## MOOROPNA WATERWORKS TRUST.

### By-Laws.

THE Mooropna Waterworks Trust (hereinafter called "the Trust") in pursuance and exercise of the powers and authorities conferred by the Water Acts, doth hereby make the By-law following for its Waterworks District:—

1. That the regulations made by the Commissioners of the Mooropna Waterworks Trust on the 26th day of September, 1907, and approved by the Governor in Council on the 6th day of November, 1907, shall be, and the same are hereby repealed.

2. All works to be done in connexion with the connexion, installation, extension, alteration, improvement, or repairs, to any service pipe or pipes supplied or to be supplied with water by the Trust, shall be executed only by a plumber licensed by the Trust, and after the consent of the Trust has been obtained.

3. Except with the consent of the Trust, one service pipe only for water supply to each tenement shall be permitted, and not more than one house or tenement shall be supplied from a single water service. The Trust may, in special cases, consent to two or more houses or tenements being supplied from one water service, but in such cases the sub-services shall be so arranged that the supply to each house or tenement shall be independent of the supply to the remaining houses, and be controlled by a stop-cock on such service.

No connexion shall be made with the Trust's mains or additions or alterations to any service without the consent of the Trust having first been obtained.

4. All service pipes laid in the ground on private property shall be laid at a depth of not less than 10 inches below the surface. The portions of the service pipe laid along or across any public street, lane, or right-of-way, or where it may be exposed to wheel traffic, shall be laid not less than 24 inches below the surface of the ground, and excavations for laying of such pipes shall be properly filled to the satisfaction of the local authority.

5. Connexions with the Trust's mains shall (except where otherwise directed) be made with proper stop-cock ferrules, to which, for iron services, a length of not less than 3 feet of lead pipe must be attached. For such connexion the bore of such service pipe shall not exceed  $\frac{3}{4}$  inch diameter, unless permission for a larger service shall have been received in writing from the Trust.

6. A high-pressure screw-down stop-cock, properly secured and covered in an approved manner, shall be fixed on each water service between the main and building line.

### Materials for Private Services.

7. Lead piping of the following weights:—

For piping  $\frac{1}{2}$ -inch diameter, weight 6 lb. per yard.

For piping  $\frac{3}{4}$ -inch diameter, weight 9 lb. per yard.

For piping 1-inch diameter, weight 12 lb. per yard.

For piping  $1\frac{1}{4}$ -inch diameter, weight 20 lb. per yard.

For piping  $1\frac{1}{2}$ -inch diameter, weight 28 lb. per yard;

and galvanized wrought-iron piping of approved quality only will be allowed for external and internal services.

8. The quality of the material required in laying private services shall be as follows:—

(a) The whole of the pipes, tees, thimbles (excepting those connecting the service pipes and mains), bends, reducing couplings, plugs, and the like, shall be of best galvanized wrought iron; or, in the case of pipes and fittings, 2 inches and over in diameter—material to be approved of by the Trust.

(b) All pipes and pieces shall be true in sectional form, straight longitudinally, clear in bore, and properly coated throughout, and of equal strength and thickness throughout the entire body of same.

(c) All ends of pipes, bends, and the like shall be properly and truly threaded, and capable of being properly screwed into fittings.

(d) The whole of the pipes, tees, bends, cocks, and fittings shall be sound and free from defects, and of strength to bear with safety the maximum hydrostatic pressure to which they may be subject, and if required by the Trust, shall be tested.

9. No person shall use any tap, stop-cock, bib-cock, ball-cock, valve, closet cistern, service-box, waste-not regulator, bath tap, or valve, or other fitting in connexion with a supply of water of the Trust, which is not of the best quality and approved by the Trust.

10. No person shall use any stop or bib cocks which are not screw-down, high-pressure cocks, made of hard brass or gun-metal, and in every respect of the best quality and workmanship, and approved by the Trust.

11. All connexions between lead and iron pipes shall be made with brass union couplings.

12. All joints connecting lead pipes shall be "wiped joints," and in no case will "bolt" or "copper bit" joints be allowed on water service pipes, either in the interior or exterior of any building or tenement, on pain of cancellation of licence of the plumber who, by himself or his workman, shall break these regulations.

13. No person, whether licensed as hereinafter set out or not, shall connect any service pipe or branch service pipe with any steam boiler for the purpose of feeding or supplying the same with water, without first affixing a self-acting valve for preventing the pressure of the steam reversing or affecting the dial of a meter.

14. No person shall use any cistern or tank that is not provided with an equilibrium ball valve, and the overflow pipe laid and fixed in a suitable manner, open to inspection and in a position approved by the Trust.

15. No person shall construct or use any urinal or water-closet fitting not approved by the Trust, nor, unless the same be supplied with water from the service pertaining to a tenement through a proper closet cistern or service-box fitted with an approved waste-preventing apparatus. No person shall fix or use any service pipe which communicates directly or indirectly with the basin or trap, or otherwise than with the cistern of a urinal or water-closet. Urinals shall be provided with 2-gallon, and closets with 3-gallon, cisterns.

