VICTORIA GOVERNMENT GAZETTE

Published by Authority.

[Registered at the General Post Office, Melbourne, for transmission by post as a newspaper.]

No. 95.]

FRIDAY, JULY 9.

[1926.

CONTRACTS ACCEPTED.

(SERIES 1926-28.)

SUPPLY

OF

GENERAL STORES

FOR THE

PUBLIC SERVICE

FOR

STATE DEPARTMENTS,

FROM

1st APRIL, 1926, to 31st MARCH, 1928.

Articles included in the attached Contracts List which are indicated as being of Commonwealth Manufacture must, where practicable, be supplied, bearing evidence that they have been manufactured in the Commonwealth.

Under these Contracts goods may be ordered by any Department of the Commonwealth, but it is optional on the part of the Contractor to supply

Stores and Material other than those provided for under the foregoing Contracts, or any Contracts which may be subsequently gazetted, must be purchased as usual under the provisions of Clause 4 of the Stores and Transport Regulations, or by monthly, quarterly, or special quotations from time to time by the Tender Board.

Articles which can be supplied by the Penal Department are not included in these Contracts.

J. G. WHITE,
Secretary, Tender Board.

CONTRACTS ACCEPTED.

ANNEX TO CONTRACTS NOS. 1926/254 AND 1926/255.

Schedule No. 1.

BEAVERSKIN AND MOLESKIN.

(Of British Manufacture.)

Contract from 1st July, 1926, to 30th June, 1927.

1926/254—J. Edmondson and Co. Pty. Ltd. Security, £52.
 1926/255—Stogdale and Sons Pty. Ltd. Security, £40.

To Samples at the Tender Board Office.

Delivery of the quantities for items 2 and 4 must be made at the Railway Siding, Mont Park Hospital for the Insane, and for item 3 at the Penal Establishment, Pentridge, on or before the 31st August, 1926.

Departments to obtain supplies from Mont Park and Pentridge respectively.

WHITE MOLESKIN.—The White Moleskin must be self white, the back not raised, must weigh as a pure Moleskin 18 oz. to the yard of 30 ins. in width, and must contain 36 threefold warp threads per inch.
 It must be absolutely pure, i.e., free from adulterant or filling, even though in this respect the sample be slightly faulty.

PRINTED MOLESKIN.—*The Printed Moleskin must comply in all respects to the specification for White Moleskin, except that it must be printed of ordinary trade patterns as ordered, and may, in addition to the 18 oz., contain not more than 1 oz. of filling or other adulterant to the yard of 30 ins. wide.*

WHITE LEAD, ETC.

In packages as stated hereunder.

SPECIFICATION FOR WHITE LEAD.

All supplies shall be subject to the approval of the Officer ordering, and must be of the very best description. The White Lead must be finely ground in the best quality of pure linseed oil, the proportion of which must not exceed seven and one half per cent. of the weight. The surface of the lead when exposed to the air without water on the top of the lead shall not become brittle or crumbly after seven days' exposure. The White Lead is to be of the best quality. The process by which it is made shall be branded on the packages in which the White Lead is delivered. White Lead made by the Stack Process shall consist of Lead carbonate, and not less than twenty-five per cent. (25 %) of Lead hydrate, as determined by analysis on the pigment freed from oil. The proportion of lead in dry white lead after the removal of the oil, when calculated to metallic lead, shall not be less than seventy-eight (78) per cent., equal to oxide of lead eighty-four (84) per cent. Quantities of White Lead for testing may be taken out of any of the drums or kegs supplied at the expense of the Contractor, and then mixed together and analyzed. Packages in which White Lead and Oils are supplied remain the property of the Contractor, and must be removed by the Contractor at his own expense when empty.

ANNEX TO CONTRACTS NOS. 1926/270 AND 1926/271.

Schedule No. 17.

TENTS AND FLYS.

(CALICO AND DUCK.)

Contract from 1st July, 1926, to 30th June, 1928.

1926/270—J. Gadsden Pty. Ltd. Security, £26.

1926/271—Gair Manufacturing Co. Pty. Ltd. Security, £60.

All items to Sample at Tender Board Offices.

SPECIFICATIONS.

