STATE ELECTRICITY COMMISSION OF VICTORIA.

State Electricity Commission Acts.

WHEREAS His Excellency the Governor in Council has by Order dated 30th day of January, 1923, approved of the State Electricity Commission of Victoria undertaking the supply of electricity in bulk or otherwise in accordance with the provisions of the State Electricity Commission Acts to persons and bodies of persons (including, if the case so requires, undertakings and public statutory corporations) in the Northern and North-eastern Districts of Victoria: And whereas, pursuant to the *State Electricity Commission Act 1922* (No. 3265), application has been made to the Commission by the Municipal Council of the Borough of Echuca for the supply of electricity by the Commission to persons or bodies of persons, corporate or unincorporate, other than undertakers or public statutory corporations, within the following area comprising parts of the municipal district of that borough, that is to say, within the Township of Echuca: And whereas the Commission having as required by that Act inquired into the subject-matter thereof and determined a scale of charges to be made for electricity supplied in accordance with the application, is satisfied that the probable demand for electricity within the area will be such that the annual revenue obtainable from the supply of electricity according to the scale of charges so determined will be sufficient to pay the total annual cost to the Commission of or incidental to the supply, including the erection of a temporary power station to give supply until the time when the supply from the Commission's general system can be made available, and had reported to the Minister the result of such inquiry and determination, and has recommended that the necessary works be provided and constructed by the Commission in connexion with the undertaking above referred to for the supply of electricity by the Commission in the Northern and North-eastern Districts of Victoria: It is recommended for the approval of His Excellency the Governor in Council that the necessary works be provided and constructed by the Commission for and in respect of the supply of electricity by the Commission in accordance with the application above recited, to date as from the 10th November, 1924.