16. All baths, sinks, lavatory and other basins, closets, and urinals served from the Trust's mains, shall be of approved sanitary construction, and mounted to the satisfaction of the Trust.

17. No bath shall be allowed which has a holding capacity when full of more than 100 gallons, except with the permission of the Trust. Overflow pipes to baths will not be permitted except where the supply is by measure.

18. All water-troughs supplied from the pipes of the Trust shall be lined with metal so as to be watertight, and shall have proper and efficient fittings for supplying them automatically, and for preventing overflow.

#### *Licensing of Plumbers.*

19. Before any person shall affix any service pipe to any pipe of the Trust, or alter, repair, or in any manner interfere with any pipe of the Trust, or any service pipe, cock, or fitting connected with the pipes of the Trust, he shall obtain from the Trust a licence in that behalf to execute such works, and any unlicensed person affixing, altering, repairing, or in any manner interfering with any such pipe, service pipe, cock, or fitting as aforesaid, shall be guilty of an offence.

20. Each licence shall be for the period ending 31st December next ensuing after the issue thereof, but may be renewed by the Trust at its discretion from time to time in each case to the following 31st December. The Trust shall have power at any time to cancel the licence in the event of the holder thereof performing his work in an unsatisfactory manner, or committing any breach of the Water Acts or of this By-law, and in such matters the Trust shall be the sole judge. For each original licence, the licensee shall pay to the Trust a fee of One pound, and for each renewal Five shillings.

21. In a case where a qualified plumber holding a licence from another Waterworks Trust requires to do work within this Trust's area, he must notify the Trust of the nature and the amount of the work to be executed, and pay a fee of Five shillings to cover a licence to perform same.

22. Before any licence shall be granted by the Trust, the person applying for same shall satisfy the Trust that he is a competent plumber, and that he is thoroughly conversant with the provisions of the By-laws of the Trust relating to water supply, and with the Water Acts, so far as they apply to town supplies. The Trust may, if it sees fit, refuse to grant such licence.

23. Each licensed plumber shall report to the Trust Secretary the completion of any new work, extensions, or repairs in connexion with any service, within twenty-four hours of effecting same.

#### *Meters.*

24. No hose or pipe shall be attached to any pipe or tap for the purpose of watering streets, footpaths, or roads except the water is charged per meter.

25. No meter shall be affixed until it shall have been examined, tested, and approved by a duly authorized officer of the Trust, and each meter must be capable of registering at least 1,000,000 gallons, and each  $\frac{3}{4}$ -inch,  $\frac{1}{2}$ -inch, and 1-inch meter must be capable of registering any flow not less than ten, fifteen, and twenty gallons per hour respectively, and each meter must be fixed with approved lead connexions above ground in a conveniently accessible place, and properly protected. Whenever washers are necessary for meter-connexion couplings, leather washers shall in all cases be used. A stop-cock must be affixed close to meter on entry side.

26. The Trust may require a meter to be affixed and used where it is deemed necessary.

27. If any meter in use cease registering or be reported by a duly authorized officer of the Trust as out of repair, or registering inaccurately the Trust may estimate and charge for the water consumed during the period such meter was not in working order, and until it is repaired and refixed, either by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year, or on the basis of subsequent consumption after repairing, or the Trust may insert a check meter on the service pipe, and charge upon estimates from the registering thereof, or by any other manner the Trust may decide.

28. Any meter being reported to the Trust as out of order, the owner thereof shall, at his own expense, have same repaired and tested by a competent authority to the satisfaction of the Trust.

#### *Waste or Misuse of Water.*

29. No person supplied with water by the Trust shall wilfully or negligently allow the same to run to waste, misuse, or allow undue consumption.

30. No person receiving water from the Trust shall, without the written permission of the Trust, take or carry away such water, or shall sell the same to any other person.

31. No person not having agreed to be supplied by the Trust shall take or carry away water from the premises of any person so supplied, or from any drinking tap, trough, or private or public service pipe.

32. The water supply of all public parks and gardens shall be exclusively under the control and direction of the officers of the Trust, and no person, unless duly authorized, shall turn on the water or otherwise interfere with such water supply.

#### *Miscellaneous.*

33. In every case in which it is necessary to obtain the consent of the Trust before doing any act or commencing any work, such consent should be asked for by notice in writing addressed to the Secretary of the Trust, and delivered at his office, of such length as is mentioned in the Acts or in this By-law, and in no case, less than two days' prior to the time proposed for the doing of such act, or the commencement of such work, and such notice must state clearly the act proposed to be done or work to be commenced, and such act shall not be done or work be commenced save upon the Trust's consent in writing, and then only subject to and in accordance with such directions or conditions as shall be therein specified. Such consent may be given by and under the hand of the Chairman of the Trust, the Secretary, or the Engineer, who severally shall be competent to give the Trust's consent, and on behalf of the Trust to prescribe any directions or conditions attaching thereto, and subject to and in accordance with which only such consent shall be deemed to have been given. The giver of every such consent shall notify the same to the next following meeting of the Trust for confirmation.