All Tents and Flys are to be supplied strictly in accordance with the samples at the Tender Board Office as regards quality of material, workmanship, and finish, and in all other respects.

All supplies shall be subject to the approval of the officer ordering, and if defective in workmanship or inferior in quality of material will be absolutely rejected.

The sizes hereunder specified are in all cases less seams.

TENTS AND FLYS—CALICO.—The Calico Tents and Flys must be made of heavy superfine British Calico, weighing 8 oz. to the square yard. They must be well made and machine stitched. Only No. 50 linen thread is to be used in the stitching. Each Tent and Fly to have a turnover Ridge Band 9 in. wide. The tents to have doorway one end with flap complete with strong tapes for fastening. All eyelet holes must be reinforced with canvas patches. The eyelets used are to be extra strong, with turnover ring. The eaves to be roped, such ropes to extend 6 inches up the gables. 40 feet of ½-in. Manilla rope must be supplied with each Tent and Fly respectively.

TENTS AND FLYS—DUCK.—The Duck Tents and Flys are to be made of the best quality English Duck weighing 12 oz. to the square yard, each with Ridge Band 12 in. All seams to be sewn with best 3-cord linen thread. Tents to have doorway one end with flap complete with strong tapes. The eaves of tents to have eyelets reinforced with canvas patches, also eyelets all round the bottom of the tent. All eyelets on eaves to have best ¾-in. Manilla ropes 8 ft. long spliced in each.

The Flys to have 12-in. Ridge Band. Eyelet holes are to be reinforced with canvas patches in which ropes are to be spliced, consisting of 8 feet of ¾-in. Manilla rope to each, and to have ¾-in. Manilla rope sewn in all round.

ANNEX TO CONTRACTS NOS. 1926/302 AND 1926/303.

Schedule No. 29.

CARBON PAPERS AND TYPEWRITER RIBBONS, TRYPOGRAPH MATERIAL, ETC.

Contract from 1st July, 1926, to 30th June, 1928.

1926/302—Ramsay and Hall Pty. Ltd. Security, £82.
 1926/303—Chartres Pty. Ltd. Security, £5.

All supplies of Carbon Papers, Typewriter Ribbons, and Trypograph Material under this Schedule will be ordered by the Government Printer, or by the Director of Education, or such other officers as they may appoint.

Orders by Departments, other than the Education Department, must be made on the Government Printer, and the supplies will be issued by the Storekeeper, Treasury Store.

The whole of the items must be of the very best description. If, after delivery, any deficiency or defect is discovered in the quality, the balance of the articles on hand may be returned to the Contractor.

Carbon Papers must be cut to size in the Commonwealth and packed in boxes of Commonwealth manufacture.

ANNEX TO CONTRACTS Nos. 1926/308 to 1926/311.

Schedule No. 32.

CASTINGS.

(MANUFACTURED WITHIN THE COMMONWEALTH.)

Contract from 1st July, 1926, to 30th June, 1927.

1926/308—Holden and Lewis Pty. Ltd. . . . Security, £11.
1926/309—J. Danks and Sons Pty. Ltd. . . . Security £24.
1926/310—S. Lacey and Sons Pty. Ltd. . . . Security, £6.
1926/311—J. C. Lee and Co... . . . Security, £5.

SPECIFICATION FOR CASTINGS.

1. All Castings under this Contract shall be supplied subject to the approval of the Officer duly authorized by the Department for which the castings are required, to order or accept delivery of same.
2. Castings of a special character other than those provided for under this Schedule may be obtained locally without infringing this Contract.
3. All castings are to be clean, sharp, free from surface scale, shell, cold shuts, blow holes, honey-comb, cinder, or any other imperfections, and are to be sound in every respect, and thoroughly close in grain. When specially ordered, the castings are to be run with heads or runners of such weight as may be ordered, such heads and runners to be cut off by the Contractor before delivery is made, and the charge for the casting must be at the net weight only, trimmed and clean.
4. Whenever specially ordered, the iron castings shall be run from the very best "cold-blast iron" of such particular brand, quality, and mixture as may be described in the order; or of such other substituted mixture as may be approved or directed by the Officer of the Department ordering, so as to produce a hard, close, soft, or other description of metal, at the option and to the satisfaction of the Officer ordering.
5. Whenever castings are required and, in the opinion of the Officer ordering, they can be moulded from the broken originals, the Contractor will be bound to mould from such broken originals without requiring the Government to supply a wooden or other pattern for same, and without being allowed any extra rate.
6. All patterns lent by the Government will be delivered to the Contractor at his works, and all such patterns must be returned by and at the expense of the Contractor in good order and condition, and must be delivered together with the castings. In the event of the non-return of any of the patterns, or of their being damaged, the price, which will be fixed by the Officer ordering, shall be paid by the Contractor, or may be deducted from any money due to the Contractor or from his security money.
7. The Contractor shall, during the currency of this contract, furnish the Officer ordering with the address or addresses of the place or places at which the steel castings are being manufactured by the Contractor, and the Officer ordering, or any person appointed by him from time to time shall at all times during business hours have free access to such place or places, and shall be afforded every facility for inspecting the castings while in process of manufacture.

