REGULATIONS.

At the Executive Council Chamber, Melbourne, the sixth day of January, 1920.

PRESENT:

His Excellency the Lieutenant-Governor of Victoria.
Mr. Hutchinson Mr. Oman.
Mr. Clarke

WHEREAS by section 55 of the *Forests Act 1915* (No. 2655) and section 65 of the *Forests Act 1918* (No. 2976) power is given to the Governor in Council from time to time to make regulations for the various purposes therein prescribed: Now therefore his Excellency the Lieutenant-Governor of the State of Victoria, by and with the advice of the Executive Council thereof, doth hereby make the following Regulations, such Regulations to take effect as from the 1st day of January, 1920, that is to say:—

Forests Act 1915 (No. 2655), Section 55.
Forests Act 1918 (No. 2976), Section 65.

REGULATIONS.

1. Every application for a licence for timber or other forest produce shall be in the authorized form, and shall specify the species and class of timber or other forest produce required, together with the name of the forest reserve, the forest block or compartment, and the parish and county, in which the applicant desires to cut and remove or obtain the said timber or produce.

2. Every application for a licence or permit shall be lodged with the Commission or with the forest officer in charge of a district or division.

3. Every application shall be dealt with in order of priority of receipt, and the Commission will in granting licences or permits have due regard to the working plans laid down for the forest reserve in which timber is applied for, as well as to the fitness of an applicant to hold a licence or permit in such forest.

4. Licences or permits may be cancelled or withdrawn by the Commission at any time during their currency for any breach of or non-compliance with any of the conditions set forth therein.

Forest Tramways.

5. Every application for a tramway licence shall be made on the approved form, shall clearly set forth the portion of the forest reserve, and the parish in which it is desired to construct such tramway, and shall be accompanied by a plan showing the proposed route.

6. Whenever the Commission considers it necessary, a survey of the route shall be effected by an authorized surveyor at the cost of the applicant, and after approval of the route by the Commission, a plan of survey shall be supplied to it for record.

7. The strip of forest land licensed for the construction and use of a forest tramway shall not be less than seven feet nor more than twelve feet in width.

8. Every tramway for which a licence is authorized shall be properly and faithfully constructed and completed within four months from the date on which the issue of such licence is authorized.

9. Every tramway, together with the bridges, culverts, make-ups, and points and crossings, shall be constructed in strict accordance with an approved specification, and when the work is completed it shall not be opened or used for the transport of forest produce until it has been examined and approved as suitable for such transport by a duly authorized forest officer.

10. No passengers or persons other than a sawmill owner, licensee, lessee, or forest employee in the performance of their duty or work, shall be carried on or permitted to ride on or in any locomotive, truck or other vehicle on a forest tramway without the authority of the Forests Commission.

11. Every tramway and every part thereof shall be kept and maintained in good order and repair for the purpose of transporting forest produce and any other freight which may be authorized, and for the safety of persons and animals employed thereon in the traction, maintenance or running thereof.

12. Every mill truck used for the transport of forest produce shall—

(a) be strongly and properly made, and shall be provided with proper and efficient brake-gear for regulating and controlling its speed and running power;

(b) be kept and maintained in good order and condition for the transport of forest produce and for the safety of persons and animals employed in operating it.

13. Any forest officer in charge of a district may suspend the working of a tramway, or the use and employment of any locomotive, mill-truck, winch, cable, hauling machinery, or any portion of a sawmill plant which he regards as unsafe or not of proper repair, and the licensee or lessee, on being notified by such officer to stop the use of such tramway, locomotive, mill-truck, winch, cable, hauling machinery, or por-

tion of mill plant, shall forthwith comply with the order, and without delay effect the necessary repairs or renewals to the satisfaction of such officer.

14. A forest lessee or licensee shall at all reasonable times, of which the Commission shall be the judge, afford to other forest lessees, licensees, and permit holders, where necessary in the opinion of the Commission, facilities for the carriage of timber or other forest produce over his licensed tramway to the nearest railway siding or depot, and all charges by the lessee or licensee for carriage of forest produce or running rights over the said tramway shall be on a reasonable scale and subject to the approval of the Commission and the direction of the Governor in Council.

Royalties, Dues, and Charges.

15. The royalties, dues, and charges payable in respect of timber and other forest produce shall be payable to any forest officer if authorized to collect the same on demand, or to the authorized receiver of revenue within the time set forth on the forest debit note, and shall be in accordance with the authorized scale according to the class in which such timber or other forest produce is placed, or at the rate or price duly fixed by the Commission.

16. The minimum rates set forth in Class A shall be payable when the timber or other forest produce specified therein is easily accessible to market and is of high quality; the minimum rates in Class B shall be payable when the said timber and produce is further distant from a market and is of fair to good quality; whilst the minimum rates in Class C shall apply when the said timber and produce has to be transported a longer distance to market and is of lower quality than timber or produce in Classes A and B; but in all cases the Commission shall be the sole judge as to which rates are applicable.

17. Timber, fuel, or other forest produce of any kind which, owing to its high quality or nearness to a town or railway station or market, possesses special value, may be sold by the Commission at rates higher than those set forth in Classes A, B, and C of these Regulations.