34. For water supplied temporarily during erection, repairs, or additions to buildings shall be by arrangement with the Trust or by meter.

35. If any person shall neglect to repair any service pipe conveying water from the pipes of the Trust into the premises of such person, after having received notice from any officer of the Trust that such service pipe requires repairing, the Trust may stop the water from flowing into such premises, either by cutting the service pipe or otherwise as the Trust may think fit, and the supply of water shall remain cut off until the necessary repairs shall have been effected, and this shall be without prejudice to any remedy the Trust may have against such person in respect thereof.

36. The officer or officers of the Trust, or any person appointed for that purpose, may at all lawful times enter any house, tenement, or land to, through, or into which water is supplied by the Trust, in order to inspect the meters, instruments, pipes, and apparatus for measuring, conveying, reception, or storage of water, or for the purpose of ascertaining the quantity supplied or consumed, or examining if there be any waste or misuse of such water, or breach of this By-law; and if any person hinders or prevents such entry or examination, he shall be guilty of an offence. The Trust may turn off the water supplied by it from any house, tenement, or land to which such entry is refused, or on which such examination is hindered, and cease to supply the same with water until such examination shall have been permitted and effected.

37. In the construction of this By-law, the word "person" shall be deemed to extend to and include a corporation, whether aggregate or sole, and the meaning which in the Water Acts is assigned to any word shall be the meaning of the same word where occurring in this By-law unless inconsistent with the subject-matter or context.

38. Any person who does, or causes to be done, anything in contravention of this By-law, or fails to do anything which under this By-law ought to be done, shall be guilty of an offence; and for every such offence the offender shall, upon conviction, be liable to a penalty not exceeding Five pounds, and in the case of a continuing offence to a further penalty not exceeding Five pounds for every day after notice of the offence from the Trust.

## Meters.

8. (a) No meter shall be affixed until it has been examined, tested, and approved by a duly authorized officer of the Board, and each meter must be capable of registering at least 1,000,000 gallons, and each  $\frac{1}{2}$  inch,  $\frac{3}{4}$  inch, or 1 inch meter must be capable of registering any flow not less than 10, 15, or 30 gallons per hour, respectively.

(b) Every meter must be fixed truly level with connexions above ground approved by the Engineer, in an easily accessible position, and properly protected on a proper foundation of timber, stone, brick, or concrete approved by the Engineer, which must, wherever practicable, be level with the surface of the ground, and within 3 feet of the building line of the property. Where it is impracticable to place the meter above the surface of the ground, it may be fixed in a pit approved by the Engineer, which must be properly constructed and drained. Lead connexions approved by the Engineer must be fixed on each side of the meter, except the use of two wrought iron quarter bends has been allowed by such officer. The use of elbows will not be permitted. Any meter which does not comply with the provisions of this sub-clause must be made to so comply within seven days after notice of such defect shall have been sent by the Engineer to the owner.

(c) Wherever washers are necessary for meter connexion couplings leather washers must in all cases be used.

(d) Every meter must be fixed to register the whole of the water supplied to any tenement or premises, except where otherwise allowed by the Engineer.

(e) Every person desiring to remove or alter the position of the meter must make written application for consent of the Trust to such removal or alteration, and no such removal or alteration shall be effected until the Engineer's permission in writing is given.

(f) No work in connexion with the fixing, removal, or alteration of a meter shall be done by any person other than a licensed plumber.

9. No person shall construct, place, stack, store, or permit to be constructed, placed, stacked, or stored any building, erection, materials, or goods over or upon any meter through which water is supplied by the Board, or do, or permit anything which shall prevent or interfere with the inspection at any time by any officer of the Trust of any such meter. Any person who neglects or refuses on notice from the Trust to remove any such obstruction or impediment to inspection shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds, and to a further penalty not exceeding Two pounds for each day after notice of the offence from the Trust. The Trust may, by notice in writing, direct the removal of any meter to a position approved by the Engineer, free from obstruction or impediment to inspection at any time by any officer of the Trust of any such meter. Any person who neglects or refuses to comply with such notice shall be guilty

of an offence, and shall be liable to a penalty not exceeding Five pounds, and to a further penalty not exceeding Two pounds for each day after notice of the offence from the Trust.

10. The Trust may, if it so thinks fit, but not otherwise, let for hire water meters, the rent for which, if inferential meters, shall be at the rate per annum of—

- For  $\frac{1}{2}$ -inch meter, five shillings.
- For  $\frac{3}{4}$ -inch meter, six shillings.
- For 1-inch meter, eight shillings.
- For 1 $\frac{1}{2}$ -inch meter, ten shillings and sixpence.
- For 1 $\frac{3}{4}$ -inch meter, fourteen shillings.