QUALITY AND TESTING OF STEEL CASTINGS.

9. PROCESS OF MANUFACTURE.—Steel for castings shall be made by the open hearth process, Acid or Basic, or by such other process as may be approved by the Officer duly authorized by the Department to accept delivery of the castings contracted for.
10. ANNEALING.—All Steel castings shall be thoroughly annealed in a properly constructed annealing furnace, which must permit of the whole casting being uniformly raised in temperature throughout its whole extent to the necessary density required for annealing purposes. The casting shall be allowed to cool down prior to removal from the annealing furnace; and if subsequently heated for any purpose it shall be again similarly annealed if required by the Officer duly authorized by the Department to accept delivery.

11. TESTING AND INSPECTION.—*The following tests and inspections shall be made, preferably at the place of manufacture prior to dispatch, but in the event of any casting proving unsatisfactory in the course of preparation, or fitting in its place, such casting shall be rejected, notwithstanding any previous certificate of satisfactory testing.*

12. TENSILE AND BEND TEST PIECES.—*The tensile strength and ductility shall be determined from standard test pieces, which are to be prepared from sample pieces cast on the casting. These sample pieces are not to be cut, or partially cut, from the castings until the annealing of such castings has been completed, nor until they have been stamped by the Officer duly authorized to accept delivery. The test pieces are to be stamped by the aforesaid Officer after the annealing. All test pieces shall be selected by the aforesaid Officer and tested in his presence, and he shall satisfy himself that the conditions herein described are fulfilled.*

13. NUMBER OF TESTS.—*At least one tensile test and one cold bend test are to be taken from each casting. In castings of complex design, at least two tensile and two cold bend tests are to be taken. Where a casting is made from more than one charge of steel, at least four tensile and four cold bend tests are to be taken from pieces cast as far apart as possible on the casting, some test pieces being taken from as near the top and others from as near the bottom of the casting as practicable.*

14. DIMENSIONS OF TENSILE TEST PIECES.—*The tensile test pieces are to be turned so as to have a diameter of .564 inch with a gauge length of 2 inches, or a diameter of .798 inch with a gauge length of 3 inches, or a diameter of .977 inch with a gauge length of 3½ inches.*

15. DIMENSIONS OF BEND TEST PIECES.—*The bend test pieces are to be machined to a rectangular section 1 inch wide by ¾ inch thick, with the edges rounded to a radius of ⅙ of an inch. They are to be bent over the thinner section. The bending may be performed either by pressure or blows.*

16. TENSILE TESTS.—*The tensile breaking strength determined from test pieces of standard dimensions is to be between the limits of 26 and 35 tons per square inch, with an elongation of not less than 20 per cent. measured on the standard test piece.*

17. BEND TESTS.—*The bend test pieces must withstand, without fracture, being bent cold through an angle of 120 degrees, the internal radius of the bend being not greater than 1 inch.*

18. ADDITIONAL TESTS BEFORE REJECTION.—*Should either the tensile or bend test, or both, fail, and should the Officer duly authorized for the purpose consider the fractured test piece or test pieces, or the results obtained therefrom, do not fairly represent the quality of the casting, a duplicate of the test or tests which failed shall be made if requested by the maker. In such cases the quality of the casting shall be judged by the result of the duplicate test or tests, and not by the original test or tests which failed.*

