**Factories and Shops Acts.**  
**REGULATIONS FOR REMOVAL OF DUST FROM GRINDING, POLISHING, OR BUFFING WHEELS OR POLISHING BELTS**

*At the Executive Council Chamber, Melbourne, the thirty-first day of July, 1923.*

PRESENT:

His Excellency the Lieutenant-Governor of Victoria.  
 Sir Arthur Robinson | Mr. Davis.

**WHEREAS** by the Factories and Shops Acts it is enacted that the Governor in Council may, by Order published in the *Government Gazette* from time to time make, alter, and revoke regulations for the purposes therein mentioned and generally for the better carrying out of the provisions of the said Acts: Now therefore His Excellency the Lieutenant-Governor of Victoria, by and with the advice of the Executive Council thereof, doth by this Order, under the provisions of the said Acts, amend the Regulations passed on the 12th June, 1923, so that they shall read:—

The following requirements regarding the removal of dust shall be observed by the occupiers of all factories in which grinding, polishing, or buffing wheels or polishing belts are used. Provided that any exhaust system installed and in use prior to the 1st day of June, 1923, may be accepted as a compliance with these Regulations as long as the Secretary for Labour is of opinion that such system sufficiently carries off the dust.

**GRINDING, POLISHING, OR BUFFING WHEELS.**  
**Hoods.**

1. Every grinding, polishing, or buffing wheel at which dust is generated shall be provided with a hood connected by means of a pipe to an exhaust fan, in such manner as to carry away the dust thrown off by such wheel either to some receptacle, in which the dust shall be collected and confined, or to the outer air; in the latter case the exhaust pipe shall end at a point not less than 6 feet from the nearest ventilator or opening leading into the factory, but if in any case that be not practicable, it may end at some point fixed by the Secretary for Labour.

Provided that an emery wheel on which material is ground intermittently shall not be required to be equipped with such hood.

Every such hood shall be made of metal or other suitable material and be so shaped and located in relation to the grinding surface of the wheel that the dust will be thrown into it and drawn off by the suction pipe attached.

Every such hood shall be constructed so as to expose the smallest portion of the wheel, consistent with efficient operation. Where work is being done which does not permit of the hood being kept close up to the wheel, then the hood shall be adjustable and the workman shall keep the hood as close to the wheel as possible.

**Branch Pipes.**

2. The minimum sizes of the branch pipes attached to hoods shall be as follows:—

Emery or other Grinding Wheels.			
Size of Wheel.		Maximum Area of Grinding Surface of Wheel.	Minimum Diameter of Branch Pipe.
Diameter.	Thickness.		
	Not over—	Square inches.	Inches.
6 inches or under ..	1 inch	19	3
7 to 9 inches inclusive ..	1½ inches	43	3½
10 to 16 inches inclusive ..	2 inches	101	4
17 to 19 inches inclusive ..	3 inches	180	4½
20 to 24 inches inclusive ..	4 inches	302	5
25 inches or over ..	..	..	6

If a disc grinder is used the diameter of its branch pipe shall not be less than is called for by its grinding surface, as shown in the foregoing table.

Buffing or Polishing Wheels.			
Size of Wheel.		Maximum Area of Polishing Surface of Wheel.	Minimum Diameter of Branch Pipe.
Diameter.	Thickness.		
	Not over—	Square inches.	Inches.
6 inches or under ..	1 inch	19	3½
7 to 12 inches inclusive ..	2 inches	76	4
13 to 16 inches inclusive ..	3 inches	151	4½
17 to 20 inches inclusive ..	4 inches	252	5
21 to 24 inches inclusive ..	5 inches	377	5½

**Size of Main Pipes, Fan, Inlets, and Outlets.**

3. The area of the main suction-pipe at any point throughout its entire length shall be not less than the combined areas of all the branch pipes which have entered such main pipe up to that particular point. The inlet and outlet of the fan casing and the discharge pipe throughout its entire length shall be at least equal in area to the main pipe at the fan inlet, provided that smaller discharge pipes may be used if the permission of the Secretary for Labour has been obtained.

The main suction pipe should preferably receive only one (1) branch pipe in a section of uniform area, and in no case shall it receive more than two (2) branches in such section.

**Arrangement and Construction of Pipes.**

4. Every branch pipe shall enter the main pipe from the top or side, and at an angle not exceeding thirty-five (35) degrees; it shall incline in the direction of the air flow at the junction with the main. Branch pipes shall not project into the main.

Every branch pipe shall lead out of the hood as nearly as possible at the point where the dust will be thrown into it by the wheel.

The main suction and discharge pipes shall be made as short and with as few bends as possible. They shall not be within six (6) inches of the floor or ceiling at any point, unless such ceiling or floor is constructed of fireproof material, or insulated with fireproof material from the piping system at points of contact.

Every joint in the piping shall have the spigot end leading in the direction of the air flow and every increase in the size of a pipe shall be made on a taper and not by an abrupt change.

Every bend, turn, or elbow shall be made with a radius in the throat at least equal to one and one-half (1½) times the diameter of the pipe.

All pipes shall be constructed of not less than the following gauge metal:—

Size of pipe.	Gauge of metal.
8 inches or less in diameter ..	.. No. 24
9 inches to 20 inches in diameter ..	.. No. 22
21 inches to 30 inches in diameter ..	.. No. 20
30 inches and over in diameter ..	.. No. 18

Every pipe shall be kept open throughout its length and no fixed screen shall be placed in it.

A trap may be placed at the junction of the branch pipe and the hood.

No air outlet from a dust collector shall discharge into any workroom.

**Suction.**

5. Sufficient static suction shall be maintained in every branch pipe within one (1) foot of the hood to create a difference in level of at least two (2) inches of water between the two (2) sides of a U-shaped water gauge.