Such rent shall be exclusive of, and in addition to, the amount of rate chargeable for the recorded consumption of water, and shall be due, and must be paid, half-yearly in advance on the first day of the months of January and July in every year, the first payment to date, and be made as from the commencement of the then current half-year.

Every meter must be fixed by a licensed plumber at the cost of the owner or hirer, on his premises, in the position directed by the Engineer.

11. (a) Every hired meter must be kept in repair by and at the cost of the Board, except in case of receiving external injury, in which case the hirer must bear the cost of repair.

(b) Every private meter shall be kept in repair by and at the cost of the owner.

(c) If any meter in use ceases to register, or is reported as out of repair, or registering inaccurately, the Trust will estimate and charge for the water consumed during the period such meter is not in working order, and until it is repaired and refixed (1) by taking an average of the quantity used during the previous quarter, or during the corresponding period of the previous year; or (2) on the basis of subsequent consumption after repairing; or the Trust may insert a check-meter on the service-pipe, and charge upon estimate from the registering thereof.

(d) In the event of the hirer being dissatisfied with the registering of a hired meter, he may, by notice in writing, require the Trust to cause such meter to be removed and tested, and together with such notice shall forward a sum of One pound, which, if the meter is found to register correctly, shall be applied in paying the cost of removing, testing, and replacing such meter, and the balance, if any, shall be returned to him; but if such meter is found to fail to register, or if found to register incorrectly, such meter shall be repaired and replaced, or another meter shall be placed instead of it at cost of the Trust, and the amount deposited by the hirer shall be returned to him. In the case of a private meter, the owner must employ at his expense a licensed plumber to remove and submit the meter for test by the Trust.

(e) Every meter removed through being out of order must be repaired, adjusted, and submitted for test, and refixed with the least possible delay by a licensed plumber employed for the purpose. For any unnecessary delay in refixing meter, such licensed plumber shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds, or suspension or cancellation of his licence.

(f) In every case of fixing or refixing a 2-inch meter, or meter of larger size, provision must be made for testing the working of the meter in position by the affixing of a stop-tap or valve on the outlet side of the meter with a stop-tap ferrule between the stop-tap and the meter. No branches are to be taken off between the stop-tap or valve and the meter. The sizes of stop-tap ferrules must be as follow:—

- For 2-in. and 3-in. meters— $\frac{1}{2}$  inch.
- For 4-in. meters—1 inch.
- For meters larger than 4-in.—1 $\frac{1}{2}$  inch.

12. Any person hiring a meter from the Trust who shall leave the premises on which such meter is fixed without having previously given, in writing, at least six days' notice to the Trust of his intention to leave the premises shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds.

13. Any meter fixed prior to this By-law coming into operation shall, if removed for any purpose whatever, be refixed in manner and position in strict accordance with the provisions of this By-law.

14. Such meters, instruments, pipes, and apparatus shall not be subject to distress for rent of the premises where the same are used, or be attached or taken in execution under any process of any court of law or equity, or in pursuance of any sequestration or order in insolvency, or other legal proceedings against or affecting the consumers of the water, or the occupier of the premises, or other person in whose possession the meters, pipes, instrument, and apparatus may be.

15. If any repairs to the meter are required, such person shall immediately give notice to the Trust, and if he fails to give such notice, he shall be liable to a penalty of not more than Five pounds. Before any repairs are effected, a registration of the quantity of water used shall be taken by the Engineer, or other proper officer of the Trust.

16. If any person refuses or delays to have the meter provided by him properly repaired and put in correct working order after having been required by the Engineer so to do, the Trust may shut off the supply of water from the premises of such person either by closing or cutting the service pipe, or otherwise, until such meter has been properly repaired, and certified by the Engineer as being in proper working order.

17. Any plumber or other person who fixes or refixes any meter upon any premises supplied with water without having first obtained a certificate from the Board that the said meter has been examined and found in correct working order, shall be liable to a penalty of not more than Five pounds.

#### *Connexion with New Mains.*

18. When a pipe for the supply of water has been laid by the Board in any street, or part thereof, the owner of any tenement abutting on such street, or part thereof, whose premises are being supplied directly or indirectly with water from some other pipe laid in a street, or part of a street, not abutting on the said tenement, shall, within two months after written notice from the Trust, cause a proper pipe and stop-taps to be laid so as to convey a supply of water within such tenement from the pipe laid in the street, or part thereof, upon which his said tenement abuts, and shall disconnect and plug such other pipe supplying his premises as aforesaid, and shall also, if ordered in writing by the Trust so to do, plug the main to which such other pipe is attached. Every person guilty of any breach of this clause shall be liable for each such offence to a penalty not exceeding Five pounds, and in the event of continuing the offence, to a further penalty not exceeding One pound for each day after notice of the offence from the Trust.

