At the Law Courts, Melbourne, the first day of June, 1926.

PRESENT:

His Excellency the Lieutenant-Governor of Victoria.

Mr. Allan	Mr. Richardson
Mr. Eggleston	Mr. McGregor
Mr. Downward	Mr. Mackrell.

HIS Excellency the Lieutenant-Governor of the State of Victoria, with the advice of the Executive Council thereof, and pursuant to the petition of the Council of the municipality of the Shire of Kerang, doth by this Order, under the provisions of section 148 of the *Local Government Act 1915* (No. 2686) as amended by section 3 of the *Local Government Act 1918* (No. 2981), direct that the provisions of Division 14 of Part V. of *The Constitution Act Amendment Act 1915*, applicable and severally hereinafter set out, shall apply to the election of councillors for the said municipality, with the alterations of such provisions as are shown below, the same being alterations deemed necessary for the purpose of carrying into effect such provisions as so applied.

The Constitution Act Amendment Act 1915.

COMPULSORY PREFERENTIAL VOTING.

(Part V.—Division 14.)

How Votes to be Marked by Voter.

292. (1) When at any election for the municipality a person receives a ballot-paper instead of striking out the name of any candidate for whom he does not intend to vote he shall mark his vote on the ballot-paper by placing the figure 1 opposite the name of the candidate for whom he votes as his first preference and shall give contingent votes for all the remaining candidates by placing figures 2, 3, 4 (and so on as the case requires) opposite their names so as to indicate by such numerical sequence the order of his preference.

(2) The candidate opposite whose name the figure 1 is so placed shall be deemed to be the candidate to whom the elector gives his vote for the purpose of the election.

Marking of Ballot-paper where only Two Candidates.

293. Notwithstanding anything contained in this Division, at any election where there are only two candidates—

(a) the requirements of this Division as to the marking of ballot-papers by electors shall be deemed to be sufficiently complied with in the case of any ballot-paper marked so as to indicate the elector's first preference only; and

(b) in the case of a postal ballot-paper the elector's first preference shall be deemed to be sufficiently indicated if the surname of only one candidate is written thereon.

Invalid Ballot-papers.

294. (1) A ballot-paper shall under this Division be rejected at the close of the poll if it does not indicate the elector's first preference for one candidate and in the case of any election where there are more than two candidates his contingent votes for all the remaining candidates.

Ballot-papers Not Invalid.

(2) Except as otherwise expressly provided a ballot-paper shall not be rejected for any reason other than the reasons enumerated in this section but shall be given effect to according to the elector's intention so far as his intention is clear.

Returning Officer to ascertain Results of Polling.

295. The returning officer (for the Riding) shall in manner hereinafter provided ascertain the total number of votes given for each candidate.

Procedure where only Two Candidates.

296. At elections where there are only two candidates section one hundred and forty-four of the *Local Government Act 1915* shall have full force and effect.

Procedure where more than Two Candidates.

297. At elections where there are more than two candidates the procedure by the returning officer and deputy returning officers for each Riding to ascertain the number of votes for each candidate shall be as follows:—

(1) Immediately upon the close of the poll the returning officer and every deputy returning officer at the polling place at which each presides shall in the presence and subject to the

inspection of such of the scrutineers as choose to be present and the poll clerk (if any) and of no other persons—

(a) open the ballot-box at the polling booth at which he presides; and

(b) arrange the ballot-papers by placing in separate parcels all those on which a first preference is indicated for the same candidate and the full contingent votes are also given for all the remaining candidates omitting ballot-papers which require to be rejected; and

(c) count all such first preference votes given for each candidate respectively; and

(d) make and keep a record of the number of votes counted from each ballot-box; and

(e) abstain himself from inspecting the writing upon the back of the ballot-papers and take care that the same is not seen by any person.

(2) Each deputy returning officer shall—

(a) certify a list of the number of such first preference votes given for each candidate at the polling place at which he presides and transmit such certified list to the returning officer together with the ballot-papers and copy of voters' roll as required by section 144 of the *Local Government Act 1915*.

(3) The returning officer shall—

(a) make out in respect of the polling booth at which he presides a list of first preference votes given for each candidate; and

(b) seal up in separate parcels in respect of the said polling booth the ballot-papers and voters' rolls in like manner as is required in the case of deputy returning officers.

(4) The returning officer shall as soon as practicable—

(a) ascertain from the certified lists received from deputy returning officers the number of first preference votes given for each candidate; and

(b) add the first preference votes so given for each candidate to the votes counted by himself in favour of each such candidate so as to ascertain for the whole Riding the number of first preference votes polled by each candidate respectively.

