the baser metals, or of an amalgam of the same alternatively to any other method prescribed (if any)—
By being embossed, impressed, or moulded on a suitable metal label to be securely attached to the article.
- (j) Where the goods are manufactured textile fabrics commonly having interwoven in the piece or along the selvedge or outside edge thereof any brand, lettering, or other such matter interwoven if reasonable—
By being interwoven in the piece or along the selvedge or outside edge and if such goods are made in running lengths, such fabric being of a kind usually retailed by the yard or other quantity less than the whole piece, repeated at intervals of not less than a yard along the length of the piece.
- (k) Where the goods are boots or shoes—
By being impressed or embossed on the outer surface of the sole of each boot or shoe on the waist or where the sole is composed of a material which cannot be impressed or embossed but can be stamped on the outer surface, impressed in indelible permanent ink in the waist of the shoe, or, if the same cannot be so impressed, embossed, or stamped on a suitable durable label, attached to the waist.
- (l) Where the goods are an article of pottery, china, porcelain, delf-ware, or manufactured glass (other than sheet) when reasonably practicable—
By being impressed, stamped, moulded, embossed, or engraved thereon or burnt in on the article in a colour sufficiently in contrast to that of the ground colour of the adjacent surface to be easily observed and read by a person handling the article.
- (m) Where the goods are liquids or semi-liquids or commodities with which a liquid or semi-liquid is used as a preserving or packing medium usually retailed in a wooden cask, barrel, or such like vessel, or are goods of a kind so retailed—
By being foiled, cut, or burnt in at each end of the containing vessel.
- (n) Where the goods are of a like kind to those referred to in sub-clause (m) but are commonly retailed in a tin receptacle or a glass bottle or a china or earthenware jar or a flagon, crock, or other such kind of container, or an article of food intended for human consumption usually retailed in a receptacle of one of the kinds referred to, alternatively to any other method prescribed—
By being imprinted on a suitable label pasted on the outside of the vessel.
- (o) Where the goods are contained in a wrapper not merely supplied for the convenience of the customer on the particular occasion in addition to the trade description being indicated on the goods themselves as prescribed—
By being embossed, impressed, moulded, stamped, engraved, imprinted, stencilled, or painted on the outside of the wrapper.
- (p) Where the goods are of a kind requiring under these Regulations to have the trade description indicated on the goods themselves, but by reason of the material, colour, or other characteristic of the article the "trade description" cannot be clearly and easily observed, but by the interposition or use of some permanent colouring medium this result can be obtained, a suitable colouring material shall, if reasonably possible, be interposed or used so as to effect the desired result.
5. The material to be used for all labels shall be of a substantial kind and in each particular case shall be of a material most reasonably fitted to withstand wear or destruction, having regard to the requirements of the case and to the thing and the manner in which it is to be affixed.
6. The medium to be used for attaching to goods or to an article or package any loose label (which term in these Regulations shall cover a label not firmly pasted, gummed, glued, tacked, nailed, screwed, riveted, or otherwise permanently affixed to or let into the article), shall in the case of heavy or ponderous things or ones subject to rough handling be of strong wire or some other strong-suitable metal appliance not easily removable, unless the use of a metal connecting material be unreasonable, in which case shall be used some other material of a kind and strength reasonably sufficient to safeguard the label from becoming detached in the handling of the goods, article, or package.
7. As concerns the applying or attaching of a label (loose or other) to any goods, article, or package, the attaching shall be done in a workmanlike manner and so far as reasonably possible in a way that will not lend itself to the label being easily rubbed off, obliterated, or detached in the handling of the goods, article, or package.
8. In the case of specified goods imported or introduced into Australia, which under some law of the Commonwealth for the time being in force require to have applied to them a trade description, indicating the country or place in or at which such goods were made or produced, if such particulars have, in accordance with the requirements of any Commonwealth Act or Acts, and the relevant regulations thereunder, been so applied, the character of the inscription and the manner in which it is applied, in accordance with the requirements of the Commonwealth law, shall be accepted as satisfying the requirements of these Regulations with respect to the character of the inscription referred to, and the manner of its application, notwithstanding anything hereinbefore contained, and the character of the inscription and its manner of application conforming with Commonwealth law shall be accepted as sufficient for the purposes of the *Goods Act 1918*, and these Regulations, as if these Regulations had specified the Commonwealth character of inscription and manner of application as an alternative to the methods hereinbefore prescribed in respect of the goods in question.
- And the Honorable Arthur Robinson, His Majesty's Attorney-General and Solicitor-General for the State of Victoria, shall give the necessary directions herein accordingly.
- F. W. MABBOTT,
Clerk of the Executive Council.

IN pursuance of the Regulations relating to Commons made by the Governor in Council on the 19th October, 1915, the Council of the Borough of Stawell as managers of the Stawell and Pleasant Creek Gold-field Common having drafted the following amendments in clauses 3 and 5 of the Regulations for the management thereof submit the same for revision by the Board of Land and Works and approval by the Governor in Council in lieu of the Regulations heretofore in force in respect of such common:—

REGULATIONS.

Clause 3. All calves depasturing on the common under the age of six months free provided they wear a badge and chain to be obtained from the herdsman at a cost of One shilling. Calves six months old and over full fees.

Clause 5. All stock legally depasturing on the common shall (as far as possible) be branded by their respective owners with some distinctive brand or mark, for the purpose of identification, which shall at all times be kept legible and distinct by the owners, and shall be supplied to the managers at the time of registration. In all cases where such stock shall be impounded from the common in consequence of non-observance or non-compliance with this Regulation, the managers shall not be responsible in any respect.

All stock depasturing on the common shall wear a chain and badge, and the managers shall be at liberty to appoint certain times and places for registration, or renewing of registration, of stock, on at least three days' notice of the intention to do so, being given by the herdsman either by advertisement in the local newspaper, or by handbills posted about the common, and the herdsman shall attend at such times

and places for the purpose aforesaid. Every person entitled to commonage shall, after paying the herein-prescribed fees, obtain from the herdsman the necessary number of chains and badges which shall at all times be the absolute property of the managers. Every such person shall then be responsible and liable to be charged for stock equivalent to the number of badges and chains from the time of receiving such badges and chains until they are returned to the herdsman. No person shall use other than the authorized or registered chain and badges in connexion with stock legally depasturing on the common. In addition to the fee for depasturing stock the sum of One shilling shall be paid to the herdsman at the time of registration for the hire of each badge and chain in the case of large and small cattle, but should any person cease at any time to depasture stock on the common the amount paid for each badge and chain shall be refunded to such person, provided the badge and chain be returned to the herdsman in good order and condition. Should any such badge and chain be from any cause removed or lost from any stock, every such badge or chain removed or lost from any stock shall at once be replaced by a new badge or chain at the sole expense of the owner of the stock, and the sum of One shilling in the case of large and small cattle be paid to the herdsman for such extra badge or chain, but no refund shall be made by the managers for any badge or chain removed or lost. No person shall place or allow to be placed or remain on any stock on the common, a lost badge or chain, or one removed from another animal, without the authority of the herdsman, and any stock wearing or carrying a lost badge or chain, or one feloniously removed from other stock, shall be treated as illegally depasturing on the common, and shall be liable to be impounded without notice to the owner. Owners of stock shall render every assistance to the herdsman in placing chains and badges on the animals.

Every person offending against any of the foregoing Regulations shall, on conviction before any Justice, forfeit and pay a penalty not exceeding Twenty pounds (£20) for each offence.