#### *Tappings and Services.*

19. (a) All work, connexions, fittings, apparatus, and material in connexion with the supply of water from the pipes of the Board, must be in strict accordance with the provisions of this By-law; and where any service existing at the time of the coming into operation of this By-law, and supplying water from the pipes of the Board, or any fitting or apparatus connected therewith is not in accordance with the provisions of this By-law, all renewals, alterations, or replacements thereof or thereto must be effected in strict accordance with the provisions of this By-law.

(b) Ordinary connexions with sub-mains must be made with proper stop-cock ferrules, to which for iron services a length of not less than 3 feet of lead pipe must be attached, or alternatively, a stop-tap ferrule with standard test of brass tail piece, screwed for wrought-iron pipe, may be used in conjunction with a galvanized wrought-iron right-angle bend, in cases where it may be desired, and if no objection is offered by the Engineer. One service-pipe only for domestic supply to each tenement will be permitted. For tenements rated at Twenty pounds per annum, or under, the bore of such service-pipe must not exceed  $\frac{1}{2}$  inch, and for a tenement rated at over Twenty pounds per annum, the bore of such service-pipe must not exceed  $\frac{3}{4}$  inch, unless permission for a larger service has been received in writing from the Engineer, and the supply is taken through a meter; and no such larger service shall exceed 1 inch in diameter, unless the average number of persons residing in the tenement is more than twenty-five, or the tenement is rated at not less than One hundred and fifty pounds per annum, no shall it exceed 1 $\frac{1}{2}$  inch in diameter unless the average number of persons residing in the tenement is more than one hundred, or the tenement is rated at not less than Two hundred and fifty pounds per annum.

(c) The maximum tapping that will be allowed without clip for each size of cast-iron main is as follows:—

- For 3-in. and 4-in. pipes— $\frac{1}{2}$  in. tapping.
- For 5-in., 6-in., and 7-in. pipes—1 inch tapping.
- For 8-in. pipes—1 $\frac{1}{2}$  in. tapping.
- For 9-in. pipes—1 $\frac{1}{2}$  in. tapping.
- Over 9-in. pipes—2 in. tapping.

A clip must be used for tappings to all pipes other than cast-iron, except where otherwise permitted by the Engineer.

(d) A branch must be inserted for all connexions of 2-in. diameter or over to mains of 5-in. diameter or less, and for all connexions of 3-in. diameter or over to mains of 6-in. diameter, or over. All such branches must be of pattern and material approved by, and be fixed only in accordance with, the directions of the Engineer.

(e) All connexions with lead and iron pipes must be made with brass union couplings.

20. A high-pressure screw-down stop-tap, properly secured, and covered with an approved cast-iron box, must be fixed on each water service between the main and the building line.

Where mains are under wood blocks, concrete, or other special pavements an approved iron box must be fixed over the stop-tap ferrule in the main.

Except where otherwise permitted by the Engineer, every stop-tap and stop-tap ferrule must be opposite the tenement supplied, and in one line at right angles to the main on which such stop-tap ferrule is fixed. Every service which does not enter the building line of the tenement supplied at a point opposite to the main to which such service is connected, must be provided with two high-pressure screw-down stop-taps and approved cast-iron covers, one of which must be fixed opposite the stop-tap ferrule on the main, and the other in a position approved by the Engineer, immediately outside the building line, where the service enters the tenement.

21. All joints connecting lead pipes must be "wiped" joints, and in no case will "bolt," or "copper-bit," or "blown" joints be allowed on water service pipes, either in the interior or on the exterior of any buildings or tenement. Any licensed plumber who, by himself or his workman, commits a breach of this clause shall be guilty of an offence, and shall be liable to suspension or cancellation of his licence.

21. (a) Excepting with the permission, in writing, of the Engineer, not more than one tenement shall be supplied from a single water service.

(b) The Engineer may, if he thinks fit, give permission to arrange, in special cases, that the water supply to more than one tenement may pass from the water main into a single pipe (herein called "trunk service"), which must be laid in a street, and have branch piping to each tenement, and on each such branch there must be a stop-tap fixed in a public thoroughfare, but in no such case shall branches be fixed in excess of the number, or of the diameter proportioned to the trunk service set forth in the subjoined table, namely:—

Diameter of Trunk Service.	No. of 1-in. Branches only.	No. of ½-in. Branches only.	No. of ¼-in. Branches only.
2-inch .. .. .	..	..	2
1½-inch .. .. .	..	2	or 4
1½-inch .. .. .	2	or 4	or 10
1½-inch .. .. .	3	or 6	or 15
2-inch .. .. .	6	or 12	or 30

(c) In any thoroughfare every service pipe must be laid at a depth of at least 1 foot from the surface so as to ensure freedom from damage as far as possible. A service pipe must not be laid longitudinally under a footpath or pitched channel, or in a water channel, unless expressly allowed by the regulations of the local municipal council, which are in all cases to be observed.