(5) The candidate who has received the greatest number of first preference votes shall if such number constitutes an absolute majority of votes (including the casting vote of the returning officer if necessary) be declared by the returning officer duly elected.

Counting of Votes by Returning Officer.

(6) If no candidate has an absolute majority of votes the returning officer shall upon receipt of the several sealed parcels from the deputy returning officers declare the candidate who has obtained the fewest first preference votes to be a defeated candidate, and with the assistance of such officers as he deems necessary shall (notwithstanding anything contained in the Act) in the presence and subject to the inspection of such of the scrutineers as choose to be present and the poll clerk (if any) but of no other persons then—

(a) open all the sealed parcels containing used ballot-papers as well as the sealed parcel of used ballot-papers made up by himself; and

(b) arrange such ballot-papers by placing in separate parcels all those on which a first preference is indicated for the same candidate and the full contingent votes are also given for all the remaining candidates omitting ballot-papers which require to be rejected; and the ballot-papers counted to such defeated candidate shall be distributed among the non-defeated candidates next in order of the voters' preference.

(7) After such distribution the number of votes given to each non-defeated candidate shall again be ascertained.

(8) If no candidate then has an absolute majority of votes the process of declaring the candidate who has the fewest votes to be defeated and distributing his ballot-papers amongst the non-defeated candidates next in order of the voters' preference shall be repeated and the votes recounted after every such redistribution until one candidate has obtained an absolute majority of votes, and such candidate shall then be declared duly elected.

WHEREAS by the *Lifts Regulation Act 1915* it is enacted that the Governor in Council may, by Order published in the *Government Gazette* from time to time, make regulations for the purposes therein mentioned: Now therefore His Excellency the Lieutenant-Governor of Victoria, with the advice of the Executive Council thereof, doth by this Order repeal the Regulations made on the 25th day of November, 1924, under the provisions of the said Act, and doth make the following Regulations in lieu thereof (that is to say) :—

1. These Regulations shall, from the 8th day of June, 1926, apply to all lifts in Victoria, provided that any lift which has been erected and used prior to the 1st day of July, 1912, may continue to be used as long as the Chief Inspector considers it reasonably safe, notwithstanding that these Regulations are not fully complied with.

GENERAL RULES APPLYING TO ALL LIFTS.

Fees.

2. The owner, lessee, or occupier of any building in or in connexion with which there is a lift in use shall, on the 1st day of July in each year, or on the day such lift first comes into use, pay to the Chief Inspector for inspection and certificate of inspection—

For each lift (mechanical power), 21s.
For each lift (hand power), 12s. 6d.

In the case of a lift which comes into use after the 1st day of January in any year, the fee shall be half the above rates: Provided that in respect of any number of lifts within one enclosure, the maximum sum payable for any period of twelve months shall not exceed £10.

3. Unless otherwise expressly provided, the owner, lessee, or occupier of any building in or in connexion with which any lift is in use shall be responsible for the observance of these Regulations.

Permit to Erect or Alter Lifts.

4. No lift shall be erected, re-erected, or materially altered unless a permit, in the form following, has first been obtained from the Chief Inspector.

PERMIT.

I hereby authorize the _____ of a lift at _____
in accordance with the plans and drawings filed this day.
Dated at Melbourne this _____ day of _____

Chief Inspector of Factories.

5. Every applicant for such permit shall file at the Department of Labour complete plans, drawings, and specifications, showing correct measurements and describing fully the whole machine, the lift well enclosures and doors and the position of the lift in the building, unless only alterations are intended, in which case it will be sufficient if the alterations are described.

6. Before granting such permit the Chief Inspector may require any alterations in design to be made which appear to him to be necessary for the safe working of the lift, and may, upon being satisfied, grant such permit.

7. All work done and all machines, apparatus, and material used in connexion with any lift shall be subject to the final approval of the Chief Inspector, who shall, as often as appears to him necessary, inspect and test.

8. No lift which comprises a platform or car shall be erected in such a position as will leave a road for persons to pass under the platform or car.

Lubrication.

9. Every lift shall be provided with a proper platform, hand-rail, and ladder to enable the attendant to oil and attend to all parts of the machinery without risk of accident.

Overhead Construction.

10. All overhead construction shall be of sufficient strength and stability to bear at least four times the maximum load to be put upon it.

11. All overhead gear shall be supported on steel joists.

12. In the well, immediately under the overhead sheaves, of any suspended lift there shall be built a substantial platform or grating with means of access from outside the well.

13. Every lift well shall be kept clean and free from accumulations of rubbish, dust, and dirt, and shall be sufficiently lighted.