19. Where a forest officer has in good faith, on the undertaking of a lessee or a licensee to pay the royalty due, branded with the Crown brand forest produce and allowed it to be removed from a forest, he may again, in default of such payment within seven days, seize such produce in any place on behalf of the Crown and brand it as seized with the broad-arrow face of his authorized hammer brand.

Reserving Forest Areas from the Operations of Leases, &c.

20. Any area of reserved forest may be reserved by the Commission from the operation of any lease, licence, permit, or authority granted under these Regulations.

Reservations for Draught Cattle.

21. Any area in a reserved forest may be reserved from the operation of any lease or licence and set aside for the agistment of draught cattle lawfully used or employed by lessees, licensees, or permit holders under the Forests Acts in such forests.

22. No cattle except such as are lawfully admitted under the authority of a grazing licence or permit shall be depastured in a reserved forest, and on receiving written notice from a forest officer the owner or reputed owner shall forthwith remove such trespassing cattle from the forest after payment of agistment fees prescribed by these Regulations.

23. Any owner or person in charge of cattle who wishes to take them through a reserved forest shall give at least forty-eight hours' written notice to the nearest forest officer, and then shall drive them only on or over a road or track commonly used by the public. Such cattle shall not be delayed in their passage except for the purpose of giving them water and reasonable rest for a time not exceeding two hours. Cattle may not under any circumstances be driven through a forest reserve at night.

Clearings.

24. No clearings of dead or live timber, trees, or underwood shall be made in a forest except in the case of an area not exceeding one acre lawfully occupied under a residence licence for the purpose of a dwelling and garden, and then only on such portions as may be authorized under the conditions of such licence.

25. For the purpose of preserving and encouraging the growth of forest seedlings and young trees, the Commission may in any forest reserve or portion thereof order the discontinuance of any forest grazing licence or permit on the expiration of such licence or permit, and may also, should the safety of the young tree-growth require it, suspend any grazing licence or permit and exclude cattle from any specified area, subject to repayment to the owner of such cattle of the rental paid by him for the unexpired portion of the term of his grazing licence or permit, or of a fair and reasonable proportion to be determined by the Commission of any agistment fees paid by such owner.

Forest Brands.

26. The ordinary brands authorized to be used by the forest officers for branding trees, timber and other forest produce shall be:—

(1) A hammer brand having on one face the figure of a Crown with a number enclosed therein to indicate the forest officer who has it in his charge, thus  and on the other face the figure of a broad arrow, thus 

The Crown face of the brand shall be used for marking trees for felling, for authorizing the removal of timber or other forest produce from the forest after measurement, record, and payment of all royalties, dues and charges; and for releasing, on the written authority of the Commission, timber or other forest produce which has previously been seized.

The broad-arrow face of the brand shall be used for marking trees which are not to be felled on any area where timber cutting is being carried on, or for seizing on behalf of the Commission any timber or other forest produce, or any fence, building or weir which has been cut, damaged, stripped, removed, erected or constructed without authority or illegally, or improperly cut, damaged, stripped, removed, erected or constructed; or for indicating that to be otherwise lawfully cut or obtained is for the time being not to be removed till such brand is obliterated by a forest officer with the Crown face of the brand.

(2) Special brands may be used by forest officers as follows:—

(a) A brand with the letter R in a circle, thus , and

with a Crown on the other face, to indicate that a tree is specially reserved and may not be felled by any person even though he may be licensed to fell ordinary timber.

(b) A brand bearing the initial letters of the common name of any species of timber-tree (thus, I.B. for Ironbark, B.G. for Bluegum, or Y.S.B. for Yellow Stringybark), to show that the timber thus marked is truly of the species which such letters indicate, for the purpose of preventing fraud in the supply of inferior timbers for public or municipal works or for export.

(c) A brand having on one face the figure of a broad arrow with a distinctive number, thus $\nearrow 5$, and on the other face the letters G.D. to indicate timber stored in a Government timber depôt. Such brand shall be used to stamp all timber on admission to an authorized timber depôt, and the broad arrow shall not be removed or obliterated by a forest officer till all charges due and payable on such timber for storage in the depôt has been paid.

27. No forest brand shall be used for any purpose other than that set forth in these Regulations. No forest officer shall allow any brand entrusted to his charge to go out of his possession without the written authority of the Commission, or permit any timber cutter, carter, forest licensee, or other person to use it for any purpose whatsoever, and no timber cutter or other person who may find or obtain possession of any such brand shall use it for the purpose of branding forest produce.

28. Every saw-milling lessee or licensed cutter of mill logs, piles, beams, railway sleepers, paling and fencing material, or other forest produce, when required to do so by the Commission, shall provide himself with a distinctive brand, which may be a letter or figure, but shall not be a colourable imitation of or resemble any authorized forest brand, and shall impress such brand on all timber cut by him as well as on the stump and waste trunk head of each tree felled by him. The design of every such brand shall be subject to the approval of the Commission, and the lessee or licensee who wishes to use it must apply in writing to the Commission for such approval. If the brand be a suitable one, the Commission may authorize its use and cause the design to be registered in the head office of the Commission.