(d) Whenever any service existing at the time of the coming into operation of this By-law supplies more than one tenement, and such service is not laid in accordance with the provisions of this clause, repair of such service will not be permitted should the repair involve the replacement of more than one pipe length of the service, but the service must be renewed strictly in accordance with the before mentioned provisions.

(e) Any person offending against the provisions of this clause shall be guilty of an offence, and shall be liable to a penalty not exceeding Two pounds.

22. No extension of a private service will be allowed except by consent of the Engineer.

In connexion with every application to lay a water service of 2 inches and upwards in diameter, or to alter the position of any such water service, the plumber's notice must be accompanied by a properly dimensioned plan showing the locality of the premises at which the work is to be effected, and the position in which it is intended to lay the pipes, and fix meters, plugs, stop-taps, &c., thereto.

23. Any permission granted by the Engineer to supply a property with water by means of an extension service from a main pipe, which does not pass in front of the said property, or from a private service, shall be deemed to be temporary, and shall be liable to revocation at the pleasure of the Engineer.

24. The service pipe from the main being the property of the owner or occupier of the tenement supplied by such service pipe, the occupier (if any) or (if none) the owner shall, upon receiving notice that his service pipe requires repairing immediately proceed to repair the same, and he shall be responsible for any loss of water or other damage which is caused by reason of such service pipe being leaky, or otherwise out of repair, or broken, and, in default of so repairing, he shall be guilty of an offence, and shall be liable to a penalty not exceeding Five pounds, and in the event of continuing the offence, to a further penalty not exceeding Two pounds for each day after receipt of such notice, and the Trust may stop the water from flowing into such tenement, either by cutting off the service pipe, or otherwise, as the Trust may seem fit, until the necessary repairs have been effected.

(b) Plumbers' licences shall be at and during the pleasure of the Board, and be subject to review from time to time, and the Board may at any time suspend or cancel any such licence in the event of the holder thereof being adjudged by the Board to be incompetent, or by himself, or his employee committing any breach of the Board's Acts, By-laws, Regulations, or this By-law.

(e) In the case of service communication with a pipe of the Board being made through the intervening medium of a storage tank, the provisions of this clause shall have as full application as if the communication were by direct service.

(f) The giving of two days' notice as aforesaid will only be dispensed with in the event of urgent repairs being required to stop the waste or escape of water, in which case notice must be sent to the Trust by the licensed plumber concurrently with, or immediately after, the execution of such urgent repairs. The penalty for not giving notice as herein required will be as mentioned in sub-clause (d) of this clause.

*The Constitution Act Amendment Act 1915.***COMPULSORY PREFERENTIAL VOTING.****(Part V.—Division 14.)***How Votes to be Marked by Voter.*

292. (1) When at any election for the municipality a person receives a ballot-paper instead of striking out the name of any candidate for whom he does not intend to vote he shall mark his vote on the ballot-paper by placing the figure 1 opposite the name of the candidate for whom he votes as his first preference and shall give contingent votes for all the remaining candidates by placing figures 2, 3, 4 (and so on as the case requires) opposite their names so as to indicate by such numerical sequence the order of his preference.

(2) The candidate opposite whose name the figure 1 is so placed shall be deemed to be the candidate to whom the elector gives his vote for the purpose of the election.

*Marking of Ballot-paper where only Two Candidates.*

293. Notwithstanding anything contained in this Division, at any election where there are only two candidates—

- (a) the requirements of this Division as to the marking of ballot-papers by electors shall be deemed to be sufficiently complied with in the case of any ballot-paper marked so as to indicate the elector's first preference only; and
- (b) in the case of a postal ballot-paper the elector's first preference shall be deemed to be sufficiently indicated if the surname of only one candidate is written thereon.

*Invalid Ballot-papers.*

294. (1) A ballot-paper shall under this Division be rejected at the close of the poll if it does not indicate the elector's first preference for one candidate and in the case of any election where there are more than two candidates his contingent votes for all the remaining candidates.

*Ballot papers Not Invalid.*

(2) Except as otherwise expressly provided a ballot-paper shall not be rejected for any reason other than the reasons enumerated in this section but shall be given effect to according to the elector's intention so far as his intention is clear.

*Returning Officer to ascertain Results of Polling.*

295. The returning officer (for the Riding) shall in manner hereinafter provided ascertain the total number of votes given for each candidate.

*Procedure where only Two Candidates.*

296. At elections where there are only two candidates section one hundred and forty-four of the *Local Government Act 1915* shall have full force and effect.