14. The enclosure of all lift wells shall in all cases be without projections. The entrance side or sides shall be enclosed throughout the travel of the car. The other sides shall be enclosed in the parts where the Inspector considers necessary.

15. Sufficient clear space for over-running of the cage shall be provided at the top and at the bottom of the lift well, and shall not be less than that set out in the following schedule :—

Maximum Car Speed per Minute.	Minimum Clear Space for Over-running.	
	At Top of Well.	At Bottom of Well.

" 300 ft. " " 400 ft.	5 ft.	3 ft.
" 400 ft. " " 450 ft.	6 ft.	4 ft.

Provided that, if the Inspector considers that sufficient space for ordinary safety requirements has been provided, this clause shall not apply to any lift plans and specifications of which had been lodged with the Chief Inspector on or prior to the 22nd day of June, 1926, unless the maximum speed of such lift be increased.

GUIDES AND SHOES.

16. All guides, whether for cars or for counter-weights, shall be of steel. Spring shoes of an approved pattern shall be fitted on all cars and counter-weights which have a maximum speed exceeding 300 feet per minute.

19. All controlling, lifting, or balance-weight ropes that show indications of wear, splinterings, stranding, or bunching must be at once replaced.

20. The method of binding all lifting ropes and balance-weight ropes around eyes shall be by splicing only.

21. No metallic lifting rope shall be installed in any lift unless and until a certificate that the rope has been tested showing the breaking load of such rope has been filed in the office of the Chief Inspector.

Factor of Safety of Ropes.

22. The lifting ropes of every suspended lift shall, when new, be sufficiently strong to bear at least twenty times the maximum load and weight of the car. All balance-weight ropes shall have the same proportion of strength to load.

23. In the case of whips or cranes, or goods lift carrying less than 3 cwt., where one rope only is provided, such rope, when new, shall be sufficiently strong to bear at least ten times the maximum load to be carried.

31. Lifts having a maximum speed exceeding 200 feet per minute shall be fitted with safety gear of such pattern that in the event of failure of the lifting ropes or derangement of the machinery the car will be brought to an easy and gradual stop. 34. Testing of cam gripper safety gear shall be effected by raising the car to such height as the person conducting the test directs, and suspending it either by a hempen rope or by suitable trip gear. The lifting ropes shall then be either detached or slackened, and the car freed by cutting the hempen rope or by the release of the trip gear.

35. Tests of all other kinds of safety gear shall be conducted in such manner as the Inspector directs.

36. The owner, lessee, or occupier of a building within or attached to which there is a lift, shall provide and keep a record book in the form hereunder, in which particulars of every test shall be entered and signed by the person who conducts the test:—

Inspection of Lifts.

44. Every lift shall be inspected at least once in each year, and the owners of, or persons using, such lift shall take all necessary measures to facilitate inspection.

If the Inspector considers that everything is satisfactory, he may issue a certificate to that effect.

HYDRAULIC LIFTS.*Testing of Apparatus.*

45. A certificate, under the maker's hand, that all apparatus subject to hydraulic pressure has been tested to three times the proposed working pressure per square inch, shall be furnished to the Chief Inspector before such apparatus is put into use.

46. The whole of the machinery shall be tested to twice the working pressure in the presence of the Inspector after erection and before being used.

53. The controlling valve shall cut off automatically at either limit of travel. The valve must also shut off the water in the case of breakage of the hand-rope.

Balance Weights.

54. No direct acting lift shall be fitted with flying balance-weights unless the ram of such lift is fitted with one or more tie-bolts carried from the bottom of the ram to the girders of the car platform.

Doors.

55. Every well door of a passenger lift shall, in addition to the ordinary lock, be fitted with a mechanical lock operated by the car.

Such lock, for the ground floor, shall be designed so as to enable the door to be opened from the outside without a key when the lift is opposite, and with a key when the lift is not at the ground floor.

The locks at all other floors shall be such that the doors or gates cannot be opened with or without a key from the outside, except when the lift is opposite.

Goods Lifts.

56. Every goods lift shall be provided with gear which, on the car leaving any floor, automatically closes the door or the gate at that floor, and such door or gate shall be so constructed that it will be impossible to open it from the outside without a key, which must not at any time be left in the lock.

57. Every goods lift operated by a hand rope shall be provided with an appliance whereby the person using the car may be able to lock the rope at any floor at which the car is standing.

ELECTRIC LIFTS.

Electrical Appliances.

58. The location of the electric apparatus shall be such that it shall not be subject to moisture or dampness.

59. The electrical attachments and apparatus shall be efficiently insulated from body or earth.

Supply Mains.