19. PERCUSSION TESTS.—*Stern frames cast in one piece to be let fall on hard ground (excavations to be made to take bosses and other projections) after being raised through an angle of 45 degrees. Stern frames cast in more than one piece, rudders, steering quadrants, crossheads, tillers, &c., are to be dropped on hard ground from a height of from 7 to 10 feet, according to the design, shape, and weight of the casting.*

20. CASTINGS OF COMPLEX DESIGN.—*Castings of complex design which are liable to be deformed if submitted to the drop or percussive test, may have this test dispensed with provided two tensile and two cold bend tests be made upon pieces taken from positions as far apart as possible on each casting; one tensile and one bend test being taken from as near the top, and the others from as near the bottom, of the casting as practicable.*

21. HAMMERING TESTS.—*After being subjected to the percussive test, the casting in each case is to be subsequently slung up and well hammered with a sledge hammer not less in weight than 7 lb., to satisfy the Officer duly authorized for the purpose that the casting is sound and without flaw. This hammering test is also to be applied to castings of complex design which may not have been submitted to a percussive test.*

22. DRILLING TESTS.—*In the case of large castings, the Officer duly authorized by the Department is to supplement the foregoing tests by drilling small holes at such parts of the castings as experience shows cavities and contraction cracks are most likely to occur, and at positions which are to be agreed upon between the aforesaid Officer and the manufacturer, in order to determine the soundness or otherwise of the casting. These holes are afterwards to be tapped and properly filled up with screw plugs.*

Instructions re Measurement.

Measures should be taken as follows :—

- Chest—Over vest under coat, taken close to arms.
- Waist—Over vest under coat, above hips.
- Waist for trousers under vest and above trousers.
- Inside the leg of knickers or trousers, not outside the leg.

Sleeve measure should be taken, from centre of back to the shoulder on to the elbow and thence to the wrist, and not the inside sleeve measure.

ANNEX TO CONTRACT NO.-1926/317.
Schedule No. 35.

CLOTHING (UNIFORM)

FOR ATTENDANTS, HOSPITALS FOR THE INSANE.

Made up within the Commonwealth from Serge manufactured within the Commonwealth.

Period of Contract, 1st July, 1926, to 30th June, 1928.

To Samples at Tender Board Offices.

1926/317—A. Bowley & Co. Security, £160.

The Contractor must provide everything necessary for the due fulfilment of his contract.

Measurements will be supplied to the Contractor by the Institutions for which the garments are required.

All supplies must be strictly in accordance with the sample garments at the Tender Board Office, well fitted and well made. The Serge to be 18 oz. weight of Commonwealth manufacture, and Indigo dyed, with best quality trimmings, as per sample garments.

All garments will be inspected on the premises of the Contractor before delivery is taken; any article not fitting, bad in workmanship or material, will be rejected.

Delivery must be made at the various Hospitals for the Insane within six weeks from the date of the order, failing which a fine of One shilling (1s.) per garment per day may be enforced at the option of the Tender Board on report from the Inspector-General of the Insane, the amount to be deducted from the Contractor's account or from the security money.

Item No.	Description of Articles.	Rate.	Name of Contractor.
		£ s. d.	
1	Tunics—Serge, Indigo dyed, single-breasted sac, square corners, double stitched edges, 2 inside pockets, padding around scye, through shoulders, and to be quilted, raised sleeve heads, all wool and hair hymo through breast and down fronts, patrol collar, 5 buttonholes, machine-worked with silk twist, 5 buttons, bone, imitation mohair, tab inside under collar for name	each	A. Bowley & Co.
2	Trousers—Serge, cross pockets and hip pocket, fly buttons not more than 2 inches apart, bottom of trousers not less than 17 inches nor more than 18 inches in circumference	0 15 6	
3	Coats—Duck, with 2 inside breast pockets	0 11 0	

ANNEX TO CONTRACT NO. 1926/318.

Schedule No 36.

COCKS AND FITTINGS (BRASS, ETC.) AND PLUMBERS' SUNDRIES.

Contract from 1st July, 1926, to 30th June, 1928.

1926/318—J. Danks and Son Pty. Ltd. Security, £42.

All Articles marked (*) to Sample at Tender Board Offices.

