82. Ironmongery (Builders', &c.)	£5
83. Lamps and Lampware (Gas and Kerosene)	£5
84. Netting and Fencing Wire, Wire Rope, &c.	£5
85. Oils, Lubricating	£10
86. Polishes, Dusters, Cleansers, &c.	£5
87. Saddlery, Leatherware Goods, &c.	£5

Security.—Ten per cent. on total amount of tender accepted, except when otherwise specified in the tender form, but in no case will security of less than £5 be received.

Schedules as above, with full particulars, may be obtained from the Secretary to the Tender Board, by whom also the samples will be shown and any information afforded to persons tendering.

If the tenderer is in a position to supply a suitable substitute of Commonwealth production or manufacture in place of the sample at the Tender Board Office he may tender for such substitute under column A in the schedule, but he must submit with his tender a sample of the article offered.

Preference will be given by the Tender Board, provided the quality of the articles offered is satisfactory, and the rates charged are considered reasonable—

(a) to tenders for articles manufactured within the Commonwealth;

(b) to tenders for articles manufactured within any other part of the British Empire;

In all cases the country of origin of the articles offered must be stated, and the total cost of each item extended in the columns provided.

Preliminary deposits will be returned within ten days to unsuccessful tenderers on their application.

The amount of the deposit required with each tender must be enclosed and the amount must be carefully written in and the designation stated, whether marked cheque, bank draft, or bank notes, as the case may be.

Security will be required, either in Victorian or Commonwealth Government debentures, Savings Bank deposit book, or bank deposit receipt in favour of the Secretary to the Tender Board, or cash deposit, as the tenderer may elect.

The security must be completed and contract signed within five days of acceptance of the tender, failing which the contract may be again advertised, or another tender accepted.

The Government will not necessarily accept the lowest or any tender.

In the event of tenderers withdrawing their tenders before notification of acceptance of same, or failing to take up their accepted tenders within the prescribed period after notification of acceptance, the preliminary deposit will be forfeited, and, in addition, they may be disqualified from tendering or holding any future contracts for Government supplies for a period of twelve months, such disqualification to date from the notification of acceptance of tender. It is also stipulated that if a tenderer be a member of a firm and such firm be interested in the contract, then his tender is to be in the name of the firm and not in that of the individual; and that for a breach of this condition the preliminary deposit will be forfeited and the tender declared informal.

Tenders, enclosed in a separate envelope, and having the words "Tender for ———" (as the case may be) written thereon, must be deposited in the Tender-box at the Pay Office, Treasury, Melbourne; or, if sent by post, postage must be prepaid, and the tenders addressed to the Chairman of the Tender Board, Pay Office, Treasury, Melbourne, which office they must reach by first post on the date of closing of tenders.

Conditions of Contract are those published under General Stores, in the *Victoria Government Gazette* of 31st December, 1924, pages 4180 and 4181.

IN pursuance of the powers conferred by the *Local Government Act 1915*, the President, Councillors, and Ratepayers of the Shire of Gordon order as follows:—

Bars, Spikes, Grips, or other Projections on Wheels.

1. No person shall use or cause or procure any other person to use on any public highway any traction engine or other vehicle having on its wheels any bars, spikes, grips, or other projections.

This prohibition, however, shall not apply to—

(a) Any traction engine used only for hauling agricultural machinery or hauling a vehicle containing such machinery only if the projections on the driving wheels of such engine consist only of bars at least two and three-quarters inches in width and not more than one and one-sixteenth of an inch in thickness, and the space intervening between such bars does not exceed five inches; or