60. The supply main shall be suitably insulated and fixed, and shall be of sufficient sectional area to carry the maximum current permissible under the rules of the Fire Underwriters' Association of Victoria.

61. At the nearest point of entrance to the building the supply mains shall be connected to suitable and efficient double pole fuses or circuit breakers, and also to a double pole quick break switch.

62. The said double pole fuses or circuit breakers shall be accurate, and shall be such that the circuit shall be broken should the current exceed the normal carrying capacity of the main cables by 50 per cent.

Stops and Tappet Switches.

63. An automatic stop and a tappet switch, either of which will instantly break the circuit should the car overrun, shall be fitted to every electric lift. Both stop and switch shall be operated automatically by the car. Provided that the fitting of a tappet switch shall not be compulsory on any lift which was installed on or prior to the 8th day of June, 1926.

64. All electric lifting apparatus shall be provided with limit stops, or other approved means, to prevent over-winding. These stops must be attached to the lift machine in drum-winding gears, and must operate by the car in friction-driving gears.

Controls.

65. The electric controlling gear shall automatically slow down and cut off at either limit of travel. It must operate without causing excessive strain in any part of the apparatus. The electric controls must so operate as to obviate any excessive and deleterious sparking, and must be provided with locks or other means which will hold the controls in the "stop" position.

Drums and Ropes.

66. All drums shall be grooved to prevent any over-riding or jamming of lifting ropes.

67. The anchoring of the drum ropes shall be such that not less than one and a half turns of each rope shall be round the drum when the lift cage is at the top or the bottom limit.

Brakes.

69. All lift machines shall be provided with efficient brake gear.

Buffers.

70. Suitable buffers, which will check the accidental descent of the car, shall be provided at the bottom of the lift well. In the case of lifts installed after the 8th day of June, 1926, similar buffers shall be provided for counterweights also.

Where the maximum speed of the lift exceeds 300 feet per minute the buffers shall be substantial and of the oil or other type approved by the Chief Inspector.

Doors

71. All doors on passenger lifts with more than one entrance shall be fitted with electric contacts which will prevent the lift being moved until such doors are closed.

72. Every hand-controlled electrically-driven passenger lift shall be so designed that the car will not move until every lift well door or gate is closed. In the case of lifts installed after the 8th day of June, 1926, this result shall be secured by fitting to each lift well door or gate a combined mechanical and electric lock.

Automatic Passenger Lifts.

73. In all lifts operated by a push button, the control shall be so designed that—

- (a) it will be impossible to open any door from outside except when the lift is opposite;
- (b) as soon as it is operated by any person the car shall be beyond the control of any other person until the completion of its run;
- (c) between the arrival and departure of the car at the completion of its run there shall be a time interval sufficient to allow of the door being opened.

74. Two combined locks (mechanical and electrical) shall be fitted on each lift well door or gate. Such locks shall be automatic in action, and so designed that the arrival of the car at any floor releases the locks at that floor, while the departure of the car causes the locks to re-engage in such a way that the door or gate cannot be opened from outside. Provided that one combined and one mechanical lock shall be sufficient in the case of lifts installed on or prior to the 8th day of June, 1926.

Automatic Goods Lifts.

75. All goods lifts operated by a push button shall have a control system so designed that—

- (a) The control system shall be so designed that as soon as it is operated by any person the car shall be beyond the control of any other person until the completion of its run.
- (b) The control system shall provide that between the arrival and departure of the car at the completion of its run there shall be a time interval sufficient to allow of the door being opened.
- (c) Two combined locks (mechanical and electrical) shall be fitted on each lift well door or gate. Such locks shall be automatic in action, and so designed that the arrival of the car at any floor releases the locks at that floor, while the departure of the car causes the locks to re-engage in such a way that the door or gate cannot be opened from outside.

Other Goods Lifts.

77. Every hand-controlled electrically-driven goods lift shall be so designed that the car will not move until every lift well door or gate is closed. In the case of lifts installed after the 8th day of June, 1926, this result shall be secured by fitting to each lift well door or gate a combined mechanical and electrical lock operated by the car. Locks and doors or gates shall be so designed that it will not be possible to open the doors or gates from outside except when the lift is opposite.

BELT-DRIVEN OR OTHER POWER LIFTS.

78. Every lift shall be fitted with efficient brake gear, which will automatically operate on the worm shaft when the machine is stopped. Efficient provision shall be made to prevent the car from descending except under power. 81. Every drum-winding lift shall be fitted with efficient gear to automatically stop the machine should the lifting ropes through any cause become slack.