Articles to be supplied of any pattern or thread required, and only those of the best finish and strongest manufacture will be accepted. All high-pressure cocks must bear the stamp of the M. and M. B. Works as having been tested to their standard. No others will be accepted.

ANNEX TO CONTRACT NO. 1926/464.

Schedule No. 78.

TANKS—

CORRUGATED, CYLINDRICAL

(of Commonwealth Manufacture).

Contract from 1st July, 1926, to 30th June, 1927.

1926/464—S. F. Hunt Security, £115.

Taps to Sample at Tender Board Office.

Galvanized Corrugated Tanks for use outside the Melbourne District may be purchased locally without infringing this Contract.

SPECIFICATION.

TANKS.—To be made of 24-gauge corrugated galvanized "Orb" brand for sides, with bottoms of 24-gauge galvanized "Queen's Head" flat iron (or other approved brand), to be lapped not less than 3" at all vertical joints and one (1) corrugation for all horizontal joints, and bottoms properly seam-jointed and well soldered. All vertical joints to be double riveted with galvanized iron rivets, and joints soldered on external and internal face of tanks.

All horizontal joints to be riveted with galvanized iron rivets at 9" pitch round circumference of tank, and joints to be soldered on external and internal faces of tanks. The whole of the rivets and soldering to be well sweated in.

The junction of sides and bottom to be well paned on and thoroughly soldered. The cover to be 26-gauge galvanized flat iron, conical shaped, with all joints properly seamed and soldered and paned on to a 3" 24-gauge galvanized iron rim and all to be well soldered, the bottom edge of rim to be wired. The Contractor must provide and fix inside the tank a 2" diameter 24-gauge galvanized iron overflow pipe the full height of the tank, the same to be secured thereto at the top of overflow with galvanized iron strap soldered to the overflow and to the tank.

A hole to be cut in the bottom of the tank 7" diameter, the Contractor to securely solder and rivet with No. 12 rivets to bottom of tank a 24-gauge galvanized iron cone 7" diameter at bottom, 5" high, and 2" diameter at top. The overflow to come through cone and to project 4", all to be securely soldered and left watertight.

The Contractor must provide with tank a 24-gauge galvanized iron elbow 2" diameter to slip on to overflow, each arm of elbow to be 12" long.

The Contractor must provide and securely fix a galvanized iron socket properly bossed and soldered to receive the tap, also a low-pressure brass spring tap with movable key complete. All tanks to be thoroughly watertight and perfectly clean.

†1926/470—J. Sharp and Sons Ltd.	Security, £11.
†1926/471—J. Moore and Sons Pty. Ltd.	Security, £5.

Items marked (*) to Sample at Tender Board Office.

All timber to be thoroughly seasoned, free from large knots, shakes, heart, sap, gum veins, or any other imperfection; and must be thoroughly sound and of approved quality.

When timber which is rated at per superficial foot of one inch thick is asked for and supplied of a greater or less thickness than one inch it shall be paid for proportionately.

Actual measurements only will be paid for.

This Contract is not to be considered broken, infringed, or vitiated by the purchase locally of any of these items for Country Stations.

ANNEX TO CONTRACTS NOS. 1926/472 TO 1926/477.

Schedule No. 80.

TIMBER (GENERAL)

(SAWN AND OTHER).

Contract from 1st July, 1926, to 30th June, 1927.

1926/472—J. Sharp and Sons Ltd.	Security, £40.
1926/473—J. Stone	Security, £5.
1926/474—J. Moore and Sons Pty. Ltd.	Security, £24.
1926/475—T. Anthony and Co. Pty. Ltd.	Security, £50.
1926/476—H. Beecham and Co. Pty. Ltd.	Security, £110.
1926/477—C. Chitty and Co. Pty. Ltd.	Security, £24.

All timber to be thoroughly seasoned free from large knots, shakes, heart sap, or any other imperfection; to be thoroughly sound, seasoned, and close-grained or free, as may be required, and of approved quality.

When timber which is rated at per superficial foot of one inch thick is asked for and supplied of a greater or less thickness than one inch it shall be paid for proportionately.

Actual measurements only will be paid for.

CONDITIONS OF CONTRACT FOR GENERAL STORES, 1926-27, &c.

