By-law No. 17.

The following are the rates and charges which the occupiers or owners of lands and tenements liable to be rated, or other persons shall pay for the year 1921 in respect of water supplied by the Trust in the said Urban District:—

1. For every house or other tenement fronting any street wherein the water pipes of the Trust have been laid, and not being unoccupied land, a rate of Two shillings in the pound on the amount of the municipal valuation of such house or other tenement, and the land (if any) valued therewith shall be paid; the minimum amount to be so paid to be Twenty shillings. In cases where water is supplied to land upon which there is no building, the rate shall be Two shillings in the pound, according to the municipal valuation of such land. In no case however, shall a rate of less than Ten shillings be paid.
2. For land upon which there is no building, and to which water is not laid on, but which land fronts any street wherein water pipes of the Trust have been laid, the rate shall be Two shillings (2s.) in the pound on the amount of the municipal valuation thereof. In no case however shall a rate of less than Ten shillings (10s.) be paid.
3. For houses proved to the satisfaction of the Trust to have remained unoccupied for a period of not less than six calendar months, the rate per house shall be two-thirds of the amount which would be payable if such house had not been so unoccupied but in no case shall the rate be less than Thirteen shillings.
4. The foregoing rates are hereby made payable half-yearly in advance, one moiety on the first January, 1921, and one moiety on the 1st July, 1921.

5. For water supplied for domestic or other than domestic purposes by the Trust by measure, the charge shall (except where otherwise agreed by the Trust, and save as is herein-after provided in this By-law) be One shilling and sixpence (1s. 6d.) per 1,000 gallons up to such quantity as would be equal to the amount of the assessed rate payable in respect of the premises so supplied; and for all water consumed in excess of such quantity a charge of Two shillings (2s.) per 1,000 gallons shall be made.

6. The charge for private water troughs shall be twenty shillings each per annum (to include the water rate payable when the value of the property on which such trough is situated does not exceed Ten pounds). When such rate exceeds Ten pounds there shall be no charge additional to the rate assessed on the property except where in the opinion of the Trust, a meter is necessary or advisable; in which case the consumer will be charged and must pay at the rate charged for water supplied by measure. The minimum charge will be Twenty shillings.

7. Water supplied to public gardens, parks, show grounds, cricket grounds, and bowling greens shall be charged for by measurement at Sixpence (6d.) per 1,000 gallons; any quantity supplied in excess of the full measure of a unit of 1,000 gallons shall be charged for as 1,000 gallons. For a supply of water for the erection of wooden buildings with plastered walls the charge shall be Two shillings and sixpence for each room or passage and Five shillings for each chimney. No person shall take or use any water for or in connection with the erection of any new buildings or alterations to or additions to existing buildings till he has obtained the receipt of the Trust's officer for payment of the amount payable for the use of such water, or the consent in writing of the Trust or its officer. Any person offending against the provisions hereof shall be liable to a penalty not exceeding Five pounds for each such offence. All such charges shall be additional to all rates or other charges payable by the owner or occupier of the premises upon which the building is being erected, and shall in the first instance be payable by the builder, or contractor, and if unpaid by the builder or contractor, shall be charged to and paid by the owner of the premises whereon such building is being erected, but such charge to the owner shall not prejudice the right of the Trust to proceed at its option against either the builder or contractor or the owner or occupier for the amount so payable.

10. The occupier of two or more tenements liable to be rated, one of which is supplied with water by measure, shall be entitled on the payment of the rates of such tenements respectively, to use without further charge such a quantity of water by meter as shall not exceed at the current charge for water supplied for domestic purposes by measure the amount of such rates; provided that the tenement or tenements not supplied by measure shall not be connected with the pipes of the Trust.