82. Every lift shall be provided with gear which, on the car leaving any floor, automatically closes the door or the gate at that floor, and such door or gate shall be so constructed that it will be impossible to open it from the outside without a key, which must not at any time be left in the lock.

83. Every lift operated by a hand rope shall be provided with an appliance whereby the person using the car may be able to lock the rope at any floor at which the car is standing.

And the Honorable Sir A. J. Peacock, His Majesty's Minister of Labour for the State of Victoria, shall give the necessary directions herein accordingly.

MALLEE LANDS AVAILABLE FOR APPLICATION UNDER SELECTION PURCHASE LEASE, SECTION 198, LAND ACT 1915, IN THE PARISHES OF MALLANBOOL, KURNWILL, MALLOREN, AND TUNART, COUNTY OF MILLEWA.

THE subdivision is situated south of and adjoining the Red Cliffs-Meringur railway line. The allotments are served by railway stations at Werrimull, Bambill, Yarrara, and Meringur, the furthest allotments being about 14 miles from Meringur. These allotments, however, will be brought nearer to the railway by the extension of the line beyond that station.

The land is available for general selection, but no person who has not reached the age of eighteen is eligible to apply.

Applications (with uncancelled Victorian duty stamp of 5s., or postal note for same amount, affixed) must be made on the usual form, and delivered or forwarded by post to any local Land Office or to the Under-Secretary for Lands, Lands Department, Melbourne, on or before 3rd July, 1926.

Applicants may apply for one or more allotments on one application form.

The term of the lease shall be for twenty years.

Applicants will be hereafter notified as to the date and place of hearing of their applications by Local Land Board.

The land will be granted under selection purchase lease, and at the end of six years, if the residence, cultivation, improvement, and all other conditions have been complied with, the lease will be endorsed under the seal of the Board of Land and Works to the effect that such conditions have been complied with, and at any time within the remaining period of fourteen years a Crown Grant will be issued on payment of the full amount of the purchase money.

The survey fee ranges from £12 10s. to £13 15s. per allotment.

A deposit of £5 will be accepted on account of survey fee, the balance to be paid with half-yearly rents in equal half-yearly instalments during the first six years of the lease.

In accordance with section 16, Land Act 1920, provision for water storage must be made on the land to the extent of approximately 4 cubic yards per acre within two years from the date of lease.

The lease will contain (*inter alia*) conditions to the effect as follows:—

That substantial and permanent improvements shall be made on the land; if in the second class, to the value of Two shillings and sixpence per acre before the end of the second year from the date of lease, another Two shillings and sixpence per acre before the end of each year of the third and fourth years, and the balance of Seven shillings and sixpence per acre before the end of the sixth year of the lease. If in the third class, improvements to the value of Five shillings per acre must be made on the land before the end of the third year from the date of the lease, and the balance of Five shillings per acre before the end of the sixth year of the lease. If in the fourth class, improvements to the value of Two shillings and sixpence per acre must be made on the land before the end of the third year from the date of the lease, and the balance of Two shillings and sixpence per acre before the end of the sixth year of the lease.

That the lessee shall go into residence on the land within twelve months after the date of the lease, and shall reside for at least three years and nine months on, or within 5 miles of, the land during the first six years of the term of the lease, and shall also clear and cultivate at least one-fourth of his allotment within two years from the date of the lease.

That the lessee shall not transfer, assign, mortgage, or sublet or part with the possession, or grant the use of the whole or any part of the allotment during the first six years of the term of the lease, and that after the first six years of the term of the lease the lessee shall not sell, transfer, assign, mortgage, or sublet the whole or any part of the allotment unless and until the lease has been endorsed under the seal of the Board to the effect that all the conditions and covenants of the lease during the first six years thereof have been complied with.

That a special condition shall be inserted in the lease providing that the land referred to therein shall at all times be maintained and used for the purpose of residence or for the purpose of agriculture and grazing, and that no person will be permitted to subsequently acquire or hold, or have an interest in, any area in the Mallee country in excess of that quantity of land as set out in section 20 of the Land Act 1921.

That the lessee or grantee or owner shall preserve the timber on, or plant an area of not less than, three per cent. of the total extent of his holding. (N.B.—Along the exposed boundary lines, viz., the western and southern, would be preferable.)

The price per acre on each allotment set out in the Schedule hereto includes loading for Water Supply and Road purposes.

Plans can be obtained at the Inquiry Office, Lands Department, Melbourne, and at Lands Offices, St. Arnaud, Berdigo, Horsham, and Mildura.

Intending applicants may obtain warrants from any Land Officer authorizing the issue of a railway ticket at half fares for the purpose of inspecting the land.