*Procedure where more than Two Candidates.*

297. At elections where there are more than two candidates the procedure by the returning officer and deputy returning officers for each Riding to ascertain the number of votes for each candidate shall be as follows:—

(1) Immediately upon the close of the poll the returning officer and every deputy returning officer at the polling place at which each presides shall in the presence and subject to the

- (a) open the ballot-box at the polling booth at which he presides; and
- (b) arrange the ballot-papers by placing in separate parcels all those on which a first preference is indicated for the same candidate and the full contingent votes are also given for all the remaining candidates omitting ballot-papers which require to be rejected; and
- (c) count all such first preference votes given for each candidate respectively; and
- (d) make and keep a record of the number of votes counted from each ballot-box; and
- (e) abstain himself from inspecting the writing upon the back of the ballot-papers and take care that the same is not seen by any person.

- (4) The returning officer shall as soon as practicable—
- (a) ascertain from the certified lists received from deputy returning officers the number of first preference votes given for each candidate; and
  - (b) add the first preference votes so given for each candidate to the votes counted by himself in favour of each such candidate so as to ascertain for the whole Riding the number of first preference votes polled by each candidate respectively.

(5) The candidate who has received the greatest number of first preference votes shall if such number constitutes an absolute majority of votes (including the casting vote of the returning officer if necessary) be declared by the returning officer duly elected.

*Counting of Votes by Returning Officer.*

(6) If no candidate has an absolute majority of votes the returning officer shall upon receipt of the several sealed parcels from the deputy returning officers declare the candidate who has obtained the fewest first preference votes to be a defeated candidate, and with the assistance of such officers as he deems necessary shall (notwithstanding anything contained in the Act) in the presence and subject to the inspection of such of the scrutineers as choose to be present and the poll clerk (if any) but of no other persons then—

(7) After such distribution the number of votes given to each non-defeated candidate shall again be ascertained.

(8) If no candidate then has an absolute majority of votes the process of declaring the candidate who has the fewest votes to be defeated and distributing his ballot-papers amongst the non-defeated candidates next in order of the voters' preference shall be repeated and the votes recounted after every such redistribution until one candidate has obtained an absolute majority of votes, and such candidate shall then be declared duly elected.

*Casting Vote for Exclusion during Progress of Count.*

(9) If on any count two or more candidates have an equal number of votes and one of them has to be declared defeated the returning officer shall decide which is to be declared defeated.

*Adjournment of Count of Votes to be Announced.*

(10) If on the polling day the count of the votes by the returning officer cannot be completed he shall adjourn such count and inform the scrutineers and the officers appointed to assist him at such count as regards the time and place when and where such count will be continued and conducted by him.

(11) The count of the votes may from time to time be adjourned as the returning officer may deem necessary until it has been duly completed; and each adjournment shall be announced by the returning officer to the scrutineers and the officers assisting him.

*Before Adjournment Ballot-papers, &c., to be Sealed in Ballot-boxes.*

(12) Before every adjournment of the count of the votes—

(a) all ballot-papers and other documents connected with such count shall be placed in one or more ballot-boxes; and

#### *Deposit Moneys.*

299. The moneys paid to the returning officer by or on behalf of the candidates shall be dealt with in manner provided by section 154 of the *Local Government Act 1915* as altered as if in the said section for the word "votes" wherever occurring there were substituted the words "first preference votes."

#### *Voting by Post.*

300. When an elector votes by post, then (in lieu of writing on his ballot-paper the surname of the candidate for whom he votes) such elector shall in the presence of the person authorized to witness his signature, but so that the witness cannot see the vote—

(a) first write on the ballot-paper the surname of the candidate for whom he votes in the first instance and mark the figure 1 against such surname; and

(b) also write the surnames of all the remaining candidates underneath such name and record contingent votes for such remaining candidates numbering them 2, 3, 4, and so on in the order of his preference.

(2) Any instructions to electors required by the Act relating to voting by post to be printed on postal ballot-papers shall for the purposes only of this section be altered so far as is necessary to make them correspond with the provisions of this section, and shall as so altered be printed on the ballot-papers accordingly.

## TENDERS FOR GRAZING LANDS.

FOR THE PERIOD 1ST JANUARY, 1926, TO 30TH SEPTEMBER, 1926,  
EXCEPT WHERE OTHERWISE STATED.

**Tender Forms can be obtained on application to the Lands Department, Melbourne, or any of the Land Offices in the country.**

Tenders should be placed in the Crown Lands Office Tender-box on or before Noon on Thursday, 31st December, 1925.

NOTE.—No tender will be accepted unless the fee for the full period and fee of Five shillings for licence are forwarded.

**TENDERS** will be received on or before Noon on Thursday, 31st December, 1925, for the right to depasture stock on the following unappropriated portions of land subject to the Regulations approved by the Governor in Council and also the subjoined Special Conditions.

Every licence granted under section 121 of the *Land Act 1915* shall be subject to the conditions set forth in the Schedule hereto and to such special conditions and payment in advance of such fee as the Minister may determine, and shall be issued by an officer of the Department of Lands and Survey duly authorized in that behalf.

## CONDITIONS.

1. The issue of this licence shall not prevent the land comprised therein, or any part or parts thereof, being sold, leased, licensed, alienated, or dealt with under any of the provisions of the *Land Acts*, except under the 121st section of the *Land Act 1915*, or being resumed by order of the Governor or Administrator of the Government of Victoria, with the advice of the Executive Council.