The occupier of the factory, by a test made with all branches open and unobstructed, shall demonstrate, in the presence of an inspector of factories, that such static suction exists.

No system shall be deemed to be satisfactory until such test has been made.

**Clean-out Doors.**

6. Every main pipe, whether suction or discharge, shall be provided with suitable clean-out doors so spaced as to allow the pipe to be thoroughly cleaned; the tail end of the suction main shall be blanked off with a removable cap.

**POLISHING BELTS.**

7. Every belt used for grinding, polishing, or buffing shall be equipped, as far as practicable, with an exhaust system so designed and attached that it will catch the dust at its point of origin.

The provisions of clauses 3, 4, 5, and 6 shall also apply to polishing belts.

**PLANS.**

8. Duplicate plans or drawings to scale, or showing full dimensions, and specifications showing location and size of all hoods, main and branch pipes, belts, wheels, fans, and dust separators, and the kind of work which is to be done, may be lodged with the Secretary for Labour for examination and approval *as to design*, whenever an exhaust system is to be installed, extended, or altered.

**NOTIFICATION.**

9. The occupier of the factory, upon completion of any installation, extension, or alteration, shall notify the Secretary for Labour.

And the Honorable Sir A. J. Peacock, His Majesty's Minister of Labour for the State of Victoria, shall give the necessary directions herein accordingly.

##### FORESTS COMMISSION OF VICTORIA.

OFFERS indorsed "Offer for Wattle Bark, lot \_\_\_\_\_," and addressed to the Secretary, Forests Commission, Melbourne, will be received at this office, up to Twelve noon, on Tuesday, 28th August, 1923, for the right to strip and remove wattle bark on and from the following areas. The general conditions hereunder will apply in every case where not expressly stated to the contrary, and special conditions will also apply where provided. Full particulars may be obtained from the officer in charge in each case or on application to the Commission.

##### GENERAL CONDITIONS.

1. No offer will necessarily be accepted.
2. The deposit mentioned in each case must accompany each offer.
3. Offers must be AT A PRICE PER TON, IRRESPECTIVE OF THE SPECIES OF WATTLE, and the bark must be weighed at the weighbridge named in each case, or at a weighbridge approved by the officer in charge and at the expense of the licensee. Duplicate weighbridge tickets must be provided, and, if so directed by him, the bark must be weighed in the presence of the officer in charge.
4. Royalty must be paid in two instalments, the first payment covering all bark removed by 1st December, 1923, and the second payment covering all bark stripped by 28th February, 1924, by which latter date all work must cease, and all bark, stripped or otherwise, remaining on the area after that date shall be the property of the Crown.
5. No tree shall be felled or stripped on any beauty spot, picnic ground, or on any portion of any area which the officer in charge points out as not to be operated upon, and no particular tree, specially marked by him to remain standing, shall be felled or stripped, wherever situated.
6. No tree shall be felled so as to fall into any water-course, or so as to obstruct any road or track.
7. No tree of less than 5 inches diameter at a height of 2 feet from the ground shall be stripped when of the black or feather-leaved variety, or less than 2½ inches in diameter at a height of 2 feet from the ground when of the broad-leaved species, unless otherwise stated herein, and wherever a size limit is mentioned it shall be at a height of 2 feet from the ground. 8. The whole work to be done under the supervision of the officer in charge, and in accordance with his instructions.
9. Bark must be properly bundled, securely tied, and stacked in heaps of not less than 10 cwt., in clear places only, and the licensee must take every reasonable precaution against fire. A space of at least 40 feet round each stack must be cleared of grass and rubbish.

10. No bark must be removed without the express permission of the officer in charge.

11. Camps must be pitched and fires lighted only in such places as shall be pointed out by the officer in charge, and the licensee shall, on demand of that officer, instantly dismiss from his employ any person or persons who shall carelessly use, leave, or light any fire, whether by smoking, cooking, or other operations, or who shall otherwise act in contravention of these conditions.

12. No live tree, other than wattle, must be cut or broken, or firewood used, without the express permission of the officer in charge.

13. The violation of any of the above or following conditions will render the licence null and void, and the Forests Commission shall have power to absolutely forfeit the whole or part of the deposit to the Crown, and to confiscate to the Crown all bark stripped to date of voidance. The officer in charge, in his discretion, shall have power to instantly suspend operations pending the decision of the Chairman being made known.

## TENDERS FOR GRAZING LANDS.

FOR THE PERIOD 1ST SEPTEMBER, 1923, TO 30TH SEPTEMBER, 1924, EXCEPT WHERE OTHERWISE STATED.

Tender Forms can be obtained on application to the Land Department, Melbourne, or any of the Land Offices in the country.

Tenders should be placed in the Crown Lands Office Tender-box on or before Noon on Friday, 31st August, 1923.

NOTE.—No tender will be accepted unless the fee for the full period, and fee of Five shillings for licence, are forwarded.

TENDERS will be received on or before Noon on Friday, 31st August, 1923, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 121 of the *Land Act 1915* shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

## CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Act 1915*, except under the 121st section of the *Land Act 1915*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Act* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act 1915* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognised.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling and other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all thistles on the land, and on the half width of the adjoining roads, and shall be responsible for the destruction of thistles under the *Thistle Act 1890* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. In the event of the area being damaged by fire, the licence may be forfeited unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible therefor.

## SPECIAL CONDITIONS.

1. The period of occupation will, except where otherwise specified, be for (13) thirteen months from 1st September, 1923, to 30th September, 1924.

2. The fee for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name, occupation, and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act 1915*.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the incoming tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act 1915*, provides:—

1. Where a licensee under section 121 of the *Land Act 1915* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.
