VICTORIAN RAILWAYS.

REGULATION OF THE VICTORIAN RAILWAYS COMMISSIONERS.

No. 71.

THE Victorian Railways Commissioners, hereinafter referred to as "the Commissioners," in pursuance of the powers conferred in that behalf by the *Railways Act 1915*, do hereby make the following Regulation in regard to the qualifications, selection, and examination of candidates for employment, and do hereby repeal all previous regulations relating thereto.

1. Every person desiring to become a candidate for employment in any position specified in the public notice relating to the particular examination must prepare, in his own handwriting, an application on the form prescribed, stating that he is an applicant for appointment to one of the vacancies specified in such public notice.

2. Every candidate shall confine himself to one application for employment in one of the grades specified in the public notice, but, in the case of an Apprentice, will, unless otherwise prescribed in the public notice, be allowed to specify two of the trades named therein as his first and second preference respectively, and shall enclose such application in an envelope, which must be properly addressed, duly stamped and posted so that it will reach the Secretary for Railways (hereinafter referred to as the "Secretary"), Spencer-street, Melbourne, not later than the time fixed by the Commissioners for opening and dealing with such applications.

3. The age of each candidate shall be reckoned to the date fixed by the Commissioners for the opening of the applications, and shall be not less than the minimum, nor more than the maximum, age specified in the public notice for the particular grade.

4. Every candidate shall furnish with his application a certified extract from the register of his birth. In the case, however, of a candidate born outside of the State of Victoria, a statutory declaration by one of his parents or by a near elder relative as to the date of his birth will be accepted as temporary evidence of age; but every such candidate who is selected and is appointed on probation will be required to obtain an official birth certificate from the State or country in which he was born within such reasonable time as may be determined by the Commissioners.

5. The height of every candidate shall not be less than the minimum height prescribed in the public notice for the particular grade.

6. The salary or wage of every successful candidate on appointment and thereafter shall be subject to the conditions specified in the public notice relating to the particular examination.

7. Every successful candidate for employment in the grade of Apprentice, Junior Clerk, Lad Labourer, or Lad Porter, who, owing to the requirements of the Department, may be obliged to reside away from his home, shall, in addition to his salary or wage, be granted an allowance towards his board and lodging expenses, if so entitled, subject to the conditions specified in the public notice relating to the particular examination.

8. Every candidate who has at any time been employed in any capacity in the Railway Department or in the Public Service, whether as a permanent or supernumerary employee, shall furnish with his application particulars as to the period of such employment.

9. Any person who has been dismissed from the Railway Department, or the Public Service, or whose employment has been terminated for disciplinary causes under the provisions of the Railways or Public Service Acts, or who has been convicted of a felony or misdemeanour, whether before or after selection or examination, shall not be eligible for employment in the service of the Commissioners.

10. The Secretary shall on the day and at the hour named in the public notice proceed to open the applications, and shall cause the name and address of the writer of each of such applications to be then and there registered in a book provided for that purpose, hereinafter called the "Register," and a consecutive number, commencing with the number one, shall be placed in the Register opposite the name of each candidate.

11. The candidates in any grade, if not more than twice the number to be employed, shall thereupon be subject to the course of procedure, and the conditions, defined in Clauses 16 to 26 inclusive of this Regulation.

12. The candidates in any grade, if more than twice the number to be employed, shall be reduced by a Board of Selectors (which shall be appointed within seven days prior to the date fixed for the selection) to a number not exceeding twice the number to be employed.

13. The members of the Board of Selectors shall not be informed of, nor acquaint themselves with, the names of the applicants, or any of them; and any candidate who either directly or indirectly attempts to influence any member of the Board of Selectors in favour of himself, or in favour of or against any other candidate, shall be for ever disqualified for employment in the service of the Commissioners.

14. Every candidate shall be notified in writing by the Secretary of the place and time at which he shall present himself to the Board of Selectors.

15. Every candidate, immediately before presenting himself to the Board of Selectors, shall be furnished by the Secretary with a card bearing a number, by which number alone he shall be known to the Board of Selectors.

16. Every candidate selected by the Board of Selectors and every candidate for employment in any grade for which the number of applicants is not more than twice the number to be employed, shall be required to undergo an examination by the Railways Medical Officer, and for such examination shall pay a fee of 5s.

17. Every such candidate shall, if certified as free from any physical infirmity, and as up to the standard prescribed in respect of height, vision, colour-sense, and hearing, present himself for an examination by the Educational Examiners duly appointed for that purpose at such time and place as may be notified to him by the Secretary.

18. Every such candidate shall be required by the Examiners appointed for that purpose to pass the educational examination prescribed in the public notice for the particular grade.

19. Every such candidate shall produce to the Educational Examiners satisfactory written testimony that he is of respectable character, as well as certificates, indentures, or other satisfactory evidence that he possesses the requisite qualifications prescribed in the public notice for the particular grade, and shall furnish satisfactory testimony of his employment with any persons or firms with whom he may have been employed during the preceding two years; and every such candidate who has had previous employment in the Public Service or in the service of the Commissioners shall produce a statement of such service and a certificate of competency and good conduct.

20. The Educational Examiners shall thereupon examine the candidates who have passed the physical, &c., examination, at such time and place as may be notified to such candidates respectively.

21. The Educational Examiners shall, immediately after the completion of the examination, forward to the Secretary the examination papers of every candidate so examined, indorsed with their certificate as to the fitness or otherwise of the candidate for the position applied for.

22. After examination by the Educational Examiners the successful candidates in any grade, if not in excess of the number required, will be employed forthwith, and their relative seniority for future promotion, &c. (all other things being equal), shall be determined by a ballot conducted by the Secretary.