1. Except where actual quantities are specified the Government will not be bound to order from the contractor all the articles enumerated in the schedules, but only those articles, and such quantities of those articles, as it may be found necessary to order. Should the Government, however, require a larger supply of any article than the estimated quantity stated in the schedules, the contractor will nevertheless be bound to supply the same at the contract rates.

2. Under this contract goods may be ordered by any department of the Commonwealth; but it shall be optional on the part of the contractor to supply.

3. The supplies are to be the same as sample where so stated, and of the particular manufacture indicated in the schedule of tenders. In the case of different makers' goods, the contractor will be required to supply the kind ordered. The supplies are to be the best quality of their several kinds or manufacture. In the event of the tender having been accepted for goods manufactured within the Commonwealth or manufactured within any other part of the British Empire (as the case may be), all such goods supplied shall if required by the Government bear evidence that they are of the particular manufacture tendered for, and, in addition, the contractor may at any time during the currency of the contract be called on to furnish a statutory declaration as to the country of origin of the goods supplied.

4. Except where otherwise stated in the schedules, the value of all packages, cases, casks, &c., whether bulk be broken or not, must be included in the prices stated in the contractor's tender; all such packages, &c., to be considered the property of the Government, and no charges or expenses whatsoever beyond the price tendered and set out in the schedule will be allowed to the contractor for any articles or packages, cases, casks, &c. The net weight or quantity only will be paid for. Contractors must provide, without extra charge, whatever labour may be required in the packing of stores.

5. All orders for supplies will emanate from the departments requiring the goods. The goods shall be delivered as may be directed by the officer ordering the supply. At the time of delivering the supplies, the contractor shall produce

the order for the same to the officer authorized to accept delivery, and such officer shall acknowledge thereon the receipt of the stores accepted, and shall return the order to the contractor.

6. Supplies ordered for delivery in Melbourne are to be delivered free of all charges (whether cartage, freight, &c.), and, for the purposes of these contracts, Melbourne district will include a radius of 6 miles from the General Post Office.

7. Arrangements as to time of delivery and inspection of goods will be made by the officer ordering the goods.

8. Orders must receive prompt execution; and in the event of the goods not being delivered within forty-eight hours after the contractor shall have received the order, or within such other time as the order may specify for delivery, it will be competent for the officer named in Clause 7, or the head of the department to whom the goods are to be supplied, on giving the contractor twenty-four hours' notice, to purchase the supplies, or any like supplies that are suitable for the service, at the contractor's risk, and the extra expense incurred over and above the contract price (if any) will be deducted from the contractor's account or from the security money.

9. Delivery will not be deemed to have been made until the goods have been approved of. In case of the rejection or return of any supplies, the contractor shall bear the whole cost of replacing the supplies rejected or returned, otherwise purchases will be effected at the contractor's risk and the extra expense deducted as in Clause 8.

10. The contractor will be required to furnish his account in the prescribed form at the time of the delivery of the goods, and the account shall be accompanied by the receipted delivery orders on which it is based. Where practicable, the use of more than one account form for each Department or sub-Department must be avoided. The prices quoted in the orders cannot be increased.

11. The acceptance of the supplies shall be subject to the approval of the officer authorized to take delivery of the stores, or such other officer as shall be named in the schedules. The contractor may, however, claim a survey on any goods objected to; but in that case he must, within twenty-four

hours after objection is made, give notice thereof, in writing, to the officer rejecting the goods. If, after the delivery of the supplies has been taken, and deficiency or defect is discovered therein, such deficient or defective stores may be returned to the contractor.

12. The members of Boards of survey will be appointed by the Treasurer of the State for the time being, and the decision of the Board is to be considered as final. If the Board shall decide that the article is not of proper quality it must be immediately replaced by the contractor, failing which it, or any like supply that is suitable for the service, will be procured elsewhere, and the survey fees and extra expense (if any) will be charged as in Clause 8.

13. A refusal to execute orders, irregularity in the quantity or quality of the supplies, delay in delivering or replacing them when required, or non-compliance with the terms of Clauses 15 and 16 of these conditions respecting the forwarding of consignment notes, &c., will subject the contractor upon report from the Tender Board to such mulct not exceeding fifty pounds as the Treasurer may direct and the amount may be deducted as in Clause 8. It will also be in the power of the said Treasurer upon such refusal, irregularity, or delay, to terminate the contract forthwith, and declare forfeit the whole or any portion of the security money; and, in addition, the contractor will be disqualified from tendering or holding any future contract or contracts for a period of twelve months from the date of such disqualification.

