SHEPPARTON URBAN WATERWORKS TRUST.

RATING BY-LAW FOR 1924.

THE Chairman and Commissioners of the Shepparton Urban Waterworks Trust, in pursuance of the powers conferred by the Water Acts, and of all powers enabling them in this behalf, do make the following By-law:—

By-law for determining the rates and charges which shall be made for water supplied within the boundaries of the Shepparton Urban Waterworks Trust District:—

1. A rate of Two shillings (2s.) in the pound (£1) sterling on the municipal value of all rateable property valued at Ten pounds (£10) and upwards situated within the Waterworks District of the Shepparton Urban Waterworks Trust is hereby made for the year 1924.

2. The minimum rate for such properties valued at less than Ten pounds (£10) sterling on the municipal value shall be Twenty shillings (20s.).

3. On each unoccupied allotment or piece of land rated for the ordinary municipal rate within the Trust District before mentioned separately from any building, the annual rate of Five pounds (£5) sterling per cent. on the amount of the annual valuation of same shall be charged, provided that no allotment or piece of land shall pay less than Ten shillings (10s.) per annum.

4. Water supplied by measure to be used in private dwellings or other premises for domestic use, or for the watering of private gardens or distribution otherwise on or about such premises, shall be charged for at the rate of One shilling (1s.) per thousand (1,000) gallons up to an amount equal to what the Trust would be entitled to receive under the municipal assessed value of any such premises; and at the rate of One shilling (1s.) per thousand (1,000) gallons for any quantity of water used for the before-mentioned purposes beyond such an amount aforesaid.

5. For water supplied for manufacturing purposes (except in cases of special agreement with the Trust), the charge shall be Ninepence (9d.) per thousand (1,000) gallons, provided that the minimum charge shall not be less than equal to Two shillings (2s.) in the pound (£1) on the municipal valuation of the Shire of Shepparton for the year 1924 of the property so supplied.

6. For every steam boiler or engine using water the charge shall be the sum of Twelve shillings and sixpence (12s. 6d.) per annum for each horse-power (actual) of such steam boiler, in addition to the charge for domestic use where water is supplied for domestic purposes also. In cases where the charge by measure would exceed the charge per horse-power, a charge by measurement shall be made at the same rate as provided in clause four (4) hereof.

7. Water supplied to Government Departments, public gardens, cricket grounds, bowling greens, show grounds, cattle yards, sheep dips, and similar properties, shall be charged for by measurement, provided that the minimum charge shall not be less than Two pounds ten shillings (£2 10s.) per annum.

8. For water supplied from stand-pipes or hydrants, for each load of two hundred and fifty (250) gallons or under, Sixpence (6d.) shall be charged.

9. For a temporary supply during the laying down of any new works, or the erection of new buildings, or repairs, or additions, the charge shall be by meter measurement at the rate of Two shillings (2s.) per thousand (1,000) gallons, which shall include supply of meter. The meter, with box enclosed, shall be supplied by the Trust, and shall be fixed by the Trust's officer or officers.