2. In case the said land, or any part thereof, should be sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, the licensee shall not be entitled to any compensation other than that which the responsible Minister of the Crown for the time being administering the *Land Acts* may think fit.

3. This licence is subject to the rights of the holders of miners' rights or of mining leases now issued or hereafter to be issued to enter upon the allotment hereby licensed, and to search for gold, and to mine thereon, and to erect and occupy mining plant and machinery, without making any compensation to the licensee, his executors, administrators, or assigns, for surface or other damage.

4. Subject to these conditions the licensee shall be entitled to use the land for the purpose for which this licence has been granted until such land, or any part thereof, has been sold, leased, licensed, alienated, dealt with, or resumed as aforesaid, and thereupon all the interest of the licensee therein shall cease and be determined.

5. No land comprised in roads from time to time surveyed and marked out within the boundaries of the land comprised in this licence shall be deemed within its operation.

6. This licence shall entitle the holder thereof, during the period for which it is granted, to use the land therein comprised for depasturing purposes only, but shall not confer any right to build thereon, or to cultivate or, without the permission of the Minister, fence any portion thereof, or construct a dam or tank.

7. The taking in of stock for agistment or otherwise allowing the use of the land, or part thereof, without the authority in writing by the Minister, is forbidden.

8. That in the event of the Minister granting permission to fence the whole or any part of this area, the licensee shall provide gates or slip-panels in suitable places for the convenience of the public. No compensation will be allowed for fencing erected on boundaries of allotments alienated or in course of alienation.

9. That where improvements are authorized under section 123 of the *Land Act 1915* the licensee shall notify, on completion, that such improvements have been made, otherwise the work will not be recognized.

10. The interest in this licence shall not be transferred without the consent of the Minister, and the payment of a fee of Ten shillings.

11. The licensee shall be liable to forfeiture if the licensee commit a breach of or neglect to comply with these conditions.

12. The publication of a notice in the *Government Gazette*, purporting to declare that the Governor or Administrator, with the advice aforesaid, has forfeited this licence, shall be conclusive evidence that the licence is forfeited.

13. The ring-barking of the timber upon the land by the licensee is forbidden, and he shall not be entitled to destroy or cut and take away any such timber.

14. Free access to water shall be kept open at all times for travelling or other stock and for persons desiring to take water for domestic purposes.

15. The licensee shall destroy all noxious weeds on the land, and on the half-width of the adjoining roads, and shall be responsible for the destruction of noxious weeds under the *Vermin and Noxious Weeds Act 1922* in like manner as holders of freehold lands.

16. The licensee shall keep the land free from vermin, and, should he fail to do so, the licence shall be liable to forfeiture.

17. This licence is issued subject to the right of saw-millers to graze on this area such horses and bullocks as are actually used in connexion with their licensed operations on this land.

18. The licensee shall thoroughly and effectively protect the land within the boundaries of his licensed area from fire, and shall extinguish any fire which may break out on such area or may spread to it. In the event of the area being damaged by fire, the licence may be forfeited, unless the licensee satisfy the Minister that neither he, directly or indirectly, nor his workmen or servants, were in any way responsible for such fire.

19. The licensee shall not interfere in any way with any survey marks on the land hereby licensed.

## SPECIAL CONDITIONS.

1. The period of occupation will, except where otherwise specified, be for nine (9) months from 1st January, 1926, to 30th September, 1926.

2. The fee for the full period—for which the licence will be issued, and the fee for licence—must accompany the tender, otherwise the offer of the next highest tenderer who complies with this condition may be accepted.

3. Separate tenders must be lodged for each block.

4. Tenders to be addressed to the Secretary for Lands (Tender-box), Melbourne.

5. The highest or any tender not necessarily accepted.

6. Tenderers must give their full name, occupation, and ordinary postal address.

7. The areas are given as more or less, and all appropriated, alienated, or licensed lands (if any) within the boundaries are excluded.

8. The outgoing tenant has the option to remove any existing fencing owned by him within one month, or to require the incoming tenant to pay for it in accordance with the provisions of section 124, *Land Act 1915*.

This does not apply to cases where the land was the subject of an expired Grazing Area Lease. In all such cases, the incoming tenant will be held responsible for the care and maintenance of any improvements.

Plans can be seen and information may be obtained in this office.

Section 121, *Land Act 1915*, provides—

1. Where a licensee under section 121 of the *Land Act 1915* has, with the consent of the Minister, enclosed with a substantial fence the land which is the subject of his licence, he may impound any cattle, sheep, or other animals found trespassing thereon.

2. Where the licensee holds land under the said section which is unfenced, he may, in any Court of competent jurisdiction, sue the owner of any cattle, sheep, or other animals for damages arising from trespass by such cattle, sheep, or other animals.