14. All goods forwarded under these contracts shall, where practicable, be forwarded by rail, and all consignments shall bear the number of the consignment notes under which they are forwarded, and also the name of the contractor or contractors by whom consigned, on a legibly written business label.

15. When the contractor is required to make delivery of goods at a railway station for transmission by rail for any department except the Commonwealth departments, he shall obtain a receipt for the goods in duplicate on the Stores and Transport consignment note, at the same time handing in a triplicate of the form as an authority for the Railways to act as agent for, and charge the freight to, the Stores and Transport Department or such other Department as shall be named therein. He shall, as soon as possible, and not later than twenty-four hours thereafter, deliver at the Tender Board Offices the original, the duplicate to be forwarded to consignee in accordance with Clause 16. (In the case of the Commonwealth Departments, however, the Commonwealth consignment note only which accompanies the order must be used.) Should the goods thus forwarded be rejected, the contractor must bear the cost of replacing such goods, for which service the departmental consignment note is not to be used. Any infringement of this condition will subject the contractor to such mulct as the Tender Board may recommend under Clause 13 of these conditions.

16. Immediately after the consignment of the goods, the officer to whom they are forwarded shall be notified by the contractor on the duplicate consignment note provided for the purpose, that the goods have been sent. On receipt of this document, the officer to whom it has been forwarded shall acknowledge thereon the receipt of the goods without delay to the Stores and Transport Office. In the event of loss through failure on the part of the contractor to comply with this condition he will be held responsible, and the amount of the loss incurred for same will be deducted, as in Clause 8.

17. Should the order on the contractor specially provide that goods of a fragile character, or such as are liable to suffer loss by leakage, shall be consigned at the risk of the Railways Commissioners under special freight conditions, the contractor shall in such instance provide in writing on the consignment note an intimation to that effect, failing which, in the event of loss, he shall bear the whole cost of replacing the goods, the amount being deducted from the contractor's account or the security money.

18. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise; and no such transfer will be recognized by the Government. If it is found during the currency of the contract that the contractor has not conformed to the condition of advertisement—which stipulates that if a tenderer be a member of a firm, and such firm be interested in the contract, then the tender is to be in the name of the firm, and not in that of the individual—then the Honorable the Treasurer may, on the recommendation of the Tender Board, determine the contract, and forfeit the security money.

19. The contracts entered into under these conditions are not to be considered as being broken, infringed, or vitiated by the importation of stores for the Government service or by any contracts or purchases made by the Agent-General for Victoria, or by any contracts or agreements made for any works or supplies by the Department of Public Works through the Board of Land and Works or State Rivers and Water Supply, Forests, and Electricity Commissioners, or on account of the Land Settlement and Purchase Board or Country Roads Board, or for the Federal Government, or for the Railway Department, or for supplies for Technical, High or Higher Elementary Schools, or for the Metropolitan Parks and Gardens, or for supplies to the Aborigines, or for connexions and fittings for Drills and Batteries; or by any article being made at and supplied for the use of any Government establishment, or by the consumption of the surplus stock of any Government establishment.

20. Notwithstanding anything contained to the contrary in section 152 of the Customs Act 1901-24, it is hereby expressly provided that upon any alteration of the duty collected affecting the goods included in this contract, the contract price shall not be altered, and the contract may be terminated at the option of either party by two months' notice in writing from the first day of the calendar month next ensuing, and within the period for which the contract is made. The contract for the unaffected items shall remain in full force and effect. The foregoing provision, however, shall not apply to contracts for imported goods in which fixed and definite quantities to be delivered at stated times are expressed in the Schedules. Any notice to be served under this condition shall be deemed to have been duly served if sent to the contractor in a registered letter to his last-known place of business or abode.

21. Under no circumstances, other than those mentioned in Clause 20, will a contractor be permitted to abandon his contract. In the event of the contractor failing to carry on the contract, the contract security money will in that case be absolutely forfeited; and, in addition, the contractor will be held liable for any loss which the Government may sustain in consequence of such failure.