23. The successful candidates in any grade, if in excess of the number required, shall be called together at a place and time of which due notice shall be sent them in writing, and shall then and there in the presence of the Secretary draw lots to determine the order of procedure in which their names shall be recorded for appointment; and in the event of two or more such candidates being appointed on the same day such drawing shall, all other things being equal, determine the relative seniority of each candidate for future promotion, &c.

24. Every successful candidate in any grade, if in excess of the number required by the Commissioners, shall, in the order so decided, be eligible for appointment to any vacancy in the particular grade for which he is a candidate during the twelve months next ensuing from the date of the ballot without further or other examination.

25. Every appointment shall be on probation for a period of six months, during which the probationer shall be required to attend such instructional classes as may be prescribed by the Commissioners for the particular grade; and at the expiration of that period the appointment may be confirmed by the Commissioners, provided that the probationer whilst in the service of the Commissioners has demonstrated his fitness for permanent appointment by good conduct, industry, and capacity as ascertained by the results of such examinations and practical tests that

may be imposed. No probationer, however, shall have his appointment confirmed until he has effected in one of the prescribed Life Assurance Companies an assurance of his life in accordance with the regulations of the Commissioners.

26. Every appointment shall be made on the distinct understanding that the services of the employee shall without previous notice be liable to be dispensed with either during or after the period of probation, or, in the case of an Apprentice, either during or after the period of apprenticeship, and without his having any claim whatsoever against the Commissioners if at any time his services be so dispensed with.

27. Every Apprentice, unless specifically excepted, shall, immediately after appointment, attend such Departmental or other instructional classes as the Commissioners may direct at such hours of the day and night as may be prescribed during the complete course of training, which shall extend over the period prescribed in Clauses 30 and 31.

28. Every Apprentice shall provide the books, drawing instruments, &c., required at the classes of instruction at his own expense, but the Commissioners will either provide instruction free of charge or pay any necessary fees, as well as the wages of the Apprentice for such portion of the ordinary hours of duty as he may be required to be in attendance at the classes of instruction.

29. Every Apprentice shall present himself for such examinations as may be prescribed for the particular trade, and shall pass in proper sequence the examinations for each year of such course, and, in addition, shall do satisfactory work and be of good conduct in the service of the Commissioners.

30. Every such Apprentice will be allowed a maximum period of three years in which to complete the course of instruction prescribed for the first and second years of apprenticeship; but no Apprentice will be eligible to undergo the third-year course unless he has satisfactorily completed the first and second year courses within the period covered by the first three years of his apprenticeship.

31. Any Apprentice who, after having undergone the third-year course of instruction, fails to pass the prescribed qualifying examination for that year will not be allowed to repeat such course either at the expense of the Department or in his ordinary hours of duty, nor will he be eligible to compete for the Scholarship referred to in Clause 35.

32. Any Apprentice who fails to make satisfactory progress at the classes of instruction may be called upon to attend, at his own expense and in his own time, such additional night classes as may be deemed necessary by the Commissioners.

33. Any Apprentice who is adjudged guilty of frequent or repeated misconduct at the classes of instruction or to have neglected to have made a proper effort to qualify in his work as an Apprentice will render himself liable to the immediate determination of his service, and shall not have any claim if at any time his service be so determined.

34. Subject to good conduct, regular attendance, zeal, and industry in the service of the Commissioners, the Apprentices who each year of the period of tuition may be adjudged highest in order of merit and as possessing the highest qualifications amongst all apprentices who are pursuing for the first time the course applicable to the particular year, shall be awarded the prizes applicable to their particular trades as specified in the public notice, provided that they obtain not less than 75 per cent. of the possible marks.

35. The three Apprentices who, at the end of the third year of tuition, are adjudged highest in order of merit amongst all Apprentices eligible under the conditions specified in the public notice, shall be nominated as students in either Electrical or Mechanical Engineering (as may be determined by the Commissioners), and afforded facilities to attend for two years the full day course at either the Working Men's College or other such Institution as may be determined by the Commissioners, and any such Apprentice who passes the prescribed examination and gains a diploma of the College or other such Institution, as the case may be, in respect thereof, shall thereafter be employed by the Commissioners as an Engineering Assistant. During such course of two years the fees of the College or other such Institution will be paid by the Commissioners, and in lieu of wages the Apprentice shall be paid an annual salary in accordance with the provisions of any Regulation in operation for the time being; and every such Apprentice who is appointed as an Engineering Assistant will be required to agree in writing to remain thereafter in the service of the Commissioners (provided his services are required) for a period of at least three years, or alternatively, in the event of his earlier resignation, to refund all fees paid and expense incurred by the Commissioners for the purpose of his tuition.

36. The term of apprenticeship shall be either two or five years, as may be specified in the public notice for the particular trade, and each year thereof shall be deemed to mean three hundred and thirteen

(313) working days, and shall be inclusive of any proclaimed holidays on which the Work-shops may be closed, and any annual recreation leave of absence, as well as any other leave of absence which may be allowed for any cause whatsoever, provided that such other leave of absence does not during the prescribed term of apprenticeship, exceed an aggregate of twenty-six working days in the case of a two-years' apprenticeship, or sixty-five working days in the case of a five-years' apprenticeship. In the event, however, of such other leave of absence to any Apprentice exceeding in the aggregate such respective periods of twenty-six and sixty-five working days the term of his apprenticeship shall be extended beyond the specified period of two or five years, as the case may be, for a period equivalent to the period of such excess leave of absence.
